Wheat and Cotton

At the Farm Capital

Grain tides have converged at the Chicago Board of Trade for nearly a century.

Four hundred million bushels of grain are received each year.

In Chicago's huge grain futures market nations are anticipating their needs months in advance.

When the Chicago cotton futures market was established it brought trading in grain, cotton and provisions under a single roof.

Chicago's network of private wires patterns the country. Across these wires clatter the price quotations registered at the Board of Trade. By creation of the cotton market and use of existing facilities, a wider interest in that commodity has been developed. And from this wider interest the whole industry will benefit.

Swift growth of the cotton futures market on the Chicago Board of Trade has been one of the commercial surprises of the year. A new throbbing artery of commerce now links Chicago and the southwest.

Growers, spinners, merchants, shippers and speculators turn to the Chicago cotton market because its contract is so basically sound and commercially attractive.

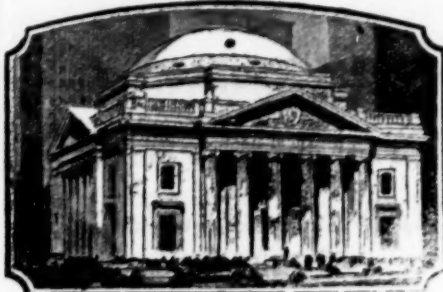

When the world thinks of wheat it thinks of Chicago. And the growth of the Chicago cotton market points to a like destiny.

Chicago Board of Trade

(Send your grain, cotton and provisions orders to Chicago. Literature describing this vast central market may be had on request.)

Financial

Associated Gas and Electric System

Founded in 1852

The Greatest Step Toward Economical Electric Power

The first steam turbine in the United States was installed in 1895 in New York City. Since then the turbine has been developed to a high degree of efficiency by American engineers.

The invention and use of the steam turbine has been the greatest step toward economical electric power in the history of the industry.

Instead of 12 pounds of coal per kilowatt hour of electricity 30 years ago, efficient plants now require less than 2 pounds. Advances of this kind are making possible the widespread and growing use of electricity by city, village and farm.

New steam turbines of the latest design are now being installed to care for the growing electrical needs of the Associated properties serving Staten Island, New York and Erie, Pennsylvania.

Convertible Preference Stock (Participating)

(Without Par Value)

Entitled to cumulative dividends of \$3 per share per annum after provision has been made for all dividends accrued upon the Preferred Stock (7% cumulative) and, after dividends of \$1 per share upon the Common Stock in any fiscal year, participates with the latter in additional dividends at a rate which will give the Convertible Preference Stock per share twice the additional dividend received per share by the Common until the Convertible Preference Stock shall have received \$2 per share in any such fiscal year in addition to the \$3 cumulative dividend.

Cumulative dividends payable quarterly January 1, April 1, July 1 and October 1. Entitled to payment at \$65 per share and accrued dividends in event of voluntary liquidation and \$40 per share and accrued dividends in event of involuntary liquidation after payment of the par amount of all outstanding Preferred Stock, together with accumulated dividends, but before any distribution is made upon Common Stock. Redeemable in whole or in part at any time upon thirty days' notice, at \$65 per share and accrued dividends. Each holder of Convertible Preference Stock is entitled to one vote for each share of such stock outstanding in his name.

Convertible at the option of the holder at any time up to and including the day prior to any date specified for redemption share for share into Common Stock.

Mr. R. L. Nafziger, President of the Company, has summarized his letter to us as follows:

EARNINGS: Messrs. Arthur Young & Company, Auditors and Accountants, certify that for the three years and forty weeks ended October 9, 1926, the net profits applicable to dividends on the Convertible Preference Stock and Common Stock, after deducting annual interest and bond discount charges of the \$2,300,000 First Mortgage Six Per Cent. Gold Bonds, depreciation, Federal income taxes and the annual dividend requirements of the Preferred Stock, were at the average rate of \$168,490.80 per annum, or one and four-fifths times the annual requirement for the \$3 cumulative dividend on the Convertible Preference Stock. In preparing their statement, the accountants have included an estimate, by the President, of savings in certain excess material costs during 1925 and 1926 amounting in the aggregate to \$180,000 and have increased depreciation for the full period by a total of

\$314,050.76 to conform to the higher rates as submitted by The American Appraisal Company.

ASSETS: The balance sheet of the Company as of October 9, 1926, as certified by Messrs. Arthur Young & Company, Auditors and Accountants, and after giving effect to the issuance of the \$2,300,000 First Mortgage Six Per Cent. Gold Bonds and the reclassification of the capital stock, shows net tangible assets applicable to the Convertible Preference Stock equal to \$36.78 per share. This does not take into consideration the Company's exceedingly valuable goodwill, trade marks, copyrights, etc., which are carried in the balance sheet at a sum equal to approximately \$40 a share additional on this stock.

PROTECTIVE PROVISIONS: The Articles of Incorporation contain unusually strong provisions for the safeguarding of the Convertible Preference Stock.

The properties have been examined and appraised by The American Appraisal Company and the books and accounts for the three years ended January 2, 1926 and the forty weeks' period ended October 9, 1926 have been audited by Messrs. Arthur Young & Company, Auditors and Accountants. All legal details in connection with this issue of Convertible Preference Stock will be passed upon by Messrs. Masten & Nichols, New York, and Messrs. West & Eckhart, Chicago. The Convertible Preference Stock is offered when, as and if issued and received by us and subject to the approval of legal proceedings by our counsel.

Price \$37.50 per share

Common Stock (par value \$5)-----	250,000 shs.	155,890 shs.

Mr. R. L. Nafziger, President of the Company, has summarized his letter to us as follows:

BUSINESS AND PROPERTY: The Schulze Baking Company, incorporated in 1893 under the laws of the State of Illinois, operates twelve baking plants located in Chicago, Peoria and Springfield, Illinois; Kansas City, Missouri; Cincinnati, Ohio; Omaha, Nebraska; Detroit and Grand Rapids, Michigan, and Des Moines, Iowa. Because of their geographical position, the plants form an effective operating group. They are all equipped with improved baking machinery, making it possible to turn out a very high grade product in large quantity at a minimum cost.

The trade names owned by the Company are widely and favorably known. "Butter Nut Bread" is considered one of the best trade names for bread in the United States. Among the many other popular trade names owned by the Company are "Butter Krust Bread" and "A 1 Bread."

AN ESSENTIAL INDUSTRY: The baking industry ranks high among the manufacturing industries of the country and is unquestionably one of the leaders of the nation's essential food industries. The remarkable stability of the business was strikingly demonstrated during the World War. The fundamental factors are daily sales, cash dealings, quick turnover and volume of production. The possibilities of inventory losses are reduced to a minimum, as there is little accumulation of raw material and practically all of the output is disposed of daily.

PURPOSES OF ISSUE: The proceeds from the sale of these bonds will be used to retire the present outstanding funded debt, to reduce floating debt, to reimburse the Company for expenditures made in connection with additions and improvements to property and to increase working capital.

SECURITY: In the opinion of counsel the bonds will be secured by a direct first mortgage upon all the fixed property, plant and equipment of the Company.

REDEMPTION FUND: Company covenants to deposit with the Trustee during March of each year, commencing 1930, cash and/or First Mortgage Bonds at par in an amount equal to 15% of the earnings of the Company (as defined in the indenture) for the last preceding fiscal year, such annual payment, however, to be not less than \$25,000 nor more than \$75,000. Cash so deposited shall be applied to the purchase of bonds at not exceeding 105 and accrued interest or to their redemption at that price.

EARNINGS: The net profits of the Company applicable to interest charges, bond discount, depreciation and Federal taxes, after adjustment of certain estimated excess material costs during 1925 and 1926 amounting in the aggregate to \$180,000, as certified by Messrs. Arthur Young & Company, Auditors and Accountants, for the three years and forty weeks ended October 9, 1926, were at the average rate of \$652,793.44 per annum, or FOUR AND SEVEN-TENTHS TIMES the annual interest requirements of the \$2,300,000 First Mortgage Six Per Cent. Gold Bonds. The net profits of the current year to October 9 are at the annual rate of approximately four and one-half times such annual interest requirements.

ASSETS: The balance sheet of the Company as of October 9, 1926, as certified by Messrs. Arthur Young & Company, Auditors and Accountants, and giving effect as of that date to the issuance of these bonds and the reclassification of the capital stock, shows net tangible assets of \$4,868,305.41, a sum equal to \$2,117 for each \$1,000 First Mortgage Six Per Cent. Gold Bond. This does not take into consideration the Company's exceedingly valuable goodwill, trade marks, copyrights, etc., which are carried in the balance sheet at a value of \$1,234,597.16.

The properties have been examined and appraised by The American Appraisal Company and the books and accounts for the three years ended January 2, 1926 and the forty weeks' period ended October 9, 1926 have been audited by Messrs. Arthur Young & Company, Auditors and Accountants. All legal details in connection with this issue of bonds will be passed upon by Messrs. Masten & Nichols, New York, and Messrs. West & Eckhart, Chicago. The First Mortgage Six Per Cent. Gold Bonds are offered when, as and if issued and received by us and subject to the approval of legal proceedings by our counsel.

Price 99 and accrued interest, to yield about 6.10%

CAPITALIZATION

(On completion of present financing)

*6% Cumulative Convertible Preferred Stock (\$100 Par)	Authorized \$1,500,000	Outstanding \$1,500,000
Common Stock (No Par Value)	200,000 shares	120,000 shares

* Convertible into Common Stock at the rate of \$45 per share for the first 7,500 shares offered for conversion and at the rate of \$50 per share for the remainder.

Mr. Weston M. Fulton, President of The Fulton Company, Summarizes his letter as follows:

HISTORY: The Fulton Sylphon Company will be incorporated in Delaware as successor to The Fulton Company, a Maine corporation, which dates back to 1904 when Mr. Fulton received his first United States patents. Organized in that year with a total capitalization of \$50,000 The Fulton Company has, without the addition of a dollar of new capital, paid liberal cash dividends regularly since 1909 to its stockholders and has grown to be the largest establishment in the world devoted to the manufacture of thermo-sensitive and pressure-sensitive devices.

BUSINESS: The business of the company is chiefly confined to the field of automatic control and regulation of temperature and pressure, in which it is generally accepted as the leader. Hundreds of different articles which are nationally known in the trade are manufactured by this company and are distributed under the nationally known trade name Sylphon to over thirty-five hundred different customers. This company was the originator of the all-metal, seamless bellows which is extensively used as the basis of temperature regulation, and the Sylphon trademark used on valves and regulators is accepted as creating the standard in that trade.

The Sylphon bellows marks the greatest improvement in heating appliances that has ever been made. It is a highly resilient, practically indestructible bellows, sensitive to changes in temperature and widely used in thermo-sensitive and pressure-sensitive devices; has supplanted many previous devices and has had great universal success. Constant refinement in the vast number of heat treating processes employed today in almost every line of manufacture is resulting in an ever increasing demand for automatic temperature regulation and this demand is being largely supplied by Sylphon regulators. It is used by the hundreds of thousands to control the flow of steam in steam heating lines, to open and control automatically the valves of steam heating radiators; to ventilate buildings and to control the operation of refrigerating machines. In addition it is used in airplanes and automobiles.

PLANT: The Fulton Company's plant is located in Knoxville, Tennessee, and covers approximately eleven and one-half acres of ground. The buildings, sixteen in number, are of modern concrete and brick construction having 250,000 square feet of floor space. Equipment and machinery is in high-grade condition and present facilities are sufficient to cover a 25% increase in business.

EARNINGS: Net earnings of The Fulton Company from January 1, 1926 to November 6, 1926 after deductions for taxes and depreciation amounted to \$824,655 which, after proportionate allowance for dividends on the Preferred Stock, shows earnings of \$6.23 per share of Common stock to be presently outstanding. This compares with net earnings for the year ended December 31, 1925, after taxes and depreciation, of \$680,815, which on the same basis shows earnings for the Common of \$4.92 per share.

Based on the 1926 earnings to November 6, the company estimates that net earnings after taxes, depreciation and Preferred dividends for the full calendar year of 1926 will exceed \$7 per share on the Common stock now to be issued.

DIVIDENDS: Dividends will be inaugurated on the common stock of The Fulton Sylphon Company at the rate of \$3.50 per share per annum beginning April 1, 1927.

MANAGEMENT: The management of the new company will remain under the direction of Mr. W. M. Fulton, President and Founder of the company, Mr. Warren Webster, Vice-President, and Mr. C. N. Mynderse, General Manager. They have been with the company for many years and have been responsible for its development. The executives are themselves large holders of the stock of the company.

Application will be made to list this Stock on the New York Stock Exchange

We offer this stock if, as and when issued and received by us, subject to the approval of our counsel Messrs. Lord, Day & Lord. The company's accounts have been certified by Messrs. Ernst & Ernst, certified public accountants. It is expected that temporary certificates will be ready for delivery on or about January 12, 1927.

	Authorized	Outstanding
7% Cumulative First Preferred Stock.....	\$600,000	\$557,000
7% Cumulative Second Preferred Stock.....	500,000	348,800
Common Stock (no par value).....	200,000 shares	197,550 shares

(The Company has no funded debt.)

Salient features as summarized by Mr. A. G. Stouder, President of the Company:

Business: The Hobart Manufacturing Company, in successful operation for more than 30 years, developed the first electric coffee mill, later entering into the manufacture of electric meat chopping, mixing and food cutting machines. It is the largest manufacturer of such equipment and has over 300,000 machines in use. Hobart products are standard equipment in the principal chain grocery stores, markets, commercial kitchens, confectioneries, bakeries and other basic food industries.

The Company has acquired recently the business and patents of the Crescent Washing Machine Company, manufacturers of dish washing and metal washing machines for commercial kitchens and industrial companies. The Crescent Company serves the same general trade and occupies the same relative position in its field as that of the Hobart Company.

Branch offices or selling agencies are maintained in many of the larger cities of the United States and the Company is represented through subsidiary companies and agencies in the principal foreign countries. The Company's plant, located at Troy, Ohio, is highly efficient and modern.

Earnings: In every year for the past 20 years the Company has shown a substantial profit, including 1920 and 1921, years of business depression. Earnings of the Company and its proportion of earnings from foreign subsidiary companies, available for dividends, for the seven years ended December 31, 1926, (last two months estimated) including earnings of the Crescent Washing Machine Company only for 1925 and 1926, after all charges, including depreciation and federal income taxes, without deducting royalties paid on Crescent patents now owned, averaged \$697,957 per annum, equal,

after the present preferred dividends, to \$3.21 per share of common stock to be outstanding. These royalties amounted to \$22,746 in 1925 and to \$23,809 in 1926. For the two year period ended December 31, 1926, annual earnings on the above basis averaged \$904,678, equal to over \$4.25 per share of common stock after preferred dividends. For the year ended December 31, 1926, such earnings should be approximately \$870,000, equal to \$4.08 per share of common stock after preferred dividends.

Assets: Current assets as of October 31, 1926, after giving effect to the acquisition of the Crescent Washing Machine Company, amount to \$4,020,746, compared with current liabilities of \$432,644. Net tangible assets applicable to the common stock, as shown on the balance sheet after deducting goodwill, amount to \$3,960,157 equal to \$20 per share. Giving effect to the appraisal of the fixed assets at Troy as determined by Messrs. Sanderson & Porter and to the actual value of the Company's investments in foreign subsidiaries, total net tangible assets applicable to the common stock would amount to \$4,965,154, equal to over \$25 per share.

Dividends: The Company has paid cash dividends on its outstanding preferred and common stocks in every year for the past twenty years. Dividends will be paid on the present common stock at the annual rate of \$2 per share.

Management: Messrs. A. G. Stouder, President; H. L. Johnston, Vice-President; J. M. Spencer, Secretary; E. E. Edgar, Treasurer; W. E. Bowyer, the directors of the company and substantial owners of common stock, will continue to actively manage the company and direct its policies.

OF THE ABOVE OFFERING, 11,250 SHARES OF STOCK ARE BEING ACQUIRED FROM THE COMPANY
AND THE REMAINDER FROM INDIVIDUALS.

Application will be made to list this stock on the Cincinnati Stock Exchange and the New York Curb Market.

We offer this stock if, as and when issued and received by us, subject to the approval of Messrs. Ernst, Cassatt & Cottle, of Cincinnati and Johnson E. West, Esq., of Troy. Books and accounts of the Company have been audited by Messrs. Haskins & Sells. Appraisal of fixed assets and business examination have been made by Messrs. Sanderson & Porter.

Kissel, Kinnicutt & Co. and Hallgarten & Co., Fiscal Agents

The following information has been furnished by Senor Julio Holguin, Secretary of the Treasury of the Department of Cundinamarca:

CUNDINAMARCA: The Department of Cundinamarca, located in the interior of Colombia, includes the City of Bogota, capital of the Republic, and has a population officially estimated at 1,142,000.

PURPOSE: The proceeds of this loan (all series), together with a subsidy from the Republic of 30,000 pesos per kilometer, are to be used to build a railroad to a port on the lower Magdalena River. This will afford direct communication from Bogota to steamer navigation on the Lower River, effecting a saving of several days in time and avoiding many transfers of passengers and freight. The new railroad will open up a region rich in coffee, sugar and other resources, and will also make available in the Departments adjacent to the Lower River a market for the live stock and agricultural products of Cundinamarca, now chiefly supplied by imports from countries outside Colombia.

SECURITY: The Bonds will be secured by the full faith and credit of the Department, as well as by a first charge on its revenues from taxes which in the last fiscal year constituted approximately 60% of its total revenues, and by pledge of the shares of the Cundinamarca Railway Company owned by the Department. This railway is jointly owned by the Republic and the Department, the latter holding slightly over 50% of the total shares.

REVENUES: Revenues of the Department in the past five years have increased from \$1,108,621 to \$4,020,753, while income from the pledged revenues increased from \$469,958 to \$2,280,442.

For the five-year period the pledged revenues have averaged 3.3 times, and for the 1926 year were 8 times, full annual requirements for interest and amortization of this issue.

FINANCIAL POSITION: An official appraisal of property in the Department in 1925 showed a valuation of over \$250,000,000, of which nearly \$200,000,000 was subject to taxation. The valuation of Department-owned property was over \$8,000,000. It has no funded debt aside from this issue. Floating debt amounts to approximately \$180,000, and provision has been made for its liquidation.

Conversions of pesos to dollars have been made at parity of exchange (\$.9733).

These Bonds are offered when, as and if issued and accepted by us, and subject to the approval of counsel, Messrs. Chadbourne, Hunt, Jaekel & Brown, New York City, who as to questions of Colombian law will consult with Senor Pedro Maria Carreno. We reserve the right to reject subscriptions in whole or in part, to allot less than the amount applied for and to close the subscription books at any time without notice. Temporary bonds or interim receipts of the National Bank of Commerce in New York deliverable in the first instance.

\$1,250,000

The Black & Decker Manufacturing Company

Ten Year 6½% Sinking Fund Convertible Debentures

Dated January 1, 1927

Due January 1, 1937

Authorized and to be issued \$1,250,000. Interest payable January 1st and July 1st. Callable as a whole or in part on any interest date on 30 days' notice at 105 and accrued interest up through December 31, 1931, the premium decreasing 1% each year thereafter. Coupon bonds in denominations of \$1000 and \$500. Registerable as to principal. Principal and interest payable at the Maryland Trust Company, Baltimore, Trustee, and Bankers Trust Company, New York.
Interest payable without deductions for Normal Federal Income Tax up to 2%. Maryland 4¼, Pennsylvania 4, Connecticut 4 and District of Columbia 5 mills tax and Massachusetts income tax up to 6% per annum refundable upon proper application.

These Debentures are convertible at any time at the holders' option into Common stock of the Company, at \$25 per share during 1927 and thereafter at a price increasing \$1 per share each successive year to maturity.

We summarize from the letter of Mr. S. Duncan Black, President of the Company, as follows:

History and Business.

Incorporated in 1910 under the laws of Maryland, The Black & Decker Manufacturing Company is today the world's largest factor in the production of portable labor-saving electric tools.

The Company owns modern plants at Towson, Maryland, three miles outside of Baltimore city limits and at Indianapolis, Indiana, with a combined floor area of over 137,000 sq. ft. Sales and service stations are maintained in nineteen cities. The automotive, industrial and plumbing trades are sold through over 800 jobbers. The sales policy includes extensive national advertising and each yearly increase of advertising has been reflected in increased sales. Black & Decker tools are now used in practically every industry, either for production or for maintenance work.

Security and Sinking Fund

These Debentures are a direct obligation of the Company and constitute its sole funded debt. So long as any of these Debentures are outstanding, no mortgage or pledge of any of the Company's properties or assets may be made, except that purchase money mortgages may be placed upon property hereafter acquired.

A sinking fund, commencing July 1, 1928, is provided for the retirement annually of 5% of the maximum amount of Debentures at any time outstanding, either by purchase at or below the call price, or redemption by lot.

Earnings

Earnings of the Company, as certified by Ernst & Ernst, have been as follows:

Calendar Year	Net Sales	Net Available for Interest after Depreciation but before Federal Taxes	Times Interest on these Debentures
1926 (9 Months)	\$3,270,694	\$328,764	5.39
1925	3,231,180	455,085	5.60
1924	2,628,628	447,551	5.50
1923	2,287,936	276,522	3.40
1922	1,349,373	256,219	3.15

Earnings for 1926, after allowing for interest on these Debentures, Federal taxes at the present rate of 13½% and preferred dividends, were at the annual rate of \$2.25 per share of common stock.

Assets

Balance sheet as of September 30, 1926, adjusted to give effect to the present financing and certified to by Ernst & Ernst, shows a ratio of current assets to current liabilities of over 4 to 1, and net quick assets of \$1,484,635 or \$1,187 per \$1,000 Debentures. Net tangible assets for these Debentures, including plants at recently appraised sound value, but exclusive of patents, trade marks and good will, were in excess of \$3,321,000 or \$2,656 per \$1,000 Debenture.

These Debentures are offered "when, as, and if issued and received by us" and subject to approval of counsel.

CAPITALIZATION

	<i>Authorized</i>	<i>Outstanding</i>
Capital Stock (shares of \$20 par value)-----	2,500,000 shares	1,380,316 shares

Senor Don Simon I. Patino, President of the Company, has summarized his letter describing the properties and history of the Company as follows:

Organization and Property: "Patino Mines & Enterprises Consolidated (Incorporated) was organized on July 5, 1924, for the purpose of acquiring the Uncia and Llallagua groups of tin mines located in Bolivia. In addition, the Company has purchased the Machacamarea-Uncia Railway, connecting its plants with the main line of the Antofagasta & Bolivia Railway, fifty-seven miles distant.

Earnings and Production: Messrs. Price, Waterhouse & Co. advise that the earnings of Patino Mines & Enterprises Consolidated (Incorporated), before charging depreciation and depletion, as shown by the accounts audited in Bolivia by Messrs. Price, Waterhouse, Fallier & Co., but charging additional Bolivian profits taxes paid, to the years to which they were applicable, were as below. The production of tin, as shown by the Company's records, is also given.

	<i>Production of Tin in Long Tons</i>	<i>Earnings as above</i>	<i>Per Share</i>
Nine months ended December 31, 1924-----	10,284	\$5,309,277*	\$3.84
Year ended December 31, 1925-----	10,039	7,016,222**	5.08

* At \$4.42 per £1 and ** at \$4.83 per £1, the average rates for the respective years.

These figures are based on the Company's method of valuing the inventory of concentrates on hand at the end of each fiscal period at the estimated net selling price.

For the ten months ended October 31, 1926, production as reported by the Treasurer of the Company was 8,733 long tons and earnings as shown by the Company's books were \$5,271,885 (at \$4.86 per £1).

The estimated visible ore, which included only 'positive' and 'probable' bodies, as given in the report of Messrs. Yeatman & Berry, Consulting Mining Engineers, of New York, completed early in 1926, amounted to a total of 1,061,000 tons before sorting, having a total tin content of 50,289 long tons.

The General Manager has reported to the Company that there is every reason to believe that the fine tin contents of new ore reserves developed during 1926 will be equal to the total tonnage of fine tin extracted from the mines during 1926.

Distribution on Shares: For the nine months ended December 31, 1924, the Company made distributions on the stock aggregating \$3,219,481, equal to \$2.33 per share of stock now outstanding. For the year ended December 31, 1925, the Company paid \$4,355,469, equal to \$3.15 per share; and for the first ten months of the current year \$3,015,161, or \$2.18 per share. Conversions from Pounds Sterling have been made at the rate prevailing on the day on which the distributions were paid. These payments have been referred to as distributions, rather than as dividends, as, this being a mining company, they must be regarded partly as a return of capital and partly as dividends out of profits on the capital invested, depending upon the life of the mines."

ENGINEERS' REPORT: A thorough and exhaustive examination of the properties of Patino Mines & Enterprises Consolidated (Incorporated) was completed by Messrs. Yeatman & Berry, Consulting Mining Engineers, of New York, early in 1926. In their report they refer to the properties of the Company as "the two greatest tin mines in Bolivia and probably in the world." The examination, which consumed about six months' time, involved the taking and assaying of over 22,000 samples. This report includes a history and description of the properties, past profits and dividends, and an estimate of the visible ore reserves and of the operating profits to be derived therefrom. Copies of this report are on file in the offices of the Bankers and in the offices of the Company, both in New York, and are there available for inspection.

For more detailed information reference is made to circular containing copy of the letter of Senor Don Simon I. Patino and extracts from the report of Messrs. Yeatman & Berry hereinabove referred to, copies of which circular will be furnished by the Bankers upon request.

Price \$25 Per Share

This offering is made in all respects, when, as, and if received and accepted by us and subject to the approval of our counsel. We reserve the right to reject any and all subscriptions in whole or in part, to allot less than the amount applied for, and to close the subscription books at any time without notice. It is expected that delivery of temporary stock certificates (exchangeable for definitive stock certificates when ready for delivery) will be made on or about January 4, 1927, at the office of Lehman Brothers, 16 William Street, New York, N. Y., against payment therefor in New York funds.

New Issue

\$2,200,000

Republic of Panama

30-Year 6½% External Secured Sinking Fund Gold Bonds

Dated December 1, 1926.

Due December 1, 1956.

Interest payable June 1 and December 1. Principal, premium and interest payable in New York City in United States gold coin of the present standard of weight and fineness without deduction for any Panama national or local taxes present or future. Coupon bonds in denominations of \$1,000 and \$500, registerable as to principal only. Redeemable in whole or in part either at the option of the Republic or through the operation of the Sinking Fund, on any interest date prior to maturity, on not less than 60 days' notice, at 103% on or before December 1, 1936; at 102% thereafter and on or before December 1, 1946; and at 101% thereafter.

A cumulative sinking fund is calculated to retire the entire issue before maturity.

THE NATIONAL CITY BANK OF NEW YORK, Fiscal Agent of the Loan.

The following is summarized from information received by cable and furnished us by Floyd H. Baldwin, Esq., Fiscal Agent of the Republic, and from official and other sources:

RELATIONS WITH THE UNITED STATES: In accordance with Article I of the Treaty between the United States and Panama, ratified February 26, 1904, "the United States guarantees and will maintain the independence of the Republic of Panama." The Government of the United States not only has the right to regulate sanitary measures in the Cities of Panama and Colon, but also has the right and authority to maintain public order in these cities and in the territories and harbors adjacent thereto. The United States, under the terms of this treaty, was granted in perpetuity the "use, occupation and control" of the Canal Zone.

In accordance with the terms of Article XIV of the Treaty, the United States paid \$10,000,000 gold to the Republic. The Constitution of Panama stipulates that \$6,000,000 of this payment shall permanently be kept invested in interest-bearing securities. An Act passed by the National Assembly of Panama and signed by the President, provides that this "Constitutional Fund" shall be invested in first mortgages on New York City real estate; and the fund is so invested. During the life of the Treaty, the United States also is obligated to pay the Republic \$250,000 gold per annum.

The United States Government invested in the Panama Canal, over \$350,000,000, of which amount, for purposes of accounting, over \$112,000,000 was written off to national defense in 1921. The United States Government has also over \$29,000,000 invested in auxiliary enterprises other than those conducted with funds of the Panama Railroad.

PANAMA: Excluding the Panama Canal Zone, a strip of land approximately ten miles wide, occupied by the United States, Panama has an area of 32,380 square miles. In 1923, its population was 446,093, an increase of 110,000 over 1912. The country is rich in natural products and resources, the chief exports being tropical fruits. Panama is also rich in timber resources and has an extensive cattle raising industry.

The United States dollar is legal tender and United States currency is the principal circulation medium.

PURPOSE OF ISSUE: The acts authorizing this loan provide that the purpose thereof shall be the construction of national highways, the construction of an aqueduct in Bocas Del Toro, the redemption of the outstanding National Defense Bonds and the completion of the sum appropriated for the extension of the Chiriqui National Railroad to the Port of Armuelles.

DEBT: The total external funded debt of the Republic, including this issue, amounts to \$10,457,000. Of this debt \$5,693,000 is secured on the net income of the Constitutional Fund and the annual payments made by the United States. For the year 1925, the net income of the Constitutional Fund, plus the annual payment by the United States, was approximately \$560,000, whereas the service charge on the \$5,780,000 external debt then outstanding was only approximately \$470,000, leaving a surplus of over \$90,000. The Republic is thus in the unique and advantageous position of carrying the above \$5,693,000 external obligations wholly with external resources without using revenues from home taxation. The total internal debt of the Republic is only \$2,551,862, which includes \$1,755,063 due the United States Government for municipal works constructed by it in the cities of Panama and Colon and \$226,375 National Defense Bonds which are to be redeemed on March 10, 1927. The Republic has no floating debt.

Total internal and external debt is less than \$30 per capita.

SECURITY: These bonds have been authorized by Acts of the National Assembly approved by the President. The bonds are the direct credit obligations of the Republic of Panama, and are specifically secured by a first charge on the income derived from the Retail Liquor Tax, subject only to the existing charge in favor of \$226,375 outstanding National Defense Bonds, provision for the redemption of which on March 10, 1927, has been made, and for the payment of which cash will be deposited with the Fiscal Agent of the loan. For the past five years, the revenues derived from the above tax have averaged over \$537,000 per annum, against a total service charge for interest and sinking fund on the present Loan of \$176,000 per annum, or over three times the service charge. The Republic further agrees that if in any year, the receipts from the above tax fall below \$500,000, it will pledge other taxes as security for this loan.

SINKING FUND: Under the terms of the Loan, it is provided that on or before the tenth day of each and every month, the Republic will remit the sum of \$14,666.67 to the Fiscal Agent of the Loan. After a sufficient sum has been set aside for the payment of interest, the balance will be used for the retirement of bonds, either by purchase at prices not exceeding the redemption price, or, if not so obtainable, to the redemption of bonds by lot. Bonds so acquired are to be canceled. This Sinking Fund is calculated to retire the entire issue before maturity.

We offer these Bonds when, as and if issued to and received by us, subject to prior sale and to the approval of our counsel, Messrs. Shearman & Sterling.

\$6,848,500

The New York, Chicago and St. Louis Railroad Company

("Nickel Plate" System)

Cumulative Preferred Stock, 6% Series A

Dividends Exempt from the Present Normal Federal Income Tax
Exempt from the Pennsylvania Four Mill TaxTransfer Agent:
Guaranty Trust Company of New YorkRegistrar:
Bankers Trust Company, New York

A letter from Mr. J. J. Bernet, President of the Company, copies of which will be furnished upon request, is summarized by him as follows:

The Company, known as the "Nickel Plate," comprises 1,692 miles of road, extending from Buffalo to connections with the principal western and south-western roads at Chicago, Peoria and St. Louis, and also reaching Indianapolis, Toledo and other important cities in the Middle West.

The Company owns shares of both the Chesapeake & Ohio and Pere Marquette Railways which, if the occasion may arise, the Company is, of course, free to deal with as it sees fit, including sale, exchange, segregation or distribution. Mutually advantageous traffic arrangements with the Chesapeake & Ohio and the Pere Marquette have been effected.

This Company, and the Grand Trunk Western Railway Company, each owns half the capital stock of the Detroit & Toledo Shore Line Railroad Company, connecting Toledo with Detroit, thus giving entrance to Detroit over jointly controlled rails.

The strategic location, directness, and low gradients of its lines enable the Company to offer shippers and its numerous connections a dependable, fast freight

Purpose of Issue

The proceeds from the proposed sale of this stock are to be used for reimbursement of the Treasury of the Company for expenditures for Additions and Betterments heretofore made.

Description of Issue

No stock having preference as to dividends or assets over the Cumulative Preferred Stock may be created without the consent of the holders of two-thirds of the Preferred Stock then outstanding, and at no time may the total amount of stock having preference as to dividends or assets over the common stock exceed 60% of the total capital stock then outstanding.

Except with respect to creation of stock having preference over Cumulative Preferred Stock, holders thereof are not entitled to voting powers, but if four quarterly dividends upon the stock shall be in arrears, or if a continuous period of two years shall have elapsed during the course of which the Company shall at no time have fully paid up all dividends due on the Stock, holders shall be entitled to elect three directors until all dividends due thereon shall have been paid.

Earnings

The combined revenues and income of the Company have been as follows:

Years Ended Dec. 31	Operating Revenues	Gross Income (excluding income from investment assets)	Interest, Rentals, etc.	Net Income (excluding income from investment assets)	Dividend Income from investment assets	Net Income
1920	\$52,385,412†*	\$7,242,276	\$3,531,356	\$3,710,920	-----	\$3,710,920

service that has proven of great competitive value. Such service has also had the effect of attracting a large volume of through traffic, which, because it requires relatively less handling and is less subject to costly delays at yards and terminals, can be transported more profitably than traffic of other types.

Capitalization

The Company will have outstanding upon completion of this financing \$107,530,000 funded debt, \$32,714,166 Cumulative Preferred Stock and \$30,406,464 common stock (including \$88,230 liability for conversion of stocks of constituent companies still outstanding).

Application will be made to list the additional Stock on the New York Stock Exchange

Net income (excluding income from investment assets) for the 6 years ended December 31, 1925, averaged \$4,838,040 per annum or more than 2.45 times the annual dividend requirement on \$32,714,166 Cumulative Preferred Stock. For the year ended December 31, 1925, such net income was \$5,345,207 or more than 2.70 times such dividend requirement.

Dividends on the Company's common stock have been paid from railroad earnings at the rate of 6% per annum since the organization of the Company in 1923, and beginning with January 1, 1926 additional dividends on such stock have been paid at the rate of 5% per annum from non-operating income derived from investment assets.

Cumulative Preferred Stock authorized, \$45,880,000. Cumulative Preferred Stock issued, 6% Series A, \$32,720,000, of which \$32,687,000 is outstanding (including this issue) and \$33,000 represents stock liability for conversion, of which approximately \$5,834 is to revert to Company's treasury. (The balance of the authorized Cumulative Preferred Stock may be issued in Series A, or in any other series with such dividend rates (not exceeding 8% per annum) and redeemable at such premiums (but at not to exceed 115%) as determined by the Directors at the time of issuance). Par value of shares \$100. Preferred as to dividends and assets and entitled to payment at par and accrued dividends in case of involuntary dissolution and at the redemption price in case of voluntary dissolution. Cumulative dividends payable quarterly January, April, July and October 1. Series A Stock is redeemable at the option of the Company after 3 years from the date of issue, as a whole or in amounts of not less than \$1,000,000, on any dividend date on 60 days' notice at 110% and accrued dividends.

\$103.50 per share, to yield about 5.80%

When, as and if received by us, Stock certificates will be delivered on or about December 30, 1926. All legal details will be passed upon by Messrs. Davis, Polk, Wardwell, Gardiner & Reed. The issuance and sale of this stock has been authorized by the Interstate Commerce Commission.

NEW OFFERING

\$3,250,000

The Long-Bell Lumber Company

Convertible Five-year 6% Collateral Gold Notes

Due December 1, 1931

Price 98 and Interest, Yielding about 6.50%

Dated December 1, 1926. Interest payable June 1 and December 1, at the offices of Halsey, Stuart & Co., in Chicago and New York, without deduction for Federal Income Taxes now or hereafter deductible at the source, not in excess of 2%. Notes will be in coupon form in denominations of \$1,000, \$500 and \$100.

These Notes will be convertible at the option of the holder at any time until 15 days prior to maturity into the First Mortgage 6% Gold Bonds, Series A, of the Longview, Portland & Northern Railway Company (issuance authorized by the Interstate Commerce Commission) except in event of redemption the conversion privilege must be exercised at least 15 days prior to date fixed in call for redemption. The difference between the conversion price and 100, will be paid by the Company in cash to the holder at the time of conversion, accrued interest to be adjusted. For each Note converted of a denomination of \$100 or multiple thereof, the holder will receive a like principal amount in pledged bonds at the following prices:

	Conversion Price	Approximate Yield to Maturity (July 1, 1945)
On and after December 1, 1926 to and including November 30, 1927 at	94 $\frac{5}{8}$	6 $\frac{1}{2}$ %
On and after December 1, 1927 to and including November 30, 1928 at	94 $\frac{3}{4}$	6 $\frac{1}{2}$ %
On and after December 1, 1928 to and including November 30, 1929 at	96 $\frac{1}{4}$	6 $\frac{3}{8}$ %
On and after December 1, 1929 to and including November 30, 1930 at	96 $\frac{3}{8}$	6 $\frac{3}{8}$ %
On and after December 1, 1930 to and including November 15, 1931 at	97 $\frac{5}{8}$	6 $\frac{1}{4}$ %

For detailed information regarding these Notes, attention is directed to a letter of Mr. R. A. Long, Chairman of the Board of the Company, from which the following is summarized:

Business: The business of the Long-Bell Lumber Company was founded in 1875, and is believed to be the largest lumber manufacturer and distributor in the world under a single ownership. The business is a complete industrial unit, comprising the ownership of raw material which it manufactures, wholesales, and retails, the forest products distributed being widely diversified. The present financing completes the Company's major financial program.

Security: The \$3,250,000 Convertible Five-Year 6% Collateral Gold Notes will be a direct obligation of the Company, and in addition will be specifically secured by pledge with the Trustee of a like principal amount of First Mortgage 6% Gold Bonds, Series A, of its subsidiary, the Longview, Portland & Northern Railway Company, which Bonds, in the opinion of counsel, are secured by first mortgage on the main line of the Railway Company and all appurtenances thereto, and, subject to certain conditional sale agreements, on all rolling stock and other equipment owned by the Railway Company. The actual cost of building and equipping the railroad

was over \$5,000,000. The Long-Bell Lumber Company owns the \$1,250,000 outstanding capital stock of the Railway Company for which it has paid in cash at par.

Assets: Approximately 99% of the capital stock of The Long-Bell Lumber Company is owned by The Long-Bell Lumber Corporation. The consolidated balance sheet of the latter corporation and subsidiaries, dated October 31, 1926, but adjusted to give effect to the proceeds of the present financing, and appreciation of book value of stumpage to basis of independent appraisal, shows net tangible assets, after deducting all liabilities except outstanding First Mortgage Bonds, and these Notes of \$99,971,362 or \$3,471 per \$1,000 principal amount of Bonds and Notes, and net quick assets of \$12,763,963.

Earnings: Net earnings during the past ten years have averaged \$5,497,822 before interest charges and Federal taxes, and were \$5,526,577 for the twelve months ended October 31, 1926. Maximum annual interest on the secured debt in the hands of the public, including these Notes, requires \$2,152,143.

A detailed descriptive circular, to which the foregoing is subject, will be sent upon request

Dated January 1, 1927, due January 1, 1967. Interest payable January 1 and July 1. Principal and interest payable in New York City, at the office of Speyer & Co. or of J. Henry Schroder Banking Corporation, Fiscal Agents, in United States gold coin of the present standard of weight and fineness, without deduction for any Bulgarian taxes, present or future. Coupon Bonds in denominations of \$1,000 and \$500.

Cumulative Sinking Fund sufficient to repay the entire Loan at or before maturity. This sinking fund is to be increased by all sums received after November 1, 1928 from settlers in payment for land, buildings, or material, or repayment of advances. The sinking fund is to be applied to the purchase of Bonds at or below par, or, if not so obtainable, to semi-annual redemption by lot at par, the first redemption to be on January 1, 1928.

Not subject to call before January 1, 1939, except for sinking fund. The Government reserves the right to repay at par on that date, or on any interest date thereafter, all or any part of the Bonds then outstanding, upon not less than six months' previous notice.

These \$4,500,000 Bonds and £2,400,000 Sterling Bonds constitute the total amount of the Loan. [£1,750,000 of the Sterling Bonds have been taken in London by the Ottoman Bank, J. Henry Schroder & Co. and Stern Brothers and the remaining £650,000 Sterling Bonds in Holland, Italy and Switzerland.

For further information reference is made to a circular and a letter, dated December 15, 1926, from His Excellency Wladimer Molloff, Minister of Finance of the Kingdom of Bulgaria, copies of which may be obtained from the undersigned.

Application will be made to list these Bonds on the New York Stock Exchange.

All proceedings in connection with the issuance of the above Bonds are subject to the approval of our counsel, Messrs. Cadwalader, Wickersham & Taft.

The above Bonds have been sold by the undersigned, if, as and when issued and received by them, at

92% and accrued interest, to yield about 7.65%.

Payment for the above Bonds is to be made at the office of Speyer & Co., 24 & 26 Pine Street, in New York funds on or about January 4, 1927, as called for, against delivery of Interim Receipts exchangeable for Definitive Bonds when ready.

\$10,000,000 Mortgage Bank of Chile

(Caja de Crédito Hipotecario, Chile)

**Guaranteed Five-Year 6% Agricultural Gold Notes of 1926
Due December 31, 1931.**

UNCONDITIONALLY GUARANTEED, BY ENDORSEMENT, BY THE REPUBLIC OF CHILE, AS TO PRINCIPAL AND INTEREST.

Not Redeemable Before Maturity.

Coupon bearer notes in denomination of \$1,000 each. Principal and interest to be payable at the option of the holders, in New York City at the office of Kuhn, Loeb & Co. or of Guaranty Trust Company of New York, in United States gold coin of or equal to the standard of weight and fineness existing December 31, 1926, or in Santiago, Chile, at the office of the Caja by sight draft on New York City, without deduction for any taxes, imposts, levies or duties of any nature now or at any time hereafter imposed by the Republic of Chile or by any state, province, municipality or other taxing authority thereof or therein and to be payable in time of war as well as in time of peace and whether the holder be a citizen or a resident of a friendly or a hostile state.

Interest Payable June 30 and December 31

His Excellency, the Honorable Miguel Cruchaga, Ambassador Extraordinary and Plenipotentiary of the Republic of Chile to the United States, has summarized his letter of December 22, 1926, copies of which may be obtained from the undersigned, as follows:

"The Notes are to be unconditionally guaranteed, by endorsement, by the Republic of Chile, as to principal and interest, and are to be issued in accordance with the law of the Republic of Chile, dated August 29, 1855, establishing the Caja, as amended by the Decree Law dated December 15, 1925, (which Decree Law was duly approved by the Commission appointed for that purpose by both Houses of Congress), with the Law No. 4074 dated July 27, 1926, with Decrees No. 834 dated November 17, 1926, and No. 998 dated December 16, 1926, and with the Decree of the President of the Republic of Chile, dated December 22, 1926, for the purpose of making loans secured by agricultural products or implements, which loans may not exceed 50% of the estimated value of the collateral.

During its entire existence of over seventy years, the Caja has operated successfully and has never failed to meet its obligations. The record of its loan collections is very satisfactory. The losses incurred by the Caja on property foreclosed under its mortgages have not exceeded \$40,000 in the aggregate for the last ten years.

On December 31, 1925, the Caja had outstanding various issues of bonds aggregating \$100,219,000, at gold par of exchange, against which it had made 10,198 mortgage loans, being an average of less than \$10,000 per loan. These loans aggregated less than 25% of the aggregate appraised improved value of the properties mortgaged as security therefor. As further security for its bonds and notes, the Caja has accumulated a reserve fund of approximately \$5,028,450, at gold par of exchange.

The present debt of the Republic of Chile, including the present and all other obligations guaranteed by it, aggregates about \$298,000,000, at gold par of exchange. The proceeds of the Government loans have been largely used for the construction or improvement of railways, harbors and other public works. The Government owns 3,624 miles of railroads, telegraph lines and other property, of an estimated value of approximately \$650,000,000, at gold par of exchange."

**THE UNDERSIGNED OFFER THE ABOVE NOTES, SUBJECT TO PRIOR SALE, AT
98¾% AND ACCRUED INTEREST TO DATE OF DELIVERY, TO YIELD
ABOUT 6.30% TO MATURITY.**

The above notes are offered if, when and as issued and received by the undersigned, and subject to the approval of counsel. In the first instance, interim certificates of Guaranty Trust Company of New York will be delivered against payment in New York funds for notes allotted, which interim certificates will be exchanged for definitive notes when prepared.

All of the above Notes having been sold, this advertisement appears as a matter of record only.

New Issue

December 22, 1926

\$7,500,000
Wisconsin Central Railway Company
Three-Year 5% Secured Notes

Dated January 1, 1927

Due January 1, 1930

**Principal and interest guaranteed by endorsement by the
 Minneapolis, St. Paul & Sault Ste. Marie Railway Company**

Total authorized issue \$7,500,000. Principal and interest payable in gold in New York City. Interest payable January 1 and July 1. Coupon notes of \$1,000 each, registerable as to principal. Redeemable as a whole, or in part by lot, at any time prior to maturity, on 60 days' notice, at 101 and interest on or before January 1, 1929, and thereafter at 100 and interest. The National City Bank of New York, Trustee.

The following information is summarized from a letter to us from Mr. C. T. Jaffray, President of the Wisconsin Central Railway Company and of the Minneapolis, St. Paul & Sault Ste. Marie Railway Company:

The Wisconsin Central Railway Company, owning 1,021 miles of railroad, forms the Chicago Division of the Minneapolis, St. Paul & Sault Ste. Marie Railway Company, which operates the lines of the Wisconsin Central under a 99-year lease dated 1909, and owns or controls practically all of its preferred and common stocks. Of the \$15,973,000 par value common stock owned by the Minneapolis, St. Paul & Sault Ste. Marie Railway Company, \$8,100,000 par value, or a majority, is owned outright and is held in its treasury, and the balance is pledged as security for its notes issued in exchange for such stock.

The Minneapolis, St. Paul & Sault Ste. Marie Railway Company is controlled by the Canadian Pacific Railway Company through ownership of a majority both of preferred and common stocks, and affords the Canadian Pacific a connection with Minneapolis and St. Paul over its lines, and with Chicago over the lines of the Wisconsin Central Railway. The Canadian Pacific Railway Company has guaranteed the interest on \$68,499,000 of funded debt of the Minneapolis, St. Paul & Sault Ste. Marie Railway Company.

These notes are to be secured by the pledge with the Trustee of \$10,000,000 Wisconsin Central Railway Company First and Refunding Mortgage 5% Gold Bonds due April 1, 1959. The market value of these bonds is approximately \$8,900,000, based on present quotations on the 4% bonds of the same issue. The First and Refunding Mortgage Bonds are secured by direct lien on all the railway property of the Wisconsin Central Railway Company, subject to prior liens aggregating \$29,468,000. Pending deposit with the Trustee of the full amount of said bonds (to be effected upon retirement of outstanding notes due April 15, 1927) these 5% notes may be issued against deposit with the Trustee of cash equal to 100% and / or bonds in principal amount equal to 133 1-3%, of the face value of the notes.

Statements herein are in no event to be construed as representations by us.

We offer these notes for delivery if, when and as issued and accepted by us, and subject to approval of the issue by the Interstate Commerce Commission and to approval of legal proceedings by our counsel. It is expected that delivery will be made on or about January 5, 1927, in the form of temporary notes of the company, or interim receipts of Dillon, Read & Co.

Price 99 and Interest. To Yield over 5.35%

Our State and Municipal Compendium.

A new number of our "State and City Compendium," revised to date, appears to-day, and all readers of the paper who are subscribers should receive a copy of it. As previously announced, this Supplement is now printed in two parts, Part One, containing the New England, the Middle and the Middle Western States, having been issued last June, while Part Two, embracing the rest of the country, appears to-day. The change is due to the fact that with the growth and multiplication of the municipalities of the United States the demand for additional space has become too heavy to satisfy within the limits of a single number.

The Columbia University Professors and the War Debts.

The statement, signed by 42 members of the Faculty of Political Science in Columbia University, which was issued on Monday, urging a world conference for a reconsideration of the question of the war debts, is one of those documents which always attracts a considerable amount of attention because of the position of the persons who frame and support it, irrespective of the worth of the document itself. When a group of professors, members of the faculty of a great university, give formal expression to their opinion regarding a matter of international importance which has long been a subject of controversy, the public outside of the university naturally con-

cludes that the matter at issue has been scrutinized, in all its aspects, with the trained eyes of scholars, that the conclusions arrived at are well grounded and logically sound, and that the course of action suggested is one worthy of serious consideration. It is thus that the learning for whose promotion a university exists ought to make its contribution to the conduct of practical affairs, clearing up what is obscure, separating the superficial from the fundamental, weighing all the facts that each may be given its just measure of influence or importance, and deducing conclusions which commend themselves to every intelligent mind.

Unfortunately for Columbia University, for the signers of the statement, and for the public in this country and abroad that will unquestionably be affected by what the professors have said, a reading of the statement leaves only a feeling of clear disappointment, mingled with surprise that such a document should have been forthcoming from such a source. The substance of the statement is an arraignment of the American war debts settlements as "unsound in principle." The principles that are called in question appear to be chiefly two: first, the treatment of the war loans as "business transactions" rather than as "joint contributions to a common cause," and, second, an ignorant and unjust application of the principle of capacity to pay. The results of the mistaken policy which has been pursued at these two points are to be seen, the signers aver, in a spreading of most of the debt payments over the egregiously long period of sixty-two years, an improper discrimination between the debtor countries in the amounts which they have been required severally to pay, an enormous financial burden which presses disastrously upon Europe, notwithstanding that the payments which are to be received mean, as alleged, little to the United States, and a growing hostility in Europe to this country which may well be regarded with regret and alarm. For the remedy of this unhappy situation the Columbia professors, while admitting that they are not agreed regarding the complete cancellation of the debts, earnestly recommend the calling of an international conference at which the question of the debts, together with the related question of reparations, shall receive "complete reconsideration in the light of present knowledge"

It is due to the manifest sincerity and good faith of the signers of this statement, to the cause of sound learning and patriotic service which a formal pronouncement under such circumstances ought to commend and advance, and to the intelligent public opinion to which the statement is addressed, that the arguments which have been so zealously marshalled should be examined somewhat in detail.

The foundation of the argument is the contention that the war loans, instead of being treated by the American Government as business transactions, should have been regarded as joint contributions to a common cause. "From the record of debates in Congress," we are told, "it is clear that these advances were not regarded by those who voted them as business transactions, but rather as joint contributions to a common cause. . . . The credits were freely given because they were to secure for us effective support for our own effort, either directly on the field of battle or indirectly by strengthening the nations associated with us. They would have been justified by no other purpose." It is little short of amazing to find an argument of this kind seriously advanced by a body of scholars, some of whom, at least, are presumably learned in the law. It is a commonplace of law that a written document is not to be explained by verbal statements of what its framers meant by it if the document itself is plainly expressed, and that an Act of Congress is not to be interpreted by reference to the debates that went on during its passage, provided that the language of the Act is itself clear. Of the meaning of the Acts which authorized the war loans there can be no doubt whatever. The Act of April 24 1917, under which credits to the amount of \$3,000,000,000 were provided, expressly empowered the Secretary of the Treasury to "enter into such arrangements as may be necessary or desirable for establishing such credits and for purchasing such obligations of foreign Governments and for the subsequent payment thereof before maturity," and further directed that payments from foreign Governments, when made, should be applied to the retirement of Liberty bonds outstanding. The same authorization regarding arrangements for repayment is to be found in the Act of Sept. 24 of the same year, further extending the amount of credits to be granted under the direction of the Secretary of the Treasury.

There is not the slightest warrant for asserting that the war loans were regarded by either of the parties to the agreements, at the time when they were made, as other than valid legal obligations of the foreign Governments for whose benefit they were authorized, or that repayment in due course was not expected on both sides. No one of the foreign Governments that shared in the loans has ever contested the full legal obligations of its loans. The Government of France, in spite of the extreme reluctance which it has shown to ratifying any agreement for the settlement of its war debt to the United States, has repeatedly affirmed the obligation of the

debt and its intention to discharge it. What members of Congress said at the time in debate is of no consequence in the face of the terms of the loan Acts themselves. The whole question of the loans as "a joint contribution to a common cause," without the characteristics of a business transaction save as the United States chose to play the part of a Shylock, arose only after the war, when the countries which had borrowed heavily to finance their efforts in the war found themselves deeply in debt, and embarrassed by economic disorder, the evils of a depreciated currency, and an unscrupulous political agitation designed to evade repayment of the American loans. It has been kept alive by sentimentalists who, perceiving that the United States emerged from the war in better economic condition than the European belligerents, were willing to have a still larger part of the cost of the war shifted to the shoulders of the American people through the device of scaling down or canceling the debts, and by others who have resented the failure of the United States to ratify the Treaty of Versailles or to adhere to the League of Nations and the World Court. It is to this unsound and sentimental view of the matter, which would long since have died a natural death but for persistent and mischievous agitation in its behalf, that the Columbia professors have committed themselves.

Much stress is laid in the statement upon the unjust application of the principle of capacity to pay. The stretching of most of the debt payments over a period of sixty-two years is sharply criticized as estimate by "guesswork," for the reason that while estimates of capacity "are of necessity based upon the statistics of the pre-war period and those of the abnormal post-war or reconstruction period," there are obviously no figures for the future. In support of the contention that it is impossible to forecast economic "capacities" for the next sixty-two years, certain changes that have taken place during the past two generations, or that are now going on, are cited. "The steel industry of Germany, now far surpassing that of England, is almost entirely the product of the last half century. Similarly, other basic industries, such as coal, wheat, cotton, rubber, potash, and even gold, are in process of redistribution among the countries of the world. Nations today are changing their relative positions even more rapidly than in the past. How, then," these scholarly men ask, "can there be any degree of certainty in the estimates of future capacity, upon which this settlement so largely rests?" The injustice becomes "all the more evident," the professors go on to assert, "when one compares the various settlements and notes the wide discrepancies in liberality. On a 4 $\frac{1}{4}$ % interest basis France is to pay only 50%, Belgium 54%, of the whole debt (interest included). Great Britain is to pay 82%, while Italy pays only 26%. Whatever justification there may have been for differences in treatment of the various national debts, it is unfortunate that the principle, 'capacity

to pay,' should result in such striking variations as these."

It is of course unfortunate that it was found necessary to extend the payments over so long a period as sixty-two years, but as immediate payment was out of the question, what alternative was there, pray, that would properly ease the burden? On the other hand, the argument as presented by the Columbia professors is far from impressive. If there is any evidence to show that the period of sixty-two years was in any way imposed upon the debtor Governments by the American War Debt Commission, it ought in justice to be adduced. Was not the period made long in order that the required annual payments could be correspondingly reduced, and was not that what the debtors desired above everything else? All the evidence available goes to show that agreement at this point was reached after full discussion between the Commission and the foreign negotiators, accompanied by a more or less elaborate presentation by the foreign representatives of the economic condition and prospects of their respective countries. For the arrangement that was made, accordingly, the debtor countries are at least equally responsible with the United States. It was for them to refuse a burden upon their own people which the professors now brand as unjust, and to offer settlements upon shorter time if they could see their way to do so. If sixty-two years is too long, what period would the professors suggest, and what knowledge of future "capacity to pay" do they possess in support of a shorter period? It is easy to criticize the period of sixty-two years as extremely long and very possibly an occasion of apprehension, but what other arrangement could have been made at the time, and what other arrangement could well be substituted now?

Far from the unequal concessions which were made to the different debtor nations being a proof of the unsoundness of the principle of capacity to pay, they are rather a demonstration of the soundness of that principle and of its judicious and amicable application. Instead of laying down a hard and fast rule to be applied impartially to all the debtor States, each State was asked to pay what it could and as it could. The fact that Great Britain is to pay 82% of its debt while Italy pays only 26% (we are not undertaking to test the accuracy of the figures) probably represents, roughly at least, the relative capacities of the two countries at the time the debt settlements with them were concluded, and it was of this difference in capacity, supported by statistics and forecasts which the representatives of the debtor countries submitted, and by elaborate statistical inquiries made by the Treasury Department, that the American War Debt Commission appears to have taken account. As for the argument based upon the changes which have taken place in European industries during the past sixty-two years or so, or which are taking place throughout the world at the present time, that argument works both ways.

It is quite as likely that the development of European and world industry during the next half century will increase the capacity to pay of every European nation that is in debt to the United States on account of the war, as it is that capacity to pay will diminish; appreciably more likely, in fact, unless we are facing a long period in which industrial civilization is to experience a general decline; and if capacity to pay is to increase, it will be possible for every debtor nation that chooses to do so to anticipate its future debt payments, and thereby help to fend off the evil which to the professors appears now so great.

Further to demonstrate the injustice of the debt settlements, the statement of the Columbia professors offers some calculations intended to show the relative unimportance to the United States of the debt payments to be received in the next few years, in comparison with the burden which the debt settlements impose upon the debtor countries. The scheduled annual payments of the next four years, we are told, "will be less than 5% of either the present annual commodity imports or the present annual commodity exports of the United States." The scheduled annual payments for "the next few years" will constitute, it is estimated, "less than one-third of 1% of our annual national income"; the payments of the next four years "amount to less than 10% of the estimated yield of the Federal income tax of 1927, and if applied entirely to a reduction in the personal income tax rate, they would make a difference of only two dollars a year to a typical income taxpayer with net income of \$5,000 a year," which latter class, it is stated, comprised 96% of the Federal income taxpayers in 1924. In contrast to these alleged very trifling sums we are invited to reflect upon the fact that "Great Britain, France, Italy and other European countries are already bearing burdens which strain their courage and strength," that "taxation, in proportion to income and population, is between two and three times heavier in England, France and Italy than it is in the United States," and that "payments that could at best mean a paltry gain for most American taxpayers mean to the overtaxed debtors a crushing load."

This is mere juggling with figures, and nothing is more misleading than the use of averages when these averages are wholly inapplicable to the thing discussed. What does it signify to say that the annual payments will constitute less than one-third of 1% of our annual national income, when the fact is that the bulk of this income is not liable to the income tax, there being an exemption of \$1,500 in the case of single individuals and of \$3,500 in the case of married couples. In the calendar year 1924 (the latest year for which the figures are available), when the exemptions were only \$1,000 and \$2,500, respectively, no more than 6.56% of the population filed personal income tax returns. And what shall we say of the statement that the payments of the next four years, if applied entirely to a reduction in the

personal income tax rate, "would make a difference of only two dollars a year to a typical income tax payer with net income of \$5,000 a year?" There were in 1924, according to the official returns, only 697,138 individuals filing returns whose incomes exceeded \$5,000, and there were no more than 7,369,785 individuals altogether filing returns. Two dollars a year on the whole of these latter would amount to less than \$15,000,000, while Great Britain alone is now paying over \$160,000,000 a year in principal and interest to the United States. Evidently the signers of the manifesto have allowed themselves to be duped by some one.

In another part of the document the statement is made that "the payments due in the next four years amount to less than two dollars annually for *each person* in this country." To this statement no exception can be taken, but what relevancy has it to the question, seeing that out of a total population of 116,000,000 less than 7,500,000 are called upon to pay any income tax. If the debt payments figure out \$2 per head on 116,000,000, obviously they will average over fifteen times that amount on the 7,500,000 that are obliged to assume the payment of taxes, or \$30 per head. That, it seems to us, is the real measure of the extra burden that would be imposed should the foreign payments be entirely eliminated.

Entirely apart from this, we are not impressed by the line of argument employed. The obligation of a debt does not depend upon its amount. If the amount is unduly burdensome, or beyond the reasonable ability of the debtor to discharge, that of itself constitutes a reason for concession on the part of the creditor, and an adjustment of payment on the principle of capacity to pay. The signers of the Columbia statement recognize that the United States has been generous, but they nevertheless condemn the principle of capacity to pay, notwithstanding that that is the only principle properly applicable to the situation which they undertake to describe. Comparisons drawn from the relation of the foreign debt payments to the value of American imports or exports, or from the amount of the payments in relation to the income tax of the average American citizen, are as worthless for statistical purposes as is the soap-box orator's denunciation of capitalism and employers because the price of a suit of clothes exceeds by many times the cost of the raw wool out of which the suit is eventually fashioned.

Nor are we convinced by the reiterated assertion that Europe, because of the war debts, is struggling under a crushing load. Reliable reports which reach the United States from Europe, based in part upon the official records of Governments or trade agencies, and in part upon the observations of competent American observers familiar with European conditions, indicate a steady, and on the whole remarkable, progress in industry, commerce and financial recovery. Great Britain, whose war debt burden is the heaviest of all, has not only been able to adhere to the gold standard and remove the restrictions

upon the exportation of gold, but finds itself still with capital sufficient to enable it to reach out for trade in all parts of the world, and to maintain "business as usual," notwithstanding a long-continued and costly coal strike. The French franc, which only a little while ago was widely thought to be approaching worthlessness, has risen to above four cents, the French budget has been nearly balanced, Treasury receipts are exceptionally large, and there is not only no general unemployment but a considerable importation of foreign labor. Belgium has lately stabilized its currency, and the whole country appears to be a hive of industry. The remarkable economic recovery of Italy is a matter of common knowledge, and the Polish steel manufacturers are reported to be underselling the members of the recently-formed steel cartel. What is more, each of the countries whose war indebtedness to the United States is most considerable is now, and for the past two years and more has been, receiving substantial reparations payments from Germany, all of which, it has been understood, were to be applicable, directly or indirectly, to the discharge of the war debts; and while the continuance of the German payments on the increased scale called for by the Dawes Plan may present a problem for Germany later, there seems to be no reasonable ground at present for fearing that the payments will not be continued according to the Dawes Plan schedule for at least the next three years.

In view of all this, such an international conference as the statement of the professors urges seems to us to be both futile and uncalled for. The only possible object in calling such a conference would be to induce the United States to alter its debt policy, either by further remitting a part of the amounts that are due, or by canceling the debts altogether. With the only possible object of the conference clear in advance, there would be nothing to discuss, and we are loath to believe that even the Columbia professors think that the American Government, which has already made unparalleled concessions, would yield to importunity in a conference, and alter fundamentally a policy to which it has deliberately, and, we think, wisely, adhered—and which appears to have, moreover, the hearty support of the overwhelming majority of the American people from one end of the country to the other.

From every standpoint, the statement of the Columbia professors is greatly to be regretted. It is superficial, sentimental, and insufficiently attentive to the facts of the case with which it deals, besides embodying errors of statements and of figures. It offers no new light on the debt question, and no useful aid in dealing with any of the problems to which the debt settlements give rise. Even if its proposals were wiser than they are, they come too late, for the debt settlements have been made, and France and Greece are the only countries that have not acquiesced. The statement is only a mischievous kind of propaganda, directed in this instance specifically

against the debt settlements, but of a piece with the organized propaganda which from the first has attacked and ridiculed the determination of the United States to keep itself as free as possible of European entanglements. It would be unfortunate if the statement, coming from the source from which it does, should be taken as a considered expression of enlightened, informed and impartial American opinion, and it is for that reason that we have discussed at length a document which upon examination turns out to possess no weight whatever.

The Financial Situation.

On the threshold of the new year it would appear that there has seldom been a time when there was greater unanimity as to the probable continuation of satisfactory business conditions, at least during the coming few months, with no indication of an early termination of the present period of prosperity. Yet confidence is by no means universal. There is a feeling that prosperity having prevailed pretty generally for several years, depression must necessarily be about to reassert itself. It is, of course, true that we may be nearing the end of the prevailing prosperity. Men can never be sure that they can see ahead, even with the best of facilities for estimating what is likely to happen. The unexpected may happen, through new and powerful developments that could not possibly be foreseen, but when all possible allowance is made for the unexpected it does seem that the proper attitude for business and finance in the United States at the present time is one of courage and no fear of any serious break. And yet an attitude of caution is at all times proper.

The present situation certainly should not be paralleled with that which existed in the latter part of 1920. At that time we were in the midst of an unrestrained post-war boom. We were approaching an adjustment of world prices after the distortions brought about by war purchases and currency inflation. It is probable that prices are still strongly under the influence of conditions following from the war and may not be entirely under the control of normal influences for several years to come, but certainly the dangers from violent adjustments are as nothing compared to those that existed in 1920. At that time Europe had not even begun to analyze its post-war problems in balancing budgets, stabilizing currencies, equalizing production and consumption and finding employment for millions of men. At present these problems are, for the most part, pretty thoroughly understood, and in no small measure have advanced to a solution. In Great Britain, Germany, and most of the former neutral Europe much progress has been made toward reaching the normal, and even in the countries which have not yet achieved stabilization of currencies the danger from quick and unexpected changes is far less than at that time. In other words, no man can reasonably look for any such world cataclysm as occurred in 1921.

Nor do the best judges of finance and business look for any exact recurrence of pre-war cycles of prosperity and depression. In many of the most essential respects the present situation is entirely new. The following factors may be mentioned: Certain processes of manufacture and merchandising have been worked out during the last decade which have

proved revolutionary in lowering costs and enhancing the general distribution of well-being. Among these may be mentioned the straight-line method of manufacture instituted by the automobile makers and now being adopted in other lines of manufacture. Chain stores and mail order houses have already greatly reduced the cost of distribution in some essential lines. The development of the system of partial payments has done more than almost any other recent influence to enlarge the purchasing power of the nation. And here, of course, there is need of caution.

Another point of importance is the development that many of the great corporations have undergone that were formed in the early part of the century to do a national and world-wide business. Many of these which at first were mere aggregations of small units, are now thoroughly entrenched over the country, nationally advertised, thoroughly financed and ably managed. They are very different enterprises from what they were twenty-five, or even ten, years ago. There are many other new factors which are new to the present business situation and which were not present during the previous business cycles, as, for instance, an extensive ownership of securities by wage earners, which is tending to bring about a sane handling of wage adjustments, with the result that to-day, with practically no unemployment, wages are at the highest point in history without so far at least having obstructed business progress or business prosperity. There is also a better political situation than has existed. Never have we had a President who dealt with unexpected issues more coolly or with more common sense. Never, at least during the modern business era, have we had a Secretary of the Treasury who has been so astute a financial leader, and the work that is going on under Hoover in the Commerce Department is not only supplying the country with exact information in respect to business, but supplying excellent leadership in introducing better and simpler business methods. Mr. Hoover's work is something quite new.

There is also to be considered the new prosperity of the South—a big section of the United States for several decades after the Civil War comparatively impoverished, now enjoying real prosperity soundly based upon industry. The city of Atlanta in a current advertisement calls attention to the fact that the total value of the product of agriculture and manufacturing in the South, which amounted to only \$3,328,000,000 in 1900 and to no more than \$6,365,000,000 in 1910, reached \$16,479,000,000 in 1925. Moreover, of this total cotton accounted for only 8%, and all agriculture only 36%. Is there not in all this abundant reason for rejoicing, as well as for belief that no troubles are in sight which cannot be conquered and overcome?

The new winter wheat crop, put into the ground the past autumn, shows an increased area, according to the report of the Department of Agriculture at Washington issued on Tuesday of this week. The condition of the crop on Dec. 1, preliminary to the beginning of the winter season, is practically the same as a year ago, but 2.6 points below the average condition for that date covering the past ten years. All of this difference, however, may readily be recovered before the opening of spring. The Depart-

ment estimates the area sown to winter wheat this year at 41,807,000 acres. These figures compare with 39,540,000 acres the original estimate of fall planting of winter wheat for 1925, issued in December of last year, and 42,317,000 acres, the estimate of December 1924 for the fall planting of that year. A revised statement of area planted, issued later, increased the area for 1925 to 39,799,000 acres, but reduced the area for 1924 to 39,956,000 acres.

The winter wheat crop to be harvested next summer, therefore, starts with practically 2,000,000 acres more planted than was planted a year ago, and with nearly the same additional area over 1924. Kansas naturally leads all other States in area planted with 11,962,000 acres, 26% of the total for the entire winter wheat belt, and an increase of 570,000 acres over 1925. The increase in Kansas is about 5%. Oklahoma and Nebraska, two important winter wheat States, also show a large area planted the past autumn, the former an increase of 6% and the latter of 9%. The larger area planted to winter wheat in the South is a fact of interest; Texas, with an area of 2,322,000 acres this year, shows a gain of 25% over 1925, and Georgia and South Carolina, where the area is naturally not so large, have gains, respectively, of 30% and 35%. Among other of the principal producing States, Missouri reports 10% increase; Indiana 2% and Washington, where the area is given at 1,235,000 acres this year, an increase of 40%. Illinois, Colorado and Oregon are given the same area this year as in 1925, but for Ohio and Michigan a decrease appears.

As to the condition this year, in four of the States of heavy production the crop appears quite satisfactory. For Kansas, the Dec. 1 condition this year is 80% of normal; a year ago it was 84%, but the ten-year average condition for that State is 80%. Nebraska shows a condition of 80% of normal for Dec. 1 this year; Oklahoma 82% and Texas 85%. Two Pacific Coast States, Washington and Oregon, reflect a condition this year of 98% and 97%, respectively; a year ago the corresponding figures were 68% and 82%, respectively. Michigan reports a condition this year of 88%, but for Indiana the condition is 76%; Illinois 71%; Ohio 66%; Missouri 73%, and Colorado 70%.

For the entire winter wheat area the Dec. 1 condition this year is put at 81.8% of normal, as against 82.6% Dec. 1 1925; 81.0% Dec. 1 1924 and a ten-year average of 84.4%. Excessive rains in some sections, drought in others and shortage of seed in some of the States interfered with planting. The latter curtailed the acreage in the sections affected. The plant of this year's rye crop is more hardy than the plant of winter wheat. The condition of the rye crop on Dec. 1 was 86.3%, compared with 83.8 Dec. 1 1925, and a ten-year average condition of 88%. The area planted to rye is 3,579,000 acres, against 3,513,000 acres last year.

The Department of Agriculture also announced this week the final estimates for this year's crops. Another slight reduction appears in the indicated yield of corn for the year 1926, and the final estimate is 2,645,031,000 bushels, which compares with 2,916,961,000 bushels for 1925. The final estimate for spring wheat is also slightly lower, at 205,376,000 bushels. This makes the total yield of all wheat from the harvest of 1926 832,305,000 bushels, as

against 676,429,000 bushels for 1925. The final estimate for oats shows 1,253,739,000 bushels for this year, compared with 1,487,550,000 bushels for 1925. The latest estimate for oats for 1926 is also somewhat under the preliminary estimates. Barley is placed at 191,182,000 bushels this year and rye at 40,024,000 bushels, both under the estimates for 1925. The final estimate of white potatoes is 357,800,000 bushels, which is the highest of the year, and compares with 323,465,000 bushels, the yield in 1925, when the crop was very short. The crop this year is below some earlier years. Most of the other crops were generally quite satisfactory. The yield of tobacco this year is placed in the final estimate at 1,323,388,000 pounds, against 1,376,628,000 pounds in 1925.

The value of this year's crops, as estimated by the Department of Agriculture based on farm prices Dec. 1 is placed at \$7,802,114,000, against the revised estimate for 1925 of \$8,949,321,000, a decrease this year of \$1,148,000,000. Corn holds first place in value again, according to these estimates, the amount for 1926 being \$1,703,430,000, against \$1,966,761,000 for the 1925 corn crop, a decrease this year of \$263,331,000. Parenthetically it may be said that a very large percentage of corn never leaves the farm on which it is raised, but is used for feeding. Despite the record production of cotton, the value of that crop this year is very much less than for 1925, the figures for the two years being, respectively, \$1,016,346,000 and \$1,597,670,000, the latter for the year 1925. The decline in the value of the cotton crop for this year is \$581,324,000, the latter being more than one-half of the total reduction for 1926 in the value of all crops. In considering the value of the cotton crop, it may be said that practically every bale of cotton produced is sold and represents so much cash to the farmer. Wheat is the one crop that makes a good showing. That crop this year is valued at \$997,589,000, compared with \$957,907,000 for 1925.

The German Cabinet, of which Wilhelm Marx was Chancellor, but which was defeated in the Reichstag on Dec. 17 by a vote of 249 to 171, had enjoyed a comparatively long life, as European Cabinets go. The New York "Herald Tribune" recalled the next day that "the German Cabinet which fell yesterday received its second defeat of the year, for on May 12 the same group of Ministers, then under the Chancellorship of Dr. Hans Luther, resigned following an adverse vote in the Reichstag. Dr. Wilhelm Marx, the Minister of Justice, was called on by President von Hindenburg to form a Government after Dr. Otto Gessler, the Minister of Defense, had failed even to make a serious attempt to do so. Chancellor Marx retained the old Cabinet intact and announced his intention of continuing the Luther policies. These policies, comprehending an acceptance of the realities of the post-war situation in Europe, involved in foreign policy the adoption of the Locarno program, including Germany's entry into the League of Nations, and, more recently, the effecting of a rapprochement with France, initiated at the celebrated Thoiry conferences of Foreign Minister Gustav Stresemann with Foreign Minister Briand of France. Indeed, it was Dr. Stresemann's prestige acquired in his dealings with the Allied statesmen,

due to their confidence in his honesty of purpose, which formed the main strength of the Cabinet."

It was rumored in a United Press dispatch from Paris on Dec. 18 that "Foreign Minister Stresemann may become both Chancellor and Foreign Minister of Germany, in the opinion of French politicians." It was added that "while a slight modification in Germany's foreign policy may follow resignation of the Marx regime in Berlin, Franco-German rapprochement will continue to develop, it was believed." In an Associated Press cablegram from Berlin on the same date it was stated that "Foreign Minister Stresemann, who has been in poor health, will start next week for a six weeks' visit to Egypt." Still later that evening, Dec. 18, the Berlin representative of the New York "Times" declared in a wireless dispatch that "Dr. Stresemann does not want the job, preferring to devote his attention whole-heartedly to foreign affairs, which under any conceivable combination he will assuredly be permitted to do." In that dispatch also it was claimed that "President von Hindenburg has sent a hurry call to former Chancellor Luther out in Buenos Aires to return to Germany by first boat. The President's thought of persuading the one-time Mayor of Essen once more to head the National Administration also is the real motive for postponing the Cabinet building until after the holidays. The absence of party leaders over Yuletide is a secondary reason."

Commenting upon the Cabinet situation in Germany as it existed at that time, the "Times" correspondent said: "Curiously enough there has been a Christmas Cabinet crisis in Germany for three years now. Last December Dr. Luther was kept busy finding substitutes for the Nationalist Ministers who resigned on account of their party's dislike of the Locarno treaties. This time he would have no trouble with the reactionary element on that score. Since the security compacts and Reich participation in the League of Nations have become *faits accomplis* the Nationalists have formally committed themselves to their fulfillment. It will be domestic politics that will prove the bone of contention when the Reichstag reconvenes Jan. 19—and first and foremost the army of the German Republic."

Naturally, Paris was interested in the German Cabinet situation. The New York "Times" representative at that centre cabled, likewise on Dec. 18, that "the German Government crisis is being watched with the deepest interest here, because Paris feels that on the outcome depends in large measure the development of the plan of Locarno which now dominates European politics." He added that "if the Marx Cabinet should be succeeded by a Government leaning toward the Right it would be regarded here as German approval of the Nationalist leaders and as approbation of the efforts of those chiefs to obtain for Germany a stronger army than she is allowed under the Treaty of Versailles. This sort of new German Government would heap difficulties upon the shoulders of M. Briand, greatly weaken French faith in his policy of reconciliation with Germany and inevitably strengthen the French Nationalists."

Apparently the formation of a new Cabinet in Germany will not be undertaken hurriedly. In a

special wireless message from Berlin to the New York "Times" on Dec. 19 it was reported that "from Lisbon, where he yesterday received President von Hindenburg's message urging him to return as quickly as possible to Berlin, former Chancellor Luther wired the President that he could not undertake to participate in building a new Cabinet until he returned to Germany and had had an opportunity to familiarize himself with the political situation. Dr. Luther is expected to arrive at Bremen on Tuesday and will proceed to Essen, his home town, for Christmas. When he will come to Berlin is not fixed, but until he confers with President von Hindenburg no definitive action for solution of the Ministerial crisis will be taken."

The same idea was conveyed in the cable advices from the same centre several days later. The representative of the New York "Herald Tribune" said on Dec. 22 that "it is impossible to predict at present how the German Cabinet crisis will be solved. The uncertainty in political circles as to how a solution of the internal situation can be found is perhaps increased by the fact that the final decision on the composition of the new Cabinet rests with President von Hindenburg, who, it is felt, has been gaining for some time in self-reliance and political judgment. The 'Herald Tribune's' informant said that all those with whom the President conferred after the fall of the Cabinet were under the impression that the President would follow a certain plan, which, however, he did not confide to any one."

Diplomatic negotiations often are conducted between representatives of different nations of which the public has little or no real knowledge. This is in accordance with well-defined plans. An illustration is furnished in a special wireless message from Berlin to the New York "Times" on Dec. 20. It was reported that "Foreign Minister Gustav Stresemann will meet Premier Benito Mussolini after the new year, if the German statesman thinks that such a meeting is likely to be worth while for the Reich. His decision will depend on the result of diplomatic soundings now being made in Rome. Naturally, Dr. Stresemann wants to be in a position to guide and delimit the scope of the parley, and he is a bit alarmed lest the Italian Premier takes the conversational bit between his teeth and gallops off into highly controversial byways. That is the substance of the information obtained by inquiry in quarters close to the Foreign Minister. The official spokesman for the Wilhelmstrasse is unusually reticent about his chief's plans. He concedes that Dr. Stresemann will leave Berlin for several weeks on the advice of his doctors, probably on Dec. 27, but whether he will go to Egypt via Italy or elsewhere he refuses to say."

Before leaving for his trip Dr. Stresemann made a speech that attracted much attention and caused generally favorable comment, according to a special Berlin dispatch to the New York "Herald Tribune" under date of Dec. 20. It stated that "the course of Germany's foreign policy remains the same despite the downfall of the Marx Cabinet last week, declared Foreign Minister Gustav Stresemann, speaking in the Hamburg City Hall to-night. A notable gathering, including the Burgomeister, Dr. Petersen, and the Consuls of the principal nations, heard

Dr. Stresemann promise that Germany would follow the path opened at Locarno, Geneva and Thoiry, regardless of political changes at home." The correspondent added that "Dr. Stresemann's speech was awaited with keen anticipation, for it was his first pronouncement since he returned to Berlin from Geneva, where he won a notable diplomatic success for Germany in obtaining an agreement for the termination of inter-Allied military control of Germany on Feb. 1. Dr. Stresemann was to have delivered this speech in the Reichstag last week, but the unexpected political crisis necessitated its postponement."

Evidently the speech was not well received in Paris. The New York "Herald Tribune" representative at that centre cabled on Dec. 21 that "Foreign Minister Stresemann's speech at Hamburg yesterday did not bring a very happy echo from France. Although he is temporarily unseated, it is regarded here as certain that he will be renamed in the new Cabinet, which possibly may include the anti-French Nationalist group. It is the latter possibility which makes his statement that the abandonment of inter-Allied military control over Germany is only one of the things which Berlin intends to get seem ominous to Frenchmen. The leading political papers to-night also magnify the Minister's assertion that it is now generally recognized that Germany at last has fulfilled the obligations laid upon her by the Treaty of Versailles. This contention is disputed by papers like 'Le Temps,' the 'Journal des Debats' and 'L'Intransigeant.'"

Berlin will have the most cheerful Christmas since the war, according to a special wireless message from that centre to the New York "Times" under date of Dec. 22. The correspondent said in part: "Santa Claus is doing business in Berlin this year like a Florida realtor in the good old days of the boom. Rated as the most commercially popular purveyor of Yuletide cheer, Santa would rival Henry Ford. For open-faced and open-handed spending, there has never been so opulent a Christmas in all the history of the German Empire or Republic. Marks with sold gold backing in the Reichsbank are being poured out with the frantic haste that characterized the expenditure of the rapidly falling paper money a little over three years ago. Hundreds of millions of marks—far more than was borrowed abroad to stabilize German currency—are being spent in Santa Claus's honor by Berliners alone, and the same lavish outlays are reported all over the country. A special feature of this season's buying is the fact that not cash alone but, for the first time since the war, credits are being freely dispensed. In Berlin to-day almost every non-perishable commodity can be purchased on the installment plan. The biggest department stores and specialty concerns give their customers an entire year in which to pay. Anybody earning good wages and holding a respectable position can enjoy this liberal form of credit. Everywhere one sees advertisements begging one to buy by installment. Hermann Tietz, head of a string of huge establishments selling everything from limousines to safety pins, has financed his credit system with 45,000,000 marks and his competitors are not far behind him. It is safe to say that 50% of the Christmas gifts that will be exchanged in Berlin

the day after to-morrow—the Germans' gift-giving takes place on Christmas Eve—will have been bought on tick. This is significant as demonstrating that both buyers and sellers believe in a future prosperity for all."

Favorable reports relative to business in general in Germany have been received. The Associated Press correspondent in Berlin cabled on Dec. 23 that "a substantial improvement in the general business situation is indicated in reports from all parts of Germany to the American Chamber of Commerce here." The Chamber, in its statement, said in part: "There is more than ever before a nation-wide realization that the process by which Germany is rehabilitating herself cannot be forced. Capital and labor are working more in harmony, in spite of all the legislation labor obtained for itself in the early days of the republic. From all indications the second half of 1926 will show a favorable development of economic life in Germany, which has been enhanced greatly by the coal strike in England. The money market during the past few months especially has been elastic even on the critical month-end days, and commercial credits are being arranged with more facility. There is still to be solved the problem of equalizing rates of interest on the different forms of credit, notwithstanding that much has been accomplished in this direction. Another good sign is the increase of accumulated capital within Germany, which reflects the increased profits of industry."

Still another European Government has succumbed to revolution and a dictator. Reference is made to the overthrow of the Lithuanian Government early in the morning of Dec. 17. According to a special cable dispatch from Riga, Latvia, to the New York "Times" on that date, "a military *coup d'état* was carried out at Kovno at 3 o'clock that morning. The insurgents, under General Antona Smetona, ex-President, usurped the entire machinery of the Lithuanian Government and arrested the President of the Republic, Dr. Grinius, and all the Ministers they could lay hands upon. Communication with Riga was interrupted for some hours, but later messages came through stating that everything was quiet and that the insurgents had taken over the Administration. Apparently the chief cause of the *coup* was widespread discontent with Premier Szezevicius and his Government over its pro-Soviet policy and its leniency toward the Communists in Lithuania." It was added that "to-day was the 60th anniversary of the birthday of the President of the Republic, and seemingly the insurgents chose the occasion for their attempt because the movement of troops would be assumed to be in connection with the birthday celebration." The dispatch stated that "the military leader of the insurgents is a former Czarist officer, Major Plekhavicius, who immediately liberated the former Czarist Colonel Glavacky and appointed him Commandant of Kovno. Colonel Glavacky was arrested by the Szezevicius Government a week ago for propagating Fascism."

In his account of the revolution the Warsaw representative of the New York "Herald Tribune" explained the movement in part as follows: "The Szezevicius Government assumed the reins in June

after the elections had routed the previous reactionary regime. The new Cabinet sought to pursue a policy of friendship with neighboring nations and strove for appeasement of the minorities within the Lithuanian borders. But a long period of bad crops led to economic difficulties. To-day's overthrow of the Government followed a general strike of the workers in Kovno for higher wages, a situation which proved too great a problem for Premier Slezevicius. Smetona was President of Lithuania six years and was pro-German during the war."

The crisis caused by the revolution appeared to be of only one day's duration, according to cable advices under date of Dec. 18. It was stated in an Associated Press dispatch from London on that date that "the crisis caused yesterday by the military *coup d'etat* directed by General Smetona has come to an end, says a message received to-day from Kovno by the Lithuanian Legation. The message said President Grinius, after accepting the resignation of the Slezevicius Cabinet, resumed his normal duties in Kovno. He has appointed Professor Valdemaras Premier and Minister of Foreign Affairs, and other Nationalists as members of the new Cabinet. These include Colonel Merkys as Minister of Defense and Dr. Kervelis as Minister of Finance."

According to a Washington dispatch to the New York "Times" the same evening, the Lithuanian Legation at that centre had received official notification of the appointment of the new Cabinet, with Professor Valdemaras as Prime Minister and Minister of Foreign Affairs. Dr. P. Karavelis, former Minister of Finance, accepted the same position in the new Cabinet. The "Times" correspondent at Washington said also that "a second telegram announced that the changes were effected without bloodshed, that the provinces had remained calm and that the new Cabinet had embarked on its task. It was added that 'the rumors reporting concentration of Lithuanian troops on the Polish frontier are false.'"

The strife for control of the Government of Rumania has continued, judging from the cable dispatches from Bucharest, Paris and other European centres. It was claimed in an Associated Press cablegram from the French capital on Dec. 20 that "King Ferdinand of Rumania wants to abdicate the throne and restore former Crown Prince Carol to the succession he renounced on Jan. 4 last. The King made this wish known to his Ministers at a secret council held in Bucharest last week, it is learned from a high Rumanian political source in Paris. As a result of the King's ultimatum to his Ministers, General Coanda was sent to Paris and already has advised Ferdinand Carol is willing to comply with his father's wishes, but under several conditions. These are, first, that King Ferdinand must acquiesce to Carol's divorcing Princess Helen—that, if possible, she must leave the country before his return—and, second, that before he ascends the throne the present Government must be thrown out and a democratic Cabinet headed by Professor Jorga and comprising the leaders of the new Nationalist-Peasant Party must receive power." It was added that "the secret council was attended by Queen Marie, Premier Averescu, Ion Bratiano, who is some-

times called 'the uncrowned King of Rumania,' General Coanda and other leaders."

King Ferdinand has signified a desire to go to Paris for radium treatments, according to an Associated Press message from Bucharest on Dec. 18, but it was reported in the same dispatch that the Rumanian Cabinet was opposed to his going, and that this "has made it uncertain whether the trip will be attempted." It was also claimed that "the King's condition is steadily improving. Radium treatment will be used eventually, but it is pointed out that this can be given as readily at Bucharest as at Paris, while the political results of his absence from his Kingdom might be serious." In a communique from the palace on Dec. 23 it was claimed that the King had made still further improvement.

The rumor was in circulation in Paris toward the end of the week that the Bank of France had "pegged" the franc. This proved to be incorrect, according to a special cable dispatch to the New York "Times" on Dec. 23. It stated that "when the exchange market opened to-day representatives of the Bank of France announced that they would buy or sell foreign exchange to any amount at the then prevailing rate, namely, 25.19 for a dollar and 122.50 for a pound. Then, for the first time in years, the Exchange quotations for the day stood still." It was added that "this action, following the measures taken by the Bank of France yesterday and the day before to bring the pound from 118 to 122, quickly gave rise to a report that the Government had decided to peg the franc at its present value. Inquiry, however, showed this to be incorrect. Action by the Bank of France is not strictly a Governmental measure, and there is good reason to believe that the directors of the Bank will act over the holidays, getting the dollar back to 26 or thereabouts and the pound to 125."

The New York "Herald Tribune" representative added that "it was the first time in months, probably in years, that the franc has not wavered a fraction of a point in official quotations all day. And as the franc 'stayed put,' speculation was rife in French financial circles as to whether Premier Poincare is planning definite action now to effect stabilization, or whether he is about to inaugurate some kind of temporary stability. Whatever the purpose desired, the effect was gained with astonishing success, and it now appears that the franc is not likely to fluctuate to any extent, if at all, over the holiday weekend. What the developments may be then can only be guessed."

Contrary to the foregoing, it was definitely stated in an Associated Press dispatch from Paris last evening that "the Poincare Government to-day decided to take control of the exchange situation, and to maintain the French franc at a price between 121 and 123 to the pound sterling (25 to 25½ to the dollar, or approximately, 4 cents). It was intimated in official circles this decision of the Government will amount to virtual stabilization of the franc within those narrow limits. The movement got under way Wednesday, when the Bank of France began the purchase and sale of francs at around 122 to the pound and 25.15 to the dollar. It continued yesterday, with few fluctuations, at 122.25 to the pound and

25.19 to the dollar. The Government's decision to intervene was taken as a warning to speculators they must get out of the market or take the risk of being pinched. The entire movement is characterized in official circles as 'prestabilization.'

The French budget, unusually large, has been passed by the Senate, as well as the Chamber of Deputies. Announcement was made in a special Paris dispatch to the New York "Herald Tribune" on Dec. 17 that "the French Senate to-day voted the budget by an overwhelming majority, 280 votes to 6. Accordingly, for the first time in 40 years France's budget will be enacted before Christmas. The prospects are that it will become law on Monday, thus adding another record of pressure legislation to the achievements of the Poincare Cabinet." It was added that "the budget as voted provides for receipts of 39,627,340,592 francs and expenditures of 39,522,293,535 francs, leaving the comparatively small balance of 105,047,057 francs." Commenting upon the accomplishment of M. Poincare, the New York "Times" representative in Paris said in a cable dispatch the next day that "as alert and alive as when he began his task two months ago of shoving through in record time the biggest budget France ever dreamed of having, 65-year-old Premier Raymond Poincare is to-night at the end of that task. He has done what no one has done for 40 years—got the French budget voted before the Christmas holidays, and that other budget of 40 years ago was the merest minnow to the 40,000,000,000-franc whale which the former President of the Republic has to-night successfully landed." It was added in an Associated Press message from Paris on Dec. 20 that "the vote in the Chamber was 405 to 145." Parliament adjourned early the next morning.

When the French Parliament reassembles on Jan. 11, it was reported in a Paris dispatch on Dec. 22 that, "as matters now stand consideration of the supplementary budget for 1926, taking care of extraordinary expenses not provided for in the regular budget, will come up first. It has not yet been disclosed what exact amount will be asked, but the deficit probably will run to something more than 1,000,000,000 francs."

Although there seems to be little or no probability of a general disarmament conference even being called in the near future, one or more European Powers have taken steps to reduce their military forces. France is the most recent. On Dec. 19 the Paris correspondent of the New York "Times" cabled that "before Parliament adjourned early this morning the Chamber voted a resolution calling on the Government to begin to put into effect the changes in army recruiting which would lead to placing the military system of France on a one-year basis by May 1929." The "Times" correspondent explained the plan as follows in general terms: "This would be done by starting in 1927 calling men to the colors several months after the age of 20 years, with the result that in May 1929 they would all be called at the age of 21 instead of 20, and for one year instead of 18 months. The effect of reducing military service from 18 months to 12 months would be to cut the army by 125,000 men, each year's class numbering about 250,000. The present plan would make a

cut of about 80,000 in 1927, about 110,000 in 1928 and 125,000 in 1929, calculated on a rather complicated scale. However, this does not mean a flat reduction of 125,000 men in the strength of the French army, for it is part of the Government's plan to increase the professional army from 160,000 to 200,000 men. It is also probable that there will not be a reduction in the number of officers corresponding with the cut of 125,000 men. Changes in organization will be effected by reducing the effectives of units while retaining largely their skeleton formation. At the present time the French army is made up of 450,000 metropolitan troops, or troops stationed in France, plus 150,000 troops stationed outside of France. Putting into effect the proposed reform would mean leaving France an army of approximately 500,000 instead of 600,000 now with the colors."

An unfortunate controversy appears to have arisen between the Pope and Premier Mussolini of Italy. In a special wireless message from Rome to the New York "Times" on Dec. 20 it was stated that "severe condemnation not only of violences suffered by Catholic churchmen and institutions after the last attempt on Premier Mussolini's life, but also of the Fascist conception of a State which, 'monopolizing and absorbing everything, makes of the State an end in itself and of citizens mere means to that end,' is contained in an allocution delivered by the Pope in a secret consistory at the Vatican this morning." It was explained that "the consistory was held for the purpose of elevating to the purple two Italian prelates, Mgr. Giuseppe Gamba, Archbishop of Turin, and Mgr. Lorenzo Lauri, Nuncio to Poland."

The allocution, on the other hand, was not easy to understand, as it was stated that "the Pontifical wrath, however, is tempered by such manifest expressions of deep esteem (indeed one might almost say of sympathy) for Mussolini personally and of praise for some legislative acts of the Government that this allocution is considered by many as deserving to rank as one of the most noteworthy landmarks on the road of conciliation between Church and State in Italy. Pius refers to the Premier as 'the man who with such energy governs the fate of Italy.' He says the attempt on the Premier's life caused such widespread indignation and horror as to 'make us believe the whole nation is in danger when he is endangered.' He alludes to the 'almost visible intervention of Divine Providence' to save the Premier's life and to his 'perfect, indeed portentous, invulnerability.' He mentions the 'storm of jubilation, congratulation and thanksgiving' which followed the news of his escape from death and announces that he himself was among the first to render thanks to God for sparing Mussolini's life." The "Times" correspondent asserted, furthermore, that "never in the history of the Papacy has any Pontiff addressed words so full of sympathy to any head of the Italian Government. Even previous attempts on the Duce's life, though they were sternly stigmatized by the Pope, failed to draw from him any expressions comparable to these for warmth of feeling."

The charges made against Fascism by the Pope naturally were resented by the Government. On Dec. 21 the Associated Press representative in Rome cabled that "the Italian Government considers

'strange, surprising and uncalled for' Pope Pius's pointed criticism of Fascism's religious policies contained in yesterday's allocution, the Associated Press to-day was informed by a Government spokesman. The Papal declaration, which is felt to have eliminated any hope of a speedy reconciliation between Church and State in Italy, came as such a shock to political circles generally that the greatest reticence is being observed, while the newspapers have not printed a word of comment." It was claimed by the Government representative that "incidents of violence against Catholic individuals and organizations, upon which the Pontiff based his criticism, it was declared, are definitely things of the past, having occurred as a spontaneous and momentary reaction, lasting for only a few days after the most recent attempt on Mussolini's life. Since then, said the Government spokesman, nothing has occurred to occasion the Pope's remarks, while the Government has maintained its policy of friendliness to religion and has taken the severest steps to prevent recurrence of excesses." It was added in a subsequent Associated Press dispatch the same evening that "an entirely new issue arose to cloud the horizon of Premier Mussolini's consistent efforts to achieve permanent friendly relations between the Church and the State. The Italian Government interpreted the criticism of the Administration contained in the Pope's allocution yesterday as contesting Fascism's right to control the education of Italian youth. The point, an official spokesman asserted to the correspondent of the Associated Press, is the fundamental feature of the allocution, which is considered the most important political utterance since the beginning of the present Pontificate." It was further explained that "the Government, on the other hand, is insistent that the Fascist and church organizations for youth can continue to co-exist amicably provided the former will scrupulously steer clear of religion and the latter of politics. To dispel the Holy See's fears, Mussolini intends to hasten the publication of the new statutes of the *balilla* to prove that there is no foundation for alarm."

Little or no success attended efforts early in the week to form a new Cabinet for Yugoslavia. In fact, it was stated in a special wireless message from Belgrade to the New York "Times" on Dec. 21 that, "after a fortnight of ineffectual attempts to form a Cabinet, Premier Uzunovitch gave up the task this afternoon, informing the King it was impossible to reach an agreement with the various parties. The King to-night charged ex-Premier Lioba Davidovitch, leader of the United Democratic and Bosnian Moslem parties, to form a wide concentration Government, capable of maintaining a working majority in the present Parliament. Professor Davidovitch accepted, though he expressed little hope of success. He begins negotiations with the ten other parties to-morrow." It was further explained that "meanwhile, the political situation took a more serious turn through a statement issued to-day by Dr. A. Korosetz that his Slovenian Clerical Party has decided to leave Belgrade because the Serbian parties have refused to meet their terms or do anything for Slovenia. They will return to Slovenia and let Slovenian public opinion determine their future policy. As Dr. Korosetz controls Slovenia even more thor-

oughly than Stefan Raditch does Croatia and his retirement home (following, as it does M. Raditch's return to Zagreb), does not improve the chances of M. Davidovitch in giving the King of the Serbs, Croats and Slovenes the concentration Cabinet he desires." Up to the time of going to press word had not been received of the formation of a new Cabinet.

The rounding out of the so-called European "steel trust" appears to have made progress. Announcement was made in a special wireless message to the New York "Times" from Berlin on Dec. 21 that "Germany has been officially admitted into the Erma, or European steel rail trust, the first iron and steel accords which have knit the Continental metallurgical industries into one of the most powerful trade combinations in the world. When the rail trust was formed last March Germany tentatively agreed to become a member, but later withheld full participation because of the controversy over the question of British colonial markets. Germany maintained that the British colonies should be thrown open to the members of the trust on the same basis as the remainder of the foreign markets, but the British refused, claiming the right to reserve strictly British colonial markets for themselves. After many months of discussion Germany has finally agreed to accept the British position. It is reported, although confirmation is lacking, that in return the British and other members of the rail trust have decided that German shipments of rails under the Allied reparations account will not be included in Germany's quota allotted under the trust arrangements. Thus Germany would have additional tonnage for disposal in world markets." It was stated likewise that "Czechoslovakia also has been formally admitted to the trust, the members of which now include Britain, France, Belgium, Luxemburg and Germany. The members report that the first eight months the trust was in operation proved very satisfactory and that plans are being made for next year to call for the beginning of an intensive campaign to obtain the largest possible share of the world markets. When these plans get well under way steel men here believe the American rail interests will find themselves faced with serious competition in the markets they now control."

The British Labor Party won a decisive victory at a by-election on Dec. 21. Word came from London late that evening that "Oswald Mosley, called by his opponents the 'Silver Spoon Socialist' because of his wealth and aristocratic affiliations, won the Smethwick by-election to-night for Labor by almost seven thousand majority. He polled 16,077 votes, compared with 9,495 for the Conservative candidate. The Liberals polled 2,600, a big falling off in the constituency." The New York "Times" correspondent in London explained that "the issue was decided only after one of the hardest fought by-elections of recent years, one, too, that was colorful with incident and piquant with personalities. It revealed not only social caste divided against itself in the person of the fur-coated and silk-hatted Mosley denouncing capitalism and class privilege, but also provided an interesting spectacle of domestic disunion between Oliver Baldwin and Miss Betty Baldwin." These are a son and daughter of Prime Minister Baldwin.

The son has been openly opposed for some time to his father's political policies, and has even "declared himself a Socialist and critic of all his father stands for." The daughter, on the other hand, is a supporter of the Conservative Party and even drove J. Marshal Pike, the candidate of that party in this particular election, about for an entire day in her motor car.

Great Britain, so far in its present fiscal year, has a big deficit in its budget. It is hoped that this large amount will be considerably reduced during the fourth quarter of the fiscal period. The situation was set forth in part as follows in a special London cable dispatch to the New York "Times" on Dec. 22: "The New Year rejoicings in Britain will be materially dampened by the thought that the country is confronted with a budget deficit for the fiscal year 1926-1927, which may reach an alarming figure. Just now with three-quarters of the fiscal year gone the deficit has reached £140,000,000 (nearly \$700,000,000). During the next three months, however—the last quarter of the fiscal year—there will be big receipts which will greatly reduce this deficit, but even then the total on the wrong side of the national ledger is practically sure to reach a staggering height. This will be especially saddening to Britons in view of the fact that a year ago the Chancellor of the Exchequer, Winston Churchill, actually prophesied for the fiscal year which will end next March a budget surplus of £4,000,000. That was before the general strike, however, and before the wearisome coal strike, both of which upset all his optimistic calculations and cost Britain directly and indirectly vast sums. And now the extremely serious question arises, whence is new revenue to be derived in the fiscal year 1927-1928 to offset the unwelcome legacy left by 1926? Since Mr. Churchill made his prophecies last March the Government has been faced with enormous emergency expenses. In order to provide relief necessitated by the strikes £8,000,000 was supplied by the Government to Boards of Guardians. This and similar unexpected disbursements completely swallowed up Mr. Churchill's estimated surplus. In devising new sources of revenue the Government must tread warily, lest it further decrease its already seriously impaired popularity. The chances are that it will exhaust all possible means of raising money before it increases the income tax. That unwelcome burden has already reached a point where it weighs heavily on all Britons, eliciting from them deep and heartfelt groans. To increase it even slightly might be the straw that would break the camel's back and plunge the Government into an unpopularity which might prove fatal to it."

Official discount rates at leading European centres continue to be quoted at 7% in Belgium, Italy and Austria; 6½% in Paris; 6% in Berlin; 5½% in Denmark; 5% in London and Madrid; 4½% in Sweden and Norway, and 3½% in Holland and Switzerland. In London open market discount rates were steady and practically unchanged. Short bills closed at 4 11-16%, against 4 5/8@4 11-16%, and three months' bills at 4 9-16%, the same as a week ago. Money on call at the British centre was easier, ruling at 3¾%, the greater part of the week, but closed at 4¼, against 4¾% last week. In Paris open

market discount rates have not been changed from 6¼%, nor in Switzerland from 2¾%.

The Bank of England in its statement for the week ending Dec. 22 showed a loss in gold amounting to £149,772, in addition to which note circulation increased £1,397,000, hence causing a loss in reserve of £1,546,000. A decline to 25.32% in the proportion of reserve to liabilities occurred, this comparing with 26.80% last week and 30.28, the high peak of the year, reached on Sept. 22. At this time a year ago the ratio stood at 14.75 and in 1924 at 14 5/8%. Public deposits increased £989,000, but other deposits fell off £159,000. Loans on Government securities rose £2,460,000, but loans on "other" securities declined £34,000. Gold holdings now are £151,943,215, which compares with £144,621,643 in 1925 and £128,524,369 in 1924 (before the transfer to the Bank of England of the £27,000,000 formerly held by the Redemption Account of the Currency Note Issue). Note circulation is now £141,286,000. This compares with £145,728,590 in 1925 and £129,751,995 a year earlier. No change has been made in the Bank's minimum rate of discount from 5%. Clearings through the London banks for the bank week were £731,959,000, as against £812,186,000 last week and £839,849,000 a year ago. We append herewith detailed comparisons of the principal items of the Bank of England return:

BANK OF ENGLAND'S COMPARATIVE STATEMENT.

	1926. Dec. 22.	1925. Dec. 23.	1924. Dec. 24.	1923. Dec. 26.	1922. Dec. 27.
Circulation.....	£141,286,000	145,728,590	129,751,995	128,142,780	124,877,670

a Includes, beginning with April 29 1925, £27,000,000 gold coin and bullion previously held as security for currency note issued and which was transferred to the Bank of England on the British Government's decision to return to gold standard.

b Beginning with the statement for April 29 1925, includes £27,000,000 of Bank of England notes issued in return for the same amount of gold coin and bullion held up to that time in redemption account of currency note issue.

The statement of the Bank of France this week showed a further large contraction in note circulation, namely, 302,918,000 francs. The total of notes in circulation is thus brought down to 52,233,528,775 francs, which compares with 49,932,825,785 francs at the corresponding period last year and with 40,603,965,140 francs the year before. Gold holdings expanded 3,500 francs to 5,548,809,600 francs. For the same time last year the holdings were 5,548,089,492 francs, and in 1924, 5,545,118,920 francs. The State's indebtedness to the Bank remained unchanged to 36,450,000,000 francs. In 1925 total advances to the State aggregated 34,650,000,000 francs and the year previous to 22,600,000,000 francs. Other changes in the Bank's report were: Silver was increased 1,000 francs; bills discounted, 79,341,000 francs; Treasury deposits, 18,586,000 francs, and general deposits, 40,747,000 francs. Trade advances fell off 38,936,000 francs. Comparisons of the various items in this week's return with the statement of last week and with corresponding dates in both 1925 and 1924 are as follows:

BANK OF FRANCE'S COMPARATIVE STATEMENT.

	Changes for Week.	Dec. 22 1926.	Status as of Dec. 24 1925.	Dec. 25 1924.
Gold Holdings—				
In France.....	Inc. 3,500	3,684,488,693	3,683,768,585	3,680,798,013
Abroad.....	Unchanged	1,864,320,907	1,864,320,907	1,864,320,907
Total.....	Inc. 3,500	5,548,809,600	5,548,089,492	5,545,118,920
Silver.....	Inc. 1,000	340,717,270	320,076,005	305,740,669
Bills discounted.....	Inc. 79,341,000	3,642,319,514	3,693,445,155	5,240,692,511
Advances.....	Dec. 38,936,000	2,155,003,869	2,538,938,730	2,930,215,012
Note circulation.....	Dec. 302,918,000	52,233,528,775	49,932,825,785	40,603,965,140
Treasury deposits.....	Inc. 18,586,000	47,999,991	10,989,199	13,505,984
General deposits.....	Inc. 40,747,000	5,323,371,017	3,243,966,254	1,959,371,418
Advances to State.....	Unchanged	36,450,000,000	34,650,000,000	22,600,000,000

The weekly statement of the Imperial Bank of Germany, issued on Dec. 20, as of date Dec. 15, revealed another large contraction in note circulation, namely of 125,057,000 marks, although this was offset by expansion in other maturing obligations of 125,467,000 marks. Other liabilities, however, decreased 43,093,000 marks. On the assets side, the Bank reported an increase of 19,050,000 marks in holdings of bills of exchange and checks and of 3,060,000 marks in silver and other coins. Reductions occurred in reserve in foreign currencies of 18,716,000 marks, in advances of 98,556,000 marks and in investments 14,000 marks. Notes on other banks increased 6,035,000 marks and other assets increased 37,571,000 marks. A further substantial addition to gold and bullion holdings was recorded, viz., 17,281,000 marks, so that the total stock of gold now aggregates 1,772,261,000 marks, in comparison with 1,207,666,000 marks last year and 696,185,000 marks in 1924. The Bank's outstanding note circulation is now 3,165,804,000 marks, as against 2,566,327,000 marks a year ago.

Important changes, indicating heavy shifting of funds to meet holiday needs, as well as the effects of Treasury financing, were shown in the Federal Reserve Bank statements, issued at the close of business on Thursday. Expansion in open market operations and in rediscounting of all classes of paper figured in both reports. For the System as a whole paper secured by Government obligations increased \$100,400,000, while "other" bills expanded \$52,700,000. Holdings of bills bought in the open market increased \$3,400,000. The amount of Federal Reserve notes in actual circulation was augmented by \$73,800,000, which the Federal Reserve Board construes as reflecting holiday demands, but there were large decreases in most of the other items. The United States Treasury redeemed the \$188,000,000 of temporary certificates issued the previous week to the Reserve banks pending the collection of the December installment of the income taxes, and accordingly holdings of Government securities were reduced in the large sum of \$163,833,000. However, total bills and securities (earning assets) declined only \$7,200,000, owing to the great increase in rediscounting. Member bank reserve accounts declined \$135,800,000 and deposits fell off \$84,500,000, while gold reserves declined \$27,500,000. At New York a gain in gold of \$38,500,000 occurred. Rediscounting of all classes of paper rose \$74,200,000, to \$174,244,000, although this total is still well below that of a year ago, when the amount was \$228,186,000. Open market purchases gained \$4,500,000. Total bills and securities fell off \$71,500,000. Deposits declined \$56,800,000 and member bank reserve accounts \$79,400,000, but Federal Reserve notes in actual circulation gained \$17,700,000. As to reserve ratios, an advance occurred locally, but a loss for the banks as a group, which brought the level down to 68.9%, or 0.8% off. At New York the ratio rose 4.7%, to 76.2%.

Last Saturday's statement of the New York Clearing House banks and trust companies showed the effect of preparations to meet holiday requirements, and once more surplus reserves were completely eliminated and a deficit of over \$5,000,000 in reserves

recorded. Loans increased \$13,629,000 and net demand deposits moved up \$14,074,000, making the total of these demand deposits \$4,402,609,000, not counting \$39,680,000 in Government deposits, an increase of \$22,165,000 for the week in the latter item. In time deposits there was a falling off of \$2,707,000, to \$651,232,000. Cash in own vaults of members of the Federal Reserve Bank was augmented \$5,293,000, to \$55,403,000, which, however, does not count as reserves. State bank and trust company reserves in own vaults increased \$529,000, and reserves kept by these institutions in other depositories showed a gain of \$743,000. Member banks drew on their reserves in the Federal institution to the amount of \$18,169,000; and this, in conjunction with larger deposits, served to bring about a loss in surplus of \$18,695,400, thus wiping out the previous week's surplus and replacing it with a deficit in reserve of \$5,036,920, which compares with last week's excess reserve of \$13,658,480.

Because of the fact that to-day (Saturday) is a holiday (Christmas), the Clearing House bank statement for the current week was given out at the close of business yesterday (Friday). The figures show some big changes, the outgrowth of Treasury financing and the Christmas demand for money. Loans recorded the huge expansion of \$103,371,000 and this was attended by an increase of \$60,219,000 in demand deposits and of \$10,584,000 in time deposits. As a result, a surplus reserve of more than \$40,000,000 was achieved. Probably, however, the most noteworthy development was an addition to reserves of member banks in the Federal institution of \$54,487,000, the result of borrowing at the Federal Reserve Bank. This served to eliminate last week's deficiency in reserves and to give, instead, a surplus reserve in amount of \$41,193,430.

Call money reached 6% on Thursday. Up to that time 5½% had been the going rate. Even when the 6% quotation prevailed there was no real change in time money from 4½% to 4¾%. This was regarded as particularly significant. It was generally assumed that the advance to 6% for demand loans was an incident closely associated with the preparations for the tremendous dividend disbursements on or about Jan. 1, in addition to the usual interest payments. Firm call money all next week was expected until the large offerings yesterday became known, causing the rate to decline to 5½%, and the publication of the actual statement of Clearing House banks, which disclosed an excess reserve of \$41,193,430, against a deficit of \$5,036,920 last week. On Thursday alone the calling of loans was said to have reached \$25,000,000. The same figure was reported for a single day early in the week. The actual Clearing House members' bank statement last Saturday foreshadowed the probability of an extensive calling of loans this week in order that the member institutions might build up their balances. This week's figures indicated that the situation had been corrected. It is worth noting that on Thursday, whereas the offerings at the opening rate of 5½% for call money were rather moderate, they increased considerably when the 6% quotation was reported, so that borrowers experienced no difficulty in satisfying their requirements.

Most of the reports that have come to hand this week have disclosed a smaller turnover in business. That this was the trend, even in November, is shown by the statements of railroad earnings for that month that have been made public. Both the Union Pacific and Southern Pacific, for instance, reported rather substantial decreases in their gross earnings. The "Iron Age" indicated a still further drop in new business in the steel trade. Automobile plants are being shut down for the annual taking of inventories, but most of the leading officials are talking confidently about the outlook for next year. There has been further heavy buying of investment securities in anticipation of the unusually large disbursements at the beginning of the New Year and the offerings of new securities have continued large.

Referring to money rates in detail, loans on call covered a range of 5@6%, as against 4½@5% last week. On Monday the high was 5½%, the low 5% with 5% also for renewals. Tuesday and Wednesday there was no range, all loans on call being put through at 5½%, which was also the basis for renewals on both days. Firmness set in on Thursday as a result of increased demands for the holidays and there was an increase to 6%; renewals, however, continued at 5½%, and this was the low. Friday the range was still at 5½@6%, but the renewal rate was marked up to 6%.

In time money trading was inactive and the market dull. A firm undertone prevailed as a result of light offerings, and the range was not changed from 4½@4¾% for all periods from sixty days to six months, the same as a week ago.

Mercantile paper rates continue to be quoted at 4¼@4½% for four to six months' names of choice character, with names not so well known still requiring 4½@4¾%. Offerings were light, and trading was small in volume. Out-of-town banks supplied the bulk of the limited business that passed. New England mill paper and the shorter choice names are still being dealt in at 4¼%.

Banks' and bankers' acceptances ruled steady, with trading exceptionally quiet. Market conditions remain essentially the same and there is no new feature to report. Country institutions were the principal buyers. For call loans against bankers' acceptances, the posted rate of the American Acceptance Council still remains at 4%. The Acceptance Council makes the discount rate on prime bankers' acceptances eligible for purchase by the Federal Reserve banks 3¾% bid and 3⅝% asked for bills running 30 days; 3⅞% bid and 3¾% asked for 60 days; 4% bid and 3⅞% asked for 90 and 120 days, and 4⅛% bid and 4% asked for 150 days and 180 days. Open market quotations follow:

SPOT DELIVERY.			
	90 Days.	60 Days.	30 Days.
Prime eligible bills.....	3¼@3¼	3¼@3¼	3¼@3¼
FOR DELIVERY WITHIN THIRTY DAYS.			
Prime eligible bills.....	3¼ bid		
Eligible non-member banks.....	3¼ bid		

There have been no changes this week in Federal Reserve Bank rates.

Sterling exchange moved narrowly and trading during the greater part of the week was of a pre-holiday character, with the volume of business transacted small. Preparations for the Christmas holidays, as usual, took precedence of all else in the business world and foreign exchange was neglected.

Withal the undertone was firm and buying orders were sufficient to absorb all bills on offer. For a time French and Italian interests appeared in the market as sellers and the pressure momentarily drove sterling prices down a fraction. The weakness, however, was short lived. With the culmination of the selling movement, values commenced to advance and the close was at the best for the week. The entire range of quotations was only ⅛, demand bills ruling between 4 84 9-16 and 4 84 13-16 up to Friday, when there was an additional advance to 4 85. With the turn of the year it is expected that greater activity will develop in the sterling market, since a considerable volume of bills will be required to take care of the inquiry arising out of the yearly settlements and the like.

Referring to the day-to-day rates sterling exchange on Saturday last was easier and demand declined to 4 84 11-16 (one rate) and cable transfers to 4 85 3-16; trading was not particularly active. On Monday selling by French and Italian interests sent prices down a trifle and the day's range was 4 84 9-16 @4 84¼ for demand and 4 85 1-16@4 85⅛ for cable transfers. After early weakness the market steadied on Tuesday and demand advanced a fraction to 4 84 11-16; the low was 4 84 9-16, while cable transfers ranged between 4 85 1-16 and 4 85 3-16; the market was dull and trading small in volume. Wednesday brisk buying induced a firmer tone, with an advance to 4 84 11-16@4 84 13-16 for demand and 4 85 3-16@4 85 5-16 for cable transfers. Buying for "window dressing" purposes, or in other words, in anticipation of month-end settlements, was indicated on Thursday; the result was an advance in demand bills to 4 84 13-16@4 84⅞ and in cable transfers to 4 85 5-16@4 85⅝. On Friday pre-holiday dullness settled down over the market, which was all but stagnant, and quotations were practically nominal, though firm and higher at 4 84⅞@4 85 for demand and 4 85⅝@4 85½ for cable transfers. Closing quotations were 4 84⅞ for demand and 4 85⅝ for cable transfers. Commercial sight bills finished at 4 84¾, sixty days at 4 80¾, ninety days at 4 78⅞, documents for payment (sixty days) at 4 81 and seven-day grain bills at 4 84⅛. Cotton and grain for payment closed at 4 84¾.

No gold was engaged for export or import. The Bank of England reported various small sales approximating £900,000 and exports of £10,000 in sovereigns for Argentina. The Bank imported £500,000 in gold sovereigns from South Africa.

In the Continental exchanges also trading was dull and uninteresting, owing to the pre-occupation in holiday festivities. Nevertheless small spurts of activity developed at intervals, at least in some of the leading currencies, notably francs and lire. In the former alternative advances and declines occurred on moderate trading operations. Early in the week, buying for foreign account carried franc quotations up to another new high point for the movement of 4.05½. Later realizing sales caused a drop back to 3.95½. It was pointed out with some interest that whenever the franc sells above the 4c. mark, recession occurs which brings the price down to 3.99 or thereabouts. While no great significance was attached to the renewal of strength in francs in the face of selling, it is regarded in some quarters as a response to favorable November trade figures, Premier Poincaré's optimistic utterances as to the fine political

co-operation he is receiving and the fact that Parliament has adjourned. Selling pressure was attributed partly to the operations of a group of Dutch speculators, also certain French interests desirous of lowering values on the stock market.

The action of the Bank of France in announcing late in the week that it was to assume control of the foreign exchange market; that is, buy and sell francs in any quantity at slightly under 3.97, aroused widespread surprise. Bankers here were somewhat at a loss for an explanation of the step taken, some believing that it was equivalent to a stabilization of the franc at that figure, while others contended that it was simply a measure undertaken to prevent violent fluctuations over the year-end period. In any event the announcement came too late to have any effect on market values.

Italian lire moved up with francs and demand bills advanced to $4.54\frac{3}{4}$, or $7\frac{1}{4}$ points over last week's close; although here also reaction set in after a time and quotations dropped back to $4.41\frac{1}{2}$, with, however, a rally to $4.51\frac{1}{2}$ before the close. Unsettlement over the publicity given to criticism by the Pope of the Fascist regime was held responsible for some of the selling; although as recovery was rapid, it was claimed that the market just at present is in an unusually strong position. Narrowing recently of future rates on francs and lire attracted some attention. Thirty day bills at one time sold at \$.0002 below spot, while ninety days ruled at from \$.0006 $\frac{1}{2}$ to \$.0007 below. The Belgian belga remains unaffected by the vagaries in the neighboring currencies. Announcement by the Belgian Government of the cessation of restrictions over the movement of capital exports from Antwerp had no effect on actual quotations. It is noteworthy that Belgium's second effort at stabilization has been almost uniformly satisfactory, in quite distinct contrast to the collapse of last year. Bankers do not look for drastic fluctuations in the belga, for the reason that gold holdings are considered ample, while money is plentiful and the position of the belga has been strengthened to meet possible future attacks upon it. It is conceded that current monetary ease may not last, but any depression that comes, it is thought, will likely be of short duration. Other branches of the Continental markets were narrow and quiet. German and Austrian exchanges remain essentially unchanged. Greek drachmae profited by reports of favorable negotiations in London for adjustment of a Greek loan and there was an advance to $1.25\frac{1}{2}$. Rumanian lei were firmer but without specific activity.

The London check rate on Paris finished at $122.37\frac{1}{2}$, as compared with 121.20 last week. In New York sight bills on the French centre closed at 3.96, against 4.00; cable transfers at 3.97, against 4.01 and commercial sight bills at 3.95, against 3.99 a week ago. Antwerp belgas finished at 13.90 for checks and at 13.91 for cable transfers, in comparison with $13.91\frac{1}{4}$ and $13.91\frac{1}{2}$ a week earlier. Final quotations on Berlin marks were $23.82\frac{1}{2}$ for checks and $23.83\frac{1}{2}$ for cable transfers. A week ago the close was $23.78\frac{1}{2}$ and $23.80\frac{1}{2}$. Austrian schillings continue to be quoted at $14\frac{1}{8}$, unchanged. Italian lire finished the week at $4.49\frac{1}{2}$ for bankers' sight bills and at $4.50\frac{1}{2}$ for cable transfers, against $4.46\frac{1}{2}$ and $4.47\frac{1}{2}$ the previous week. Exchange on Czechoslovakia closed at $2.96\frac{1}{4}$ (unchanged); on Bucharest at $0.53\frac{1}{4}$, against $0.51\frac{3}{4}$; on Poland at 11.25, against 11.50, and on Finland at 2.52, against

$2.52\frac{1}{4}$. Greek exchange finished at 1.23 for checks and at 1.24 for cable transfers. This compares with $1.23\frac{1}{2}$ and $1.24\frac{1}{2}$ last week.

Trading was dull in the former neutral or smaller Continental exchanges, and rate changes were not particularly important. Dutch guilders continue to fluctuate between 39.96 and 39.98 for checks, while Swiss francs were firmly held, at around 19.33. In the Scandinavian currencies the only changes worth noting were in Norwegian krone which fluctuated nervously, opening at 25.24, dropping to 25.14, then rallying to 25.17, only to sag off in the late dealings to 25.13, though closing higher at 25.28. No specific reason could be assigned for this backing and filling, other than speculative activity. According to the best banking opinion here, Norway is not yet ready for a return to the gold standard. Formal announcement that Denmark has actually returned to the gold standard and that the Danish kronen would be placed on a gold basis Jan. 1, had no perceptible effect on price levels. Spanish pesetas displayed strength and ruled at close to 15.25, rising for a time to as high as 15.28 on good buying.

Bankers' sight bills on Amsterdam finished at 39.98 (unchanged); cable transfers at 40.00 (unchanged), and commercial sight bills at 39.94 (unchanged). Swiss francs closed at 19.33 for bankers' sight bills and at 19.34 for cable transfers, in comparison with $19.33\frac{1}{2}$ and $19.34\frac{1}{2}$ the preceding week. Copenhagen checks finished at 26.64 and cable transfers at 26.65 (unchanged). Checks on Sweden closed at 26.74 and cable transfers at 26.75, against 26.72 and 26.73, while checks on Norway finished at 25.28 and cable transfers at 25.29, against 25.23 and 25.24 the previous week. Spanish pesetas closed the week at 15.27 for checks and at 15.28 for cable transfers. Last week the close was $15.23\frac{1}{2}$ and $15.24\frac{1}{2}$.

South American exchange displayed mixed movements, although price changes were small and trading was usually inactive and uninteresting. Argentine pesos closed at 41.40 for checks and at 41.45 for cable transfers, as compared with 41.31 and 41.36, while Brazilian milreis finished at a decline at 11.78 for checks and at 11.83 for cable transfers, against 11.95 and 12.00 a week ago. Chilean exchange was not changed from 12.00. Peru remained at 3 57, unchanged.

Far Eastern exchange was quiet at close to the levels of the previous week. Chinese documents were firm, advancing slightly in sympathy with improvement in the price of silver. Indian rupees are commencing to profit by the deflationary measures undertaken by the Indian Government. Heavy reduction in note circulation made possible by the easy money condition in Bombay and Calcutta, sent rates up several points, and the close was at $36\frac{1}{4}$ @ $36\frac{7}{16}$ for Bombay, against 36 @ $36\frac{1}{8}$, and $36\frac{1}{4}$ @ $36\frac{7}{16}$ for Calcutta, against 36 @ $36\frac{1}{8}$. Hong Kong closed at $48\frac{1}{8}$ @ $48\frac{5}{8}$, against $48\frac{5}{16}$ @ $48\frac{5}{8}$; Shanghai at $59\frac{3}{8}$ @ $59\frac{3}{4}$, against $59\frac{5}{8}$ @ 60 ; Yokohama at 48.85 @49.06, against 48.90@49.12; Mani'a at 49.60@49.75 (unchanged), and Singapore, $56\frac{1}{4}$ @ $56\frac{1}{2}$ (unchanged).

Pursuant to the requirements of Section 522 of the Tariff Act of 1922, the Federal Reserve Bank is now certifying daily to the Secretary of the Treasury the

buying rate for cable transfers in the different countries of the world. We give below a record for the week just past:

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANKS TO TREASURY UNDER TARIFF ACT OF 1922, DEC. 18 1926 TO DEC. 24 1926, INCLUSIVE.

Country and Monetary Unit.	Noon Buying Rate for Cable Transfers in New York. Value in United States Money.					
	Dec. 18.	Dec. 20.	Dec. 21.	Dec. 22.	Dec. 23.	Dec. 24.

The New York Clearing House banks, in their operations with interior banking institutions, have gained \$5,876,700 net in cash as a result of the currency movements for the week ended Dec. 23. Their receipts from the interior have aggregated \$7,198,800, while the shipments have reached \$1,322,000, as per the following table:

CURRENCY RECEIPT AND SHIPMENTS BY NEW YORK BANKING INSTITUTIONS.

Week Ended December 23.	Into Banks.	Out of Banks.	Gain or Loss to Banks.
Banks' interior movement.....	\$7,198,800	\$1,322,100	Gain \$5,876,700

As the Sub-Treasury was taken over by the Federal Reserve Bank on Dec. 6 1920, it is no longer possible to show the effect of Government operations on the Clearing House institutions. The Federal Reserve Bank of New York was creditor at the Clearing House each day as follows:

DAILY CREDIT BALANCES OF NEW YORK FEDERAL RESERVE BANK AT CLEARING HOUSE.

Saturday, Dec. 18.	Monday, Dec. 20.	Tuesday, Dec. 21.	Wednesday, Dec. 22.	Thursday, Dec. 23.	Friday, Dec. 24.	Aggregate for Week.
\$105,000,000	\$100,000,000	\$89,000,000	\$89,000,000	\$95,000,000	\$100,000,000	Cr. 579,000,000

Note.—The foregoing heavy credits reflect the huge mass of checks which come to the New York Reserve Bank from all parts of the country in the operation of the Federal Reserve System's par collection scheme. These large credit balances, however, reflect only a part of the Reserve Bank's operations with the Clearing House institutions, as only the items payable in New York City are represented in the daily balances. The large volume of checks on institutions located outside of New York are not accounted for in arriving at these balances, as such checks do not pass through the Clearing House but are deposited with the Federal Reserve Bank for collection for the account of the local Clearing House banks.

The following table indicates the amount of bullion in the principal European banks:

Banks of	December 23 1926.			December 24 1925.

The Friendship Between France and the United States.

The sesqui-centennial year of American Independence has been duly celebrated, but it should not be allowed to end without calling attention to the relation to us which France has maintained. Through the 150 years her friendship has never been withdrawn.

It was proffered at the outset. It was held through the critical years of the War of the Revolution apart and quite above any thought of gain to herself. It proved heavily costly to her and has exposed her in later years to much adverse criticism. Through the entire period Europe has been engaged in great and almost incessant wars, in all of which France on one side or another was involved, but she is the only one, at least of the greater nations, who has not changed her attitude toward us, even for an hour. Storms of passion and distrust have swept across Europe. The rulers and the statesmen have been engaged in the machinations, and beguiled by the visions of gain that have prevailed, but the friendship of France for America, which was early identified with the names of men whose memory she delights to honor, which has become traditional and has a place in the hearts of the French people, has never changed.

To appreciate this it is well to glance at the circumstances of its origin. Dr. James Brown Scott, our widely known constitutional and political historian, has collected in a small volume, "The United States and France," published by the Oxford University Press, copies of original documents giving the facts of the events which furnish the foundation of "Opinions on International Gratitude," by which he indicates our feelings toward France. It ought to be a handbook in every private library.

What is known as the French and Indian War in this country ended with the defeat of France in 1763. It proved most disastrous to her. She lost Canada, islands in all parts of the world, the larger part of her naval fleet and a vast number of her merchant vessels. Her funds were exhausted; her credit was gone and the nation discouraged. Sparks, the historian, who in 1847 tells the story, took occasion to say: "The experience of all ages has shown that no treaty can endure in which one party takes advantage of another to impose degrading terms or insist on humiliating concessions. There is a sense of honor, a self-respect in nations, which, though they may yield, will when they recover strength throw off the burden and recover the lost dignity."

In the decade that followed it was not strange that the French cherished the feeling that they had been bitterly aggrieved by both the loss of the war and the humiliating treaty imposed under the mask of peace and friendship. Naturally, in 1776 the colonists sought friends in France. Commissioners were sent over and, before official recognition, arrangements were made for the dispatch of arms, munitions and clothing; and a loan of 2,000,000 livres was put at the disposal of Congress to be paid in quarterly installments of 500,000 livres. When twelve months later news came of the defeat of Burgoyne and of Washington's display of strength in Pennsylvania a treaty of amity and commerce was signed and three months afterwards, on the appearance of d'Estrange's fleet in the Delaware, it became matter of public knowledge, and England declared

war with France. France, as reported by Sparks, not only was "resolved to take no advantage of the situation of the Americans and to desire no terms which they might afterwards repent of or endeavor to retract," as reported from the King himself by Count Vergennes, but "acted in face of the danger of being left in an awkward position in case the Americans should be defeated, or should return to British allegiance."

"Never," says Dr. Scott, "was there greater frankness on the part of a prospective ally; never greater generosity, treating weak and struggling colonies upon a footing of equality, and never greater constancy until the purpose of the alliance was accomplished." The direct purpose of the treaty was declared to be "to maintain effectually the liberty, sovereignty and independence, absolute and unlimited, of the United States." France asked nothing in return and explicitly disavowed all intentions of making conquests or accepting cession of territory, even of regaining Canada and the islands taken from her; terms which she unqualifiedly maintained to the end of the struggle. During the war she furnished us 18,000,000 livres on her own account, partly as a gift, and all without interest until after peace should be won. In addition, she guaranteed our indebtedness to Holland of 16,000,000 livres, making 34,000,000 of obligations. Though by 1794 we repaid the loan, the expenses incurred in consequence of her venture to aid us so disarranged her finances that they are regarded as a final cause of the Revolution which broke out in her own land.

While the conduct of France was officially that of the King and his officers, the testimony is that it was the readiness of all classes to accept the sacrifices involved and the force of public opinion which determined the course of the nation. Washington's comment in 1783 was: "The magnanimous and disinterested scale of action which that great nation has exhibited to the world during this war, and at the conclusion of peace, will insure to the King and nation that reputation which will be of more consequence to them than any other consideration." He thereupon gave the parole at the anniversary of the French alliance, "America and France," and the countersign, "United Forever."

Condorcet in his eulogy of Franklin before the French Academy, referring to the hesitancy of the Government when the question of alliance with America was first raised, said: "France had not yet a free constitution, but Frenchmen were not slaves. It was not a question of indifference whether war was in accordance with, or contrary to the national desire; and the French were already worthy of having Ministers follow a policy adopted by free nations and in declaring war to await its solicitation by the voice of the people." As John Quincy Adams said in connection with announcing the Monroe Doctrine in 1823, that, "as the Declaration of Independence was the foundation of all our municipal institutions, the preamble to the French treaty laid the foundation for all our subsequent intercourse with foreign nations."

American independence was in its cradle in 1778 when the French treaty was signed, but it was a new child in a strange cradle and was being violently rocked; that treaty assured its safety and by its definite recognition confirmed the lines of its

growth. This was the issue finally settled in 1783 in the Treaty of Peace with England. France had exerted her best efforts to secure recognition of American independence by every European Power. Through her influence the Americans were led to accept peace without making claim to other parts of the Continent beyond their possession at the time, Canada, Nova Scotia, the Islands and the territory beyond the Alleghanys. These were to be kept open for future discussion. She insisted that the treaty offered to her by England should be referred directly to the United States in full recognition of their independence. Parliament was compelled to accede; independence was made the first article and the treaty was accepted and signed. While discussion with London was going on and the American Commissioners were dissatisfied and became critical of France, it was soon shown that efforts made by enemies to create that feeling were futile and the perfect good faith of France was confirmed.

All this is past history. But as the historian, Jared Sparks, said in reviewing it in 1847 in reply to hostile criticism: "Nations as well as individuals may have many occasions for friends, and friendships are preserved by the remembrance and acknowledgment of benefits mutually conferred. The character of a nation is in its history: it is the inheritance and not the creation of any existing generation." To-day, when to this is to be added the fact emphasized amid all the efforts to secure peace and good-will, that the nations are governed mainly by sentiment, the result of their traditions and feelings, rather than by argument or even self-interest, it is evident how important it is that this history should be known.

Great issues are at stake; and the great nations especially should know that deep-rooted national friendships are not to be destroyed by transient events or opposing self-interests and different points of view. They need the help that each may bring to secure the end for which all would strive; and the hearts of the people can be counted on for support if right feeling prevails.

How valuable the testimony of the life of even one man may be to this is seen in the comment of Dr. Osler upon the life of no less a man than Pasteur: "It reveals," he says, "the true story of a great people in whom filial piety, brotherly solicitude, generosity, and self-sacrifice are combined with a rare devotion to their country." And this country was France, whose unbroken friendship for us the sesqui-centennial year has indirectly celebrated.

Senate Passes Resolution Calling for Inquiry by Federal Trade Commission Regarding Stock Dividends of Corporations.

On Dec. 22 the Senate adopted a resolution offered by Senator Norris of Nebraska directing the Federal Trade Commission to furnish information as to the issuance of stock dividends by corporations. The following is the text of the resolution:

Whereas, It has become the usual practice of corporations, in order to protect stockholders from the payment of income taxes, to declare stock dividends; and

Whereas, This procedure enables corporations to acquire competing plants, and in this way avoid the provisions of the anti-trust law; and

Whereas, In order to legislate upon the subject the Senate should be fully informed as to the extent of this practice; therefore be it

Resolved, That the Federal Trade Commission be, and it is hereby, directed to ascertain and report to the Senate the names and the capitalization of corporations that have issued stock dividends, together with the amount of such stock dividends, since the decision of the Supreme Court holding that stock dividends were not taxable, and to ascertain and report the same information as to the same corporations, for the same period of time prior to such decision.

The Sesqui-Centennial Exposition at Philadelphia— The Reason for Its Non-Success

1. Object and Scope of International Expositions.

It is often said, in this country, that "World's Fairs have had their day," that "they no longer attract the people," that they are "too expensive," and are "wasteful." We do not incline to this view. They are highly educational; and, when properly carried out, bring the nations and peoples of earth into closer contact and thus make for amity and peace. It is true that at Wembley and at Philadelphia there has been recorded a financial failure. But showing a profit, or even making expenses, is not a proper preview. It may be said, however, if one is again projected in the United States, it must take early thought not only of the primal object, but of the magnitude of the conception and the time, cost and weight of the administration. It takes three or four years of strenuous and harmoniously continuous work, based upon a well-wrought-out plan, to properly build an international exposition. As far as the date is concerned, it is only a peg to hang the undertaking upon.

This may well be commemorative of some historic event in the story of the nation sponsoring the exhibition, but aside from the spectacles implied has little interest to foreign countries. We find in this fact one of the reasons contributing to the inadequacy of the Philadelphia Sesqui-Centennial Exposition. Too much stress was laid upon the commemorative features—upon celebrating one hundred and fifty years of American Independence. This is borne out by the success of the Panama-Pacific International Exposition at San Francisco, which, for the first time in the history of American international expositions, celebrated an event of great importance to the commerce of the entire world—the opening of the Panama Canal. Yet this statement is to be qualified, for the expositions in Philadelphia 1876, Chicago 1892, St. Louis 1904, were successful in the true sense, though with varying monetary returns. Nations and peoples are primarily interested in the comparative value and educational power of the exhibits.

The commercial advance by reason of bringing together at one time and place the resources and products of earth through representative national exhibits cannot be overestimated. But the plan must be comprehensive and the acceptance and attendance by all the nations as complete as possible. In this sense the Sesqui-Centennial Exposition was almost a total failure. None of the principal nations, as for example England, France, Germany, had really representative national exhibits and buildings. Only a few States of the American Union were present in State buildings—namely, New York, Pennsylvania, New Jersey, Delaware, Illinois, Ohio, Connecticut. Here again the contrast was most marked, especially with the Louisiana Purchase and Columbian expositions, and even with the Panama-Pacific. Handicapped as the last was by a lack of formal acceptance of the invitation to exhibit by England and Germany—and the breaking out of the World War before the opening, many nations and nearly all domestic States were there.

It has been said by a writer on viewing the Sesqui-Centennial, that "it never had a chance." Without reciting its well-known history, it was not finally determined upon until about a year, or a little more, before its opening date; though the national invitation to participate had been extended several years in advance of this. The management did send an official representative to Europe, but with little success. In ample time the Panama-Pacific sent commissions to foreign countries with special invitations; and the hurried "swing around the circle" in Europe by Governor Francis, President of the Louisiana Purchase, and the results, are recorded and well known. An international

exposition is not a meagre and haphazard collection of interesting objects brought from odd corners of earth for display to the curious—it is an epitome of the life, resources, industries and commerce of the peoples—educative in value, interesting in attractiveness, properly housed and displayed, and productive of respect, emulation and unity.

2. Leading Causes of the Failure at Philadelphia.

We are using the term "failure" in a specific sense. It is not to be understood that there was not at this exposition displays that well repaid attendance. It is not to say that many difficulties were not overcome, or that there was not a hasty design and accomplishment worthy of praise. But this exposition is to be judged by preceding successful expositions. To those who were not familiar, by reading or attendance, with other expositions, it presented several features of absorbing interest well worth days of observation and study. Financially it never was firmly on its feet from first to last. It never at any time received the whole-hearted support of the citizens of Philadelphia. There was dilatoriness in arriving at a fixed purpose, there were changes in management, there was constant objection to the site chosen, and there was a hesitating and insufficient direct monetary support by the citizens and Council.

It was especially lacking in effective advertising. Long delay in arriving at a fixed determination to hold it, and at times an almost complete abandonment, created an impression over the country that there would be no exposition, only a "simple and dignified celebration." When at last the physical work was begun it was apparent to the experienced that only a postponement for a year could enable the exposition to succeed. This was refused. Work was rushed. Some of the exhibit palaces were contracted at four months' time and completed thereabout, leaving four or five months to the opening date. And there is credit due for what was accomplished under the circumstances. But it was inevitable that the Sesqui-Centennial could not become an adequate international or even national exposition. And it did not. So unsystematic was the exploitation, so meagre the advertising, that up to the opening a large part of the population of the country did not know it was to be held. And one reason for this was haste and doubt. The management itself did not know what would be secured in participation. There was little to describe or announce. It was impossible that comprehensive world or national exhibits could be gathered together.

When the gates were thrown open in June of the year a general state of unpreparedness was disclosed. There were few exhibits in place, the grounds were not fully graded, many buildings were under construction—and as an example of the delays, the Argentine building was under construction as late as the first week in October. Inclement weather was at once encountered; rains continued to be excessive for most of the period. Soon after the opening an order of widespread membership nationally was scheduled to meet, and coming upon such a scene of confusion must, even though unconsciously, have spread an adverse and dampening report through the country. And it must be said in extenuation that neither the railroads, the city papers, nor the citizens of Philadelphia were impressed duly with either the scheme or accomplishment. For long months attendance lagged, broken by a gathering in honor of a prize fight in the Stadium and later by an open-air mass held by Catholic churches and societies. Too much stress was laid always on this Stadium. Athletic meets are only a side attraction to a real exposition. Spectacles and historic commemorations, as we have said before, are of more national than international importance.

3. Location—Accessibility—Water Features—Navy Yard.

There was much criticism of the location, a tract of waste ground in South Philadelphia near the Navy Yard. Many of the supporters of the enterprise favored one of the parks along the river side—affording aquatic scenes and regattas—and in beautiful surroundings. Disputes over sites are not infrequent. But for reasons not necessary to mention, a sort of enmity seemed to follow the final selection. While more perfect transportation facilities might have been provided, accessibility was reasonably sufficient. But the attempt to build lakes and lagoons in such conditions must necessarily be lacking in beauty and perspective. The Navy Yard added in one way an interest to visitors—but such interest was at the expense of usual features. One of the chief faults of the site was the nature of the ground. It had no natural attractions. Some trees were planted, but they were small; and the landscape gardening was scant; while in a way it set off the buildings with the green of shrub and sward one gained no idea of the wonderful beauty of the regional surroundings.

4. Architecture, Statuary, Exhibit Palaces, Foreign and State Buildings.

At the Columbian Exposition at Chicago, as remaining prints will show, the chief feature was the ornateness of the buildings. In architectural display, as far as exterior finish is concerned, this was perhaps the most beautiful of all American expositions. The Louisiana Purchase Exposition at St. Louis had, first, the advantage of a noble setting in Forest Park. Here was the largest exhibit palace, that of Agriculture, ever constructed, and in it was a representative display of the products of the great interior valley of the Mississippi. This exposition was possessed of a huge fund from the United States Government and showed, in a large tract, a complete review of the life and industries of the Philippine Islands as one of its unique and distinguishing features. Its foreign buildings and exhibits were representative and comprehensive. Practically all of the States of the Union had their own buildings of appropriate historic local interest and color. The Louisiana Purchase Exposition was postponed one year.

It was at San Francisco at the Panama-Pacific International Exposition that experience in exposition building was most pronounced, resulting in a marvel of attractiveness. Exhibit palaces were compacted together around central and lateral open courts, adorned with statuary and fountains; the whole dominated by a sculptural "Tower of Jewels," symbolic of the rise of man through ancient, medieval and modern times, rising to impressive height; and covered with suspended sumatra-cut colored glass prisms, that, oscillating in the soft air by day and night, scintillated with superb light and beauty. Viewed from one of the city's hills, the serried domes of these exhibit palaces stretching toward the Golden Gate to meet the array of State buildings along the shore of the Bay, and flanked by the Machinery Hall and the Palace of Horticulture, formed one of the most entrancing architectural displays ever erected in the United States. To this central art picture was added the Pavilions of Foreign Countries; and the entire exposition was set in landscape gardens replete with the foliage and flowers of this remarkable clime.

The two innovations in exposition building at this exposition were flood-lighting of the grounds and buildings by powerful projectors and the grouping of the palaces affording easy access to visitors. Nothing of this nature had before been attempted and it proved a success both as to beauty and utility. By comparison, the Philadelphia ensemble made a poor showing. The Palaces of Liberal Arts and Manufactures, Agriculture, Foodstuffs and Foreign Exhibits, Hall of Machinery, Mines, Metallurgy and Transportation and Palaces of Fine Arts, Education and Social Economy, though separated, save the first two, were not without impressive features, but were lacking in ornate-

ness, and bore unmistakable evidence of hasty and forced construction, and being without unity of design were lacking in the expression of grandeur. The usual stucco material was used, but columns, bas-reliefs and color shading were not notable. Notwithstanding—some attractive views and vistas were obtained, and had there been time and money sufficient to perfect details and surroundings, there could have been a more attractive setting. An official map shows large areas devoted to parking and the absence of easy access in location of buildings. Taking Liberal Arts and Agriculture as characteristic, the facades were too low to be impressive and the roofs without adornment. In the grounds as a whole, there were too few flowers and fountains.

5. Exhibits—Liberal Arts and Manufactures—Agriculture, Foodstuffs, Foreign Exhibits—Machinery and Transportation, Fine Arts, Education and Social Economy, Auditorium, Administration.

Entering the Palace of Liberal Arts at Philadelphia, the first to the left of the entrance to the grounds, one of the chief reasons contributing to the inadequacy of this exposition as an international world's fair became apparent. It may be stated in a single word—commercialism. Never before, as far as we have been able to learn, has exhibit space been sold. The chief exhibits in this building were for advertising purposes. We have but to take a list from one of the circulars issued for distribution as a guide book to prove the statement: Associated Wall Paper Manufacturers, Underwood Typewriter, Burroughs Adding Machine, Delco Light, National Cash Register, National Casket Company, Atlantic Refining Company, American Express Company, Full Fashioned Hosiery, Inc., Moir's Chocolate, Pennsylvania Railroad, Port of Philadelphia Exhibit, Reading Railroad, New York Central Railroad, Steamship Models, Structural Slate Company, Violin Exhibit, Western Union, T. & T., Westinghouse Electric Company, and others. These are set forth as "outstanding," of educational value and artistic presentation. One might spend days of study here with pleasure and profit. But the point is that Liberal Arts as a part of life, as shown, had no comparative or complete reproduction. The showing might as well have been made at any respectable State fair.

The same general truth applied in the Palace of Agriculture and Foodstuffs and Foreign Exhibits. One looked in vain for any representation of the agriculture of one of the earth's greatest agricultural countries, which alone filled acres of space at St. Louis and which as a local feature in the California Counties Building at San Francisco excited admiration and wonder. And just as manufactures was thrust under the roof of Liberal Arts so Foreign Exhibits, such as there were, were placed in the company of agriculture and foodstuffs. Japan, with characteristic enterprise, had many fine exhibits in this building. Here tea, silk, porcelains, were extensively shown. China, likewise, on a more limited scale, had displays of raw silk, tea, lacquerware, jade. The Los Angeles Chamber of Commerce had an exhibition of the county's products. Algiers—antique firearms, ancient scrolls, Algerian shawls and old rugs. Austria—hand-engraved glass, hand-wrought silver, jewel caskets, clocks, bronzes (taste and skill in display were marked features). Czechoslovakia—glassware and works; Denmark, porcelains, pottery, pewter. These exhibits were attractive, beautiful and handsomely displayed. France—rare perfumes and exquisite jewelry. Great Britain, rare jewels, amber, precious stones, wares and potteries; Haiti, iron-work furniture, coffee, rice, etc.; Holland, pottery, silver, pewter; Hungary, laces, embroideries; Italy, antiques; Japan, art loaned by the Imperial Household.

Add to these others handsomely set out and, we repeat, many of the foreign exhibits, though commercial rather than national, were beautiful, unique, instructive and representative in a way of the foreign lands and life, but together

they constituted only a small fragment of the world's work. Along with these were the booths of the Royal Baking Powder Company and the Fleischmann (Yeast) Company, and others, of like character, heterogeneously lodged under the same roof—from all of which an idea will be gained of the tragic failure to provide sufficient exhibit palaces and to assemble in them representative exhibits of the United States, of the States and Continents of the globe. Agriculture, and especially that of the Farm Belt, was wanting. It is impossible in our space to particularize here further. Had the United States Exhibits (Governmental) been taken out of the Transportation, Machinery, Mines and Metallurgy Building there would have been little left. In the Education and Social Economy, due to the schools and social workers of the country, there was perhaps the best assembled collection to be found, gathered, not very scientifically or systematically, but in a more comprehensive way. In Fine Arts—the Rodin collection was notable. Yugoslavia, sculpture and paintings; France, Germany, Russia and Spain, paintings. Most of the space was given over to American Art. The Auditorium was sufficient for the needs of assemblies and the meeting of various association; the Administration Building suitable for the purpose, but of ordinary construction.

6. Independent Buildings and Exhibits, Special Meetings.

Naturally, Pennsylvania led among the State buildings, the Commonwealth having appropriated \$750,000 for the purpose. In it there was, according to the literature, "a very interesting exhibit of Keystone State activities in many lines as well as five community Liberty Bells from various sections of the State." This suggests a comment which explains conditions found in this exposition. Many of the commemorative features were carried out admirably. Philadelphia takes pride in being the Birthplace of Liberty. Within the city are many reminders well worth a visit at any time. But the commemoration of the date of the Declaration and reproduction of the early colonial life and time dominated the whole conception. Aside from the statue "Steel," dedicated, appropriately enough, to the industry by a steel corporation of Pittsburgh, was that called the Forum of the Founders, of Grecian design, which was said to have been "erected to the joint memory of those who, one hundred and fifty years ago, risked their lives, their fortunes and their sacred honor by signing the Declaration of Independence of the United States." Pittsburgh was the only city with a civic building. On its front was inscribed: "As long as the Monongahela and Alleghany shall flow to form the Ohio, as long as the English tongue shall be the language in the boundless valleys which these waters traverse, Pittsburgh shall stand as the Gateway of the West!" Again, the Women's Committee, reproduced the famous street of old containing replicas of "twenty-one historically famous structures," including among others, "The Indian Queen Inn, the Washington House, the Home of William Penn, Old Quaker Meeting House, Dr. Shippen's House, Old Town Hall." To those might be added Sulgrave Manor, the ancestral home of the Washingtons, financed by the National Society of Colonial Dames, and Mt. Vernon by the Young Women's Christian Association. Without dwelling upon these exceedingly interesting reproductions, among the most instructive and deserving works to be found in the grounds—the comment upon the scheme of the exposition is that in stressing the commemorative features the emphasis detracted from its international aspects and brought into relief its obvious failure to live up to its name.

As previously enumerated, the State buildings were Connecticut, Delaware, New Jersey, New York, Ohio and Illinois. In the first four of these the Colonial note pervaded and consistently so. But a national exposition so meagerly constituted, could not possibly give to foreign visitors any true conception of the United States one hundred and fifty years after the founding, the States as they are to-day.

Conversely, Pavilions of Czechoslovakia, of Persia, of Cuba, of Spain, of the Argentine Republic and of Sweden, unique, expressive and colorful though they were in design, gave to the visitor from the United States little idea of the world of States that are supposed to gather in friendship and pride at an international exposition. Japan, officially represented in exhibit palaces and representative buildings on the grounds, at a reputed expenditure of a million dollars, seemed to be the most distinguished foreign participator, and celebrated accordingly on one of the leading national days. As to these gatherings by nations, States, associations and orders, the statement made after the closing of a total attendance of only 6,000,000 indicates that this feature fell short of expectations. A model shoe factory is worthy of mention.

7. Gladway—Amusements—Stadium.

Space grows short for a continuance of this review. Always at these expositions there is an amusement section or "street." At Philadelphia it was called the "Gladway"—at the Panama-Pacific it was "The Zone," at the Louisiana Purchase "The Pike." Much depends upon location of this feature. Crowds must be moved by the usual fanfare of trumpets from one "show" to another. And it is most favorably situated when it leads directly away from the main body of the exposition in a straight line, easy of access and of egress. Some of these attractions are educational and worthy of attendance and study—such as, for example, at San Francisco—the Panama Canal, the Grand Canyon of Arizona, and the Tehuantepec Village. Significantly, at Philadelphia there was a cyclorama of the Battle of Gettysburg. A Chinese Village, "Alpine Haus" and "Streets of Cairo" are usually present. But when you stage spectacles and parades in a large "Municipal Stadium" in another part of the grounds, and set apart days for their showing, the concessionaires must suffer. It might be mentioned that one of the biggest days for admissions was on the occasion of the prize fight between Dempsey and Tunney; another large attendance day was on the occasion of an Open Mass by Catholics in the Stadium. This "Stadium," according to pre-exposition announcements, has been the pet of the management. Ordinarily for international athletic contests a stadium might be considered an addition to an exposition, but unduly advertised it can only prove a detraction. At its best it fits into the "plan" only as an amusement. An exposition is not chiefly to amuse the people.

8. The Liberty Bell.

Early adopting the Liberty Bell as a symbol, the management exploited it in every way. The idea was not without merit, since the exposition was a commemorative one as well as a proposed international exposition of the resources, industries, arts and sciences of the States of the world attained through the liberty of the individual. But like other of the commemorative features, it was overdone. Notwithstanding—the Exposition Liberty Bell, weighing, it was said, "forty-two tons" and covered with "twenty-six thousand lights," suspended from a height of "seventy-five feet," greeting the visitor as the entrance gates were approached was of wonderful beauty and will long linger in the memory of every visitor. There was an arresting appeal in "The Great Tower of Light," though this stood unrelieved on its structural base, flashing its rays for miles around. But the "Bell," aside from its symbolism, was entrancing. And it is proper to say at this point that if a mere celebration had been originally planned, and the citizens of the United States, and especially the Eastern States, had been invited, what was assembled and staged would have disarmed much of the general criticism that developed. So that the conclusion must be reached that as far as the date commemorated was concerned, and the implication of the date as an event in world progress, it should never have been allowed to overshadow the exhibition of industries and arts which must be

comprehensive, affording the utmost in educative value through comparison.

Had the principal nations of earth properly participated, the coming together of peoples around the central thought of liberty would have promoted peace. Industry, commerce and transportation link the nations together in a natural and emulative way. International expositions thus become milestones of progress. Rightly viewed, they are one of the world's great public utilities. As such they become a benefit to, and charge upon, all countries and nations. They cannot be builded in a year. They must be wisely and comprehensively planned at the beginning, must be backed by sufficient local appropriations, must be constructed by men schooled in experience in such enterprises. Then they must rest upon the approval of the promoting city. These things the Sesqui-Centennial did not have in the right degree.

It is manifestly unfair to place all the blame upon the faults of management. The people of Philadelphia should have early taken the affair in hand and whole-heartedly supported it or should have entirely abandoned it; or compelled its abandonment. All these public enterprises have their difficulties, but in appropriations and good-will support the Louisiana Purchase and the Panama-Pacific had little lacking from the start. Vague proposals for an international exposition are now germinating in Chicago and New York. One or the other ought to retire. Then, five or six years of steady work lies ahead. Otherwise a fiasco may result, costly to the people, wasteful of opportunity, and an injustice to the nations officially invited to participate.

9. Conclusion.

Philadelphia is called the "City of Brotherly Love." It is also a city of magnificent manufactures. One of its outstanding religious sects, the Quaker, has long been noted for its veneration of peace. But it seems that certain religious organizations within its two million population and in the State at large, early became active for Sunday closing of the exposition and invoked an old law of 1794 in behalf of their cause—with considerable success. We mention this

for one reason only. Before ever an international exposition is formally under way, this vexed question should be settled. It is due to foreign participants, visitors from home and abroad, and the diverse local population, that they be informed the exposition will be open or closed, as the case may be, on Sundays. Great expense in participation and attendance is involved, and it is a sort of discourtesy to part of those interested either way when suddenly confronted with an unexpected result. When the educational profit to the people is considered, when the open and closed cities of the country are taken into account, there is much to say in favor of the enterprise being open on Sunday. But whatever the decision, it should be known and heralded in advance.

There is another lesson to be drawn from Philadelphia's recent exposition, and from the more successful ones previously held—the lesson of building around some great central idea of universal utility. Expositions have been held in several of our lesser cities that exploited historic events of far less importance than the signing of the Declaration of Independence and they have been of dubious usefulness. If an exposition is to appeal to the world as international, then it is apparent that commerce and industry, peoples and progress, must be gathered comprehensively, that the flow of ideas, the contact of peoples, and the interchange of ideals, may elevate and inspire, and thus make for peace and uplift everywhere. Commercialism and profits have no place in the conception. And it may be said that at some great world crossroads of trade, some great cosmopolitan centre of population, a permanent exposition should be builded, where, continuously, the good-will of trade might be furthered, and, where, at proper intervals especial gatherings of the peoples of earth might be assured, that they better know and respect each other. This would tend to prevent future rivalry of cities to exploit themselves, and diminish the failures. The United States should follow the policy of France of encouraging permanent or periodically recurring expositions, or abandon them as unwise and wasteful.

Indications of Business Activity

THE STATE OF TRADE—COMMERCIAL EPITOME.

Friday Night, Dec. 24 1926.

The usual holiday trade has been done in many parts of the country. Not everywhere was it up to the normal, however. The Southwest's buying capacity has been reduced by the low price of cotton. That was reflected in reduced holiday buying. Moreover, at the big automobile centres the lessened employment of workers has told to a certain extent. In the Central West recent bank failures have not been unfelt. In the Pacific Northwest the lumber business has been less active; that has also told somewhat on buying. Car loadings for the week have dropped below the total for the same week, but German advices encourage the hope that 1927 will see a good export business in American rye, as Germany's crop seems to be smaller than had been supposed. Prices of corn and oats have been steady, of wheat slightly higher and of rye 3 to 5 cents higher. The temperatures have been down to zero in the winter wheat belt, which generally has no snow protection. Rains and snows were beneficial in the Southwest. The winter wheat crop is 626,929,000 bushels, or 225,000,000 larger than last year; spring wheat is 69,000,000 bushels less than last year; total winter and spring 156,000,000 bushels larger than last year and No. 2 red is 44 cents lower than a year ago. The corn crop of 2,645,000,000 bushels is 271,000,000 smaller than last year; that of oats is 233,000,000 smaller. Cotton has advanced on most deliveries about \$1 to \$1.25 a bale owing to rains and cold weather threatening to keep down the picking and ginning. Considerable cotton is still in the fields in the Southwest. The grade may be lowered. There is skepticism here as to the likelihood of the picking and ginning this season reaching the last crop estimate by the

Government, which was 18,618,000 bales. Sugar has had a quiet pre-holiday market, with no marked changes in prices. Coffee declined and it is feared that the Brazilian Government will find it difficult to stabilize milreis exchange at 6d. It has fallen of late to 5 15-16d. Possibly this is temporary, but Brazil is trying to carry water on both shoulders; that is, support coffee prices and exchange, too. Wool has been steady, but quiet. Rubber has latterly been advancing here and has been at least steady in London, with a fair demand. Coal prices tend lower, with production still large. The holiday demand for jewelry, cigars and confectionery is about equal to that of a year ago. The hardware and radio sales have been satisfactory. Cold weather in the West has stimulated trade in clothing, coal and shoes.

Pig iron has been quiet. In steel most of the business has been with the railroads. The sales of tin plate for the first six months of next year are said to have been large. Pig iron prices weakened a little. Building has fallen off in this country owing to cold weather. The sales of lumber and other building materials have decreased as a matter of course. Trade in some industries has been retarded, partly by the taking of inventories, but in other cases there has been a decrease in new business. But cotton goods have sold very well. The mills in parts of New Hampshire and Connecticut seem to be exceptionally busy, although in the South they are quiet. Wholesale trade in general has been quiet. The buying has been mostly of small lots, for temporary purposes. The sales of woolen goods and worsteds are smaller than those of a year ago and the same is true of silks and rayons. But bank clearings are again beginning to increase. Money has been stronger, with the call rate at one time up to 6%, the highest of the year. But to-day it

fell to $5\frac{1}{2}\%$. Stocks have at times been irregular, but to-day they were higher led by General Motors, partly due to the stimulus of lower rates for money. It is considered significant that Atchison reached a new high of 172. November railroad earnings make a good showing so far. An effort is being made to stabilize French francs at about 4 cents, but the market is not responding very enthusiastically. Still, francs have reached the highest point since over a year ago. They closed here to-day at 3.96. In London the feeling is cheerful, even if trading to-day was rather light. Some stocks were quite firm. London was firm and in Paris, moreover, prices moved upward. The value of principal crops in the United States in 1926 represented a loss of about \$1,148,000,000 from 1925, according to the Crop Reporting Bureau of the Department of Agriculture in the annual crop report. Crops showing the greatest declines in value are cotton, corn, spring wheat, potatoes and apples.

Fall River, Mass. reported the demand for wide and narrow print cloth constructions very light. Minority of buyers expect increased business in the new year, but believe plenty of goods will be available on account of recent increase in production. Boston wired that the Otis Co. will postpone for the time being at least its plan for moving a part of its machinery to the South, and for liquidating some of its local properties. The decision is conditioned on relief from present taxation and a greater measure of co-operation on the part of employees so that substantial savings can be effected and the company enabled to continue its plants here if found profitable. Manchester, N. H. wired that the conditions at textile centers in New Hampshire are encouraging despite the lower prices prevailing. The Great Falls Manufacturing Co. at Somersworth has held its own during 1926, having been carrying small stocks of raw cotton. The Tremont and Suffolk mills at Lowell, recently purchased by the Nashua Manufacturing Co. of Nashua, are now operating at about 25% of capacity. The company has orders for both Indian Head blankets and cloths running nearly 40% ahead of a year ago. No. 11 mill of the Amoskeag Co. which manufactures handkerchief cloth went on a night shift owing to large orders. The woolen mills of the Dodge-Davis Manufacturing Co. at Bristol, N. H. are adding to the number of workers. It makes cloth for uniforms for the baseball players in the American and National Leagues. At Claremont, N. H. the Dartmouth Woolen Mills formerly known as the John Roberts, Lafayette and Roberts Mill, has suspended operations for a short time.

At Gonic, N. H., the woolen mills of the Gonic Co. will start operation on a 54-hour week schedule on Jan. 3. This company has been operating its plant on a greatly curtailed schedule for nearly two years and lately has been running at about 50%. At Rallingsford, N. H., the mills of the Salmon Falls mills, which have been in operation for a century, will soon cease running under the present management owing to Southern competition. They have recently been making tire fabrics. In Connecticut the New Departure Manufacturing Co., with plants in Hartford, Meriden and Bristol, employing 6,000, will close only one day. This is a branch of the General Motors. Textile industries in eastern Connecticut will close only one day. New Britain industries, hardware and machinery will also close on Christmas Day only. Waterbury brass manufactories will do the same. Silver industries in Meriden will close three days to two weeks. Unusual activity is reported in the textile industry in eastern Connecticut. The Hockanum Mills at Rockville are operating nights and the Somerville Manufacturing Co. of Somerville is working overtime. The Waterman Woolen Co. is also operating overtime at Stafford Springs. The cotton industry is also busy. The Grosvenordale Mill at North Grosvenordale is operating 24 hours daily with a night shift. Paco Manufacturing Co. at Danielson is also working nights. The Glasgo Finishing Co. at Griswold has increased its capital to \$630,000 for plant expansion. Cheney Brothers, silks, at South Manchester, will close only one day for the Christmas holiday. At Thompsonville, Conn., the plant of the Bigelow-Hartford Carpet Co. will close to-day for inventory and will resume operations Jan. 3. The shutdown this year will be only about half of that of a year ago.

At Charlotte, yarn sales showed no revival, although inquiries were slightly more active. Montgomery, Ala., advices stated that some mills in Alabama and Georgia were making offers for large quantities of low grades provided the shipper would land them for 8 cents. Philadelphia wired that at the South mills would close for 10 days beginning

Friday, ostensibly for inventory purposes. At Culcutta burlap prices were stronger and here very steady.

Berlin cabled that for open-faced and open-handed spending there has never been so opulent a Christmas in all the history of the German Empire or Republic as now. A special feature of this season's buying, says the "Times," is the fact that not cash alone but, for the first time since the war, credits are being freely dispensed and in Berlin almost every non-perishable commodity can be purchased on the installment plan. London cabled the New York "Times" that the New Year rejoicings in Britain will be materially dampened by the thought that the country is confronted with a budget deficit for the fiscal year 1926-27, which may reach an alarming figure. Just now with three-quarters of the fiscal year gone, the deficit has reached £140,000,000.

An award has settled the garment strike in 800 shops after a strike of 25 weeks. It hits the Communists. The old contract giving higher pay, shorter hours, is made the basis of the new. Terminating the 25 weeks' strike of garment workers, members of the International Ladies' Garment Workers' Union, the arbitration board which on Dec. 16 and 17 heard the dispute between the union and the American Association of Cloak and Suit Manufacturers, the organization of contractors, last night made public its award affecting 20,000 of the original 35,000 strikers, employed in 800 contractor shops. The 15,000 other strikers returned to work several weeks ago under an agreement between the New York Cloakmakers' Union and the Industrial Council of Cloak and Suit Manufacturers, Inc., the so-called "inside" employers. Since then the Communist leaders of the New York union who conducted the strike have been ousted by the International, which took over the negotiations with the American Association.

The weather has been milder. New York on the 22nd was 32 to 40 degrees, Cincinnati 34 to 36; Chicago 32 to 38, Cleveland, Kansas City and Detroit 32 to 36; Milwaukee 32 to 34; Montreal 23 to 24; Philadelphia 38 to 40; Portland, Maine 26 to 32 St. Paul 24 to 30. Another cold wave is predicted for the Northern Rocky Mountain States and perhaps the Middle West. Floods have taken heavy toll in life and property in Kentucky, Tennessee, Alabama and Arkansas, according to reports received at Chattanooga, which say that the number dead is placed at 10 and property damage at \$500,000. Here to-day it was rainy and rather warmer with a temperature of 38 this afternoon. But the forecast was for rain and colder weather on Saturday. Yesterday Chicago was 36, Cincinnati 40, Cleveland 34, Milwaukee 32 and St. Paul 2 below zero.

Dun's Insolvency Index for December Moves Downward.

R. G. Dun & Co.'s insolvency index is lower this week. Proportioned to the number of firms in business, Dun's insolvency index for December to date this year is at a ratio of 106.9; a year ago it was 106.8 at the same date. The December index this year is now 1.6 points below November.

In the following table a comparison is given of the Dun insolvency index for the first half of December and for each month this year, with comparisons:

	1926.	1925.	1921-1925 Average.
December 1 to 16.....	111.9	106.8	106.8
December, month.....	106.9	105.4	126.1
November.....	108.5	106.3	115.7
October.....	98.3	89.2	103.8
September.....	82.9	86.2	87.8
August.....	88.5	85.7	90.3
July.....	89.1	95.7	97.4
June.....	95.1	99.8	93.6
May.....	100.4	104.3	103.3
April.....	105.5	111.0	107.7
March.....	106.8	106.6	110.9
February.....	119.0	124.7	128.0
January.....	133.9	133.6	138.0

Course of Retail Prices of Food in November.

The retail food index issued by the Bureau of Labor Statistics of the United States Department of Labor shows for Nov. 15 1926 an increase of 1% since Oct. 15 1926; a decrease of about 3 1-3% since Nov. 15 1925; and an increase of a little more than 54% since Nov. 15 1913. The index number (1913=100.0) was 167.1 in November 1925; 160.0 in October 1926 and 161.6 in November 1926. The Department's statement, dated Dec. 18, adds:

During the month from Oct. 15 1926 to Nov. 15 1926 8 articles on which monthly prices were secured increased as follows: Strictly fresh eggs, 13%; potatoes, 5%; butter, 3%; storage eggs and navy beans, 2%, and plate beef, fresh milk and cheese, 1%. Twenty articles decreased: Pork chops, 10%; lard, 4%; canned red salmon and rice, 3%; ham, prunes

and oranges, 2%; sirloin steak, round steak, rib roast, bacon, leg of lamb, hens, oleomargarine, canned peas and raisins, 1%, and chuck roast, vegetable lard substitute, tea and coffee, less than 5-10 of 1%. The following 15 articles showed no change. Evaporated milk, bread, flour, cornmeal, rolled oats, corn flakes, wheat cereal, macaroni, onions, cabbage, baked beans, canned corn, canned tomatoes, granulated sugar and bananas.

Changes in Retail Prices of Food by Cities.

During the month from Oct. 15 1926 to Nov. 15 1926 the average cost of food increased in 42 of the 51 cities, as follows: Boston, Buffalo, Fall River, Rochester and Scranton, 3%; Bridgeport, Columbus, Denver, Little Rock, Manchester, New Haven, New York, Philadelphia, Pittsburgh, Portland, Me., Providence and Springfield, Ill., 2%; Baltimore, Butte, Charleston, S. C., Chicago, Dallas, Detroit, Indianapolis, Louisville, Milwaukee, Newark, Norfolk, Peoria, St. Louis and Salt Lake City, 1%, and Atlanta, Cleveland, Houston, Los Angeles, Memphis, Mobile, Omaha, St. Paul, San Francisco, Savannah and Washington, D. C., less than 5-10 of 1%. There was a decrease in the following five cities: Jacksonville and Seattle, 1%, and Minneapolis, Portland, Ore., and Richmond, less than 5-10 of 1%. In Birmingham, Cincinnati, Kansas City and New Orleans there was no change in the month.

For the year period Nov. 15 1925 to Nov. 15 1926 50 cities showed decreases: Seattle, 8%; Portland, Ore., and San Francisco, 6%; Los Angeles and Minneapolis, 5%; Butte, Denver, Kansas City, Louisville, Omaha, St. Paul and Salt Lake City, 4%; Birmingham, Boston, Bridgeport, Buffalo, Fall River, Houston, Manchester, Memphis, New Haven, New Orleans, New York, Peoria, Portland, Me., Providence, Richmond and Savannah, 3%; Baltimore, Chicago, Columbus, Detroit, Indianapolis, Jacksonville, Mobile, Newark, Philadelphia, Rochester, St. Louis and Springfield, Ill., 2%; Atlanta, Charleston, S. C., Cincinnati, Dallas, Little Rock, Pittsburgh, Scranton and Washington, D. C., 1%, and Cleveland and Norfolk, less than 5-10 of 1%. In Milwaukee there was an increase of less than 5-10 of 1%.

As compared with the average cost in the year 1913, food on Nov. 1 1926 was 73% higher in Chicago, 72% in Washington; 70% in Baltimore and Richmond; 69% in Buffalo, Detroit and Scranton; 68% in Philadelphia; 67% in Birmingham and New York; 66% in Atlanta and Pittsburgh; 65% in Boston, Milwaukee and St. Louis; 64% in Charleston, S. C., Cincinnati, New Haven and Providence; 63% in Cleveland; 62% in Fall River and Jacksonville; 60% in Manchester; 58% in Indianapolis, Louisville and Omaha; 57% in Dallas, Kansas City and New Orleans; 56% in Minneapolis, Newark and San Francisco; 54% in Little Rock; 52% in Memphis; 49% in Los Angeles; 47% in Denver; 45% in Seattle; 41% in Portland, Ore., and 38% in Salt Lake City. Prices were not obtained in Bridgeport, Butte, Columbus, Houston, Mobile, Norfolk, Peoria, Portland, Me., Rochester, St. Paul, Savannah and Springfield, Ill. in 1913, hence no comparison for the 13-year period can be given for these cities.

Real Estate Market Index Holds Steady Level in November.

Under Date of Dec. 18 the National Association of Real Estate Boards says:

Real estate market activity for the country as a whole shows the November rate holding on the same level as the rate for October, according to the index of activity compiled monthly by the National Association of Real Estate Boards. The index is compiled from official records of the number of transfers and conveyances recorded in 41 cities.

The index for November reached 160, exactly the same as the index number recorded for October. This means that the market activity for the month in the 41 cities averaged 60 points higher than the average for the same cities in the same month of the years 1916-1923, which period has been taken as the base of the association's record. The figure is five points lower than the figure for November of 1925.

Stability of the current level of construction activity is indicated in the November record of contracts awarded. The total value of construction contracts awarded in the 37 States east of the Rocky Mountains during November showed a decline of 6% over October 1926, but an increase of 3% over November of last year, according to the F. W. Dodge Corporation's reports.

The amount of new floor space contracted for during November is somewhat less than in the corresponding month of last year.

The November record indicates that the contract total for the year will be about \$200,000,000 over that of 1925, the company's statistician estimates. The floor space total for the year is expected to be a little less than that of last year.

Life Insurance Sales in Canada—November Sales 20% Over Last Year.

Twenty per cent. more ordinary life insurance was purchased in Canada during the month of November than in Nov. 1925, according to figures just issued by the Life Insurance Sales Research Bureau of Hartford, Conn. In reporting this the Bureau says:

During the month \$44,251,000 of new business was paid for by the reporting companies, which have in force, 84% of the outstanding business in Canada. This is the highest record ever made in any month with the exception of June 1926, when the total volume of business paid for was \$44,634,000—only 1% more than this month's record. The Bureau's reports show that December is generally the highest month in the year in Canada with June following closely.

Every province with the exception of Manitoba shows a gain of at least 16% over the record of a year ago. Quebec and Prince Edward Island lead with increases of 33% and 31% respectively. Ontario gained 16% over last November.

Montreal leads the Canadian cities in its monthly gain of 58%. Vancouver follows closely with an increase of 57%. All the cities with the exception of Hamilton and Winnipeg show gains of 7% or more.

Eleven-Month Period.

In the first eleven months of the year sales are \$41,233,000 ahead of sales in the corresponding period of last year, an 11% increase. The general gain for the first eleven months is reflected in each province. Saskatchewan leads with a 26% gain. Ontario and Quebec, the two most important provinces, show gains of 7% and 16% respectively. Montreal continues to lead the cities in the year-to-date gain with a 20% increase.

The gain in the twelve months ended Nov. 30 1926 over the preceding twelve months is 11%. Every province shares in the general gain, the increases ranging from 1% in Manitoba to 26% in Saskatchewan.

Ordinary Life Insurance Sales Show Increase Over Year Ago—New England Leads in November Gain.

The increase of sales of ordinary life insurance in the United States for the month of November ranges from 7% to 9% over the record of November 1925, according to statistics compiled by two organizations representing the majority of the life insurance companies in the United States. The largest sectional increase in sales this month over the record of November 1925 is 14% in the New England States, according to figures just issued by the Life Insurance Sales Research Bureau of Hartford, Conn. With regard to the data the Bureau says:

All sections show a gain over a year ago. The records for individual States show the greatest gains in Delaware and Maine.

For the eleven-month period sales are 4% higher than in the same period of last year. All sections share in the general gain. The East North Central and South Atlantic States lead in the year-to-date gain, each section showing a 5% increase.

New England.

During the month, sales in the New England section averaged 14% more than sales for last November—the highest increase in any of the nine geographical sections. Maine, with the very high increase of 45%, shows the best gain in this section. Maine also leads in a 12% gain for the eleven months of the year. The section shows a 4% gain for the twelve months ended Nov. 30 1926 over the preceding twelve months.

Middle Atlantic.

All States in this section show a gain of at least 7% over November 1925. This section pays for approximately 30% of the total business in the United States. New York and Pennsylvania show gains of 14% and 11%, respectively, and New Jersey gained 11%. Sales in the first eleven months in this section are 3% ahead of sales in the corresponding period of last year, New Jersey leading with a 7% gain.

East North Central.

The average gain in the section for November is 12%. Illinois, Michigan and Wisconsin show a gain of 14%. The sectional increase for the year to date is 5%, all States showing a gain of at least 3%.

West North Central.

Sales in this section in November are 4% higher than sales in November of last year. The greatest increase in the section is 25% in Kansas. The average gain for the eleven months over the same period of 1925 is 3%. All States in the section except South Dakota share in the year-to-date gain.

South Atlantic.

Delaware leads all the states in its monthly gain of 68%. The South Atlantic section shows an average gain of 3% for November. Florida leads all the states in the country in the year-to-date gain of 22%, although the monthly figures show a decrease of 17% from last November. For the first eleven months of the year the section shows a 5% increase.

East South Central.

Kentucky, Tennessee, Alabama and Mississippi comprise this section, and show a 5% gain over the record of a year ago. The average increase for the year to date is 3%.

West South Central.

The amount of insurance purchase—during November in this section is 3% ahead of Nov. 1925. In the first eleven months of the year sales averaged 3% higher than sales in the corresponding period last year. Texas leads in the monthly gain, and Oklahoma continues to lead in the year-to-date gain.

Mountain.

Sales in this section in September were practically identical with sales in November of last year. The greatest monthly increase in the section is 23% in Wyoming. In the first eleven months of the year sales averaged 3% higher than sales in the same months of last year, Idaho leading with a 17% gain.

Pacific.

Washington shows a gain of 17% over the sales in November of last year. The gains in the section as a whole average 2% for the year to date.

Falling Off in Illinois Building Projects During November as Compared with October.

According to Reuben D. Cahn, Chief of the Bureau of Industrial Accident and Labor Research of the Illinois Department of Labor, permits to build in Illinois were still in good volume in November, although the aggregate of \$33,878,632 was \$25,000,000 less than in October and \$5,000,000 behind November 1925. The falling off from October, says the summary, is traceable chiefly to the season, for with the cold weather already here and lower temperature in immediate prospect, the incentive to hurry the taking out of permits didn't exist. Work on the bulk of projects that have been registered in recent months will not get under way until spring. Mr. Cahn, under date of Dec. 18 adds:

Home building continues to occupy the centre of attention, and in the residential classifications, the falling off in the 30-day period was only 22%, while in non-residential structures the recession was 77%. In the 30 days being considered, provision was made for buildings to house 4,590 families in the 24 principal cities of the State. In the first eleven months of the year 47,252 families were provided for, in the 17,864 residential buildings which are estimated to involve building expenditures of \$277,170,388. Non-residential buildings have been provided for in the same period which will cost \$137,741,602, bringing the aggregate building construction in the 24 cities for the first eleven months up to \$434,184,397, or \$10,900,000 ahead of the first eleven months last year.

Seven cities showed gains in the month over October. These are Canton, Elgin, Highland Park, Oak Park, Rockford, Rock Island and Wilmette. The cities which showed gains over November 1925 are Decatur, Elgin, Evanston, Murphysboro, Rockford, Rock Island and Wilmette.

In Chicago alone 2,233 buildings were planned for in November valued at \$28,537,560. This figure compares with \$51,139,045 in October 1926, \$33,-

145,400 in November 1925 and \$29,264,990 in November 1924. The families provided for in new housekeeping dwellings in Chicago number 3 993. During the first eleven months of 1926 Chicago has provided new dwellings for 33,550 families, Berwyn for 1,361, Evanston for 1,118.

Outside the metropolitan area, Rockford led by far all other cities in the value of buildings for which permits were issued in November. Elgin was second, Aurora third, Decatur fourth. During the first eleven months of 1926 Rockford has provided new homes for 843 families and leads all other cities outside the Chicago district in this respect. East St. Louis has provided for 653, Decatur for 542, Aurora for 519, and Springfield for 416 families. For this period Peoria, with building at \$5,531,610, leads all cities outside the metropolitan district; Rockford is a close second with \$5,325,774; Decatur third with \$5,157,608; Springfield fourth with \$4,053,540.

The following statistics are supplied by Mr. Cahn:

NUMBER AND COST OF BUILDINGS AS STATED BY PERMITS ISSUED IN ILLINOIS CITIES IN NOVEMBER 1926, BY CITIES, ACCORDING TO KIND OF BUILDING.

Ralph Van Vechten of State Bank of Chicago Looks for Continuance of Good Business.

Ralph Van Vechten, President of the State Bank of Chicago, is of the opinion that with money plentiful and a shade easier and business with a good momentum, there is no reason to question the continuance of good business. He says:

The year 1926 was a record-breaking year, in which, generally speaking, railroad earnings and other corporate earnings in most lines were quite extraordinary. In looking ahead, we are prone to expect too much if we compare the new year with the old. On the other hand, there is nothing to justify a pessimistic view. Business, therefore, has a good momentum, which will carry it well into 1927.

There has been a substantial decline in commodity prices since August 1925 and this is still going on. If the reverse were true and commodity prices were rising, there would be an increased demand for credit, which would operate to put the brakes on business. A further decline in commodity prices, from the standpoint of volume and sales, would be beneficial, but might result in narrower margins of profit. We are on a sound basis and there is no reason to question a continuation of good business well into the coming year.

J. H. Tregoe of National Association of Credit Men Sees 1927 a Good Year with Slight Recession.

There may be a slight business recession next year, but with a firm credit situation and with properly controlled business, there is no fear of the pessimistic predictions of depression, J. H. Tregoe says in his annual statement on

business conditions made public Dec. 19. The statement reads in part as follows:

The credit foundation which 1927 will inherit is substantial and firm. There has been no speculation among distributors of merchandise and our banking institutions have as a general thing held a strong grip on the loaning of funds. This year was marked by careful buying, by well-controlled receivables and an improvement in failure losses. Conservatism and judiciousness as a rule marked the production and the marketing of goods. Bank deposits in the leading financial centres of the country showed a material increase toward the close of the year. This comfortable situation to enter upon the new year.

Our transportation organizations have continued to improve their facilities and their equipment with the result that goods have moved more freely, car loading kept at a high peak, and with economies that have added substantially to their net operating incomes. Construction has begun to let up as the year closes, although it still maintains a high peak. There have been funds available for construction purposes due in a large measure to conservatism in the merchandise field. In steel and motor production there was some letting down also toward the close of the year. Unemployment has been negligible throughout 1926 and, while 1927 may have more unemployment than the preceding year, it will not be of a serious or disturbing nature. We added to our national wealth in 1926 a sum that I dare not estimate. The income of the nation and the output of our factories will show larger figures than in the previous year.

A great many individuals will enter 1927 with debts they could not liquidate at once because of the ease with which certain commodities could be brought on the deferred payment plan. We enter 1927, however, with an intelligent public scrutiny directed upon the installment plan of selling and a disposition to exercise greater care than had prevailed formerly in exchanging commodities of any kind for a promise that had not back of it the bases of redemption. The savings of 1926 were not as large, in my opinion, as they might have been. There were extravagances in the air and yet this tendency generally did not force people to go beyond current income. There may be some little recession in the early part of the year, not a depression, merely a recession that ought not to be serious or of long duration. With our firm credit situation, with careful hands governing the valves of credit, both in large and in small business, with our resources well controlled, with our feet set solidly, there is no reason why 1927 should not be just as good a year in its developments and its gifts as 1926.

Agricultural and Financial Conditions in Minneapolis Federal Reserve District—Record-Breaking Totals of Hog Receipts.

According to the preliminary summary of agricultural and financial conditions issued Dec. 18 by the Federal Reserve Bank of Minneapolis, the outstanding event of November in that Federal Reserve District was the marketing of all classes of live stock in very large amounts. The total number of head of all varieties received at South St. Paul was 24% over a year ago. Hog receipts reached record-breaking totals for November and were 49% larger than in October in number of head. However, owing to the large proportion of stock pigs received, average weights were much lighter than a year ago. The bank's summary continues:

These extraordinary receipts of live stock were reflected in the check payments through banks in the cities having live stock terminals, the gains in individual debits over November of last year being 23% for South St. Paul and 10% for Sioux Falls. In the face of such heavy marketings some price declines were inevitable. Median hog prices dropped \$1.50 per hundredweight, and other varieties of live stock declined in price as compared with October median prices. It is noteworthy that as compared with a year ago, price changes of live stock exhibited as many gains as losses, so that the live stock price situation in general was fully as favorable as in November of last year. Shipments of stockers and feeders during November were nearly double the total for the same month a year ago, hog shipments alone being more than three times as large as last year.

In this district grain receipts at terminals continued to exhibit totals below a year ago, the volume in November being one-third below last year. This has been reflected in car loadings for grain and grain products, which were 27% below last year when comparing the first three weeks of November in each year. The median prices of the grains during November as compared with a year ago declined 15 cents for wheat, 18 cents for corn and 34 cents for flax, and increased 23 cents for durum, 14 cents for rye, 6 cents for oats and 1 cent for barley. As compared with October medians, small declines were shown for all the grains, except durum and flax. Grain stocks in terminal elevators at the end of November equaled those at the end of October and were 10% greater than last year.

The physical volume of business, as measured by car loadings for the average working day during the first three weeks of November was slightly larger than a year ago. Gains in car loadings were shown for live stock, coal and coke and merchandise in less than carload lots. Reported shipments of linseed products and of flour were, respectively, 35 and 17% lower in November than a year ago.

The money value of business transacted in this district, as measured by check payments through banks in 17 cities, was below that in November a year ago, declines being shown in all reporting cities except Billings, Fargo, Helena, Minot, Superior, LaCrosse, Sioux Falls and South St. Paul. Of these the first four named are in the wheat belt, and the last two named have live stock receiving terminals. Sales at retail, according to preliminary reports made to us by department stores located in 12 cities within this district were 6% smaller than a year ago.

Agricultural Yield of 1926—The Season's Grain and Other Farm Productions—Farm Prices.

The Crop Reporting Board of the United States Department of Agriculture made public on Dec. 21 its estimates of the acreage production and value (based on prices paid to farmers on Dec. 1) of the important farm crops of the United States in 1924, 1925 and 1926, based on the reports and data furnished by crop correspondents, field statisticians and co-operating State Boards (or Departments) of Agriculture and Extension Departments. This report shows

that the total value of all agricultural products in 1926 is placed at \$7,802,114,000 as compared with \$8,949,321,000 in 1925 and \$9,334,251,000 in 1924. This year's farm crops, therefore, are valued at \$1,147,207,000 less than last year and \$1,532,137 less than two years ago. The figures are as follows:

These figures have been revised on the basis of the latest and fullest information, including available Census data. The revised figures here shown, and not the unrevised figures previously published, should be compared to obtain the proper relation of the 1926 acreage and production to that of 1925 and 1924.

New Automobile Models Announced.

Among a number of new automobile models announced during the week was that of a new six cylinder taxicab introduced by the Yellow Truck & Manufacturing Co. to sell at \$1,795 factory, fully equipped. The Reo Motor Car Co. on Dec. 21 announced that at the coming automobile shows it will exhibit a new line of passenger cars named after the famous Yankee clipper the "Flying Cloud." Some of the details of standard equipment are hydraulic shock absorbers at front and rear, internal expanding hydraulic four-wheel brakes, rubber insulated motor suspension, thermostatic control of water circulation, single disc clutch and seven-bearing crank shaft balanced dynamically and statically and equipped with a vibration dampener to smooth out motor impulses. An especially designed all-steel body is mounted on a 121-inch wheel base. The car is reported to have a speed from 5 to 65 miles an hour. The Federal Motor Truck Co. will introduce in January three new models in addition to the four models of the present line. One of the most important of the new models is a one-ton truck

priced at \$995. The other models are improvements on former models with no price changes.

Additional details concerning the Falcon-Knight Motor Car Co. have been released from Cleveland under date of Dec. 23rd, as follows: the Falcon-Knight Motor Car Co. will produce a six-cylinder model automobile at the former Willys-Knight factory in Elyria, Ohio. The car will be equipped with a Knight type motor to be built by Wilson Foundry & Machine Co. of Pontiac. Manufacture will begin as soon as the plant is ready, about 400 men being employed, and it is planned to make deliveries to distributors some time in March.

The Small Automobile Production in November.

November production (factory sales) of motor vehicles in the United States was the smallest of any month since August of last year. As reported to the Department of Commerce, it was 255,813 of which 219,479 were passenger cars and 36,334 were trucks, as compared with 332,437 passenger cars and trucks in October and 366,505 in November 1925.

The table below is based on figures received from 163 manufacturers in the United States for recent months, 54 making passenger cars and 127 making trucks (18 making both passenger cars and trucks). Data for earlier months include 90 additional manufacturers now out of business, while November data for 15 small firms, mostly truck manufacturers, were not received in time for inclusion in this report. Figures for passenger cars include taxicabs and those for trucks include ambulances, funeral cars, fire apparatus, street sweepers and buses:

AUTOMOBILE PRODUCTION (NUMBER OF MACHINES).

* Revised. a Reported by Dominion Bureau of Statistics since Jan. 1 1926. b Not yet available.

Lumber Industry Shows Usual Quiet at This Season.

Telegraphic reports received by the National Lumber Manufacturers' Association indicated that while there was no contraction of the lumber manufacturing industry during the past week as compared with the week before, there probably has been a considerable contraction as compared with the corresponding week of 1925. An adequate conclusion is difficult because 25 fewer mills reported for the week ending Dec. 18 than for the week ended Dec. 11, and 41 fewer mills reported for last week than for the corresponding week of 1925. While some of the non-reporting mills in both instances represent seasonal shutdowns at an earlier date than usual, some of them merely failed to report at the usual time. The feature of the hardwood reports is a marked decline in shipments, although both production and new business have probably fallen a little, uncertainty being caused by the smaller number of reports this week, remarks the National Association, adding:

Unfilled Orders.

The unfilled orders of 224 Southern Pine and West Coast mills at the end of last week amounted to 514,797,194 feet as against 506,376,962 feet for 222 mills the previous week. The 122 identical Southern Pine mills in the group showed unfilled orders of 200,471,448 feet last week as against 202,915,464 feet for the week before. For the 102 West Coast mills the unfilled orders were 314,325,746 feet as against 303,461,498 feet for 100 mills a week earlier.

Altogether the 318 comparably reporting softwood mills had shipments 92% and orders 93% of

Of the reporting mills, the 295 with an established normal production for the week of 203,206,290 feet, gave actual production 88%, shipments 81% and orders 81% thereof.

The following table compares the softwood lumber movement, as reflected by the reporting mills of seven regional associations, for the three weeks indicated:

	Past Week.	Corresponding Week 1925.	Preceding Week 1926 (Revised).
Mills	318	359	343
Production	185,095,323	227,645,442	204,877,570
Shipments	169,644,367	238,122,045	175,964,277
Orders (new business)	171,575,272	246,716,691	180,447,554

The following revised figures compare the softwood lumber movement of the same seven regional associations for the first fifty weeks of 1926 with the same period of 1925:

	Production.	Shipments.	Orders.
1926	11,850,611,504	11,959,203,833	11,839,345,871
1925	12,013,477,874	11,881,761,775	11,729,427,133

The mills of the California White & Sugar Pine Association make weekly reports, but not being comparable, are not included in the foregoing tables, or in the regional tabulation below. Eleven of these mills, representing 42% of the cut of the California pine region, gave their production for the week as 11,682,000 ft., shipments 11,186,000 and new business 11,638,000. Last week's report from 17 mills, representing 49% of the cut, was: Production, 12,752,000 ft., shipments 14,885,000 and new business 12,215,000.

West Coast Movement.

The West Coast Lumbermen's Association wires from Seattle that new business for the 102 mills reporting for the week ended Dec. 18 was 3% below production, and shipments were 6% below production. Of all new business taken during the week 40% was for future water delivery, amounting to 35,103,209 ft., of which 22,536,515 ft. was for domestic cargo delivery and 12,566,694 ft. export. New business by rail amounted to 48,802,826 ft., or 56% of the week's new business. Fifty-one per cent of the week's shipments moved by water, amounting to 42,473,476 ft., of which 27,519,377 ft. moved coastwise and inter-coastal, and 14,954,099 ft. export. Rail shipments totaled 38,141,559 ft., or 45% of the week's shipments, and local deliveries 3,467,031 ft. Unshipped domestic cargo orders totaled 104,288,860 ft., foreign 103,797,195 ft., and rail trade 106,239,691 ft.

Southern Pine Reports.

The Southern Pine Association reports from New Orleans that for 122 mills reporting shipments were 21.65% below production and orders 25.30% below production and 4.65% below shipments. New business taken during the week amounted to 50,123,040 ft., shipments 52,567,056 ft. and production 67,096,653 ft. The normal production of these mills is 76,540,000 ft. Of the 119 mills reporting running time 88 operated full time, 18 of the latter overtime. Five mills were shut down, and the rest operated from 1 to 5½ days.

The Western Pine Manufacturers Association of Portland, Ore., with five fewer mills reporting, shows a heavy decrease in production, and shipments and new business somewhat below that reported for the previous week.

The reports of the California Redwood Association of San Francisco, Calif., were not received in time for publication.

The North Carolina Pine Association of Norfolk, Va., with two fewer mills reporting, shows some increase in production, a considerable increase in shipments, and a nominal increase in new business.

The Northern Pine Manufacturers Association of Minneapolis, Minn., reports a big increase in production, some decrease in shipments, and a marked decrease in new business.

The Northern Hemlock and Hardwood Manufacturers' Association of Oshkosh, Wisc. (in its softwood production), with three fewer mills reporting shows heavy decreases in all three items.

Hardwood Reports.

The Northern Hemlock and Hardwood Manufacturers' Association reported from 16 mills production as 2,382,000 feet, shipments 2,729,000 and orders 2,051,000.

The Hardwood Manufacturers' Institute of Memphis, Tenn., reported from 115 units production as 17,048,048 feet, shipments 16,646,096 and orders 15,665,325. The normal production of these units is 19,718,000 feet.

The two hardwood groups' totals for the week as compared with the preceding week were:

	Mills.	Production.	Shipments.	Orders.
Week ended Dec. 18	131	19,430,048	19,375,096	17,716,325
Week ended Dec. 11	147	21,508,333	22,313,995	19,861,267

For the past fifty weeks all hardwood mills reporting to the National Lumber Manufacturers' Association gave production 1,474,094,935 feet, shipments 1,481,903,606, and orders 1,504,290,509.

West Coast Lumbermen's Association Weekly Report.

One hundred mills reporting to the West Coast Lumbermen's Association for the week ended Dec. 11 manufactured 98,017,941 feet, sold 81,166,437 feet and shipped 82,181,935 feet. New business was 16,851,504 feet less than production and shipments 15,836,006 feet less than production.

COMPARATIVE TABLE SHOWING PRODUCTION, NEW BUSINESS, SHIPMENTS AND UNFULFILLED ORDERS.

Week Ended—	Dec. 11.	Dec. 4.	Nov. 27.	Nov. 20.

Activity in the Cotton Spinning Industry for November 1926.

The Department of Commerce announced on Dec. 21 that, according to preliminary figures compiled by the Bureau of the Census, 37,426,048 cotton spinning spindles were in place in the United States on Nov. 30 1926, of which 32,-

586,770 were operated at some time during the month, compared with 32,592,806 for October, 32,134,682 for September, 31,321,936 for August, 31,082,482 for July, 31,770,900 for June and 32,912,732 for November 1925. The aggregate number of active spindle hours reported for the month was 8,480,410,447. During November the normal time of operation was 25½ days (allowance being made for the observance of Thanksgiving Day in some localities), compared with 25¾ for October, 25½ for September, 26 for August, 26 for July and 26 for June. Based on an activity of 8.78 hours per day, the average number of spindles operated during November was 37,877,576, or at 101.2% capacity on a single-shift basis. This percentage compares with 98.9 for October, 98.5 for September, 87.4 for August, 78.9 for July, 88.4 for June and 95.9 for November 1925. The average number of active spindle hours per spindle in place for the month was 227. The total number of cotton spinning spindles in place, the number active, the number of active spindle hours and the average spindle hours per spindle in place, by States, are shown in the following statement:

State.	Spinning Spindles.		Active Spindle Hours for Nov.	
	In Place Nov. 30.	Active During Nov.	Total.	Average per Spindle in Place.

Cake and meal (tons)	169,704	137,144
Linters (running bales)	33,977	23,122

Crude Oil Prices Remain Unchanged—Gasoline Prices Revised in Few Sections.

No price changes of any importance were announced in the crude oil markets of the country throughout the week. Gasoline, on the other hand, showed some price revisions, though they were more or less local in effect. On Dec. 18 the Cities Service Refining Co. and the New England Oil Refining Co. at Boston announced an increase of 1c. in retail and tank wagon prices of gasoline following the upward revision made Dec. 17 by the Beacon Oil Co. The Standard Oil Co. of New York on Dec. 18 advanced the gasoline price at company operated filling stations in New England 1 cent to 22 cents. The tank wagon rate remains unchanged. Later in the week, the advances were extended to sections of New York State.

In San Francisco on Dec. 21 the Standard Oil Co. of California announced an advance in the price of gasoline 1 cent to 2 cents a gallon. An advance of 1 cent was made in San Francisco Bay region and points north, and of 2 cents in Los Angeles and points inland. It was reported on the same day that all major California oil companies followed the Standard's increases in price.

On Dec. 21, the Standard Oil Co. of New Jersey advanced the export price of gasoline $\frac{1}{4}$ cent a gallon.

Denver, Colo., dispatches on Dec. 22 stated that effective as of that date, the Continental Oil Co. had advanced tank wagon and service station prices of gasoline $\frac{1}{2}$ cent a gallon in Idaho.

In addition to the New England prices announced by the Standard Oil Co. of New York, the company on Dec. 24 advanced tank wagon and service station price of gasoline 1 cent per gallon in Buffalo, Rochester and Western New York generally. Upper New York State prices were advanced from 1 to 2 cents per gallon.

In the wholesale market at Chicago on Dec. 24 the quotations read as follows: United States Motor grade gasoline, $9\frac{1}{4}$ @ $9\frac{1}{2}$ c.; Kerosene, 41-43 water white, $6\frac{1}{4}$ @ $6\frac{1}{2}$ c.; fuel oil, 24-26 gravity, \$1 30@\$1 35.

Crude Oil Output Remains Practically Unchanged.

With an increase of only 450 barrels per day estimated daily average gross crude oil production in the United States for the week ended Dec. 18 amounted to 2,396,700 barrels as compared with 2,396,250 barrels for the preceding week. The daily average production east of California was 1,736,600 barrels, as compared with 1,740,550 barrels, a decrease of 3,950 barrels. The following are estimates of daily average gross production by districts for the weeks as indicated:

DAILY AVERAGE PRODUCTION.

(In Barrels.)	Dec. 18 '26.	Dec. 11 '26	Dec. 4 '26.	Dec. 19 '25
Oklahoma.....	561,200	554,650	547,900	463,500
Kansas.....	119,750	119,150	119,150	102,850
North Texas.....	261,650	261,600	260,100	87,350
East Central Texas.....	54,950	55,300	54,950	70,600
West Central Texas.....	128,750	126,850	124,800	79,300
Southwest Texas.....	40,650	40,700	42,700	39,450
North Louisiana.....	54,800	55,900	55,850	44,850
Arkansas.....	138,950	140,150	140,600	196,050
Gulf Coast.....	181,750	181,300	178,800	90,250
Eastern.....	110,000	110,500	111,000	103,500
Wyoming.....	57,400	58,550	64,900	79,400

Colorado.....	7,700	8,150	7,750	5,350
New Mexico.....	7,400	5,950	5,200	4,550
California.....	660,100	655,700	658,300	633,000
Total.....	2,396,700	2,396,250	2,388,800	2,016,150

The estimated daily average gross production of the Mid-Continent field including Oklahoma, Kansas, North, East Central, West Central and Southwest Texas, North Louisiana and Arkansas, for the week ended Dec. 18 was 1,360,700 barrels, as compared with 1,364,300 barrels for the preceding week, a decrease of 3,600 barrels. The Mid-Continent production, excluding Smackover, Arkansas heavy oil, was 1,250,950 barrels as compared with 1,253,550 barrels, a decrease of 2,600 barrels.

In Oklahoma, production of North Brame is reported at 18,550 barrels, against 22,600 barrels; South Brame, 5,000 barrels, against 4,800 barrels; Tonkawa, 27,450 barrels, against 30,000 barrels; Garber, 21,650 barrels, against 22,900 barrels; Burbank, 47,000 barrels, against 44,850 barrels; Bristow-Slick, 27,200 barrels, against 27,250 barrels; Cromwell, 13,800 barrels, against 14,650 barrels; Papoose, 8,600 barrels, against 9,100 barrels; Wewoka, 25,150 barrels, against 24,600 barrels; Seminole, 133,350 barrels, against 130,350 barrels.

In North Texas, Hutchinson County is reported at 144,900 barrels, against 146,200 barrels, and Balance Panhandle, 13,650 barrels, against 13,000 barrels. In East Central Texas, Corsicana Powell, 24,200 barrels, against 24,400 barrels; Nigger Creek, 11,250 barrels, no change; Reagan County, West Central Texas, 29,500 barrels, against 29,000 barrels; Crane and Upton Counties, 22,700 barrels, against 22,900 barrels; and in the Southwest Texas field, Luling, 18,250 barrels, against 13,350 barrels; Laredo District, 16,300 barrels, against 16,200 barrels; Lytton Springs, 3,100 barrels, against 3,150 barrels. In North Louisiana, Haynesville is reported at 8,550 barrels, against 8,600 barrels; Uralia, 12,150 barrels, against 13,400 barrels; and in Arkansas, Smackover light, 13,000 barrels, no change; heavy, 109,750 barrels, against 110,750 barrels, and Lisbon, 7,000 barrels, against 6,450 barrels. In the Gulf Coast field, Hull is reported at 20,650 barrels, against 21,200 barrels; West Columbia, 9,350 barrels, against 9,750 barrels; Spindletop, 92,700 barrels, against 89,850 barrels; Orange County, 6,250 barrels, against 6,650 barrels, and South Liberty, 5,600 barrels, against 4,600 barrels.

In Wyoming, Salt Creek is reported at 41,250 barrels against 40,150 barrels, and Sunburst, Montana, 9,000 barrels, no change.

In California, Santa Fe Springs is reported at 44,500 barrels, against 45,000 barrels; Long Beach, 95,000 barrels, against 94,500 barrels; Huntington Beach, 98,000 barrels, against 90,000 barrels; Torrance, 26,500 barrels, no change; Dominguez, 19,000 barrels, no change; Rosecrans, 13,500 barrels, no change; Inglewood, 39,500 barrels, no change; Midway Sunset, 91,000 barrels, against 92,500 barrels; Ventura Avenue, 52,400 barrels, against 54,700 barrels, and Seal Beach, 8,700 barrels, against 8,000 barrels.

Oil Industry Names Arbitrator to Control Marketing of Gasoline and Petroleum Products.

It became known on Dec. 23 that following the example of the dress industry, organized baseball, the motion picture industry and other large business interests, the oil industry has appointed an arbitrator, or mediator, to exercise control over practices relating to the marketing of gasoline and petroleum products, and whose word is to be final in connection with all business transacted in this industry other than the matter of prices in Greater New York, on the part of the so-called "Independents." A statement reporting this adds:

This action, it developed, was taken at a general meeting of the Petroleum Merchants, Inc., comprised of oil companies dealing annually in upwards of one hundred million gallons of gasoline in the metropolitan district. The meeting took place at the Hotel Astor last Saturday when a resolution was unanimously adopted appointing Benjamin A. Javits, general counsel to the Association, to the post of arbitrator. It is understood that the retainer of the arbitrator for the first year of his incumbency will be in five substantial figures. Mr. Javits yesterday gave confirmation of his appointment at his office, 165 Broadway.

Leaders in the industry not classified with the Independents have expressed their approval of the move and indicated their readiness to support the principle involved. The naming of an arbitrator, it was explained, has for its purpose the stabilizing of the business conducted by the independent oil interests in this city, and the subsequent organization, with a similar purpose in view, of other groups in the industry is to be undertaken.

Mr. Javits will be empowered to arbitrate all disputes among members; to take definite action to eliminate the marketing and sale of bootleg gasoline (gasoline below the standard prescribed in the United States Motor specifications), and to take such other action as may be needed to bring about a complete co-ordination and amity of relation between the marketers, the large producers and refiners, the distributors and the public.

The steps leading up to the formation of the Petroleum Merchants, Inc., which was granted a charter by the Secretary of State last October, and later to the incorporation of the New York State Petroleum Marketers, representing the oil industry throughout the State, of which Mr. Javits is also general counsel, have occupied his attention for nearly a year, and led to his selection as arbitrator for the industry.

Mr. Javits is a graduate of the Fordham University Law School, class of 1918. Following his admission to the bar he became an associate of the late Almet F. Jenks, Chief Justice of the Appellate Division for the Second District. Mr. Javits specializes in work connected with organization and reorganization in industry, and two years ago effected the reorganization of the Metropolitan chain stores involving the procurement of several million dollars of additional capital for that corporation.

Steel Demand Shows Holiday Decline with Stable Prices—Pig Iron Price Drops.

Continued lessening of new demand for finished steel has modified some of the recent predictions of a definite upturn in mill operation in early January, states the "Iron Age" in its market review under date of Dec. 23. There will be naturally some recovery from holiday slackness, but no marked change from the production rate of the first half of this month, according to observations made by the "Age."

To-day the industry as a whole is close to a 65% basis, with the Steel Corp. slightly above 70%. In the Mahoning Valley some companies are scheduled for 60% for the remainder of the month. General suspension from noon of Friday until Sunday night will make this the low-production week of the year, continues this trade journal, adding:

Movement of steel to the automobile industry this month and next will exceed that of October and November, but much of it will be releases on suspended shipments and will enter into cars built in February and later. New orders for motor car steel await more definite data as to spring demands upon the builders.

In both rolling stock and track steel railroad activity continues to be the best source of new buying. Chicago mills added 30,000 tons of track accessories to their books in the week. The Pennsylvania R.R. has placed 6,000 tons of tie plates, 2,000 tons of spikes and 2,000 tons of angle bars and track bolts, two-thirds of these contracts going to Chicago mills.

New orders for heavy freight equipment totaled 2,900 cars—1,200 for the Lehigh Valley, 1,000 for the St. Paul and 700 for another Western road. In addition, 35 locomotives were bought by the Rock Island; also 250 ore cars and 600 steel underframes for cars. The Santa Fe is inquiring for 1,000 refrigerator cars, the Mobile & Ohio for 600 of miscellaneous types and the Chesapeake & Ohio for 200.

Although the week's structural steel awards were light, less than 11,000 tons, much structural work is pending, one new project, an office building in Philadelphia, calling for 15,000 tons, and work in connection with the New York-New Jersey vehicular tunnel for 4,600 tons. An office building in Louisville, Ky., will take 4,000 tons.

Bookings of fabricated structural steel dropped from 66% of capacity in October to 63% in November. Last year the October percentage was 89 and the November figure 71%. The eleven months of this year show a falling off of 7% from the eleven months of 1925.

Chicago reports make a point of the increased specifications for finished steel products, particularly bars and sheets, from manufacturing plants and in some cases from jobbers whose present stocks are not sufficient to meet requirements expected early in January. At Cleveland also some consumers of bars whose stocks are low are calling for deliveries in the first week of next month.

Shipments of sheets to Dec. 1 point to a new record for the year. Sales, production and shipments of the independent makers showed $11\frac{1}{2}$ to $12\frac{1}{2}$ % reduction in November from October, but their shipments for eleven

months amounted to 3,175,000 tons, or only 19,000 tons below the total for all of 1925. Production has been about 3,210,000 tons, and thus not much over 1% in excess of shipments.

Tin plate sales have been large, both in Eastern and Pacific Coast markets. Nearly all large users in Eastern territory have contracted for the first half and one producer is practically booked for that period.

Pipe mill operations are at 70%, which means a larger tonnage than is commonly realized in view of increased capacity of fully 30% since 1925, taking into account recent seamless tube mills. Replenishment of mill stocks partly explains present activity.

On the 12,000 tons of pig iron wanted for plumbing supply foundries in the Central West bids of \$18 50, Valley furnace, for No. 2 iron represent a decline of 50c. a ton. In Eastern pig iron markets also the expectation of a reduction in non-union coal miners' and coke workers' wages still acts as a brake on new business.

An increasing use of gratings is providing an important outlet for narrow bands.

Exports of iron and steel products in November, at 247,343 tons, were the highest in nearly three years. The gain is largely in pipe, rails and galvanized sheets. The eleven months of this year are nearly 22% ahead of the same period last year.

The European Raw Steel Cartel, our cables report, now includes Czechoslovakian, Hungarian and Austrian producers.

Foundry iron weakness at Valley furnaces has brought down the "Iron Age" pig iron composite price to \$19.88, from \$19.96 last week. This is the third small decline in successive weeks. The recent high of \$20.21 was in November.

For the eleventh week the "Iron Age" composite price for finished steel remains at 2.453c. per lb., the exact level of one year ago, as shown in the attached composite price tables:

Finished Steel.			Pig Iron.		
Dec. 21 1926, 2.453c. per lb.			Dec. 21 1926, \$19 88 per Gross Ton.

Railroad business is pre-eminent in the iron and steel market, which is characterized by the usual pre-Christmas lethargy, declares the "Iron Trade Review" of Cleveland on Dec. 23. Four roads placed between 30,000 and 35,000 tons of track fastenings at Chicago. Active freight car inquiry now totals 26,700, requiring 400,000 tons of iron and steel products, while 3,150 cars ordered during the week will bring 47,250 tons to the mills, adds the "Review" in summarizing activities in the iron and steel markets for the past week. Further details we quote as follows:

Car awards include 500 box, 500 hopper and 200 automobile for the Lehigh Valley; 500 stock, 500 auto for the St. Paul; 700 unspecified type in private closing at Chicago and 250 ore for the Chicago & North Western. The latter carrier has come into the market for 120 passenger cars. The St. Paul has withdrawn 500 automobile cars. New inquiry embraces 250 flat, 200 gondola and 150 hopper cars for the Mobile & Ohio.

Forward buying in finished steel continues extremely sparing. In fact, in fact, producers never approached so closely to first quarter with so little of their capacity engaged. Yet a feeling of confidence in the opening months of 1927 everywhere is evident. Car steel ahead of mills is of record-breaking proportions. The automotive industry is stirring again. These requirements, plus hand-to-mouth buying which can be expected from general consumers, should bring in round tonnages early next quarter, the mills are confident.

Quickening in the automotive industry is being felt in many directions. Several northern Ohio blast furnace intersets report pig iron shipments thus far in December in excess of November, largely on this account. At Chicago, alloy bars for first quarter delivery are more active. The sheet industry in the Mahoning Valley has received additional releases from Detroit. Makers of finished steel, other than strip, at Pittsburgh are either slightly stepping up their shipments to the automotive industry or will shortly go on.

Iron and steel scrap in most districts displays more life and at Pittsburgh, an \$18 market in heavy melting steel, or a dollar over the current level, is looked for next quarter.

Exports of iron and steel from the United States in November totaled 219,830 tons, a height not reached since January 1924 and an increase of almost 50,000 tons over both October and November 1925.

The "Iron Trade Review's" composite price on 14 leading iron and steel products this week is \$38 12. This compares with \$38 22 last week and \$38 24 the previous week.

World Zinc Stocks Increase 1-600 Metric Tons—Sharpe Estimates World Stocks Dec. 1 at 33,100 Metric Tons, Against 31,500 Nov. 1.

A. J. M. Sharpe, Honorary Foreign Secretary of the American Zinc Institute, estimates world stocks of zinc Dec. 1 at 33,100 metric tons, of 2,204.6 pounds each, compared with 3,500 Nov. 1, increase of 1,600 tons during the month, mainly in the United States. Stocks of Oct. 1 came to 30,100 tons, Sept. 1 33,200, Aug. 1 to 37,200, July 1 40,600 and June 1 49,200 tons. In reporting this in its issue of yesterday (Dec. 24), the "Wall Street Journal" said:

Following table gives in metric tons Mr. Sharpe's estimates of zinc stocks in various countries during the last six months:

	Dec. 1.	Nov. 1.	Oct. 1.	Sept. 1.	Aug. 1.	July 1.
United States.....	13,200	14,400	14,200	16,500	20,900	23,400
Canada.....	2,300	2,300	2,200	2,400	2,300	2,100
Australia.....	2,300	2,200	2,200	2,200	2,200	2,200
Germany and Poland.....	7,500	6,000	5,000	5,500	5,800	6,500
Belgium.....	3,200	2,400	2,100	2,000	1,800	1,800
France.....	1,400	1,000	1,000	1,000	1,000	1,200
Great Britain.....	1,000	1,000	1,000	1,000	1,000	1,000
Scandinavia.....	200	200	200	200	200	200
Far East.....	500	500	500	500	500	500
Elsewhere.....	1,500	1,500	1,500	1,500	1,500	1,500
Total.....	33,100	31,500	30,100	33,200	37,200	40,600

Mr. Sharpe in reviewing conditions in the zinc industry as of Dec. 1, after pointing out that owing to the Christmas holidays and inventory taking, this time is usually a period of quietness, continues:

"With the turn of the year we may hope for better things. The British coal strike has fizzled out and industries in the United Kingdom are preparing for a busier time than was experienced in the year just closing. Consequently it may be safely assumed that from January there will be a fair increase in the British consumption of zinc, although in a month or two such enhancement will be met by domestic production. Since suspension of British zinc smelting, shortly after the start of the coal strike May 1, every ton of zinc consumed has necessarily had to be imported. With comparatively cheap domestic coal once again available, the various smelters are preparing to resume operations, and while it will be some weeks before they get into full swing, some output can be expected in January.

"British consumers are lightly stocked with metal, and if they do not buy immediately before Christmas, they must inevitably enter the market for supplies early in the new year.

"The more encouraging outlook so far as England is concerned is unfortunately counteracted by the quieter condition of trade on the Continent. So far as zinc is concerned, the fabricating trades in Europe are experiencing the slack times peculiar to the winter, the rollers and oxide makers being chief sufferers. Then we see to-day a decided slump in industry in France. That country has not known the unemployment problem since the war, as it has benefited from the transitory advantages of inflation. But in the past few weeks the franc has appreciated so rapidly as to leave the cost of living behind, and manufacturers have been unable to readjust conditions in the shape of wages and supplies. Thus it is that French industry as a whole is commencing to taste the aftermath of inflation, and is faced with the same real difficulties that have beset the other nations in their respective periods of deflation.

"In the case of zinc, France finds itself unable to import Belgian zinc as hitherto and the tonnage in question is consequently being offered in England to embarrassment of the London market. While in January it may be possible for Great Britain to absorb this extra quantity, its pressure on the market just now is naturally a depressing influence.

"Even in Germany, where there has been steady progress in the metal and other industries for many months, there is something of a seasonal let-up and traders evince no desire to carry stocks of non-ferrous metals.

"The safety valve in case of zinc lies in the fact that there is comparatively little profit in the current selling price vis-a-vis cost of production. It therefore goes without saying that if the price drops below the economic level, the higher cost producers will promptly cease outputting and provide the necessary market brake.

"The outlook for 1927 can more aptly be covered in my next survey as at 1st January, and I will content myself by stating that I am not at all pessimistic as to the prospects for the zinc industry next year."

Approach of Holidays Causes Slump in Bituminous Coal Markets—Anthracite Steady.

The combination of heavy production and the customary holiday let-down in ordinary industrial buying is proving too much for the bituminous coal markets of the United States in the opinion of the "Coal Age" of New York. Spot prices, with very few exceptions, continue to exhibit a marked downward trend which has not been checked by curtailment in production activities at some mines and plans for wholesale closing down over the holidays in entire districts, observes the "Age" in its Dec. 23 resume of the state of trade, from which we quote:

A survey of the price situation in Eastern and Southern coals reveals an almost unbroken series of declines. Screenings in the No. 8 field registered a trifling advance, a few tidewater quotations held to the figures of the preceding week, but in other directions offerings were made at sharp reductions. In the Middle Western field the situation was little better. No advances, except on western Kentucky screenings, were reported, but declines were fewer.

The "Coal Age" index of spot bituminous prices was 200 on Dec. 20 and the weighted average price was \$2 42. Compared with the preceding week this was a loss of 14 points and 17c. The steady easing off in prices has carried the spot levels back to mid-October ranges, with the possibility of further decreases strong. Any upturns will be the result of weather demand, principally for coal suitable for household use. Stocks on hand and fluid transportation rob mid-winter of its old-time terrors when car shortages and low reserves sent spot prices skyrocketing.

Analysis of available distribution data indicates that the country as a whole is in good shape from the standpoint of fuel reserves. Coastwise shipments to New England have been behind those of last year, but ahead of 1924. The increase in all-rail shipments does not equal the difference between 1925 and 1926 water-borne coal, but as an offset to that is the fact that 1925 movement was swelled by bituminous buying to take the place of strike-bound anthracite. The lake trade has been better served in point of tonnage than it was last year and no complaint is heard from the run of inland markets.

Up to Nov. 30 tidewater exports were 18,743,842 net tons, as compared with 4,817,398 tons last year, 4,359,752 tons in 1924 and 4,830,802 tons in 1923. Few new charters are reported—particularly at the Northern ports. Nevertheless in the rush to fill outstanding orders, during the week ended last Thursday there were 64 cargoes loaded for foreign destinations at Hampton Roads, 55 cleared from Baltimore and 21 from Philadelphia. Of this total 78 vessels were destined to the United Kingdom.

On the domestic side, the anthracite demand is controlled by the weather man. Stocks already accumulated by forehanded consumers are so heavy, however, that the mercury is less potent than in former years and independent quotations on the larger sizes actually weakened last week. The steam market, on the other hand, was somewhat stronger in New York, but little changed in Philadelphia. Lake movement has been suspended, but there was 54,424 tons of cargo and 2,117 tons of bituminous vessel coal loaded at the Lake Erie ports during the week ended Dec. 19.

In the beehive coke market interest centers upon the question of prices for first quarter contracts. Neither buyer nor seller appear to be near agreement on this question, which is complicated by the wage situation. Current output in the Connellsville region is declining.

The coal market a few days ago began recovering from one difficulty and preparing to face another one, declared the "Coal and Coal Trade Journal" on Dec. 23, when it issued its review of the market for the past week, adding:

Exports were diminishing rapidly, for the contracts that were keeping ships loading at our ports after the British strike had ended, were terminat-

ing; the lake season was over and industrial buyers had decided that they could secure their reserve stocks cheaper somewhat later. These were the conditions that actually prevailed.

The situation that would, or might, develop when April appeared was the one that was looked forward to with disquietude. The psychological effect of a ballot that took place last week was a distinctly annoying one, even if the result of the vote could have no immediate effect.

But in the midst of the consideration of these conditions a great event took place in the coal world that demanded attention and unquestionably received it. Somewhere in Alaska the edict was sent out that the country should become frigid and the coal man put away all thought of export, all consideration of proposed strikes, all ideas of what he could do, or would do when possible trouble came, and gave attention to the public and their immediate and pressing needs. Zero weather appeared in the West and then in the East. New England was the last to feel it with any intensity.

The wholesalers and the retailers throughout the land sold what coal they had. The purchasing agent revised his attitude, for the time being at least, and avoided some bad situations that might have appeared at the great fuel consumers' plants. The buying was rapid, and the source of supply was that nearest at hand. There was little time for shopping. Some disorder in quotations was the result.

Strangely enough there was little or no snow accompanying the sweep of cold winds. The movement of cars was easy. Only one instance of a shortage of railroad carriers is reported. With all the machinery for supplying the demand is in good order. Fourteen million tons of coal have been mined in the country for several weeks so there was plenty to deliver.

The condition that the sudden stress of weather gave rise to is, however, bound to be a transitory one. Prices will soon steady and remain firmer. Then the mind of the coal man will go back to the larger situation with which he is faced.

And this situation is that the end of a certain era has come. Mines are not opening up now. On the contrary many that were on the boundary line of profit are closing down. The retreat from very high prices has been accomplished. Chicago says there is a drastic curtailment in production in Kentucky and points East. Pittsburgh has somewhat the same report to make. Philadelphia, whose business was good last week, talks of expected labor trouble and will not be appeased with momentary success. New York can hardly declare what is the condition of the coal market or what to expect.

The simple fact of the matter is that a long period of high production has caused plenty of coal to be on hand at this time which can be easily moved, but everyone seems to feel that we are approaching a not distant future when the supply is to be curtailed and remain curtailed.

The opinion of the purchasing agents of the industrials, however, still seems to be that before this decrease of supply comes about, the price of coal is to go lower. The smaller buyers hope this is true and are acting accordingly.

At any rate, with the present holidays production will ease off, and with the closing of unprofitable mines, will probably remain off.

There is another reason to keep it "off." It is felt that between now and April is not the time to do anything like shopping for labor. There is a tendency to make it understood that the recent high production was due to a foreign strike that is over and from now on less coal and less labor will be demanded.

Output of Bituminous Coal, Anthracite and Coke Somewhat Lower.

Declines occurred in bituminous coal and anthracite production during the week ended Dec. 11, according to estimates prepared by the United States Bureau of Mines. Bituminous coal fell off by about 3.8%, while anthracite fell 9.5% below the figures reported in the preceding week. Further losses were also shown in the output of coke, which

continued the decline it has shown for a number of weeks. Additional data from the Bureau is as follows:

Although bituminous coal production again passed the 14-million-ton mark in the week ending Dec. 11, there was a sharp decline. The total output for the week, including lignite and coal coked at the mines, is estimated at 14,122,000 net tons, a decrease of 554,000 tons, or 3.8%, compared with the record of the week ended Dec. 4.

Estimated United States Production of Bituminous Coal (Net Tons), Including Coal Coked.

1926			1925		
	Week.	Cal. Year to Date.		Week.	Cal. Year to Date.
Nov. 27.....	13,413,000	515,504,000		11,599,000	465,785,000
Daily average.....	2,439,000	1,544,000		2,188,000	1,668,000
Dec. 4.....	14,676,000	530,180,000		12,868,000	478,653,000
Daily average.....	2,446,000	1,857,000		2,145,000	1,678,000
Dec. 11.....	14,122,000	544,302,000		12,908,000	491,561,000
Daily average.....	2,354,000	1,867,000		2,151,000	1,687,000

a Original estimates corrected for usual error which in past has averaged 2%. b Minus one day's production first week in January to equalize number of days in the two years. c Revised. d Subject to revision.

Cumulative production of soft coal during 1926 to Dec. 11 (approximately 292 working days) amounts to 544,302,000 net tons. Figures for corresponding periods in other recent years are given below:

1920.....	534,752,000 net tons	1923.....	536,369,000 net tons
1921.....	392,701,000 net tons	1924.....	453,243,000 net tons
1922.....	394,909,000 net tons	1925.....	491,561,000 net tons

ANTHRACITE.

The increase in anthracite production during the week ended Dec. 4 appears to have been temporary. The total production during the week ended Dec. 11 is estimated at 1,808,000 net tons, a decrease of 189,000 tons, or 9.5%. Two factors may have affected output—the close of the Lake season for anthracite on Dec. 4 and the occurrence of certain religious holidays.

Estimated United States Production of Anthracite (Net Tons).

a Minus one day's production first week in January to equalize number of days in the two years. b Subject to revision.

BEEHIVE COKE.

Production of beehive coke for the week ended Dec. 11 is estimated at 184,000 net tons, a decrease of 7,000 tons, or 3.7%, from the week preceding. Compared with the corresponding week of 1925 there is a decline of 104,000 tons, or 36.1%. Cumulative output during 1926 to Dec. 11 amounts to 11,917,000 tons, about 11% more than during the same period of 1925.

a Adjusted to make comparable the number of days in the two years. b Subject to revision. c Revised since last report.

The "Weekly Courier" states that production in the Connellsville district was reduced to 125,990 tons in the week of Dec. 11, a decrease of 12,660 tons compared with the week before. This is the second cut in coke production on the present downward movement in the trade, and one of the heaviest curtailments made in any single week in the year.

Current Events and Discussions

The Week with the Federal Reserve Banks.

The consolidated statement of condition of the Federal Reserve banks on Dec. 22, made public by the Federal Reserve Board and which deals with the results for the twelve Reserve banks combined, reflects the usual holiday demand for currency, Federal Reserve note circulation increasing \$73,800,000 during the week, and cash reserve and non-reserve cash declining \$41,800,000 and \$3,900,000, respectively. Holdings of discounted bills increased \$153,100,000 and of acceptances purchased in open market \$3,500,000, while Government security holdings declined \$163,800,000, the redemption of \$188,000,000 of temporary certificates issued by the Treasury to the Federal Reserve banks on the previous report date having been partly offset by additional purchases of securities in the open market. After noting these facts, the Federal Reserve Board proceeds as follows:

All of the Federal Reserve banks report increased discount holdings, with the exception of Kansas City, which shows a decline of \$4,900,000, and of Atlanta, which shows a small decrease. The principal increases in discount holdings were as follows: New York \$74,200,000, Chicago \$23,400,000, San Francisco \$16,000,000, Boston \$12,700,000, Cleveland \$11,000,000, Philadelphia \$9,300,000, and St. Louis \$8,300,000.

Open-market acceptance holdings declined \$4,900,000 at the St. Louis bank and \$2,200,000 at Atlanta, and increased \$4,400,000 at the New York bank, \$2,900,000 at Boston, and \$2,200,000 at San Francisco. The System's holdings of Treasury notes increased \$7,600,000 and of United States bonds \$500,000, while holdings of Treasury certificates declined \$171,900,000, the redemption of the temporary certificates held by the Federal Reserve bank on the preceding Wednesday being partly offset by purchases in the open market.

All Federal Reserve banks report a larger volume of Federal Reserve notes in circulation, the principal increases being: New York \$17,700,000,

Chicago \$17,100,000, Cleveland \$11,200,000, Philadelphia \$6,400,000, Atlanta \$4,700,000, Richmond \$4,600,000, and San Francisco \$4,000,000.

The statement in full, in comparison with the preceding week and with the corresponding date last year, will be found on subsequent pages—namely, pages 3292 and 3293. A summary of changes in the principal assets and liabilities of the Reserve banks during the week and the year ending Dec. 22 1926 is as follows:

	Increase (+) or Decrease (—) During	
	Week.	Year.
Total reserves.....	—\$41,800,000	+\$153,000,000
Gold reserves.....	—27,400,000	+138,000,000
Total bills and securities.....	—7,200,000	—85,100,000
Bills discounted, total.....	+153,100,000	—48,700,000
Secured by U. S. Govt. obligations.....	+100,400,000	—19,100,000
Other bills discounted.....	+52,700,000	—29,600,000
Bills bought in open market.....	+3,500,000	+17,600,000
U. S. Government securities, total.....	—163,800,000	—45,100,000
Bonds.....	+500,000	—19,000,000
Treasury notes.....	+7,600,000	—100,200,000
Certificates of indebtedness.....	—171,900,000	+74,100,000
Federal Reserve notes in circulation.....	+73,800,000	+18,300,000
Total deposits.....	—84,500,000	+32,300,000
Members' reserve deposits.....	—135,800,000	—1,300,000
Government deposits.....	+61,700,000	+38,700,000

The Member Banks of the Federal Reserve System—Reports for Preceding Week—Brokers' Loans in New York City.

It is not possible for the Federal Reserve Board to issue the weekly returns of the member banks as promptly as the returns of the Federal Reserve banks themselves. Both cover the week ending with Wednesday's business, and the

returns of the Federal Reserve banks are always given out after the close of business the next day (Thursday). The statement of the member banks, however, including as it does nearly 700 separate institutions, cannot be tabulated until several days later. Prior to the statement for the week ending May 19 1926, it was the practice to have them ready on Thursday of the following week, and to give them out concurrently with the report of the Reserve banks for the next week. The Reserve authorities have now succeeded in expediting the time of the appearance of the figures, and they are made public the following week on Monday instead of on Thursday. Under this arrangement the report for the week ending Dec. 15 was given out after the close of business on Monday of the present week.

The Federal Reserve Board's condition statement of 689 reporting member banks in leading cities as of Dec. 15 shows increases for the week of \$38,000,000 in loans and discounts, \$22,000,000 in investments, \$290,000,000 in net demand deposits, and \$89,000,000 in Government deposits, together with a decline of \$45,000,000 in borrowings from the Federal Reserve banks. Member banks in New York City reported an increase of \$5,000,000 in loans and discounts and a decline of \$22,000,000 in investments. These changes were accompanied by increases of \$174,000,000 in net demand deposits and \$26,000,000 in Government deposits and a reduction of \$68,000,000 in borrowings from the Federal Reserve Bank.

Loans on stocks and bonds, including U. S. Government obligations, increased \$78,000,000, of which \$46,000,000 was in the New York district. "All other" loans and discounts were \$40,000,000 below the previous week's total at all reporting banks and \$38,000,000 below at reporting banks in the New York district. Total loans to brokers and dealers secured by stocks and bonds, made by reporting member banks in New York City, increased \$54,000,000, loans for their own account and for out-of-town banks having increased \$12,000,000 each and loans for others \$30,000,000. As already noted, the figures for these member banks are always a week behind those for the Reserve banks themselves. The statement goes on to say:

Holdings of U. S. Government securities were \$7,000,000 below the Dec. 8 total, a decline of \$27,000,000 in the New York district being offset in part by an increase of \$9,000,000 in the Philadelphia district and smaller increases in some of the other districts. Holdings of other bonds, stocks and securities increased \$29,000,000, all of the districts except Richmond and Dallas reporting relatively small increases in this item.

Net demand deposits were \$290,000,000 above the Dec. 8 total, the principal increases including \$195,000,000 in the New York district, \$32,000,000 in the Chicago district, \$19,000,000 in the San Francisco district and \$10,000,000 in the Dallas district. Government deposits were larger than a week ago at reporting banks in all districts, the principal increases being \$28,000,000 and \$13,000,000 in the New York and Philadelphia districts, respectively.

Borrowings from the Federal Reserve banks were \$45,000,000 less than on Dec. 8, the reduction of \$63,000,000 reported for banks in the New York district being partly offset by relatively small increases in some of the other districts, particularly Philadelphia and St. Louis.

On a subsequent page—that is, on page 3293—we give the figures in full contained in this latest weekly return of the member banks of the Reserve System. In the following is furnished a summary of the changes in the principal items as compared with a week ago and with last year:

	Increase (+) or Decrease (—)	
	Week.	Year.
Loans and discounts, total.....	+\$38,000,000	+\$310,000,000
Secured by U. S. Govt. obligations.....	+4,000,000	—27,000,000
Secured by stocks and bonds.....	+74,000,000	—38,000,000
All other.....	—40,000,000	+375,000,000
Investments, total.....	+22,000,000	+41,000,000
U. S. securities.....	—7,000,000	—230,000,000
Other bonds, stocks and securities.....	+29,000,000	+271,000,000
Reserve balances with F. R. banks.....	+99,000,000	+69,000,000
Cash in vault.....	+12,000,000	—3,000,000
Net demand deposits.....	+290,000,000	—47,000,000
Time deposits.....	+2,000,000	+497,000,000
Government deposits.....	+89,000,000	—94,000,000
Total borrowings from F. R. banks.....	—45,000,000	—55,000,000

Summary of Conditions in World's Markets According to Cablegrams and Other Reports of the Department of Commerce.

The Department of Commerce at Washington releases for publication to-day (Dec. 25) the following summary of conditions abroad, based on advices by cable and other means of communication:

CANADA.

City retailers, with few exceptions, report very good business as there was a general tendency to do Christmas shopping earlier than in past years, according to Trade Commissioner Lynn W. Meekins, Ottawa. Conditions in the wholesale trade remain good. Dry goods dealers are doing a fair volume of business. A slight drop is reported by boot and shoe wholesalers. Men's furnishings, ladies' wear and hardware show an improvement in sales and prospects look better than for some time. The building trade continues

busy throughout Canada. Lumbering operations are now very active and a heavy output is expected locally.

GREAT BRITAIN.

Following the termination of the mining dispute, readjustment is well under way in the British coal business. However, price levels are not yet stabilized and local transport and other difficulties are yet to be adjusted. In some districts coal is being produced in excess of pre-stoppage volumes and, in view of the position of price levels, the output tends to be above present demand.

BELGIUM.

Although stabilization has been in effect for six weeks there are no apparent signs of weakness in the development of the stabilization program or any evidences that industry and commerce are suffering unduly as a result of stabilization. Although there has been some slowing down of the intense activity in the heavy industries because of the better British conditions, the seasonal calmness and the readjustment of the currency to a gold basis, operations are still above normal and production in the big industries during the year should be the best since the war. There is no lack of money, credits are easy, industrial bank balances are favorable and the general tone of business is optimistic. The retail trade is somewhat less active and imports are lower, but rather through caution than necessity. The Treasury position is sound and has been aided by the proposed new budget, carrying receipts of 9,577,000,000 francs and expenditures of 9,415,000,000 francs. A National Committee on Foreign Trade has been organized under the Department of Foreign Affairs to study, facilitate and co-ordinate Belgian foreign trade activities. Measures will be taken by the government to increase its trade promotion services abroad.

THE NETHERLANDS.

The satisfactory conditions in business in the Netherlands which prevailed during October showed no material change in November. The industrial situation is generally encouraging. During the past year an improvement was manifested in the banking situation, in government finances, in port activities and in colonial business. The prospects for further improvement next year are encouraging. The statement of the Netherlands Bank for Dec. 15 shows a generally satisfactory condition. Budget returns for 1926 so far have been good and the Budget for 1927 is regarded favorably. While taxation generally is high, modifications are under way. There is ample money for current business but capital for new financing is less abundant owing to heavy investments in high interest bearing foreign loans and the repatriation of French and Belgian capital.

ITALY.

In view of the credit stringency which still prevails Italian interests are very active in obtaining foreign capital. Two American loans of ten million dollars each granted to the Lombardi Electric Co. and Montecatini Co. have just been announced. Principal attention continues to center around the new loan and it appears that subscriptions are satisfactory. In some quarters it is stated that the Government will be satisfied with raising two and one half billion liras from the public. Business throughout the country has been greatly reduced but this situation has not caused any fears of serious difficulties throughout the business community.

SWEDEN.

General economic conditions in Sweden during November continue satisfactory. The money market, however, which was firm during October, showed the usual seasonal stringency. This condition was somewhat aggravated in the last days of November and the beginning of December by demands to meet tax payments due. The rising tendency of the dollar rate has been less marked. The stringency in the money market is clearly shown in the continued decline in note circulation, which had decreased by 19,000,000 crowns on Dec. 15 and also by the decline of 51,000,000 crowns of deposits in the commercial banks. Rediscounts with the Riksbank continue the sharp decline and were more than 10,000,000 crowns less during November. The stock market was active during the month; industrial shares advanced by 12 points, while banking shares dropped off 3 points. General conditions in the export industries are satisfactory. The outlook for the lumber industry continues hopeful with practically the entire production for this year sold, and considerable advance sales on the 1927 output.

GREECE.

The improvement in the political situation has begun to be reflected in improved business conditions, and exchange, although somewhat lower than during the immediately favorable reaction after the formation of the coalition cabinet, is nevertheless comparatively steady and quotations average somewhat higher than the middle of November. The Government has decided to improve the physical condition of Greek circulating currency by issuing metal coins up to a total value of 77,000,000 drachmas. An indication of Greece's increasing commercial stability is the fact that recently published figures for the first part of 1926 show that traffic through the Corinth Canal increased very considerable over that of the first half of 1925.

EGYPT.

In spite of the facts that an effort is being made to extend the cotton financing scheme, and that the Parliament is considering legislation with a view to limiting the acreage planted to cotton during the years 1927 to 1929, nevertheless, there are still many demands that the Government enter the cotton market by making purchases as it did last year and by endeavoring to stabilize prices. In response to these demands, the Government has announced its intention to intervene by purchasing cotton futures and the cotton market showed immediate favorable reaction to the announcement. There is considerable opposition to the proposed scheme for reducing acreage. The increasing financial stringency resulting from the cotton situation is now being reflected in decreased building activity throughout the country. The Egyptian industrial situation (particularly cotton ginneries and irrigation plants) has been adversely affected by the reduction of coal shipments from Great Britain.

PALESTINE.

Crop conditions in general have been favorable, but the quality of this year's fig and olive crops is somewhat lower than usual. The orange yield is good, but the recent increase of 6 pence per case in freight charges is causing some concern to Jaffa merchants. Vegetable crops have been unusually large.

PERSIA.

The new budget for the 1926-27 fiscal year (ending March 20 1927) has just been passed by the Persian Parliament and is balanced at a total of 256,000,000 krans, estimated receipts exceeding those of last year by more than 8,700,000 krans. Recently published figures from the office of the Administrator-General of Persian Finances show that in addition to the balancing of the budget, the country's public debt has also been reduced, the total on June 22 1926 amounting to £1,706,000 and 23,625,000 krans. At that date the Persian Treasury had to its credit current accounts and trust funds roughly equivalent to the total funded debt of the country. Suez Canal traffic between the Persian Gulf and Europe

reached a total in 1925 ten times as great as in 1913. This increase is almost entirely due to Persian oil shipments from the Port of Avadan. The prohibition of the export of gold and silver from Persia has been renewed by the present Mejlis.

JAPAN.

Temporary depression is apparent in Japan's business and industrial circles, primarily due to the unsatisfactory political situation and the Emperor's illness, which has now eventuated in death. However, it is not expected in Japan that the low prices and disappointing foreign and domestic trade, which characterized the beginning of December, will continue after the year end. Weakness is noted in the silk and lumber markets, as well as in cotton yarns and fabrics, while practically all other commodities remain quiet. These conditions are reflected in the stock market; high yields and falling prices being evident the early part of the present month.

CHINA.

Business in the Shanghai area has been extremely slow on account of military activities, and uncertainty of the political situation continues to have a depressing effect on trade generally, although customs revenues for this year are in excess of last year. The approach of the Chinese New Year, which begins on Feb. 3, is also slowing up dealer activity. Business in the North is being disrupted by the movement of troops. Within the last few days some improvement has been shown in business conditions in Central Yangtze and Canton regions, although a serious commercial depression exists in Hankow, where a strike epidemic prevails, many factories being closed because of inability to meet the unreasonable demands presented by newly formed workers' unions. Shipping has been delayed by the dock workers' strike.

Importers in China are adjusting themselves to the low level of silver exchange. Markets for foreign products were on the whole quiet, except the market for American tin plate, which was active and firm. Continued low silver prevents imports of American wheat. Automobile sales in China for the year considered satisfactory, although prices have been increased in the last month to meet the low exchange. North China import business is slow, although there are good inquiries on hand for considerable business.

PHILIPPINE ISLANDS.

November trade was generally slow, with slight improvement in some lines the latter part of the month. Retail trade has recently increased in activity as a result of a religious festival in Manila and holiday buying. The general undertone is now more optimistic and greater activity is anticipated in the next few months. November's copra market was quiet, with curtailed production as a result of the typhoon. Prices were fairly steady. Abaca trade improved in both United States and United Kingdom grades, with advanced prices.

The grinding season is well started and the sugar market firm. Damage to the crop from the recent typhoon is now placed at 5%. A bumper rice crop is expected. The textile trade continues to fall. Though current arrivals are heavy, filling old orders, considerable curtailment in imports is expected locally in January and February. Dealers look for a revival in the market about March. Automotive trade continues good in light cars and trucks, with slight improvement in medium-priced cars, but other lines are slackening.

HAWAII.

Advances in raw sugar during recent weeks have caused extreme activity in the Honolulu Stock Exchange and sugar planters are looking forward to an unusually prosperous year. The weather continues favorable to ripening of the new crop and harvesting is well under way. Holiday trade is reported as moderate.

Real estate is inactive except in beach properties and in desirable residential sections. It is estimated in Hawaii that the three leading agricultural products—sugar, pineapples, and coffee—for 1926 will reach a value of \$100,000,000, sugar accounting for \$66,000,000, coffee for \$2,000,000, and pineapples for \$32,000,000. Prices received for these commodities the trade says have yielded only a small profit, due to low price levels, particularly for sugar; but the year 1927 should be more prosperous in the opinion of observers in Hawaii. The Pine Apple Cannery Association announces an advertising program for the coming year that will cost in the neighborhood of \$440,000.

INDIA.

India's import trade continues higher than at this time last year and is very satisfactory, but exports are disappointing. This export situation has come about largely through falling prices of Indian products, causing lack of confidence. Crops are good throughout India, however, and cotton is moving more freely and at prices that appear to be more stabilized. These factors together with the movement of food grains and seeds anticipated in the near future, should improve the trend in exports.

NETHERLANDS EAST INDIES.

November trade was satisfactory, without special activity in any lines. Imports were seasonally duller and exports were somewhat slower than in October, but prices were steady and the volume of trade was normal. Government finances are in good shape. A large surplus in receipts for the year and a reduction in taxation for next year are predicted locally. The textile market continues weak, as a result of the cotton situation, and automotive sales are seasonally slow. Automotive trade for the entire year, however, will establish a record it is said, with importation of American makes increasing. Sugar trade continues strong, with good sales at satisfactory prices. The rubber situation is uncertain. Other export trades are inactive, but prices are well maintained at profitable levels.

INDO-CHINA.

Indo-China's trade continues quiet, but the outlook is more optimistic, due to a reduction in rice prices, which is expected to attract greater export business. On Nov. 30 first quality rice was offered at 11.65 piasters per 100 kilos (about 2½ cents a pound) at ship side in gunnies, compared with 13 piasters, or about 3 cents a pound, a month previous. Harvest of the new crop, though somewhat late, is proceeding above the average. November exports of rice were considerably under October shipments, totaling 81,970 metric tons. Of this amount 53,000 tons were white rice, the remainder being largely broken destined for France. The official exchange rate of the piaster on Nov. 30 was 13.40 francs, or a dollar value of \$0.485.

SIAM.

Imports into Bangkok for November approximated 17,000,000 ticals in value, an increase of nearly 4,000,000 ticals over the previous month, due entirely to increased imports of general merchandise. November's import trade attained the largest volume of any month in the current year. Exports of 16,900,000 ticals showed a gain of 3,000,000 ticals over October's trade, due to increased rice shipments, which totaled 14,000,000 ticals in value. Although the price of paddy declined somewhat during the month, the high prices for Siamese rice which have ruled generally in recent months continued. The bank's buying rate for the Siamese tical fell slightly to \$0.45, but the selling rate remained at \$0.4425.

BRITISH MALAYA.

British Malayan trade in November was 4% under the October value, both exports and imports falling off. Total trade for the eleven months of the year, however, was well ahead of the corresponding period of 1925. This fact is indicative of the pronounced prosperity inaugurated in 1925, which was a record year for British Malaya. November exports were valued at 100,192,000 Straits dollars (\$56,087,000), compared with 103,348,000 dollars (\$57,947,000) in October, and imports totaled 77,173,000 Straits dollars (\$42,201,000) compared with 80,151,000 dollars (\$44,940,000) the previous month.

Rubber and tin prices were both slightly lower and speculation in the commodity was negligible. The average tin price for the month was 152.99 Straits dollars (\$85 65) per picul of 133 1-3 pounds. Tin exports totaled 5,821 long tons, of which 57% went to the United States, 27 to Great Britain and 15 to Europe. Exchange on New York and London for the month was steady, the average rate being \$0.5598.

AUSTRALIA.

All Australian centres report brisk holiday trade and observation indicates that the December turnover will be highly satisfactory. American goods are in evidence in all the principal store windows and are otherwise being pushed vigorously. Serious bush fires in New South Wales have caused considerable damage to stock, crops and other property, but late reports indicate that these fires have been extinguished by heavy rains which have fallen throughout a large section of the State. These rains have extended to Queensland and have relieved the drought there which has taken such a heavy toll of sheep.

The waterside workers' strike has been settled temporarily, pending adjustment by arbitration, but disputes in the brown coal fields threaten to cause shortage of electrical power.

Movement of wheat has commenced and 500,000 tons of shipping has been chartered for it. Australia's foreign trade for October, both import and export, increased considerably over that of the previous month and on the import side exceeded the trade of October a year ago.

ARGENTINA.

General trading in Argentina improved slightly during the week ended Dec. 18. Weather conditions continue favorable for the coming crops and the locally estimated wheat crop of approximately 230,000,000 bushels (6,260,000 metric tons) is believed in Argentina to be practically assured. In view of the reported excellent condition of the grain from first harvest returns the official estimate of the crop total is considered locally to be conservative. The cattle market is extremely quiet but trading on the hide and wool markets is active.

BRAZIL.

Brazilian exchange was somewhat firmer during the week ended Dec. 18, causing a slight reaction in coffee prices which dropped from 28.7 milreis for Santos 4s on Dec. 13 to 28 milreis on Dec. 18; this in comparison with 29 milreis during the previous week. The financial reform bill providing for stabilization of the milreis at 200 milligrams of nine tenths fine gold (\$.125), has passed Congress and is now awaiting the President's approval to become law. Action on the 1927 budget by the Senate has involved the consideration of increases in import duties on certain items, including paper.

PERU.

Little change was noted in the general situation in Peru for the week ended Dec. 18, with exchange rising slightly from \$3.535 to the Peruvian pound as quoted on Dec. 11 to \$3 54 on Dec. 18. The Association of Automobile Importers was formed in Lima during the week.

PARAGUAY.

Business is very dull in Paraguay as a result of the prolonged drought still being experienced. Adverse weather conditions have caused some uncertainty as to crop results and poor pasturage will be reflected in the condition of cattle.

MEXICO.

Business was very slow during the week ended Dec. 18, owing largely to the continued political uncertainty and to exchange fluctuations. Import orders have been reduced to a minimum and freight shipments into Mexico dropped about 15% during December. The strike of the workmen in the shops of the National Railways continues and its effects are beginning to be felt on the freight movement. The workers appear determined to oppose the readjustment of personnel and wages which the administrators insist is necessary if the system is to be put on a self supporting basis.

PORTO RICO.

The general business situation in Porto Rico for the week ended Dec. 18, continued slightly better than that of Nov. 1926, and of Dec. 1925. The greatest activity was shown in retail trade, particularly in sales of imported toys, novelties, leather gift goods and needlework and embroideries of local manufacture.

Sugar prices continue to be encouraging and the outlook is optimistic local observers say notwithstanding slight losses which occurred at the end of the last week. Six mills are grinding and several report good yields. The present prices and satisfactory sucres content obtained are inducing several other mills to start grinding earlier than was the case last year. In most districts the weather continues favorable to growing crops with rainfall averaging about normal. However, cultivation of land in certain areas of the south and west coast is delayed by insufficient moisture.

Steamship companies state that effective Jan. 1 1927, freight rates between the United States and Porto Rico on most commodities will increase. San Juan bank clearings for the first eighteen days of Dec. 1926 amounted to \$13,723,000 compared with \$12,785,000 for the corresponding period of 1925.

BARBADOS.

Economic and commercial conditions in Barbados during October remained quiet. The heavy rains which prevailed throughout the month materially aided the growth of vegetables, the chief foods of the island, and production is expected to exceed that of previous years. The rainfall also stimulated the growth of sugar cane in all parts of the island and many planters are reported to be looking forward to a record crop. During the month the weeding of fields, and preparation of the ground for planting the new cane continued. A slight increase was noticed in the local market price of sugar but prices of fancy and choice molasses remained stable. Other crops are doing well, but cotton planters are spraying the blossoming plants to ward off the boll weevil and other insects which have, in past years caused considerable damage to the crops.

Gold and Silver Imported into and Exported from the United States by Countries, in November.

The Bureau of Foreign and Domestic Commerce of the Department of Commerce at Washington has made public its monthly report, showing the imports and exports of gold

and silver into and from the United States during the month of November 1926. It will be noted that the gold exports were \$7,727,186. The imports were \$16,737,868, the greater part of which, namely \$5,028,355, came from Mexico, with \$4,866,103 from Australia and \$4,000,000 from Japan. Of the exports of the metal, \$6,061,390 went to Canada and \$1,015,358 to Colombia.

Bank of France Pegs Franc Exchange Rate—Offers to Buy or Sell Foreign Money to Any Amount.

From the New York "Times" of Dec. 23 we quote the following copyright cablegram from Paris Dec. 23:

When the exchange market opened to-day representatives of the Bank of France announced that they would buy or sell foreign exchange to any amount at the then prevailing rate, namely, 25.19 for a dollar and 122.50 for a pound. Then for the first time in years the exchange quotations for the day stood still.

This action, following the measures taken by the Bank of France yesterday and the day before to bring the pound from 118 to 122, quickly gave rise to a report that the Government had decided to peg the franc at its present value. Inquiry, however, showed this to be incorrect.

Action by the Bank of France is not strictly a Governmental measure, and there is good reason to believe that the directors of the Bank will act over the holidays, getting the dollar back to 26 or thereabouts, and the pound to 125.

Whether Premier Poincare will give Governmental sanction to the effort to hold the franc at that figure or whether he will try to stabilize it definitely is not known. Rather than acting to-day as an agent of the Premier, the Bank of France acted to prevent the franc going any higher.

The business of the whole country is suffering heavily. Frenchmen realize there must be a sort of business crisis accompanying stabilization, but they complain that the rise has been too rapid and that if the franc now goes still higher unemployment and business failures will become a real problem for France.

While it is true as the Government says there are only 50,000 unemployed officially registered, scores of big concerns have cut hours down in many cases to five a day and a five-day week, in order to avoid wholesale discharges. Therefore the number of unemployed is not a good measure of the decrease of French industrial activity.

Last night (Dec. 24) Associated Press cablegrams from Paris, said:

The Poincare Government to-day decided to take control of the exchange situation and to maintain the French franc at a price between 121 and 123 to the pound sterling (25 to 25½ to the dollar, or, approximately, 4 cents).

It was intimated in official circles this decision of the Government will amount to virtual stabilization of the franc within those narrow limits.

The movement got under way Wednesday, when the Bank of France began the purchase and sale of francs at around 122 to the pound and 25.15 to the dollar. It continued yesterday, with few fluctuations, at 122.25 to the pound and 25.19 to the dollar.

The Government's decision to intervene was taken as a warning to speculators they must get out of the market or take the risk of being pinched.

The entire movement is characterized in official circles as "pre-stabilization."

The simple knowledge on the part of operators that the Government was taking a hand in the market, either buying or selling dollars or sterling, had an immediate effect and the course of the exchange remained steady throughout a 122.25 and c25 .194.

Rate on French "Bonds de Defense" to Be Cut—All-Around Reduction of 1% Now Contemplated—Treasury Checking Subscriptions.

In Paris advices Dec. 19 (copyright), the New York "Times" says:

The shrinkage in business activity, as a result of the deflation following the rise in the franc, has greatly reduced the demand for money in the French market. The consequence of that situation has been the acceleration of subscriptions to defense bonds. Since, however, the maximum issue of those bonds allowed by the statute has already been nearly reached, the Caisse d'Amortissement has been obliged to propose checking the subscription movement by reducing to 4, 4½ and 5½% the interest rate on the bonds for three, six and twelve months, which, up to the present time, have borne interest at 5, 5½ and 6%, respectively.

The Caisse d'Amortissement has also suppressed the issue of one-month bonds, which were special favorites with the banks for investments of their deposit funds. The banks, therefore, will in the future not find any opportunity for very short profitable investment except directly with the Treasury, which still offers 3¼% for 30-day deposits.

Spain Plans Income Tax—Treasury Will Convert Numerous Small Levies Into One Large Tax.

From the New York "Times" we take the following cablegram (copyright) from Madrid, Dec. 21:

The Spanish Government is busily attacking the problem of how to balance the budget and meet more than 1,000,000,000 pesetas of public bonds which will mature in February.

The Minister of the Treasury is now making a tour of the South explaining his proposals to convert the present multifarious taxes into one income tax system. So far as can be told he is meeting with the endorsement of the big taxpayers of the districts he has visited and he expects to put his plan into execution by a decree at the new year.

For dealing with the problem of meeting the huge number of maturing bonds, other measures are being envisaged. Most of the economists are urging the consolidation of the floating debt, since it is not anticipated that it will be necessary to increase the floating debt during the coming fiscal year.

The money market seems favorable for launching a large issue of amortizable 5s, whose emission price will depend on circumstances. The Government expects to attract a considerable amount of money, the last issue on Nov. 16 being over-subscribed two and a half times.

Rumania to Seek Capital—Government Pledges Itself to Aid Foreign Investors.

In a wireless message from Bucharest, Dec. 19 (copyright), the New York "Times" says:

M. Meissner, the Minister of Public Works, speaking in Parliament yesterday in answer to the throne message, formally pledged the Government to a new economic and financial policy that will further collaborate with foreign capital.

"The existing principle of financial self-determination cannot longer satisfy the country's needs," M. Meissner said. "We need foreign capital while watching that our rights remain protected, but just the same giving all guarantees for making collaboration possible."

Belgium Terminates Government Control of Foreign Exchange Operations.

Associated Press advices from Brussels, Dec. 20, said:

Government control over foreign exchange operations has been abolished in Belgium. The control was clamped down during the financial crisis last summer to prevent export of Belgian capital and speculation against the franc.

The stabilization of the franc and the adoption of the belga, the new money "born with a gold spoon in its mouth," has brought a return of capital to the country and a feeling of confidence and security, making it unnecessary to curb foreign exchange operators.

Federal Reserve Board on Belgium's Monetary Reform and Participation by New York Federal Reserve Bank.

Supplementing what we have already given in these columns (Oct. 30, page 2204 and Nov. 6, page 2328) regarding participation by the Federal Reserve Bank of New York in the stabilization of Belgian currency, we quote the following in the matter from the November number of the Federal Reserve "Bulletin":

A recent development in monetary reform in Europe was the announcement by the Belgian Government on Oct. 25 of the putting into operation of a plan to establish the Belgian currency on a new basis. The reform includes the creation of a new unit of currency, the belga, with a fine gold content of 0.209211 grams and a fixed relationship to the Belgian paper franc at the ratio of 5 to 1. The relationship of the belga to the pound sterling at par is as 35 to 1 and to the dollar about 7.20 to 1. Thus under this plan the value of the Belgian franc will be 2.78 cents, or about 14.4% of its original gold parity. To accomplish the monetary reform thus undertaken the Belgian Government has negotiated in foreign markets a loan in an amount equivalent to about \$100,000,000. The proceeds of this loan are to be used to reduce the Government's debt to the National Bank of Belgium. The National Bank of Belgium, on its own account, has arranged for advances of credit of 5,000,000 pounds sterling from a number of European central banks, including the Bank of England, the German Reichsbank, the Nederlandsche Bank, the Swedish Riksbank, the Bank of France, the Swiss National Bank, the Austrian National Bank, and the Hungarian National Bank, and also the Bank of Japan. In connection with the restoration of Belgian currency the Federal Reserve Bank of New York, on its own behalf and on the behalf of other Federal reserve banks desiring to participate, and with the approval of the Federal Reserve Board, will, for a period of a year, purchase from the National Bank of Belgium, if offered, prime bankers' bills, said bills to conform to the eligibility requirements of the Federal Reserve act and to be payable in gold, the aggregate amount of such bills not to exceed \$10,000,000 at any one time.

Albert E. Janssen New Belgian Member of Transfer Committee Under Dawes Plan.

Paris Associated Press advices December 13 said:

S. Parker Gilbert, Agent General for Reparations, today announced the resignation of René Tilmont, Belgian member of the Dawes Plan

Transfer Committee. The Reparations Commission appointed Albert E. Janssen to succeed him. M. Tilmont resigned from his position in order to give all his time to the management of the National Bank of Belgium.

Justice Proskauer Orders Payment of \$112,832 Claim of Russian Estate Against National City Bank—Tangled By Soviet Bank.

A wartime transaction between New York and Russian banks, tangled by the conditions of the times and knotted further by the sovietization of the Russian Bank, has been unraveled by Supreme Court Justice Proskauer in a decision just handed down, says the New York "Times" of December 19. The account continues:

By the ruling the National City Bank of New York must pay \$112,832 to the estate of M. Sergey Friede, and also deliver to the Friede executors 250,000 imperial Russian bonds, due 1926; 4,700,000 Russian rubles, due 1926, and a \$5,500 Iowa Short Line Railroad bond. The money judgment consists of \$33,790 interest added to a verdict of \$79,041 directed by Justice Proskauer.

The unusual circumstances outlined by the court were that in November, 1917, Cahn Brothers of Petrograd cabled the defendant bank to collect from F. Blumenthal & Co. a sum due them, and credit the Azoff Don Bank "our account." The Blumenthal company on December 26 of that year remitted to the National City Bank \$83,716 "for account of the Banque de l'Azoff Don, Petrograd." The payment was credited on the National City books to the Russian bank, but before the credit entry had been made the Azoff Don Bank's account with the New York bank had been overdrawn, so that the entry gave it a net credit of only \$63,000.

One day after the money was deposited here the Soviet Government seized the Azoff Don Bank and amalgamated it with the State bank. The Cahns wired the New York bank on Feb. 22, 1918, to cancel the credit and return the money to the Blumenthal firm. The National City Bank cabled the Azoff Don Bank for authority to make the transfer. A member of the Cahn firm then called at the office of the Russian bank and had a cablegram sent by the manager of the foreign department, with the approval of the Soviet Commissioner, saying that they considered the credit canceled.

Justice Proskauer says he finds no proof of authority in the record for the sending of this cable, but in any event, the National City Bank refused to cancel the credit as requested.

The account remained unchanged on the books of the National City Bank until Oct. 21, 1919, excepting for an increase to \$71,156 by the addition of interest, when the late M. Sergey Friede served an attachment on the bank in a suit against the Azoff Don Bank for \$727,000 and directed the bank to hold for him all sums due the Russian bank. Several months later H. & J. Cahn sued for the entire sum of \$83,716 with interest. The plaintiff got judgment in 1921 and the sum was paid by the National City Bank without an appeal.

The Court points out that the Cahns are not parties to the present suit, and because of the indemnity agreement "the hardship of their position is urged." Justice Proskauer says that all that happened to put the money to the credit of the Azoff Don Bank, and the instructions were followed literally. The Court accordingly ruled that a debtor and creditor relation existed between the two banks.

The National City Bank made a counterclaim for securities deposited with the Azoff Don Bank and not returned. The Court says that no proof was made of any demand for the return, while the National City asserted that the demand is excused because the property of the bank was turned over to the Soviet Government. In reply Justice Proskauer declared that there is no evidence by which he could infer that the securities would not be returned if they were demanded.

The bank also argued that the Soviet Government took the securities by force, making it impossible for the Azoff Don Bank to respond to a demand, but Justice Proskauer says this is met by the Court of Appeals ruling in a previous suit against the National City by one Sokoloff, in which the Court said that "surrender to overwhelming force would excuse the loss or destruction" of property so held. For this reason the counterclaim falls.

Germany Closes Deal for Works in France—Building of Three Reservoir Dams on Eastern Frontier to Apply to Reparations.

In its issue of December 16 the New York "Times" announced the following (copyright) from Berlin, December 15:

Germany realized her long cherished dream to pay part of her reparation obligations today by closing a deal to undertake construction schemes in France, using German materials and German labor and crediting the project against the reparations debt. Three reservoir dams will be constructed across the Berdon Valley in Southeastern France to protect cultivated lands from Spring freshets and store the waters, which will be used to furnish power to four Departments along the French eastern frontier. One thousand men will be employed to build the dams and install the power plants, and the project will require more than two years.

Rhineland construction firms have arranged contracts with the French Departments and the unemployed in the Rhineland and the Ruhr will have preference for these jobs. The men will live in barracks, and arrangements have been made to furnish movies, libraries, hospitals and sport fields.

The transfer agent at Berlin, although knowing that such a project was planned, has not been officially notified that the deal has been closed, but he says the Agent General's Office never is informed until a deal between the parties concerned is fully completed.

Pengo to Replace Hungarian Krone—Ancient Coin to Pass Out with Old Year.

The following is from the New York "Sun" of last night (Dec. 24):

The ancient Austro-Hungarian krone or crown, superseded by the schilling in Austria long ago, but in use in exchange transactions between Hungary and the outside world to date, will disappear forever Dec. 31 1926. Cable

instructions came from Budapest to-day which read the death warrant of the paper krone and heralded the universal use of Hungary's new gold currency, the "pengo"—a name chosen, incidentally, because of the impossibility of confusing it with any other of the world's currencies.

The cable from Budapest, signed by the Hungarian National Bank, central institution of that country, was addressed to the National City Bank here, and contained instructions to broadcast the information it contained. The cablegram read as follows:

"On and after Jan. 1 1927 new Hungarian pengo currency compulsory for accounting purposes. Ask you to take necessary steps now to inform competent authorities New York that on and after Jan. 1 1927 official quotations New York for payments Budapest, Hungary, will be on basis of 100 pengo. Pengo will replace crown that one pengo equal to 12,500 crowns and that from one kilogram fine gold 3,800 pengo in gold will be minted."

The pengo will have a par value of about 17.4 cents, and probably will be traded in around that level. While 3,800 pengo will equal one kilogram of fine gold, there is a charge of 6 pengo for minting. There will be 27.82 pengo to the pound sterling, which, it is of interest to note, compares with 24.50 kronen to the pound in 1914 at the outbreak of the world war.

After the paper krone had been pushed to microscopic value by the inflation of Hungarian currency after the war it was finally stabilized in 1924 at around 340,000 kronen to the pound, or 12,500 kronen to the dollar, the level at which the pengo was introduced. The pengo became legal tender in Hungary Jan. 1 of the current year and corporations and banks were forced to transform their accounts into the new unit.

Great Britain Would Aid Yugoslav Currency.

From the "Journal of Commerce" we take the following Belgrade, Yugoslavia advices (Associated Press) Dec. 22:

The Governor of the Bank of England, it was announced at a meeting of the board of directors of the Narodna Bank to-day, is ready to aid in bringing about legal stabilization of the Yugoslav currency after the country's war and pre-war debts to England are consolidated. The Governor of the Narodna Bank, who has just returned from London, made the report.

Stabilization credits offered by American banks also were dealt with by the board, evoking a promise from the Governor that he would consider these offers. It was decided to transfer Yugoslav sterling credits in England to the care of the Bank of England.

Danish Gold Conversion.

Copenhagen advices Dec. 23 received by cablegram by the New York News Bureau from the Central News, say:

Both Danish Chambers have adopted the bill permitting conversion of notes into gold from Jan. 1 at 24 kroner, against one of gold.

Purchase Bavarian Treasury Bills.

The following is from the "Wall Street Journal" of yesterday (Dec. 24):

Bankers Trust Co., Chase National Bank and Union Trust Co. of Pittsburgh have purchased on a discount basis \$10,000,000 of the Free State of Bavaria six months treasury bills, drawn in dollars and payable in New York, with the option on part of Bavarian Government of a renewal for a further six months.

\$10,000,000 Credit to Republic of Colombia.

It was stated yesterday that a syndicate headed by Hallgarten & Co. has purchased \$10,000,000 six months notes of the Republic of Colombia with privilege of one renewal. It is noted in the "Brooklyn Eagle" that:

Colombia has been considering for a long period a large issue of long-term bonds for railroad construction and other purposes. The Congress of Colombia, however, adjourned and does not meet again until next July and the six months loan has been negotiated to enable the Government to proceed with railroad construction.

National City Bank Awarded Santo Domingo Issue.

Associated Press cablegrams from Santo Domingo (Republic Santo Domingo) Dec. 22, said:

The bid of the National City Bank of New York for the first \$5,000,000 of the loan of \$10,000,000 authorized in October by Congress has been accepted. The rate is 98.07, with interest at 5½%. This was the best offer of twelve bids.

The loan is to be expended on irrigation canals and other public works.

Peter A. Jay Resigns as Ambassador to Argentina.

Associated Press advices from Washington Dec. 23 state that Peter Augustus Jay, Ambassador to Argentina, has submitted his resignation to President Coolidge. It is added:

No action has been taken on the resignation, and it is assumed Secretary Kellogg will seek to dissuade Mr. Jay from terminating his diplomatic career. Mr. Jay, who is a "career" man in the diplomatic service, has been in Buenos Aires less than a year. Before he was transferred there he was Minister to Rumania.

His 15-year-old daughter died recently and it was said at the State Department to-day his desire to quit the foreign service probably was due to the grief of Mrs. Jay and himself.

The Ambassador has been granted leave to return to Washington and is expected to arrive here in January.

Cuban Sugar Planters Seek Crop Arbitration Board.

A special cablegram to the "Journal of Commerce" from Havana Dec. 23 says:

The National Sugar Planters' Association has written to President Machado urging the necessity of appointing an arbitration board of five members, consisting of two representing the planters and two the mill owners and the fifth one, the chairman, in order that the mills may proportionately grind the cane of their colonos in accordance with the 1926-27 crop limitation.

The National Sugar Planters' Association believes that in order to carry out fairly the curtailment of the crop such a measure is necessary. Last

year at this time there were seventy-two mills grinding. The Secretary of the Treasury yesterday was in the House of Representatives giving full information to that body on the economic situation and recommending the adoption of measures to increase Treasury revenues and to alleviate the economic crisis.

New South Wales Assembly Passes Tax of Half Penny Per Copy on Newspapers.

Sydney, N. S. W. Associated Press cablegrams Dec. 23 are reported as follows:

Newspapers with a circulation exceeding 15,000 are to be taxed a half penny per copy under a bill adopted to-day by the Legislative Assembly.

The Government has decided to introduce an endowment bill providing that married men shall receive additional pay of 6 shillings weekly for each child.

Offering of \$4,500,000 Bonds of Kingdom of Bulgaria Refugee Settlement Loan—Issue Over-Subscribed—Books Closed—Offering Abroad Likewise Over-Subscribed.

Speyer & Co., Blair & Co., Inc., and J. Henry Schroder Banking Corporation offered on Dec. 22 at 92 and interest, to yield about 7.65%, \$4,500,000 Kingdom of Bulgaria 7% settlement loan 1926 40-year secured sinking fund gold bonds, due Jan. 1 1967 (part of International loan for settlement of refugees). The loan is authorized and approved by the Council of the League of Nations. Announcement was made early in the day that the bonds had been heavily over-subscribed and the books closed. Speyer & Co. were advised by cablegram that the subscription lists for the £1,750,000 Kingdom of Bulgaria bonds opened in London that morning were immediately closed, the issue having been ten times over-subscribed.

These \$4,500,000 bonds and £2,400,000 sterling bonds constitute the total amount of the loan. £1,750,000 of the sterling bonds were offered in London by the Ottoman Bank, J. Henry Schroder & Co. and Stern Brothers, and the remaining £650,000 sterling bonds in Holland, Italy and Switzerland. The loan is secured by a first charge on the excise duty on alcohol, beer, salt, sugar, &c., and the net receipts of the match monopoly. The receipts from the above revenues are estimated on the basis of last year's yield, to amount to about \$3,800,000, or three times the annual interest and sinking fund on the loan. This financing represents the sixth in the series of reconstruction loans which have been floated under the auspices of the League of Nations. The Kingdom of Bulgaria loan, the first of this Government to be offered to American investors, is the third loan issued with the approval of the League of Nations to be sponsored by Speyer & Co. in this market; these bankers also having been identified with the Hungarian reconstruction loan and the Greek refugee loan.

The Bulgarian bonds will be dated Jan. 1 1927 and will become due Jan. 1 1967. They will be coupon bonds in denominations of \$500 and \$1,000. Principal and interest (Jan. 1 and July 1) will be payable in New York City, at the office of Speyer & Co. or of J. Henry Schroder Banking Corporation, fiscal agents, in United States gold coin of the present standard of weight and fineness, without deduction for any Bulgarian taxes, present or future. A cumulative sinking fund will repay the entire loan at or before maturity. This sinking fund is to be increased by all sums received after Nov. 1 1928 from settlers in payment for land, buildings, or material, or repayment of advances. The sinking fund is to be applied to the purchase of bonds at or below par, or, if not so obtainable, to semi-annual redemption by lot at par, the first redemption to be on Jan. 1 1928. The bonds will not be subject to call before Jan. 1 1939, except for the sinking fund. The Government reserves the right to repay at par on that date, or on any interest date thereafter, all or any part of the bonds then outstanding, upon not less than six months' previous notice. Wladimir Molloff, Minister of Finance, has authorized the following statement in behalf of the Bulgarian Government:

The loan is authorized and approved by the Council of the League of Nations and is issued pursuant to its Resolution of Sept. 7 1926, the Geneva Protocol of Sept. 8 1926, ratified by an Act of the Bulgarian Parliament of Sept. 30 1926, and an Act of Parliament of Dec. 16 1926, approving the loan contract. These \$4,500,000 bonds and £2,400,000 Sterling bonds constitute the total amount of the loan.

Purpose.

The purpose of this loan is to provide funds for the settlement of approximately 120,000 Bulgarian refugees from other countries, for the repayment of short term indebtedness incurred in anticipation of the loan and of about 76,000,000 French francs (about \$3,040,000) Bulgarian treasury bills. The proceeds of the loan, after deducting the above repayments, will be expended under the direct control of a Commissioner appointed by the Council of the League of Nations.

The Government of Bulgaria has undertaken to provide not less than 132,000 hectares (about 326,000 acres) of suitable unencumbered land, to be approved by the Commissioner.

Security.

The loan will be the direct obligation of the Bulgarian Government and will be secured by a first charge on the following revenues:

- (a) Excise duty on alcohol, beer, &c.
- (b) Excise duty on salt, sugar and various imported commodities.
- (c) Net receipts of the match monopoly.

The receipts from the above revenues are estimated by the Financial Committee of the League of Nations, on the basis of last year's yield, to amount to a total of 19,700,000 gold francs (about \$3,800,000), or over three times the annual interest and sinking fund on the loan.

(d) All payments made after Nov. 1 1928 by settlers for rent or interest. Sums received in payment for land, buildings, or material, or repayment of advances are to be added to the sinking fund for the loan.

If, at any time, the receipts from the above revenues should fall below 150% of the annual sum required to meet the service of the loan, the Bulgarian Government agrees to provide additional revenues (other than the customs), sufficient to insure total revenues equal to at least 150% of the service requirements.

The pledged revenues will be paid, as collected, into a special account (with the National Bank of Bulgaria), to be controlled by the Commissioner and, after the termination of his functions, by trustees to be appointed for the bondholders by the Council of the League of Nations. The sum required to meet the service of the loan will be remitted to the fiscal agents in monthly installments for the account of the trustees.

By decisions of the Inter-Allied Commission, the revenues now or hereafter pledged for the loan are, or (as the case may be) will be, released from the charge for reparation payments.

A reserve fund, equal to one-half year's service of the loan, is to be deposited with the trustees and any amount drawn therefrom to complete service requirements, is to be forthwith restored.

Bulgaria, with an area of about 40,000 sq. miles, has over 5,000,000 inhabitants, or a larger population than Denmark, Finland, Norway, or Switzerland. The country is mainly agricultural and exports considerable quantities of tobacco, cereals and other farm products. The currency has been stable since 1922.

External loans of Bulgaria were sold before the war in England and leading countries of Continental Europe; the 4½% bonds of 1907 and 1909 (the last pre-war loans) were marketed on a 5% basis.

It is also announced that—

The Inter-Allied Reparations Commission at Sofia has agreed to release "the above revenues (A) to (D) and has undertaken to release the further revenues mentioned in (E) if required, and the Bulgarian Government has undertaken to give the necessary first charge."

The Government has also "undertaken that the assigned revenues shall not be used (i. e., even on the basis of a second charge) as a security for any new loan without the consent of the trustees."

"In the last completed year the first three assigned revenues—(A) salt, (B) alcohol, (C) match monopoly—produced a total yield of 19,700,000 gold francs" (about \$3,829,680) over three times the interest and sinking fund requirements of the settlement loan.

Sir Arthur Salter, in the League of Nations' report on the Bulgarian loan, states that "The scheme is, of course, one of refugee settlement, as in Greece, and not of financial reconstruction as in Austria and Hungary, and direct responsibility with regard to the general finances of Bulgaria is not undertaken by the League. Nor is such a responsibility called for, for the Bulgarian budget has been balanced (with a surplus) since 1922 and the leva has been stable for about the same period."

* From League of Nations "Scheme for the Settlement of Bulgarian Refugees."

Amounts due on allotment will be payable at the office of Speyer & Co., 24 and 26 Pine Street, in New York funds, on or about Jan. 4 1927, as called for, against delivery of interim receipts exchangeable for definitive bonds when ready. Application will be made to list the bonds on the New York Stock Exchange.

Offering of \$1,500,000 Bonds of Housing & Realty Improvement Co. of Berlin, Germany.

An issue of \$1,500,000 Housing & Realty Improvement Co. 1st mortgage 20-year sinking fund 7% gold bonds is being offered at 98 and interest, to yield about 7.19%, by J. & W. Seligman & Co., E. H. Rollins & Sons and Foreign Trade Securities Co., Ltd., of New York. The company was organized for the purpose of erecting and operating on an entire city block in Berlin, Germany, 23 apartment houses containing one, two, three and four-room apartments, greatly needed because of the housing shortage there. The payment of interest, sinking fund and principal at maturity is insured, jointly and severally, by German insurance companies, among which are the Allianz Insurance Co., founded in 1890, whose resources alone exceed \$30,000,000, and the Munchener Reinsurance Co., founded in 1880. The loan represents only 36% of the total valuation of the land and buildings upon completion. Further data concerning the company and the offering are given in our "Investment News" Department, page 3328.

Offering of \$10,000,000 Bonds of Mortgage Bank of Chile (Caja de Credito Hipotecario, Chile)

—Notes Sold.

Kuhn, Loeb & Co. and the Guaranty Co. of New York offered on Dec. 23 subject to prior sale at 98¾ and accrued interest to date of delivery, to yield about 6.30%, Mortgage Bank of Chile (Caja de Credito Hipotecario, Chile) guaranteed five-year 6% agricultural gold notes of 1926. It was announced the same day that the notes had been sold. Miguel Cruchaga, Ambassador Extraordinary and Plenipo-

tentiary of the Republic of Chile to the United States, in a communication, dated Dec. 22, to the offering houses, says:

The above-mentioned \$10,000,000 principal amount of guaranteed five-year 6% agricultural gold notes of 1926 of the Caja will be in coupon bearer form in the denomination of \$1,000, will be dated Dec. 31 1926, will mature Dec. 31 1931, will not be redeemable before their maturity, and will bear interest at the rate of 6% per annum from Dec. 31 1926, payable semi-annually on June 30 and Dec. 31 of each year. Principal and interest will be payable at the option of the holders, in the Borough of Manhattan, in the City of New York, at the office of Kuhn, Loeb & Co., or at the principal office of Guaranty Trust Co. of New York, in gold coin of the United States of America of or equal to the standard of weight and fineness existing Dec. 31 1926, or in Santiago, Chile, at the office of the Caja, by sight draft on New York City, without deduction for any taxes, imposts, levies or duties of any nature now or at any time hereafter imposed by the Republic of Chile, or by any State, Province, municipality or other taxing authority thereof or therein, and will be paid in time of war as well as in time of peace, and whether the holder be a citizen or a resident of a friendly or a hostile State.

He also says:

The notes are to be unconditionally guaranteed by endorsement, by the Republic of Chile, as to principal and interest and are to be issued in accordance with the law of the Republic of Chile dated Aug. 29 1855, establishing the Caja, as amended by the Decree Law dated Dec. 15 1925 (which Decree Law was duly approved by the Commission appointed for that purpose by both Houses of Congress), with the Law No. 4074 dated July 26 1926, with Decrees No. 834 dated Nov. 17 1926, and No. 998 dated Dec. 16 1926, and with the Decree of the President of the Republic of Chile, dated Dec. 22 1926, for the purpose of making loans secured by agricultural products or implements, which loans may not exceed 50% of the estimated value of the collateral.

On Dec. 31 1925 the Caja had outstanding various issues of bonds aggregating \$100,219,000, at gold par of exchange, against which it had made 10,198 mortgage loans, being an average of less than \$10,000 per loan. These loans aggregated less than 25% of the aggregate appraised improved value of the properties mortgaged as security therefor. As further security for its bonds and notes, the Caja has accumulated a reserve fund of approximately \$5,028,450 at gold par of exchange.

The bonds and notes of the Caja are legal investments for savings banks and trust funds in Chile.

The present debt of the Republic of Chile, including the present and all other obligations guaranteed by it, aggregates about \$298,000,000 at gold par of exchange. The proceeds of the Government loans have been largely used for the construction or improvement of railways, harbors and other public works. The Government owns 3,624 miles of railroads, telegraph lines and other property, of an estimated value of approximately \$650,000,000 at gold par of exchange.

Chile is on a gold basis. Its currency is the peso, equivalent to U. S. \$0.12166. Currency notes are issued by the Central Bank of Chile, similar to the Federal Reserve banks of the United States.

The offering of an issue of \$20,000,000 6¾% gold bonds of 1926 of the Mortgage Bank of Chile was referred to in these columns July 31 1926, page 523. A similar issue of \$20,000,000 of the bonds of the bank, due June 30 1957 put out the previous year was voted by us June 27 1925, page 3252.

Offering of \$3,000,000 Bonds of Department of Cundinamarca (Republic of Colombia)—Books Closed—Bonds Oversubscribed.

An offering of \$3,000,000 Department of Cundinamarca (Republic of Colombia) twenty-year external 7% secured sinking fund gold bonds (series A) was announced on Dec. 21 at 94¾ and interest, to yield over 7.50%. The offering was made by Hallgarten & Co., Kissel, Kinnicutt & Co., Halsey, Stuart & Co., Inc., Lehman Brothers, William R. Compton Co., and Cassatt & Co. The books were closed on the day of the offering, the issue having been oversubscribed. The bonds will be dated Dec. 1 1926 and will become due Dec. 1 1946. A sinking fund will be provided, calculated to retire all the bonds at or before maturity. Regarding the sinking fund, we quote as follows from the offering circular:

A cumulative sinking fund of 2½% per annum is provided for, to operate semi-annually through purchase of series A bonds at or below face amount or, if not so obtainable, then by call of such bonds by lot at face amount. The Department reserves the right to increase the amount of any sinking fund payment.

Principal and interest, June 1 and Dec. 1, will be payable in United States gold coin at the office of either of the fiscal agents, Kissel, Kinnicutt & Co., or Hallgarten & Co., New York, free of all Colombian taxes, national department or municipal, present or future. The bonds will be in coupon form in denominations of \$1,000 and \$500, registerable as to principal only. They are part of a total authorized issue (all series) of \$4,866,500. As to the purpose, &c., of the bonds, Senor Julio Holguin, Secretary of the Treasury of the Department of Cundinamarca, says in part:

Purpose.—The proceeds of this loan (all series), together with a subsidy from the republic of 30,000 pesos per kilometer, are to be used to build a railroad from the present terminus of the Cundinamarca Railway to a port on the lower Magdalena River. This railroad will afford direct communication from Bogota to steamer navigation on the Lower River, effecting a saving of several days in time and avoiding many transfers of passengers and freight. The new railroad will open up a region rich in coffee, sugar and other resources, and will also make available in the departments adjacent to the Lower River a market for the live stock and agricultural products of Cundinamarca, now chiefly supplied by imports from countries outside Colombia.

Security.—The bonds will be secured by the full faith and credit of the department, as well as by a first charge on its revenues from the liquor and

tobacco taxes (which in the last fiscal year constituted approximately 60% of its total revenues) and by pledge of the shares of the Cundinamarca Railway Co. owned by the department. This railway is jointly owned by the republic and the department, the latter holding slightly over 50% of the total shares.

Revenues.—Revenues and expenses of the department in recent years, with income from the revenues pledged to the service of this loan have been as follows:

Years Ended June 30.	Revenues.	Expenditures.	Pledged Revenues.
1922-----	\$1,108,621	\$1,139,992	\$469,958
1923-----	1,561,498	1,551,912	469,958
1924-----	1,663,879	1,628,473	592,819
1925-----	2,254,486	2,143,021	980,830
1926-----	4,020,753	4,150,180	2,280,442

For the five-year period shown, the pledged revenues have averaged 3.3 times, and for the 1926 year were 8 times, full annual requirements for interest and amortization of this issue.

The substantial increases in recent years reflect the steady development of the department and the creation of new sources of revenue. At present over one-half the revenues of the Department are expended for works of a public character, less than half being required for administration.

Financial Position.—An official appraisal of property in the department in 1925 showed a valuation of over \$250,000,000, of which nearly \$200,000,000 was subject to taxation. The valuation of department-owned property was over \$8,000,000. It has no funded debt aside from this issue. Floating debt amounts to approximately \$180,000, and provision has been made for its liquidation.

Colombia.—The Republic of Colombia has for many years enjoyed a stable government, and its finances are in sound condition. The national revenue increased from \$21,292,000 in 1922 to \$45,039,000 in 1925, while the total debt, both internal and external, has decreased from over \$46,948,000 in 1922 to \$23,407,000 during the current year, a decline of over 50%. The Colombian peso, which has a gold parity of \$.9733, is now quoted at a slight premium.

All conversions of pesos to dollars have been made at parity of exchange.

Temporary bonds or interim receipts of the National Bank of Commerce in New York deliverable in the first instance.

Redemption of Republic of Cuba External Loan Bonds Dated 1923.

Senor Mario Del Pino, Acting Consul-General of Cuba, issued a notice on Dec. 13 to holders of Republic of Cuba external loan 30-year sinking fund 5½% gold bonds, issued under the loan contract dated Jan. 26 1923, publishing the numbers of \$1,885,300 principal amount of the bonds of this issue which have been drawn by lot for redemption out of moneys in the sinking fund. Bonds so drawn will be paid on or after Jan. 15 1927 at the office of J. P. Morgan & Co., fiscal agents, 23 Wall Street, at 100% upon presentation and surrender with all coupons maturing after Jan. 15 1927. Interest will cease on all such drawn bonds after that date. The list also includes bonds of previous drawings which were unredeemed on Dec. 8 1926.

Offering of \$2,200,000 of Bonds of Republic of Panama.

At 103 and interest, to yield at the minimum redemption price about 6.30%, Kissel, Kinnicutt & Co. and Bauer, Pond & Vivian offered on Dec. 20 \$2,200,000 Republic of Panama 30-year 6½% external secured sinking fund gold bonds. The purpose of the issue is stated as follows:

The Acts authorizing this loan provide that the purpose thereof shall be the construction of national highways, the construction of an aqueduct in Bocas del Toro, the redemption of the outstanding national defense bonds and the completion of the sum appropriated for the extension of the Chiriqui National Railroad to the Port of Armuelles.

The bonds will be dated Dec. 1 1926, and will become due Dec. 1 1956. They will be redeemable in whole or in part either at the option of the Republic or through the operation of the sinking fund, on any interest date prior to maturity, on not less than 60 days' notice, at 103% on or before Dec. 1 1936; at 102% thereafter and on or before Dec. 1 1946; and at 101% thereafter.

The bonds, coupon, will be in denominations of \$1,000 and \$500, registerable as to principal only. Principal, premium and interest (June 1 and Dec. 1) will be payable in New York City in United States gold coin of the present standard of weight and fineness, without deduction for any Panama national or local taxes present or future. Official advices from Floyd H. Baldwin, Esq., fiscal agent of the Republic, and from other sources state in part:

Relations with the United States.

In accordance with Article 1 of the treaty between the United States and Panama, ratified Feb. 26 1904, "the United States guarantees and will maintain the independence of the Republic of Panama." The Government of the United States not only has the right to regulate sanitary measures in the cities of Panama and Colon, but also has the right and authority to maintain public order in these cities and in the territories and harbors adjacent thereto. The United States, under the terms of this treaty, was granted in perpetuity the "use, occupation and control" of the Canal Zone.

In accordance with the terms of Article XIV of the treaty, the United States paid \$10,000,000 gold to the Republic. The Constitution of Panama stipulates that \$6,000,000 of this payment shall permanently be kept invested in interest-bearing securities. An Act passed by the National Assembly of Panama and signed by the President, provides that this "Constitutional Fund" shall be invested in first mortgages on New York City real estate; and the fund is so invested. During the life of the treaty the United States also is obligated to pay the Republic \$250,000 gold per annum.

The United States Government invested in the Panama Canal over \$350,000,000, of which amount, for purposes of accounting, over \$112,000,000 was written off to national defense in 1921. The United States Government has also over \$29,000,000 invested in auxiliary enterprises other than those connected with funds of the Panama Railroad.

Debt.

The total external funded debt of the Republic, including this issue, amounts to \$10,457,000. Of this debt \$5,693,000 is secured on the net income of the Constitutional Fund and the annual payments made by the United States. For the year 1925 the net income of the Constitutional Fund plus the annual payment by the United States was approximately \$560,000, whereas the service charge on the \$5,780,000 external debt then outstanding was only approximately \$470,000, leaving a surplus of over \$90,000. The Republic is thus in the unique and advantageous position of carrying the above \$5,693,000 external obligations wholly with external resources without using revenues from home taxation. The total internal debt of the Republic is only \$2,551,862, which includes \$1,755,063 due the United States Government for municipal works constructed by it in the cities of Panama and Colon and \$226,375 national defense bonds which are to be redeemed on March 10 1927. The Republic has no floating debt.

Total internal and external debt is less than \$30 per capita.

Security.

These bonds have been authorized by Acts of the National Assembly approved by the President. The bonds are the direct credit obligations of the Republic of Panama and are specifically secured by a first charge on the income derived from the retail liquor tax, subject only to the existing charge in favor of \$226,375 outstanding national defense bonds, provision for the redemption of which on March 10 1927 has been made, and for the payment of which cash will be deposited with the fiscal agent of the loan. For the past five years the revenues derived from the above tax have averaged over \$537,000 per annum, against a total service charge for interest and sinking fund on the present loan of \$176,000 per annum, or over three times the service charge. The Republic further agrees that if in any year the receipts from the above tax fall below \$500,000, it will pledge other taxes as security for this loan.

Sinking Fund.

Under the terms of the loan it is provided that on or before the tenth day of each and every month the Republic will remit the sum of \$14,666 67 to the fiscal agent of the loan. After a sufficient sum has been set aside for the payment of interest, the balance will be used for the retirement of bonds, either by purchase at prices not exceeding the redemption price, or, if not so obtainable, to the redemption of bonds by lot. Bonds so acquired are to be canceled. This sinking fund is calculated to retire the entire issue before maturity.

New York Bankers Get Costa Rica Loan.

The Republic of Costa Rica has awarded an issue of \$8,000,000 external 7% gold dollar bonds, maturing in 25 years, to the Central Union Trust Co. of New York acting on behalf of a banking group consisting of J. & W. Seligman & Co., Blyth, Whitter & Co., Marshall Field, Glore, Ward & Co., F. J. Lisman & Co. and Hemphill, Noyes & Co. The award of this issue, the first of its kind ever arranged by Costa Rica as a public dollar loan, has been awaited with interest in international banking quarters owing to the competition between rival American banking interests which have had representatives on the ground. The public offering is expected to be made in this market next week, with substantial amounts expected to be taken abroad.

Medellin (Columbia) Issue Purchased by New York Banking Houses.

It was announced Dec. 22 that Hallgarten & Co., Kissel, Kinnicutt & Co., and Halsey, Stuart & Co., Inc., have purchased an issue of \$3,000,000 25-year external 7% secured gold bonds of the municipality of Medellin, Republic of Columbia, an offering of which will be made in this market in the near future.

City of Buenos Aires to Retire \$50,000 of its 1924 Issue at Par on January 1.

The City of Buenos Aires is retiring \$50,000 of its 6½% Sinking Fund Gold Bonds, Series 2-B of 1924, on January 1, 1927, according to an announcement made by Kissel, Kinnicutt & Co., fiscal agents. The January 1 interest on the permanent bonds to be retired at this time will be allowed to the present holders. The issue was for \$8,490,000 and sold at 96½.

Province of Cordoba to Redeem at Par \$99,000 of its 1925, \$5,943,000 Issue at Par.

The Province of Cordoba in the Argentine Republic will redeem at par \$99,000 of its external 1½% year 7% Sinking Fund Gold Bonds of 1925 and due July 1, 1942, on January 1, 1927, Kissel, Kinnicutt & Co., fiscal agents announce. Holders of the permanent bonds will receive interest due on the date of retirement. The original issue was for \$5,943,000 and sold at 95.

Professors of Columbia University Urge Review of War Debt Payments with View to Readjustment.

Declaring that in their judgment "the war debt settlements are unsound in principle," the faculty of political science

of Columbia University urges "complete reconsideration" of the debt issue "in the light of present knowledge." Forty-two professors have issued the appeal, in which it is proposed that "an international conference should be called to review the entire problem of debt payments and make proposals for readjustment." It is contended that "the existing settlements rest upon a basis which is itself open to question," and among other things the appeal says:

Evidence is accumulating week by week that our insistence on debt payment will cause the hatreds, which European countries are finding means to allay among themselves, to be concentrated squarely against us. Already international trusts are being organized, to compete with our industries in neutral markets. Already it is being pointed out that the reparations payments which threaten to hold Germany in financial bondage for two or three generations are necessary to permit the Allies to pay their war debts to us. A coalition of Europe against the United States might prove a good thing for Europe. Can any one believe that it would be a good thing for the United States? Thus the demands of justice are reinforced by the dictates of political expediency and the counsels of economic self-interest in urging us to meet half way the countries of Europe in the International Debt and Reparations Conference which we here propose.

The appeal, made public Dec. 20, was accompanied by an introductory statement by Dr. Nicholas Murray Butler, President of Columbia, who said:

The faculty of political science in Columbia University, composed of some 40 scholars and men of affairs, who are in the very front rank in the fields of economics, social science, history and public law, have united in a carefully prepared statement of what they conceive to be the relation between the inter-Allied war debts and the reparations fixed by the Treaty of Versailles and the peace and economic restoration of the world.

There can be no higher or more disinterested authority than that which these gentlemen enjoy. They are not closet philosophers, but men in active touch with every phase of practical life, including finance, industry, commerce and legislation.

The American people hardly realize the enormous advance made toward the establishment of international security and peace during the year 1926. The word Locarno has become symbolic not only of progress but of an ideal which is no longer considered impracticable. This is due in chief measure to the fact that M. Briand, Dr. Stresemann and Sir Austen Chamberlain are not merely the heads of the Foreign Offices of three Governments whose interests have often been in competition or in conflict, but that these men have become close comrades, working with loyalty and devotion upon a common task. It is unthinkable that the people of the United States, with their traditions and their historic policies of international friendship and co-operation, will withhold any possible measure of support from this epoch-marking movement.

This statement is in no sense a proposal for the cancellation of the debts or reparations. It is an argument for the re-study of these debts and reparations and of all the problems that are so closely related to them or that grow out of them in the light of most recent political and economic developments in Europe, this re-study to be made by or under the direction of an international conference summoned for that particular purpose.

To Americans it will be of special interest to read again the letter addressed by Thomas Jefferson when Secretary of State to Mr. Hammond, Minister Plenipotentiary of Great Britain, under date of May 29 1792, and still more, perhaps, the preliminary draft of that letter which was submitted to the criticism of President Washington, of Alexander Hamilton, of James Madison and of Edmund Randolph, in answer to the claims made by the British Government arising out of the destruction here in the United States during the War of Independence, of property belonging to the British Government or to Loyalists.

The following is the statement embodying the appeal of the faculty:

We, the undersigned members of the Faculty of Political Science and Associated Schools of Columbia University, submit for impartial consideration the following statement:

In our judgment the war debts settlements are unsound in principle. Certainly they have created and are fostering a deep sense of grievance against us. We do not agree that the debts be completely cancelled. Whether there should be cancellation in whole or only in part depends on many complicated factors yet to be studied. What we do urge is complete reconsideration in the light of present knowledge. To this end we believe that an international conference should be called to review the entire problem of debt payments and make proposals for readjustment. This need not and should not in any way interfere with present negotiations nor the current operation of the Dawes plan. On the contrary, it would facilitate them. The proposed conference cannot be hurriedly improvised, but definite steps looking toward its organization would ease the present situation and we should find ourselves co-operating helpfully and constructively with other nations upon terms of a lasting settlement.

In the last few months the nations of Western and Central Europe have made an unprecedented effort to rid themselves of the menace of future war. At present they are succeeding beyond all expectation. In proportion to their success the whole world will share in the benefits. If their great adventure fails, the whole world, including ourselves, will some day suffer incalculably.

The prime condition of the success of any such movement is mutual trust and understanding. Our war debt settlements have produced distrust and misunderstanding. When century-old political enmities are yielding to common sense, an international financial problem of recent origin, whatever its magnitude, should not be allowed to threaten the foremost gain in international relations since European nations began.

Our share in the war debt problem arose out of our entry into the war in 1917. True, we should have had no occasion for war had there been no European war. But the controversy as to the responsibilities of European Powers for the outbreak of war in 1914 is not pertinent to that other question of why we went to war in 1917. America went into the war on an issue of its own. The casus belli for the United States was unrestrained submarine warfare, behind which lay—in 1917—an apprehension of decisive military and naval successes on the part of the Central Powers imperiling the development of free institutions.

Our declaration of war was followed by the mobilization not only of our man-power but also of our material and financial resources. From the latter we made extensive advances to other nations fighting a common enemy. Thus arose the first phase of the war debt problem. It was at a time when we were straining every effort to hasten our own direct participation in the war. From the record of debates in Congress, it is clear that these advances were not regarded by those who voted them as business

transactions, but rather as joint contributions to a common cause. But even if we did not have these statements, the grants themselves would have been justifiable upon no other ground.

That the borrowers used the credits to help win their own wars is undoubtedly true, but the reason that we loaned them the money was the fact that by so doing they were also helping us to win our war. If this were not so, it would mean that our Government diverted for the use of others vast sums of money and essential war supplies at a time when it was calling upon the country to make every possible sacrifice to maintain its own cause. The credits were freely given because they were to secure for us effective support for our own effort, either directly on the field of battle or indirectly by strengthening the nations associated with us. They would have been justified by no other purpose.

Not all of our war loans were used directly for military purposes. Some of them helped to feed and clothe civilian populations. Some provided permanent improvements useful after the war was over. Some of the loans were made after the armistice was concluded.

In the debt settlements we have made, insufficient account has been taken of those differences. The origin of various items in the debts was ignored. In justice and in reason they should have been considered.

The United States early abandoned the attempt to collect the full amount called for by the original debt contracts. The first formal step toward establishing a new basis of debt calculation was the creation of the Funding Commission by the Act of Congress of Feb. 9 1922. According to this Act, the Allies were to pay all debts in full, but the rates of interest were reduced to 4½%. The very first debt negotiations, those with Great Britain, showed that still further reduction was necessary, and "capacity to pay" became the basis of these subsequent negotiations. This was the formula used in the reparations section of the Versailles Treaty with reference to Germany. At best a vague and difficult formula, it has nevertheless, upon the whole, been applied in a very real effort to reach satisfactory settlements. The Secretary of the Treasury has stated that the cash values cancelled in the settlements with Great Britain, Italy, Belgium and in that offered France, amount to \$5,489,000,000. This means that the United States is now canceling about one-half the aggregate sum represented by the principal and interest of the original debts.

This partial cancellation would be generous to the extreme if the debts had been mere business transactions. It is nevertheless regarded by the debtor nations as not touching the heart of the issue. They hold in mind chiefly those credits which were used to wage war. They contend that they should not in fairness be required to repay advances that were expended for our benefit as well as for their own at a time when money was our only contribution. For over a year after our declaration of war their troops almost alone held the enemy in check. This was the critical period during which Germany, freed on the East, brought the whole weight of its power to break the Western front. During this supreme crisis, if the Allies had spared lives or if we had stinted supplies, our war as well as theirs might have been lost.

No attempt to reopen these pages of history was made in the negotiation of debt settlements. This was chiefly because the Act creating our Debt Funding Commission allowed only limited discretion to that body. Moreover, there is no way to compare the value of supplies with that of lives sacrificed in war.

The points ignored in the official settlements, however, have been all the more accentuated in popular discussion. The controversy has ranged far beyond the question of money. The question of generosity between debtor and creditor has been discussed upon terms of what equivalent, moral or material, has been rendered for the sums advanced. To the minds of our debtors this is the core of the controversy. Sooner or later we shall be compelled to give consideration to this point of view.

But before addressing ourselves to the more vital aspects of the controversy we must call attention to serious defects in the existing settlements.

The Existing Settlements.

The existing settlements rest upon a basis which is itself open to question. The formula, "capacity to pay," which, in the case of ordinary debt adjustments, may be applied, to the possible benefit of both parties, proves difficult if not impossible of just application in the case of debts so vast as to reach over two or three generations. In most of the debt settlements the period agreed upon stretches forward 62 years. The estimates of capacity are, of necessity, based upon the statistics of the pre-war period and those of the abnormal post-war or reconstruction period. Obviously there are no figures for the future.

How impossible it is to estimate the relative economic "capacities" of nations for so long a period will be clear to anyone who looks back over the last 62 years. The steel industry of Germany, now far surpassing that of England, is almost entirely the product of the last half century. Similarly, other basic industries, such as coal, wheat, cotton, rubber, potash, and even gold, are in process of redistribution among the countries of the world. Nations to-day are changing their relative positions even more rapidly than in the past. How, then, can there be any degree of certainty in the estimates of future capacity, upon which this settlement so largely rests? It is surely unjust to fix the burdens of future generations on the basis of guesswork.

This injustice is all the more evident when one compares the various settlements and notes the wide discrepancies in liberality. On a 4½% interest basis France is to pay only 50%, Belgium 54%, of the whole debt (interest included). Great Britain is to pay 82%, while Italy pays only 26%. Whatever justification there may have been for differences in treatment of the various national debts, it is unfortunate that the principle, "capacity to pay," should result in such striking variations as these.

Still more regrettable is the impression which the formula conveys concerning our attitude as creditor. To exact a payment according to the capacity of the debtors seems to imply that the exaction is according to the full capacity to pay. If this basis of settlement had been rigorously applied, it would mean that we were threatening to lower materially the standard of living in Europe by taking tribute of their every possible saving for three generations to come. This is without doubt a wrong interpretation of the attitude of the creditor; but it is a natural, popular interpretation in the debtor countries. The phrase itself, "capacity to pay," rings hard and heartless.

As a matter of fact, it was partly to escape just this kind of international misunderstanding that negotiators dealt primarily with the interest instead of with the principal. The attention of the creditor could be drawn to the full amount of the principal, that of the debtors to the scaled-down interest or lessened annual payments. Unfortunately, debtors and creditor looked at just the opposite items. The result is that dissatisfaction over the terms of the settlement has extended to a misunderstanding of motives. In the case of nations bound so closely and for so long to carry out agreements which seem to them unjust, this dissatisfaction may easily wreck the plans for world order and peace, according to which Europe is rebuilding its shattered economic fabric. Our debt settlements are part and parcel of a whole network of settlements between the other Powers. It is clear that

the whole matter should be re-examined on a basis, not of immediate expediency but of justice and of generous intention, that would give no reasonable ground for misunderstanding.

Before proceeding with the proposal for a revision of the debt policy let us see what are the economic effects of the present agreements. The political and moral issues are, as we have seen, of the greatest importance. But it will come as a surprise to many to find that the material interests involved, so far as we are concerned, are relatively small.

1. Our scheduled annual receipts from debt payments during the next four years will be less than 5% of either the present annual commodity imports or the present annual commodity exports of the United States. This percentage is smaller than the year-to-year fluctuations which have actually occurred in either exports or imports since the war.

2. The scheduled annual payments for the next few years will constitute, it is estimated, less than 1/3 of 1% of our annual national income. Even the increased payments called for in later years will not exceed 1/2 of 1% of the probable national income.

3. The scheduled annual debt payments will make much less difference in the American tax bill than is generally supposed. The payments due in the next four years amount to less than \$2 annually for each person in this country. They amount to less than 10% of the estimated yield of the Federal income tax of 1927; and if applied entirely to a reduction in the personal income tax rate, they would make a difference of only \$2 a year to a typical income taxpayer with net income of \$5,000 a year. The latest tabulation shows that in 1924 90% of the Federal income taxpayers paid on net incomes of less than \$5,000.

4. Fulfillment of the debt agreements necessarily imposes on European debtors hardships much greater than the benefits that accrue to America. Great Britain, France, Italy and other European countries are already bearing burdens which strain their courage and strength. Taxation, in proportion to income and population, is between two and three times heavier in England, France and Italy than it is in the United States. Payments that could at best mean a paltry gain for most American taxpayers mean to the overtaxed debtors a crushing load.

A New Basis Possible.

We must substitute for the unfair and inappropriate principle of capacity to pay a full and frank reconsideration of the debt and reparations problems, in an international conference to which all the countries concerned shall send representatives. To this conference the representatives of the United States should go, not with rigid instructions, like those hampering our Debt Commission, but with directions to determine what settlement compatible with the demands of justice would seem best calculated to promote the future peace and prosperity of the world. This is a joint enterprise. It calls for similar action by other nations and affects all international monetary operations directly caused by the war.

We realize that this statement has touched upon only a few of the many aspects of this complex question. We have said nothing about the legality of our claims to full payment. That is conceded by all of the debtor nations. We have passed over the fact that while the advances were made by the United States Government the means required were secured by issues of bonds to our own citizens, which bonds must be paid with interest whether or not the debtor nations make repayment. But to the extent that these advances were used by our associates to prosecute the war to our incalculable advantage, they seem to us like other war expenses, financed through bond issues rather than through revenues from taxation. We have said nothing of the special reason for moderation in our claims for repayment from Great Britain growing out of the loans she was making to our continental associates, also mainly to permit a more vigorous prosecution of the war, nor of her declared willingness to forego repayment from them in exact proportion to the extent that we relax our demand for repayment from herself. This aspect must be given due weight in any international debt conference. Finally, we have not attempted to estimate the gains made by our associates, territorial and other, through the Peace Treaty. Their losses were incomparably greater than ours. They have come out of the war crippled and impoverished. No sober-minded economist would think of claiming that their gains would offset more than a fraction of their losses, or that, should we cancel all the debts due us, their economic position would be raised to anything approaching ours.

There is one aspect of the question, however, that must not be ignored. Can any thoughtful American view with indifference the growing odium with which his country is coming to be regarded by our European associates? This would be distressing whatever the occasion, but when from the European point of view there is convincing justification for their unfavorable estimate of us, should we not welcome a chance to talk out our differences around a conference table? Evidence is accumulating week by week that our insistence on debt payment will cause the hatreds of which European countries are finding means to allay among themselves to be concentrated squarely against us. Already international trusts are being organized to compete with our industries in neutral markets. Already it is being pointed out that the reparations payments which threaten to hold Germany in financial bondage for two or three generations are necessary to permit the Allies to pay their war debts to us. A coalition of Europe against the United States might prove a good thing for Europe. Can any one believe that it would be a good thing for the United States? Thus the demands of justice are reinforced by the dictates of political expediency and the counsels of economic self-interest in urging us to meet halfway the countries of Europe in the International Debt and Reparations Conference which we here propose.

Senator Smoot Characterizes Proposal of Professors of Columbia University for Review of War Debt Payments as Absurdity.

A statement in which he declares that "the publicity efforts of the Professors of Economics at Columbia in connection with the settlement of the war debts contains assumptions which should have correction," was issued on Dec. 22 by Senator Smoot, of Utah, a member of the World War Foreign Debt Commission. The appeal by the Columbia professors for a review of the war debt payments is referred to elsewhere in this issue. Senator Smoot in characterizing the whole proposition as "an absurdity," says "if it means anything it means complete cancellation. It seems disingenuous to state the professors are against cancellation and still urge a method of settlement of the question which inevitably means cancellation."

Senator Smoot's statement follows:

The publicity efforts of the Professors of Economics at Columbia in connection with the settlement of the war debts contains assumptions which should have correction.

1. It is assumed by the Columbia professors that capacity to pay, as employed by the Debt Commission, meant the highest amount which could be collected from the debtor nation by complete exhaustion of the debtor's resources. As a matter of fact, capacity to pay in the conception of the Commission represented the ability of the debtor nation to pay, taking into consideration all its external and internal obligations and the continued full development of its national life.

France's debt agreements with America and England represent only half of what it expects to receive from Germany. Italy has set up a fund into which are paid German reparations and out of which can be paid the British and American debts. The pre-armistice Belgium payments are fixed at less than the receipts from Germany on this same account.

The debt settlements, particularly in the earlier years, do not interfere with the economic life of the Continental nations. It is claimed too heavy a burden was imposed upon England. The settlement of the American debt was a material factor in the stabilization of the British currency.

It is significant that by bringing sterling exchange to parity England, in paying its adverse international trade balances, saves each year much more than the annuity on the American debt. It has also been stated that England has lost more through the coal strike than the entire American debt. These examples simply illustrate the relative financial importance of the settlements, but for some reason every attack on the Debt Commission finds it necessary to exaggerate the actual financial burden imposed on the debtors.

2. It is assumed that the Debt Commission was bound by limitations set by Congress. The Debt Commission was given the power, without returning to Congress, to make settlements on a 4 1/4 % 25-year basis.

No settlements were made on that basis, but in each case the Commission negotiated an agreement which it and the representatives of the debtor thought fair, and that particular agreement was approved by Congress. In no case were the limitations in the statute a restriction on negotiations. There was the utmost flexibility.

3. It is assumed that generosity did not enter into the negotiations of the Commission. It certainly was very lenient, totally, and it cannot be condemned as harsh to France when there is imposed no greater burden on that nation than the collection of the post-armistice indebtedness at 5% interest.

The figures show that in the treatment of our half dozen or so relief debtors England imposed a much heavier relative burden than did America in settling for loans made by England at the same time to the same debtors and for the same purposes.

French papers admit the Franco-British settlement, all things considered, is much more burdensome than the Franco-American settlement. No test of generosity is set up by the Columbia professors, but it is just assumed America was ungenerous.

4. The Columbia professors complain because all debtors are not treated on an equality. They speak of a settlement of 80% present value with Great Britain and 26% present value with Italy. Do they propose to correct this want of equality by raising the Italian settlement to that of the British, which, of course, would impose a burden impossible of performance by Italy, or do they propose that the British be reduced to 50% and the Italian raised to 50%, which would make an easy settlement for Great Britain and still an impossible settlement for Italy, or do they propose that the British settlement shall be brought down to the Italian 26%, thus imposing no real burden on England at all.

If the last is their proposition, then why can not Italy say its 26% should be reduced to zero because we are collecting nothing from another debtor, as, for instance, Armenia.

The whole proposition is an absurdity. If it means anything it means complete cancellation. It seems disingenuous to state the professors are against cancellation and still urge a method of settlement of the question which inevitably means cancellation.

5. As their suggestion is understood, it is proposed that the United States go into a joint conference to fix the amount of these debts upon the standard of "equality" and "generosity."

They do not state at whose expense generosity is to take place. Of course, not of Columbia University, which enjoys the privilege of exemption from taxation and therefore would feel not at all any cancellation of debts. The whole proposition of the Columbia professors amounts to a proposed conference between ourselves, a minority of one, and our debtors, all the rest of the proposed conferees. The debtors are to fix how much, if any, of their debts they wish to pay. The standards of "equality" and "generosity" will be applied by the debtors.

6. Like so many good-intentioned people, the Columbia professors, instead of accomplishing the benefits which they seek to confer, are actually doing harm to those they say they would help. What Europe needs is certainty. The French can without question pay the earlier years of the debt settlement, and, with a return of economic stability, the later years surely also can be met. What they need is some certainty in their fiscal affairs, which they can only obtain if they make definite the obligations which they have to meet.

The pronouncement of the Columbia professors is, as was to be expected, now being used to strengthen the opposition in France to a ratification of the Mellon-Berenger agreement and therefore has become an active factor in the maintenance of the very uncertainty from which all Europe is trying desperately to rid itself. The Columbia professors permit their idealism to seek publicity just at this time to the embarrassment of M. Poincare in the difficult task which lies before him.

Criticism in Washington of War Debt Proposals of Columbia Faculty—President Coolidge and Treasury Heads Opposed to Move.

Criticism from members of Congress has been leveled at the proposals of the Columbia professors for a review of the Allied war debt settlements, and regret is said to have been indicated by President Coolidge and Treasury heads at the action of the professors—the President, it is stated, feeling that the appeal will not be helpful at this time with the French debt agreement pending in Congress, and in the French Parliament. The New York "Times" in a Washington dispatch, Dec. 21, thus referring to the President's attitude, further stated:

While the President permitted it to become known to-day through his spokesman that he had not read the statement published on Sunday with any great care, it was stated that he understood its general tenor. This country, he told callers to-day, is trying to work out a situation that will be helpful not only to the debtor nations but to the United States.

President Coolidge's attitude, it was said to-day at the White House, has not changed in any respect on the payment of war debts, despite the increasing movement for reduction or cancellation manifested in different quarters and which the Administration expects to continue with some persistence. He has defined his position in many messages and addresses, and according to White House authorities these still express his exact present position.

His expressed policy has been for payment of the debts according to the ability of each nation to pay. That is still his policy, but some of his advisers are of the opinion that sentiment in this country may finally turn to radical reduction, or perhaps cancellation.

Sentiment Must Change First.

According to one of the most important Administration advisers, reduction or cancellation will never come unless public sentiment favors it, and, in his opinion, public sentiment will not so form unless it is apparent that the enforced payment of the debts may injure American trade.

In his annual message to Congress on Dec. 6 1923, the President said: "Our country would not wish to assume the role of an oppressive creditor, but would maintain the principle that financial obligations between nations are likewise moral obligations which international faith and honor require should be discharged."

Other messages and addresses declared substantially the same thing. In his address before the United States Chamber of Commerce in Oct. 1924, he said:

We are opposed to the cancellation of the debts due to use from abroad and shall continue to seek their further liquidation. Now, does not this present a consistent, practical and effective foreign policy based on common sense? No other sound and practical policy has been presented. In its pursuance we have maintained our ancient traditions; we have provided a plan and furnished finances for a European settlement; and we propose to continue our efforts to promote international justice under international law.

The following regarding the reception accorded the proposals in Washington is from the Washington correspondent of the "Journal of Commerce" under date of Dec. 20:

Official Washington to-day reviewed with extreme coldness the suggestion made by the 42 scholars and men of affairs composing the faculty of political science of Columbia University that a new basis be sought for the settlement of foreign debts to the United States. Without regard to political views members of the Senate and House protested that the United States had proven a most considerate creditor and that it was regrettable under existing circumstances that the pronouncement of these educators should come at this time. Treasury officials joined with the members in their denunciation of this move.

In view of the political difficulties that the French Government is encountering over ratification of the Mellon-Berenger agreement, high Treasury officials believe that it was indefensible for Columbia University's political science faculty to bring forward their recommendation at this time.

Recommendations Scored.

Treasury officials characterize the recommendation as theory useful only as political capital. Under the faculty's plan the United States would be turning the matter of foreign debt payments over to the debtors, they declared. The faculty's statement is misleading, officials believe, in that an impression is given that the United States is pushing its debtors to their utmost capacity to pay, whereas in reality the Debt Commission has been lenient in its determination of each country's capacity, and in no instance has the utmost capacity been used as a basis.

"It is extremely unfortunate that action of that character should be taken by such learned men as the professors and others of Columbia University," declared Representative Theodore F. Burton of Ohio, a member of the United States World War Foreign Debt Commission, who worked hard during the pendency of the debt settlements to protect them in the House.

"The general disposition in Europe is to pay these debts, particularly in view of the fact that we have scaled them down one half, but every expression of this character, repeated abroad, raises hope among the debtor nations that they will be relieved entirely of payment of their obligations. Of course, no one desires to pay a debt if he can be relieved therefrom. The disposition, which I believe otherwise is to settle the debts on the terms we made, is very much influenced by these expressions. I regard it as very unfortunate that the Columbia University faculty should take this step."

Understanding Inaccurate.

"In many instances the statements that go out are made on the basis of a very inaccurate understanding of the facts. People oftentimes do not realize that in the case of at least one-half of the debtor nations (not one-half of the amount of the indebtedness) advances were made after the signing of the armistice and were not for any prosecution of the war. Statements are often made with a great deal of superficiality."

Democratic Floor Leader Representative Finis J. Garrett of Tennessee declared he doubted whether any such conference as that proposed should be called at this time, or if called, whether it could accomplish any good purpose.

Representative James A. Frear, Progressive Republican of Wisconsin, former member of the Ways and Means Committee, declared that the conference could not accomplish anything.

"We scaled down the debts and then the Europeans are ready to go to war again," he asserted. "We would have to pay off \$19,000,000,000 of public debt before we find ourselves free of indebtedness growing out of the war."

Representative Willis J. Hawley, Republican, of Oregon, senior Republican member of the Ways and Means Committee, declared himself opposed to disturbing the settlements already made.

"We have made very considerable concessions to our former allies and associated nations and we share only incidentally in the reparation payments. In the settlements following the war we asked for and received no concessions of territory and we get no reparation payments asked of Germany by the other countries which obtained advantages to the extent of billions of dollars."

One of those who has endorsed the action of the Columbia professors is Representative A. Piatt Andrew (Republican), who in part said:

"This pronouncement from Columbia represents the growing conviction of the best informed and most disinterested people in America. Many of the leading scholars of Harvard, Princeton and other universities have expressed much the same thought. Many of our leading churchmen, regardless of denomination, think along similar lines. If a poll were taken of the most highly regarded members of the American Legion—let us say of the Legion's past National Commanders, it would show that they sympathize with the general idea that sooner or later there must and will be a revision of the debt settlements."

London View of Debt Proposals of Columbia University Professors.

London newspapers took the debt proposal of the Columbia professors with much seriousness, according to a special London dispatch to the New York "Evening Post" on Dec. 21. The correspondent said briefly:

The memorandum of Columbia professors on the war debts created nearly as much editorial comment in the London newspapers this morning as though it had been signed by President Coolidge himself. The "Daily Telegraph" devotes more than a column leader to it and the "Times" gives it even longer examination. The "Manchester Guardian" also speaks its mind to the extent of a column, while the "Daily News" and the "Westminster Gazette" give it hearty but less discursive acknowledgment. The first effect of the memorandum thus has been to revise the debt issue in European minds and set people on this side of the ocean to thinking considerably harder than the Americans to whom it was addressed. Every one emphasizes that this time it is Americans that have started the argument, and with this excuse the occasion is used to the utmost to state the European case again.

Walker D. Hines to Head Cotton Textile Institute, Inc.

The Executive Committee of the Cotton Textile Institute, Inc., announced on Dec. 20 the appointment of Walker D. Hines of New York as President of the Institute. Mr. Hines's acceptance is effective at once, but some months will elapse before he can arrange his affairs so as to devote to the organization all the time the work demands. The selection of Mr. Hines for this office was the result of a widespread canvass to secure the services of a man of broad vision, constructive achievement and enthusiasm for the work which the Cotton Textile Institute has undertaken. The nation-wide outlook which Mr. Hines obtained as Director-General of Railroads, his experience in composing differences between European countries after the war and the varied character of his law practice and railroad affiliations, both before and since the war, have all contributed to his qualifications for this undertaking. Mr. Hines authorized the following:

I have been profoundly impressed by the objects of the Cotton Textile Institute and by its promise of opportunities for constructive effort. The laws affecting co-operative action by business interests leave available many methods for useful and helpful collaboration which will not only aid the cotton mill industry itself, but will promote the interests of all classes of the public affected by the prosperity of that industry, and the Institute's work is to be along these wholesome lines.

The Institute is formed to promote the progress and development of the cotton industry through studying the manufacture and marketing of cotton products and informing the trade and the public as to the results, and through collecting and disseminating trade and manufacturing statistics bearing on the expansion of domestic and foreign markets, the development of new uses of cotton and its products, and improved methods of manufacture and distribution. Legislative and political questions are excluded from the activities of the Institute.

Necessarily it will take time for me to familiarize myself with the varied phases of this many-sided industry and any outline of specific policies at this time would be premature, beyond saying that it will be my purpose as rapidly as possible to get in touch with the cotton mill owners and with the representatives of the interests with which the mill owners do business, and in this way to equip myself with the knowledge and perspective which will enable me to be of service.

I have received from the Executive Committee of the Institute the most cordial assurances of the confidence and support of the members, and I hope to be able to justify that confidence and support as well as the confidence and aid of the cotton growers and of those who handle the manufactured products.

The selection of Mr. Hines as President completes the personnel of the officers of the Cotton Textile Institute. The other officers serving with Mr. Hines, and who were elected at the annual meeting on Oct. 20 1926, are Stuart W. Cramer, of Cramerton, N. C., Vice-President; Robert Amory, of Boston, Vice-President; Gerrish H. Milliken, of New York, Treasurer, and George A. Sloan, of New York, Secretary. The offices of the Institute (opened in October) will remain at 320 Broadway, New York. From a biographical sketch of Mr. Hines we take the following:

Mr. Hines was born in Russellville, Ky., Feb. 2 1870. He was graduated at Ogden College in 1888 with the degree of Bachelor of Science.

He studied law at the University of Virginia, getting the degree of Bachelor of Laws in 1893. He then returned to the Law Department of the Louisville & Nashville Railroad Co. first as Assistant Attorney and then as Assistant Chief Attorney until 1901, when he became First Vice-President of that company with jurisdiction over the Law and Traffic departments.

In 1904 he entered the general law practice as member of the firm of Humphrey, Hines & Humphrey at Louisville. In 1906 he came to New York as General Counsel of the Atchafalaya Topeka & Santa Fe Railway Co. and also engaged in the general law practice, becoming a little later a member of the firm of Cravath, Henderson and De Gersdorff. For eight years he was also Chairman of the Executive Committee of the Santa Fe System, and in 1916 retired from the general law practice to devote his entire time to the affairs of that Company as Chairman of the board of directors.

When the Government took war control of the railroads, Mr. Hines was immediately requested to assist Mr. McAdoo in organizing the Railroad Administration, and became Assistant Director-General of Railroads. He was appointed Director-General of Railroads Jan. 10 1919 and held that position until after the railroads were returned to private control on May 15 1920.

The peace treaties had provided that numerous important and difficult questions as to allocation of river shipping on the international rivers of Europe as between the Allied countries and the ex-enemy countries should be decided by an arbitrator designated by the United States. President Wilson designated Mr. Hines as such arbitrator and this designation was confirmed by the Conference of Ambassadors.

Mr. Hines assumed these duties in June 1920, residing in Paris until October 1921, and for a large part of that time having also a branch office in Vienna. He rendered various decisions on these questions as between France and Germany, Czechoslovakia and Germany, Poland and Germany, and as between Czechoslovakia, Yugoslavia and Rumania on the one hand and Germany, Austria and Hungary on the other hand. All of his decisions were accepted and put into operation by the countries affected.

In October 1921 Mr. Hines returned to New York and since that time has been in the general law practice at 24 Broad Street. He has been Eastern Counsel of the Great Northern Railway Company, and has also represented various other clients in matters of corporate and transportation law. In 1925 the League of Nations requested him to make an investigation of conditions of navigation on the Danube and Rhine, and he devoted his vacation that year to make this study, with the aid of Major Brehon Somervell of the United States Army, who acted as his assistant. The report on this subject was submitted to the League of Nations in August 1925.

He is a member of the board of directors and of the Executive Committee of the Chicago Burlington & Quincy Railroad Co. and of the board of directors of the Colorado & Southern Railway Co. He is a member of the Executive Committee and Chairman of the Finance Committee of the Association of the Bar of the City of New York and is President of the New York Economic Club. He is also a trustee of the Frick art collection.

The French Government has conferred on him the decoration "Commandeur de la Legion d'Honneur." The Kingdom of the Serbs, Croats and Slovenes has conferred on him the decoration "White Eagle, First Class." He is author of numerous pamphlets and articles on Governmental and railroad problems, and, since the war, on international affairs.

Items regarding the Cotton Textile Institute, Inc. appeared in our issues of July 24, pages 398 and 410; July 31, page 527; Aug. 7, page 654, and Dec. 11, page 2990.

National Corn Growers' Association Asks That Secretary Jardine Be Replaced by Some One With Practical Training.

Aggrieved by what they termed lack of sympathy for agriculture in Secretary Jardine, delegates at the annual convention of the National Corn Growers' Association in Des Moines Dec. 14 adopted a resolution demanding the replacement of Jardine in the Department of Agriculture with a man more friendly to growers of "food and fibers." The Des Moines "Register," from which we take the foregoing, further says:

The resolution which was forwarded to Washington reads as follows:

"Believing that the Department of Agriculture was established to improve the condition of the man who produces food products and to represent him as his spokesman for such legislation as the farmer considers helpful to his cause, we believe that the present Secretary of Agriculture should be replaced by some man whose practical training qualifies him to represent that section of the nation that produces 75% of the nation's food."

Support Is Pledged.

The resolution also pledged the organization's support to the farm legislative committee now active in Washington, and extends sympathy to the cotton and tobacco growers, inviting them to assist in gaining suitable farm relief legislation.

C. H. Richeson, Webster City, Iowa, was re-elected President.

Behind the adoption of the Jardine ouster resolution, Richeson explained last night, is the conviction of American agricultural men that the Secretary is not only unsympathetic but actually hostile to the interests of farmers.

"This request for the replacement of Jardine by a true farm man," said Richeson, "is not merely local; it is a desire of national scope to which Mr. Coolidge should give heed."

The association demanded also action toward the re-establishment of the Warehousing Act, so as to obtain the full benefit of intermediate credit aid.

Resolution Is Adopted.

Richeson urged also the expansion of the farmers' power by organization of a national federation of all farm clubs, aimed both to force the enactment of farm legislation and to empower farmers to stabilize the price of corn and other products independently if Congress fails to pass such legislation. The following resolution also was adopted:

"Whereas, The economic condition of the corn belt farmer is still trending toward a more unfavorable comparative position with those engaged in industrial pursuits, and realizing that this organization was created by the corn belt farmers in an effort to gain an equality with organized industry,

"We demand from our Representatives in Congress a recognition of our serious condition and a singleness of purpose centering on legislative measures, honestly conceived, looking toward equality for the producers of food and fibers in the United States. We ask at this time that they place 'farm equality' legislation above party loyalty or personal ambition."

Jones Bill Reducing Number of Cotton Estimate Reports Favorably Reported to House.

On Dec. 21 the bill introduced by Representative Jones, of Texas, reducing to four the number of cotton estimate reports issued by the Department of Agriculture, was ordered favorably reported by the House Committee on Agriculture. At the present time eleven such reports are issued. On the same date also (Dec. 21) an amendment to the agricultural appropriations bill (offered by Representative Buchanan of Texas), was adopted by the House, under which it is proposed to reduce the number of semi-monthly cotton reports from 11 to 8. This change, it is learned from the New York "Journal of Commerce" has the concurrence of the Department of Agriculture, but was only adopted by the House after a spirited fight led by Representative Rankin of Mississippi in opposition. The same account stated:

The debate also ranged around the Jones bill, reported from the House Agricultural Committee, abolishing all reports save four in number, and issued on the first days of September, October, November and December. There is considerable opposition to the Jones proposal, the debate developed.

Favors Mid-Month Reports.

In presenting the amendment Mr. Buchanan said that he opposed abolishing the mid-month reports for September and October because they were critical periods in cotton production. In opposing any change in the reporting system, Mr. Rankin declared it was playing into the hands of the cotton exchanges, and if carried out the producer would be at the mercy of the speculators. As it is, he said, the mid-month reports registering the changes in crop conditions gave the producer the benefit of them as they are occurring, and do not leave all of the information with the speculator alone. Mr. Rankin referred to the 1923 crop, when the boll weevil cut production by 25%, as a situation that semi-monthly reports benefited. He said the members were being stampeded by propaganda.

The Buchanan proposal abolishes the semi-monthly cotton reports made on July 15, Aug. 15 and Nov. 15. In quoting what Representative Rankin had to say in opposition to the proposed change, the "United States Daily" said:

I rise in opposition to the amendment. I realize that it is much easier, and politically much safer, to fall in line and join the stampede of the men and the organizations that are now clamoring for the abolition of the reports on the production of cotton.

This amendment by all means ought not to be adopted. Another bill is coming before the House in a short time that involves the abolition of all the reports during the months of July and August by the Department of Agriculture. Not only that, but the bill that is to come before the House proposes to abolish all the reports except one a month, beginning the 1st of September and running up to the 1st of December.

This is a bill that the cotton exchanges—and I say this, gentlemen, with all deference to the men who differ from me on this proposition—this is what the cotton exchanges have been after for the last three years, and they virtually demanded it when this bill was originally put into effect.

Let us see just what this means. Because we have made a big crop of cotton everybody is dissatisfied. The price has gone down below the cost of production and they seem to want to vent their spleen against the Crop Reporting Board or against these crop reports.

First they come in with a bill to abolish all of them. This is the more logical of the two positions. It would be more logical to abolish them all than it would to garble them up in the manner proposed either by this amendment or the bill reported by the Committee on Agriculture. They say that they want to abolish these reports in July and August and the other bill provides for that.

The other bill abolishes all reports in July and August; and what do you do? You absolutely upbraid the cotton producers, so far as the reports are concerned, at the mercy of the cotton speculators who have their own reporters in the field to gather information during the months of July and August when the crop is undergoing those violent changes that affect that crop more than any other changes that take place until the killing frosts.

Asks Time for Debate.

I cannot support this amendment and I trust gentlemen on the other side of the House who have been so particular about their prerogatives will not put this amendment in the law, but let it come in the regular course of legislation. Let it be investigated by the committee and give us time in the floor to debate it.

Do not let us be stampeded in adopting an amendment that will be a sad mistake as far as the cotton growers are concerned. They are the ones interested. I am not going to be stampeded. When the time comes that I have to be stampeded by every wave of propaganda that sweeps over the country I am going to withdraw.

I am willing to go back and take the verdict of the cotton growers, the men who hold the plow, for I know it will do them an injury that will not be overcome during the life of the present Representatives in this Congress.

The report of the House Committee on Agriculture, presented by Representative Jones, follows:

The Committee on Agriculture, to whom was referred the bill (H. R. 15539) to make certain changes in the reports of the Department of Agriculture in reference to cotton production and to make certain additional reports in reference to grades and staples, having considered the same, report thereon the recommendation that the measure be passed.

Under the present law the Department of Agriculture issues semi-monthly reports beginning with July and ending with December of each year and giving the department's estimate of the number of bales of cotton that will be produced during the current crop year. During this period of time 11 of such estimates are published.

Under the terms of the proposed bill these estimates will be reduced to four, these to be issued as of Sept. 1, Oct. 1, Nov. 1, and December 1, and to be made public simultaneously with the ginning reports.

It is thought that for a few days prior to the issuance of these reports there is a tendency toward a slackening of trade and a consequent depression of the market. It is also thought by many of those interested that there is a tendency toward an upsetting of the market immediately following such reports, and the Committee therefore recommends that the number of these reports be reduced from 11 to the number provided in the proposed measure.

The Committee is of the opinion that, in view of the fact that private estimates are made as to cotton production, it would not be wise to abolish these reports entirely.

The measure also provides for a report on the grades and staples of the cotton on hand in the warehouses and cotton storage places, and which is sometimes referred to as the "carry over," and also a report on the grades and staples of cotton production.

There are 10 tenderable grades of cotton. A considerable portion of cotton production is not of a tenderable character. Some of it, due to weather, conditions, exposure, &c., especially the latter part of the crop, is below the tenderable grade. There is also some production of the extra long staple which is not regarded as tenderable because its value is too great for its use in that connection. All of this cotton, however, without regard to grade or staple, is included in the carry over, and only the total figures are known. Naturally this affects the market adversely. By having reports as to the grades and staples of this cotton the amount of cotton which should affect the market would be shown.

The report of the Secretary of Agriculture on this matter is herewith submitted and made a part of the report.

The letter of Secretary Jardine, which accompanied the report, and which we hope to give another week, questioned the advisability of abolishing the mid-month reports during September and October.

Change is Planned in Cotton Futures Act to Aid South—Senator Ransdell Would Put New Orleans Contract on Par with New York and Chicago.

Enactment of legislation to place the contract of the New Orleans Cotton Exchange on a parity with that of New York and Chicago will be pushed by Senator Ransdell of Louisiana immediately upon reconvening of Congress after the close of the holidays, according to Washington advices to the "Journal of Commerce" from Washington, Dec. 23. The account also says:

The Louisiana Senator wants Congress to remove from section 6 of the Cotton Futures Act the following language:

"In the market where the future transaction involved occurs, and is consummated, if such market be a bona fide spot market; and in the event there be no bona fide spot market at or in the place in which such future transaction occurs, then, and in that case, the said differences above or below the contract price which the receiver shall pay for cotton above or below the basis grade shall be determined by the average actual commercial differences in values thereof, upon the sixth business day prior to the day fixed, in connection with the sixth sub-division of section 5, for the delivery of cotton on the contract."

Text of New Section.

Should Congress adopt this suggestion, section 6 would read as follows

That for the purposes of section 5 of this act the differences above or below the contract price which the receiver shall pay for cotton of grades above or below the basis grade in the settlement of a contract of sale for the future delivery of cotton shall be determined by the actual commercial differences in value thereof upon the sixth business day prior to the day fixed in accordance with the sixth subdivision of section 5, for the delivery of cotton on the contract, established by the sale of spot cotton in the spot markets of not less than five places designated for the purpose from time to time by the Secretary of Agriculture, as such values were established by the sales of spot cotton. In such designated five or more markets: Provided, that for the purpose of this section such values in the said spot markets be based upon standards for grades of cotton established by the Secretary of Agriculture: And provided further that whenever the value of one grade is to be determined from the sale or sales of spot cotton of another grade or grades, such value shall be fixed in accordance with rules and regulations which shall be prescribed for the purpose by the Secretary of Agriculture.

"When the Cotton Futures Act was passed in 1916 there were only two future exchanges, New York and New Orleans," explained Senator Ransdell. "The Chicago Board of Trade has only recently added cotton to the commodities dealt in on the floor of that institution, and was not considered at the time the cotton futures legislation was enacted."

"Of the two exchanges that the Cotton Futures Act was intended to reach there was this essential difference between them—the New York exchange dealt in little or no spot cotton, which was one of the principal complaints responsible for the law, while, on the other hand, New Orleans was one of the principal spot cotton markets in the South, as well as being a future market."

Explains Purpose of Act.

"In order to meet this situation it was provided in section 6 of the Cotton Futures Act that 'future contracts should be determined by the actual commercial differences established by the sale of spot cotton in the market where the future transaction occurred, when such market be a bona fide spot market.' That plainly covered the New Orleans future contract."

"In the case of New York, which was not designated as a spot market, section 6 went on to say: 'In the event there be no bona fide spot market at or in the place in which such future transaction occurs, then the settlement should be determined by the average actual commercial differences in the spot markets of not less than five places designated for the purpose from time to time by the Secretary of Agriculture.'"

"The Secretary of Agriculture in Regulation 14, issued to accompany the Cotton Futures Act, has designated ten of the principal cotton centers in the South for the purpose of determining, as provided in section 6 of the Act, the differences above or below the contract price which the receiver shall pay for grades other than the basis grade tendered or delivered in settlement of section 5 of the contract."

"Whether there is any basis for the contention or not, many traders have held that there is less chance for manipulation in the contract based on the average differences in the ten spot markets than there is in one spot market and for that reason some traders have preferred the New York and Chicago contracts to that of New Orleans."

"The trade extension committee of the New Orleans Cotton Exchange, after carefully considering these criticisms, has decided to have the New Orleans contract in this regard made identical with that of New York and Chicago."

Death of Joseph Newburger, Memphis Cotton Dealer.

Joseph Newburger, of Memphis, well known in cotton circles here and abroad, died in New York, at the Ritz-Carlton Hotel, on Dec. 17. His death was due to an attack of heart disease and pneumonia which developed after his arrival in this city on Dec. 16 on a business trip. The Memphis "Commercial-Appeal" describes Mr. Newburger as

principal owner of the Federal Compress and Warehouse Corp., the biggest cotton storage concern in the world, President of the Newburger Cotton Co., head of the Memphis Packing Corp. and one of the most widely known philanthropists of that section. As to his further connections it says:

He was a partner in Silvan Newburger & Co. of New Orleans, dealers in future and spot cotton; partner in J. & S. Newburger & Co., Fall River, Mass., cotton brokers; partner in J. C. Doyle & Co., farm and timber dealers.

He was a member of the New York, New Orleans and Memphis Cotton Exchanges and an associate member of the Liverpool, England, Cotton Exchange. He was owner of the Newburger Linter Co. and also the Halleybury Frontier Mining Co.

Mr. Newburger was born in Coffeerville, Miss., on June 12 1858.

Members of New York Cotton Exchange Refer to Board of Managers Proposal to Reduce Brokerage Fees.

Members of the New York Cotton Exchange, at a meeting on Dec. 17, referred back to the board of managers a proposed amendment to Section 57 of the by-laws, reducing the fees on floor brokerage and clearance and devoting the moneys derived from the fees to employes' pension fund and a fund for building alterations and improvements. A majority of the members favored the general proposition of reducing the fees, but desired to vote separately on the purposes for which it is proposed to use the moneys from the fees. The amendment will be changed to conform with the wishes of the members, according to President Samuel T. Hubbard, Jr., and will again be submitted to a vote.

Annual Report of New Orleans Cotton Exchange—Successful Marketing of Cotton Crop—Relief Urged From Semi-Monthly Crop Estimates.

The harm resulting from the Government's semi-monthly crop estimates, in forecasting the season's supply prior to maturity and picking, is referred to in the annual report of the New Orleans Cotton Exchange. The report says that "in so far as the Government is concerned, the cotton interests of the South need more business in legislation, and less legislation in business. We need the Government's assistance in the interest of fair and expeditious dealing, but should be relieved of interference, which forecasts production, which should be permitted to progress as nearly as possible hand in hand with the eventualities of consumption." The following is also taken from the report:

Not only has the South been successful in marketing the greatest crop ever grown, but as this report closes we are faced with a still greater production for 1926-27, exceeding in extent wildest anticipations. The Government crop reporting agency has from month to month put forth varying estimates of growth until it has made a last prediction of 18,399,000 bales of lint cotton, with 12,954,000 bales ginned to Nov. 14, pointing to a possibility of 5,445,000 yet to be ginned, meaning a possible growth including linters of 19,500,000 bales. Practically the Government, through its estimates has thrown the weight of the entire crop on the market before much of it has been picked and ginned. The effect at the outset was to stampede many growers producing a semi-panic which has only been offset by sober second thought but not until values had sagged 6.52 cents a pound or nearly \$33 a bale. As the Crop Reporting Board has obeyed the law, its obedience, which has been honestly and conscientiously rendered, has cost the South untold millions of dollars. The blame therefore lies upon the law and there can be a recurrence in another season unless an Act is passed by Congress amending or repealing the law. For several years past this exchange through vigorous representations by President Hayne, and previously by President Butler, has strenuously advocated relief from Government semi-monthly crop estimates, pointing out the harm they were doing in forecasting the season's supply prior to maturity and picking, interfering with the natural laws of trade by creating doubt and uncertainty and spreading with governmental sanction "information" of a more or less uncertain character, useful only as a weapon for use at home and abroad by others whose interests might or might not be inimical to the producers of the South's great staple. Singular to relate, the advocates of the law and opponents of amendments were representatives of the producers. They honestly believed and claimed that in the interest of the cotton grower we could not have too much information and in this they were in a measure correct; but they overlooked the fact that forecasts are not information and further that, no matter how correct, such forecasts were like a two-edged sword cutting both ways; first by their immediate influence born of a general belief, right or wrong, in Government infallibility (?) and subsequently by the later actual movement of the crop whether large or small. Perhaps one of the worst features of these semi-monthly forecasts is their one-sidedness. They broadcast to the world the season's prospective supply but they do not and cannot tell how much of it may or may not be needed for the world's wants. Even were such forecasts absolutely correct, they would make public the books of the producers while the records of the consumer remained a sealed chapter. These are surface indications; but the actual truths are that while it may be possible to put forth advance approximations of supply subject to usual influences of weather, temperature, &c., during the growing and picking season, the numerous world-wide influences affecting consumption are such that it is shrouded with uncertainty throughout most of the entire twelve months.

This year we are reasonably certain that the Government's estimates of exceeding 18,000,000 bales lint, plus 1,000,000 linters, may be disposed of in the usual channels of trade. At current values or up to and around 15 cents, it is not impossible in the estimation of Col. Hester, whose statement of the situation was put forth in October by request of this board,

that exports may reach or exceed 11,000,000 bales and that, including linters, American consuming establishments may take 8,000,000. Whether or not it is well to retain 3,000,000 or 4,000,000 bales in this country, shifting the burden of its disposition to another or later season, may or may not prove advisable. Whether or not it is best to meet the demand at home and abroad for our cheap cotton, "clearing the decks" for the next crop, which doubtless will be smaller by reason of forced acreage reduction, thus transferring the burden of this year's excess as much as possible to foreign centres.

Be that as it may, the situation is now well in hand and the panicky conditions which prevailed at the outset have abated. The crop is moving out rapidly, restricted only by temporary lack of shipping, of which there is promise of early remedy.

Meanwhile, the South is facing a situation natural to growth in prosperity. Modern methods applied to manufacturing, mining and other wealth-producing sources bringing to the Cotton States annually many times the value of the cotton crop. The cotton producer only is suffering from overproduction. A situation that may be met by decreasing cotton production on credit and the growth of necessities on home farms. High prices are needed to pay interest on borrowed money and for the purchase of living essentials. High prices, on the other hand, encourage competitive production in other countries. There is an absolute necessity for more money per bale than we are now obtaining but there is equal necessity for decreasing net costs of production through improved methods of farming and the retention of a greater percentage of the proceeds of our cotton.

It is announced that Colonel Hester has been re-elected Secretary of the Exchange. His connection with it covers a period of over half a century.

Bill Introduced in House Amending Federal Farm Loan Act Transferring to Treasury Department Duty of Examination of Banks of System.

A bill amending the Federal Farm Loan Act, and designed "to bring the Land Bank system into closer accord with comparable practices of the national banking system," was introduced in the Senate and House on Dec. 21. Senator McLean, Chairman of the Senate Committee on Banking and Currency, and Representative McFadden, Chairman of the House Committee on Banking and Currency, introduced the bills in the respective branches of Congress. In referring to the bill the "Journal of Commerce" said:

The measure, which has been under consideration by the Treasury for some time, is the direct outgrowth, it was said, of findings in the probe of activities of certain farm loan land banks, administration of which, it was declared, was somewhat questionable.

A statement by Mr. McFadden regarding the bill says:

A bill amending the Federal Farm Loan Act was introduced to-day concurrently in the Senate and the House by Senator McLean, of Connecticut, and Representative McFadden, of Pennsylvania, respectively.

Under the law there is committed to the Farm Loan Board the responsibility of determining, in no small measure, the agricultural-banking policy of the United States.

The board fixes the rates of loans made by the Federal Land banks to farmers; controls charges to borrowers; grants or refuses to banks in the system the right to issue Farm Loan bonds; appoints, removes, and directs the appraisers who determine the value of properties on which loans are to be made; appoints the registrars and other officials; passes on increases in the capital stock of Joint Stock Land banks; organizes and charters the banks of the system; supervises the administration of the Act and sees that the banks are operated in conformity therewith.

In addition to these broad and comprehensive powers, there is also committed to the Farm Loan Board the duty of examining the banks of the system.

The proposed amendment does not alter in any way the administrative duties of the board, but plans to transfer to the Treasury Department the duty of examining the banks of the system. The purpose of the proposed amendment is to bring the Land Bank System into closer accord with comparable practices of the National Banking System, whose banks are examined by the Treasury Department through the Comptroller of the Currency.

It is not proposed to take away from the Farm Loan Board the power either to require reports from the banks or to make special examinations of its own, but to provide for an independent examination of the banks by the Treasury Department.

The loans of the 12 Federal Land banks have increased in less than five years from \$432,523,141 to \$1,057,216,877 and during the same period the outstanding Federal Land bank bonds have increased from \$434,534,775 to \$1,048,029,045. During this period the 12 Federal Intermediate Credit banks with \$60,000,000 capital subscribed by the U. S. Treasury, have also been created. These banks have about \$61,000,000 debentures and \$83,000,000 loans and discounts outstanding.

There are now 57 Joint Stock Land banks—since Jan. 1 1922 the number of these banks has increased 185% and their loans have increased from \$81,734,869 to \$614,639,203 on Sept. 30 1926. During the same period the outstanding Joint Stock Land bank bonds have increased from \$81,509,600 to \$597,263,000.

To have been able to provide, as rapidly as circumstances demanded, an able force of competent examiners to meet this expansion would have taxed the capacity of the ablest private management having funds available at all times for the employment of additional assistance. This difficulty is greatly enhanced where, as in the present case, the Farm Loan Board could only obtain funds for additional examiners through the annual appropriation.

However, through the joint efforts of the Farm Loan Board and the Treasury Department the examinations are rapidly being brought up to date.

When the earlier drafts of the proposed amendment were under consideration some members of the Board felt that the proposed departure from the original Act was perhaps radical, and that the comparison of the national banking system with the Farm Loan System was not parallel in this instance. However, after considering the revised draft of the proposed amendment these members indicate their willingness to support the bill as finally drafted, realizing that the Treasury's supervision of examinations cannot fail to strengthen the confidence of the public in the banks as well as in the bonds issued by the banks, such bonds being defined by law to be instrumentalities of the Government.

The bill proposes that the Secretary of the Treasury be given power:

(a) To prescribe a uniform system of accounts for the banks of the system.

(b) To direct the examination of the banks and National Farm Loan Associations, and to require statements of conditions under oath.

(c) To appoint and fix the salaries of examiners of banks and Farm Loan associations.

(d) To prescribe regulations for the determination of net earnings available for the payment of dividends.

The bill includes five amendments designed to strengthen the Act and offer additional safeguards to the investing public.

The Farm Loan Act was drawn after detail study and after investigation of similar systems then in existence in other countries. The constant and rapid growth of the system has demonstrated its usefulness, and it now stands as one of the important banking units of the country.

As with the National Bank Act, experience from time to time has developed the necessity for amendments to meet changing conditions, and to keep pace with the growth of the country. The proposed bill will accomplish this result.

Newly Organized National Association of Federal Farm Loan Borrowers Opposed to Proposal to Make Federal Farm Loan Board Bureau of Treasury Department.

Vigorously protesting against the proposed change in the status of the Federal Farm Loan Board from that of an independent body to a mere bureau under the Treasury Department, and demanding administration of the whole agricultural credit system along the lines claimed to have been originally contemplated by Congress, the National Association of Federal Farm Loan Borrowers, representing the farmer-borrower-stockholders, was organized at Chicago on Dec. 9 with Carl S. Vrooman, former Assistant Secretary of Agriculture, as President. An announcement regarding the new organization says:

The Association, whose purpose is "to safeguard, protect and extend the Federal Rural Credit System" is expected to be an important constructive force in improving and extending the system established ten years ago and in combating the organized propaganda attacks that have been leveled against it ever since.

The sessions were attended by borrowers of the Federal Rural Credit System, members of the American Farm Bureau Federation, the Grange, the Farmers Union, and officers of important co-operative organizations. Nearly every section of the country was represented at the meetings which developed an almost unanimous opinion that the time had arrived when the growing assaults on the Federal Farm Loan System should be checked; the real truth about the system made known; and farmers made better acquainted with the operations of and the benefits to be derived by him from joining the system.

The Association went on record as opposed to an investigation by the Congress at this time, but favored a careful study of the whole system by a joint Commission similar in character to the Joint Agricultural Commission of a few years ago. This Commission should be required to report to Congress and make such recommendations as it may find necessary to bring the administration of the system more nearly into harmony with the original intent of the Act.

It was pointed out that farmers now own all the stock in eight of the Federal Land banks and practically all of the stock in the remaining four banks, and that they should therefore be entitled to an actual and effective voice in the management of this great Rural Credit System.

The National Association of Federal Farm Loan Borrowers will maintain headquarters at Washington, D. C., and in addition to its own activities will act as a focal point and co-ordinating agency for similar efforts now being inaugurated by several of the principal farm organizations. The American Farm Bureau Federation, at its recent annual meeting, adopted a resolution endorsing the same principles as are advocated by the Association.

The active membership of the Association will be composed of borrowers from the Federal Land banks, the Joint Stock Land banks and the Intermediate Credit banks, while the associate membership will include all these persons, associations or organizations interested in the general welfare of agriculture.

The Board of Directors includes Carl S. Vrooman, former Assistant Secretary of Agriculture, Bloomington, Ill.; Herman Steen, Secretary-Treasurer of the Indiana Wheat Growers Association, 16 North Senate St., Indianapolis, Ind.; O. M. Kile, agricultural publicist and economist, Albee Building, Washington, D. C.; Murray D. Lincoln, Executive Secretary, Ohio Farm Bureau Federation, 119 East Gay St., Columbus, Ohio; Charles Hearst, President of the Iowa Farm Bureau Federation, Des Moines, Iowa; and J. W. Huelle, Meadow Grove, Nebraska.

Immediately upon the conclusion of the organization session, the board elected as officers of the Association for the ensuing year, Carl S. Vrooman, President; Mr. Huelle, Vice-President; Mr. Kile, Secretary-Treasurer, and C. A. Sorenson of Lincoln, Nebraska, General Counsel.

A statement issued by Mr. Vrooman on Dec. 13, said:

Farmers can not tolerate further domination of the Federal Farm Loan System by the Treasury Department. The Federal Farm Loan Act, which in my opinion was the greatest piece of constructive legislation ever passed by Congress in the interest of the farmer, has been badly distorted from its original intent and purpose. The entire Rural Credit System is being attacked both from within and from without. Its friends must come to its defense. The plans of Secretary Mellon and his assistants to discard the Farm Loan Board and make the system a mere bureau of the Treasury would still further depart from the intent of the Act and will be fought most vigorously. The independent status of the Federal Farm Loan Board must be maintained.

On the other hand, the administration of some of the twelve Land banks should be liberalized. The officers of several of these institutions appear to look upon these banks as their own personal and private property and to ignore the co-operative features plainly written into the Act. If these co-operative features had been fostered and developed as the law intended, the present policy of quick foreclosure on farms when interest payments are delayed would not be in effect. This practice must be discontinued or at least radically modified. The forced sale of these farms in large number is having a most serious effect on land values. This long-term loan system must be made flexible enough to tide over the farmer who is forced to default temporarily on his interest payment.

Farmers now own all the capital stock of eight of the district land banks and nearly all the stock in the remaining four. Yet they have no

actual effective voice in the control of the system. Probably nowhere else in the world can such a condition be found. The National Association of Farm Loan Borrowers proposes to make the farmer-owner's voice effective in better fitting the Rural Credit System to actual farm needs. The organization is managed and officered by leaders in the Farm Bureau, the Grange, and the Farmers' Union and will co-operate closely with these organized farm groups to accomplish its end. Headquarters are being opened at Washington, D. C.

The following is the resolution adopted by National Association of Federal Farm Loan Borrowers at its organization meeting in Chicago:

Whereas, the Federal Farm Loan System has been the subject of attack in nearly every section of the United States; and

Whereas, the Secretary of the Treasury has announced through the press a proposed change in the status of the Federal Farm Loan Board to that of a mere bureau of the Treasury; and

Whereas, the management of the Federal Farm Loan System has been largely taken out of the hands of the farmer borrowers, contrary to the original intent of the Congress, despite the fact that borrowers now own the capital stock of the Federal Land banks; and

Whereas, it is for the best interests of the farmer and for his agricultural credit system that immediate steps be taken to clear the atmosphere of all false rumors about the system and to effect such changes in the administration of the law as may be found necessary,

Therefore be it Resolved, that the National Association of Federal Farm Loan Borrowers, in convention assembled, this seventh day of December, 1926, vigorously protests against any plan designed to bring the Federal Farm Loan System under the supervision of a mere bureau of the Treasury Department, and insists that the independent status of the Federal Farm Loan Board be maintained; and be it further

Resolved, that the National Association of Federal Farm Loan Borrowers does hereby call upon the Congress to appoint a joint Commission to make a careful study of the operations of the Federal Farm Loan System and to make recommendations for safeguarding, protecting and extending the system, such Commission to be composed of members of the Banking and Currency and Agricultural Committees of the Senate and the House of Representatives.

Representative Haugen Introduces New Farm Measure—Separate Measure by Senator McNary.

A new farm relief bill along the lines of legislation proposed at the recent Western-Southern Farm Conference at St. Louis, was introduced in the House on Dec. 20 by Representative Haugen. The bill would create a Federal Farm Board to aid in the orderly marketing and in the control and disposition of the surplus of agricultural commodities.

Senator McNary and Representative Haugen parted company on Dec. 17 when a new farm relief proposal under the name of McNary-Fulmer was introduced in the House as a companion for the Senate bill. The new bill was introduced in the House by Representative Fulmer, (Democrat) of South Carolina, and was identical with the McNary bill, except for a provision to postpone application of the equalization fee on cotton until two years after passage. Coincident with the introduction of his bill, Mr. Fulmer issued a statement saying that its passage "is the one way to force tariff reduction by having a farmer-minded board that will look into freight and tariff rates and give Congress facts as they affect agriculture."

As to the Haugen bill the New York "Times" dispatch, Dec. 20, stated:

Chairman Haugen of the House Committee on Agriculture capitulated to-day to the farm organization leaders who are supporting the McNary bill, embodying the Lowden plan for farm relief.

He introduced in the House a bill much like the McNary bill, but with slight amendments. The measure amends the original McNary bill to put agricultural commodities on an equality with other commodities. It does not, however, stipulate how the Federal Farm Board, which it creates, is to bring this about.

While hearings on agricultural relief have been set for Jan. 10, there is a possibility that the Committee will meet before that date and report out the amended bill.

The Fulmer bill, deferring the equalization fee on cotton for two years and giving cotton a \$100,000,000 subsidy, will be rejected by the Committee.

Call Money Market.

The following are the daily statements issued this week by the New York Stock Exchange regarding the call money market:

CALL LOANS ON THE NEW YORK STOCK EXCHANGE.

Dec. 20—Renewal, 5%; high, 5½%; low, 5%; last, 5½%. Return of checks against income tax payments caused advance to 5½% with ample supply at that rate.
Dec. 21—Renewal, 5½%; high, 5½%; low, 5½%; last, 5½%. Moderate turnover. Normal conditions all day.
Dec. 22—Renewal, 5½%; high, 5½%; low, 5½%; last, 5½%. Quiet, featureless day. Funds plentiful.
Dec. 23—Renewal, 5½%; high, 6%; low, 5½%; last, 6%. Seasonal demands caused advance in rate. Ample supply at 6%.

Creditors of Allan A. Ryan Get 18 Cents on \$100.

Stating that the final chapter in the story of the spectacular failure of Allan A. Ryan, son of Thomas Fortune Ryan, was written on Dec. 15 in the office of Peter B. Olney, Jr.,

Referee in Bankruptcy, No. 7 Dey St., the New York "World" of Dec. 16, said:

It was in the form of an order for settlement of unsecured claims aggregating about \$9,000,000 at terms amounting to approximately 186 one-thousandths of a cent on the dollar—about 18 cents on each \$100. It placed the Ryan failure on record as one of the most complete big failures this city has known.

Under this order—the best kind of settlement the meagre assets permit—big trust companies receive a few hundred dollars apiece for claims running into hundreds of thousands. The Guaranty Trust Co. in which Thomas Fortune Ryan is heavily interested, receives \$7,816 in settlement of a claim amounting to \$4,202,495. The Chase National Bank receives \$3,848 in settlement of a claim for \$2,068,830. The Chase Securities Corp. gets \$284 in payment of a claim for \$152,834.

Many of Mr. Ryan's wealthy friends also receive comparatively paltry sums. Samuel Untermyer, who served as his counsel in his fight against the New York Stock Exchange, gets only \$83.70 on an allowed claim for \$45,000 for legal services. Charles M. Schwab, whose claim for \$339,210 was approved by the referee, gets \$630. Harry Payne Whitney and Elizabeth F. Sinclair are awarded \$351 each on allowed claims for \$188,733 apiece.

So much for some of the heavier losers. There are numerous smaller claims, some of which—in the light of the settlement terms—appear humorous. For example, Mr. Ryan goes on record as the only man ever known to have purchased a Knox hat for 1 cent. One cent is all the Knox Hat Co. gets in settlement of a bill for \$7.

Never Another Like It.

Francis G. Caffey, former United States Attorney, and receiver for Mr. Ryan, was asked yesterday if he ever had heard of another case in which a claim against the estate of a bankrupt was settled for so small a sum. He said he had not.

Another creditor receiving a check for one cent is the Knickerbocker Ice Co., with a claim for \$5.28.

Other unsecured claims, large and small, and amounts to be paid in final settlement of them, follow:

	Amount of Claim.	Amount Paid.
Burns Bros.	\$478.80	\$.89
Chemists' Club	66.00	12
Harry Contant	16,575.00	30.83
Catholic Club	33.00	.06
Canterbury School, Inc.	3,187.53	5.93
Empire Trust Co.	123,099.60	22.96
Griffiths, Sarfaty & Contant	5,000.00	9.30
John W. Hart	922.00	1.71
H. M. Imboden	150.00	.27
H. Joseph & Co.	115.25	.21
Lawyers' Title & Trust Co.	301,279.20	560.37
Lord & Taylor	428.85	.79
Edwin V. Morrison	680.00	1.26
Mechanics & Metals National Bank	973,342.93	1,810.41
William H. Plummer & Co., Ltd.	246.87	.45
A. De Pinna Co.	114.00	.21

Allan A. Ryan filed a voluntary petition in bankruptcy July 21 1922. He was discharged from bankruptcy Dec. 13 1922, after he had turned over all his assets to the court. His liabilities were listed originally as \$32,435.477, much of which was secured by stock deposited as collateral. When the big financial institutions which held this stock tried to realize upon it, it did not bring enough to cover the amounts they had advanced to Mr. Ryan.

The fall of Ryan was attributed generally to his action in incurring the animosity of powerful men in Wall Street through his corner of Stutz stock in 1920, when he drove the price up to \$700 a share, and forced the "shorts" to "pay through the nose." He also had done other things to offend men of considerable influence on "the Street."

Expelled from Exchange.

Following his Stutz corner Ryan was expelled from the New York Stock Exchange, and brought a suit for \$1,000,000 which finally was withdrawn. He got into financial straits which forced him to pledge the Stutz stock and other securities he held at but a small fraction of the inflated value they had reached under his manipulations.

Following his discharge from bankruptcy Ryan resumed business at No. 111 Broadway, but he has done nothing spectacular since re-entering the financial field.

Branch Bank Suit in California Settled—Court Upholds Discretionary Powers of Superintendent in Restricting Expansion Outside City Limits.

Special advices from San Francisco to the "Wall Street Journal" published in its issue of Dec. 23, state:

Discretionary powers of the State Superintendent of banks in California have been upheld in a State Supreme Court ruling of first importance to branch banking institutions. The decision is the outgrowth of a long fight of Bank of Italy against the de novo ruling of State Superintendent of Banks John Franklin Johnson. The ruling, in effect, denies branch banking institutions the right to establish new branches in cities outside the city in which their headquarters bank is located, except by a process of purchase and conversion. The Supreme Court holds that Section 9 of the California Banking Act of 1909 is a lawful regulation governing branch banks and that discretion vested in the State superintendent of banks is a lawful delegation of authority to be exercised within the limits set up in the section.

The case in point grew out of the efforts of Bank of Italy to compete on even terms with the large Los Angeles branch banking institutions, notably Pacific Southwest Trust & Savings Bank and Security Bank & Trust. The Bank of Italy has three branches in Los Angeles and applications to institute others were denied under the de novo rule, the Bank of Italy headquarters being in San Francisco.

Dispute Stirs Branch Banking Circles.

A dispute which arose stirred the branch banking circles of the State and resulted in suit against the State superintendent of banks designed to mandate his sanction of the branches desired. The court held that reasons assigned by the superintendent at the outset were insufficient to have caused rejection of the permits but that substantial evidence that public convenience and advantage would not be served by sanction of the branches appears in the later record.

Superintendent Johnson already has filed his resignation with the retiring governor, Fried W. Richardson, and will pass from office with the present administration after the first of the year. The attitude of the forthcoming administration on the de novo rule and other policy matters has not at yet been announced. Governor Elect Young, however, found the Bank of Italy his main corporate supporter in the last campaign, and it is expected that the forthcoming administration will be at least not antagonistic to Bank of Italy and other branch banking expansion plans.

Bank of Italy Expands in Other Ways.

Bank of Italy has, in a measure, been able to neutralize the effect of the present ruling by development of its subsidiaries in the Los Angeles territory, and is now preparing to amalgamate these and all other banking properties in the State into one institution early next year. Meeting of Bank of Italy stockholders to act on increase in the board and absorption and merger of banks already has been called for next month as has a meeting of Liberty Bank, one of Bank of Italy's biggest branch banking subsidiaries, for the purpose of increasing capital from \$5,000,000 to \$50,000,000.

The actual designs of A. P. Giannini and associates in the further expansion of the bank are expected to be made definitely known soon after Jan. 1.

Members of Delaware County (Iowa) Farm Bureau Opposes Bank Guarantee Law.

On the grounds that the proposed bank deposits guarantee law would increase taxes and would be of no benefit to Delaware county, members of the county farm bureau in their annual meeting at Manchester, Iowa, refused to pass the resolution which their committee had brought in and which would have indorsed the guarantee idea, says special Manchester advices, December 17, to the Des Moines "Register." The item continues:

D. J. Schnittjer of Delhi, and Carl Mitzner of Colesburg, both prominent Delaware county farmers, led the attack on the plan and were assisted by several others.

The resolution was the sixth on the list and the bureau was about to O. K. it along with the others when Schnittjer managed to have them taken up, one at a time. When the bank deposits guarantee proposal was reached it was decisively defeated, after the arguments were heard.

It was pointed out that in Delaware county there have been but two bank failures and that one of these institutions is about to reopen. The farmers expressed their faith in their banks and saw no reason to guarantee deposits. They said a guarantee law would be expensive and unsound, in that it would encourage carelessness and eventually lead to more failures.

Other resolutions were substantially the same as nearly all county farm bureaus are adopting—calling for passage of the McNary legislation, asking a state income tax deploring "the policy of the Federal Reserve System which has tragically deflated agriculture" and urging an appropriation with which to fight the corn borer. The proposed state bond issue for hard surfacing roads was condemned since Delaware county's roads are nearly all graveled now. A state commission was asked to encourage production of cheap power and the selling of it to the people at "reasonable and equal terms."

Benjamin Jaycox of Manchester was re-elected president.

Bill Introduced in Congress for Guarantee of National Bank Deposits.

A bill providing for the protection of depositors in defunct national banks and State banks, members of the Federal Reserve system, was introduced in the House by Representative Brand of Georgia on Dec. 6, according to the New York "Journal of Commerce" which says:

Mr. Brand would use the present franchise tax assessed against the Reserve banks in the building up of a fund from which to pay losses. In the meantime, however, he would have the Government appropriate \$50,000,000 to a protective fund.

On Dec. 3 it was announced in Associated Press advices from Washington that Representative Howard (Democrat) of Nebraska planned to introduce a bill providing for Federal guaranty of deposits in national banks. The accounts stated:

The measure is designed along the lines of the Nebraska Guaranty of Bank Deposits Act, which was intended to safeguard depositors' money in State banks there in the event of failure.

Mr. Howard said that the policy of bank deposits guaranty has been in practice in Nebraska for sixteen years and, in spite of "enemy assaults in many courts," both the principle involved and the practice under the principle have been sustained.

"The Nebraska Guaranty Law," Mr. Howard contended, "has been of such vast value to the people of my State that I am impelled by a sense of duty to make an effort to give to the people of other States a protection of their deposits in national banks as certain as the protection carried by that Law in Nebraska State banks."

"Not only is the Nebraska Guaranty Law a boon and blessing to the people of that State, but that blessing is now shared by thousands of people in other States."

"Reliable bankers in Nebraska say that on Nov. 1 1926, many millions of dollars had been deposited in Nebraska banks by citizens of other States, solely because of the protection accorded to depositors by the Nebraska Guaranty Law."

"This volume of outside money in Nebraska banks is largely responsible for the better general business in comparison with conditions in other agricultural States not blessed by guaranty of bank deposits law."

Mr. Howard added that during the operation of the Nebraska Law no depositor has lost a dollar, but that in the same time "millions have been lost" by depositors in national banks.

F. W. Simonds, of American Bankers Association, on Collapse of State Guaranty of Bank Deposits Movement—Clearing House Examination System Antidote for Guaranty Panaceas.

Pointing out the weaknesses of plans to guaranty bank deposits by State laws, Frank W. Simonds, representing the American Bankers Association, told the Colorado Bankers Association in convention at Glenwood Springs, Colo., on June 26 of the rapid decline of the movement throughout

the United States as brought out by a survey made by his organization. Mr. Simmonds said:

So-called State guaranty of deposit laws have been tried out and found wanting. The plan was wrongly christened at the start. It is not a guaranty but an insurance plan without the element of selective risk, entirely dependent upon the sufficiency of the premiums paid. Experience has shown the premiums are not sufficient and the insured are unable to afford higher premiums. The plan seemed so easy, so simple, so promising, that it reminds one of the allurements of the mirage.

The consensus from all sections shown by a survey of the State Bank Division of the American Bankers Association is that the State guaranty of deposits is passing into eclipse so far as the extension of the idea is concerned. Notwithstanding that guaranty laws were recommended last year by Governors of two States and introduced in several others all were defeated. In general, the tendency appears distinctly toward the repeal of this legislation.

During the past twenty years eight States enacted guaranty laws, beginning with Oklahoma in 1907 and followed by Kansas in 1909, Texas in 1910, Nebraska in 1911, Mississippi in 1914, South Dakota in 1915 and North Dakota and Washington in 1917. Oklahoma rescinded her law three years ago, leaving a large unpaid deficit. Last year South Dakota repealed its law and referred the repeal to the people for ratification at the next general election. Texas has modified her law, on account of State banks changing into national banks to escape the burden, so that they may choose between the guaranty system or a bond security plan.

The Kansas law was rendered innocuous by a decision of the Supreme Court on April 12 to the effect that a bank may withdraw from the guaranty fund and escape any assessments beyond forfeiting the amount of bonds deposited with the State. It is reported that most of the banks plan to withdraw, which means that the State will have a little more than \$1,000,000 with which to pay more than \$3,000,000 of outstanding guaranty certificates.

The fundamental weakness of the guaranty of deposits plan is that it is an attempt to create integrity and financial ability by legislative fiat. It tends to penalize prudent banking and to encourage reckless practices by reducing in the public mind all bankers, honest and dishonest, efficient and inefficient, to one common level.

Bank failures are public calamities, and all agree banks must be made safe by some feasible means, based on sound principles. Banking experience has taught that the best safeguards are: banking intelligence, plus unyielding integrity, supplemented by careful supervision. Supervision that prevents failures is far more valuable to both depositors and stockholders than any plan of guaranty of liquidation after failure.

As a preventive of bad banking, and as an antidote for the guaranty panaceas of the politician, I earnestly commend the clearing house system of examination. Clearing house associations in several hundred cities, towns and counties to-day constitute the chief line of defense against bad banking. They are the chief factor bringing about reforms in banking laws, improvement in banking methods and promotion of sound banking practices. The work of the clearing house associations is to-day a great constructive force in American banking. The extension of clearing house examinations is a great forward step in the solution of the problem of protecting bank deposits. The plan has been in operation twenty years and thoroughly tested. No depositor has ever lost a dollar in a bank under the supervision of the clearing house examiner system. The work of the clearing house examiner is continuous, not periodical, qualitative as well as quantitative and admirably supplements and co-ordinates the work of national and State examiners.

Voters in South Dakota Declare Against Repeal of Bank Guaranty Law.

Sioux Falls, So. Dak., Associated Press advices Nov. 5 stated:

South Dakota voters apparently refused to repeal the bank deposits guaranty law at the election Tuesday, by a small majority. The vote, with 1,270 of the 1,898 precincts accounted for, gave for repeal 51,663, against 161,185.

South Dakota passed, 11 years ago, the first bank guaranty law in the country, under which each State bank was levied against to establish a fund by which depositors of failed banks were repaid. The law functioned until the post-war deflation caused a wave of bank failures so extensive that the guaranty fund acquired a deficit of more than \$25,000,000.

The last Legislature repealed the guaranty law but postponed decision as to whether the State would repudiate obligations to depositors in banks already defunct. The law was referred to popular vote.

Regarding the South Dakota Bank problem Pierre (S. D.) advices published in the "Wall Street Journal" of Dec. 2 said:

Following refusal of the voters of South Dakota, in a referendum, to approve the action of the last Legislature in repealing the State deposit guaranty fund law, Governor William J. Bulow, the first Democrat elected in the State as Governor for more than 20 years and who made his campaign on the platform of retaining the law, is faced with the necessity of advising legislation that will appease the holders of \$40,000,000 worth of uncashed receivers' certificates, practically all of whom voted for him in the belief that he would find a way to reimburse them.

The amount due, it is estimated, will be cut in half when the assets of failed banks are collected, but as the limit of yearly assessment under the present law is but \$275,000 a year, which is less than the interest charges on the certificates, repayment from this source is almost hopeless. The depositors are demanding that the amount be raised by direct taxation, contending that they deposited their money in the belief that the State was the virtual guarantor of its safety. Those who lost no money in failed banks oppose this method of reimbursement at their expense.

The Legislature is strongly Republican, and it was a Republican Legislature that passed the repealing Act, giving as the reason that since 1924 the fund has been bankrupt and it was impossible of rehabilitation. In banking circles the sentiment is strong for nationalization, wherever a bank can meet the requirements of the law as to reserves.

Kansas Court Rules Against Pro Rata Dispensation of Bank Guarantee Fund.

The holders of the guarantee fund certificates under the Kansas bank deposit guarantee law are to be paid on a "first come, first served" basis, according to Topeka advices to the Kansas City "Star" under date of Dec. 11. The same item states:

The Kansas Supreme Court ruled to-day that a failed bank, which is completely liquidated by the receiver, is to have its guarantee certificates

paid in full as promptly as possible. If other banks fail and are liquidated their guarantee certificates are to be paid in full as the process of liquidation in each separate bank is completed.

The decision of the court to-day means that several hundred holders of guarantee certificates will never be paid unless some plan is worked out to revive the guaranty law.

The suit decided by the court was brought by F. M. Thompson, Herington, against Roy Bone, State Bank Commissioner. Thompson owned certificates of the State Bank of Hope, and he brought the suit to compel the Bank Commissioner to pay him in full at once. The bank had been completely liquidated and all of its assets collected by the receiver. Guaranty certificates were then issued for the balance due the depositors.

The guaranty fund has approximately \$1,000,000 in cash and bonds. It has guarantee certificates outstanding aggregating nearly \$3,000,000. The State proposed that this \$1,000,000 should be prorated among all certificate holders. Under the decision of the Supreme Court, the million dollars is to be paid the certificate holders of the banks which have been fully liquidated and banks still in process of liquidation will have no benefit of the guaranty law.

Senator Harrison's Bill to Increase Capital of Intermediate Credit Banks to \$10,000,000 to Enable Larger Cotton Credits.

On December 15, Senator Pat Harrison of Mississippi, introduced in the Senate a bill designed to help the cotton situation. It would enable the twelve Federal Intermediate Credit Banks to increase their capital \$5,000,000 to \$10,000,000 and thereby permit each bank to extend loans to the sum of \$100,000,000. Under the existing law the Intermediate Credit Banks are permitted to loan only to cooperate associations and to discount their paper through banks. The Harrison bill broadens the law and permits the Intermediate Credit Banks to designate as many agencies as are necessary for the convenience of the borrowing public and to make loans directly to individuals, firms, and corporations when such loans are secured by warehouse receipts or shipping documents covering cotton, livestock, or other agricultural products. The bill would also permit such loans to the extent of 85% of the market value of the product and in the case of cotton, to make loans upon every grade of cotton. Senator Harrison in speaking of his bill said:

"I am against the McNary-Haugen bill because it seeks to perpetuate the protective tariff principle upon the country. I have always fought that principle as unjust and inequitable and I cannot be a party to foisting it and perpetuating it upon the people.

"There can be no doubt that agriculture today is the one industry that languishes. The condition is due primarily to the protective tariff system which has enabled some protected industries to be benefited at the expense of other industries. The purchasing power of the farmer's dollar today is around 65 cents. The purchasing power of the dollar of many other industries fostered by the protective tariff is from \$2 to \$2.25. The system has necessarily caused the disparity between the two. If the system should continue, that disparity will continue to widen. It is against that system that the Democratic Party has waged war and what has happened today to agriculture, as well as to other industries, was predicted by Democratic spokesmen.

"Instead of the south and the agricultural west wanting to perpetuate it, as is done in the McNary-Haugen bill, those of every section interested in agriculture ought to make a common war against the system and compel a restoration of the parity in the purchasing power of the dollar in every industry in America. With an 18½ million bale crop of cotton produced this year, naturally the penalty must be paid in reduced prices. If we are to wipe out the present surplus of cotton and restore stability in the cotton industry, there must be a large curtailment in acreage next year and an orderly marketing of the present crop. Reduction of acreage must be initiated and prosecuted by the farmer himself. Orderly marketing of the present crop can only be done through the cooperation of the farmers, the banks and the credit agencies of the Federal Government.

"A great emergency now exists and every reasonable credit should be extended by the government to aid and assist.

"The bill I have offered today will permit these loans by the Government, not only to the cooperative associations, but to individuals who are not members of the cooperatives.

"The interest rate at this time should be so reasonable as to encourage orderly marketing. I have made it 4%. The amount provided for in the bill increasing the capital stock of the twelve Intermediate Credit Banks to ten million dollars each instead of five million each will permit each to extend loans in the sum of one hundred millions of dollars.

"The bill authorizes the Intermediate Credit Banks to establish agencies for the convenience of the borrowing public. That is a necessity if the aid is to be given to the individual.

"One of the great problems in the present emergency is that the farmer who wants to hold his cotton and has a low grade cannot borrow. My bill will permit a loan to be made upon every grade.

"Another difficulty is that the farmer today can only borrow about 65% of the market price of his product. My bill will permit him to borrow 85% of the market value.

"Another trouble with the present Intermediate Credit System is that loans cannot be made for less than six months. My bill will permit loans to be made for any length of time from 30 days to 3 years.

"There is nothing in the proposal that is revolutionary or radical. It can quickly be put into operation and relief promptly given to the cotton growers of the south."

The following is the text of his bill:

S. 4826

A BILL

To amend the Federal Farm Loan Act, as amended.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That subdivision (a)

of section 201 of the Federal Farm Loan act, as amended, is amended to read as follows:

"(a) That the Federal Farm Loan Board shall have power to grant charters for 12 institutions to be known and styled as 'Federal intermediate credit banks.' Such board shall also have power to designate such agencies for such banks as in its judgment are convenient and necessary for carrying out the purposes of this Act."

Sec. 2. Paragraph (3) of subdivision (a) of section 202 of such Act, as amended, is amended to read as follows:

"(3) To make loans or advances direct to any individual, firm, or corporation, or to any cooperative association organized under the laws of any State and composed of persons engaged in producing, or producing and marketing, staple agricultural products, or livestock, if the notes or other such obligations representing such loans are secured by warehouse receipts, and/or shipping documents covering such products, and/or mortgages on livestock: *Provided*, That no such loan or advance shall exceed 85 per centum of the market value of the products covered by such warehouse receipts and/or shipping documents, or of the livestock covered by said mortgages."

Sec. 3 (a) Subdivision (c) of section 202 of such Act, as amended, is amended by striking out "six months" and inserting in lieu thereof "thirty days."

(b) Subdivision (d) of section 202 of such Act, as amended, is amended to read as follows:

"(d) Rates of discount charged by the Federal intermediate credit banks upon such discounts shall be subject to the approval of the Federal Farm Loan Board. On the majority vote of the members of the Federal Farm Loan Board any Federal intermediate credit bank shall be required to rediscount the discounted paper of any other Federal intermediate credit bank at rates of interest to be fixed by the Federal Farm Loan Board. Any loan under this section shall bear interest at the rate of 4 per centum per annum."

Sec. 4. Section 205 of such Act, as amended, is amended by striking out "\$5,000,000" and inserting in lieu thereof "\$10,000,000".

Dinner Tendered by Directors of New York Federal Reserve Bank to Pierre Jay.

A dinner was given on Dec. 20 by the directors of the Federal Reserve Bank of New York at the University Club to Pierre Jay, who is resigning his position as Chairman of the Board and Federal Reserve Agent of the Federal Reserve Bank of New York, to accept an appointment by the Reparations Commission as American member of the Transfer Committee under the Dawes Plan. Those present were Mr. Jay's present and former immediate associates in the Federal Reserve System, including members of the Federal Reserve Board, the Governors and Chairmen of the Federal Reserve banks, the directors of the Buffalo branch of the New York bank, and other associates of Mr. Jay in his work of the Federal Reserve System. Addresses were made by D. R. Crissinger, Governor of the Federal Reserve Board; Robert H. Treman, President of the Tompkins County National Bank; Owen D. Young, Chairman of the General Electric Co.; S. Parker Gilbert, Agent-General for Reparations Payments (who arrived from abroad this week); J. Herbert Case, Deputy Governor of the Federal Reserve Bank, and by Mr. Jay. Mr. Jay was presented with an engrossed copy of the following resolution by the board of directors of the New York Bank:

From the date of its organization, more than twelve years ago, Pierre Jay has served the Federal Reserve Bank of New York as Chairman of the Board and Federal Reserve Agent. He is now resigning to become the American member of the Transfer Committee under the Dawes Plan.

As an officer of the bank and as a representative of the Federal Reserve Board he has achieved a unique position as a wise councillor and a tactful leader.

He has presided at the meetings of the directors with dignity and a sympathetic understanding of varying points of view. He has contributed to the discussions a comprehensive knowledge of the affairs of the bank and a clear insight into its problems.

In the broad field of policy he has exerted, by his scholarly analysis of Federal Reserve problems and his quiet diplomacy, a large influence upon the recorded decisions of the unwritten tradition of the Federal Reserve System.

Through his writing and speaking he has made a valuable contribution in the interpretation of the Federal Reserve System to the public.

By his personal charm and his kindness he has endeared himself to all his associates.

To Pierre Jay, unselfish servant of the public interest, statesman of finance, and kindly friend, we, the directors of the Federal Reserve Bank of New York, express our appreciation of the service he has rendered, our regret at his leaving us, and our confidence that he will find the satisfaction of great accomplishment in his new and important work.

The following were present at the dinner:

S. Parker Gilbert, Agent-General for Reparations Payments.

Ogden L. Mills, Congressman from New York and appointed Under-Secretary of the Treasury.

R. C. Leffingwell, formerly Assistant Secretary of the Treasury, and J. P. Morgan partner.

D. R. Crissinger, Governor Federal Reserve Board.

Edmund Platt, Vice-Governor Federal Reserve Board.

Charles S. Hamlin, member Federal Reserve Board.

E. A. Goldeveiser, Acting Director, Division of Research and Statistics, Federal Reserve Board.

Ex-Members of Federal Reserve Board.—Paul M. Warburg, Chairman International Acceptance Bank; Albert Strauss, Seligman & Co.; Carter Glass, Senator; David F. Houston, Financial Vice-President, American Telephone & Telegraph; Frederick A. Delano, Receiver for United States Supreme Court in extensive litigation, etc.; W. W. Stewart, formerly Director, Division of Research and Statistics, Federal Reserve Board.

Deputy Comptroller of the Currency Charles W. Collins.

Directors Federal Reserve Bank of New York.—Samuel W. Reyburn, President Associated Dry Goods Corporation and Lord & Taylor; Delmer

Runkle, President Peoples National Bank, Hoosick Falls, N. Y.; W. L. Saunders, Chairman Ingersoll-Rand Co.; Robert H. Treman, President The Tompkins County National Bank, Ithaca, N. Y.; Clarence M. Woolley, Chairman American Radiator Co.; Theodore F. Whitmarsh, President Francis H. Leggett & Co.; Owen D. Young, Chairman General Electric Co.

Ex-Directors Federal Reserve Bank of New York.—James S. Alexander, Chairman National Bank of Commerce; Gates W. McGarrah, Chairman Executive Committee Chase National Bank and director of the Reichsbank; George Foster Peabody, retired banker; Charles Smith, President Citizens National Bank & Trust Co., Oneonta, N. Y.; Frank L. Stevens, President Stevens & Thompson, Inc., manufacturers of paper; Charles A. Stone, Chairman Stone & Webster, Inc., and director American International Corporation; William Woodward, President and director Hanover National Bank.

Buffalo Branch Directors.—W. W. Schneckenburger, Managing Director, Buffalo Branch, Federal Reserve Bank of New York; Frank W. Crandall, President National Bank of Westfield, N. Y.; John A. Kloefer, President Liberty Bank of Buffalo, N. Y.; Elliott C. McDougal, President Marine Trust Co., Buffalo, N. Y.; Harry T. Ramsdell, Chairman Manufacturers & Traders Trust Co., Buffalo.

Federal Reserve Bank of New York.—J. Herbert Case, Louis F. Sailer, George L. Harrison and Edwin R. Kenzel, Deputy Governors; W. Randolph Burgess, Assistant Federal Reserve Agent; L. Randolph Mason, General Counsel; J. H. Philbin, Assistant General Counsel and Secretary; James F. Curtis, formerly Deputy Governor and member of law firm of Curtis, Fisdock & Belknap.

Frederick H. Curtiss, Chairman Federal Reserve Bank of Boston.

Pierre Jay, Chairman Federal Reserve Bank of New York.

R. L. Austin, Chairman, and George W. Norris, Governor Federal Reserve Bank of Philadelphia.

George DeCamp, Chairman, and E. R. Fancher, Governor Federal Reserve Bank of Cleveland.

W. W. Hoxton, Chairman, and George J. Seay, Governor Federal Reserve Bank of Richmond.

William A. Heath, Chairman, and J. B. McDougal, Governor Federal Reserve Bank of Chicago.

William McC. Martin, Chairman Federal Reserve Bank of St. Louis.

John R. Mitchell, Chairman Federal Reserve Bank of Minneapolis.

Isaac B. Newton, Chairman, and J. U. Calkins, Governor Federal Reserve Bank of San Francisco.

George V. McLaughlin, formerly Superintendent, State of New York Banking Department.

Frank H. Warder, Present Superintendent, State of New York Banking Department.

Owen T. Reeves Jr., Chief National Bank Examiner, Second Federal Reserve District.

Mr. Jay's appointment as a member of the Transfer Committee under the Dawes Plan was announced in these columns Dec. 11, page 2994.

Representative Hull Re-Introduces McFadden Branch Banking Bill as Three Separate Bills.

In order that the relief granted to national banks by the non-controversial liberalizing provisions of the McFadden bill, and the renewal of the charter of the Federal Reserve System beyond its present expiration in 1934, may not longer be delayed by the interests seeking through other provisions of the bill to extend branch banking into non-branch-banking territory, three bills were introduced in the House on Dec. 16 by Representative Morton D. Hull (Rep. Ill.) so dividing the McFadden bill (H. R. 2) that each of these subjects may be voted upon separately and stand upon its own feet. Bill No. 1 provides for renewal of the Federal Reserve System charter; bill No. 2 grants to national banks all the forms of relief contained in the McFadden bill except those referring to branch banking; bill No. 3 contains the provisions of the McFadden bill in regard to branch banking as passed by the House of Representatives, embodying the Hull amendments. In introducing these three bills Mr. Hull said:

The renewal of the Federal Reserve charter was a rider attached to the McFadden bill to help carry the objectionable branch-banking provisions of the bill through Congress, for by itself this charter renewal would encounter little if any opposition in either House.

Those provisions of the McFadden bill relating to the restrictions under which National banks may make loans, accept trusts, and deal in securities have not encountered any serious resistance in either House. The enactment of these provisions would be of great value to national banks in meeting the competition of State banks operating under more liberal charters. In the 26 States where branch banking is not practiced, it is these provisions which national banks are interested in, in the McFadden banking bill.

The branch-banking provisions have been the cause of much controversy. The branch-banking group have shown a determination to insist upon a form of the bill which would permit an ultimate spread of branch banking into non-branch-banking territory, or to hold up the enactment of the entire bill.

A tremendous propaganda has been carried on by these branch-banking forces to carry out their comparatively obscure purposes of encouraging by Federal legislation the extension of branch banking into States where it is not wanted. This propaganda has been centred upon appeals for the enactment of the McFadden bill for the sake of the renewal of the Federal Reserve charter—"to save the Federal Reserve System which protects our prosperity from the threat of panics"—and for the sake of the non-controversial relief to national banks—"to save the national banking system."

My purpose in dividing the McFadden measure into three separate bills is to bring the branch-banking controversy out into the open, where branch-banking legislation will not be passed with a sugar coating of Federal Reserve or national bank legislation.

With the exception of the comparatively small number of powerful institutions which seek to extend their control of finance and credit by gradually establishing branches first within the city, the county, the State, and even across the continent, the banks of the country are demanding that legislation affecting the spread of branch banking shall be considered on its merits

in the open, and not behind a camouflage or smoke screen of other banking issues.

They are also rightfully asking that the non-controversial benefits be no longer delayed by attempts to entangle them with provisions obscuring encouraging branch banking.

By the action of Congress upon these three bills, it will be easy to find out the real motives of the advocates of the McFadden bill. If they are actuated by the high purposes emphasized in their propaganda they will welcome an opportunity to enact the non-controversial provisions of the bill as separate measures.

If they do not, they will give further evidence of their purpose to extend branch banking into non-branch-banking territory under the mask of the other provisions of the bill.

Senate Passes Bill Providing for Federal Reserve Pension Fund.

On Dec 17 the Senate passed the bill incorporating the Federal Reserve Pension Fund. The bill was introduced last March by Senator McLean and referred to in these columns March 27, page 1712. Prior to its passage, it is noted in Washington advices, Dec. 17, to the New York "Journal of Commerce" it was amended so that no member bank shall be required to contribute unless it shall elect to participate in the operation and maintenance of the fund. The bill names the Federal Reserve Governors and their successors, as incorporators, and defines the purpose to be to provide pension for officers and employees of the Federal Reserve Banks and Federal Reserve Board, and Federal Reserve Agents who by reason of long service, age, disability or other reasons are deemed entitled to assistance and aid of the corporation. Fund is to be raised through contributions by the employees themselves and by their employers in amounts fixed from time to time by the corporation. The following is the text of the bill as passed by the Senate

AN ACT to incorporate the Federal Reserve Pension Fund, to define its functions, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Daniel R. Crissinger, William P. G. Harding, Benjamin Strong, George W. Norris, E. R. Fancher, George J. Seay, M. B. Wellborn, James B. McDougal, David C. Bliggs, R. A. Young, W. J. Bailey, Lynn P. Talley, John U. Calkins and their successors are hereby created a body corporate by the name of the "Federal Reserve Pension Fund," for the following purposes, viz.:

(a) To provide pension or other forms of support for officers and employees of the Federal Reserve banks, Federal Reserve Board, and Federal Reserve agents, who by reason of long and meritorious service, or by age, disability, or other reasons shall be deemed entitled to the assistance and aid of the corporation on such terms and conditions, however, as the corporation may from time to time approve and adopt.

(b) To provide pensions or other forms of support for persons who may be or who may have been dependent upon such officers or employees, and who shall be deemed entitled to the assistance and aid of the corporation on such terms and conditions, however, as the corporation may from time to time approve and adopt.

(c) To provide pensions or other forms of support for officers and employees (and for persons who may be or who may have been dependent upon such officers or employees) of any bank or trust company that is or shall be a member bank of any Federal Reserve bank, and who shall be deemed entitled to the assistance and aid of the corporation, on such terms and conditions, however, as the corporation may from time to time approve and adopt.

(d) In general to do and perform all things necessary or appropriate to a corporation created for the purpose of providing pensions or other forms of support for officers and employees of Federal Reserve banks, Federal Reserve Board, Federal Reserve agents, and member banks of Federal Reserve banks and for persons who have been or may be dependent upon such officers or employees. The forms of support provided by the corporation may be in the form of support provided by the corporation may be in the form of annuities, disability payments, life insurance, or other forms which from time to time shall seem expedient to the said corporation, and for the purposes aforesaid the corporation may establish and maintain appropriate activities, agencies and institutions and may aid or make use of such activities, agencies, or institutions as may be now or hereafter established for like or similar purposes, provided that the corporation shall not provide pensions or other forms of support for any member of the Federal Reserve Board or for any person other than those described in subsections (a), (b) or (c) of this section.

Sec. 2. The said corporation shall have power to contract, to take and hold by bequest, devise, gift, contract, purchase, or lease either absolutely or in trust for any of its purposes any property, real or personal, without limitation as to amount or value except such limitation, if any, as the Congress shall hereafter impose; to convey such property, to invest and reinvest any principal and deal with and expend the principal and the income of the corporation in such manner as in the judgment of its trustees will best promote its objects. The persons named in the first section of this Act, or a majority of them, shall hold a meeting and adopt a constitution not inconsistent with law, which shall be subject to amendment. The constitution shall prescribe the qualifications of members who may or may not be restricted to the same persons who are trustees of the corporation, the number of members who shall constitute a quorum for the transaction of business at meetings of the corporation, the number of trustees by whom the business and affairs of the corporation shall be managed, and the qualifications, powers, tenure of office, and manner of selection and of fixing the compensation of the trustees, managers, officers, and employees of the corporation: Provided, however, that the trustees of the corporation shall consist of not more than twenty-six persons, of whom twelve shall be elected, one each by the respective boards of directors of the several Federal Reserve banks, and of whom twelve shall be elected, one each by the respective employees of the several Federal Reserve banks and of whom one shall be elected by the Federal Reserve Board and of whom one shall be elected by the employees of the Federal Reserve Board.

Sec. 3. The corporation shall be without capital stock and shall conduct its business without profit, and the corporation and its property and the income derived therefrom shall be exempt from all Federal State, and local taxation, except taxes upon real estate, and except that it shall be liable to such applicable Federal taxation as may be imposed by the Congress. The corporation shall submit its proposed plan of providing pen-

sions or other forms of support to the Federal Reserve Board, who shall approve the same in writing before any such plan or any substantial modification thereof is put in operation by the corporation. The corporation shall render an annual report to the Federal Reserve Board in such form as may be prescribed by the said board, and its business and affairs shall be subject to examination by the said board.

Sec. 4. The pensions and other forms of relief to be provided by the corporation shall be based upon the contributory system; that is to say, that the person to whom, or to whose dependents, a pension or other form of relief shall inure or be payable shall contribute to the corporation a part of the cost of organizing and operating the corporation and establishing the funds out of which the pensions and other forms of relief are to be paid, and a portion of such costs shall be contributed by such person's employer; And provided further, that no pension shall be paid out of the amounts contributed or to be contributed by the Federal Reserve banks, the Federal Reserve Board and the Federal Reserve agents at a rate in excess of 30% of the maximum annual salary received by such officer or employee. The several Federal Reserve banks, the Federal Reserve Board, the Federal Reserve agents, and such banks or trust companies as may be nor or hereafter be member banks of a Federal Reserve bank are hereby authorized to contribute to the cost of the organization and operation of the corporation and the establishment and maintenance of the said funds. The respective amounts to be contributed by an officer or employee and by the employer of such officer or employee, covering both past and current employment, shall be established from time to time by the corporation: Provided, that the total amounts contributed by the Federal Reserve banks, the Federal Reserve Board, and the Federal Reserve agents shall not exceed the total contributions made by the officers and employees thereof, with interest.

Sec. 5. The corporation, subject to the approval of the Federal Reserve Board, may provide pensions and other forms of relief for the officers and employees of member banks of a Federal Reserve bank, and such banks may contribute to the cost of organizing and operating the corporation and establishing the funds of which the pensions and other forms of relief are to be paid, all under such terms and conditions and rules and regulations as may be established from time to time by the corporation.

Sec. 6. The Congress may alter, amend, or repeal this Act, but no contract or individual right made or acquired shall thereby be divested or impaired.

Sec. 7. No member bank shall be required to contribute to any fund the creation of which is herein provided for, unless it shall elect to participate in the operation and maintenance of the said Federal Reserve Pension Fund.

Sec. 8. This Act shall take effect upon its passage.

Report of Carmi A. Thompson on Philippines—Secretary Mellon Not in Favor of Extension of Federal Reserve System to Islands.

Carmi A. Thompson, in his report to President Coolidge on the Philippine Islands, proposes among other things the extension of the Federal Reserve System to the Islands. The report was transmitted to Congress by President Coolidge on Dec. 22. On Dec. 23 it was stated in Associated Press dispatches from Washington that it was indicated that the Treasury does not look with favor on the extension of the Federal Reserve System to the Philippine Islands, as recommended by Col. Thompson. The dispatches go on to say:

There is a decided disinclination on the part of Treasury officials to consider the establishment of service outside the United States.

It was pointed out that the activities in Cuba are confined to the exchange of currency and that no borrowings are entered into with the Havana branch of the Atlanta Federal Reserve Bank. In fact, it was said that offhand it could not be seen how such extension would be of benefit to the people in the islands.

To extend the advantages of the Farm Loan system to the islands would require additional legislation, it was explained, and here again, Treasury officials could not see where that would be of great benefit. Porto Rico has been given Farm Loan System privileges but the Department men would not say whether the Philippines offered a comparable case.

In his report Col. Thompson summarized as follows his proposals:

In accordance with your request I have included in this report a number of suggestions of what might be done to secure a better administration of affairs in the Philippines and a further development of their economic condition.

In conclusion, these suggestions are summarized and certain other recommendations made. I have the honor to recommend:

1. That such steps be taken as may be required to re-establish co-operation between the executive and legislative branches of the Philippine Government.

2. That the granting of absolute independence to the Philippines be postponed for some time to come; that this matter be considered at some future date when the islands are sufficiently developed to maintain an independent Government, and that in the meantime there be granted such further autonomy in the management of internal affairs as conditions may from time to time warrant.

3. That the United States Government establish an independent department for the administration of the Philippine Islands and other overseas territory.

4. That the Governor-General be provided with the necessary civil advisers in order to relieve him of the present necessity of selecting such advisers from the United States Army.

5. That Mindanao and Sulu should not be separated from the rest of the islands, but that American control be strengthened in the Moro country.

Extension of Federal Reserve System.

6. That the Federal Reserve System should be extended to the Philippine Islands.

7. That one or more Federal Land banks should be established in the Philippines to provide loans at reasonable interest rates for the farmers who now pay from 21 to 30% interest.

8. That the United States Department of Agriculture establish a sufficient number of experiment stations in the Philippine Islands to properly develop the agricultural resources of the islands.

9. That the fundamental law governing the Philippines known as the Jones Act be not amended or changed at this time.

10. That the Philippine Legislature should amend the Philippine land laws (with proper safeguards) so as to bring about such conditions as will attract capital and business experience for the development of the production of rubber, coffee and other tropical products, some of which are now controlled by monopolies.

11. That no amendments be made at this time to the Philippine land laws by the American Congress.

12. That the Philippine Government withdraw from private business at the earliest possible date.

The fundamental problems in the Philippines concern the Government of the islands and their future relations with the United States. Upon the proper solution of these problems depends the political, social, economic welfare of the Filipinos.

We shall refer more at length to the report another week.

Federal Reserve Board's Ruling on Acceptance by National Banks of Drafts Drawn Against Import and Export Bills.

In its December "Bulletin" the Federal Reserve Board announces new regulations regarding the acceptance by national banks of drafts drawn upon them by other banks against import and export bills. The ruling follows:

The Federal Reserve Board has for some time had under consideration the question whether national banks may legally accept drafts drawn upon them by other banks against the security of import or export bills of exchange previously discounted by such other banks.

The question now arises in the following form: The New York agency of a foreign bank buys export bills to finance the shipment of cotton to a foreign country and in order to refinance itself arranges for a national bank to accept bills drawn upon such national bank by such foreign bank and secured by a pledge of the export bills previously purchased by the foreign bank. The question presented is whether the national bank may lawfully accept bills drawn upon it under such circumstances.

Board Changes View.

In a ruling published on page 610 of the Federal Reserve "Bulletin" for June 1920 the Board ruled that "no bank which has purchased a foreign documentary draft may refinance itself by drawing a draft on a member bank secured by the documentary draft." The Board has carefully reconsidered this question, however, and is of the opinion that such ruling contains an unnecessarily strict interpretation of the law.

The Board is now of the opinion that such acceptances may be said to come within the broad terms of the provision of Section 13 of the Federal Reserve Act which authorizes member banks to accept drafts drawn upon them "which grow out of transactions involving the importation or exportation of goods," provided that such drafts are drawn before the underlying export transaction is completed. The same interpretation would necessarily apply also to drafts drawn upon national banks by other banks against the security of import bills previously discounted by such other banks.

New Ruling Made.

The Board rules, therefore, that national banks may legally accept drafts drawn upon them by other banks against the security of import or export bills of exchange previously discounted by such other banks, provided that such drafts are drawn before the underlying import or export transactions are completed and comply as to maturity and in all other respects with the provisions of the law and the Board's regulations. Conversely, the Board rules that national banks may not legally accept drafts drawn upon them by other banks against the security of import or export bills of exchange previously discounted by such other banks when such drafts are drawn after the underlying import or export transactions are completed.

In the Board's opinion, an import or export transaction is completed when the goods have arrived at the final destination specified in the export shipping documents.

Federal Farm Loan Board Announces Regulations Governing Discounting of Notes of Cotton Finance Corporations.

The Federal Farm Loan Board, through Chairman Albert C. Williams, issued a letter on Nov. 19 to the Federal Intermediate Credit banks regarding the measures of relief instituted in behalf of the cotton grower in which he said the Federal Intermediate Credit banks may discount notes offered by Cotton Finance corporations "when it appears to the satisfaction of the banks that the proceeds of such notes have been advanced or used in the first instance for financing the production of cotton or defraying indebtedness arising from such production, provided, of course, that this privilege shall not be extended to any person for financing the purchase of cotton for speculation therein." The letter follows:

Dear Sir.—You will recall that at our conferences last week, representatives of the Cotton Finance Corporations which are being organized in the South, made a number of suggestions concerning certain features of their operations.

Briefly, they stated that every effort will be made to reach the cotton still in farmers' hands so that proceeds of the sale of the cotton over and above the loans and carrying charges will go directly to the farmers. They pointed out, however, that inasmuch as a considerable percentage of the crop already has passed from the farmers to the country merchants and bankers who financed its production, or defrayed indebtedness of the farmers arising therefrom, it will be necessary also to obtain cotton from these sources in order to accomplish the purpose in view.

They stressed the fact that in such cases, even though the actual title to the cotton might not remain in the individual farmer, he will receive substantial benefits from advance made to those who financed him, and who will be called upon to finance his further operations—because these agencies will be put in a better position to carry him, and the storage of the surplus of this year's crop should result in better prices for next year's production.

Under the circumstances, the Farm Loan Board feels that, for the purposes of the plan of storage and orderly marketing of cotton for which the Cotton

Finance Corporations referred to in my letter of Nov. 6, are being formed in the cotton states, the Federal Intermediate Credit Banks may discount notes offered by such corporations when it appears to the satisfaction of the banks that the proceeds of such notes have been advanced or used in the first instance for financing the production of cotton or defraying indebtedness arising from such production, provided, of course, that this privilege shall not be extended to any person for financing the purchase of cotton for speculation therein.

The representatives of the Cotton Finance Corporations stated also that it would be desirable, and probably necessary, that they be able to advance the full amount decided upon, as, for example, nine cents per pound on the basis of middling, upland $\frac{3}{8}$ -inch white cotton, without any deduction in advance for interest on the loan or carrying charges against the cotton. After careful consideration, the Board concluded that:

(a) Such notes having a maturity of 18 months may be discounted for the Finance Corporations. Interest on the notes to be permitted to accrue until maturity without payment being required by the Federal Intermediate Credit Banks at any time prior thereto unless previously collected by the Finance Corporation;

(b) That those notes may be drawn so as to cover not only the original advance made by the Finance Corporations, and interest, but in addition such expenditures as the various corporations might find it necessary to make for carrying charges, such as storage, insurance, weighing, classing, transportation, and sales expenses. Federal Intermediate Credit Banks may, during the life of the loan, make proper advances to the corporations for such expenditures on the basis of the security already held.

These Cotton Finance Corporations, the Co-operative Marketing Associations, and other agencies in the cotton States are co-operating in working out the problems of marketing in an orderly way the surplus of this year's crop of cotton and the board feels that the Federal Intermediate Credit Banks have a splendid opportunity to demonstrate their ability and willingness to render effective aid in meeting the problem.

If you have not already done so, it is suggested that you keep in touch with the representatives of the Cotton Finance Corporations and Co-operative Marketing Associations in your district and do everything possible to facilitate their operations, keeping us advised of the progress made and all developments in connection therewith.

Federal Reserve Board's Ruling on Eligibility for Rediscount of Notes of Cold Storage and Warehouse Company.

In its September Bulletin, the Federal Reserve Board made public the following ruling in which it holds that certain notes of a cold storage and warehouse company are not properly eligible for rediscount at a Federal Reserve Bank.

The Federal Reserve Board has been requested to rule upon the eligibility of certain notes of a cold storage and warehouse company for rediscount at a Federal Reserve bank.

It appeared that this company is regularly engaged in the finance business through the making of loans to customers against the security of goods stored with the company. It issues two classes of paper: (1) Collateral trust notes secured by the pledge to a trustee of customers' notes payable to the company, representing advances made to customers on the security of goods stored; and (2) straight unsecured notes payable to banks. It conceded that its collateral trust notes are ineligible for rediscount; but contended that its straight unsecured notes are eligible, on the ground that they are issued to finance its current operations. In support of this contention it was stated that the company's quick assets (exclusive of advances to customers) are in excess of its current liabilities (exclusive of its liability on collateral trust notes); that its current accounts receivable consist of accrued storage charges billed to customers but not yet paid and bills rendered to customers for services, ice, and material; and that its current operating expenses consist of labor, electric power, material, interest on bonds, administrative expenses, and other usual expenses incident to a going business. On the other hand, it was admitted that the company's bills receivable representing advances made to customers sometimes exceed its collateral trust notes outstanding by as much as 10 or 15%, although the usual practice is to deposit customers' notes in the hands of the trustee, and issue collateral trust notes against them as soon as possible, and the amount of customers' notes pledged to the trustee is approximately the amount of the collateral trust notes outstanding, the only margin required being represented in the value of the goods in storage against which advances have been made.

The board has given careful consideration to the question presented, and is of the opinion that these notes are not properly eligible for rediscount at a Federal Reserve bank.

The financial statement showing an excess of quick assets over current liabilities is valuable only as indicating that the borrower is in a liquid condition and that the borrowing is not for capital purposes or for permanent or fixed investments of any kind. In order to be eligible for rediscount under the terms of section 13 of the Federal Reserve Act, a note must arise out of an actual commercial transaction; that is, it must have been issued or drawn for agricultural, industrial, or commercial purposes or the proceeds must have been used or must be intended to be used for such purposes. The eligibility of the notes in question therefore depends upon the character of the transactions out of which they arise or the use made of the proceeds, and the mere fact that the company's statement shows an excess of quick assets over current liabilities is not alone sufficient to establish the eligibility of the notes.

It appeared that this corporation is regularly engaged in the finance business through the making of loans to other parties against the security of goods stored with the company by such parties, and that it finances the major portion of this business through the issuance of collateral trust notes secured by the notes of its customers. It conceded that such collateral trust notes are ineligible for rediscount, because they clearly are finance paper under the terms of section 13 (b) of the board's Regulation A and the ruling published on page 308 of the March, 1921, "Bulletin."

This company, however, borrows some money from banks on its own straight unsecured notes and desired to have such notes declared eligible for rediscount, on the theory that the proceeds of such notes are used exclusively for its current operating expenses. The company's current operating expenses, however, are necessarily incidental to its principal business, and their character must be determined by the character of its principal business. Even if its borrowings for current operating expenses could be completely segregated from its borrowing of funds to be advanced to other parties, therefore, it would seem that its borrowings for current operating expenses should be classed as a borrowing for finance purposes, because it arises out of the finance business and not out of a commercial, agricultural, or industrial business within the meaning of the Federal Reserve Act and the board's regulations.

Moreover, a corporation engaged in the finance business necessarily must have some working funds to enable it to make advances to its customers in

the first instance and to carry paper resulting from such advances until it can refinance itself by the issue and sale of collateral trust notes secured by such paper. The proceeds of the unsecured notes made by such a corporation, therefore, would almost certainly be used to some extent in making advances to its customers, and this corporation admits that the amount of advances made to its customers occasionally exceeds the amount of collateral trust notes outstanding by as much as 10 or 15%. It is clear that the borrowings of the company on its straight unsecured notes payable to the bank would, at least to the extent of such excess, be for the purpose of making loans to third parties. As a practical matter, it is almost certain that the proceeds of all borrowings made by the company either on collateral trust notes or on straight notes payable to the banks go into a common fund out of which advances to customers as well as current operating expenses are taken, and it would be impossible to distinguish the proceeds of one class of loans from the proceeds of the other, even if the borrowings of a finance company for its current operating expenses could be considered a borrowing for a commercial instead of a finance purpose.

In view of these considerations the board is of the opinion that the notes of this corporation can not properly be considered eligible for rediscount at a Federal Reserve bank.

Eligibility of Federal Warehouse Receipts Based on Stored Cotton.

The following is from the Dallas "News" of Oct. 31:

Farmers do not know much about the advantages of Federal warehousing of their cotton. Now that holding of cotton off the market is urged by almost everyone, R. L. Newton, in charge of the Southwestern division in the administration of the Federal warehouse act, submits the following timely suggestions:

Federal warehouse receipts are gilt-edged paper, negotiable at all times with cotton stored in such warehouses as adequate security.

If the grower who has stored cotton in a Federal warehouse wishes to sell his cotton he sells his receipt. This receipt contains all essential information as to the cotton, its grade and staple length and bale weight. The farmer obtains his grade and staple as part of the service, which in itself is something that he is not offered generally in the average country warehouse. Grade and staple length enable him to arrive at an approximate idea of its market value when he wishes to sell his cotton.

The farmer can obtain more advance money from Federal warehoused cotton than from the average cotton yard.

Concentrate Cotton.

The average yardticket shows no insurance, weight, staple or grade and the general practice in country warehouses is to take care of the cotton paper by margins which the grower has to pay when the price declines below the safety mark. If the margins are not met the loan may be called in and the cotton sold.

Farmers can ship cotton to Federal warehouses and have the local freight rate within 100 miles of Dallas, say, refunded when the cotton is shipped.

Federal warehouse men are carefully selected. Moral and financial responsibility are required to become eligible as a Federal warehouse man. A thorough investigation is made to determine the competency and integrity of those who are in any way connected with the operations of the warehouse. A bond is required of the warehouse man to insure strict performance of his duties. A uniform receipt is given for the cotton delivered by a grower, this warehouse receipt being printed on special Government paper, serially numbered, which guards against fraud. A thorough system of auditing of the warehouse books is in force four times a year by Federal examiners and there are penalties for violations.

Adequate Safeguards.

When a banker receives a Federal warehouse receipt for cotton it is prima facie evidence that all the safeguards of the Federal warehouse system are behind that particular receipt. No further investigation of the cotton has to be made and the paper is at once subject to discount with the Federal Reserve Bank or with correspondent banks.

There are only seven Federal warehouses in Texas and they are located at Hillsboro, Waco, Mart, McGregor, Dublin, Marlin and Ballinger. The number will be increased as soon as bankers as a whole realize the importance of such warehouses as safeguards against the practice of dumping cotton indiscriminately.

Ruling of Federal Reserve Board Governing Rediscount of Bankers' Acceptances Drawn to Finance Storage of Cottonseed.

The Federal Reserve Board in its September "Bulletin," published its ruling governing the eligibility for rediscount of bankers' acceptances drawn to finance the storage of cottonseed. The Department of Agriculture had previously made known the ruling in announcing the promulgation of regulations for the storage of cottonseed under the United States Warehouse Act, this having been referred to in our issue of Sept. 4, page 1195. The Reserve Board's announcement is as follows:

Bankers' Acceptances Drawn to Finance the Storage of Cottonseed.

The Federal Reserve Board has been requested to rule upon the eligibility for rediscount at Federal Reserve banks of bankers' acceptances drawn to finance the storage of cottonseed under the following circumstances:

Certain cottonseed oil mills own warehouses which they propose to lease to independent warehouse corporations under bona fide leases, the corporations to assume full control and management of such warehouses and to operate them as public warehouses which will be bonded and licensed under the United States Warehouse Act. It is proposed that such prime seed as is received by the mills—that is, seed which is in such condition that it may be safely stored for an indefinite period of time—will be stored by the mills in these warehouses until it can be processed into various cottonseed products, and the mills desire to finance such storage by means of bankers' acceptances secured by warehouse receipts for such seed. The owners of the cottonseed thus stored to have access to it at proper time for purposes of inspection.

The Federal Reserve Board has heretofore ruled that cottonseed, when stored under proper conditions, is a non-perishable, readily marketable staple agricultural product within the meaning of the Federal Reserve Act and the Board's Regulation A, and that therefore a bankers' acceptance secured by a warehouse receipt for cottonseed is eligible for rediscount at a Federal Reserve bank, provided the cottonseed upon which the acceptance is based is stored under such conditions as to protect it adequately from

deterioration and provided the acceptance complies in all other respects with the requirements of the law and the Board's regulations. This ruling may be found in the 1925 "Federal Reserve Bulletin," at page 737.

The Board has also had occasion to rule upon the right of member banks to make acceptances issued against goods stored on premises owned by the owner of the goods but leased to an independent lessee who issues warehouse receipts covering the goods in storage. The Board held in this ruling, published on page 634 of the 1918 "Bulletin," that if the premises in question were actually turned over to the lessee on a bona fide lease, the lessee being independent of the borrower and having entire custody and control of the goods, a member bank could properly accept drafts drawn against warehouse receipts issued by the lessee; but held further that the borrower should not have access to the premises and should exercise no control over the goods stored. Such drafts eligible for acceptance by member banks would also be eligible for rediscount at Federal Reserve banks, if of proper maturity.

Under the ruling of the Federal Reserve Board just mentioned access to the premises where the goods are stored is not permitted to the owner of the goods for inspection or for any other purpose. This condition of the previous ruling can not be met in the storing of cottonseed. Due to the fact that cottonseed is subject to deterioration from heating, cottonseed owners storing their seed in warehouses are accustomed to visit these warehouses from time to time for the purpose of inspecting the seed. In order, therefore, that bankers' acceptances drawn to finance the storage of cottonseed may be eligible for rediscount, a modification of the principle stated in the Board's previous ruling with reference to the owners' access to the goods is necessary.

After a consideration of these questions, the Board now rules that—

"Bankers' acceptances secured by cottonseed stored in a warehouse owned by the owner of the cottonseed but leased to an independent public warehouse corporation under bona fide lease, the corporation assuming exclusive control and management of such warehouse and operating it as a public warehouse bonded and licensed under the United States Warehouse Act, may be eligible for rediscount at a Federal Reserve bank, although the owners of the cottonseed are permitted access to the seed in storage at proper and reasonable times for the purpose only of inspecting the condition of the seed, provided that on all such occasions the consent of the independent warehouse corporation is first secured and that the owner of the seed or his representative is accompanied by a proper representative of the warehouse corporation."

It should be understood that such acceptances must be of proper maturity and must in all other respects comply with the pertinent provisions of the Federal Reserve Act and the Board's Regulation A. In addition, it is necessary that the cottonseed upon which such acceptances are based be stored under such conditions as to protect it adequately from deterioration.

The Federal Reserve Board is informed that the Department of Agriculture is soon to issue a special regulation governing the storage of cottonseed by warehouses licensed under the United States Warehouse Act. This regulation, a tentative draft of which has been carefully considered at a conference between representatives of the Department of Agriculture and the Federal Reserve Board, will, it is believed, provide adequate safeguards. If the storage of cottonseed complies with this regulation, which is to be promulgated by the Department of Agriculture, it will be deemed by the Board a storage under such conditions as to protect the cottonseed adequately from the deterioration within the meaning of this ruling.

The question whether bankers' acceptances are desirable from the credit standpoint is, properly, a question for determination by the Federal Reserve bank to which the paper is offered for rediscount rather than by the Federal Reserve Board.

Federal Reserve Board Rules that Cottonseed Oil is not an Agricultural Product Within Meaning of Provision in Section 13 of Federal Reserve Act.

In ruling that cottonseed oil cannot properly be deemed an agricultural product within the meaning of the third paragraph of Section 13 of the Federal Reserve Act, the Federal Reserve Board in its December "Bulletin," says:

The Federal Reserve Board has recently been requested to rule upon the question whether crude cottonseed oil is a "non-perishable, readily marketable, staple agricultural product" within the meaning of the third paragraph of Section 13, which authorizes Federal Reserve banks to discount or purchase sight drafts drawn to finance the domestic shipment of non-perishable, readily marketable, staple agricultural products.

After careful consideration of this question, the board is of the opinion that cottonseed oil is essentially a product of manufacture and can not properly be deemed an agricultural product within the meaning of the third paragraph of Section 13.

Under date of March 19 1926, the Federal Reserve Board addressed a letter to all Federal Reserve banks (X-4564) wherein it ruled that flour and bran are essentially products of manufacture and can not properly be considered agricultural products within the meaning of the above-mentioned provision of Section 13. This ruling was based upon a decision of the Supreme Court of Kansas in the case of Getty vs. C. R. Barnes Milling Co. (19 Pac. 617), wherein it was squarely held that flour is not an agricultural product.

Cottonseed oil is a product of some three or four steps of manufacture which are analogous to the steps involved in the production of flour and bran from wheat, and the Board feels that the same rule must necessarily apply to cottonseed oil as to flour and bran.

Early Tax Reduction Called for By Chamber of Commerce of the United States.

A demand for the early reduction of taxation equal to the annual surplus produced under present law was declared on December 18 by the Board of Directors, meeting in Washington, to be the official position of the Chamber of Commerce of the United States. With this was coupled the further demand that a large portion of the surplus should be applied to the reduction of the corporation income tax. By this declaration the National Chamber is placed in the position of virtually taking issue with the Treasury Department and the majority members of the Ways and Means Committee of the House of Representatives, in asserting that tax reduction should be undertaken at once to the extent of removing the inequality that bears most heavily upon corporate business. At the

same time the warning was sounded that the corporation tax rate will be automatically stepped up to 13½% on January 1 and will apply to earnings of 1926, thus increasing the burden on business to raise still more revenue in the face of a mounting surplus. This action of the National Chamber is in conformity with its position on the general question of taxation as outlined in a statement made by President O'Leary to President Coolidge. In this necessity of reducing the corporation income tax, and of repealing the estate tax and certain excise taxes was strongly emphasized. The principles of federal taxation for which the Chamber stands have been determined by formal vote of its members throughout the country. The propositions which the Board, therefore, now declare in accord with these principles are:

1. Congress should make early provision for the reduction of taxation substantially equal to the annual surplus realizable under the present law; the equitable distribution of the tax burden calls for the application of a large portion of this surplus to the reduction of the corporation income taxes.
2. There should be developed a systematic program of revenues and expenditures for the national government to the end that these may be substantially balanced.

At the same meeting of the Board the Chamber's Committee on taxation reported unanimously that it believes that "for the present all payments made by foreign governments to the United States on account of both principal and interest of their debts should be applied to the retirement of the national public debt. The report states:

Horizontal rebates or reductions in taxes, while always acceptable to the recipients thereof, do not remove any inequalities which may exist in the system. While practical conditions may not at present permit an immediate general revision of the revenue law, no such general revision will be necessary to bring into more equitable relation with other taxes the levy which is now most out of line, namely the corporate income tax, since this may be adjusted by the simple process of changing the rate in the existing statute.

This calendar year at the rate of 13% on net profits, it is estimated that the corporations will pay to the national government about \$1,200,000,000 in income taxes. The estimated surplus for the fiscal year is sufficient to permit of an immediate reduction to 10%. Next year, if this particular provision of the revenue act is not changed, corporations must pay at the rate of 13½% on income, thus further increasing the present burden of taxation and paying into the Treasury still larger sums which are not necessary to meet the current expenses of government. At the present time, the majority of those paying individual income taxes pay at the minimum rate of 1½%, yet these numerous taxpayers are assessed at the rate of 13% on all income received from corporations in the form of dividends.

In 1924 the dividends reported by individual taxpayers paying on \$10,000 or less of income amounted to 925 million dollars. To pay this tax required profits of \$1,057,000,000 on which 132 millions in corporation taxes were paid. The minimum tax on the same profits had they been taxed to the same individuals would not have exceeded 18 millions, or 114 million dollars less than the corporations paid. The characteristic American method of doing business is by means of corporate organization. Since the corporations must earn and provide a large proportion of individual income upon which the personal income tax is based, the proper adjustment of the corporation tax is of essential importance. It is manifest that a burdensome levy on the sources of production must inevitably discourage enterprise and business expansion and result in the curtailment of earnings.

The members of the Committee submitting the report were:

Dr. T. S. Adams, Yale University; F. H. Clausen, President, The Van Brunt Mfg. Co., Horicon, Wis.; John M. Crawford, President, Parkersburg Rig & Reel Co., Parkersburg, W. Va.; Frank C. Dillard, Attorney, Sherman, Texas; William S. Elliott, Law Dept., International Harvester Co., Chicago, Ill.; W. G. Gephart, Vice President, First National Bank, St. Louis, Mo.; Edward E. Gore, Smart, Gore & Co., Chicago, Ill.; Mark Graves, Member of State Tax Commission, Albany, N. Y.; William Fortune, War Memorial Building, Indianapolis, Ind.; C. C. Hieatt, President, Consolidated Realty Co., Louisville, Ky.; George O. May, Price, Waterhouse & Co., New York City; H. H. Rice, Asst. to the President, General Motors Corp., Detroit, Mich.; Carroll J. Waddell, Drexel & Co., Philadelphia, Pa.

Notes Secured by Adjusted Service Certificates Rediscounted by Federal Reserve Banks, Not Eligible as Collateral Security for Federal Reserve Notes.

From its December "Bulletin" we take the following ruling by the Federal Reserve Board:

The question has recently arisen whether notes secured by adjusted service certificates, issued under the provisions of the World War Adjusted Compensation Act and rediscounted by Federal Reserve banks, may be used as collateral security for Federal Reserve notes.

Section 502 of the World War Adjusted Compensation Act authorizes incorporated banks and trust companies to make loans on notes secured by adjusted service certificates issued under the provisions of that Act. This section also makes such notes eligible for rediscount with Federal Reserve banks, but it does not contain any provision making them eligible for use as collateral security for Federal Reserve notes.

Such notes could, therefore, be used as collateral security for Federal Reserve notes only if they come within those provisions of Section 16 of the Federal Reserve Act which define generally the classes of paper which may be used for this purpose. Under those provisions of Section 16 notes which may be used as collateral security in this way are those acquired under the provisions of Section 13 of the Federal Reserve Act. Section 502 of the World War Adjusted Compensation Act does not purport to amend or become a part of Section 13 of the Federal Reserve Act, but is an entirely independent statute, and therefore notes secured by adjusted service

certificates do not come within the above-mentioned provisions of Sections 13 and 16.

In the bill which subsequently became the World War Adjusted Compensation Act it was specifically provided that notes secured by adjusted service certificates should be eligible as collateral security for Federal Reserve notes, but this provision was stricken out by a Senate amendment. It was subsequently stated on the floor of the House that the provision was stricken out so that notes secured by adjusted service certificates might not be used as collateral for Federal Reserve notes.

Notes secured by adjusted service certificates and rediscounted by Federal Reserve banks, therefore, are not eligible for use as collateral security for Federal Reserve notes.

Figures of Brokers' Loans for Period from 1917 to 1926 Made Public by Federal Reserve Board.

Figures of brokers' loans placed by New York City banks during the nine years from 1917 to 1926 have been made available by the Federal Reserve Board in its November "Bulletin" just issued. While the Board has during the current year been giving out, weekly, the figures of brokers' loans since January, the reports prior thereto have remained confidential until the present time. In presenting the figures for the back years the Board says:

Brokers' Loans, 1917-1926.

During the period of war financing, when it became necessary for the New York City banks to take concerted action to exercise some control over the money market in order to prevent serious shortages of funds, there was inaugurated a series of daily reports by the leading New York City banks to the Federal Reserve Bank of New York, giving loans made by them to brokers, and showing separately loans for their own account and for the account of correspondents. These reports were made by the mutual consent of all the banks concerned, with the understanding that the data would be held confidential.

These reports proved so useful that they have been continued up to the present time with the co-operation of the large New York City banks. At the time of the hearings before the Joint Congressional Commission of Agricultural Inquiry the figures from the beginning of 1919 to the middle of 1921 were made available to Congress and were published in the hearings, under the general designation of street loans, but otherwise they have remained confidential. The hearings also contain a more detailed explanation of the nature of the reports and the circumstances surrounding their origin.

Following the inauguration by the Federal Reserve Board in January of this year, as a part of its regular reporting service, of a series of weekly reports on loans to brokers and dealers in securities, the daily reporting New York City banks have all consented to the publication of the brokers' loan figures for previous years, and accordingly the figures for the whole period for which they are available are published herewith, in order to make it possible to study the movement of brokers' loans over a long period. These back figures for brokers' loans are on a basis somewhat different from those that have been reported weekly since the beginning of this year under the heading of loans to brokers and dealers in securities. This fact is brought out by the chart [This we omit—Ed.], which shows the course of brokers' loans for about nine years and in which the comparative levels in January 1926 are shown both for the old series and for the new one, the new series being represented by the heavier line. The figures used from both series are for Jan. 27, and the difference between the two series for this date is shown by the following table:

Brokers' Loans, Jan. 27 1926.

	Confidential Daily Reports.	Weekly Published Figures.	Differ- ence.
For New York City banks:	\$	\$	\$
Total loans to brokers.....	1,185,000,000	1,201,000,000	16,000,000
On call.....	700,000,000	706,000,000	6,000,000
On time.....	485,000,000	495,000,000	10,000,000
For correspondents:			
Total loans to brokers.....	1,685,000,000	1,897,000,000	212,000,000
On call.....	1,185,000,000	1,429,000,000	244,000,000
On time.....	500,000,000	468,000,000	32,000,000

The weekly reports are part of the Board's regular reporting service and include all the member banks in New York City which report their condition weekly to the Federal Reserve bank; there were, on Jan. 6, 61 of these banks, which compares with 43 banks, a few of which are non-member banks, making confidential daily reports. The current weekly reports are also somewhat more comprehensive as to the loans which they include, largely because loans to dealers in securities, which were included by some of the banks reporting confidentially, but not by all of them, are specifically and uniformly included in all of the regular weekly reports. Loans for correspondents as covered by the confidential reports do not distinguish between loans for correspondent banks and for other correspondents.

The table gives the figures by weeks. The dates correspond with those of the weekly condition statements for reporting member banks in leading cities and are for Fridays until April 22 1921, and for Wednesdays thereafter.

Des Moines Banks Refuse to Make Loans on Veterans Insurance Certificates.

The following is from the Des Moines "Registrar" of December 18:

Des Moines banks will refuse to make loans on veterans' bonus insurance certificates because of uncertainty as to provisions for safeguarding them in cases where payments are not made on the loans, it was learned last night.

According to the provisions of the veterans' policies, holders of certificates that were given not later than Jan. 1, 1925, are at liberty to borrow a sum amounting to about 8% of the total amount of the policy. Government instructions forbid the issuance of loans on any of the certificates until Jan. 1, 1927.

There are between 8,000 and 9,000 veterans in Des Moines and Polk county who hold the bonus insurance certificates, bankers say, and hundreds of them have been applying for information about the loans during the last two weeks.

J. E. Bradbury, assistant cashier of the Bankers Trust Company, pointed out last night that the government policy states that the loans are to be made on the certificates as collateral and that "if the veteran does not pay the principal and interest of the note on maturity, the bank holding the note and certificate may at any time after the maturity of the loan, but not before the expiration of six months after the loan was made, present them to the director of the United States veterans bureau."

"The uncertain part of this provision is that the director of the bureau may take up the notes at his discretion," Mr. Bradbury commented. "His discretion will be limited by the extent of the funds provided for this purpose. Undoubtedly the fund, which is necessarily limited, will be inadequate."

"According to the present indications, with hundreds of veterans inquiring about the loans, a great number of the notes will be unpaid. If the banks make these loans, they will get into a pyramiding proposition that will tie up large sums of money until the policies mature in eighteen years," he declared.

"The banks in Des Moines, according to the present sentiment displayed, will wait until there is a definite agreement to take up these notes and a special fund is set aside to pay them."

Daniel C. Newquist, vocational expert of the Des Moines branch of the United States veterans bureau, declared last night that he had just received a regulation from Washington providing that directors of the bureau will be required to take up the notes when presented by the banks. He admitted, however, that no special fund has been set aside to pay for the notes.

Mr. Newquist pointed out that the veterans bureau has a large reserve fund, formed by the income on the investment of the insurance money. "At present, this reserve fund is invested in bonds, but some of it will undoubtedly be used to form such a fund," he declared.

"The bonus insurance certificates are gilt-edge securities and I can see no reason for hesitancy on the part of the banks to make loans on them," he said.

Congress Adjourns for Christmas Holidays.

Congress recessed on Dec. 22 for a period of 11 days until after the Christmas holidays. A resolution to recess from the 22d until Jan. 3 was approved at the beginning of the day's session by the Senate. It already had the approval of the House.

Senate Confirms Nomination of C. T. Schuneman as Assistant Secretary of the Treasury.

The Senate on Dec. 21 confirmed the nomination of Carl T. Schuneman of St. Paul to be an Assistant Secretary of the Treasury. He succeed McKenzie Moss, who resigned to accept appointment to the Court of Claims bench. The nomination of Mr. Schuneman was sent to the Senate by President Coolidge on Dec. 17. He is connected with the firm of Schuneman & Evans, merchants, and is a member of the St. Paul Bar.

Sesqui-Centennial Exposition at Philadelphia Officially Closed—Grounds to Remain Open Until Dec. 30—Deficit of \$5,200,000.

Philadelphia's Sesqui-Centennial Exposition, held in celebration of the nation's 150th anniversary, was officially brought to a close on Nov. 30. The closing date had originally been fixed as Dec. 1, but on Nov. 19 the directors of the exposition decided to extend for another month the period during which it would remain open—or until Jan. 1. A resolution recommending the reopening of the exposition next spring was withdrawn at a meeting of the directors of the Exposition Association on November 29, when some of the members indicated their opposition to the proposal. It was stated on Nov. 19 that concessionaires had been exerting every effort to have the exposition operate again next year from May until November. Emphasizing the fact that it was far from

complete when the gates were thrown open to the public on May 31, many of the concessionaires asserted that they had lost large sums because of this and urged the directors to reopen and give them an opportunity to recoup their losses. Associated Press advices Nov. 19 also said:

The exposition has been a financial failure and the directors pointed out that financial aid from the Federal Government would have to be forthcoming in order to reopen in 1927.

With the official closing of the exposition the Associated Press accounts from Philadelphia on Nov. 30 stated:

Viewed purely as a celebration of a great event in American history, the 150th anniversary of the signing of the Declaration of Independence, the exposition was regarded by many as having accomplished its patriotic purpose. Financially, it was not a success. The City of Philadelphia will have to meet the unpaid bills.

On the desk of City Council to-night rest bills aggregating more than \$5,000,000, to pay which a bond issue was authorized at the election early this month. It has been estimated that the show cost the city about \$17,000,000, not including \$3,000,000 contributed by citizens through the purchase of participating certificates on which there will be no return.

More than 6,000,000 persons visited the exposition in the six months it was open, of whom more than 4,500,000 paid the admission price of 50 cents.

It was estimated that the visitors attracted by the exposition and national conventions spent \$17,000,000 in Philadelphia.

The following figures regarding the attendance at the exposition were contained in Philadelphia Associated Press advices Dec. 1:

Figures made public to-day showed that 4,622,211 persons paid their way into the Sesqui-Centennial Exposition, which closed yesterday.

The exposition opened May 31 and drew a steadily increasing attendance, with the final months of operation showing considerably larger crowds than were present during the opening months. September was the best month, with October a close second. The monthly figures were:

June (including May 31), 271,593; July, 562,183; August, 804,308; September, 1,210,756; October, 1,048,987; November, 724,384.

More than one-fourth of the total attendance came on Sundays. An average of 58,469 persons paid to see the exposition on Sunday. The biggest days were Thursday, Sept. 23, the date of the Dempsey-Tunney prize fight, when 140,268 entered the gates; Sunday, Oct. 3, when Cardinal Dougherty said high Pontifical mass at the Sesqui-Centennial Stadium, with 125,968, and Philadelphia Rapid Transit Day, when the management of the city's transportation system invited all who wished to attend and paid their admissions, the invitation being accepted by 122,342 persons.

A \$1,000 participating certificate of the Sesqui-Centennial Exposition Association was sold at public auction to-day for \$40, or 4% of its face value. The sale was taken as an indication of the present worth of the bonds.

Mayor Kendrick was reported as stating on Nov. 18 that the deficit would be met through the \$5,000,000 originally intended for subway construction. Authority to transfer the money, it was stated, was granted by a vote of the people. From the New York "Times" we quote the following Philadelphia advices Dec. 8:

Sesquicentennial Exposition bills totaling \$5,000,000 were subjected to sharp criticism during the session of the City Council's Finance Committee to-day.

Disclosure by E. L. Austin, Director General of the exposition, that this sum was expended out of current expense funds for construction work led Councilman McCoach to demand tartly:

"Didn't the Sesqui pay any bills at all?"

The Councilman roundly scored exposition officials for spending \$5,000,000 on construction work "when it was seen that there would be a deficit."

On Dec. 7 Mayor Kendrick signed the ordinance authorizing the payment of the \$4,859,733 of Sesqui-Centennial bills, and about half of the 360 warrants necessary to pay them. It was noted in the Philadelphia "Ledger" that the warrants must be countersigned by Controller Hadley, who has said he would not do so until he had audited the bills. The "Ledger" in part added:

The audit, the Controller said, will not be started until after the bonds are sold next Monday and the \$6,000,000 is in the City Treasury. As the money cannot be turned in by the purchasers of the bonds until about Dec. 27, the Controller's audit will not begin before that date.

The sale of the bonds on Dec. 20 is reported among the items in our State and City Department.

Salaries paid by the Sesqui-centennial Exhibition Association aggregated \$2,500,000, exclusive of construction labor wages according to Associated Press dispatches from Philadelphia, Dec. 17, stating that this was revealed in figures made public that day, the dispatches said:

The figures showed that twenty exposition executives were paid \$10,800 a year each and that at one time approximately 4,000 persons were carried on the pay roll. A tendency to reduce salaries as the exposition went along was indicated in the amounts paid the various director generals, Colonel David C. Collier, the first to hold this position, receiving at the rate of \$25,000 a year; Captain Asher C. Baker, \$15,000 and E. L. Austin, present director, \$10,000.

The publicity department was reported to have spent more than \$500,000 to "sell" the exposition.

According to the Philadelphia "Ledger," except for Buildings Nos. 1 and 2 and 29 of the 48 galleries in the Palace of Fine Arts and a few other exhibits, the big fair is closed. Admission to the grounds during the current month will be 25 cents. The official closing of the exposition was marked by dual ceremonies observing "Commemoration Day" and "Connecticut Day," says the Philadelphia "Record," which in its account of the day's exercises said in part:

The Connecticut delegation arrived at Broad Street Station in a special train and was met by city officials and taken to the City Hall. Mayor Kendrick greeted the party and formally welcomed them to the city.

Arriving at the Sesqui grounds, the group was received by E. L. Austin, Director-in-Chief of the exposition, and Troop "G," Third Cavalry, escorted them into the grounds. The cavalcade halted a short time later and the Governor placed a wreath at the base of the Connecticut pylon, to the memory of the Signers of the Declaration of Independence from that State.

Guns Boom Salute.

As the party entered Camp Anthony Wayne, Battery C of the Sixth Field Artillery boomed a salute of 19 guns to the Governor. Brigadier-General H. G. Learned, Commander of the camp, received the party. The entire personnel of the Sesqui Expeditionary Force was reviewed by the Governor. After the review, exhibition drills were given by Company L, 12th Infantry; Battery C, Sixth Field Artillery, and Troop G, Third Cavalry.

The next visit was paid to the Connecticut State Building, a replica of the Federal State House at Hartford, where the Governor was met by Mayor Kendrick and his staff. Escorted by a detail from the Old Guard, State Fencibles of Philadelphia, the Governor and Mayor and their parties marched to High Street.

State Flag Presented.

At the Slate Roof House on High Street the Governor presented the Sesqui States' Committee with a flag of the State. Mrs. George H. Lorimer, Chairman of the States' Committee, received the State colors. Mrs. Lorimer presided at the exercises in the garden of the Slate Roof House and asked Mayor Kendrick to introduce the distinguished visitor.

Presenting Governor Trumbull, Mayor Kendrick said that the Connecticut Building was one of the most popular on the grounds, and that he had observed from day to day the great number of visitors that crowded the historic display.

In reply Governor Trumbull said that the State of Connecticut was glad to take part in the celebration of the one hundred and fiftieth anniversary of the independence of the nation, and that he was pleased to know that the exhibit of his State had been appreciated by visitors to the exposition.

Mayor Kendrick made a personal presentation of the national colors to the State's committee at the conclusion of the exercises. Old Glory will be added to the collection of State flags. The State colors will be preserved as a memorial of the Sesqui Exposition in Independence Hall.

The Gubernatorial party was then escorted by Mayor Kendrick to the reviewing stand on the lawn of the Pennsylvania Building, where the Mayor was tendered the final review of the troops of Camp Anthony Wayne and details from the navy and Marine Corps, stationed at League Island, and a detachment of Pennsylvania National Guard. Following the review, the troops took position in the Court of Honor and the colors were lowered. With the sounding of "retreat," a one-gun salute was fired and then followed the national salute of 21 guns, bringing to a close the military activities in connection with the exposition.

In the evening Mayor Kendrick, accompanied by members of the association, paid official visits to the officials of all Government, foreign and State buildings.

The day was brought to a close with a subscription dinner-dansant for the administrative staff and attaches of the Sesqui in the Alpine Haus, which was a reception to the Director-in-Chief, E. L. Austin.

After the exercises closing the exposition the Mayor with a sigh of relief said that he was satisfied that the Sesqui was over.

"In a way," said the Mayor, "I am glad the exposition is going to close, as it will definitely put to an end all of these whispers that have been prevalent since it opened. Let them take one last look at the exhibits they want to see, then we will close it."

With the official closing yesterday 900 employees will be released from their duties, which will be turned over to a skeleton force of 100 men.

At a meeting of the directors of the Exposition Association on Oct. 6, Mayor Kendrick, in referring to his efforts to make the exposition a success, had the following to say, according to the "Ledger":

My only ambition was to make the Sesqui-Centennial a success. We are going to meet this deficit and carry on to the very end just as we planned to do.

Philadelphia has made a mighty effort to celebrate in an appropriate manner the 150th anniversary of the signing of the Declaration of Independence. It could not have been properly celebrated in any other part of our country.

I have tried to do my duty in every way. I believe that the advertisement of the accomplishments of Philadelphia and the influence of this affair are far greater than the trifling loss we will suffer. I say trifling because good has been done not only for Philadelphia, but also for Americanization upon which all of this was founded. It has been worth all it will cost.

Failed in Our Estimates.

It is not our fault we didn't have 50,000,000 visitors. We did figure that with 2,000,000 people in Philadelphia and many millions more within a few hundred miles, at least 25,000,000 people would inspect the wonderful displays from foreign nations and other States and cities. We failed in our estimate. Less than 5,000,000 have paid to enter the grounds.

I wish the newspapers and the public would give credit to the people who have labored to put across this exposition. Every one in this room has done his best. We have all made sacrifices to entertain the distinguished visitors, the President of the United States, Ambassadors, Governors, Mayors and within a few weeks, Queen Marie of Rumania will be here.

I wish that Philadelphia could realize that the eyes of the world are on this city and in a few years we will receive credit for the patriotic effort we have made. It has been a serious physical effort for all of us. We have worked day and night.

Sesqui is an Asset.

The Sesqui is an asset. Don't listen to some one who was dismissed because he was not needed. Listen to the men and women who are carrying on this splendid work. These are my sentiments. I would have been a lucky Mayor if I had had courage to stay out of this affair. I went in because I felt it my duty. It is still a duty to me.

At a luncheon in his honor at the Sesqui-Centennial given by the Liberal Arts and Manufactures Club on Aug. 3, Mayor Kendrick (we quote from the Philadelphia "Record" of Aug. 4) admitted that it had been a mistake to open the exposition as early as the end of May, but explained that the Sesqui woes were due to the terrible weather that had

been encountered during the summer. The "Record" quoted the Mayor as saying:

Philadelphia has reason to be proud of the city and its accomplishments. The Sesqui-Centennial was not planned as a commercial venture. The weather and haste in building it were deterrent factors. But Philadelphians and citizens from all over the United States are now coming to the exposition in large numbers, and with further improvement in the weather the attendance figures will surpass the records of all previous expositions. The exposition is now an assured success.

It was one mistake to open the exposition too early, but the exposition was no more incomplete than others. You men are not going to be disappointed in the Mayor or the people. As Mayor of the city, which is a \$3,500,000,000 corporation, I say the City will stand back of the exposition and make it one of the greatest in history. In September and October the largest crowds will be here, and there is every indication attendance figures will surpass all previous records.

We are now virtually through with the construction and everything that could hamper us. The future is filled with promise and hope. The people of Philadelphia will stand loyally behind us and see that the exposition is carried to its conclusion as the greatest international affair in the history of the world.

Several proceedings were brought to force the closing of the exposition on Sunday. As to these actions, Associated Press accounts Nov. 28 stated:

This was the last Sunday for the Sesqui-Centennial Exposition, and, while the State Supreme Court withheld its decision on two appeals, one for and the other against operation of the exposition on Sundays, the gates of the fair were open as usual.

The appeals were heard by the Supreme Court last week. The first was that of the Exposition Association from the decision of the Dauphin County Court ordering the fair closed on Sundays and the other that of the Methodist Men's Committee of One Hundred against the decision of Judge Ferguson of the Philadelphia Common Pleas Court, refusing to issue a closing order. Numerous other court actions were instituted to close the exposition on Sundays, but none was successful.

Some of the largest crowds have visited the fair on Sundays, but to-day cold weather and a biting northwest wind kept the attendance down.

The official opening of the exposition with an address by President Coolidge was noted in our issue of July 10, page 165; the formal opening of the exposition on May 31 was reported in these columns June 5, page 3161.

Denial of Motion to Quash Indictments Against Albert

B. Fall and Harry F. Sinclair Growing Out of Teapot Dome Naval Oil Lease.

On Dec. 23 Justice Jennings Bailey, in the Supreme Court of the District of Columbia, denied motions to quash the indictments against Albert B. Fall, former Secretary of the Interior, and Harry F. Sinclair, President of the Mammoth Oil Co., in connection with the leasing of the Teapot Dome naval oil reserve in Wyoming. Feb. 2 was the date set for the beginning of their trial. Both pleaded not guilty to the charge of conspiracy to defraud the Government.

Cyrus E. Woods Named as Member of Inter-State Commerce Commission Succeeding F. I. Cox.

On Dec. 20 President Coolidge sent to the Senate the nomination of Cyrus E. Woods as a member of the Inter-State Commerce Commission succeeding Frederick I. Cox of New Jersey, whose term has expired. The Senate Inter-State Commerce Committee on Dec. 21 designated Jan. 6 as the date for consideration of the appointment. That the nomination will encounter opposition is indicated in press advices from Washington; one of these accounts appeared as follows in the New York "Times" of Dec. 21:

It is understood at the White House that Secretary Mellon added the weight of his influence to the support of Mr. Woods by Senator Reed of Pennsylvania. The latter spent half an hour with the President this morning and apparently removed all doubt existing in the President's mind as to Mr. Woods's part in the Pepper campaign.

According to reports among the Senators who are opposed to the seating of Senators-elect Smith and Vare, Mr. Woods's name will be linked with the heavy expenditures in the primary campaign in Pennsylvania. This is one phase of the opposition already developing to his confirmation. Another is that he displaces a man who represents the views of the people, and is an outstanding spokesman for "the interests." He is especially friendly with Secretary Mellon, who is said to have been behind every promotion Mr. Woods obtained in politics since he became a State Senator in Pennsylvania.

Opposition to the confirmation of Mr. Woods was reported not only among Western Senators who regard him as too close to the railroad and coal interests, but among Southwestern Senators, who contend that their section of the country has no representatives on the Commission.

Senator Reed met this opposition by saying that while the Commission is 27 years old, Pennsylvania never had a member and that its economic problems are as far-reaching as those of half a dozen Southern States combined.

The chief opposition to Mr. Woods, however, is based on the fact that he was counsel for the Pittsburgh Coal Co. This company and others in the Pennsylvania territory sought from the Commission a reduction of freight rates to the lake regions, Duluth and the Northwest, contending that West Virginia and Kentucky had a better rate on soft coal than the Pennsylvania operators. The case was stubbornly fought for more than a year, but finally was decided by the Commission against the Pennsylvania complainants by a vote of 8 to 3. The contention that the confirmation of Mr. Woods might influence the Commission in this matter and bring a reversal of its previous opinion is scouted by Senator Reed.

Senator Edge of New Jersey is expected to oppose the confirmation of Mr. Woods on the grounds that his appointment represents a move to distribute patronage to satisfy Senator Reed.

Investigation by Inter-State Commerce Commission Into Freight Rates on Cotton—Preliminary Conference at New Orleans.

A general investigation into freight rates on cotton moving to practically all destinations was ordered by the Inter-State Commerce Commission on Nov. 30. In order to perfect plans for the inquiry a preliminary conference was held at New Orleans on Dec. 17, by representatives of the Commission with representatives of State commissions, shippers and carriers. In its notice the Commission said:

There are pending before the Commission a number of formal complaints assailing the rates on cotton from substantially all important producing areas to substantially all destinations, including ports of export, to which cotton moves. No. 18390 and subnumbers assail inter-State and export rates only and allege them to be unreasonable only. Nos. 18570 and 18932 attack rates, rules, regulations and practices with respect to the transportation of cotton as unreasonable and unduly prejudicial, and No. 18932 also includes an allegation of violation of Section 13 of the Act with respect to Texas intra-state traffic.

The Commission also has pending a general investigation, No. 17000, instituted pursuant to the so-called Hoch-Smith resolution, which includes, among others, all of the rates, rules, regulations and practices assailed in the above-mentioned cases. It has concluded to assign for hearing with those cases No. 17000, insofar as it covers rates, rules, regulations and practices for or in respect of the transportation of cotton, which will be designated Part 3.

The scope of No. 17000 is broad. The spirit of the Hoch-Smith resolution contemplates that complaints involving rates on the products of agriculture are not to be delayed by investigations instituted pursuant to the resolution.

It is not the purpose of the Commission at the series of hearings at present in contemplation to go into all the matters concerning cotton, comprehended by No. 17000, but to confine the evidence as nearly as may be to such as will enable it adequately to dispose of the issues raised by the formal complaint cases as promptly as possible.

No decided or submitted cases relating to the transportation of cotton have been reopened but this will not preclude the Commission, in the disposition of the present inquiry from reaching conclusions different from those determined in prior cases if such action seems warranted.

In order to perfect plans for the preparation and presentation of data with a view to avoiding duplication, and to discuss the scope to which this proceeding shall presently be limited and the formulation of a program for handling it which will promote expedition and meet the wishes of interested parties insofar as that consistently can be done, a preliminary conference will be held at the St. Charles Hotel, New Orleans, La., Dec. 17 1926, at 10 a. m., by representatives of the Commission with representatives of State commissions, shippers and carriers.

The times and places for the hearings will be announced later.

A proposed report will be issued.

At the New Orleans hearing on Dec. 17 Grady B. Ross, spokesman for the Southwestern lines, estimated that a 20% reduction in cotton rates would lower the railroad freight revenues at least \$10,000,000, and served notice that the railroads in turn would ask that provision be made to raise the rates on manufactured products to yield an equal amount, if the application of the cotton producers is granted. The New Orleans "Times-Picayune," from which we quote the foregoing, also said in part:

Yesterday's meeting was in the nature of a conference of shippers, railroad representatives, and railroad commissions of the South, to determine a method of procedure in the cases brought by cotton growers' co-operative associations in all Southern States except Florida and Mississippi. The conference ended with the contesting parties apparently farther apart than at the beginning.

Commissioner Woodlock, who was assisted by Examiner G. R. Mattingly, announced that failing a mutual agreement between the parties interested, the Inter-State Commerce Commission would have to decide on the question of time, place and procedure in the hearing.

Robert S. Marx, representing the American Cotton Growers' Exchange and the 11 co-operative associations who made the complaint against the present rate level, was insistent that hearings start not later than Feb. 1. Mr. Ross, on behalf of the Southwestern railroads, was equally positive they could not undertake the hearings until March 1.

Bitter Struggle Foreseen.

The disagreement as to the date of opening the hearings led to a number of sharp exchanges, and it was developed that the co-operatives and the railroads are prepared for a bitter struggle over the pending cases.

Mr. Ross emphasized the magnitude of the proceedings by estimating that it will cost the railroads from \$250,000 to \$300,000 to defend the cases. He objected vigorously, however, when Mr. Marx subsequently referred to "this \$250,000 defense fund" of the railroads.

"There has been no fund raised," said Mr. Ross. "This is merely an estimate of what we believe these cases will cost the railroads before they have been concluded."

Mr. Ross was also in pronounced disagreement with the contention of the cotton co-operative associations that the railroads of the South, because of high freight rates on cotton, are earning more on their investments than the railroads elsewhere. On the contrary, he asserted, the Southwestern lines have never earned their allotted amount on any fair valuation, and the present proceedings involve a very serious reduction in revenues.

Roads Demand Revenue.

"We serve notice now," said Mr. Ross, "that we shall ask a general investigation of the entire rate structure of the Southwest, so that if a reduction in cotton rates is made, our revenue loss may be counterbalanced by an adequate increment in miscellaneous manufactured products."

"We emphatically insist that if under the Hoch-Smith resolution, preferential rates are to be given to farm products, we must recoup our losses on other traffic. We suggest that the Inter-State Commerce Commission appoint three or more of its examiners, including the Director of traffic, to consult with representatives of the Southwestern lines, and ascertain what other commodities may be proportionately raised, if the cotton rates are to be lowered."

"If a reduction in cotton rates is to be made, the Commission should first ascertain what other commodities shall bear an increased freight rate, so as to compensate us for our revenue losses on cotton."

The disposition of two other complaints as to cotton rates, which Mr. Marx claimed had been put on the co-operative cases as a "rider" and

should be heard separately, will also be decided by the Commission. Mr. Marx declared he would file a formal motion with the Commission to have these cases separated.

The complaints were brought by the Mississippi Railroad Commission in conjunction with the Attorney-General of Mississippi, and by the Oklahoma Corporation Commission.

Foreign Issues Protested.

Counsel for the Cotton Co-Operatives argued that the Oklahoma case involves the question of rate relations between Oklahoma, Arkansas and Texas, and that the Mississippi case seeks to inquire into rules, regulations and charges covering the handling of cotton. Both these cases, he declared, attempt to bring into the situation foreign issues having no relation to the complaint made by the cotton co-operatives as to the general level of cotton rates.

This claim, however, was assailed by Paul Walker, attorney for the Oklahoma Corporation Commission, Rush Knox, Attorney-General of Mississippi, T. P. Goodwin and B. F. Martin and Commissioner Moore of the Mississippi Railroad Commission. The Mississippi spokesmen asserted that in defending the present level of cotton rates the railroads would discuss the various services entering into the rates, such as concentration, reshipping, compression and other items, and that the consideration of these matters would be essential in discussing an application for a general rate reduction.

The general agreement of those present at the meeting, aside from the Oklahoma and Mississippi interests, and possibly the Southwestern rail lines, appeared to be against a consolidation of these two cases with the complaint of the cotton shippers, the plea for separation being emphatically supported by Chairman Williams of the Louisiana Public Service Commission, and Carl Glessow of the New Orleans Joint Traffic Bureau.

Speaking for the American Cotton Growers' Exchange and the co-operative associations of Louisiana, Arkansas, Alabama, North Carolina, Georgia, Missouri, Oklahoma, Tennessee, Texas, Arizona and South Carolina, Mr. Marx declared these organizations represent between 250,000 and 300,000 actual producers of cotton, and that the cases are equivalent to the collective action of more than a quarter of a million individual producers and shippers of cotton.

Reduction Sought.

"The purpose of the present action," said Mr. Marx, "is to bring about a reduction of not less than 20% in all inter-State cotton rates from all points in the South to all other points. The formal complaint sets forth that present inter-State rates on cotton are excessive and unjust, and constitute an unreasonable burden on the cotton producer."

"The complaint sets forth the general condition of the cotton growers and the fact that their standard of living has been depreciated by the low price of cotton; and further that the railroad earnings in the cotton belt, by virtue of high freight rates on cotton, are generally greater than in other parts of the country."

First Formal Complaint.

The present complaints differ from all other complaints of like character that have been instituted, said Mr. Marx, in that this is the first time the cotton farmer of the South has formally challenged the "unreasonably high rates" he is compelled to pay. Also there are no territorial discriminations complained of, or any geographical advantage claimed for one part of the South as against any other section. The cases, said Mr. Marx, are for the benefit of the South as a whole and for the benefit of every cotton producer whether or not he is a member of an association.

Study of Wheat Production and Relation of Wheat Prices to Freight Rates.

America continues to be the granary for the world and is more than holding its own in the world's wheat markets. This is shown by a study just completed by the Bureau of Railway Economics and made public Nov. 9 in respect to wheat production and the relationship of wheat prices received by the farmer to freight rates. Average annual exports of wheat for the past three years—1923 to 1925, inclusive—amounted to 173,500,000 bushels, according to the study, which is considerably greater than the annual average for any of the pre-war years from 1902 to 1913. The wheat crop, according to the study, constitutes the largest single commodity of all agricultural products transported by rail in the United States. Wheat tonnage averaged about 27% of the total tons of all agricultural commodities originating on the railways during the five years 1921-1925.

While freight rates on wheat have remained virtually unchanged, the study shows that in the crop year 1925-1926, a wide range of farm prices on wheat occurred. This range in farm prices was in marked contrast to the stability of freight rates and indicates that freight rates do not contribute to fluctuations in wheat prices. The study, which is based on information as to grades of wheat and prices obtained from country elevators, shippers or farmers at 146 origin points distributed through 20 States, producing 90% of the total wheat production of the country, shows that the spread in farm prices during the season in nearly all cases was greater than the total freight rate to market. It also shows that higher prices were sometimes paid for the same kind and grade of wheat involving longer hauls and greater freight rates than were paid at points involving shorter hauls and lesser freight rates. Prices were frequently different for the same kind and grade of wheat at different points in the same general territory, which had the same freight rate to market. In its analysis the Bureau says:

The results of this study have confirmed and strengthened the general conclusion previously reached in other bulletins, namely, that there is no relationship between freight rates on wheat and fluctuations in the price paid to the farmer for his wheat. Freight rates from Jerseyville, Ill., for

instance, to St. Louis and Chicago remained stationary at 5.7c. and 8.7c. per bushel, respectively, throughout the three seasons of 1923 to 1926. During the same period, however, farm prices for Red Winter No. 2 wheat are fluctuating over a wide range: from 79c. to \$1.09 per bushel in 1923-1924 from \$1.11 to \$2.08 per bushel in 1924-1925, and from \$1.45 to \$1.86 in 1925-1926. The price range over the three-year period was from a low of 79c. per bushel in 1923 to \$2.08 in 1925. This three-year spread of \$1.29 was 14.8 times the stationary freight rate to Chicago and 22.6 times the stationary freight rate to St. Louis. It is evident from this that freight rates do not contribute to fluctuations in wheat prices, and that the causes of the fluctuations must be sought elsewhere.

Report of New York State Housing Board—Governor Smith Urges Investment in State Housing Projects to End Congested Areas.

At a dinner at the Hotel Biltmore, this city, on Dec. 15, the preliminary report to Governor Smith of the New York State Board of Housing was presented by the Chairman of the Board, Darwin R. James. The Board, it will be recalled, was created under the State Housing Law signed on May 10 by Governor Smith, who had proposed the creation of a State Housing Bank, which, however, had been blocked by the Republicans in the closing session of the State Legislature last spring. During the past week it has been reported that there is a likelihood of Governor Smith in his message to the new Legislature, renewing his recommendation for a State Housing Bank. With the presentation on Dec. 17 of the preliminary report by Mr. James, Governor Smith urged that those having idle funds invest them in the proposed State Housing projects provided for in the Housing law, and thus aid in the wiping out of the city's slums. As to what the Governor had to say, we quote the following from the New York "Times" of Dec. 16:

Governor Talks of East Side.

The Governor, after listening to Mr. James's report, said he did not want to make a speech, but would talk informally. He recalled the passage of the old tenement house law and the existence at that time on the Lower East Side, of what was known as "Lung Block," because of the number of people taken from there suffering from tuberculosis. He said that notwithstanding the law the district still had the old-time tenements and "Lung Block" still exists.

"People are going to live where they want to live and not where some theorist tells them they ought to live," he said.

"I don't believe you are ever going to be able to reduce the population of those sections of the city," he continued. "The problem cannot be solved by telling these people they would be better off in Brooklyn or in Queens. We are not building rapidly enough in the sparsely-settled sections to take care of them and if we were we have not the transit facilities to take them there, so what is going to be done?"

Explains Law's Provisions.

The Governor went on to talk of the new housing law and explained the difficulty in taking land, thus giving the reason for the condemnation section which the law contains. He stressed the value of Manhattan real estate and said:

"When land on Manhattan Island is no good then nothing in this country will be any good. I'm only sorry that in a few days I will have lived on the island for fifty-two years without owning an inch of it."

After saying that one thing that would be accomplished if the housing plan went through would be the ending of the trips from Times Square "to the slums" and adding, "We don't want anything of that sort of thing in New York," the Governor said:

"Now we want the men who can afford to do it who have the money lying idle or in some other investment that is not paying very well, to be satisfied with 5% on a gilt-edged security on the land of Manhattan Island. We want those men to know that when they undertake this they will not only be getting a gilt-edged security, but will be doing something for the benefit of humanity, for men, for women and, above all, for the children, for it is the children who are suffering the most from the prevailing conditions. The men who come into this will help the city, they will help the State, and—particularly for those who start it—they will get a chance to share what God has given them with their less fortunate brothers and sisters."

The report presented by Chairman James in behalf of the Housing Board said:

The State Board of Housing, created under the terms of the State Housing Law,* was appointed by Governor Alfred E. Smith on July 1 1926. The Board at once began studies of the cost of acquiring suitable sites and of various types of building that may be erected thereon under the terms of the law.

The studies have now progressed sufficiently to justify the conclusion that a material contribution to the improvement of housing conditions can be made provided those interested are prepared to act under the law.

This preliminary report is presented to show several types of multi-family dwelling that can be erected in present tenement house areas of New York City, or other cities of the State, to rent for not more than the statutory maximum.

The essential features of the State housing plan are:

Limitation of dividends on capital invested in housing projects to eliminate speculative profit.

Exemption of the housing corporation, its stock, bonds and interest thereon from State taxation to reduce annual charges on the project.

Exemption of buildings and improvements from local taxation to further reduce annual charges.

Exercise of the power of condemnation to insure acquisition, at fair prices, of suitable sites for large scale production.

Statutory limitation of rents to insure that the economies so gained shall be conserved for the tenants.

Creation of a State Board of Housing to administer the law.

For the actual construction of housing projects, the Act authorizes the creation of two types of limited dividend company. The first, or "public limited dividend housing company," may exercise all the powers granted under the Act including the power of condemnation, but is prohibited from selling or otherwise disposing of any land acquired under condemnation

except to another "public limited dividend housing company" after the transfer has received the approval of the State Board of Housing.

The second, or "private limited dividend housing company," differs from the "public limited dividend housing company" primarily in that it may not exercise the power of eminent domain in the acquisition of property and is not prohibited from selling or otherwise disposing of land or buildings, provided the State Board of Housing shall consent.

Both the "public" and "private" limited dividend companies are required to raise at least one-third of the actual cost of the project by the issue of stock of the corporation and to raise the balance by mortgage bonds which shall not exceed two-thirds of the actual cost of the project. Stockholders are allowed the privilege of exchanging their stock for income debenture certificates bearing no greater interest than 5½% per annum. Dividends on the stock of the corporation may not be paid in excess of the rate of 6% per annum but the companies are permitted to accumulate a surplus equal to 12% of the outstanding capital stock. For the money raised on mortgage bonds the companies are not permitted to pay more than 5% per annum. Should the gross receipts of the company exceed interest and dividend payments and the authorized transfers to surplus, the balance shall be applied to the reduction of rents within one year after it becomes available.

If the company shall dissolve, any non-distributed earnings in excess of 6% revert to the State of New York.

Limited dividend companies both "public" and "private" are exempted from the payment of taxes and fees to the State or its officers, and their bonds and mortgages and the interest thereon are exempted from State taxation.

The Act authorizes municipalities to exempt the buildings and improvements of each project from local taxation, providing, however, that the buildings and improvements of a private limited dividend company may be exempted only so long as it owns and operates the property.

Condemnation may be used only by "public" limited dividend housing companies after specific authorization has been granted by the State Board of Housing. With such authorization the corporation may proceed under the condemnation law, or in the case of property situated within the City of New York the corporation may petition the city to institute proceedings under Chapter 21 of the Greater New York Charter for the acquisition of title. The city may then acquire property as for a public use and convey it to the corporation upon payment of all sums expended. In such cases the Act requires that the city obtain satisfactory evidence or assurance that the corporation will have the funds necessary to complete the transaction.

The law provides that rents in apartments built under its terms shall be limited to \$12.50 per room per month in the County of New York (Manhattan); \$11 in the County of Kings (Brooklyn) and The Bronx; \$10 in other counties within New York City (Queens and Richmond) and first class cities of the State and \$9 elsewhere.

An important provision of the Act invests the State Board of Housing with power to increase rents above the maxima fixed in the Act but only when the Board finds that changes in economic conditions in their application to the project are such that the maximum rents fixed by statute are insufficient to meet annual charges and that the deficit cannot be corrected by reasonable economies in management and operation.

There is no complicated procedure under the Act. Any three or more persons may become a limited dividend company by incorporating under the terms of the law, after obtaining the approval of the State Board of Housing. They may then issue stock and proceed to acquire a site by purchase or by condemnation when necessary. Thereafter, they may borrow on mortgage the remaining capital necessary to complete the project. The corporation is then required to manage the property for a term of fifty years, nor may the company dissolve within that term except with the approval of the State Board of Housing. Within the life of the corporation two-thirds of the cost of the project will be completely amortized.

With regard to tax exemption preliminary conferences have already been held with the municipal authorities in New York City. At the suggestion of the Mayor, the Chairman of the State Board of Housing has appeared before the Committee on Housing, Zoning and Distribution of Population of the Mayor's Committee on City Planning and Survey. An ordinance has been drafted for introduction into the New York City Assembly to provide that buildings which shall be erected hereafter and until 1937 under the terms of the State Housing Law, shall be exempt from all forms of local taxation other than special assessment.

Assured that practical operation under the law is feasible, the Board has proceeded to formulate regulations and rules of procedure to be followed in the organization of limited dividend corporations, in the acquisition of land, and in the erection of buildings which will meet the requirements of the law. Toward the initiation and operation of housing projects under the law the Board offers assistance and co-operation.

From the "Times" of Dec. 16 we take the following:

Following the reading of the preliminary report of the board by Darwin R. James, Chairman, Governor Smith made his appeal, promised State co-operation and announced that Mayor Walker had agreed that the proposed new tenements should be tax exempt. Immediately Alexander Bing, for the City Housing Corporation, offered to build in accordance with the board's plan, putting up \$100,000 as an initial investment.

Others Offer to Buy Stock.

This was followed by an announcement from Aaron Naumburg, banker, that he would subscribe \$100,000 to the stock of the corporation Mr. Bing proposed to form or to any other similar corporation which should operate under the new State Housing Law, and he supplemented this offer with one of \$200,000 to be invested on condition that four others made similar investments.

Under the law and the plan proposed by the board one-third of the cost of each housing undertaking must be raised by the issuance of stock of the corporation, the other two-thirds by first mortgage, with interest at 5%. Speaking for the Metropolitan Life Insurance Co., Walter Stabler, controller of the company, said the Metropolitan would invest its funds in mortgages at 5%, though that figure was two-thirds of 1% below the figure at which the company usually lent money.

The Housing Board in its report had said it was quite impossible to build, without an endowment, tenements in Manhattan to rent at \$5 a room per month, as had been suggested in connection with the \$50,000,000 proposal made by August Heckscher some weeks ago. Mr. Heckscher was present last night and, to a degree, opposed the board's plan, asserting that private capital would not participate. He asserted:

"This able and painstaking report again forces the conclusion that here is a piece of work which private enterprise cannot undertake and which the State and city must. We had hoped that our enormously wealthy citizens, of whom there are so many, would from a financial angle, rise to the task. But they will not, and we cannot wait."

Call Private Investors Timid.

Mr. Heckscher said private enterprise would always be dilatory, timid and looking for an inordinate profit. The State and city, he went on,

* Chapter 823, Laws of 1926.

could finance the undertaking with guaranteed securities and he specified 4% corporate stock, adding that if the State guaranteed the security it could be disposed of on a 3½% basis.

Following the statement of Mr. Bing, Mr. Heckscher's comments were received in silence. The Governor, who had already spoken once, moved that every one present become a "salesman" for the Bing project and said: "I want to see the fellows with a couple of hundred dollars investing in this new plan. After all, we have only a few millionaires, but there are millions with small sums to be placed. Once one of these corporations is successful others will be started and investors will come flocking."

Tax Exemption Pledged.

The report stressed the fact that tax exemption on the improvements was essential to the success of the undertakings it was proposing for the two types of corporations which the law permits to operate under the Housing Act. Governor Smith made it certain that this would be accomplished, saying:

"I had a long talk with Mayor Walker last night and he told me, with reference to this tax exemption, that just as soon as the Board of Estimate and the Housing Board had agreed on what was wanted he himself would introduce the bill to exempt the improvements undertaken under this plan from taxation by the city."

A letter to the heads of the Merchants Association, the New York State Chamber of Commerce and the Brooklyn Chamber of Commerce, has been addressed as follows by Mr. James with a view to bringing the housing subject before these several bodies:

December 18 1926.

Mr. Ralph Jonas, President Brooklyn Chamber of Commerce,

Mr. F. H. Ecker, President New York State Chamber of Commerce,

Mr. Lucius R. Eastman, President Merchants' Association,

Dear Sir—On Wednesday, Dec. 15, the State Board of Housing presented the enclosed report as a preliminary statement of its findings as to the practicability of the new State Housing Law. We have demonstrated to our satisfaction from the studies already made that the law offers a practical method of abolishing the worst housing in congested areas. The State Housing Law offers a means of providing in its stead sanitary, healthful dwellings adequate to meet the needs of decent family life at rents which wage-earners can afford to pay.

I know nothing so vital to the business life of this great city as for the city to rid itself of our tenement areas which were declared unfit for habitation any longer.

The law provides, as you know, for the organization of limited dividend corporations which have the power of condemnation and for whose projects the city is to grant tax-exemption. I am writing to ask that at the earliest possible date available you permit the State Board of Housing to present the subject of housing at a luncheon meeting of the membership of your organization. The Board is prepared to suggest speakers and to present a practical program and asks for your co-operation at Governor Smith's suggestion and request. I will be glad to arrange for some one to take up the details with you personally.

Very truly yours,

DARWIN R. JAMES, Chairman.

The reports of the possibility of a revival of the proposal for a State Housing Bank prompted the issuance by Mr. James of a statement on Dec. 17 as follows:

There is no reason to divert public attention at this time to a consideration of returning to the proposal for a State Housing Bank. The first requisite now is to determine whether the one good investment which must be made by limited dividend companies, the so-called equity money, will be forthcoming. If that can be had, we are assured at the present time of first mortgage money from the Metropolitan Life Insurance Co.

The State Housing Bank, in the form in which it was submitted to the Legislature, assured first mortgage money at a somewhat lower rate of interest, but we are not concerned with that phase of the problem at this time. What we need is investors who are willing to loan money for a 6% return in order to build a plentiful supply of decent houses for people, to replace our old tenement rookeries.

The signing of the State Housing bill was noted in these columns May 15, page 2751. The appointment of the State Housing Board was indicated in our issue of July 31, page 529. Besides Mr. James, the members of the Board are Oliver Cabana, Jr., John Halkett, Louis H. Pink and Aaron Rabinowitz. The following are associated with the Board: Sullivan W. Jones, State architect; George Gove, Acting Secretary, and Willard L. Thorp, Statistician.

August Heckscher Criticises State and City Housing Plans.

According to the "Herald-Tribune" of Dec. 21, August Heckscher, in a letter to Lawrence B. Elliman, President of the Real Estate Board of New York, made public on Dec. 20, supports the latter's opposition to tax exemption of residence property in any housing plan to rid the city of its unsanitary tenement districts. It is added that in his letter Mr. Heckscher also expresses strong disapproval of the Singer plan for condemnation of land south of Hudson Street and leasing of sites to builders on the 5% basis to be owned by the city in forty-two years when liquidated by a monthly rental of \$12 a month. The paper quoted goes on to say:

This plan was submitted Nov. 21 to Mayor Walker by Saul Singer, Vice-President of the Bank of United States and a member of the City Planning and Survey Commission.

The Singer plan, Mr. Heckscher declares, is "entirely wrong." He says that he has written Mayor Walker that it "cannot be countenanced." In the matter of tax exemption he says it is amazing how far "in the front rank New York City already is in this pell-mell exemption." Some of the exemptions of the recent past in his judgment are "a scandal and a disgrace."

In commenting on Mr. Heckscher's letter, Mr. Elliman issued a statement yesterday in which he charges that the entire housing proposition has been made a football of politics at Albany.

He subscribed to the general theory that slums are made by slum people and not by poor housing conditions. He points out that slum conditions already are making their appearance in the newer sections of the Bronx, and even in the Madison-Park section of the Nineties.

The proposition of tax exemption of housing grows out of the housing shortage discussions, he said, and the courts uphold it on the ground that there is an emergency. Last year, he says, the Housing Commission conceded the shortage had been overcome, which virtually meant that the Commission thought the emergency had ceased to exist.

Property owners, under the tax levy of 1927, he points out, will pay the cost of city government for \$900,000,000 of dwellings under the 1920 Law. If the rate is 2.68%, as contemplated, the additional tax to be distributed will be \$24,121,000.

Such exemption would be useless, Mr. Elliman contends, unless houses are literally "destroyed by the acre." This would mean that owners of what are termed "slum tenements" would be paying taxes and at the same time competing with the housing that is to be subsidized by the city, he declares.

Mr. Heckscher, in his letter supporting Mr. Elliman, says any tax exemption scheme must "stand on its own bottom," and that every property exempted must "show that it is a matter of strict necessity for the housing of the poorest of the poor."

J. C. Rovensky Heads Foreign Exchange Club.

At the annual business meeting of the Foreign Exchange Club of New York, held at the Hotel McAlpin on Dec. 16, J. C. Rovensky was elected President for the coming year. The retiring President was J. E. Underwood, of Brown Bros. & Co. The following is a complete list of officers elected for 1927:

President, J. C. Rovensky, Chase National Bank.
Vice-Presidents, D. J. Palmer, Farmers' Loan & Trust Co.; W. H. Draper, Jr., Bankers Trust Co.
Secretary & Treasurer, R. B. Raymond, U. S. Mortgage & Trust Co.
Executive Committee: J. E. Underwood, Brown Bros. & Co.; J. Heckscher, American Ex. Irving Trust Co.; S. E. Ruth, Philadelphia-Girard National Bank, Philadelphia; C. J. Stephenson, Canadian Bank of Commerce.

Mr. Rovensky is a Second Vice-President of the Chase National Bank and has charge of the foreign department.

Death of John E. Gardin.

John E. Gardin, formerly Vice-President of the National City Bank, and for years a dominant factor in foreign exchange circles, died at his home in Caldwell, N. J., on Dec. 23 after an illness of two months, due to heart disease. Mr. Gardin, who was in his seventy-fourth year, retired from the National City Bank in December 1917. He had since located at 60 Wall Street, where his business interests were centred, these including directorships in the Allied Machinery Co. of America, the First Federal Foreign Banking Association, the Horne Company of Yokohama and Tokio, and the National Insurance Co. of Denmark.

Annual Meeting of American Economic Association at St. Louis, Dec. 28-31.

At the 39th annual meeting of the American Economic Association, to be held at St. Louis, Mo., Dec. 28 to Dec. 31 1926, one of the most important discussions will be devoted to the problem of effective public utility regulation. This will be in the form of a round-table conference and will be in charge of Dr. John Bauer of the American Public Utilities Bureau. Dr. Bauer is the author of "Effective Regulation of Public Utilities" and has written extensively in the economic and technical press on valuation and problems of public utility regulation.

The fundamental question to be considered is whether the common system of regulation has worked satisfactorily, and if not, what can be done to make regulation effective and financially sound. The special question will be considered whether the reproduction cost or the actual investment in the properties is the most suitable basis of rate-making from the standpoint of effective and financially sound principles of regulation. Several aspects of this question will be briefly discussed by Prof. Robert L. Hale and Prof. J. C. Bonbright, both of Columbia University; Prof. H. G. Brown, University of Missouri; Prof. Martin G. Glaeser, University of Wisconsin, and Prof. C. E. McNeill, University of Nebraska. Those interested in this problem either from an operating, financial or administrative standpoint are invited to attend and join in this discussion. The chief purpose of the conference is to obtain an exchange of opinion on these important questions with which the great public utility industries are confronted.

State Bank Division of American Bankers Association Endorses Farm Plans Before Congress.

Endorsement of plans before Congress to provide American agriculture with a sound marketing system as a means of stabilizing prices is expressed in resolutions adopted by

the Executive Committee of the State Bank Division, American Bankers Association, made public by Guy E. Bowerman, President of the Division. The action of the committee was as follows:

The Executive Committee of the State Bank Division, American Bankers Association, believes that agriculture is and always has been handicapped as an industry because of the lack of a system of orderly marketing very much in the manner that our banking system suffered before the creation of the Federal Reserve System for want of necessary machinery to mobilize our credit resources. We believe that as a result of this lack of a nationwide system of marketing this great industry is now suffering from a depression that will ultimately affect the entire business life of the nation. Therefore, the committee heartily endorses the efforts now being made by Congress to create a sound, workable system of orderly marketing on a nation-wide plan that will enable the farmer to mobilize his crop surplus and market it in a business-like manner, thereby stabilizing farm prices.

Proposed Sale of Building of New York Produce Exchange Approved by Members.

The proposed sale of the building of the New York Produce Exchange, which fronts on Broadway, Stone and Beaver streets, has been approved by a majority of the members, whose referendum vote has been referred to the special Realty Committee. A statement in the matter issued by B. H. Wunder, President of the Exchange, says:

It was reported at a meeting of the Board of Managers of the N. Y. Produce Exchange held yesterday (Dec. 17) that there have been received 618 votes in favor of selling the real estate holdings of the Exchange subject to certain important provisions as set forth in the referendum issued to members Dec. 6; only 58 votes were cast in the negative. There being at this time 1,059 living members qualified to vote on this subject, the 618 votes cast in favor of the referendum constitutes more than one-half of this number, and consequently a majority vote of members.

The items embodied in the referendum as the provisions to be met out of proceeds from the sale of the real estate are as follows:

"To cover the existing mortgages and loans for which the Exchange is obligated, payment of Federal income taxes on profits resulting from the sale, provision for a self-supporting Exchange office building with adequate facilities not less than those now enjoyed and provision for refunding the Gratuity Fund."

According to the "Journal of Commerce," one offer for the property of a little more than \$11,000,000 has been received. It adds:

The Exchange expects to receive others. Its members are said to be advised by realtors that the site which they plan to vacate is the most valuable building location in New York. The towers of the new Standard Oil Building look down on the 42-year-old brick and mansard effect roof of the Exchange.

The Produce Exchange was built on piles driven in a sunken marsh. A foundation ample in strength to support a new skyline height of 60 stories has been mentioned by one realtor. At all events, it is common belief among the members that the purchasers will build to a height and in a style of architectural beauty to match Standard Oil and the International Mercantile Marine and Cunard buildings on the opposite side of Broadway.

ITEMS ABOUT BANKS, TRUST COMPANIES, &c.

The New York Curb Market membership of John J. Slaterry was reported sold this week to Paul M. Rosenthal, the consideration being stated as \$32,000. The last preceding transaction was for \$30,000.

Extending its operations throughout the world, the National City Bank of New York has completed plans for the absorption of the major branches of the International Banking Corp., heretofore conducted as a separate organization. An official statement in the matter, issued Dec. 22, says:

By this action the National City, which recently became the world's largest commercial banking institution through an enlargement of its capital structure of \$142,000,000, will be the first bank to carry the American flag into all corners of the globe. When the process of absorbing the corporation's branches is completed, the National City Bank will be operating directly in 75 of the most important cities of 22 countries.

Branches of the International Banking Corp. which will become foreign offices of the National City Bank early next year, include eight now established in China at Canton, Dairen, Hankow, Harbin, Hong Kong, Peking, Shanghai, and Tientsin; the four Japanese branches at Kobe, Osaka, Tokio and Yokohama; three in India at Bombay, Calcutta, and Rangoon and the one at Batavia, Java. Activities of the London branch will be combined with the bank's offices in the British capital. Branches in Spain and the Philippine Islands will continue to operate under the control of the corporation and its offices in London, San Francisco and head office in New York will be maintained.

These new members of the National City Bank organization will make an important addition to its list of foreign offices which already includes 25 on the Island of Cuba, 7 in the Dominican Republic and others in Argentina, Belgium, Brazil, Chile, England, France, Italy, Panama, Peru, Porto Rico, Uruguay and Venezuela. Four thousand correspondent banks will be scattered throughout the world, while closely allied to the bank is the National City Co. with more than 50 offices in the principal financial centres of the United States and Canada.

The International Banking Corp., whose activities are now being taken over by the National City Bank, was founded in 1901 to specialize in foreign business. In addition to its capital stock of \$5,000,000, owned entirely by the bank, it has surplus and undivided profits of approximately \$10,000,000 more. Upon purchasing the assets of the Asia Banking Corp., it became the only American banking institution to operate throughout the Orient and the largest American bank to be engaged in the foreign field.

With the approval by stockholders on Jan. 11 of a proposed \$25,000,000 increase in stock, the bank will have a capital of \$75,000,000, surplus of \$50,000,000 and undivided profits of nearly \$18,000,000.

Edward S. Rothchild, President of the Chelsea Exchange Bank, has distributed extra compensation checks to all employees following the usual practice of the institution at Christmas. A total of between \$20,000 and \$25,000 was distributed to approximately 150 employees. As provided by a resolution by the board of directors, the extra compensation was doubled this year. Employees with the bank one year or more received one month's salary against two weeks' salary last year. Employees in service from six months to one year received two weeks' salary against one week's salary last year, and all new employees received one week's salary. The current year has been a most prosperous one for the Chelsea Exchange Bank, according to President Rothchild. Net earnings on the \$1,500,000 capital stock, based upon actual figures to Dec. 1 and estimating the final month of the year will approximate nearly 32%. Deposits at the present time approximate \$21,000,000, a gain of nearly \$2,000,000 compared with a total slightly above \$19,000,000 reported a year ago.

The Chemical National Bank will move from 270 Broadway to 165 Broadway as soon as the construction work now contracted for is completed. This is the bank's second move in 102 years. The Chemical Bank was the first bank on Broadway, opening its original office in 1824 at 216 Broadway and moving in 1848 to 270 Broadway, where it has been domiciled ever since. Now, after 76 years in that location, it is moving back downtown. This move is necessitated by the fact that the bank has entirely outgrown its present quarters and also because of the great increase in its business in the Wall Street district. A new six-story building, especially designed for banking, will be erected at the corner of Broadway and Cortland Street, connecting with and forming a part of the 32-story building known as the Benenson Building. This will be the bank's main office, for which some 50,000 square feet are being provided. It is expected that the building will be completed early in 1928. It will be one of the most up-to-date and attractive banking offices in the country. At the same time the bank announces that it will open a large office at 320 Broadway in the heart of the textile district. This was the location of the Citizens National Bank before it was consolidated with the Chemical. The bank has two uptown offices—its Fifth Avenue office at 29th Street and its Madison Avenue office at 48th Street. This expansion and development of a larger range of business has been an outstanding feature of the bank's growth during recent years since the inauguration by its President, Percy H. Johnston, of a more progressive policy. The Chemical has shown a steady growth for the past few years, not only in its regular commercial and financial business, but in its trust, foreign and bond activities. The Chemical Bank is one of the few institutions to preserve its name and identity unchanged for more than a century. The Chemical has for a long time been known in financial circles as "Old Bullion" because of its refusal during the financial stringency of 1857 to discontinue specie payments, even though all other Clearing House banks had done so. Its stock at one time sold at the peak of all bank stocks, going as high as \$5,000 per share. The bank's low capitalization and large surplus were features that made it stand out among the nation's financial institutions. Its capital today is \$4,500,000, surplus and undivided profits \$19,000,000. During the first 100 years of the Chemical Bank's history it had a total of only 32 directors. The peculiar combination of conservative age and progressive youth is exemplified in the personnel of the board. Frederick W. Stevens has been a member of the board continuously for 56 years, having been elected to the board ten years before President Johnston of the bank was born. The youngest and latest addition to the directorate is Jansen Noyes of the firm of Hemphill, Noyes & Co., who graduated from Cornell 16 years ago.

At a meeting of the Executive Committee of the board of directors of the Equitable Trust Co. of New York held Dec. 21, Arthur A. Miller was appointed a Vice-President of the company. Mr. Miller became associated with the Equitable in 1903 as a loan clerk and in 1914 he was appointed an Assistant Treasurer in which capacity he remained until 1918, when he was made Treasurer of the company.

John T. Cochrane, President of the Alabama Tennessee & Northern Railroad, has been elected a director of the Central National Bank of this city. Mr. Cochrane is also Presi-

dent of the Mobile Chamber of Commerce and a director of the Merchants Bank of Mobile.

Announcement is made by the National City Bank of New York of the acceptance of the resignation of John A. Myers, Assistant Vice-President.

The extra compensation, by way of profit sharing, voted to all officers and employees of the Title Guarantee & Trust Co. amounts this year to the sum of \$1,338,000. Clarence H. Kelsey, Chairman of the Board, in explaining the profit sharing plan which has been in force for several years, stated that the percentage of the year's salary received by each, varies in proportion to the length of service. This year, those who have been with the company a year at least will receive 31% of their salaries, and the percentages rise from this point until all those whose service covers fifteen years or more, will receive 44%. At the end of each quarter, one-half of the amount due has been distributed in cash and one-half has been retained until the end of the year under the rules. The amounts retained during the three preceding quarters, together with the full amount due for the fourth quarter, will be paid on the last day of the year. This means that \$829,000 will be distributed on that day. The profit sharers are encouraged to invest as much of this final payment as possible in the Employees' Investment Fund, which is put into guaranteed mortgages and earns 5½% interest. It is stated that one reason for withholding one-half of the extra compensation until the end of the year is the hope that it can be saved and invested and not used in living expenses during the year. That it accomplishes this purpose in many instances is shown by the fact that already \$1,777,000 has been saved and invested in this way.

Joseph H. Ward, President of the Excelsior Savings Bank of this city died on Dec. 16. He was 64 years of age. Mr. Ward became President of the bank on May 12 1924, but owing to continued ill-health resigned the presidency on Oct. 31 1926. The trustees of the bank on Dec. 17 adopted resolutions recording the sense of their loss suffered in Mr. Ward's death.

At the regular meeting of the board of directors of the Textile Banking Corporation on Dec. 21 Harvey D. Gibson resigned as President to accept the Chairmanship of the board of directors and John D. Maguire, Executive Vice-President, was elected President of the bank.

The Chatham Phenix National Bank & Trust Co. of New York announces that Howard G. Keogh, formerly in charge of the Statistical Department of Eastman, Dillon & Co., has become associated with the trust company's Investment Department to take charge of new business and statistics. Mr. Keogh will be located in the main office at 149 Broadway.

Dana R. Crocker, a member of the Fifth Avenue office staff of the Guaranty Trust Co. of New York, was appointed an Assistant Trust Officer of the company at that office at a meeting of the Executive Committee on Dec. 20.

Guaranty Trust Co. also announces the appointment of Frank E. Dean as an Assistant Treasurer of the company, and the appointment of Townsend T. McWilliam as Chief Clerk. Both appointments were made at a meeting of the Executive Committee on Dec. 23.

The Brussels office of the Guaranty Trust Co. of New York opened its doors on Dec. 20 at its new quarters, 27 Avenue des Arts, and will henceforth conduct business at that address, instead of at its former location, 156 Rue Royale.

The Guaranty Co. of New York announced on Dec. 20 two official appointments at its London office—that of Matthew McConville as Secretary of the London office and that of George A. Nickerson as Assistant Secretary of the London office. Both appointments were made at a meeting of the Executive Committee of the board of directors on Dec. 15.

W. F. H. Koelsch, President of the New Netherland Bank of New York, announces the election of William H. Pouch as a director of the bank. Mr. Pouch is President of the Concrete Steel Co. and of the National Association of Credit Men.

The Seamens Bank for Savings, now in its 98th year, opened the doors of its ninth and new home at 74 Wall Street Monday morning (Dec. 19) on the site where it has

done business since 1871. More than 100,000 invitations to visit the new banking offices were issued and a private inspection for depositors of the institution was held on Thursday and Friday, Dec. 16 and 17. Mahlon B. Smith, who is serving his 57th year with the bank, was the only man on duty on Monday who was present 56 years ago when the Seamens Bank moved into its first home on the present site in 1871. From his window he greeted many old friends who have been turning their savings over to him for decades. Mr. Smith is of the old school of bankers, who learned to do all his work by hand, and though the present institution is equipped with machines for his work, he continues to work as he did in the days when he entered the bank's employ. The lobby of the main banking room was decorated with floral greetings from numerous banks and financial institutions. Among the bankers who called were: Former Governor of New Jersey George S. Silzer, President of the Interstate Trust Co.; Albert H. Wiggin, Chairman of the Board of Chase National Bank; Percy H. Johnston, President of the Chemical National Bank; James S. Alexander, Chairman of the Board of the National Bank of Commerce; John V. Jewell, President of the Williamsburg Savings Bank; John H. Fulton, President of the National Park Bank; Lewis L. Clarke, Chairman of Executive Committee of the American Exchange Irving Trust Co., and the trustees of the Seamens Bank. The new building, which will have a rental income of nearly \$300,000, has a frontage of 89 feet on Wall Street and 129 on Pearl. There are two entrances on Wall Street, one for the exclusive use of tenants and the other centring on the main banking room, which is 124 by 65 feet. An item regarding the bank's new quarters appeared in our issue of a week ago, page 3137.

George S. Silzer, President of the Interstate Trust Co., which started business on Oct. 14 1926, this week distributed Christmas checks to all employees equal to one week's salary.

James W. Allen has just celebrated the completion of 25 years of service for the National City Bank of New York. As chief messenger in charge of gold and currency transportation, he has, since 1907, managed gold and currency shipments to and from the bank through the city to the enormous total of \$30,566,382,435, a world's record. This money in gold would weigh 56,547 tons, or more than the total tonnage of the steamer "Majestic." Mr. Allen signed up with the National City Bank during the presidency of the late James Stillman. He came with a letter of recommendation signed by Thomas L. James, ex-Postmaster-General, and countersigned by the late J. P. Morgan.

The board of directors of the Franklin Society for Home Building & Savings have elected David Bellis a director of the society. Mr. Bellis is Vice-President of the Comfort Coal & Lumber Co. of Hackensack, N. J., and a director of the Westwood (N. J.) National Bank, the North Jersey Title Insurance Co. and the Bergen County Gas & Electric Co.

Christmas bonuses are being distributed by the American Bond & Mortgage Co., whose Eastern headquarters is at 345 Madison Avenue, New York, to all the employees of the company in New York, Chicago and in 30 cities throughout the country where branch offices are located. Distribution is on the same basis as in 1925, the bonus being on a graduated scale determined by the length of service and salary.

John Bolinger, Vice-President of the National Shawmut Bank of Boston, and F. M. Thayer, Vice-President and Manager of the Shawmut Corporation returned on Dec. 21 on the Steamship *Leviathan*, after a two months' business trip in Europe.

Announcement was made in Springfield, Mass., on Dec. 21 by George H. Kemater, President of the Springfield Safe Deposit & Trust Co., that the directors of the institution had voted to recommend to the stockholders at their forthcoming annual meeting on Jan. 12 that the capital stock of the institution be increased from \$500,000 to \$1,000,000 by taking \$500,000 from the surplus account and issuing it to the stockholders in the form of a 100% stock dividend, according to the Springfield "Republican" of Dec. 22. This action, it is understood, will give the bank a capital of \$1,000,000 and surplus and undivided profits of more than \$1,200,000.

The Ansonia National Bank of Ansonia, Conn., announces the death of Charles Frederick Brooker, a director of the bank since 1896 and its President since 1915. Mr. Brooker died at Daytona Beach, Fla., on Dec. 20. He was also a director in various large corporations.

The Newark National Bank (capital \$200,000) has just been granted a charter. The bank will be located at Ferry and Van Buren streets, in the building already purchased, and will open for business as soon after Jan. 1 as alterations are completed. A group closely associated with the National Newark & Essex Banking Co., the oldest and largest national bank in New Jersey, had applied to the Comptroller of the Currency through William L. Morgan of Pitney, Hardin & Skinner as counsel, for a charter for the Newark National Bank. The management of the new bank will be the same as that of the National Newark & Essex. The two will not be competing institutions, the purpose of the Newark National being primarily to afford convenient banking facilities for the customers of the older institution. It is hoped to attract new friends in the locality selected. It is expected that the establishment of the new bank will be closely followed by the organization of others in outlying sections of the city similarly allied to the National Newark & Essex. While the deposits of the National Newark & Essex Banking Co. recently reached the highest point in its 122 years of history, Charles L. Farrell, President of the National Newark & Essex, who will be President of the Newark National, said on Dec. 21 that outlying banks have multiplied and prospered in the last few years in part at the expense of institutions centrally located, not because of better service but because of more convenient service.

Directors of the Merchants & Manufacturers National Bank of Newark, N. J., on Dec. 22 approved a proposed consolidation of the institution with the Newark Trust Co., according to the Newark "News" of Dec. 23. The resulting institution will be known as the Merchants & Newark Trust Co. and will be capitalized at \$2,000,000. The merger plan, it is understood, calls for a stock dividend of 10% on the \$1,350,000 capital of the Merchants & Manufacturers National Bank and then the inclusion of the \$500,000 capital of the Newark Trust Co. Share for share in the new bank will then be issued and a balance of \$15,000 of stock will be offered to the depositors. Stockholders of the Merchants & Manufacturers National Bank will be asked to vote on the proposed merger at a meeting to be held in February.

The newly organized Hawthorne Avenue Trust Co. located at Hawthorne Ave. and Clinton Place, Newark, N. J. opened for business on Saturday, Dec. 18. This institution is capitalized at \$150,000, with surplus and undivided profits of \$75,000. The opening day's business was very gratifying to the officers and directors. A reference to the organization of the institution appeared in our issue of Oct. 2, page 1724. The officers are Leopold Jay, President; John F. Murray, Jr., Morris Herbst and Frank R. Wollenburg, Jr., Vice-Presidents; Jacob H. Meyer, Treasurer; Julius E. Flink, Secretary; Frederick Jay, Counsel.

At a meeting of the directors of the Commercial Trust Co. of New Jersey, Jersey City, held Dec. 21, the regular quarterly dividend of 4% and an extra dividend of 2% were declared payable Jan. 3 1927 to stockholders of record Dec. 27 1926.

The First National Bank of Philadelphia announced on Dec. 23 that it has transferred \$750,000 from undivided profits to surplus. The bank now has

Capital.....	\$1,950,000
Surplus.....	4,000,000
Undivided profits.....	1,000,000
Deposits.....	56,000,000

A special dispatch from New Castle, Pa., on Dec. 16 to the Pittsburgh "Post" stated that stockholders of the National Bank of Lawrence County in that city had voted the previous day to consolidate the institution with the First National Bank, the merger to go into effect at once. The name of the resulting institution is the First National Bank of Lawrence County. It is capitalized at \$1,000,000, with surplus of like amount, and has several hundred thousand dollars in undivided profits, it is said. The dispatch also stated that the Safe Deposit & Trust Co. of New Castle, an institution allied with the merging banks, had on the same day

(Dec. 15) increased its capital from \$150,000 to \$1,350,000, and changed its title to the Union Trust Co. of New Castle.

At a special meeting of the directors of the Norristown-Penn Trust Co., Norristown, Pa. on Dec. 20, Clayton H. Alderfer was ousted from the Presidency of the institution. The Philadelphia "Ledger" of Dec. 21, in reporting Mr. Alderfer's dismissal, stated that the action of the directors, according to a statement made by Mr. Alderfer, himself, the previous night is "a direct result of the defalcations of J. Truman Ebert and Walter R. Moyer of more than \$200,000 last year." The former President was also quoted as saying:

Ever since Ebert and Moyer defaulted, the directors have held me to be responsible. Ebert paid back to the bank the entire amount of his speculations and more. Ebert was with me in the Norristown Trust Co. before the merger in 1924 with the Penn. Trust Co. I trusted him and with good reason because of his record.

But the directors of the bank were not satisfied with his paying the money back, and there has been storm and strife about it ever since. Recently there was a coal transaction in which I was accused of carelessness.

No information, it is said, was given out by the directors except a typewritten statement announcing that Mr. Alderfer's resignation had been "requested, tendered and accepted." Neither Adam Scheidt, Chairman of the Board of Directors, nor G. F. Berger, the Treasurer, would make any further statement except to deny that any irregularities existed. The "Ledger" further stated that Truman Ebert had the previous day (Dec. 20) been refused a pardon by the State Board of Pardons in Harrisburg and that District Attorney Frank X. Renniger in opposing the plea for clemency, had characterized the thefts as being due to "damnable greed."

On Dec. 17 Oliver C. Fuller tendered his resignation as Chairman of the board of directors of the First Wisconsin National Bank of Milwaukee; President of the First Wisconsin Trust Co., and Chairman of the Board of the First Wisconsin Co., and as a director in these institutions, to take effect the first of the new year. Ill-health forces the well-known banker to retire and seek a milder climate. Mr. Fuller announced his intention to resign in the following communication to the directors of the respective institutions, as printed in the Milwaukee "Sentinel" of Dec. 18:

The state of my health makes it imperative that I leave Milwaukee and reside in a milder climate. Therefore I tender my resignation as officer and director of your respective institutions, to take effect at the close of business on Dec. 31 1926.

It is with deep regret that I terminate my official connection with these institutions, with which I have been associated so many years, and thus sever my relationship with my fellow directors and employees; a relationship which has been delightful to me in every way.

The meetings of our directors have seemed more like a gathering of a large, harmonious family than an assembly of business men of diversified interests.

The words sorrow and regret inadequately express my emotions at the thought of parting with so many friends and companions of the better part of a lifetime.

Wherever I may be in the flesh, in spirit I shall always remain a loyal member of your family.

Cordially and faithfully yours,

OLIVER C. FULLER.

Mr. Fuller's resignation was received with deep regret by his associates, Walter Kasten, President of the First Wisconsin National Bank, being quoted in the "Sentinel" as saying in this regard:

On account of his health, Mr. Fuller has found it necessary to resign as executive head and director of the First Wisconsin National Bank, First Wisconsin Trust Co. and First Wisconsin Co. I have been closely associated with him for over twenty years in various fields of activity and no one could be associated with him for that length of time and not learn to love and respect him. Mr. Fuller has been very active in all civic and financial affairs of the city, and it is the hope of all his associates that the Southern climate will restore him to his former good health.

Mr. Fuller, according to the "Sentinel," went to Milwaukee in 1891 and in 1893 established the firm of Oliver C. Fuller & Co. to do an investment banking business. Ten years later he organized the Wisconsin Trust Co. (which absorbed his own firm) and became President of the institution. Upon the consolidation of the First National Bank and the Wisconsin National Bank in July 1919, under the title of the First Wisconsin National Bank, Mr. Fuller was elected President of the institution and in August of the same year also was made President of the First Wisconsin Trust Co., which was formed through the merger of the First Trust Co. and the Wisconsin Trust Co. In January 1920 Mr. Fuller organized the First Wisconsin Co., which is the investment banking unit of the First Wisconsin group, and became President of that organization also. In January 1922 he was elected Chairman of the Board of the last-named institution, and in January 1924 Chairman of the Board of the First Wisconsin National Bank. Mr. Fuller was born in Atlanta, Ga., and received his education in public and private schools in that city and the University of

Georgia. He began his career as a clerk in the wholesale grocery business of his father, later being admitted to partnership. From 1886 to 1889 he was a member of the firm of Jones & Fuller, bond dealers. In addition to his banking interests, Mr. Fuller is a director of the Allis-Chalmers Co., Milwaukee Mechanics Insurance Co., Wisconsin Telephone Co., Wisconsin Securities Co. and a trustee of the Northwestern Mutual Life Insurance Co. He has been active in the American Bankers Association and is at present serving on several committees of that organization. In 1910 he was President of the Trust Company Section of the American Bankers Association.

The St. Louis "Globe-Democrat" of Dec. 17 stated that George R. Hunsche, a Vice-President and a director of the Title Guaranty & Trust Co. of St. Louis since its absorption in May 1923 of the Hunsche-Buder Land Title Co., of which he was President, will sever his connection with the institution to become on Feb. 1 1927 a Vice-President of the Lafayette South Side Bank of St. Louis, according to a statement made on Dec. 16 by A. C. F. Meyer, President of the Lafayette South Side Bank. Mr. Hunsche, it is said, will have charge of the real estate loan department of the institution.

At the annual meeting of the Mississippi Valley Group of the Investment Bankers Association, held recently in St. Louis, the following officers and members of the Executive Committee were elected:

Harry F. Stix, Chairman; John R. Longmire, Vice-Chairman; Oliver J. Anderson, Secretary-Treasurer. Executive Committee: Walter W. Ainsworth, Federal Commerce Trust Co.; Samuel C. McCluney, McCluney & Co.; Roy W. Maule, Wm. R. Compton Co.; John E. Riley, Francis, Bro. & Co.; Charles Scudder, Whitaker & Co.; Garfield J. Taussig, Taussig, Day, Fairbank & Co.; Henry T. Ferriss, ex-officio; Kelton E. White, ex-officio.

The Iowa Loan & Trust Co. of Des Moines, one of the largest banking institutions in that city, failed to open on Dec. 20, according to advices by the Associated Press on that date printed in the New York "Times" of Dec. 21. Closing of the institution, the dispatch said, was decided upon after an unsuccessful attempt by the Des Moines Clearing House to effect a consolidation with another local bank. A committee of the local bankers appointed by officers of the Clearing House is working on a plan for liquidation which the committee hopes will result in no loss to the depositors. Excessive investment in real estate and frozen assets are given as the principal causes of the closing. Inability to collect on outstanding loans also was a contributing factor. The institution was capitalized at \$500,000, with surplus of like amount and had deposits of approximately \$7,000,000. D. H. McKee was President. Representatives of the State Banking Department are in charge.

According to the Los Angeles "Times" of Dec. 15, Edward Dale, Vice-President and General Manager of the Safeway Stores for Southern California, was elected a director of the Seaboard National Bank of that city on Dec. 14.

The West Hollywood National Bank, Hollywood, Cal., at the close of business on Saturday, Dec. 18, was merged with the Pacific-Southwest Trust & Savings Bank of Los Angeles, and opened on the following Monday, Dec. 20, as the Santa Monica and Fairfax branch of the Pacific-Southwest Bank. C. L. Lamping, former Vice-President and Manager of the West Hollywood National Bank, is Manager of the new branch and A. M. Meyers, former Vice-President, is Assistant Manager. A recent statement showed that the West Hollywood National Bank has resources in excess of \$900,000. The First National-Pacific-Southwest Banking Group has resources, as shown by the statement of condition of June 30 last, in excess of \$310,000,000. Under this statement, the Pacific-Southwest Trust & Savings Bank showed total resources of \$211,284,230 79; the First National Bank of Los Angeles \$98,582,424, and the First Securities Co., capital and surplus, \$600,000. The capital of the First Securities Co. was recently increased to \$1,000,000, making capital and surplus \$1,100,000. The West Hollywood National Bank was organized on Nov. 26 1920. The First National-Pacific-Southwest Banking Group, of which the West Hollywood National becomes a part, has been a leader in that section for more than half a century. This great banking group dates from 1875, when the Commercial Bank was organized in Los Angeles, then a small city of 10,000 persons. In 1880 this bank became the First National Bank of Los Angeles and obtained a national charter. The Los An-

geles Trust Co. was organized in 1902 and later became the Los Angeles Trust & Savings Bank, which name in turn, in 1922, was changed to that of the Pacific-Southwest Trust & Savings Bank, a name more completely descriptive of the large territory the organization serves. Henry M. Robinson, an international figure, is President of the First National, and Charles F. Stern, a former bank superintendent of California, is President of the Pacific-Southwest Bank. The Pacific-Southwest has branches in 47 cities from Fresno to El Centro and has 40 branches in Los Angeles and Hollywood.

According to the Toronto "Globe" of Dec. 18, the National Trust Co. of that city has announced to its shareholders that in order to meet the growing demands of the company's business, it has been decided to increase the paid-up capital from \$2,250,000 to \$3,000,000 by offering to the shareholders 7,500 new shares (at present authorized but unissued) of the par value of \$100 at the price of \$175 per share. At a meeting of the directors held on Dec. 17 the usual quarterly dividend at the rate of 12% per annum for the period ending Dec. 31 1926 was declared.

The Standard Bank of Canada, General Manager's office, Toronto, announces that the bank has declared a dividend for the current quarter ending Jan. 31 1927 at 3%, being at the rate of 12% per annum upon the paid-up capital stock of the bank, and which is to be payable on and after Feb. 1 1927, to shareholders of record as of Jan. 15 1927. The annual general meeting of the shareholders will be held at the head office of the Bank in Toronto on Wednesday Feb. 23 at 12 o'clock noon.

We are in receipt of the annual report of the National Bank of Scotland, Ltd. (head office Edinburgh), covering the fiscal year ending Nov. 1 1926. The statement, which was presented to the proprietors of the institution at their annual general meeting on Dec. 16, shows net profits, after providing for all bad and doubtful debts, rebate of interest, etc., of £284,777. To this sum was added £64,221, representing the balance brought forward from the preceding year, making together £348,998 available for distribution. Out of this amount it was resolved to appropriate the following sums: £140,800 to pay a dividend at the rate of 16% per annum (this being exclusive of income tax of £35,200); £50,000 to reserve fund; £30,000 to heritable property account; £55,000 to the officers' pension fund and £5,000 to bank's annuity fund, leaving a balance of £68,198 to be carried forward to next year's profit and loss account. The bank's total resources are shown in the statement as £36,263,500. The subscribed capital of the institution is £5,000,000, of which £1,100,000 is called up; £900,000 uncalled, and £3,000,000 reserve liability, while the reserve fund now stands at £1,400,000. The National Bank of Scotland, Ltd., is affiliated with Lloyd's Bank, Ltd. The Right Hon. the Earl of Ronaldshay is Governor of the institution, having succeeded during the year under review the late Duke of Montrose, K.T., who had held the office for 20 years and whose death is recorded in the report with deep regret. William Carnegie is General Manager.

We have also received the annual statement of the Commercial Bank of Scotland, Ltd. (head office Edinburgh), for the fiscal year ended Nov. 1 1926 as presented to the shareholders of the institution at their annual general meeting on Dec. 16. After providing for rebate of discount and interest and for all bad and doubtful debts, net profits for the twelve months were £326,695, which when added to £75,149, the balance to credit of profit and loss brought forward from the preceding fiscal year, made the sum of £401,844 available for distribution. Out of this amount, the report shows, there was applied in July in payment of the semi-annual dividend on the "A" and "B" shares at the rate of 16% and 10%, respectively, £100,000 (under deduction of income tax £25,000), leaving a balance of £301,844, which the directors recommended be distributed as follows: £100,000 to pay the second half-yearly dividend on the "A" and "B" shares at the rate of 16% and 10%, respectively (under deduction of income tax £25,000); £50,000 to be added to reserve fund; £25,000 to be credited to officers' retiring fund, and £50,000 to be applied in reduction of the cost of the bank's properties, leaving a balance of £76,844 to be carried forward to the next year's profit and loss account. The bank's total assets on Nov. 1 1926 were £41,535,515, while total deposits were £33,180,028. The paid-up capital

of the institution is £1,750,000 and its reserve fund £1,850,000. The Earl of Mar and Kellie, K.T., is Governor, and Alexander Robb, General Manager.

Controlling interest in the Union National Bank and the Union Trust & Savings Bank, Ames, Iowa, was on Dec. 8 purchased by a syndicate composed of George G. Goodnaw of Chicago and A. H. Munn, J. G. Tilden and C. G. Lee, of Ames, according to a dispatch from Ames on that date, printed in the Des Moines "Register" of Dec. 9. The stock purchased by the syndicate, the dispatch said, is that of the estate of W. M. Greeley, deceased, former President of the Union National Bank, which has been released from the hands of trustees after a period of ten years. The reorganized banks will have a combined capital and surplus of \$137,500. Mr. Goodnaw has been named Chairman of the board of directors, Mr. Tilden, President, and D. W. Atkinson, formerly Cashier of the Jamaica Savings Bank of Jamaica, Iowa, has been made Vice-President with active supervision of the two institutions, it was said.

The Bank of Crittenden County, Marion, Ark., an institution capitalized at \$100,000 and with deposits of \$725,000, was taken over by Loyd Rainwater, State Bank Commissioner, on Dec. 6, according to the Memphis "Appeal" of Dec. 7. The low price of cotton and frozen loans were given as causes of the failure.

The Fayette County Bank at Somerville, Tenn., said to be one of the oldest banks in that section of the State, closed its doors and placed its affairs in the hands of State bank examiners on Dec. 9, following a "run" begun on that day. The bank had a paid-in capital of \$60,000 and deposits aggregating \$252,000. W. T. Loggins, the bank's President, was quoted in the Memphis "Appeal" of Dec. 19 as saying: "I think the depositors will be paid dollar for dollar." According to Mr. Loggins, frozen loans, the low price of cotton and the "run" by uneasy depositors brought about the failure of the institution.

William F. Augustine, a Vice-President of the First & Merchants' National Bank of Richmond, Va., was recently elected a Vice-President of the National Shawmut Bank of Boston and plans to assume his new duties at the first of the year. According to the Richmond "Dispatch" of Dec. 10, Mr. Augustine has been connected with what is now the First & Merchants' National Bank for 26 years. He entered the Merchants' National as a clerk in 1901, became Cashier in 1912 and Vice-President in 1918. Upon the consolidation of the First National Bank and The Merchants' National Bank at the beginning of the present year Mr. Augustine continued as a Vice-President of the enlarged bank. The Boston "Herald" of Dec. 10 points out that Mr. Augustine has been Secretary of the Virginia Bankers' Association for several years, and is actively identified with the Clearing House Section of the American Bankers Association.

An Associated Press dispatch from Clarksdale, Miss., on Dec. 13 appearing in the New York "Journal of Commerce" of the following day, stated that the Commercial Bank of Clarksdale was closed on that day and turned over to the State Banking Department for liquidation. J. O. Lamkin, President, declared that general conditions, slow collections and a decline in deposits caused the failure, but that all depositors would be paid in full. The bank was capitalized at \$200,000, and Mr. Lamkin said its deposits amounted to approximately \$430,000.

A charter has been issued to the Coral Gables National Bank, of Coral Gables, Fla., by the Comptroller of the Currency. The institution, which began business Nov. 24, has a capital of \$100,000 and surplus of \$25,000. The officers are T. F. McAuliffe, President (also Vice-President of the First National Bank, Miami); J. L. Griffin, Vice-President (also Vice-President of the First National Bank of Miami); Robert L. Hall, Cashier, active in charge (formerly Assistant Vice-President First National Bank, Miami).

That two banks in Green County, Ark., had closed on Dec. 23, namely, the Paragould Trust Co., at Paragould, and the Bank of Marmaduke, at Marmaduke, was reported in a press dispatch from Paragould, printed in the "Wall Street News" yesterday, Dec. 24, which went on to say:

The affairs of the Paragould Trust Co. were placed in the hands of the State Bank Examiner. It had a capital and surplus of \$150,000 and deposits of approximately \$400,000. The Bank of Marmaduke was capitalized at \$15,000 and held deposits of about \$55,000.

The San Francisco "Chronicle" of Dec. 16 stated that two new banks were purchased by the Bancitaly Corporation (the holding company of the Bank of Italy) on the previous day and added to the chain of Giannini institutions, shortly to be merged into one gigantic institution. These banks are the First National Bank of Pittsburg, Calif., and the Bank of Mill Valley, Calif. Continuing the "Chronicle" said in part:

Addition of these two banks to the Gianini chain brings the total past 150, and strengthens the position of the institution as the greatest branch bank in the nation. Incidentally, it adds \$1,800,000 to deposits and \$2,000,000 to resources.

The First National Bank of Pittsburg has a capital of \$75,000, a surplus of \$5,000 and undivided profits of \$10,789. Outside of a branch of the Mercantile Trust Co., it is the only bank in that city, and is one of the best-thought-of institutions in the north bay region. Its resources are in excess of \$800,000 and its deposits above \$700,000.

The Bank of Mill Valley is the only bank in the suburban city. It has a \$100,000 capital, a \$31,500 surplus and undivided profits of \$10,969. The resources total \$1,135,172, and the deposits approximate \$1,000,000.

The South Carolina Loan & Trust Co. at Charleston closed its doors on Dec. 16, according to an Associated Press dispatch from Columbia, S. C. on that date, appearing in the New York "Journal of Commerce" of the following day.

The First National Bank of Plattsmouth, Neb., said to be one of the oldest financial institution in that State, was closed by order of its directors on Dec. 14, according to a special dispatch from that place to the Omaha "Bee" on Dec. 15, which said in part:

The action of the directors is believed to be an indirect result of a suit filed Monday in District Court against the bank by Mrs. U. Gering, the County Treasurer.

She seeks to recover about \$20,000 of county deposits, which she declares in her petition are in excess of the sum protected by bond. This extra money was placed in the bank on Dec. 2, she alleges, upon the promise of directors of the institution to provide sufficient additional bond to cover it.

This was not done the county treasurer asserts, and her petition asks restoration of the sum on the ground that it was obtained fraudulently.

A mild run upon the bank followed the filing of this suit. There was no general effort on the part of depositors to withdraw funds, however, and the bank was kept open during the usual business hours on Tuesday. Owners of checking accounts were permitted to withdraw their funds, but requests for time deposits were refused.

When the doors were closed at 1 p. m., the expiration of the usual banking period, a sign was hung in the door to announce the closing of the doors and assignment of the affairs of the institution to the national bank examiner.

THE WEEK ON THE NEW YORK STOCK EXCHANGE.

The New York stock market has displayed more or less irregularity the present week, though trading has been moderately brisk, particularly on Thursday and Friday, and a substantial number of new high levels have been recorded by some of the more active speculative stocks. Brisk trading in some of the more popular stocks and a number of specialties was again the feature of the two-hour session on Saturday. Railroad stocks maintained a prominent place in the trading throughout the day, Atchison reaching a new top with an advance of more than five points. New York Central also was in strong demand and bounded forward to a new high for the year at 147. Reading made a further gain to a new high for recent trading at 101. In the specialties group, Pullman and United Drug Syndicate made sharp advances, the latter making a net gain of four points. Irregular price movements characterized the trading in the forenoon on Monday and many of the stocks prominent in last week's transactions suffered severe losses. At the close United States Steel common was selling more than a point lower and General Motors also more than a point. Railway shares, local traction stocks, and food issues were in strong demand; Atlantic Coast Line moving forward 3½ points followed by N. Y. Chicago & St. Louis with a gain of 1⅞ points and Chesapeake & Ohio with an advance of 3½ points.

Local traction stocks moved into the foreground on Tuesday and substantial gains were scored by several of these issues. The movement in Motor stocks was somewhat mixed, General Motors advancing two points or more while Mack Truck and several of the lower priced stocks moved downward. Railroad shares were particularly prominent, especially the Nickel Plate group, which were in sharp demand at advancing prices. Chesapeake & Ohio led the forward movement with an advance of 2 points, followed by Erie first preferred which made a similar gain. Other strong stocks were J. I. Case Threshing Machine, Texas Gulf Sulphur, International Telephone & Telegraph and Third Ave. Railroad. Prices held up well on Wednesday though trading was much quieter. Motor shares were the center of interest, Hudson Motors making a net gain of 2½ points and General Motors closing with a net gain of 1⅞ points while Nash Motors made a new high for the year at 96. United States Cast Iron Pipe & Foundry made a net

gain of $4\frac{1}{4}$ points. Oil stocks were lower, most of the active stocks falling back a point or more. Baldwin Locomotive was one of the outstanding features of the trading on Thursday and moved briskly forward to 167 at its high for the day, and passing its previous high record by nearly 2 points. Railroad shares were irregular, though Atchison advanced to a new high at $170\frac{1}{4}$ and there was considerable buying of New York Central which gained 2 points to 144. Motor stocks continued to show improvement, General Motors moving forward about 2 points and selling at 154 followed by Hudson Motors with a 2 point advance. Dodge Bros., Jordan, Packard, Pierce Arrow and Mach Trucks also also recorded substantial advances. Nash Motors reached another new peak for the year at 71. Industrials of the specialty type continued to work upward, Collins & Aikman preferred and common hitting the highest top so far reached. Other strong stocks in this group included Warner Bros., Class A stock, International Telephone & Telegraph and American Smelting. Radio Corp. was prominent in the trading and Oil shares, including such stocks as Marland, Pan American B, White Eagle and Atlantic Refining Co. made further progress. United States Steel common improved about $1\frac{1}{2}$ points.

The market was fairly buoyant on Friday and under the leadership of General Motors, Steel and some of the specialties moved steadily forward. The sales reached 1,474,500 shares and many new high levels for the year were recorded by some of the more active speculative stocks. Practically every department felt the upward surge, General Motors being especially conspicuous on account of its rise of $3\frac{3}{4}$ points to $158\frac{1}{2}$. The outstanding strong stocks included Baldwin Locomotive, United Drug, International Harvester and du Pont. The final tone was strong.

THE CURB MARKET.

A strong undertone continued this week in Curb Market trading and prices held fairly well. The volume of business declined with the approach of the Christmas holiday. Johns-Manville continued a feature and on active trading advanced some 39 points to 220, the close to-day being at 209. The new stocks "when issued" were traded in, the common dropping at first from 52 to $50\frac{3}{4}$ then advancing to $62\frac{3}{4}$ with a final reaction to $58\frac{1}{2}$. The preferred gained 2 points to 117 and sold finally at $116\frac{1}{2}$. Victor Talking Machine was a strong feature, moving up from 147 to 155, the close to-day being at 152. American Piano com. rose from 225 to 275 and finished to-day at 273. Ford Motor of Canada registered a gain of 20 points to 435, the final transaction to-day being at 429. Warner Bros. dropped from 33 to $28\frac{1}{4}$, recovered to $32\frac{3}{4}$, and ends the week at 32. Price changes in public utility issues were generally at higher levels though trading was quiet. Among oil shares Buckeye Pipe Line sold up from 46 to $50\frac{1}{2}$. Galena-Signal Oil com.

advanced from 10 to $13\frac{3}{4}$ and sold finally at $13\frac{1}{2}$. The new pref. rose from 43 to 64 and the old pref. from 55 to 64, the last mentioned closing to-day at 63. Ohio Oil sold up from $60\frac{5}{8}$ to 64 and at $63\frac{1}{4}$ finally. Prairie Oil & Gas was active and strong, advancing from 50 to $54\frac{3}{4}$, the close to-day being at $53\frac{1}{4}$. Prairie Pipe Line gained over 10 points to $135\frac{1}{2}$. Standard Oil (Indiana) was up from $66\frac{7}{8}$ to $70\frac{1}{4}$ and finished to-day at $69\frac{1}{8}$. Carib Syndicate fell from $26\frac{1}{2}$ to 23 but recovered to $25\frac{7}{8}$, the close to-day being at $25\frac{1}{8}$.

A complete record of Curb Market transactions for the week will be found on page 3310.

COURSE OF BANK CLEARINGS.

Bank clearings the present week will again show a small increase compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ending to-day (Saturday, Dec. 25), bank exchanges for all the cities of the United States from which it is possible to obtain weekly returns will be 3.0% larger than for the corresponding week last year. The total stands at \$8,590,455,775, against \$8,341,830,831 for the same week in 1925. At this centre there is a gain for the five days of 3.7%. Our comparative summary for the week is as follows:

Clearings—Returns by Telegraph. Week Ended December 25.	1926.	1925.	Per Cent.
New York	\$4,817,077,857	\$4,644,551,782	+3.7
Chicago	665,661,856	564,114,032	+17.9
Philadelphia	498,000,000	478,000,000	+4.1
Boston	397,000,000	359,000,000	+10.5
Kansas City	133,277,616	129,602,975	+2.8
St. Louis	127,500,000	131,900,000	-3.4
San Francisco	142,718,000	165,001,000	-10.4
Los Angeles	147,127,000	144,992,000	+1.5
Pittsburgh	165,801,481	166,040,315	-0.1
Detroit	139,089,293	149,042,943	-6.7
Cleveland	94,944,491	93,448,370	+1.6
Baltimore	89,298,815	68,634,358	+30.1
New Orleans	59,471,961	55,678,090	+4.9
Thirteen cities, five days	\$7,481,998,370	\$7,150,004,965	+4.6
Other cities, five days	1,108,457,405	1,191,825,866	-7.2
Total all cities, five days	\$8,590,455,775	\$8,341,830,831	+3.0
All cities, one day			
Total all cities for week	\$8,590,455,775	\$8,341,830,831	+3.0

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them to-day, inasmuch as the week ends to-day (Saturday), and the Saturday figures will not be available until noon to-day. Accordingly in the above the last day of the week has in all cases had to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results for the week previous—the week ended Dec. 18. For that week there is an increase of 0.8%, the 1926 aggregate of clearings being \$11,604,382,920 and the 1925 aggregate \$11,506,095,381. Outside of New York City, however, there is a decrease of 5.0%, the bank exchanges at this centre having shown a gain of 5.3%. We group the cities now according to the Federal Reserve districts in which they are located, and from this it appears that the Boston Reserve District has an improvement of 14.3%, the New York Reserve District (including this city) of 5.3%, and the Cleveland Reserve District of 1.9%. The Philadelphia Reserve District shows a loss of 5.9%, the Richmond Reserve District of 8.7% and the Atlanta Reserve District of 24.7%.

the latter due mainly to the decrease at the Florida points Miami having a loss of 64.8% and Jacksonville of 33.3%. In the Chicago Reserve District the totals are smaller by 4.6%, in the St. Louis Reserve District by 31.1%, and in the Minneapolis Reserve District by 19.0%. For the Kansas City Reserve District there is a decrease of 5.1%, for the Dallas Reserve District of 6.9%, and for the San Francisco Reserve District of 3.5%.

In the following we furnish a summary by Federal Reserve districts:

THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of Dec. 1 1926:

GOLD.

The Bank of England gold reserve against notes amounted to £151,443,355 on the 24th ultimo, as compared with £151,458,325 on the previous Wednesday.

The amount of gold on offer yesterday in the open market was again small, just over £200,000 being available. The trade absorbed about £80,000, India and the Straits about £65,000, and America about £60,000.

Movements of gold to and from the Bank of England continue to be on a small scale as shown below:

	Nov. 25.	Nov. 26.	Nov. 27.	Nov. 29.	Nov. 30.	Dec. 1.
Received.....						
Withdrawn.....	£12,000	£19,000				

No sovereigns were taken for export this week. The withdrawal from the Bank during the week under review has been £31,000, reducing the net influx since Jan. 1 1926 to £7,895,000, and increasing the net efflux since the resumption of an effective gold standard to £3,700,000.

United Kingdom imports and exports of gold during the week ending the 24th ult. were:

Imports—		Exports—	
Russia.....	£24,776	Germany.....	£260,473
Belgian Congo.....	18,900	France.....	29,200
France.....	20,157	Argentina.....	20,000
British West Africa.....	36,811	British India.....	43,000
British South Africa.....	240,569	Straits Settlements.....	26,200
Other countries.....	3,368	Canada.....	250,000
		Other countries.....	35,421
Total.....	£344,581	Total.....	£664,294

The Southern Rhodesian gold output for October 1926 amounted to 50,132 ounces as compared with 48,350 ounces for September 1926 and 48,896 ounces for October 1925.

SILVER.

Since Saturday, Indian orders for shipment to Bombay tomorrow for the December settlement in that city have not been in evidence, and prices have therefore been inclined to sag. To-day distinct signs of weakness set in from that quarter, probably as a consequence of the disquieting state of affairs in China. Beside forward sales on Indian account, some of the silver purchased for this week's shipment was resold and the premium on spot silver was reduced to 1-16d.

The question whether the critical situation at Hankow has a bearing upon the silver market is necessarily a matter of interest. This would depend largely upon the gravity of affairs and upon any extension that might take place to other localities than Hankow.

The Chinese people are peaceful and law abiding, and not ill-disposed toward foreigners save under what they may consider provocation, so that, it is reasonable to infer that the area of disorder will be confined to the places where Chinese military operations have been in being, unless of course umbrage be taken at any steps that may be necessary to protect the life and property of foreigners, and unless the Chinese elsewhere should consider such acts as an aggression. Hence, the question of the security of the stock of silver at Shanghai does not at present appear to enter into consideration.

Arrest of upcountry trade, however, at a time when remittances would normally be required for Hankow is of more immediate importance, as also is the probability of a further increase in Shanghai stocks—already considered unduly large—owing to silver being sent in for safe custody.

The tendency therefore would appear to be for Shanghai stocks to lose some of their raison d'être—namely the financing of trade. Though in such circumstances silver might not—at first at any rate—be exported to India or elsewhere for realization, shipments to China might be diverted to India and other centres, and less disposition shown to make fresh purchases in London and the United States.

Further, silver markets generally might preserve a bearish tendency so long as there was cause for anxiety as to the course of events.

United Kingdom imports and exports of silver during the week ending the 24th ult. were:

Imports—		Exports—	
France.....	£118,013	British India.....	£43,937
United States of America.....	30,577	Other countries.....	17,298
Straits Settlements.....	10,082		
Other countries.....	8,491		
Total.....	£167,163	Total.....	£61,235

The silver quotations to-day for cash and two months' delivery are respectively 7-16d. and 5-16d. below those fixed a week ago.

We have also received this week the circular written under date of Dec. 7 1926:

GOLD.

The Bank of England gold reserve against notes amounted to £151,414,110 on the 1st inst., as compared with £151,443,355 on the previous Wednesday.

About £1,250,000 bar gold was available in the open market this week. Of this £627,000 was taken on German account, India and Egypt together taking about £30,000, and the home and Continental Trade £140,000. The balance was secured by the Bank as shown in the figures below.

Movements of gold to and from the Bank since our last letter have been as follows:

	Dec. 2.	Dec. 3.	Dec. 4.	Dec. 6.	Dec. 7.	Dec. 8.
Received.....					£462,000	
Withdrawn.....	£5,000	£16,000	£10,000			

The destination of the £10,000 sovereigns withdrawn was Holland. The net receipt at the Bank during the week under review was £431,000, increasing the net influx since Jan. 1 1926 to £8,326,000 and decreasing the net efflux since the resumption of an effective gold standard to £3,269,000.

United Kingdom imports and exports of gold during the week ending the 1st inst. were:

Imports—		Exports—	
France.....	£14,105	Germany.....	£372,021
British South Africa.....	215,525	Netherlands.....	39,550
Other countries.....	238	Austria.....	39,330

		British India.....	105,827
		Straits Settlements.....	37,200
		Ceylon.....	30,000
		Other countries.....	11,720
Total.....	£229,868	Total.....	£681,048

It is reported that a Bill for the stabilization of the Brazilian paper milreis at a gold value of 6d., has been provisionally approved by the Brazilian Chamber of Deputies. The new gold unit is to be styled a Cruzeiro, and will contain 800 milligrammes of gold 900 fine, and will be equivalent to 4 paper milreis.

SILVER.

The market has maintained a fairly steady tone throughout the week, although the undertone is still uneasy. This was shown on Monday when free selling from China found few buyers about, and the price dipped to 24 1/4d. for both deliveries, the lowest quotations for about six weeks. Yesterday a rally took place of 1/4d. owing to business in India connected with options, and to a rather better feeling in China as to conditions in Hankow, but the market being heavy to-day quotations shed 1-16d. Cash supplies are now more plentiful and little wanted. The premium therefore on spot delivery which has ruled to a greater or less degree for nearly two months disappeared on the 3rd inst. and has not been obtainable since.

United Kingdom imports and exports of silver during the week ending the 1st inst. were:

Imports—		Exports—	
Norway.....	£26,500	France.....	£20,160
France.....	217,274	Egypt.....	35,773
Czecho-Slovakia.....	143,900	British India.....	213,818

National Banks.—The following information regarding national banks is from the office of the Comptroller of the Currency, Treasury Department:

APPLICATIONS TO ORGANIZE RECEIVED.

	Capital.
Dec. 15—The Citizens National Bank of North Bergen, N. J.	\$200,000
Correspondent, Henry E. Wolff, 45 Adeline Pl., North Bergen, N. J.	
Dec. 15—The Bay Parkway National Bank of Brooklyn in New York, N. Y.	200,000
Correspondent, Charles G. Bond, 7 Day St., New York, N. Y.	
Dec. 17—First National Bank in Cuthbert, Ga.	25,000
Correspondent, George R. Helton, Cuthbert, Ga.	

APPLICATIONS TO ORGANIZE APPROVED.

Dec. 14—First National Bank in Merced, Calif.	\$100,000
Correspondent, J. Emmet McNamara, Merced, Calif.	
Dec. 17—College Point National Bank of New York, N. Y.	200,000
Correspondent, J. Mack Young, 857 Fourth Ave., College Point, N. Y.	

CHARTERS ISSUED.

Dec. 13—13015—The Merton National Bank, Merton, Pa.	\$50,000
President, Frank B. Rhodes; Cashier, W. W. Reinhold.	
Dec. 13—13016—Brotherhood Nat'l Bank of San Francisco, Calif.	500,000
President, Henry E. Cass; Cashier, E. B. Ansley.	

VOLUNTARY LIQUIDATIONS.

Dec. 13—10280—The Collinsville Nat'l Bank, Collinsville, Okla.	\$25,000
Effective Nov. 10 1926. Liquidating Agent, G. M. Janeway, Collinsville, Okla. Absorbed by the First National Bank of Collinsville, No. 9965.	
Dec. 17—12038—The Blackwell National Bank, Blackwell, Okla.	100,000
Effective December 2 1926. Liquidating Agent, Wm. H. Pauly, Blackwell, Okla. Succeeded by Blackwell Exchange Bank, Blackwell, Okla.	

Auction Sales.—Among other securities, the following, not actually dealt in at the Stock Exchange, were sold at auction in New York, Boston and Philadelphia on Wednesday of this week:

* From unofficial sources. † The New York Stock Exchange has ruled that stock will not be quoted ex-dividend on this date and not until further notice. ‡ The New York Curb Market Association has ruled that stock will not be quoted ex-dividend on this date and not until further notice.

a Transfer books not closed for this dividend. b Correction. c Payable in stock. / Payable in common stock. g Payable in scrip. h On account of accumulated dividends. m Payable in preferred stock.

as British-American Tobacco dividends are one shilling and eight pence regular and ten pence interim. Transfers received in London up to Dec. 8 will be in time for payment of dividend to transferors.

† Less \$2 per share to cover legal expenses for extending second mortgage bonds and third and fourth installments of 1925 income tax.

‡ Less 50 cents to cover third and fourth quar. installment of the 1925 income tax.

k Thirty cents cash or 2 1/4% in stock at stockholder's option.

l Erroneously reported in previous issue as Canada Cement Co.

m Payable in part. pref. stock at par, cash being paid in lieu of fractional shares.

n Less \$2 per share to cover legal expenses of extending second mortgage and third and fourth installments of 1925 income tax.

p American Gas & Electric regular stock dividend is 1-50th, and the special dividend 4-10ths, for each share of new no par common stock.

q American Piano stock dividend is at rate of one share for each one hundred shares.

r Electric Investor stock dividend is three-fiftieths of a share of common stock for each share held.

s At rate of 8% per annum for period from May 1 to Dec. 31 1925.

t Chemical National Bank stock dividend of \$500,000 (one-ninth of a share for each share held), subject to ratification by stockholders at meeting in January.

u Payable in stock dividend certificates exchangeable May 1 1927 for \$25 par value common stock at the rate of two shares for each one hundred shares.

v Less 75 cents per share to cover third and fourth installments of 1925 income tax.

w In lieu of cash, dividends may be taken in stock as follows: on class A com., 1-40 of a share of class A stock for each share; on class B at rate of \$10 per share in class B stock for each share of class B stock held.

x United Profit-Sharing stock dividend is one share com. stock for each 20 shares.

y In lieu of cash dividends may be taken in stock at the rate of 3 15-100 of a share of class A stock for each share of original series pref. stock and 5 5-100 of a share of class A stock for each share of \$7 dividend series pref. stock.

z At rate of 2 1/4% of one share of Class A stock for each share held.

Weekly Returns of New York City Clearing House Banks and Trust Companies.

The following shows the condition of the New York City Clearing House members for the week ending Dec. 18. The figures for the separate banks are the averages of the daily results. In the case of the grand totals, we also show the actual figures of condition at the end of the week.

On account of the fact that to-day (Saturday, Dec. 25) is a holiday, it being Christmas Day, the return for the present week, which would have been issued to-day, was made public yesterday afternoon. We have room here only for the general totals. The table with complete details for the individual banks will appear next Saturday. Using the figures showing the actual condition at the end of the week, the total of the loan item on Dec. 24 stands at \$5,531,521,000, an increase from the previous week of \$103,371,000; net demand deposits, \$4,462,828,000, an increase of \$60,219,000; time deposits, \$661,816,000, an increase of \$10,584,000; cash in vault, \$76,170,000, an increase of \$10,654,000; reserve with legal depositaries, \$632,916,000, an increase of \$53,934,000; aggregate reserve, \$743,561,000, an increase of \$154,466,000 and excess reserve, \$41,193,430, an increase of \$46,230,350.

Contingent liability on bills purchased for foreign correspondence.....	13,639,000	15,107,000	16,005,000

NOTE.—Beginning with the statement of Oct. 7 1925, two new items were added in order to show separately the amount of balances held abroad and amounts due to foreign correspondents. In addition, the caption, "All other earning assets," previously made of Federal intermediate credit bank debentures, was changed to "Other securities," and the caption "Total earning assets" to "Total bills and securities." The latter term was adopted as a more accurate description of the total of the discounts, acceptances and securities acquired under the provisions of Sections 13 and 14 of the Federal Reserve Act, which, it was stated, are the only items included therein.

Weekly Return of the Federal Reserve Board.

The following is the return issued by the Federal Reserve Board Thursday afternoon, Dec. 23, and showing the condition of the twelve Reserve banks at the close of business on Wednesday. In the first table we present the results for the system as a whole in comparison with the figures for the seven preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve Agents' Accounts (third table following) gives details regarding transactions in Federal Reserve notes between the Comptroller and Reserve Agents and between the latter and Federal Reserve banks. The Reserve Board's comment upon the returns for the latest week appears on page 3246, being the first item in our department of "Current Events and Discussions."

COMBINED RESOURCES AND LIABILITIES OF THE FEDERAL RESERVE BANKS AT THE CLOSE OF BUSINESS DECEMBER 22 1926.

	Dec. 22 1926.	Dec. 15 1926.	Dec. 8 1926.	Dec. 1 1926.	Nov. 24 1926.	Nov. 17 1926.	Nov. 10 1926.	Nov. 3 1926.	Dec. 23 1925.

NOTE.—Beginning with the statement of Oct. 7 1925, two new items were added in order to show separately the amount of balances held abroad and amounts due to foreign correspondents. In addition, the caption, "All other earning assets," previously made up of Foreign Intermediate Credit Bank debentures, was changed to "Other securities," and the caption, "Total earning assets," to "Total bills and securities." The latter item was adopted as a more accurate description of the total of the discounts, acceptances and securities acquired under the provisions of Sections 13 and 14 of the Federal Reserve Act, which, it was stated, are the only items included therein.

Weekly Return for the Member Banks of the Federal Reserve System.

Following is the weekly statement issued by the Federal Reserve Board, giving the principal items of the resources and liabilities of the 689 member banks from which weekly returns are obtained. These figures are always a week behind those for the Reserve banks themselves. Definitions of the different items in the statement were given in the statement of Dec. 12 1917, published in the "Chronicle" of Dec. 29 1917, page 2523. The comment of the Reserve Board upon the figure for the latest week appears in our Department of "Current Events and Discussions," on page 3246.

New York Curb Market.—Below is a record of the transactions in the New York Curb Market from Dec. 18 to Dec. 24, both inclusive, as compiled from the official lists. As noted in our issue of July 2 1920, the New York Curb Market Association on June 27 1921 transferred its activities from the Broad Street curb to its new building on Trinity Place, and the Association is now issuing an official sheet which forms the basis of the compilations below.

Week Ended Dec. 24.		Friday Last Sale.	Week's Range of Prices.		Sales for Week.	Range Since Jan. 1.

Latest Gross Earnings by Weeks.—In the table which follows we sum up separately the earnings for the second week of December. The table covers 14 roads and shows 7.35% decrease over the same week last year.

Second Week of December.	1926.	1925.	Increase.	Decrease.
Buffalo Rochester & Pittsburgh	\$ 381,357	\$ 373,287	\$ 8,070	
Canadian National	5,287,223	5,497,953		210,730
Canadian Pacific	3,997,000	4,546,000		549,000
Duluth South Shore & Atlantic	75,756	81,244		5,488
Georgia & Florida	35,600	41,200		5,600
Great Northern	1,734,000	2,025,099		291,099
Mineral Range	6,010	6,051		41
Minneapolis & St. Louis	320,846	335,005		14,159
Mobile & Ohio	364,736	414,640		49,904
Nevada-California-Oregon	5,130	7,087		1,957
St. Louis Southwestern	484,500	584,437		99,937
Southern Railway	3,836,656	4,207,139		370,483
Texas & Pacific	723,517	827,030		103,513
Western Maryland	675,899	405,525	270,374	
Total (14 roads)	17,928,230	19,351,697	278,444	1,701,911
Net decrease (7.35%)				1,423,467

In the following we show the weekly earnings for a number of weeks past:

Week.	Current Year.	Previous Year.	Increase or Decrease.	%
3d week June (15 roads)	19,039,129	17,158,394	+1,880,735	10.96
4th week June (15 roads)	25,593,738	23,231,988	+2,361,750	10.17
1st week July (15 roads)	18,862,723	17,481,987	+1,380,736	7.90
2d week July (15 roads)	18,873,507	17,886,208	+987,299	5.52
3d week July (15 roads)	19,558,751	18,149,032	+1,409,719	7.82
4th week July (15 roads)	28,153,394	26,762,794	+1,390,600	5.19
1st week Aug. (15 roads)	19,791,756	18,665,206	+1,126,550	6.03
2d week Aug. (15 roads)	23,509,600	22,158,613	+1,350,987	6.09
3d week Aug. (15 roads)	20,284,661	19,377,682	+906,979	4.68
4th week Aug. (15 roads)	29,857,268	28,327,016	+1,530,252	5.40
1st week Sept. (15 roads)	19,862,065	19,068,090	+793,975	2.99
2d week Sept. (15 roads)	21,117,872	21,681,685	-563,813	2.60
3d week Sept. (15 roads)	22,446,081	22,432,299	+13,782	0.01
4th week Sept. (15 roads)	31,049,598	30,220,186	+829,412	2.68
1st week Oct. (14 roads)	22,080,405	22,265,044	-184,639	0.82
2d week Oct. (14 roads)	21,459,391	21,265,115	+194,276	0.91
3d week Oct. (14 roads)	22,217,535	21,114,400	+1,103,135	5.22
4th week Oct. (14 roads)	30,638,424	29,041,065	+1,597,359	5.50
1st week Nov. (14 roads)	21,446,173	19,753,529	+1,692,644	8.57
2d week Nov. (14 roads)	21,112,807	20,154,637	+958,170	4.79
3d week Nov. (14 roads)	23,484,291	23,144,554	+339,737	0.14
4th week Nov. (14 roads)	26,404,625	24,637,411	+1,767,214	7.17
1st week Dec. (14 roads)	18,005,738	19,492,721	-1,486,983	7.63
2d week Dec. (14 roads)	17,928,230	19,351,698	-1,423,467	7.35

We also give the following comparisons of the monthly totals of railroad earnings, both gross and net (the net before the deduction of taxes), both being very comprehensive. They include all the Class A roads in the country, with a total mileage each month as stated in the footnote to the table.

Month	Gross Earnings.			Net Earnings.		
	1925.	1924.	Increase or Decrease.	1925.	1924.	Increase or Decrease.
Nov.	\$ 531,742,071	\$ 504,781,775	+26,960,296	\$ 148,157,616	\$ 131,381,847	+16,775,769

The Cudahy Packing Company.

(Financial Statement—Fiscal Year Ended Oct. 31 1926.)

President E. A. Cudahy says in substance:

Strong Financial Position.—The steady growth and increasing financial strength of the company become each year more and more apparent from a comparison of its annual balance sheets, and the one showing the condition of the company at the close of the fiscal year 1926 is in all respects the most satisfactory I have so far had the pleasure of submitting to you. At no time in its history has the company been in a stronger financial position than it is to-day.

Profits.—1926 has been a year of industrial activity. Labor has been well employed and there has been a steady demand for our products throughout the year. Notwithstanding this, however, the year's operations have not been uniformly profitable. Marketing competition has been keen and results frequently disappointing. This was particularly true during the months of September and October when a severe decline in the price of pork products necessitated a reduction in inventory values and prevented us from obtaining the very favorable returns for the year which earlier in the season we had expected. In view of these facts, the year's operations, resulting in a net profit of \$4,052,780, may be considered quite satisfactory.

Par Value Reduced.—The officers and directors, in conformity with the authority vested in them by the resolution passed Oct. 26 last, have since the close of the fiscal year changed the par value of the common stock from \$100 to \$50 per share and have made the necessary arrangements for the exchange of the stock on a basis of two \$50 shares for each \$100 share outstanding. This, it is believed, will lead to a wider distribution of the stock and be beneficial alike to the company and its stockholders individually.

Capital Increase.—With reference to the increase of the authorized capital from \$35,000,000 to \$45,000,000, no steps have been taken to issue any of this stock or increase the amount at present outstanding; and its issue will be contingent on the growth and necessities of the company.

Dividends.—With earnings of 16 1/3% on common stock for the year and with a surplus of over \$10,000,000, I consider your directors were well within the bounds of conservative financing when towards the close of the year they placed the dividend on the common stock on an 8% basis. In making this change they had in mind that the earning power of the company, while necessarily subject to fluctuations, had during the 39 years of its existence greatly exceeded this rate and that the period since its reorganization in 1915, notwithstanding the four disastrous years following the war, had yielded an average annual return comfortably in excess of the dividends we are now paying.

Cuban Dominican Sugar Corporation.
(Annual Report—Year Ended Sept. 30 1926.)

President George H. Houston, New York, Dec. 17, write in substance:

The corporation was organized in April 1926, and on May 15 it acquired all of the assets of The Cuban Dominican Sugar Co., at which time the harvesting of the past crop was practically completed. It is impossible, therefore, to submit a profit and loss statement of the corporation for the year ended Sept. 30. There has been submitted, however, a consolidated profit and loss statement for the 12 months ended Sept. 30 of the subsidiaries owned by the corporation, which applies largely to the operation of these properties prior to their acquisition by the corporation.

Corporation owns 7 sugar estates in Cuba and 5 in Santo Domingo. These estates produced last crop 2,494,976 bags of raw sugar at an average sucrose yield of 10.74%. The estates in Cuba were forced to curtail operations due to crop restriction imposed by the Cuban Government. The average sales price received for sugar produced, other than sugar delivered to colonos in payment for cane, was 2.312 cents per pound F.O.B. Cuban or Santo Dominican port.

Operations of the past year have been burdened with a considerable amount of organization expense and interest upon current borrowings, which will not be repeated in subsequent years.

GENERAL INVESTMENT NEWS

STEAM RAILROADS.

Arbitrator Chosen in Expressmen's Wage Discussion.—Former Supreme Court Justice John H. Clark of Cleveland has accepted position of neutral arbitrator. New York "Times" Dec. 18, p. 27. On Dec. 7 it was reported that former Secretary of Labor William B. Wilson and E. A. Steadman, Vice-President of the American Railway Express Co., were chosen to represent the men and the company respectively. See our index in Dec. 11 issue.

Baltimore & Ohio RR. Shopmen Seek Wage Increase of About 10 Cents per Hour.—Although company granted 2c. per hour increase in September, men claim increase is nullified because time for checking in has been taken away. "Wall Street Journal" Dec. 21, p. 2.

Boston & Maine Firemen and Engineers Take Strike Vote as Protest Against Extension of Runs from Boston, Mass., to Troy, N. Y.—"Journal of Commerce" Dec. 23.

Chicago Milwaukee & St. Paul Ry. Increases Wages of 12,000 Shopcrafts Workers 3 Cents per Hour.—New York "Times" Dec. 24, p. 23.

Repair of Freight Cars.—Class 1 railroads on Dec. 1 had fewer freight cars in need of repair than at any time on record in recent years, the Car Service Division of the American Railway Association has announced. The number of freight cars in need of repair on Dec. 1 totaled 137,420, or 6% of the number on line. This was a decrease of 2,064 cars under the best previous record, established on Nov. 1 this year, at which time there were 139,484, or 6.1%. Compared with the number in need of repair on Nov. 15, it was a decrease of 3,119 cars. Freight cars in need of heavy repair on Dec. 1 totaled 99,365, or 4.3%, a decrease of 2,189 compared with Nov. 15, while freight cars in need of light repair totaled 38,055, or 1.7%, a decrease of 930 compared with Nov. 15.

Repair of Locomotives.—Class I railroads on Dec. 1 had 9,320 locomotives in need of repair, or 15% of the number on line, according to reports filed by the carriers with the Car Service Division of the American Railway Association. This was a decrease of 140 compared with the number in need of repair on Nov. 15, at which time there were 9,460 or 15.2%. Of the total number of locomotives in need of repair on Dec. 1, 4,719 or 7.6% were in need of classified repairs, a decrease of 261 compared with Nov. 15, while 4,601 or 7.4% were in need of running repairs, an increase of 121 compared with the number in need of such repairs on Nov. 15. Serviceable locomotives in storage on Dec. 1 totaled 4,052, compared with 3,841 on Nov. 15.

Surplus Cars.—Class I railroads on Dec. 8 had 164,580 surplus freight cars in good repair and immediately available for service, the Car Service Division of the American Railway Association has announced. This was an increase of 19,659 cars compared with Nov. 30 at which time there were 144,921 cars. Surplus coal cars on Dec. 8 totaled 15,335, an increase of 2,814 cars within approximately a week while surplus box cars totaled 114,182, an increase of 15,388 cars for the same period. Reports also showed 19,485 surplus stock cars, an increase of 221 above the number reported on Nov. 30 while surplus refrigerator cars totaled 7,783, an increase of 1,320 cars within the same period.

Matters Covered in "Chronicle" Dec. 18.—(a) Boston & Maine preferred dividends (editorial), p. 3094.

Albany & Susquehanna RR.—Special Dividend.

A special dividend of 2% has been declared on the \$3,500,000 capital stock (par \$100), payable Jan. 8 to holders of record Dec. 22.
Special Dividends Paid.—30% Nov. 1909; 3.25% each in Jan. 1916, 1917 and 1918; 1 1/4% in Jan. 1920; 2% each in Jan. 1921, 1922, 1923, 1924, 1925 and 1926.—V. 121, p. 2787.

Atlantic Coast Line Co. (of Conn.).—To Subscribe to Allotment of Atlantic Coast Line RR. Stock.

The Atlantic Coast Line Co. now owns 185,906 shares of the common stock of the Atlantic Coast Line RR. The Atlantic Coast Line Co. expects to subscribe for all the Atlantic Coast Line RR. common stock allotted to it and does not contemplate the issue and sale of any of its own stock to provide cash for this subscription.—V. 123, p. 2771.

Bolivia Ry. Co.—Bond Interest to be Paid Jan. 1.

The company announces that in respect of its 1st mtge. bonds due for repayment on Jan. 1, next, the Bolivian Government has no responsibility whatsoever in connection with the repayment of the principal of the bonds, and will have faithfully complied with its guarantees regarding the interest on the bonds, which guarantee, as previously announced, expires on the 31st instant. See also V. 123, p. 2891.

Boston & Maine RR.—Store-Door Service.

Further co-ordination of motor truck and freight train service, by the introduction of steel freight containers which are interchangeable between truck and train, has been achieved by the company between Boston, Worcester and Springfield, Mass. The railroad, acting through its motor subsidiary, the Boston & Maine Transportation Co., has recently inaugurated a store-door delivery service between those cities and is contemplating an extension of such service to other cities on its lines.—V. 123, p. 3178, 3034.

Chicago Rock Island & Pacific Ry.—Control of Peoria Terminal Co. Approved.

See Peoria Terminal Co. below.—V. 123, p. 2892.

Cleveland Union Terminal Co.—Listing.

The New York Stock Exchange has authorized the listing of \$5,000,000 additional series B 1st mtge. 5% sinking fund gold bonds, due April 1 1973 (guaranteed), making the total amounts applied for: (a) \$12,000,000 series A 5 1/2% bonds, due April 1 1972 and (b) \$25,000,000 series B 5% bonds, due April 1 1973.—V. 122, p. 1759.

Denver & Salt Lake Ry.—Reorganization.

The I.-S. C. Commission on Dec. 14 issued a certificate and order authorizing:

- (1) Acquisition and operation in inter-State and foreign commerce by the Denver & Salt Lake Railway of the line of railroad from Utah Junction to Craig, Colo. (the property of the old Denver & Salt Lake Railroad, reorganized per plan in V. 121, p. 835).
- (2) Acquisition by the Denver & Salt Lake Ry. of control of the railroad of the Northwestern Terminal RR. by lease and agreement.
- (3) Issue by the Denver & Salt Lake Ry. of 32,000 shares of capital stock, without par value; \$2,500,000 of 1st mtge. 6% gold bonds, series A; and \$11,000,000 of income mtge. bonds.
- (4) Acquisition and operation in inter-State and foreign commerce by the Northwestern Terminal RR. of a line of railroad in Denver and Adams Counties, Colo. (the property of the Northwestern Terminal Ry., reorganized per plan in V. 122, p. 1023).
- (5) Issue by the Northwestern Terminal RR. of 2,217 shares of capital stock, without par value; and \$2,217,000 of 1st mtge. income gold bonds.—V. 123, p. 2388.

Erie RR.—Bonds Authorized.

The I.-S. C. Commission on Dec. 16 authorized the company to pledge and re-pledge from time to time not exceeding (1) \$219,000 of 1st consol. mtge. gen. lien 4% bonds, (2) \$4,842,900 of gen. mtge. 4% conv. 50-year gold bonds, series D, and (3) \$440,000 gen. mtge. 4% conv. 50-year gold bonds, series B, as collateral security for any note or notes which the company may issue within the limitations of paragraph (9) of Sec. 20a of the Inter-State Commerce Act.—V. 123, p. 3178.

Indiana Harbor Belt RR.—To Retire Bonds.

The Chicago Hammond & Western RR. 1st mtge. 6% bonds, maturing Jan. 1 1927, will be redeemed on and after Jan. 3, at the office of the Guaranty Trust Co. of New York, 140 Broadway, N. Y. City. See also V. 123, p. 2651, 3178.

Interoceanic Railway of Mexico, Ltd.—Report.

The directors' report for the 6 months ended Dec. 31 1925, says: At the last annual meeting the stockholders were informed that, from a cablegram just received from Mexico, the board had reason to believe that it was the intention of the Mexican Government to return the railways of the company, and of its leased lines, to private management, on Jan. 1 1926. These railways were, in fact, so returned on the date named, and the

operating management was resumed by the National Railways of Mexico, under the terms of the old management agreement.

In consequence of the resumption of management taking effect as from Jan. 1st last, it has become desirable to alter the company's financial year so as to make it terminate on Dec. 31 in each year, instead of on June 30. Accounts will therefore be issued for the 12 months to Dec. 31 1926, as soon as possible after they have been received and audited.

The company made a hopeful beginning—the provisional returns for the 1st half of the current year showing gross earnings from the whole system amounting to \$7,221,990 Mexican currency, with net earnings of \$1,291,032 Mexican currency. No accounts have yet been received for any portion of the 2nd half of the year, but the directors have been informed that the lines are not now being worked at a profit.

On Dec. 31 1925, the debit balance against net revenue account—mainly in respect of accrued interest on debenture stocks and rentals of leased lines—amounted to £3,440,910.

The company's claims against the Mexican Government, which were forwarded to Mexico a year ago, are still the subject of discussion.

With the consent of the debenture stockholders' committee appointed in May 1923, and with the acquiescence of the leased lines, the moratorium granted to the company has been extended from time to time and is still in operation.

A scheme for the purpose of terminating the moratorium and for providing a *modus vivendi*, for a limited period, has been prepared by the directors, in consultation with the debenture stockholders' committee. This is now in the hands of the company's legal advisers, but owing to the many complications of the position it will not be ready for submission to the debenture stockholders and other parties interested until early in the new year. The proposed arrangement is intended as preliminary to a comprehensive scheme to be formulated and submitted after a settlement of the claims against the Mexican Government has been effected.—V. 123, p. 1380.

Lehigh & Hudson River Ry.—Extra Dividend of 4%.

The directors have declared an extra dividend of 4% and the regular quarterly dividend of 2% on the outstanding \$4,707,000 capital stock, par \$100, both payable Dec. 31 to holders of record Dec. 21. In Dec. of 1924 and 1925, the company paid extra dividends of 2% in addition to the regular disbursement.—V. 122, p. 3207.

Marshall Elysian Fields & Southeastern Ry.—Abandonment.

The I.-S. C. Commission on Dec. 11 issued a certificate authorizing the company to abandon, as to inter-State and foreign commerce, its line of railroad which extends from Marshall in a southeasterly direction to Elysian Fields, a distance of approximately 18 miles, all in Harrison County, Texas. The report of the Commission says in part:

The railroad was built in 1909 and formerly formed a part of the railroad of the Marshall & East Texas Ry., which extended from Willsboro, Texas, southeasterly to Elysian Fields, about 90 miles. The Marshall & East Texas Ry. subsequently was placed in the hands of a receiver by the United States District Court for the Eastern District of Texas. On July 17 1917 the Court authorized the receiver to discontinue operation of that part of the railroad from Marshall to Willsboro, and on July 10 1918 to abandon operation of the line from Marshall to Elysian Fields.

Certain citizens of Marshall purchased from the receiver the line between Marshall and Elysian Fields, with the hope that they might dispose of it to some railway company and thereby obtain another railroad connection for that city. The applicant was incorporated by the purchasers to operate the line.

Operations are conducted by automobile trucks fitted with flanged wheels. These trucks haul small cars for freight traffic only. The applicant's line has a switch-track connection with the Texas & Pacific RR. at Marshall, but does not connect with any other carrier. It is represented that the operation of the railroad has been unprofitable from the beginning and that such operation has been continued solely with the hope that it might be possible to dispose of the property to some trunk line carrier, but that this appears impossible. Further operation, it is claimed, will not only consume the original investment, but will result in a considerable indebtedness which the applicant will be unable to pay.—V. 118, p. 1268.

Missouri-Kansas-Texas RR.—New President.

Columbus Halle, Vice-President and Traffic Manager since 1907, has been elected President, to succeed the late Charles N. Whitehead. George T. Atkins, Freight Manager, succeeds Mr. Halle as Vice-President in charge of traffic.—V. 123, p. 3179.

Missouri Pacific RR.—To Receive Dividend.

See Texas & Pacific Ry. below.—V. 123, p. 3179.

Morgan's Louisiana & Texas RR. & SS. Co.—Obituary.

President W. R. Scott died in Los Angeles on Dec. 20.—V. 123, p. 1500.

New York Central RR.—41% of Stockholders Are Employees.

It is announced that 41% of the stockholders of the company are employees of the New York Central Lines, as a result of the completion of payment for stock offered them in 1925. The company now has 63,939 stockholders, of whom 26,704 are employees of the New York Central, Michigan Central, Big Four, Pittsburgh & Lake Erie and other lines of the system. These employees have purchased 62,650 shares (\$6,265,000) of New York Central stock, with a current market value of more than \$8,300,000. This is exclusive of holdings of the company's stock by employees not acquired under the special stock purchase plan.

In making these figures public, the New York Central management states that, so far as it appears from available published records, no other railroad company in the United States has so large a number of employees as stockholders, and very few other corporations have a larger number of employee stockholders. At a special meeting of the company's stockholders, held in September, 200,000 shares of New York Central stock (par \$100 a share) were set aside for future offerings for subscription by the employees. The average holding of stock per shareholder is now 60 shares.—V. 123, p. 3035.

New York Chicago & St. Louis RR.—Pref. Stock Offered.—Guaranty Co. of New York and Lee, Higginson & Co. are offering at 103½ and div., to yield about 5.80% \$6,848,500 cum. pref. stock, 6% series A.

Dividends exempt from the present normal Federal income tax. Exempt from the Pennsylvania four-mill tax. Transfer agent, Guaranty Trust Co., New York. Registrar, Bankers Trust Co., New York.

Data from Letter of J. J. Bernet, President of the Company.

Company.—The company, known as the "Nickel Plate," comprises 1,692 miles of road, extending from Buffalo to connections with the principal western and southwestern roads at Chicago, Peoria and St. Louis, and also reaching Indianapolis, Toledo and other important cities in the Middle West.

Company owns shares of both the Chesapeake & Ohio and Pere Marquette Rys., which, if the occasion may arise, the company is, of course, free to deal with as it sees fit including sale, exchange, segregation or distribution. Mutually advantageous traffic arrangements with the Chesapeake & Ohio and the Pere Marquette have been effected.

This company and the Grand Trunk Western Ry. each owns half the capital stock of the Detroit & Toledo Shore Line RR., connecting Toledo with Detroit, thus giving entrance to Detroit over jointly controlled rails.

The strategic location, directness, and low gradients of its lines enable the company to offer shippers and its numerous connections a dependable, fast freight service that has proven of great competitive value. Such service has also had the effect of attracting a large volume of through traffic, which, because it requires relatively less handling and is less subject to costly delays at yards and terminals, can be transported more profitably than traffic of other types.

Capitalization.—The company will have outstanding upon completion of this financing \$107,530,000 funded debt, \$32,714,166 cum. pref. stock and \$30,406,464 common stock (including \$88,230 liability for conversion of stocks of constituent companies still outstanding).

Purpose.—Proceeds are to be used for reimbursement of the treasury of the company for expenditures for additions and betterments heretofore made.

Net income (excluding income from investment assets) for the six years ended Dec. 31 1925 averaged \$4,838,040 per annum or more than 2.45 times the annual dividend requirement on \$32,714,166 cum. pref. stock. For the year ended Dec. 31 1925 such net income was \$5,345,207, or more than 2.70 times such dividend requirement.

Dividends.—Dividends on the company's common stock have been paid from railroad earnings at the rate of 6% per annum since the organization of the company in 1923, and beginning with Jan. 1 1926 additional dividends on such stock have been paid at the rate of 5% per annum from non-operating income derived from investment assets.

Combined Revenues and Income for Calendar Years.

	Operating Revenues.	Gross Income.	Interest, Rentals, &c.	Net Income.	Div. Inc. from Inv. Assets.	Net Income.
1920	\$52,385,412	\$7,242,276	\$3,531,356	\$3,710,920	-----	\$3,710,920
1921	45,547,039	7,137,392	3,413,334	3,724,058	-----	3,724,058
1922	50,948,424	8,853,609	3,513,646	5,339,963	-----	5,339,963
1923	57,477,379	10,087,564	4,111,022	5,976,542	\$354,800	6,331,342

a Properties operated by U. S. RR. Administration to Feb. 29 1920. x Excluding income from investment assets. y Ten months ended Oct. 31.

Listing.—Application will be made to list the additional stock on the New York Stock Exchange.

New President.

Walter L. Ross, Senior Vice-President, has been elected President to succeed John J. Bernet on Jan. 1 next. Mr. Bernet, effective Jan. 1, will succeed Frank D. Underwood as President of the Erie RR.

Charles E. Denny succeeds Mr. Ross as Senior Vice-President of the Nickel Plate RR.—V. 123, p. 2389.

Northern Central Ry.—Listing.

The Philadelphia Stock Exchange has authorized the listing of \$5,231,000 additional gen. & ref. mtge. 5% gold bonds, series "A," due March 1 1974, making the total amount of series "A" bonds listed at Dec. 16, \$13,531,000. See also V. 123, p. 2257.

Northwestern Terminal RR.—Reorg. Approved, &c.—See Denver & Salt Lake Ry. above.—V. 123, p. 1500.

Old Colony RR.—To Issue Additional Stock.

The stockholders have authorized the issuance of 8,917 additional shares of capital stock, the proceeds to be used to reimburse the New York New Haven & Hartford RR. for permanent additions and improvements to the Old Colony RR. The new stock will be sold at public auction.—V. 123, p. 2893.

Pennsylvania Co.—New Director.

Richard B. Mellon has been elected a director, to succeed the late George H. McFadden.—V. 123, p. 2651.

Pennsylvania RR.—Tentative Valuation.—The I.-S. C.

Commission on Dec. 20 placed a tentative valuation of \$768,970,997 on the total owned property (including \$9,945,997 for property owned and not used but leased to other companies) and \$1,078,185,180 on the total used property, (including \$319,160,180 for property used but not owned, leased from other companies, many of which are subsidiaries) as of June 30 1918. [This valuation covers the principal Eastern lines of the Pennsylvania system, the lines west of Pittsburgh and some of the other lines of the system having been included in previous reports on the subsidiary companies.]

The report indicated the carrier wholly owns and uses 2,891,549 miles of road and had outstanding on the date of valuation a total par value of \$807,278,304 in stock and long-term debt, of which \$499,178,400 represented common stock, \$5,568 stock liability for conversion and \$308,094,335 funded debt unamortized. In addition it had outstanding \$754,371 par value of funded debt matured but unpaid.

The cost of reproduction new of the total owned properties of the road was placed at \$724,257,903 and less depreciation at \$558,228,786. The cost of reproduction new of the total used properties totaled \$1,011,451,747, and less depreciation \$789,815,734.

The company owned and used 46,412 acres of land with a present value of \$118,508,646. Investment of the carrier in miscellaneous physical properties has a book value of \$2,221,038. Securities and other investments held by the road for non-carrier purposes were valued at \$485,033,420. Government securities held had a book value of \$387,606,620. The investment in material and supplies had a book value of \$54,030,044. The sum of \$46,775,000 is included in the value as working capital.

Thomas W. Hulme, Vice-President of the Pennsylvania RR. in charge of real estate, taxes and valuation, authorized the following statement:

The tentative valuation just issued by the I.-S. C. Commission for the Pennsylvania RR. Co. simply includes the property of the parent company, together with a portion of the leased lines which comprise the Pennsylvania System.

The Commission's date of the valuation of the Pennsylvania RR. was June 30 1918. It does not afford a complete basis for comparison between all the assets of the Pennsylvania RR. System and the securities outstanding against these assets.

In order that a comparison may be intelligently made, in the light of the findings of the I.-S. C. Commission, as to the tentative valuation, the company has added to the valuation figures for the Pennsylvania RR. Co. proper the Commission's valuation figures previously found for the other constituent companies of the system. The total so reached comprises 98 corporations with a total railroad mileage of 11,569, together with the equipment and other railroad property. The dates of these previous tentative valuations were as of June 30, in various years between 1915 and 1918. The Commission uniformly used a price level which it considered represented the conditions as of June 30 1914.

The total assets so found for the entire 98 companies comprising the Pennsylvania RR. System were as follows:

The total of the Commission's cost of reproduction new is	\$1,853,082,782
Its value of the lands	436,964,924
But in addition, the companies had:	
Materials and supplies	70,063,299
Working capital (including special deposits)	45,842,031
And securities of corporations not operated as a portion of its system (like the Norfolk & Western Ry., &c.) which cost	157,732,530

Making a total of \$2,563,685,568. Against the foregoing figures of the system is to be placed the total par value of stocks, bonds and other securities outstanding on the dates at which the respective valuations were made. This total par value of all securities outstanding on the dates mentioned was \$1,865,823,469.

Of the total of \$1,865,823,469 in stocks, bonds and other securities then outstanding, \$485,418,217 was owned by companies comprising the Pennsylvania System, either directly or through sinking funds, insurance or trust funds, leaving capital issues in the hands of the public of \$1,380,405,252, as against assets of \$2,563,685,568.

Change in Registrar.

The American Exchange Irving Trust Co. of New York City has been appointed registrar of the capital stock of the Pennsylvania RR. and the Northern Central RR. in New York City, in place of the American Exchange-Pacific National Bank, effective as of Dec. 13 1926.—V. 123, p. 3035.

Peoria Ry. Terminal Co.—Successor Company.

See Peoria Terminal Co. below.—V. 115, p. 989.

Peoria Terminal Co.—Acquisition & Operation of Line.

The I.-S. C. Commission on Dec. 8 issued a certificate authorizing the

company to acquire and operate a line of railroad, formerly owned by the Peoria Railway Terminal Co., in Tazewell and Peoria counties, Ill.

Authority was also granted the company to issue not exceeding \$500,000 common stock and not exceeding \$1,000,000 general mortgage 5% bonds; 4,991 shares of stock and all of the bonds to be issued in payment for the property to be acquired, and 9 shares of stock to be sold at par for cash.

The Commission also approved the acquisition by the Chicago, Rock Island & Pacific Ry. of control of the Peoria Terminal Co. by purchase of its capital stock. The report of the Commission says in part:

The property to be acquired was formerly owned by the Peoria Railway Terminal Co. It consists of a railroad and terminal properties connecting and lying within the cities of Peoria and Pekin. It includes 7.69 miles of single main track and 18.55 miles of yards, sidings and other tracks. In addition there are trackage rights over the Peoria & Eastern and the Minneapolis & St. Louis railroads aggregating 1.04 miles. There is a small amount of trackage at South Bartonville, Ill., jointly owned with the Peoria & Pekin Union Ry. Co. Equipment consists of 6 small switching locomotives, 50 coal cars, 2 coal dump cars, 1 combination electric locomotive, snow plow and sprinkler, and 1 block car.

"The Terminal company was never a self-sustaining carrier. It had outstanding \$1,000,000 capital stock owned in equal portions by the Rock Island and the Chicago & Alton. It had two mortgages, one dated Jan. 2 1907 to the Illinois Trust & Savings Bank (now Illinois Merchants Trust Co.) of Chicago, securing \$1,500,000 1st mtge. 4% 30-year gold bonds, of which \$944,000 is outstanding, and one dated Dec. 1 1911, to the Bankers Trust Co. of New York, trustee, securing \$5,000,000 of 1st & refunding 4 1/2% 30-year gold bonds, of which \$1,500,000 is outstanding. Bonds issued under both mortgages were guaranteed unconditionally as to principal and interest by the proprietary companies. In 1922 the Alton's properties were placed in the hands of a receiver and from that time on it failed to make any contribution toward the payment of interest on the Terminal company's bonds. On Aug. 3 1922, by order of the United States District Court for the Southern District of Illinois, Northern Division, receivers were appointed for the Terminal company and all its properties. The Terminal company defaulted interest on the 1st & ref. mtge. bonds and on Jan. 22 1924 the trustee, at the instance of the Rock Island, holder of the bonds, instituted foreclosure proceedings in the same court. The foreclosure proceedings were consolidated with the prior receivership proceedings and under a decree of foreclosure and sale entered April 27 1925, the Terminal company's properties were sold on Jan. 6 1926 to Bruce Dwinell for \$2,000,000 to satisfy a judgment in the amount of \$2,230,646, principal and interest, upon the 1st & ref. mtge. bonds. The sale was made subject to the lien of the Terminal company's first mortgage.

"The purchaser at the foreclosure sale was acting for the Rock Island and has assigned all his rights as successful bidder to that company. Prior to the sale the Rock Island, as a result of a settlement with the Alton subsequent to the beginning of the latter's receivership, had acquired all the Terminal company's capital stock and had released the Alton from that company's liability to the Rock Island on the guaranty of the Terminal company's bonds. The Rock Island has caused the new company to be incorporated under the laws of Illinois for the purpose, among others, of acquiring, maintaining, owning and operating the railroad formerly belonging to the Terminal company.

The new company has an authorized capital stock of \$1,000,000. By the terms of a proposed agreement the Rock Island, in the event the court confirms the sale, is to complete the payment of the purchase price for the property as may be required by the court's order and thereupon is to cause to be conveyed to the new company all the property included in the decree of foreclosure and sale and is to assign to the new company all other rights of the successful bidder; and the new company upon conveyance of the property to it is to issue and deliver to, or upon the order of the Rock Island, in full payment for the property, \$1,500,000, of its proposed general mortgage bonds, and \$500,000 of its capital stock, which is to be fully paid and non-assessable. The agreement provides, however, that the new company shall pay for the property, and the Rock Island shall accept as full payment therefor, such amount of bonds and of capital stock of the new company as shall be authorized by the Commission.

"The initial payment for the Terminal company's property was made by the purchaser by depositing with the master appointed by the court \$50,000 of the 1st & ref. mtge. bonds. The remainder of the purchase price is to be paid by delivering to the master the rest of the 1st & ref. mtge. bonds. In addition to the sum bid for the property the purchaser is to pay certain other items mentioned in the court's decree of foreclosure and sale to the extent that they have not been paid out of the moneys in possession of the receivers, but the testimony is that the funds in the receivers' hands are sufficient to discharge all claims except one in the amount of \$79,000 now in litigation."

Philadelphia & Reading Ry.—Valuation Stay Denied.

The I.-S. C. Commission on Dec. 16 announced that Division 1 of the Commission had denied a motion filed on behalf of the Philadelphia & Reading Ry. and its subsidiaries that proceedings in the case involving the valuation of their property be stayed. See V. 123, p. 1248.

Reading Co.—Extra Dividend of 2%.—The directors on Dec. 23 declared an extra dividend of 2% in addition to the usual quarterly dividend of 2% on the outstanding \$69,989,100 common stock, par \$50, both payable Feb. 10 to holders of record Jan. 13. This is the first extra dividend ever paid by the company.—V. 123, p. 3035.

Santa Fe Dock & Channel Co.—Valuation.

The I.-S. C. Commission has placed a final valuation of \$775,000 on the owned and used, and \$404 on the owned but not used property of the company, as of June 30 1916.

Texas & Pacific Ry.—Annual Preferred Dividend.

The directors have declared an annual dividend of 5% on the \$23,703,000 5% non-cumulative preferred stock, payable Dec. 31 to holders of record the same date. A similar distribution was made on Dec. 31 1925. All of the preferred stock is owned by the Missouri Pacific R.R.—V. 122, p. 2793.

Wabash Ry.—Urges Formation of Committee for Class B Stock to Secure Dividend Payment on Issue.

Edwin Hawley Van Wyck, a stockholder, has sent out letters to other holders of the company's Class B preferred stock, charging that the company is withholding dividends to force these holders to convert their shares into preferred A stock. He suggests the formation of a protective committee to defend their rights. Mr. Van Wyck says:

"The company is in strong financial condition and has a capital structure as good, if not better, than most of the railroads of this country. The dividends on the B stock, after the payment of the preferred A dividends, have been earned over 40 times, and according to the best information available for the year 1925, the company earned at the rate of \$169 for every share of B stock outstanding, and it is intimated that this year they will exceed this amount.

"Dividends have not been paid, and it is my belief that the same are being withheld in an effort to force the conversion of our stock. It is recommended that you resist any such effort."

Notes Called.

The company has called for redemption on March 1 next the outstanding \$500,000 6% secured gold notes, due March 1 1930, at par and int.—V. 123, p. 1995.

Wisconsin Central Ry.—Guaranteed Notes Sold.—Dillon, Read & Co. and the National City Co. have sold at 99 and int. to yield over 5.35% \$7,500,000 3-year 5% secured notes.

Dated Jan. 1 1927; due Jan. 1 1930. Principal and interest guaranteed by endorsement by the Minneapolis St. Paul & Sault Ste. Marie Ry. Principal and int. payable in gold in N. Y. City. Int. payable J. & J. Denom. \$1,000e*. Red. all or part by lot, at any time prior to maturity on 60 days' notice at 101 and int. on or before Jan. 1 1929 and thereafter at 100 and int. National City Bank, New York, trustee.

Data from Letter of C. T. Jaffray, President of the Company.

Company.—Company, owning 1,021 miles of railroad, forms the Chicago Division of the Minneapolis St. Paul & Sault Ste. Marie Ry., which operates the lines of the Wisconsin Central under a 99-year lease dated 1909, and owns or controls practically all of its preferred and common stocks. Control

of \$11,249,200 par value preferred stock was acquired by the Minneapolis St. Paul & Sault Ste. Marie Ry. through exchange for its own 4% leased line certificates in like amount. Of the \$15,973,300 common stock owned by that company, \$8,100,000, or a majority, is owned outright and is held in its treasury, and the balance is pledged as security for its notes issued in exchange for such stock.

Canadian Pacific Ry.—The Minneapolis St. Paul & Sault Ste. Marie Ry. is controlled by the Canadian Pacific Ry. through ownership of a majority both of preferred and common stocks, and affords the Canadian Pacific a connection with Minneapolis and St. Paul over its lines, and with Chicago over the lines of the Wisconsin Central Ry. The Canadian Pacific Ry. has guaranteed the interest on \$68,499,000 of the funded debt of the Minneapolis, St. Paul & Sault Ste. Marie Ry.

Security.—These notes are to be secured by the pledge with the trustee of \$10,000,000 Wisconsin Central Ry. 1st & ref. mtge. 5% gold bonds due April 1 1929. The market value of these bonds is approximately \$8,900,000, based on present quotations on the 4% bonds of the same issue. The 1st & ref. mtge. bonds are secured by direct lien on all the railway property of the Wisconsin Central Ry., subject to prior liens aggregating \$29,468,000. Pending deposit with the trustee of the full amount of said bonds (to be effected upon retirement of outstanding notes due April 15 1927) these 5% notes may be issued against deposit with the trustee of cash equal to 100% and (or) bonds in principal amount equal to 133 1/3% of the face value of the notes.

Earnings.—Combined earnings of the Wisconsin Central Ry. and the Minneapolis St. Paul & Sault Ste. Marie Ry. were as follows:

Calendar Years—	1923.	1924.	1925.
Total operating revenues.....	\$49,345,337	\$47,945,360	\$49,670,264
Total operating expenses.....	37,615,134	36,813,854	36,075,537
Net before int. on funded debt.....	7,982,863	6,675,858	8,864,832
Int. on funded debt and on leased line certificates.....	6,307,871	6,655,033	6,792,241

Balance to surplus.....\$1,674,992 \$20,825 \$2,072,591

For the 11 months ended Nov. 30 1926 total operating revenues, as above, amounted to \$43,104,509, compared with \$45,834,739 for the corresponding period of 1925, and net before interest on funded debt amounted to \$6,454,067. Total interest on funded debt and on leased line certificates amounted to \$6,269,981.

Purpose.—Proceeds will be used to retire \$6,000,000 3-year 5 1/2% secured gold notes, due April 15 1927; for additions to terminals, grade revisions and for other betterments and corporate purposes.—V. 120, p. 2538, 2547; V. 122, p. 2941, 2945.

PUBLIC UTILITIES.

Brooklyn Edison Co., Brooklyn, N. Y., Reduces Maximum Rate for Electricity from 7 1/2c. to 7c. per Kilowatt Hour, Due to Lowering of Production Costs.—New York "Times" Dec. 24, p. 3.

Alum Rock Gas Co.—Proposed Sale.

The New York "Times" quoting a special despatch from Oil City, Pa., says: "The stock of the above company will be sold soon to the Dempsey Town Gas Co., if men who now are auditing the Alum company's books and investigating its properties report favorably. The transaction will involve \$1,000,000 and the transfer of 35,000 acres of oil and gas lands and 550 wells. The Alum Rock Company is a gas producing, distributing and selling organization. The Dempsey company was purchased a year ago by Stevens & Wood of New York, operating engineers."—V. 109, p. 2358.

American Water Works & Electric Co., Inc.—Booklet.

This company, controlling through stock ownership one of the largest groups of properties in the United States engaged in the electric power and light, water, gas and electric railway and bus business, is the subject of a special illustrated booklet reviewing properties and earnings just issued for distribution to investors by W. C. Langley & Co., members of the New York Stock Exchange. Featured in the treatise are maps in color, showing the extent of the corporation's water and electric systems, transmission lines, proposed transmission lines, generating stations, &c.

Gross earnings of the corporation are shown to have grown from \$20,574,267 in 1921 to \$43,333,284 for the year ended June 30 1926, and gross income from \$8,309,020 in 1921 to \$20,544,146 in the year ended June 30 1926. Electric customers gained from 61,211 to 195,870, water customers from 205,848 to 320,750, and kilowatt output increased from 518,400,000 k.w.h. to 1,399,500,000 k.w.h. in this period.—V. 123, p. 2893.

Associated Gas & Elec. Co.—Acquisition, &c.

Company has announced the purchase of practically all the common stock of Gas Utilities, Inc. This adds to its system the Indiana Gas Utilities, serving Terre Haute, Brazil and Richmond, Ind.; the Union Gas & Electric Co., serving Bloomington, Ill.; the Sioux Falls Gas Co., serving Sioux Falls, S. D.; the Portsmouth Gas Co., serving Portsmouth, Ohio; the Northeastern Oil & Gas Co., serving Conneaut, Geneva and Jefferson, Ohio; the Lock Haven Gas & Coal Co., serving Lock Haven, Pa., and the Lake Shore Gas Co., serving Ashtabula and Madison, O. Gross annual revenues of the acquired properties exceed \$2,600,000. Four of the companies manufacture their own water gas, two purchase natural gas, two buy coke oven gas and two manufacture coal gas. A pipe line is under construction from Terre Haute to Brazil, Ind., to supply the latter point. After consolidation the directors of Gas Utilities, Inc., will include J. I. Mange and H. C. Hopson of the Associated company; F. S. Burroughs and C. W. Beall of Harris, Forbes & Co.; G. W. Olmstead, a director of the Long Island Lighting Co., and Ralph H. Beaton, who continues as President of Gas Utilities, Inc. Otherwise the management of Gas Utilities will remain unchanged.

Dividend on Class A Stock.

The directors have declared the regular quarterly dividend, payable Feb. 1 1927, on the class A stock to holders of record Dec. 31 1926, at the rate of 2 1/2% of one share of class A stock for each share held. At this rate the stock dividend is equivalent to about \$3.60 cash per share per year based on the present market price of about \$36. Stockholders may also purchase or sell sufficient scrip to make full shares at the rate of \$1 above or below, respectively, the sale price of class A stock.

A like distribution in stock was made on this issue on Nov. 1 last.

Sales of Electricity.

Sales of electric current for November by the properties in the Associated Gas & Electric System aggregated 67,480,896 k.w.h., an increase over the same month a year ago of 9,542,411, or 16.5%. The figures for the 12 months ended Nov. 30 show a total of 741,658,644 k.w.h., an increase of 119,975,058, or 19.3%.

The continuance of the high state of industrial activity in the 12 Eastern States in which the Associated System operates is indicated by the further fact that the week of Dec. 10 showed the highest kilowatt-hour output in its entire history, with 16,115,349 k.w.h. The week of Dec. 3 was second with just short of 16,000,000 k.w.h.—V. 123, p. 3035.

Athens (Ga.) Ry. & Elec. Co.—Merger Approved.

See Georgia Ry. & Power Co. below.—V. 123, p. 2894.

Bolivian Power Co., Ltd.—Initial Dividend.

The directors have declared an initial dividend of 2% on the common stock, payable Dec. 30 to holders of record Dec. 24. This company is a subsidiary of the International Power Co., Ltd.—V. 121, p. 976.

Boston Consolidated Gas Co.—Debentures Authorized—To Retire Preferred Stock.

The stockholders on Dec. 16 authorized an issue of \$10,500,000 debenture bonds and voted to reduce the authorized capital stock by retiring 60,000 shares of 6 1/4% preferred stock and 40,000 shares of 5 1/4% preferred stock. Both issues are identical except as to rate and are callable at 105 on any dividend date upon 30 days' notice.

The company has petitioned the Massachusetts Department of Public Utilities for authority to issue at not less than par \$10,500,000 bonds at not over 5% to run no longer than 20 years, and to be redeemable at 105 and int.—A hearing was held Dec. 21.—V. 123, p. 3036.

Brooklyn Borough Gas Co.—Gas Rate Report.

The report of Special Master Alvah W. Burlingame, which held that the rate of \$1 per 1,000 cu. ft. was confiscatory, was approved without modification Dec. 16 by a statutory court, composed of Court of Appeals Justice Martin T. Manton and District Judges Marcus B. Campbell and Robert

A. Inch. The finding and endorsement is in keeping with those in similar suits by other companies in the Metropolitan district. The rate was fixed by the P. S. Commission in 1923.—V. 123, p. 1381.

Central Hudson Gas & Electric Co.—Merger Auth.—See Central Hudson Gas & Electric Corp. below.—V. 123, p. 2390.

Central Hudson Gas & Electric Corp.—Consolidation.—The New York P. S. Commission has authorized the company to issue \$10,050,000 1st & ref. 5% gold mtge. bonds, dated Jan. 1 1927, due 1957, 300,048 shares of no par value common stock and \$6,030,000 6% cum. preferred stock.

The merger of the Central Hudson Gas & Electric Co., the Dutchess Light, Heat & Power Co., the United Hudson Electric Corp., the Kingston Gas & Electric Co., the Ulster Electric Light, Heat & Power Co., and the upper Hudson Electric & RR. Co. into a new corporation to be known as the Central Hudson Gas & Electric Corp. has also been approved by the Commission. See also V. 123, p. 2390.

Central Power & Light Co.—Preferred Stock Sold.—Howe, Snow & Bertles, Inc., A. B. Leach & Co., Inc., Tueker, Anthony & Co., and Hill, Joiner & Co., Inc., have sold at 101½ and dividend \$1,750,000 7% cumulative preferred stock (see description in V. 123, p. 81).

Data from Letter of Martin J. Insull, President of the Company. Company.—Incorporated in 1916 in Massachusetts. Now supplies one or more classes of public utility service to a centralized group of 92 communities the majority of which are located in the southern portion of the State of Texas. Electric light and power is supplied to 86 communities, ice to 67, water to 16, gas to 3, and street railway service in 2 communities. Company serves 36,999 customers with electric light and power, 663 with gas and 9,185 with water. Total combined population of territory served estimated at 518,000.

The properties now operated comprise electric power stations having a generating capacity of 32,450 h.p., ice plants having a daily ice-making capacity of 2,270 tons, gas plants of 45,000 cu. ft. daily capacity, and 690 miles of electric transmission lines.

Net earnings.....\$471,018
—V. 123, p. 2898.

Empire State Railroad Corp.—Seeks Relief.—The corporation has filed with the New York P. S. Commission petitions asking for permission to abandon five street railway routes in Oswego, N. Y. The petition says: The operation of the railroad on the routes described does not pay operating expenses, but, on the contrary, is a daily and constant loss to the corporation, and said loss, in conjunction with losses upon other routes in Oswego, is so great as to impair the solvency of the petitioner, and threatens to destroy its ability to furnish any railroad service of any kind over any of its routes. The traffic over the lines described in the petition is so slight as to demonstrate that no public convenience or necessity is served by the operation of said railroad. The Commission will hold a public hearing on the petition.—V. 120, p. 330.

Federal Light & Traction Co.—Listing.—The New York Stock Exchange has authorized the listing on or after Jan. 3 of not exceeding \$61,402 common stock (par \$15) on official notice of issuance as a stock dividend, making the total amount applied for \$6,201,633 common stock.

Company.—Supplies, through subsidiary companies, artificial gas service to the following communities: Owosso, Corunna, Marshall, Alpena, Sault Ste. Marie, Plymouth, Northville, Wayne, Alma, Ithaca, St. Louis, Breckenridge, Mt. Clemens, Halfway, Warren, St. Clair Shores, Roseville, Fraser and Centerline, Michigan; Palm Beach, West Palm Beach and Lake Worth, Fla.; Huntsville, Ala.; Griffin, Ga.; and Washington, Ind. In addition company owns all of the capital stock of the Consumers Gas & Coke Co., of Waycross, Ga., the Washington County Gas Co., of Johnson City, Tenn., and controls the artificial gas properties serving Lawrenceburg, and Greendale, Ind. Company is the owner of more than 99% of the underlying bonds of the Johnson City property and will shortly qualify the property as a subsidiary as defined in the indenture. The total population served by the company's operating units is in excess of 240,000.

Security.—Secured by pledge with the trustee of the entire first mortgage bond issues of the subsidiary companies which must at least equal the face value of bonds of this issue. They are further secured by pledge with the trustee of the entire common stock issues of such subsidiaries excepting only directors' qualifying shares. Additional subsidiary bonds are issuable for not to exceed 75% of depreciated physical value of improvements or acquisitions with the requirement of net earnings in the preceding 12 months of at least twice interest charges on such bonds issued and to be outstanding.

Purpose.—Proceeds provide a portion of the cost of financing the construction of substantial gas plant additions and extensions of the various subsidiaries.

Earnings 12 Months Ended Sept. 30 1926.
[Company and its subsidiaries, including earnings accruing to prior owners.]
Gross earnings.....\$1,102,454
Oper. exp. & taxes, incl. maint., int. on Consumers Gas & Coke Co. bonds and divs. on Michigan Federated Utilities pref. stk. 679,665

Net earns. avail. for int. Fed. taxes, deprec., amort. & divs. \$422,789
Annual interest requirements (including this issue).....160,750

Appraisal of Properties.—Appraisals of the properties of the company's subsidiaries have been made by Hagenah & Erikson, Chicago. The combined properties had a conservative physical value as of Aug. 31 1926, after making liberal deductions for depreciation, of over \$4,630,000, or over 1 2-3 times the \$2,750,000 of bonds to be presently outstanding. This valuation includes the cost of additions and extensions made subsequent to engineers' reports. Washington County Gas Co., to be presently included under the indenture, had a depreciated physical value as of Nov. 1 1926 of \$306,054.—V. 123, p. 3182.

Florida Public Service Co.—Listing.—There will be placed on the Boston Stock Exchange list on and after Dec. 20, \$1,684,000 additional 1st mtge. 6% gold bonds, Series B, dated April 1 1926 and due April 1 1955.—V. 123, p. 1502, 1112.

Fort Wayne Van Wert & Lima Traction Co.—Sale.—The property has been sold at receiver's sale at Fort Wayne, Ind., to the bondholders for \$150,000. The company will be reorganized in accordance with terms of the plan given in V. 122, p. 3209.—V. 123, p. 1875.

Gas & Electric Securities Co.—Stock Dividends.—The directors have declared four monthly dividends of 7-12% on the preferred stock and 4 monthly dividends each consisting of ¼ of 1% in stock and ¼ of 1% in cash on the common stock. These dividends are payable Jan. 1, Feb. 1, March 1 and April 1 1927 to holders of record Dec. 15 1926, Jan. 15, Feb. 15 and March 15 1927, respectively.—V. 115, p. 2911.

Gas Utilities, Inc.—New Control.—See Associated Gas & Electric Co. above.—V. 123, p. 3038.

General Gas & Electric Corp. (of Del.).—Listing.—The New York Stock Exchange has authorized the listing of 3,377 additional shares of common stock, class A, without par value on official

notice of issuance, making the total amount applied for 325,822 shares. The 3,377 shares applied for represent the maximum number of additional shares required to be listed for issuance to holders of common stock, class A, for subscriptions to additional common stock, class A, to the extent of the dividend payable on Jan. 1 1927, to stockholders of record Dec. 15.—V. 123, p. 3038.

Georgia Power Co.—Merger Approved.—

See Georgia Ry. & Power Co. below.—V. 123, p. 2899.

Georgia Railway & Electric Co.—Merger Approved.—

The stockholders have approved the merger of this company, with other companies, into the Georgia Power Co.—V. 123, p. 2899.

Georgia Ry. & Power Co.—Merger Approved.—

The stockholders of the Athens Ry. & Electric Co., the Georgia Ry. & Electric, the Georgia Ry. & Power Co., the Georgia Power Co., the East Georgia Power Co. and the Rome Ry. & Light Co. have voted to merge these companies into a new corporation to be known as the Georgia Power Co. See also V. 123, p. 2899.

Havana Electric Railway Co.—Listing.—

The New York Stock Exchange has authorized the listing of (a) Speyer & Co. interim receipts for allotment certificates for 50,000 shares of the company's fully paid 6% cumulative preferred stock (par \$100), and 30,000 shares of its fully paid common stock of no par value; (b) Speyer & Co. interim receipts for 170,000 shares of the common stock without par value; (c) Speyer & Co. interim receipts for \$5,500,000 25-year 5½% gold debentures, series of 1926.

Havana Electric Railway Co. was organized in Maine, Aug. 11 1926. Company was formed to acquire and operate the street railway properties in Havana, Camaguey and Santiago, Cuba. The properties now operated by the company have heretofore been owned and operated by Havana Electric Railway Light & Power Co., Camaguey Electric Co., S. A., and by Santiago Electric Light & Traction Co. but not as a business apart from the light, power and gas business carried on by these concerns. The company has also acquired all of the stock of Insular Railway Co., which owns and operates a line from Havana to and within the town of Marianao. (See V. 123, p. 842, 981).—V. 123, p. 2260.

Havana Electric & Utilities Co.—Preferred Stocks Both Placed on a Quarterly Dividend Basis.—

The directors have declared regular quarterly dividends of \$1.25 per share on the \$5 cum. preference stock and of \$1.50 a share on the first pref. stock, both payable Feb. 15 to holders of record Jan. 21. On Nov. 16 last an annual dividend of \$5 per share was paid on the \$5 cum. preference stock and a semi-annual dividend of \$3 per share on the first pref. stock.—V. 123, p. 2260.

Haverhill Electric Co.—Rates Decreased.—

Effective Feb. 1 next, electricity rates will be reduced in Haverhill, Mass., ½ cent a kilowatt hour per room per month for the first 3 k.w.h. Commercial lighting rate is reduced ½ cent per k.w.h., and in the Newburyport division the flat rate is changed to the "room per month" basis, with 13 cents net for the first 3 k.w.h. per room per month, 10 cents per k.w.h. for the next 5 and all over at 5 cents. Previously the rate was 14 cents net per k.w.h.—V. 122, p. 610.

—V. 123, p. 1996.

Interborough Metropolitan Co.—Directors Upheld—Plea of "No Recourse" to Holders Who Alleged Bond Losses May Stand, Court Rules.—

The following is from the New York "Times" of Dec. 18: In the suit brought by a bondholder against directors of the Interborough-Metropolitan Co. to recover \$8,000,000 paid in dividends on the ground that the payments were illegal and caused a loss to the bondholders the Appellate Division has handed down a decision upholding an important defense to the action. The defendants named included Edward J. Berwind, Solomon R. Guggenheim, Cornelius Vanderbilt, Guy H. Tripp, Horace M. Fisher and the estates of August Blemont and Augustus D. Juilliard.

The suit was brought by Herbert Small as owner of a \$5,000 bond of the company in behalf of himself and all other bondholders and creditors. He said the company was formed in 1906 as a holding company with \$45,740,000 of preferred and \$93,262,162 of common stock, and bonds aggregating \$67,825,000. He asserted that the corporation sustained large losses prior to 1915 and that the capital was impaired by \$80,000,000.

The Interborough-Metropolitan, it was alleged, had accumulated a large sum in its treasury from dividends paid by the Interborough Rapid Transit Co., but they were not applicable for payment of dividends by the Interborough-Metropolitan because the latter had no surplus profits, and the capital impairment exceeded its earnings. The plaintiff said no payments had been made for seven years prior to 1915.

The gravamen of the complaint was that the defendants were large stockholders in Interborough-Metropolitan and were speculating in its stock on a large scale, and in order to open the way for the payment of the alleged unlawful dividends, and thus increase the value of the stock, they decided in 1915 to consolidate the company with the Finance & Holding Corp., a paper concern which had only \$550 in cash as an asset and was not engaged in business. The plaintiff accordingly contended that the consolidated company, called the Interborough Consolidated Corp., with a capital of \$50,403,634, was still liable for \$67,825,000 of bonds, while it had assets amounting only to \$52,559,397, for which reason the dividend payments were unlawful.

The opinions written by Justice Martin said the answers deny all the important allegations and plead separate defenses, refraining at the present time from challenging the sufficiency of the complaint. The case came before the Appellate Division on an appeal from a decision by Justice Crain denying the motion as to seven defenses, and striking out only two of them, one of which was that the plaintiffs had an ample remedy at law and could not sue in equity for an accounting, and also that the statute of limitations intervened against the claim.

Justice Martin in his opinion, Dec. 17, pointed out that the first defense was that the trust deed under which the bonds were issued provided that there should be no recourse against the directors. Other defenses were that the consolidation was legal according to the terms of the trust deed and was in good faith; that the plaintiff and other bondholders had received the benefit of the consolidation plan; that the dividends complained of were paid from surplus profits of the consolidated; that the claim, if any, rested with the trustee of the bond issue and not with the individual bondholders and finally that another action was pending. Several of the estates sued contended that the assets of the estates had been administered and failure to present the claim previously barred a recovery.

Justice Martin, with the other members of the Court concurring, held that the "no recourse" clause was intended to protect the directors from any charge because of non-payment of any corporate obligations, the plaintiff having alleged that the bondholders sustained a loss of at least 70% of the par value of their bonds.

The Court, however, strikes out the third defense, which asserted that the bondholders had received the benefits of the readjustment plan, and also the allegation that the dividends were declared from surplus profits arising from the business of the consolidated, in good faith and without fraud. The Court holds further that the defense contention that any claim was in the trustee and not in the individual bondholders is insufficient, but upholds Justice Crain's decision in striking out some defenses. Justice Martin finally ruled out the defense that another action was pending.

If the ruling is upheld the case will now go to trial with the defenses reduced.—V. 114, p. 1286.

Iowa Railway & Light Corp. of Cedar Rapids, Ia.—

Bonds Offered.—Harris, Forbes & Co. are offering at 97½ and int. yielding about 5.20% \$550,000 1st & ref. mtge. 20-year 5% gold bonds, series "B."

Dated June 1 1926; due June 1 1946. Interest payable J. & D. in Chicago and New York, without deduction of 2% normal Federal income tax. Penn. 4 mill tax refunded. Red. on any int. date upon 60 days' notice at 104 and int. on or before June 1 1930; at 103 and int. on or before June 1 1935; at 102 and int. on or before June 1 1940; and at 101 and int. on or before June 1 1945, the bonds being red. on Dec. 1 1945 at 100 and int. Denom. \$1,000 and \$500 c*. Harris Trust & Savings Bank, Chicago, and Murdoch H. MacLean, trustees.

Corporation.—Owns or controls and operates electric power and light, gas, heating, street and interurban railway properties in Iowa, including those of the Iowa Railway & Light Co. The territory served includes the cities of Cedar Rapids, Ames, Marshalltown, Boone, Perry, Jefferson, Marion, Belle Plaine, Tama, Toledo, Nevada and Mount Vernon, and is located in the heart of the Iowa corn belt, one of the finest agricultural sections of the United States. Varied manufacturing industries add materially to the wealth of this section. The population served by the corporation is estimated at 269,000. Over seven-eighths of the present net earnings of the properties are derived from the sale of electric power and light.

Purpose.—Proceeds will be used in part for extensions and additions to the properties and for the purchase of additional properties.

Capitalization.	1925.	1926.
Common stock	\$8,500,000	
7% cumulative preferred stock	6,122,373	
Gold notes	327,150	
1st & ref. mtge. series A 5½s 1945	\$4,265,000	
do series B 5% due 1946 (this issue)	550,000	
Iowa Railway & Light Co., 1st & ref. (now first) 5s 1932	\$8,072,000	
\$335,000 additional bonds of this series may be issued upon order of the corporation. \$500,000 of these bonds carry additional interest coupons at the rate of 2% per annum, and \$1,000,000 thereof carry additional int. coupons at the rate of 3% per annum.		

Earnings Years Ended Oct. 31—	1925.	1926.
Gross earnings	\$4,087,281	\$4,477,197
Operating expenses, maintenance & taxes	2,460,787	2,508,249

Net available for int., deprec., dividends, &c.—\$1,626,494 \$1,968,948 Annual interest requirements on \$12,887,000 mortgage bonds 705,675

Security.—The 1st & ref. mtge. gold bonds are issued by the Iowa Railway & Light Corp. under a joint mortgage of that corporation and of the Iowa Railway & Light Co. In the opinion of counsel, this Indenture is a first mortgage on the properties of the Iowa Railway & Light Co. subject only to the 1st & ref. (now first) mortgage of that company dated Aug. 30 1912. No additional bonds will be issuable under the last named mortgage; consequently, upon the retirement in 1932 of the \$8,072,000 of bonds now outstanding thereunder, the bonds of the corporation will be secured, in the opinion of counsel, by a first mortgage upon all of the properties. The mortgage contains provisions permitting its modification (except in certain important particulars) with the assent of the trustee and the holders of 80% in aggregate principal amount of bonds outstanding thereunder.—V. 121, p. 1677.

Key System Transit Co.—Bonds Offered.—Bond & Goodwin & Tucker, Inc.; Blyth, Witter & Co.; Peirce, Fair & Co. and J. Barth & Co., San Francisco, are offering at 99½ and int., to yield over 6%, \$1,500,000 1st mtge. 6% gold bonds, series D.

Dated Oct. 1 1926; due July 1 1938. Int. payable J. & J. without deduction for normal Federal income tax up to 2%. Denom. \$1,000c*. Red., all or part on any int. date on 60 days' notice at 102 and int., if red. on or before Jan. 1 1931; thereafter at 100 and int. plus a premium of ¼ of 1% for each year, or portion thereof, of unexpired term. Int. payable at Oakland Bank, Oakland, Calif., and at National City Bank, New York. Principal payable at Oakland Bank, trustee. Application has been filed with the Superintendent of Banks to certify these bonds as a legal investment for California savings banks. Exempt from personal property tax in California.

Issuance.—Authorized by the Railroad Commission of the State of California.

Company.—Provides transportation service for Oakland, Berkeley, Alameda, Richmond, Hayward, and other cities on the eastern shores of San Francisco Bay. The population served is in excess of 500,000. In connection with its electric lines, it operates a frequent and rapid trans-bay ferry service between San Francisco and Oakland. For the 12 months ended Oct. 31 1926 the total number of passengers carried was 108,864,444.

Security.—Secured by a first mortgage on all property now owned or hereafter acquired, including all rolling stock and marine equipment. The present appraised reproduction value, depreciated, of this property is approximately \$32,000,000. The appraised depreciated value of the rolling stock and marine equipment alone is over \$8,500,000.

Earnings.—Net earnings for the 12 months ended Oct. 31 1926, before depreciation, were \$2,084,282, or 5.03 times annual interest requirements on the outstanding 1st mtge. bonds, including this issue, and 2.17 times annual interest charges on all outstanding funded debt. These figures compare with net earnings for the corresponding 12 months ended Oct. 31 1925, of \$1,957,013, equivalent to 4.81 times annual interest charges on the outstanding 1st mtge. bonds, and 2.04 times interest on all outstanding funded debt.

Capitalization upon Completion of the Present Financing.

Common stock	-----	\$3,262,500
Preferred stock, 7% cumulative	-----	3,732,100
Prior preferred stock, 7% cumulative	-----	5,909,200

Purpose.—Proceeds will be used to reimburse the company's treasury for capital expenditures heretofore made, and will provide funds for additional improvements.—V. 123, p. 3183.

Lawrence Gas & Electric Co.—Plan Effective.

The company has notified stockholders that owners of a very large majority of its capital stock have accepted the offer of the New England Power Association to acquire the Lawrence company and the plan is therefore consummated. The time for acceptance of the New England company's offer was extended to Dec. 23. See also V. 123, p. 2900.

Long Island Lighting Co.—New Director.

W. C. Langley, of W. C. Langley & Co., has been elected a director.—V. 123, p. 2519.

Los Angeles Ry. Corp.—Tenders.

The Pacific-Southwest Trust & Savings Bank, trustee, Los Angeles, Calif., will until Dec. 27 receive bids for the sale to it of 1st & ref. mtge. 5% bonds, due Dec. 1 1940, to an amount sufficient to exhaust \$62,107.—V. 122, p. 3453.

Lowell Electric Light Corp.—Extra Dividend.

The directors have declared an extra dividend of 25 cents per share on the capital stock, no par value, payable Dec. 31 to holders of record Dec. 21. An extra of 75 cents per share was paid on the stock on Dec. 31 1924 and 1925.—V. 123, p. 2900.

Michigan Federated Utilities.—Pref. Stock Offered.

Wm. L. Ross & Co., Inc., Chicago recently offered at 98 and div., yielding over 6.70% \$200,000 guaranteed 6.6% cumulative 1st pref. (a & d) stock, guaranteed as to principal and dividends by Federated Utilities, Inc.

Dividends payable Q-J. Red. all or part on any div. date on 30 days notice at 103 and div. Approved by Michigan P. U. Commission. Tax exempt in Michigan.

Data From Letter of Fred W. Seymour, Pres. of the Company.

Company.—Michigan corporation owning the artificial gas properties which serve the following communities in Michigan: Owosso, Corunna, Marshall, Alpena, Sault Ste. Marie, Plymouth, Northville, Alma, Ithaca, St. Louis, Brocktonide and Mt. Clemens. In addition the Mt. Clemens property is being extended to serve a large portion of the population in the three townships between Mt. Clemens and the city limits of Detroit. The total population served is over 85,000 and the communities are located, with one exception, in what is known as the Michigan Industrial Belt. In addition, over 20,000 population is to be served by the extensions already provided for between Mt. Clemens and Detroit. Gas is served from 7 main plants, each of which manufactures either coal gas only or a combination of coal and water gas. The combined send-out of the 7 plants is now at the rate of 350,000 cubic feet of gas annually.

Capitalization.—Upon completion of the present financing:

6% 1st mtge. gold bonds, series A	-----	\$1,552,700
6.6% cumulative 1st preferred stock	-----	389,800
Common stock	-----	236,500

Balance available for dividends on 1st pref. stock	-----	\$122,083
Dividends on \$389,800, 6.6% 1st pref. stock	-----	25,727

Purpose.—Proceeds from the sale of this \$200,000 6.6% cumulative first preferred stock, will be used for additions and extensions to property.

Valuation.—Appraisals of the properties have been made by Hagenah & Erickson, Chicago. The combined properties had a conservative present value, after making liberal deductions for depreciation, of over \$2,600,000 at June 30 1926. This valuation includes the cost of additions made subsequent to engineer's reports.

Control.—Federated Utilities, Inc., which guarantees this 1st preferred stock owns all the common stock and bonds of the Michigan Federated Utilities.—V. 121, p. 1569.

Monongahela West Penn Public Service Co.—Additional Stock.

Under date of Oct. 27 1926 the company authorized an additional issue of 30,000 shares of its 7% cumulative preferred stock and the same was offered for public sale Nov. 29 1926.—V. 123, p. 1763.

Montreal Light, Heat & Power Consolidated.—Div.

The directors have declared a dividend of 33 1-3c. a share on the common stock, no par value, for the two months' period ending Dec. 31, payable Jan. 31 to holders of record Dec. 31. This is at the same rate as the previous quarterly dividend of 50c. a share. Hereafter dividends will be paid quarterly on April 30, July 31, Oct. 31 and Jan. 31.—V. 123, p. 2139.

Mountain States Telephone & Telegraph Co.—Dividend Rate Increased.

The directors have declared a quarterly dividend of \$2 per share. This compares with quarterly distributions of \$1 75 per share made previously.—V. 122, p. 1310.

National Public Service Corp.—Acquisitions.

The corporation announces the purchase of the Citizens Ice & Cold Storage Co. (V. 114, p. 1770) and the Pinellas Ice & Cold Storage Co., of St. Petersburg, Fla., from Ed. T. Lewis, Leon D. Lewis and associates of that city. These ice companies represent some 12 producing and distributing plants representing over 600 tons daily capacity, and are of modern type. They serve the rapidly growing area of Pinellas County, Fla. The properties are to be further developed by the Fitkin utility interests who own the National Public Service Corp. Other substantial ice operations on the west coast of Florida are to be added to this company. Most of the plants acquired have been constructed during the past year and the business of the company has shown rapid expansion during 1926. The Fitkin properties also include the Pinellas County Power Co. and the Florida Power Corp., which serves electric light and power in Pinellas County and throughout

the west coast of Florida as well as a number of other substantial ice operations in Georgia, Arkansas, Missouri, Kansas and Texas.—V. 123, p. 2655.

Newfoundland Light & Power Co., Ltd.—Initial Div.

The directors have declared an initial quarterly dividend of 2% on the common stock, payable Dec. 30 to holders of record Dec. 17. This company is a subsidiary of the International Power Co., Ltd.—V. 118, p. 1278.

New England Power Association.—Acquisition.

See Lawrence Gas & Electric Co. above.—V. 123, p. 2900.

New Jersey Power & Light Co.—Recapitalization Plan Completed.

Completion of the recapitalization program of the company recently approved by the New Jersey P. S. Commission was announced Dec. 20 with the sale to Halsey, Stuart & Co. of an issue of \$8,000,000 First Mortgage 5% bonds, due Aug. 1 1956. Public offering of the bonds will probably be made within a few days.

In addition to the recapitalization a part of the funds will be used in the construction program of the company. A new 110,000 volt substation, which is an important link in the super power system of that part of the country was recently completed at West Wharton, N. J., and construction will soon be started upon the first 30,000 k.w. unit of a new generating station at Holland, N. J. on the Delaware River. This station will have an ultimate capacity of 200,000 k.w.

In addition, the company is steadily extending its facilities to care for the increase in output which has been rapid in recent years, the k.w.h. sales having increased 366% and the electric customers 702% is the period from 1917 to 1925, inclusive. Its continuance of this growth during the present year is indicated by the fact that it had 26,117 electric customers on Oct. 31 1926 as compared with 21,156 customers on Dec. 31 1925.

The company is an important part of the super-power system which links power systems extending through New York and the New England States across New Jersey and Pennsylvania and into Maryland. The entire common stock of the company is owned by General Gas & Electric Corp., whose subsidiaries serve a population of over 2,215,000 in seven States in the Eastern and Southeastern sections of the country. In common with other subsidiaries of this corporation, the company is operated and managed by the W. S. Barstow Management Association, Inc., of New York City.—V. 123, p. 3183.

Newport News & Hampton Ry., Gas & Electric Co.

The consolidation of this company with the Virginia Public Service Co. is announced by Secretary S. R. Jones, thus completing the final step in the organization of a single operating unit of the Fitkin utility interests in Virginia. The Virginia Public Service Co. was organized by the merger of Alexandria (Va.) Light & Power Co., Virginia Western Power Co., Northern Power Co. and Southside Virginia Power Co. The Newport News company becomes a subsidiary. With Newport News added, the Virginia Public Service Co. reports a property value in excess of \$30,000,000, with gross revenues as of Oct. 30 1926 of \$4,635,024 per annum. Net income amounts \$2,068,397. Compared with figures for the same period in 1925, gross earnings show an increase of \$223,574 and the net \$205,210.—V. 123, p. 2519.

New York Railways Corp.—Listing.

The New York Stock Exchange has authorized the listing of \$312,500 additional temporary prior lien mortgage 6% gold bonds, series A, due Jan. 1 1965, making a total amount applied for \$4,112,500. The purpose of the issue of these prior lien bonds is to provide for the exchange of \$200,000 Twenty-third Street Ry. Co. 1st mtge. bonds for a like principal amount of prior lien bonds and for the exchange of \$150,000 of Twenty-third Street Ry. Co. debentures for \$112,500 of prior lien bonds of the corporation.

Comparative Statements of Income.

* Excludes accumulated and unpaid interest on income bonds which interest has not been declared due and payable and claims of minority stockholdings in controlled companies, if any.

New Directors.

Announcement of the reorganization of the board of directors of this corporation, control of which was purchased by the Fifth Avenue Coach Co. last May, was made on Dec. 15. The following new members were elected: John D. Hertz, chairman; Edward N. D'Ancona, Alfred Ettlinger, Leonard S. Florsheim, John C. Jay, Albert D. Lasker, Robert W. Lehman, Grayson M.-P. Murphy, Charles A. McCulloch, Stuyvesant Peabody, John A. Ritchie, Charles H. Sablin, Elmer Schlesinger, David A. Schulte, Frederick Strauss, Edmund E. Wise and Frederick T. Wood. Members of old board who retain their positions as directors are Harry Bronner, J. F. Cotton, George B. Gibson, Samuel L. Martin, H. J. Sheeran and Willis D. Wood.

The following members of the old board resigned: Haley Fiske, Henry V. Poor, W. G. Strat, Boykin Wright and J. J. Heffernan.—V. 123, p. 3039, 1114.

New York Rapid Transit Corp.—To Order New Cars.

W. S. Menden, President of the New York Rapid Transit Corp., a subsidiary of the Brooklyn-Manhattan Transit Corp., has notified the Transit Commission that the company will accept the order to purchase 150 additional cars, to be delivered and in operation by Dec. 31 1927. Mr. Menden points out that his company has placed in operation 950 steel cars, while the facilities which were to be furnished by the city will not be finished until 1927, 14 years after the signing of the contract. To this delay on the part of the city, Mr. Menden attributes the refusal of the company to buy all the new cars ordered by the Commission.—V. 122, p. 1026.

New York Telephone Co.—Chairman Retires.

Howard F. Thurber has resigned as Chairman of the board, preliminary to his retirement on Jan. 1 1927.—V. 123, p. 2900, 2392.

New York Water Service Corp.—New Name.

See Woodhaven Water Supply Co. below. See also V. 123, p. 3183.

Niagara Lockport & Ontario Power Co.—Bonds Sold.

Lee, Higginson & Co., Blair & Co., Inc., and Schoellkopf, Hutton & Pomeroy, Inc., have sold at 100 and int. \$3,750,000 additional 1st mtge. & ref. 30-year 5% gold bonds, Series A, dated April 1 1925, due April 1 1955.

Capitalization of Company and Subsidiaries upon Completion of Present Financing.

Salmon River Power Co. 1st mtge. 5s, 1952 (closed)	-----	4,190,000
Subsidiary company bonds	-----	203,000
Preferred stock, 7% cumulative	-----	9,972,300
Common stock 300,000 shares (no par value), representing, after deducting funded debt and preferred stock, assets of	-----	10,281,432

Data from Letter of Fred D. Corey, President of the Company.

Business.—Company and its subsidiaries produce, purchase and distribute electric power, principally hydro-electric, throughout a highly developed industrial territory extending from the Niagara River to and beyond Syracuse, containing a population of more than 2,000,000, embracing 18 counties in western and central New York, and including the cities of Rochester, Syracuse, Lockport, Batavia, Geneva, Auburn, Oswego, Lackawanna, Dunkirk, Jamestown, Olean, N. Y., and Bradford, Pa.

Security.—Secured by direct mortgage on property representing an investment of \$37,000,000, subject to \$4,190,000 Salmon River Power Co.

1st mtge. 5% bonds, due 1952 (closed issue), covering less than 25% of the property, the balance of the total property being covered by these bonds as a direct first mortgage. Further bonds of this or other series issuable, par for par, to refund underlying mortgage bonds and bonds issued under this mortgage; against additions, extensions and improvements at not to exceed 75% of cost; and under other conservative restrictions of the mtge.

Consolidated Earnings of Company and Subsidiaries.

	1923.	1924.	1925.	12 Mos. End. Sept. 30 '26.
Gross earnings.....	\$5,550,258	\$5,971,740	\$6,949,537	\$7,806,337
Net avail. for int. & depr.....	2,135,796	2,617,247	3,094,477	3,370,904

Net earnings times present interest charges..... 1.8 2.2 2.6 2.9
Net earnings for the 3 years ended Dec. 31 1925, as above, averaged \$2,615,840 a year, or more than 2.2 times the annual interest requirement on total funded debt to be outstanding upon completion of this financing, and for the 12 months ended Sept. 30 1926 net earnings were \$3,370,904, or more than 2.9 times this requirement.

Listing.—The \$15,000,000 1st mtge. & ref. bonds now outstanding are listed and application will be made to list these additional bonds on the New York Stock Exchange.

Purpose.—Proceeds will be used to reimburse the company for expenditures for additions, extensions and improvements to properties heretofore made and the purchase of underlying bonds.

Properties and Power Resources.—Company owns (a) a hydro-electric power plant on the Salmon River northeast of Syracuse of 35,000 h. p. capacity; (b) a steam electric power generating plant at Lyons, N. Y., of 40,000 h. p. capacity; (c) a steam electric power generating plant at Olean, N. Y., of 5,000 h. p. capacity; (d) leases a hydro-electric plant on the Oswego River at Minetto, N. Y., of 12,000 h. p. capacity, and purchases from Niagara Falls Power Co. and the Ontario Power Co. under long term contracts 130,000 hydro-electric horse-power.

In the high tension transmission system owned and operated by the company, there are over 1,900 miles of high tension transmission circuits located almost entirely on private right-of-way, over 5,000 acres of which are owned in fee. Over 1,100 miles of these circuits are insulated for transmission at 110,000 volts. When transmitting at this voltage the company will be able to distribute within its territory over 500,000 h. p. Company's contract with the Ontario Power Co. of Niagara Falls calls for a delivery of 60,000 h. p. until 1950, and the contract with Niagara Falls Power Co. calls for a delivery of approximately 70,000 h. p. until 1971. The lease of the hydro-electric plant at Minetto, N. Y., continues until 1940. These contracts and this lease constitute part of the property covered by the mortgage securing this issue.

The Niagara Lockport & Ontario Power Co. is interconnected with the generating plants of the Niagara Falls Power Co. at Niagara Falls, N. Y., and the generating plants of the Hydro-Electric Power Commission of Ontario, located at Niagara Falls on the Canadian side. It is also interconnected with the Buffalo General Electric Co. at Buffalo; Northern New York Utilities, Inc., near Altmar, Oswego County, N. Y.; the Adirondack Power & Light Corp. at the east line of the Town of Sullivan, Madison County, N. Y.; and with the Penn Public Service System at the State line just south of Jamestown, N. Y. These interconnections create a great transmission system uniting generating capacities aggregating more than 2,000,000 h. p.

Authorization.—Issuance and sale of these bonds have been authorized by the P. S. Commission of New York.

Equity.—Junior to its funded debt there has been issued and is outstanding \$9,972,300 7% cumulative preferred stock which is now selling at \$113 per share, and 300,000 shares of the company's no par common stock, of which nearly 100% is owned by the Buffalo Niagara & Eastern Power Corp.—V. 123, p. 2655.

Niagara Share Corp.—Creates Issue of Pref. Stock.

The stockholders on Dec. 10 authorized an issue of 50,000 shares of \$6 cum. pref. stock, no par value, redeemable at 105 and divs., and entitled in case of liquidation to 100 and divs. The immediate purpose of the proposed issue of pref. stock is to provide moneys for the payment of floating debt and the conduct of the future business of the corporation.

Secretary F. L. Lovlace says in substance: "The sale of 15,000 shares of this pref. stock will probably yield the corporation all the funds which are now needed for the above purposes. It has appeared to the board of directors desirable now to obtain authority to issue 35,000 shares of pref. stock for future sale or use whenever such course shall be beneficial to the corporation."

"It is proposed to have the sale of 15,000 shares thereof underwritten on advantageous terms. It is also the intention that an opportunity shall be afforded the existing stockholders to subscribe to these shares before the same is offered to the public."

[The company also has an authorized issue of 750,000 shares of common stock, no par value.—Ed.]—V. 123, p. 2900.

North American Co.—Listing.

The New York Stock Exchange has authorized the listing on or after Jan. 3 1927, \$1,019,590 additional common stock on official notice of issuance as a stock dividend, making the total amount applied for to date \$42,054,350.—V. 123, p. 2777.

Northern Texas Utilities Co.—Notes Offered.—A. M.

Lampert & Co., Inc., New York, and Freeman, Smith & Camp Co., San Francisco, are offering at 100 and interest \$2,500,000 first lien 3-year 7% sinking fund gold notes.

Dated Dec. 15 1926; due Dec. 15 1929. Principal and interest (J. & D.) payable at Chatham Phenix National Bank & Trust Co., New York, trustee. Denom. \$1,000 and \$500 c*. Redeemable, all or part, also for sinking fund, on the 15th day of any calendar month upon 30 days' notice, at 103 on or before June 15 1927, with successive reductions of 1/2 of 1% during each six months thereafter up to maturity; with accrued interest in each case. Interest payable without deduction for the normal Federal income tax up to 2%. Company agrees to refund all personal property taxes and securities taxes levied or assessed by the States of Penn., Mary'd, Calif., Conn., Kentucky, Mich., Oregon, Wash., Mass., and (or) the District of Columbia on holders of the notes resident in any of such States or in such district in respect of the notes, and all income taxes of any such States or such district imposed on holders of the notes resident therein in respect of the income derived from the notes.

Data from Letter of Pres. David A. Upham, Wichita Falls, Tex., Dec. 22 1926.

Company.—Incorp. in Delaware in May 1926. Is a public utility, duly authorized to do business in Texas and engaged in the production, transportation and distribution of natural gas in Wichita, Wilbarger, Childress, Hardeman, Hall, Collingsworth, Wheeler and Gray counties. Company's gas producing properties are located at the eastern end of the rich Amarillo Field in the Panhandle of Texas. Company is selling or will sell, through signed contracts, industrial and domestic gas to consumers in Acme, Childress, Chillicothe, Iowa Park, Memphis, Quanah, Vernon, Wellington and Wichita Falls. The population of the cities and towns served has grown from an aggregate of 62,100 in 1920 to 91,700 in 1925. Company owns or controls through lease or gas purchase contracts about 10,000 acres, of which 7,080 acres are in the Shamrock Gas Field, Wheeler County, and 2,920 in Gray County. The total pipe line system will comprise about 252 miles. More than 120 miles of transmission line are completed; the remaining mileage is being rapidly laid.

Value of Properties.—The cost of the completed property of the company will exceed \$5,000,000. The contract price for laying the pipe line complete exceeds \$4,600,000. The properties have been appraised by the Hope Engineering & Supply Co., Mt. Vernon, Ohio, and by Ralph E. Davis, consulting engineer, Pittsburgh, Pa.; they have given a value of approximately \$7,500,000 to the properties as a going concern.

Contracts.—The industrial consumption in Wichita Falls and vicinity alone, based on signed contracts, covering a period of five years, is estimated to exceed 7,138,000 cu. ft. yearly, which is an average daily industrial loan of 19,500,000 cu. ft. (calculated on 365 days to the year).

The Columbian Gasoline Corp., a subsidiary of Columbian Carbon Co., has entered into a contract with the Northern Texas Utilities Co. to erect and operate a gasoline absorption plant at the expense of the Columbian Gasoline Corp. and to pay to the Northern Texas Utilities Co. a gross royalty based on the gasoline extracted.

Security.—Secured by pledge of \$4,000,000 first (closed) mortgage 7% gold bonds. These bonds will be issued under and secured by a mortgage which, in the opinion of counsel, constitutes a first lien on the entire prop-

ties of the company now or hereafter owned, including pipe lines, plants, buildings, lands, leases, rights of way and contracts, subject only to a relatively small amount of farm mortgages on the fee of property upon which the company has leaseholds or over which it has rights of way, and as to the latter of which it is in the opinion of counsel fully protected by its rights of eminent domain.

Sinking Fund.—Indenture will provide for a monthly sinking fund beginning April 15 1927, and payable \$43,000 to and including Dec. 15 1927; thereafter \$46,000 monthly during the next 12 months; and thereafter \$49,000 monthly during the last 12 months. Payments to the sinking fund are to be used for the purchase of notes at not exceeding the current redemption price; any balance, unexpended in such purchase for a period of three months and five days after payment to the sinking fund, is to be applied to the redemption of notes by lot upon 30 days' notice. Under the terms of the indenture, there will have been paid into the sinking fund more than \$1,500,000 prior to maturity.

Purpose.—Proceeds will be used to complete the company's pipe line and distributing system.

Capitalization	Authorized.	Outstanding.
First lien 3-year 7% notes, due Dec. 15 1929.....	\$2,500,000	\$2,500,000
7% debentures.....	1,000,000	61,000,000
Five-year gold notes.....	1,000,000	670,000
7% cumulative preferred stock (par \$100).....	1,500,000	1,500,000
Common stock (without par value).....	300,000 shs.	240,000 shs.

a \$4,000,000 first (closed) mortgage 7% gold bonds are pledged under these notes. b These issues are junior to the first lien three-year 7% notes; the amount of the five-year notes outstanding is estimated, and subject to adjustment on completion of construction work.

Earnings.—More than 80% of the total estimated sales are based on signed contracts. Annual earnings of the company have been estimated by the J. G. White Engineering Corp., Ralph E. Davis and the Hope Engineering & Supply Co. The following statement is based on the lowest of these estimates:

Gross annual sales.....	\$1,380,289
Cost of sales and operating expenses.....	402,352

Net annual earnings applicable to interest..... \$977,937
Maximum annual interest charges on this issue..... 167,500

Northwest Louisiana Gas Co., Inc., Shreveport, La.

—Bonds Sold.—Glidden, Morris & Co.; Edmund Seymour & Co., Inc., and Throckmorton & Co. have sold at 97 1/2 and int., to yield about 7%, \$1,200,000 1st (closed) mtge. 6 1/2% sinking fund gold bonds (with detachable stock purchase warrants).

Dated Dec. 1 1926; due Dec. 1 1933. Interest payable J. & D. in N. Y. City. Denom. \$1,000, \$500 and \$100 c*. Red., all or part on 30 days' notice on any int. date at 105 and int. Int. payable without deduction for any Federal income tax up to 2%. Company agrees to refund all State personal property and income taxes and the District of Columbia personal property tax not exceeding five mills per annum. Chatham Phenix National Bank & Trust Co., New York, trustee.

Stock Purchase Warrants.—Each bond of this offering will carry detachable stock purchase warrants entitling the holder thereof to purchase shares of no par common stock of company at the rate of one share for each \$100 of bonds at \$10 per share Dec. 1 1926 to Nov. 30 1929; \$15 per share thereafter up to the maturity of the bonds, Dec. 1 1933, regardless of any or all of the bonds being previously called during either period.

Data from Letter of Pres. Charles G. Lasky, dated Dec. 20.

Company.—Incorporated in Delaware. Is a consolidation of the business of the Oil Fields Gas Co., Homer Natural Gas Co. and other existing properties which have been operated for some years. Company is engaged in the production, transportation, purchase and distribution, both wholesale and retail, of natural gas for public utility and industrial purposes.

Through a contract with the Palmer Corp., the company will supply a minimum of 3,600,000 cu. ft. of gas in 1927 and a minimum of 4,000,000 cu. ft. annually for five years thereafter to Shreveport, a city with 72,000 population. In order to obtain this gas supply, the Palmer Corp. invested approximately \$600,000 in a pipe line from Shreveport to the company's gas fields, a distance of 65 miles. Company also has a contract through a 50% interest in an associate company to sell gas to the Arkansas Natural Gas Co., which distributes to Little Rock, Ark., and 13 other communities along its lines. Through its own pipe lines and distribution system, gas is supplied without competition to several towns in Louisiana, east and northeast of Shreveport, including Minden, Homer, Haynesville, Spring Hill, &c. Total population served estimated to be in excess of 100,000. Company supplies gas in wholesale quantities, and in part through exclusive contracts, to the Standard Oil Co. of La., the Gulf Refining Co., the Humble Oil & Refining Co., the Atlantic Oil Producing Co., The Phillips Petroleum Co., and others. These companies use natural gas to generate power for drilling and pumping oil wells.

Property.—The property of the company includes more than 130 miles of pipe lines in Webster, Bossier and Claiborne Parishes, controlling an area of 2,000 sq. miles. Company controls through fee ownership or lease, the gas rights in more than 5,500 acres of proven and producing gas lands. The main trunk lines tap the Webster Gas Fields, the Bossier Gas Fields and the newly opened Cotton Valley Field. In addition the company owns leases in the Sligo and Waskom fields east and west of Shreveport.

The proven gas area adjacent to the company's pipe lines, any part of which can be reached by feeder lines of less than 12 miles, is considered one of the largest gas areas in the Southwest, and is estimated to contain a supply of gas sufficient to meet requirements for at least 20 years.

Company has a daily open flow of about 278,000,000 cu. ft., of which it is using only approximately 8%. The future reserves of the company are estimated by S. P. Borden, petroleum engineer, to be 72,000,000,000 cu. ft.

Capitalization	Authorized.	Outstanding.
1st (closed) mtge. 6 1/2%, 1933.....	\$1,200,000	\$1,200,000
5-year mtge. 7% bonds.....	400,000	400,000
7% cumulative preferred stock.....	500,000	250,000
Common stock (no par value).....	*75,000 shs.	54,000 shs.

* Includes 12,000 shares reserved for the holders of stock purchase warrants.

Security.—A closed first mortgage on all the real property and fixed assets of the company. The mortgaged properties as estimated by Herbert R. Davis, consulting engineer, have a net worth of \$3,957,772. All the outstanding capital stocks of subsidiary companies (except directors' qualifying shares) are pledged under the mortgage.

Consolidated Earnings of Constituent Properties—Years Ended Dec. 31.

	1924.	1925.
Gross income.....	\$512,272	\$542,814
Net available for bond interest, sinking funds, &c.....	390,203	374,726

Earnings for 12 Months Ended Oct. 31 1926.

Gross income.....	\$603,139
Operating expenses and taxes.....	210,534

Net income..... \$392,605
Maximum annual interest charges on this issue..... 78,000

Net income from contracts with Palmer Corp. and Arkansas Natural Gas Co. alone is estimated to be sufficient to meet interest charges and retire over 70% of this issue in six years.

The 1924 net earnings include \$41,708 received by the company from the sale of the "Hope Lease." The 1925 and 1926 earnings have been adjusted to give effect to the acquisition of a joint interest in the Harris Oil Corp., Ltd.

Sinking Fund.—Mortgage will provide that commencing March 1 1927 the company will pay to the trustee quarterly \$25,000 as a sinking fund and in addition at half yearly intervals 25% of the net earnings to be applied through the sinking fund to the retirement of these bonds. All such moneys paid to the sinking fund shall be used for the purchase of bonds at prices not exceeding 105 and int., the redemption price, and if not obtainable at such redemption price, such funds shall be used by the trustee for the redemption of bonds to be selected by lot. It is estimated that through the operation of the sinking fund this entire issue of 1st mtge. bonds will be retired prior to maturity.

Purpose.—Proceeds are to be used for the retirement of 1st mtge. bonds of the predecessor company issued in 1924, originally outstanding at \$1,000,000 and since reduced to \$650,000; to reimburse the company for expenditures already made; for drilling new wells and acquiring additional gas acreage and for other corporate purposes.—V. 123, p. 3184.

Pacific Gas & Electric Co.—Listing.

The New York Stock Exchange has authorized the listing on or after Jan. 3 of \$52,945,800 common stock (par \$25) on official notice of issuance of new certificates for present outstanding certificates for common stock of the par value of \$100 per share, on the basis of 4 shares of the par value of \$25 per share for one share of common stock of the par value of \$100.

Income Account 9 Months Ended Sept. 30 1926.

Gross earnings, including miscellaneous income.....	\$37,954,857
Operating expenses, rentals, taxes (excl. Federal taxes) & reserves for casualties & uncollectible accounts.....	21,518,644
Federal taxes.....	612,150

Reserve for depreciation.....	3,308,449
Balance to surplus.....	\$6,257,488
Balance at beginning of period.....	\$10,580,281
Total.....	\$16,837,769
Miscellaneous adjustments.....	276,667
Dividends on preferred stock.....	2,579,846
do On common stock.....	3,064,051

Unappropriated surplus Sept. 30 1926.....\$10,917,205
—V. 123, p. 3184.

Philadelphia Rapid Transit Co.—Co-Operative Benefits.

President Hausman, P. R. T. Co-Operative Association, in the company's publication, "Service Talks," dated Dec. 17 1926, says:

"The co-operative wage fund trustees have purchased this year 25,000 shares of P. R. T. stock at a cost of approximately \$42 per share, after crediting dividends received thereon and paying four quarterly dividends aggregating 12%. This brings the total P. R. T. stock in the possession of the co-operative wage fund to 221,500 shares which, added to the 10,000 shares owned by the co-operative association, gives P. R. T. employees ownership of more than one-third of the workshop where they earn their daily bread. A co-operative wage fund participation certificate, similar to those issued for the years 1922 to 1925, will be given early in 1927 to each P. R. T. employee, certifying the number of shares of P. R. T. stock represented by the amount of his 1926 co-operative wage and held in trust by the co-operative wage fund trustees, who will vote the total amount of 221,500 shares at the stockholders' annual meeting next March."

President Slook of the Co-Operative Association Saving Fund, says: "The P. R. T. Co-Operative Association Saving Fund has just passed the \$2,700,000 mark—an increase of \$100,000 for the year—and now has 11,202 depositors, the largest number in its history. This fund is administered by employees elected as saving fund trustees, who follow the practice of long-established saving funds. The total investments, classified to Nov. 30 1926, are as follows:

	Par Value.	Cost or Book Value.
U. S. Govt. and Federal Land Bank securities.....	\$300,000	\$298,528
Canadian bonds.....	25,000	24,250
Real estate mortgage bonds.....	140,000	135,963
Steam railroad bonds.....	490,000	477,912
Equipment trust certificates.....	537,000	529,141
Electric light and power bonds.....	149,000	141,426
Other public utility bonds.....	1,150,000	1,054,581
Total investments.....	\$2,791,000	\$2,661,801
Cash on hand.....		47,394

Total securities and cash.....\$2,709,195
"W. R. Smith has been elected President of the saving fund for 1927 and Jas. Shivers Vice-President. The other trustees elected by the employees for 1927 are W. J. Beadle, G. A. Harvey, G. H. Stier, L. R. Skeen, W. K. Myers, S. H. Stout, R. F. Tyson, J. E. Wood, C. E. Ebert and E. Naudascher."—V. 123, p. 3184, 2392.

Pittsfield (Mass.) Electric Co.—To Reduce Rates.

Effective Jan. 1 1927 this company will reduce its rates for electricity. The new rates will be: 75 cents service charge per month, including first kilowatt hour, and 8 cents for each of next 99 k.w.h. The old rates were 75 cents service charge, including first two k.w.h., and 9 cents for each of next 98 k.w.h.—V. 122, p. 2042.

Potomac Edison Co.—Constructs Additional Unit.

See West Penn Power Co. in V. 123, p. 3186.—V. 123, p. 2656.

Roanoke Water Works Co.—Notes Called.

All of the outstanding \$200,000 6% serial gold notes due Aug. 1 1929 and Aug. 1 1930 have been called for payment Jan. 17 at par and int. at the Seaboard National Bank of the City of New York, 115 Broadway, N. Y. City. See also V. 123, p. 3185.

Rome (Ga.) Ry. & Light Co.—Merger Approved.

See Georgia Ry. & Power Co. above.—V. 123, p. 2902.

Savannah Electric & Power Co.—Improvements.

Stone & Webster, Inc., have just put into operation a new 15,000 k.w. turbo-generator for the above company. It is announced that this installation, together with that of two 400 h.p. pulverized coal burning boilers, is expected to effect material savings in operating costs of the Savannah company, which is a subsidiary of Engineers Public Service Co.—V. 123, p. 2902.

Southeastern Power & Light Co.—Merger of Subs.

See Georgia Ry. & Electric Co. and Georgia Ry. & Power Co. above.—V. 123, p. 1635.

Southern Bell Telephone & Telegraph Co.—Tenders.

The Bankers Trust Co., trustee, 10 Wall St., N. Y. City, will until Jan. 4 receive bids for the sale to it of 30-year 1st mtge. sinking fund gold bonds, due Jan. 1 1941, to an amount sufficient to exhaust \$182,044, at prices not exceeding par and interest.—V. 123, p. 2141.

Southern Cities Utilities Co.—Erects New Plant.

The program of expansion outlined by President George B. Adams when the corporation financed its proposed improvements through local bankers is taking definite form. The company announced that arrangements have been completed for the construction of a new steam power plant at Estill Springs, Tenn., having a capacity of 15,000 to 20,000 h.p. The plant will be ready for operation on or before July 1 1927. The construction of this plant in the centre of the territory served by the company is part of a plan which will eventually result in inter-connection of all of the company's power plants. This inter-connection program gives service to 29 additional communities, making a total of 83 communities served by the company.—V. 123, p. 2521.

Springfield Ry. Cos.—Smaller Dividend.

The directors have declared a dividend of \$1 15 per share on the common stock and the regular semi-annual dividend of \$2 per share on the 4% cumulat. guar. preferred stock, both payable Jan. 2 to holders of record Dec. 20. In July last the company made a distribution of \$1 60 per share on the common stock.—V. 105, p. 2095.

United Electric Light Co. (Mass.).—Extra Dividend—To Change Par Value of Shares.

The directors have declared an extra dividend of \$3 per share on the outstanding \$4,000,000 capital stock, par \$100, in addition to the regular quarterly dividend of \$3 per share, both payable Dec. 31 to holders of record Dec. 20. A similar extra distribution was made in Dec. 1925.

The stockholders will vote Feb. 3 on changing the authorized capital stock from 40,000 shares, par \$100, to 160,000 shares, par \$25, four shares of new stock to be issued in exchange for each share of present stock held.—V. 123, p. 2780.

United Hudson Electric Corp.—Merger Approved.

See Central Hudson Gas & Electric Co. above.—V. 123, p. 2392.

United Illuminating Co. of New Haven.—Rights.

The stockholders of record Dec. 20 have been given the right to subscribe, at \$37 per share, for additional capital stock, no par value, on the basis of one new share for each nine shares held. There are approximately 509,000 shares outstanding.

Subscriptions are payable as follows: \$7 per share in February; \$10 per share in Oct. 1927; \$10 in April 1928 and \$10 in Oct. 1928.—V. 119, p. 85.

United Public Utilities Co.—Second Liquidation Dividend to Common Stockholders.

A second dividend in liquidation at the rate of \$5 a share on all the common stock of the company (now in liquidation) has been declared by the directors and trustees in liquidation, payable on and after Dec. 22 to holders of record Dec. 21 upon presentation to the Guaranty Trust Co., 140 Broadway, N. Y. City, of the common stock certificates. An initial liquidating dividend at the rate of \$35 a share on the common stock was payable on Jan. 6 1926. See V. 122, p. 215.

Virginian Power Co.—Tenders.

The New York Trust Co., trustee, 100 Broadway, N. Y. City, will until Jan. 28 receive bids for the sale to it of 1st & coll. trust mtge. 5% gold bonds, due Dec. 1 1942, to an amount sufficient to exhaust \$64,385, at a price not exceeding 105 and int.—V. 122, p. 1313.

Winnipeg Electric Co.—To Increase Preferred Stock.

The shareholders will vote Jan. 20 on increasing the authorized 7% preferred stock from \$3,000,000 to \$10,000,000.

Pres. A. W. McLamont says: "This stock is not to be offered for sale at one time, but is to be held in the treasury and sold from time to time as the company requires funds for extensions and improvements. This method of providing funds for this purpose is considered preferable to borrowing money on bonds. In all probability most of these shares will be sold by the company to its customers from time to time."

"While the call price on the outstanding issue of \$3,000,000 7% preference stock is par, the company is providing in the by-law to be submitted, to the shareholders, for a call price of 105 and divs. on the \$3,000,000 outstanding as well as on the additional new issue of \$7,000,000. One object in increasing the call price to 105 is so that the company may be in a position to sell the new stock at above par if it considers it advisable to do so."

"The demands for power and other services furnished by the company are steadily increasing, necessitating extensions which require funds, and are being reflected in increased earnings. The net earnings for 1926 show a very satisfactory increase over 1925."—V. 123, p. 3040.

Woodhaven Water Supply Co., N. Y.—Name Changed.

This company which is controlled by the Federal Water Service Corp., has changed its name to New York Water Service Corp.—V. 123, p. 2780.

Youngstown & Ohio River RR.—Interest Payment.

The interest coupons from first mortgage 5% gold bonds of this company due Oct. 1 1926, which were not paid at maturity, will be paid Dec. 31 1926, with the addition of 6% int. from Oct. 1 to Dec. 31 1926. Coupons due Oct. 1 1926 should be deposited for collection and payment on or before Dec. 31.—V. 118, p. 796.

INDUSTRIAL AND MISCELLANEOUS

Refined Sugar Prices.—Federal reduced price 10 pts. to 6.10c. per lb. on Dec. 20 and Arbuckle quoted 6.20c. firm.

Alcohol Price Advanced.—Lawry & Co. advanced price of alcohol 5c. per gallon to 36c. per gallon in tank cars and 38c. in drums.—"Wall St. Journal" Dec. 20.

New York City Garment Workers Win All Demands.—Arbitration award by Judge B. L. Sheintag, H. H. Lehman and Prof. L. Rogers (Columbia University) gives employers the right to reorganize their shops and grants 32 weeks' employment, together with other adjustments of conditions.—"N. Y. Times" Dec. 21, p. 25.

Barnard Mills, Fall River, Mass., Closed by Strike of 800 Operatives.—"Wall Street News" (slips) Dec. 24.

Matters Covered in "Chronicle" Dec. 18: (a) New capital flotations in November and for the eleven months to Nov. 30.—p. 3096-3102. (b) Passaic textile strike at Botany Mills ends after 10 months duration.—Cost placed at \$10,000,000.—p. 3107. (c) Data on cotton situation.—p. 3126-3127. (d) Stone & Webster, Inc., and Blodgett & Co. combine under name of Stone & Webster and Blodgett, Inc.—p. 3135.

Advance-Rumely Co.—Will Earn Preferred Dividend.

President Finley P. Mount is quoted in substance as follows: "We have to-day over \$150 of farmers' notes and cash against every \$100 of bank debt we owe. We owe no merchandise accounts as we discount all our bills. Our latest balance sheet shows \$2 23 of current assets for every \$1 of all debt."

"For the present we are going ahead with our banks, but we hope eventually to arrange for the financing of our holdings of farmers' notes either through some existing agency or through some new agency to be created, which would leave us in a very comfortable position with little occasion to borrow from banks. Over the period of 10 years and 10 months since the formation of the present company, our losses on farmers' notes have been less than 1/4 of 1%."

"We began this year auspiciously and by the end of June our gross and net earnings were well ahead of last year. We held the lead pretty well during August, but in September, which was a very wet month, sales fell off and we slowed down our factories, and in October our activities fell off further. Heavy rains in the corn belt made it impossible for farmers to get into the fields with tractors, and hurt sales of corn machinery. We suffered also from the effects of the short wheat crop in the Northwest. As our factories slowed down the cost of each individual machine rose. They were, however, charged into inventory at their standard cost and the excess was charged where it should be—to operating expenses. Nevertheless at the end of October, our net was still slightly ahead of last year. November figures are not in yet, but I know they would show a loss as compared with last year, and recommended to directors that we pass the preferred dividend in view of the rise in farmers' notes held, which in turn necessitated heavy bank loans."

"Our earnings this year will be equal to or over the 3% we were paying on the preferred stock. Talk of our recapitalizing at present is groundless."

"We manufactured and sold this year 200 combine harvesters. This was our first year of production. Had we been willing to risk the building and marketing in our first year of 1,000 to 2,000 of these machines, for which there was a perfectly good market, we would of course have shown very handsome profits, since they sell at prices ranging from \$2,000 to \$2,500 each. We are planning to build a considerably larger number of these machines for 1927." See also V. 123, p. 3187.

Ajax Rubber Co., Inc.—Rights.

The stockholders of record Jan. 5 will be given the right to subscribe for 200,000 additional shares of capital stock (no par value) at \$10 per share, on the basis of two new shares for each five shares owned. The company has an authorized capital of 1,000,000 shares, no par value, of which 500,000 shares are outstanding.—V. 123, p. 984.

Alden House Apartments, Larchmont, N. Y.—Bonds Offered.

Empire Bond & Mortgage Corp., New York, recently offered at 100 and int. \$450,000 guaranteed 6% first mortgage gold loan.

Dated Nov. 1 1926, maturing Nov. 1 1928-1938. American Trust Co., New York, trustee. Principal and interest (M. & N.) payable at office of trustee or at the office of the Empire Bond & Mortgage Corp., N. Y. City. Denom. \$1,000, \$500 and \$100 c*. Callable at 105 after Nov. 1 1932 and at 102 after Nov. 1 1934. Normal Federal income tax up to 2% will be paid at the source. Penn. 4 mills tax, the 4 1/4 mills property tax of Maryland, the District of Columbia and Kentucky 5 mills tax and the 6% personal property tax of Mass. will be refunded.

Security.—The security for this loan is a closed first mortgage on the land fronting 256 ft. on Boston Post Road, extending to a depth of 239 ft. on Alden Road and thence 175 ft. on Copley Road, Larchmont, together with a 6-story and basement elevator apartment building under construction thereon. The building will contain 78 apartments, consisting of 249 rooms and will occupy a site approximately 25 feet above the level of Boston Post Road. Along the Boston Post Road level there will be 8 stores and a 42 car garage extending under the gardens surrounding the building. The stores and garage are also covered by the mortgage.

Valuation & Earnings.—The land and completed building have been independently appraised by the following realty firms, as follows: Prince & Ripley, \$775,000; Chauncey B. Griffen, \$800,000; Fish & Marvin, \$822,000. Based upon the lowest appraisal, this loan represents 58% of the value of the completed property.

The net annual earnings, after deducting operating expenses, taxes, insurance and a due allowance for vacancies, has been estimated at \$87,465. This net income is equal to 3 times the greatest interest charges and more than double the combined interest and amortization charges.

Alliance Realty Co.—Stock Placed on a \$2 50 Annual Dividend Basis—Extra of 37½ Cents Also Declared.—The directors on Dec. 22 declared a quarterly dividend of 62½ cents per share and an extra dividend of 37½ cents per share on the outstanding 120,000 shares of capital stock of no par value, both payable Jan. 18 to holders of record Jan. 8. This compares with quarterly distributions of 50 cents per share made in April, July and October last.—V. 123, p. 457.

American Brass Co.—Obituary.—Chairman Charles F. Brooker died at Daytona Beach, Fla., on Dec. 20.—V. 116, p. 723.

American Hide & Leather Co.—To Buy Pref. Stock.—The directors on Dec. 16 voted to purchase from the preferred stockholders, pro rata, about 13% of their holdings at \$55 per share under the recapitalization plan recently approved by the stockholders. It is expected the offer will be made to preferred holders of record Jan. 12 1927.—V. 123, p. 2264.

American Ice Co.—Convertible Notes Off List.—The New York Stock Exchange has stricken off the list the company's 15-year 7% convertible gold (coupon) debenture notes, due July 15 1939.—V. 123, p. 2393.

American Oriental Co.—Dissolution, &c.—The company was, on July 12 1926, dissolved by decree of the Supreme Judicial Court of the State of Maine and Chas. D. Booth was appointed receiver to wind up its affairs. All of the assets of the company were sold in 1920 for an amount which it was estimated would permit a distribution of about \$18 per share to the preferred stockholders, there being nothing to go to the common stockholders. Notices were sent to the preferred stockholders calling on them to send in their certificates and receive their distribution on their holdings. All but four of the preferred stockholders responded to these notices and received distribution at the rate of \$18 44 per share. The total holdings of the 4 stockholders were 249 shares, hence the amount held and available for distribution to them is \$4,591 56, which is now held by the receiver.

American Republics Corp.—Makes Offer to Preferred Stockholders of the Galena-Signal Oil Co.—President J. S. Cullinan, in a letter dated Dec. 18 to the preferred stockholders of the Galena-Signal Oil Co., says in part:

Since the passing of the dividend on the preferred stock of the Galena-Signal Oil Co. (Pa.), as announced by Secretary J. French Miller's letter to stockholders of Sept. 7 1926; and the resignations of the president and treasurer, which became effective in September, coupled with the unsatisfactory earnings and tendencies of the business, the officers of the American Republics Corp. (the largest though not controlling stockholders) have given continuing consideration to the situation, conferring with other large stockholders in the hope of developing and being prepared to submit a plan to improve the conditions.

As a first step in this direction the J. G. White Engineering Corp., supported by W. A. Kunkel & Sons as oil and gas appraisers and Arthur Young & Co., as auditors, was engaged to make a complete study of the properties. This report was submitted as of date Dec. 16 1926, and after due consideration and study we have failed to evolve any plan that seems likely to be acceptable; however, as an alternative we hereby offer to exchange three shares of American Republics Corp. common stock, for two shares of Galena-Signal Oil Co. preferred stock (or multiples thereof). Preferred stockholders desiring to exercise this privilege may deposit their Galena-Signal Oil Co. stock, at the National City Bank of New York, 55 Wall St., N. Y. City, on or before Jan. 15 1927.

Consolidated Income Account of American Republics Corp. and Subsidiaries.				
	9 Mos. End. Sept. 30 '26.	1926.	1925.	1924.
Sales	\$22,391,253	\$29,897,647	\$24,458,469

Gen. adm. & misc. exp.	1,501,448	2,127,179	2,066,865	
Balance	\$2,374,331	\$2,995,685	\$2,911,749	\$2,782,268
Res. Fed. income taxes	265,842	235,000	54,700	133,600
Net income	\$2,108,488	\$2,760,685	\$2,857,049	\$2,648,668
x Estimated.				

The J. G. White Engineering Corporation report on the American Republics Corp. and subsidiary properties, submitted as of the same date as that covering the properties of the Galena-Signal Oil Co. gives \$51.375 as the fair price of the American Republics Corp. common stock.

Early payment of dividends on American Republics Corp. common stock is not anticipated, and such dividends may be deferred indefinitely.—V. 123, p. 2264, 457.

American Safety Razor Corp.—Listing.—

The New York Stock Exchange has authorized the listing on or after Jan. 2 of certificates for 2,000 shares of capital stock without par value on official notice of issuance, as a stock dividend, making the total amount applied for to date 202,000 shares.

Consolidated Statement of Income and Expense (Incl. Foreign Sub. Co.).			
	Calendar Years—	9 Mos. End.	
	1924.	1925.	Sept. 30 '26.
Total revenue	\$5,326,620	\$5,773,867	\$4,182,162

—V. 123, p. 2781.

American Screw Co.—Omits Extra Dividend.—The directors have declared the regular quarterly dividend of 1½% on the capital stock, payable Jan. 3 to holders of record Dec. 21. In January 1924, 1925 and 1926 the company paid an extra dividend of 1% in addition to the usual quarterly distribution of 1½%.—V. 121, p. 3134.

American Seating Corp.—Notes Ready.—

The National Bank of Commerce in New York is prepared to exchange \$4,000,000 American Seating Corp. 10-year 6% convertible gold notes in definitive form for the temporary notes outstanding. (See V. 123, p. 87.)—V. 123, p. 3187.

American Ship & Commerce Corp.—Int. in New Bldg.—The following statement is understood by the "Chronicle" to be correct: Under the plan arranged for financing the new building to be erected at 35-39 Broadway, N. Y. City, the corporation will receive about \$400,000 in cash, which is in excess of company's original investment in the old Thirty-Nine Broadway Corp building. In addition, the company will

receive common and preferred stock representing about 15% of the shares of the new Harriman Bldg. Corp. (V. 123, p. 2909), which will own the new building.—V. 123, p. 1993.

American Solvents & Chemical Corp.—Div. No. 2.—

The directors have declared a regular quarterly dividend (No. 2) of 75 cents per share on the conv. partic. preferred stock, no par value, payable Jan. 1 to holders of record Dec. 23. An initial quarterly dividend of like amount was paid on this issue on Oct. 1 last.—V. 123, p. 1636.

American Sumatra Tobacco Corp.—Pref. Stock Retired.

The corporation announced on Dec. 17 that there has been retired into the treasury from Aug. 18 to Nov. 17 last a total of 3,562 shares of pref. stock. This reduces the outstanding pref. stock to \$2,000,000.—V. 123, p. 714.

American Surety Co.—2% Extra Dividend.—

The directors have declared an extra dividend of 2% in addition to the regular quarterly dividend of 4%, both payable Dec. 31 to holders of record Dec. 24.—V. 123, p. 2143.

Anglo-American Corp. of South Africa, Ltd.—Div.—

A dispatch from London states that the directors have announced that they anticipate declaring a dividend of 12½% on Dec. 31, profits permitting. Announcement was also made that substantial sums would be allocated to the reserve and dividend equalization reserve accounts, bringing the total of these funds up to £1,250,000.—V. 123, p. 3187.

Archer-Daniel-Midland Co. (& Subs.).—Earnings.—

3 Months Ended Nov. 30—	1926.	1925.
Net profit after depreciation, Federal tax, &c.	\$347,627	\$395,274

—V. 123, p. 3187.

Arundel Corp. (Balt.).—20-Cent Extra Dividend.—

The directors have declared an extra dividend of 20 cents per share on the common stock (no par value) in addition to the regular quarterly dividend of 45 cents per share, both payable Jan. 3 to holders of record Dec. 23. This brings total disbursements on the common stock for the year 1926 to \$2 per share per annum, compared with a total of \$1 80 for 1925.

Net income for November, after depreciation, amounted to \$200,442, and for the 11 months ended Nov. 30, \$1,946,375.—V. 123, p. 1253.

Atlantic Gulf & West Indies SS. Lines.—Pays Loan.—

The company has paid off a loan of \$1,250,000 with the American Trust Co., which was to have fallen due Jan. 26 1927. This loan was the balance of the loan contracted incidental to the reacquisition of the Ward Line. ("Wall Street Journal.")—V. 123, p. 3187.

(L.) Bamberger & Co., Newark, N. J.—To Erect \$10,000,000 Addition to Newark Store.—

The company, to accommodate a constantly expanding business, is about to erect a \$10,000,000 addition to its department store, in the form of a 16-story, basement, sub-basement and sub-basement mezzanine building. This will double its present extensive floor space, and be representative of the last word in modern retail facilities, combining, as it will, every feature of present day building construction and store conveniences which have been evolved by the best minds of the nation, who have expert knowledge in the requirements of every branch of the highly specialized retail dry goods business. Many novel features will, for the first time, be disclosed in the new Bamberger building, the result of extensive experimentation, the purpose of which is to further humanize the mammoth machinery which large department store operation and maintenance necessitates.

The new structure will rise immediately north of the present store building, now located on Market, Halsey and Washington streets, which occupies a ground area of 54,430 sq. ft. The new addition will increase this area to approximately 90,000 sq. ft. and will increase the frontage on Washington St. by 141 ft. and on Halsey St. by 109 ft. Frontage on Bank St. will be 281 ft., making a total building frontage of 1,233 ft. Two huge 250-foot towers surmount the building, supporting the antennae of powerful radio station W O R. The new addition provides for a basement, sub-basement and sub-basement mezzanine and when completed the building will provide substantially 24 acres of floor space. Work on the new structure will begin shortly after Jan. 1. Jarvis Hunt of Chicago is the architect, Martin C. Schwab, consulting engineer, and Taussig & Fleisch are the fixture architects.

The building throughout will be one of the most modern of its kind and include a variety of features, including 32 elevators, some having a speed of 600 feet a minute for express service; comfort stations on each floor, a 600-seat capacity auditorium for special store events and diversions, fur storage vaults to accommodate \$5,000,000 worth of furs, an electric generating plant sufficient in size to light a city of 65,000 population, an ice manufacturing plant capable of 65 tons of refrigeration, and, although fireproofed throughout, will include a 100,000-gallon water supply at all times should the city supply fail. The main dining room, with a seating capacity of 1,500, will be supplemented by a 350-seat tea room and several private dining rooms, each accommodating from 50 to 250 persons. Expert attention has been paid to facilities in the various kitchens, which are unusual in size.

The L. Bamberger & Co. store, known internationally as "One of America's Great Stores," had its beginning in December 1892 when Louis Bamberger, the founder, with his partners, Felix Fuld and Louis M. Frank, opened an unpretentious place of business at 147 Market St., Newark. The partnership has continued and flourished until the present, broken only by death of Mr. Frank in 1910. The firm also publishes "Charm Magazine," a monthly periodical devoted to the interests of New Jersey women, and five years ago instituted radio station W O R, which has taken its place as a quality and powerful broadcaster, having been heard on all six continents of the world.

Barnhart Bros. & Spindler.—Annual Report.—

See American Type Founders Co., Inc., in issue of Dec. 11, p. 3056.—V. 121, p. 2406.

Battle Creek (Mich.) Sanitarium.—Bonds Offered.—

Central Trust Co. of Ill., Chicago and the Old National Bank, Battle Creek, Mich. are offering at prices ranging from 100 and int. to 101.40 and int. to yield from 5¼% to 6%, according to maturity, \$2,500,000 1st mtge. 6% serial gold bonds issued by Michigan Sanitarium and Benevolent Association.

Dated Jan. 1 1927; maturities Jan. 1 1929-1942. Interest payable J. & J. at office of Central Trust Co. of Illinois, Chicago, trustee, or Old National Bank, Battle Creek, co-trustee. Coupons payable without deduction for normal Federal income tax not exceeding 2%. Optional prior to maturity at 100 and int., plus a premium of ¼ of 1% for each year or fractional part by which the regular maturity is anticipated, with a minimum premium of 1%. Tax exemption in Michigan and legal investment for Michigan Savings Banks. Authorized \$3,000,000. Denom. \$1,000, \$500 and \$100.

The Battle Creek Sanitarium, founded in 1866, is the largest and most widely known institution of its kind in the world. Its patients and guests since its foundation aggregate 313,000, representing every State in the United States and practically every civilized nation in the world. Its research and clinical laboratories and equipment for diagnosis are unsurpassed and its 50 departments are conducted by a daily average of 1,500, to 1,800 employees. Its medical staff, comprising 65 physicians and surgeons, is headed by Dr. John Harvey Kellogg, who has been in charge of the institution's policies for the past 50 years. Upon the completion of the present construction, the institution will have facilities for the accommodation of 1,650 patients daily.

The institution is benevolent in character, all surplus earnings being devoted either to the enlargement of its facilities or educational and charitable purposes. Its surplus earnings for the past 6 years aggregate \$3,355,349, of which \$945,504 have been devoted to increasing properties and facilities and the remaining \$2,409,845 to educational and charitable purposes.

In view of the steady increase in patients and guests and the consequent inadequacy of its present facilities, the institution is constructing a new sanitarium building to cost approximately \$2,200,000, and making additions and improvements to present buildings to cost substantially \$350,000. The proceeds of the present bond issue, including the 500,000 authorized

but not presently issued, are to be used, after making provision for the retirement of \$500,000 of outstanding bonds, in the construction of the new building and the additions and improvements to existing buildings. The remainder of the construction cost as well as the cost of equipping the new building, estimated at \$350,000, is to be provided by the institution from its available cash funds.

Beacon Oil Co.—Listing.—

There have been authorized for the Boston Stock Exchange list, as the same may be issued in connection with the exercise of certain common stock purchase warrants, 75,000 additional shares, without par value, common stock, making 779,000 such shares authorized for the list out of an authorized issue of 1,000,000 shares.—V. 123, p. 3041, 2658.

Bearings Co. of America.—Listing.—

The Philadelphia Stock Exchange has authorized the listing of \$1,750,000 7% cumulative 1st pref. stock (total authorized), par \$100; and 100,000 shares of common stock, no par value.

The certificates of the above stocks are transferable at the office of the Girard Trust Co., Philadelphia, Transfer agent, and countersigned and registered by the Pennsylvania Co. for Insurance on Lives and Granting Annuities, Philadelphia, registrar.—V. 122, p. 1614.

Belgian-American Coke Oven Corp.—Bankruptcy.—

Receivership proceedings have been filed in Chancery Court at Wilmington, Del., against the corporation by Thos. F. Ryan, Herbert H. Vreeland and Chas. H. Sabin, all stockholders of the company. The bill of complaint points out that assets are \$10 in cash and patents valued on the books of the company at \$1,000,000. It is set forth, however, that these patents are of doubtful value. The concern was incorporated in 1921. See V. 113, p. 1057, 1678.

Benevolent & Protective Order of Elks, Brooklyn, Lodge 22.—Trustee.

The Manufacturers Trust Co. has been appointed trustee of an issue of \$2,900,000 1st mtge. 5½% serial bonds, dated Dec. 1 1926.

Bessemer Limestone & Cement Co.—New Control.—

A dispatch from Youngstown, Ohio, states that negotiations have practically been closed for the sale of the common stock of this company to the Standard Slag Co. and the Federal Cement Co. Holders of over 80% of the common stock have given consent, it is said. See also V. 123, p. 3041.

Black & Decker Manufacturing Co., Baltimore.—

Debentures Offered.—Hornblower & Weeks, New York and Baker, Watts & Co., Baltimore, are offering at 99 and int. to yield over 6.60% \$1,250,000 10-year 6½% sinking fund convertible debentures.

Dated Jan. 1 1927; due Jan. 1 1937. Interest payable J. & J. Callable all or part on any int. date on 30 days' notice at 105 and int. up through Dec. 31 1931, the premium decreasing 1% each year thereafter. Denom. \$1,000 and \$500 c. Principal and int. payable at Maryland Trust Co., Baltimore, trustee and Bankers Trust Co., New York, without deduction for normal Federal income tax up to 2%. Maryland 4½, Penn. 4, Conn. 4 and District of Columbia 5 mills tax and Mass. income tax up to 6% per annum refundable.

Convertible.—Debentures are convertible at any time at the holder's option into common stock at \$25 per share during 1927 and thereafter at a price increasing \$1 per share each successive year to maturity.

Data from Letter of Pres. S. Duncan Black, Baltimore, Dec. 17

Company.—Incorp. in 1910 in Maryland. Company is to-day the world's largest factor in the production of portable labor-saving electric tools. Starting with a capital of \$1,200, the management early recognized that a successful business should have a product which would result in saving of time and elimination of labor. A line of portable electrically-driven tools was, therefore, designed and developed, so that in 1914 the now nationally known Black & Decker electric drill "with the pistol grip and trigger switch" was first marketed. Company's standard portable tools now include, in addition to electric drills, electric screw drivers, tappers, wrenches, reamers and grinders. Company owns modern plants at Towson, Md., three miles outside of Baltimore city limits and at Indianapolis, Ind., with a combined floor area of over 137,000 sq. ft., together with an assembly plant at Montreal, Que. Sales and service stations are maintained in 19 cities. The automobile, industrial and plumbing trades are sold through over 800 jobbers. The sales policy includes extensive national advertising and each yearly increase of advertising has been reflected in increased sales.

Earnings for Calendar Years.

	Net Sales.	Net Available for Int. after Deprec., but before Fed. Taxes	Times Interest on these Debentures.
1926 (9 mos.)	\$3,270,694	\$328,764	5.39
1925	3,231,180	455,085	5.60
1924	2,628,628	447,551	5.50
1923	2,287,936	276,522	3.40
1922	1,349,373	256,219	3.15

Earnings for 1926, after allowing for interest on these debentures, Federal taxes at the present rate of 13½%, and preferred dividends, were at the annual rate of \$2.25 per share of common stock.

Sinking Fund.—A sinking fund, commencing July 1 1928, is provided for the retirement annually of 5% of the maximum amount of debentures at any time outstanding, either by purchase at or below the call price, or redemption by lot.

Capitalization upon Completion of Present Financing.

a Represented by 100,000 shares of no par value (authorized 250,000 shares).—V. 123, p. 3188.

Bon Ami Co.—Listing.—

The New York Stock Exchange has authorized the listing of 100,000 shares common A stock, without par value.

The company and its subsidiaries report for the eight months to Aug. 1 1926: Gross sales, domestic and Canadian, \$2,685,808; gross profit on sales, \$1,543,969; income before int., deprec. and Federal and Canadian income taxes, \$854,627; less depreciation, \$43,276; Federal income tax, \$87,182; Canadian income tax, \$6,390; net income, \$717,779.—See V. 123, p. 2265.

Boston Sand & Gravel Co.—Extra Dividend.—

An extra dividend of 2%, in addition to the regular quarterly payment of 1%, has been declared on the common stock, thus making \$6 in dividends for the full year against \$4 a share paid last year. Regular quarterly dividends also were declared on the two classes of preferred stock. All dividends are payable Jan. 1 to holders of record Dec. 22.—V. 115, p. 2796.

Botany Consolidated Mills, Inc.—Strike Ended.—

The strike in this company and its subsidiary, the Garfield Worsted Mills, was settled on Dec. 13. The strike had lasted 10½ months. Under the agreement reached with the Botany Mills the strikers win the right to organize in a legitimate association providing it is not of Communistic origin or purpose. The right of collective bargaining is recognized, but both parties agree to submit to arbitration by a third party in any future dispute. The operators agreed not to discriminate against the strikers and to employ no outside help until all the strikers are re-employed.—V. 123, p. 1636.

British American Oil Co., Ltd.—Split Up Shares.—

The shareholders on Dec. 15 ratified the proposal to change the capital structure of the company by the conversion of each authorized \$25 par share into four shares of no par value. Compare V. 123, p. 2905.

British Controlled Oilfields, Ltd.—New President, &c.

John W. Dennis has been elected President, succeeding Lord Buckmaster, who recently resigned. Lieut.-Col. H. E. Modlicott, D.S.O., has been elected a Vice-President. In addition, Christopher Dalley has been elected a director.—V. 123, p. 2659.

Brunswick-Balke-Collender Co.—Contract.—

It is announced that this company has signed a contract with the Polyphonwerke, Inc., and the Deutsche Gramphone, Inc., of Berlin, by the terms of which arrangements have been effected for the interchange of record matrices between the Brunswick company and the German manufacturers. Provision is also made for the interchange of existing manufacturing methods and plans of operation, use of available patents controlled by these companies and in addition, the erection of several new factories. By virtue of the contract, the above three companies secure exclusive sales rights to the use and exchange of manufacturing patents controlled by leading electrical manufacturers of Germany.—V. 123, p. 3041.

Canada Dry Ginger Ale, Inc. (Del.)—Dividends.—

The directors have declared the regular quarterly dividend of 50c. a share, payable Jan. 15 to holders of record Jan. 1. This is in addition to the 1¼% stock dividend payable on the same date, which represents one-quarter of the 5% stock dividend declared in advance by the directors on March 23 1926 (see V. 122, p. 1768).

The New York Stock Exchange has authorized the listing of 5,697 additional shares of stock without par value on official notice of issue as a stock dividend on Jan. 15, making the total amount applied for 461,374 shares of stock without par value.

x Represented by 445,013 shares of no par value.—V. 123, p. 2659.

Canadian Industrial Alcohol Co.—20% Stock Div.—

The directors have declared a 20% stock dividend and the regular quarterly cash dividend of 32 cents per share on the outstanding 800,000 shares of capital stock, no par value, both payable Jan. 15 to holders of record Dec. 31.

The stockholders on Dec. 21 increased the authorized capital stock from 1,000,000 shares to 1,500,000 shares.—V. 123, p. 3188.

Caterpillar Tractor Co.—Exchange of Certificates.—

President R. C. Force, San Leandro, Calif., Dec. 15, in a letter to holders of the capital stock, says in part: "The proposed amendments to the company's articles of incorporation having been approved, it becomes necessary to exchange all outstanding stock certificates of the company for new certificates. The new certificates are now in process of preparation and in order to facilitate the making of these exchanges, the Bank of California, N. A., has been appointed as depository. You are accordingly requested to deliver your present stock certificates, properly endorsed, to the Bank of California, N. A., at its principal office in San Francisco, for exchange for new certificates on the basis of five shares of new stock for one share of present stock." See also V. 123, p. 3041.

Cavalier Hotel Corp.—Listing.—

The Baltimore Stock Exchange has authorized the listing of \$650,000 1st mtge. 10-year 6½% gold bonds. See offering in V. 122, p. 3457.

Childs Co.—Listing.—

The New York Stock Exchange has authorized the listing on or after Dec. 30 of 3,440 shares additional of common stock without par value, on official notice of issuance as a stock dividend, making the total amount applied for 348,607 shares without par value.

Note.—Contingent liability on guaranty of mortgage bonds of subsidiary real estate companies, \$500,000. Figures for Sept. 30 1926 are subject to adjustment at end of year when accounts are finally audited.—V. 123, 3042.

Citizens Ice & Cold Storage Co.—Sale.—

See National Public Service Corp. under "Public Utilities" above.—V. 114, p. 1770.

Columbia Graphophone Co., Ltd., London.—Report Another Move in Graphophone Merger.—

The company has offered to purchase the outstanding shares of the Columbia (International), Ltd., by an exchange on the basis of one share of its own stock for each two shares of International, according to London dispatch. It will also purchase options on International at the rate of one Columbia common for six options. This offer is subject to approval by the stockholders.

This is the second step taken within two weeks to consolidate the Columbia properties in various parts of the world. On Dec. 4 the London company offered to purchase the minority stock of the Columbia Phonograph Co., Inc., the American company, at \$45, or to acquire that stock through an exchange for its own. This offer expired Dec. 16.

Columbia (International), Ltd., was formed a little over a year ago to acquire and develop foreign phonograph business. It has a controlling interest in the Columbia Phonograph Co. and in the Carl Lindstrom, A. G., of Berlin, and through the latter, in the Transoceanic Trading Co. of Amsterdam.—V. 123, p. 3042.

Columbia Steel Corp., San Francisco.—To Continue Stock Dividends on Preferred Stock.—

The directors have voted to continue the present policy of declaring one share of common stock a year for each share of preferred, as a stock dividend on the preferred stock.—V. 123, p. 2906.

Commander-Larabee Corp.—Definitive Notes Ready.—

Dillon, Read & Co. interim receipts for 10-year 7% secured sinking fund gold notes (with stock purchase warrants) due July 1 1936, are now exchangeable for definitive notes (with stock purchase warrants) at the American Trust Co., 135 Broadway, N. Y. City. (For offering see V. 123, p. 330.)—V. 123, p. 3042.

Consolidated Dairy Products Co.—Stock Increased.—

The company has filed a certificate at Dover, Del., increasing its authorized capital stock from 300,000 shares to 400,000 shares of no par value. See also V. 123, p. 2907.

Consolidated Publishers, Inc.—Definitive Notes Ready.—

The Chemical National Bank is prepared to deliver definitive 6½% collateral trust sinking fund gold notes in exchange for temporary notes. For offering see V. 123, p. 460.

Continental Can Co.—New President.—

Carl C. Conway, formerly First Vice-President, has been elected President succeeding Thomas G. Cramwell, who has been elected to the newly created position of chairman of the board of directors.—V. 123, p. 3189.

Corn Products Refining Co.—3% Extra Dividend.—The directors on Dec. 24 declared an extra dividend of 3% 75 cents per share) in addition to the regular quarterly of 2% on the common stock, both payable Jan. 20 to holders of record Jan. 3. The last previous dividend was 1%, paid on July 20 1926.

Jeremiah Milbank has been elected a director to succeed the late A. A. Smith. E. E. Van Sickle has been elected a Vice-President.—V. 123, p. 3042.

(Wm.) Cramp & Sons Ship & Engine Bldg. Co.—To Segregate Properties.—

The stockholders will vote Dec. 29 on approving plans for the segregation of the I. P. Morris department of the company. This non-marine department of the Cramp company, which is understood to be its most profitable department, will be organized into the I. P. Morris Corp. and a holding company will be formed to take over the subsidiary corporations of the Cramp company.

Under the plan of segregation, it is proposed to transfer all the assets, subject to all the liabilities, of the present I. P. Morris department in exchange for all the stock of the proposed new company.

It is also proposed to transfer to the holding company stocks owned in the De La Vergne Machine Co., the Pelton Water Wheel Co., the Federal Steel Foundry Co., and the I. P. Morris Corp. when organized.—V. 122, p. 3610.

Credit Alliance Corp.—Extra Dividends—Quarterly Dividend Rate Increased.—

The directors have declared an extra dividend of 75 cents per share and the regular quarterly dividend of 75 cents per share on the class A and common stocks, no par value, payable Jan. 15 to holders of record Jan. 1. Divs. paid on these stocks during the current year are as follows: Four regular quarterly divs. of 50 cents per share, and in addition an extra of 25 cents in Jan. and April, an extra of 50 cents in July and one of 75 cents in October.

The corporation reported that \$3,428,600 of its preferred stock has been converted into class A common stock, leaving only \$471,400 of preferred outstanding.

Up to Dec. 15 1927 the holders of preferred stock may convert on the basis of 3 shares of preferred for 2 shares of class A common; thereafter, to Dec. 15 1928, on the basis of 2 shares of preferred for one of class A common; and thereafter one of preferred for two-fifths of a share of class A common.

Officials of the corporation said that the volume of business for 1926 would aggregate over \$20,000,000, more than 2½ times that of 1925.—V. 123, p. 2145.

Crowell Publishing Co.—Capital Stock Increased.—

The company has filed a certificate at Dover, Del., increasing its authorized stated capital stock from \$23,750,000 to \$26,250,000.—V. 115, p. 2051.

Crown Willamette Paper Co.—Listing.—

The New York Stock Exchange has authorized the listing of its full paid first preferred stock certificates representing 51,000 shares (total of 200,000 shares authorized and issued) of its first preferred stock without par value, with authority to admit to the list 149,000 shares of its first preferred stock upon official notice of issuance in exchange for 149,000 shares allotment certificates which are outstanding in the hands of the public, making the total amount applied for 200,000 shares first preferred stock.—V. 123, p. 2907.

—V. 122, p. 97.

Cudahy Packing Co.—New Common Stock Placed on an 8% Annual Div. Basis.—The directors on Dec. 23 declared a quarterly dividend of 2% on the outstanding \$21,249,500 common stock, par \$50, payable Jan. 15 to holders of record Jan. 5. This is at the same rate as that paid last quarter on the old common stock of \$100 par value, which was recently exchanged for new common stock on the basis of two new for one old. Previously quarterly dividends of 1¼% were paid on the old common stock.—V. 123, p. 2524.

Cutler Securities Corp. (Del.).—Bonds Called.—

Certain of the collateral trust sinking fund gold bonds, aggregating \$16,500, have been called for payment Jan. 1 at 100 and int. at the Seaboard National Bank, trustee, 115 Broadway, N. Y. City.—V. 123, p. 2661.

De Beers Consolidated Mines, Ltd.—30% Deferred Div.—

The directors have declared an interim dividend of 30% on the deferred stock and the regular semi-annual dividend of 20% on the preferred stock. A year ago the company paid an interim dividend of 25% on the deferred shares, while six months ago a final distribution of 35% was made, making a total of 60% for the year.—V. 123, p. 3177, 331.

Delaware Lackawanna & Western Coal Co.—Extra Dividend of 2%.—The directors on Nov. 24 last declared an extra dividend of \$1 per share (2%) in addition to the regular quarterly dividend of \$2 50 per share, both payable Dec. 15 1926 to holders of record Dec. 1. The dates of

payment of the dividend have been advanced one month to March, June, Sept. and Dec. 15, to correspond to the payment date of the Glen Alden Coal Co., which owns over 99% of the Delaware Lackawanna & Western Coal Co. stock. The latter has paid \$12 25 a share this year (incl. extra of \$2 50 paid Jan. 15 1926), compared with \$7 50 a share in 1925. The quarterly dividend rate was increased from \$1 25 to \$2 50 per share in September, the \$10 regular annual rate corresponding with Glen Alden's \$10 rate.—V. 122, p. 97.

Detroit Rock Salt Co.—Bonds Called.—

All of the outstanding 1st mtge. gold coupon bonds dated Oct. 1 1912 have been called for payment Jan. 1 at par and int. at the office of the Security Trust Co., trustee, Detroit, Mich.—V. 123, p. 848.

Dierks Lumber & Coal Co., Kansas City, Mo.—Bonds Offered.—Baker, Fentress & Co., Harris, Forbes & Co., Continental & Commercial Co., and Illinois Merchants Trust Co., Chicago, are offering at 100 and interest \$6,500,000 first mtge. 6% sinking fund gold bonds, the joint and several obligations of Dierks Lumber & Coal Co. and its principal subsidiaries, The Choctaw Lumber Co. and Pine Valley Lumber Co.

Dated Dec. 1 1926, due \$650,000 annually each Dec. 1 1932 to 1941. Callable all or part on 30 days' notice on any int. date at 101 and int. Denom. \$5,000, \$1,000 and \$500 c*. Principal and int. (J. & D.) payable at Continental & Commercial Trust & Savings Bank, Chicago, or Fidelity National Bank & Trust Co., Kansas City, Mo. Fidelity National Bank & Trust Co. and Calvin Fentress, Chicago, trustees. Int. payable without deduction for any normal Federal income tax up to 2%. Auth. \$10,000,000.

Data From Letter of Herman Dierks, Chairman of the Board.

Business & History.—Company, founded in 1886, with its subsidiaries is one of the most successful organizations in the lumber industry. It is the largest producer of shortleaf yellow pine lumber and owner of the greatest stand of shortleaf yellow pine timber under private control. From a capital of a few thousand dollars, the business has gradually expanded through reinvestment of earnings, into a self-contained lumber manufacturing and distributing entity with present assets conservatively worth over \$30,000,000. The business has shown a profit in each of the past 40 years, and since Jan. 1 1899 stockholders have received cash dividends totaling \$10,177,615. The owners have been and continue to-day the active managers of the business.

Property.—The timber holdings of the companies, located in four compact tracts in southwest Arkansas and contiguous southeast Oklahoma are estimated at over 2,500,000,000 ft. of standing merchantable timber of high quality, about 90% Arkansas and Oklahoma shortleaf yellow pine. An additional approximately 260,000,000 ft. have been purchased under contract.

The companies own and operate 3 modern lumber manufacturing plants and have produced an average of 137,000,000 ft. of lumber annually for the past 10 years. A fourth plant, being built at Pine Valley, Okla., with a fifth to be constructed near Hot Springs, Ark., will increase total annual capacity to 225,000,000 ft. In connection with the plants, they own and operate 85 miles of logging railroad, and commissaries, hotels, dwellings, theatres, &c., adequate to provide for 3,000 employees; an electric power system with installed generating capacity of 3,750 k.w. and 160 miles of high tension transmission line, serving a population of 30,000 in the vicinity of the mills, and through a subsidiary, 16 retail lumber yards in Nebraska.

Security.—Bonds will be the direct, joint and several obligations of Dierks Lumber & Coal Co., The Choctaw Lumber Co. and Pine Valley Lumber Co., and will be specifically secured by direct first mortgage on properties independently valued as follows: Over 2,500,000,000 ft. of timber, 90% shortleaf yellow pine, \$20,000,000; plants, buildings, equipment, railroads, &c. (heavily depreciated), \$2,369,736; total security, \$22,369,736. In addition, the balance sheet shows over \$4,300,000 of net quick assets, which is in excess of normal requirements. Of the cash shown on the statement, approximately \$1,500,000 is to be expended in the construction program, and will still further increase the fixed security for these bonds.

Sinking Fund.—Mortgage provides for a sinking fund at the rate of \$6 per 1,000 ft., payable to the corporate trustee as the timber is cut. So long as outstanding bonds aggregate less than 60% of the value of timber under the first lien of the mortgage, the companies may use the proceeds of the sinking fund for any corporate purposes, except that while any of these bonds are outstanding, no dividends may be paid which would reduce current assets below 250% of current liabilities.

Income.—Combined income of Dierks Lumber & Coal Co. and The Choctaw Lumber Co. before depreciation and depletion, available for payment of interest, debt principal and Federal taxes for the 9 years and 9 months ending Sept. 30 1926 is given below:

Year.	Amount.	Year.	Amount.	Year.	Amount.
1917.....	\$1,734,874	1921.....	\$1,059,926	1925.....	\$1,887,942
1918.....	1,861,703	1922.....	2,670,685	1926 (9 mos.)	1,367,026
1919.....	2,317,243	1923.....	2,869,257	Avg. per yr.	2,066,803
1920.....	2,440,825	1924.....	1,941,850		

Fixed charges, including interest on these bonds..... \$438,000

Purpose.—Proceeds will be used to reimburse the treasury for timber purchases and plant extensions, for the construction program above outlined, to retire \$3,000,000 of short term notes and for added working capital.

Combined Balance Sheet as at Oct. 1 1926 (After This Financing).

a Capital stock outstanding: Dierks Lumber & Coal Co., \$8,620,700; Choctaw Lumber Co., minority stockholdings only, \$1,773,000; combined surplus, including proportion applicable to minority interests in Choctaw Lumber Co. and appreciation arising from revaluation of timber (\$9,311,164), \$13,250,940. b Approximately \$1,500,000 of the cash above shown is to be expended in the companies' construction program.—V. 123, p. 3189.

Dominion Bridge Co., Ltd.—Bonus of 2%.—

The directors have declared a bonus of 2% on the capital stock, payable Jan. 3 to holders of record Dec. 17. Regular quarterly dividends at the rate of 4% per annum have been paid to date.—V. 122, p. 355.

Dominion Glass Co., Ltd.—New Directors.—

Ross H. McMaster, Walter Molson, F. G. Daniels and N. M. Yulle have been elected directors, succeeding A. H. Grier, Hon. Lionel Guest, H. D. Herdt and Sir William Wiseman, Bart. See also V. 123, p. 3189.

Eaton Axle & Spring Co.—Earnings Increase.—

According to Chairman J. O. Eaton, the company will show \$4 a share in 1926 on its sole capitalization of 250,000 no-par shares, against \$2 82 a share in 1925. "Our net earnings," he said, "will be twice our dividend requirements in spite of the decline in the automotive industry in the last quarter. Our current position at the end of the year will be greatly improved over a year ago. We have owed no money to the banks for many months, and will have considerable cash and Government securities in the treasury."—V. 123, p. 2145.

Electric Ferries, Inc.—New Boat Soon Ready.—

Another Diesel electric ferryboat will soon be added to the three now being operated by the corporation on the lower Hudson between the Manhattan and Jersey shores. The "W. A. Baldwin, launched recently at the Camden, N. J., shipyards of the American Brown Boveri Electric Corp., will be delivered shortly.—V. 123, p. 2525.

Elliott-Fisher Co.—Extra Dividend of \$3.—

The directors have declared an extra dividend of \$3 a share on the common and common B stocks, in addition to the regular quarterly dividends of \$1 50 a share on the common and common B stocks and of 1 1/4% on the preferred stock, all payable Jan. 3 to holders of record Dec. 22. Dividends paid during 1926 on both issues of common stock are as follows: On Jan. 2 an extra of \$3 and a regular quarterly of \$1; on April 1 a regular quarterly of \$1 50; on July 1 an extra of \$1 and a regular quarterly of \$1 50; on Oct. 1 a regular quarterly of \$1 50 per share.—V. 122, p. 3346.

Emerson-Brantingham Corp.—Listing.—

The New York Stock Exchange has authorized the listing of 47,261 shares of class A no par value capital stock and 9,043 shares of Class B no par value capital stock which are issued and outstanding with authority to add 63,584 shares of class A no par value capital stock and 10,957 shares of class B no par value capital stock upon official notice of issuance in exchange for capital stock or certificates of deposit for capital stock of Emerson-Brantingham Co., making the total amount applied for 110,845 shares class A no par value capital stock and 20,000 shares class B no par value capital stock.

The purpose of this issue is to consummate and carry out the plan of reorganization of Emerson-Brantingham Co. dated May 10 1926 (V. 122, p. 1032).

Estey-Welte Corp.—Acquires the Minority Shares in Hall Organ Co.—

The corporation announces that it has acquired the minority shares in the Hall Organ Co., West Haven, Conn., previously outstanding, thus acquiring complete control.

Simultaneously it was stated that the corporation has just acquired the 6-floor building which is now nearing completion at 695 Fifth Ave., N. Y. City. This new building will not only be the home of the Estey-Welte Corp., but will serve as showrooms and salesrooms, as well as executive offices, for its subsidiary companies which include the Welte-Mignon Studios, Inc., the Estey Piano Co., the Estey Co. of Philadelphia, the Hall Organ Co., the Welte-Mignon Corp., the Welte Organ Co., the North American Discount Corp., the Estey Welte Securities Co. and the Eswe Realty Co.

In making the announcements, Treasurer H. W. Wilson said that in addition to the acquisition of the building at 695 Fifth Ave., the corporation through its subsidiary, the Eswe Realty Corp., also recently took over substantial realty holdings in the Bronx in connection with factory expansion program of the corporation. The personnel of the organ factory has been increased by about 250% in the past year.

Earnings, according to Mr. Wilson, will show for 1926 a substantial increase over any previous year but do not yet fully reflect the earning power of the capitalization. Deliveries through 1927, he expects, to show a large gain. Negotiations are under way for acquisitions of additional properties.—V. 123, p. 90.

Farr Alpaca Co.—Extra Dividend of 1%.—

The directors have declared an extra dividend of 1% (\$1 per share) in addition to the regular quarterly dividend of 2% (\$2 per share), both payable Dec. 31 to holders of record Dec. 18. An extra dividend of 3% was paid on June 30 last and on Dec. 31 1925.—V. 123, p. 91.

Fedders Manufacturing Co., Inc., Buffalo.—Stock Offered.—Taylor, Ewart & Co., Inc., New York and Lyon, Walcott & Co., Buffalo are offering at \$25 per share 50,000 shares class A stock, non-callable. The sale of this stock represents no new financing by the company.

Preferred as to both assets and dividends. Entitled to preferential cumulative dividends payable Q.-J. at the rate of \$2 per share per annum. Participating equally with the class B stock after the latter has received dividends of \$2 per share per annum. The class A stock will have preference as to assets in case of liquidation up to \$25 per share and will be entitled to receive an equal distribution with the class B stock after the class B has received \$25 per share. No dividends shall be paid on the class B stock which will reduce the net quick assets below \$750,000. Transfer agent, Kidder, Peabody & Co., New York. Registrar, Seaboard National Bank, New York.

Capitalization—Authorized, Outstanding.
Class A stock (no par value).....50,000 shs. 50,000 shs.
Class B stock (no par value).....50,000 shs. x50,000 shs.
Both classes of stock will have equal voting power.

x President L. F. Fedders and associates will retain the 50,000 shares of class B stock.

Data from Letter of L. F. Fedders, President of the Company.

Company.—Was established in Buffalo, N. Y., in 1896 by Theodore C. Fedders with an original investment of \$1,500, and has grown to its present size entirely through re-investment of earnings. In 1906, it began the manufacture of automobile radiators. It was incorporated in 1913 in New York. Company is now one of the three largest manufacturers of automobile radiators in the country. Its product is sold directly to some of the largest and best known manufacturers of automobiles, including Chrysler, White, Packard, Pierce Arrow, Marmon, Stearns, Durant and Stutz. Company is also engaging in the manufacture of its product for other commercial uses such as heating and refrigeration, and it is believed that this field is capable of large expansion.

Listing.—Application will be made to list the class A stock on the New York Curb Market.

Earnings.—Company has shown a profit in every year since its incorporation in 1913, with the exception of 1920, when a loss of \$23,693 was shown. The sales and net earnings (after all charges, depreciation and Federal taxes) have been as follows (calendar years):

	Sales.	Net Earnings.
1922.....	\$2,562,784	\$256,822
1923.....	3,686,610	48,990
1924.....	3,218,913	240,976
1925.....	4,250,522	312,327
1926 (11 months).....	4,245,179	282,577

Net earnings for the past five years (last month of 1926 estimated) have averaged \$228,000, equivalent to \$4 56 on the 50,000 shares of class A stock to be outstanding. For 1925 they amounted to \$6 24 and for the first 11 months of 1926 were at the rate of \$6 16 per annum per share for the class A stock.

Condensed Balance Sheet as of Nov. 30 1926.

[Changed to show the substitution of the two new classes of stock for the present capital]:

Fiat, Turin, Italy.—Listing.—

The New York Stock Exchange has authorized the listing of \$10,000,000 20-year sinking fund 7% gold debenture bonds dated July 1 1926 and due July 1 1946, carrying temporary detachable common stock purchase warrants evidencing the right to purchase 400,000 shares of Fiat's common stock. See offering in V. 123, p. 211.

Fidelity-Phenix Fire Insurance Co. of N. Y.—Listing.

The New York Stock Exchange has authorized the listing on or after Dec. 30 of \$5,000,000 additional capital stock, upon official notice of issuance, as a stock dividend, making the total amount applied for \$10,000,000.—V. 123, p. 3190.

Financial & Industrial Securities Corp.—Initial, &c., Dividends.—

The directors have declared an initial quarterly dividend of 50 cents per share and an extra dividend of 25 cents per share, on the common stock, no par value, both payable Jan. 2 to holders of record Dec. 20. (See also V. 122, p. 617).—V. 122, p. 3459.

Flintkote Co., Boston.—Pref. Stock Offered.—Jackson & Curtis and Kidder, Peabody & Co., Boston, are offering at 100 and div. \$2,500,000 7% cumulative conv. pref. stock.

Dividends payable Q.-J. First dividend payable April 15 1927. Preferred as to assets and 7% cumulative dividends. Entitled to 110 and divs. in event of voluntary or involuntary liquidation or dissolution. Free of Massachusetts income tax; free of normal Federal income tax. Red. all or part on any div. date on 30 days' notice at 110 and div. Annual sinking fund 3% of issue, or 15% of net earnings, after allowing for preferred dividend, whichever is larger. Transfer agent, State Street Trust Co., Boston; registrar, Atlantic National Bank, Boston.

Convertible at any time up to redemption date into common stock at a conversion value of \$75 per share, for the common stock, with provisions covering reductions in such conversion value contingent upon the happening of certain events.

Data from Letter of Chester E. Rahr, President of the Company.

Company.—Incorp. in 1917. Is the successor of the Flintkote Manufacturing Co. established in 1901. At its plants in Little Ferry and Rutherford, N. J., and Chicago Heights, Ill., the company manufactures roofing felt, individual and strip asphalt shingles, asphalt roll roofing and allied products. Company and the Anaconda Sales Co., a subsidiary of the Anaconda Copper Mining Co., own the Anaconda Copperclad Co., which has a plant at Rutherford, N. J., for metalizing asphalt shingle and roofing products. The products of the company are used in both new construction and re-roofing and repair work, the latter consuming the larger proportion of the output. In addition to the roofing manufacturing operations the company produces asphalt emulsions used in box board, strawboard, container board, automobile panel board, road repair work, insulation, protective coating for iron, steel and textile fabrics and in numerous other fields. The business has grown from a sales volume in 1914 of \$425,000 to approximately \$8,800,000 in 1926. The operations of existing plants and those to be acquired as a result of this financing represent a sales volume of approximately \$15,300,000.

Company owns and controls a large number of patents and patent applications relating to products, processes and machinery for manufacturing asphalt shingles and roofings and asphalt emulsions, and licenses other manufacturers under many of such patents.

Purpose.—Proceeds of the issue of Preferred stock and of 45,000 shares of common stock presently to be outstanding are to be used to retire the present preferred stock of the company; to acquire the roofing business, roofing patents and good-will of the Richardson Co., its roofing plant and felt mill with machinery and equipment at New Orleans, machinery and equipment from its Chicago, Ill., and Lockland, O., plants; and the roofing business, patents and good-will, and plant of the Chatfield Manufacturing Co. at Cincinnati, O.; for working capital and other corporate purposes.

Capitalization—Authorized, Outstanding.
7% cumulative convertible pref. stock (this issue) \$2,500,000 \$2,500,000
Common stock (no par value).....143,333 shs. x105,000 shs.

* Includes 40,000 shares being currently offered to present stockholders at \$40 per share, and 5,000 shares to be sold to the employees or officers of the Flintkote Co.; and 396 shares held in the treasury of the company.

Earnings.—During the past five years, net earnings available for dividends from the operations of the Flintkote Co. alone, without regard to the plants and businesses to be acquired, have been:

	1922.	1923.	1924.	1925.	1926 (2 Mos. Est.).
--	-------	-------	-------	-------	---------------------

\$369,250 \$389,266 \$922,117 \$602,415 \$700,000

Earnings of the Flintkote Co. for the five-year period shown above averaged 3.40 times the annual dividend requirement of \$175,000 for this issue of preferred stock, and that average was equivalent to 2.38 times the annual dividend plus the annual installment (at 3% of the outstanding preferred stock) for the sinking fund.

The earnings for 1926 (two months of which are estimated) are four times the preferred dividend requirement and 2.75 times the preferred dividend requirement plus the installment (at 15% of net earnings after preferred dividends) for the sinking fund.

The earnings of the Flintkote Co. for 1926 combined with \$500,000 earnings, which on a conservative estimate should normally result from a year's operations of the businesses to be acquired, would be 6.85 times the annual preferred dividend requirement and 3.65 times the annual preferred dividend plus the installment (on the basis of 15% of net earnings after preferred dividends) for the sinking fund.

Combined earnings as estimated at \$1,200,000, less the preferred dividend of \$175,000, would leave a balance of \$1,025,000 applicable to common stock, or \$9 75 a share on the 105,000 shares to be presently outstanding.

Balance Sheet as of Nov. 6 1926 (After Present Financing).

Assets—		Liabilities—	
Cash.....	\$1,014,842	Accounts payable and accrued items.....	\$334,795
Accounts receivable.....	1,203,401	Reserves for Federal taxes, contingencies, &c.....	252,572

Prepaid expenses.....	76,507	Common (no par).....	3,290,100
Cash reserved for cost of receivables, &c.....	230,000	Surplus.....	2,145,241
Plant, less depreciation.....	3,596,158		
Stock in other companies.....	64,600		
Patents, royalty contracts and good-will.....	1,043,422	Total (each side).....	\$8,522,710

Capital Stock Increased—Par Value of Common Stock Changed—Rights.—

The stockholders on Dec. 15 voted (a) to create an issue of \$2,500,000 7% cum. pref. stock (see above) and (b) to change the present authorized common stock from 60,000 shares, par \$25, into 143,333 shares of no par val. The common stockholders are offered the right to subscribe for 40,000 additional shares of common stock (no par value) at \$40 per share, on the basis of two new shares for each three shares owned.—V. 123, p. 212.

Firestone Tire & Rubber Co.—American Rubber Empire Rises in Africa—Colossal Enterprise in Liberia to Conquer and Cultivate 1,000,000 Acres.—See N. Y. "Times" Dec 19, Section 8, p. 3.—V. 123, p. 3175, 3190.

Florida Dairies, Inc.—Registrar.—

The Chase National Bank has been appointed registrar for 20,000 shares of 7% 1st conv. pref. stock, 3,147 shares of \$7 2d conv. pref. stock and 21,643 shares of common stock.

Follansbee Bros. Co.—Bonds Called.—

Certain of the 20-year 7% coll. trust gold bonds, dated March 1 1921, aggregating \$200,000, have been called for payment March 1 at 103 and int. at the Bankers Trust Co., trustee, 10 Wall St., N. Y. City.—V. 122, p. 3611.

Fulton Sylphon Co.—Common Stock Sold.—Chas. D. Barney & Co., Hallgarten & Co. and Reynolds Co., Inc., have sold at \$39 per share 100,000 shares common stock (no par value).

Transfer agent, Guaranty Trust Co. of New York. Registrar, American Exchange Irving Trust Co.

Capitalization.—Authorized. Outstanding.
*6% cum. conv. pref. stock..... \$1,500,000 \$1,500,000
Common stock (no par value)..... 200,000 shs. 120,000 shs.
* Convertible into common stock at the rate of \$45 per share for the first 7,500 shares offered for conversion and at the rate of \$50 per share for the remainder.

Data from Letter of Weston M. Fulton, President of the Company..

Company.—Incorp. in Dela. Dec. 23 1926, as successor to Fulton Co (of Maine), which dates back to 1904, when Mr. Fulton received his first U. S. patents. Organized in that year with a total capitalization of \$50,000, the Fulton Co. has, without the addition of a dollar of new capital, paid liberal cash dividends regularly since 1909 to its stockholders and has grown to be the largest establishment in the world devoted to the manufacture of thermo-sensitive and pressure-sensitive devices.

The business of the company is chiefly confined to the field of automatic control and regulation of temperature and pressure, in which it is generally accepted as the leader. Hundreds of different articles which are nationally known in the trade are manufactured by this company and are distributed under the nationally known trade name Sylphon to over 3,500 different customers. This company was the originator of the all-metal seamless bellows which is extensively used as the basis of temperature regulation, and the Sylphon trade-mark used on valves and regulators is accepted as creating the standard in that trade.

The Fulton Co.'s plant is located in Knoxville, Tenn., and covers approximately 11½ acres of ground. The buildings, 16 in number, are of modern concrete and brick construction, having 250,000 sq. ft. of floor space.

Earnings.—Net earnings of the Fulton Co. from Jan. 1 1926 to Nov. 6 1926, after deductions for taxes and depreciation, amounted to \$824,655, which, after proportionate allowance for dividends on the preferred stock, shows earnings of \$6.23 per share of common stock to be presently outstanding. This compares with net earnings for the year ended Dec. 31 1925, after taxes and depreciation, of \$680,815, which on the same basis shows earnings for the common of \$4.92 per share.

Based on the 1926 earnings to Nov. 6, the company estimates that net earnings after taxes, depreciation and preferred dividends for the full calendar year of 1926 will exceed \$7 per share on the common stock now to be issued.

Dividends.—Dividends will be inaugurated on the common stock of the Fulton Sylphon Co. at the rate of \$3.50 per share per annum, beginning April 1 1927.

Listing.—Application will be made to list this stock on the New York Stock Exchange.

Galena-Signal Oil Co. (Pa.).—Offer to Preferred Stockholders Made by American Republics Corp.—

See that company above.—V. 123, p. 3190.

General Fireproofing Co.—25-Cent Extra Dividend.—

The directors have declared an extra dividend of 25c. a share on the common stock in addition to the regular quarterly of \$1 a share, both payable Jan. 1 to holders of record Dec. 20. During the current year the company paid the following dividends on the common stock: on Jan. 1, quarterly of 30c. and extra of 70c.; on Feb. 10, a div. of 1 sh. of Truscon Steel common stock for each 5 shs. of General Fireproofing common stock held; on April 1, quarterly of 30c. and extra of 45c.; on July 1, quarterly of 30c. and extra of 70c.; on Oct. 1, a quarterly of \$1 a share.

Paul Wick has been elected a director, to succeed the late M. I. Arms (who had been Chairman of the board).—V. 123, p. 2146.

General Motors Corp.—Sales Overseas.—"The sales of our overseas dealers," says President Alfred P. Sloan, Jr., "in the first nine months of this year totaled 86,596 cars, compared with 67,760 cars last year, an increase of approximately 28%." Mr. Sloan further says:

It will be noted that the unit sales in the third quarter of this year, and the same remarks apply to previous years, are less than the previous quarter and, as a matter of fact, in the case of 1926 are less than the corresponding quarter of 1925. This is not due to any change in trend to export operations, but is due to the delay in getting new models under production on account of the increased number of assembly plants that have been established during the past year or so in various places throughout the world.

The number of cars sold to our overseas dealers in the third quarter of this year is shown herewith and compared with quarters of preceding years:

Period—	1926.	1925.	1924.
1st quarter.....	31,936 Cars	15,577 Cars	17,266 Cars
2nd quarter.....	31,861 "	26,277 "	16,690 "
3rd quarter.....	22,799 "	25,906 "	14,209 "
4th quarter.....	"	33,134 "	16,680 "

Following is a comparison of the past four years of total sales by General Motors for the whole world, the overseas sales and the percentage of overseas sales to the totals:

Year Ended Dec. 31—	Total Number Cars Sold.	Number Sold Overseas.	% Sales Overseas.
1922.....	456,763	21,872	4.79
1923.....	798,555	45,000	5.64
1924.....	587,341	64,845	11.04
1925.....	835,902	100,894	12.07

*These figures are the sales to dealers of Chevrolet, Pontiac, Oldsmobile, Oakland, Buick and Cadillac in all countries of the world, except the United States and Dominion of Canada, and do not include sales of Vauxhall Motors, Ltd., or overseas sales of the products of Yellow Truck & Coach Mfg. Co.

November Sales.—The company has issued the following statement:

November sales of cars by the manufacturing divisions of General Motors to dealers totaled 78,550, compared with 115,849 in the preceding month and with 73,374 in November last year.

Retail sales by dealers to users in November were 101,729 cars, compared with 99,073 in October and further with 60,257 in November 1925.

For the 10 months ended Nov. 30 sales to dealers totaled 1,190,720, compared with 781,785 in 1925. For the same period retail sales by dealers to users were 1,163,097, compared with 770,927 in 1925.

Commenting upon the corporation's activities in November, President Sloan says: "General Motors sales to users during November totaled

101,729 cars, as against 60,257 in 1925, and 33,095 in 1924; also as compared with 99,073 cars in October this year. The fact that sales for November exceeded those of October, which is entirely contrary to the seasonal trend, should not be taken as an indication that 'the trend of sales' has increased to any material degree. As a matter of fact, the circumstances are explained by an intensive retail drive inaugurated by one of the General Motors car divisions.

"For the 4 months ended Nov. 30 General Motors dealers sold at retail 441,331 cars, against 308,695 cars for the corresponding 4 months of 1925. It is estimated that General Motors retail sales in 5 months from Aug. 1 when the new sales year began, to Dec. 31 will total 500,000 cars, against 364,824 cars in the same 5 months of 1925, a gain of 37%. This estimated gain of 135,176 cars over the record-breaking period of 1925 compares favorably with a gain of 148,000 cars shown in 1925 over 1924. Sales for the last 5 months of 1924 were at a comparatively low level, being 41,424 cars less than 1923.

"General Motors dealers have stocks of unsold cars considerably less than a month's sales at current rate of consumption, and stocks have not shown an increase proportionate to the large growth in the business of the corporation, notwithstanding the fact that an entirely new line of cars, the Pontiac Six, was added this year and the several thousand new dealers taken on by our divisions required additional cars for display and demonstration purposes.

"I am using retail sales in this comparison, as they represent cars actually going into consumption, as they represent cars actually going into consumption, which in the final analysis gives the true picture of the automobile industry, although General Motors is the only company that regularly publishes such figures. While I cannot speak for the industry as a whole, I know that General Motors stocks of cars in the hands of dealers are on a conservative basis. General Motors policy is to keep the stock of unsold cars in the hands of its dealers absolutely in line with the trend of retail sales and under no circumstances will it depart from such policy.

	Dealers Sales to Users—	Dealers Sales to Users—	Dealers Sales to Users—	Division Sales to Dealers—	Division Sales to Dealers—	Division Sales to Dealers—
	1926.	1925.	1924.	1926.	1925.	1924.
January.....	53,698	25,553	33,574	76,332	30,642	61,398
February.....	64,971	39,579	50,007	91,313	49,146	78,668
March.....	106,051	70,594	57,205	113,341	75,527	75,484
April.....	136,643	97,242	89,583	122,742	85,583	58,600
May.....	141,651	87,488	84,715	120,979	77,223	45,965

Total 11 mos.....	1,163,097	770,927	623,649	1,190,720	781,785	567,414

"These figures include passenger cars and trucks sold in the United States, Dominion of Canada and overseas by the Chevrolet, Pontiac, Oldsmobile, Oakland, Buick and Cadillac manufacturing divisions of General Motors."

Offers Stock to Employees.—President Alfred P. Sloan, Jr., has issued the following statement regarding the corporation's offering of stock to employees:

General Motors is making the fourth annual offering of its 7% preferred stock to the employees of the corporation and its subsidiaries. Subscription books close Jan. 31 1927. All employees are entitled to subscribe, at \$119 a share, payment to be made in full or in 11 monthly installments.

Employees may subscribe in amount from one share up, in no case more than 10 shares, dependent upon their wage earnings; the total value of the stock subscribed for not to exceed one-third of the year's wages.

As an incentive to employees to retain their investment in the 7% preferred stock and as an inducement to remain with General Motors an extra payment of \$2 a share a year will be made in addition to the regular dividends of \$7 a share. The first extra payment of \$2 will be made on Feb. 15 1928 and will continue for 5 years, provided the employee retains his stock and remains in the General Motors service during this period.

Outlook for 1927.—President Sloan, commenting on the outlook for 1927, is quoted in substance:

Stocks of unsold cars in our dealers hands at the beginning of 1927 will be considerably less than a month's sales at even the current rate of consumption. Our stocks are on a more conservative basis than at the close of either 1924 or 1925. The industry generally is more stabilized than ever before and is on a sounder basis than ever.—V. 123, p. 3191, 2908.

Glen Alden Coal Co.—Receives Dividend.—

See Delaware Lackawanna & Western Coal Co. above.—V. 123, p. 1388.

Goodyear Tire & Rubber Co.—Clarence Dillon Says Charges Are False.—Banker and Co-Defendants Ask That Suits Begun in Akron Be Dismissed.—

Allegations of fraud and illegal application of funds in connection with the management of the company, made in a suit filed recently by nine common stockholders, are declared false in the answer and cross-petition filed Dec. 20 in Common Pleas Court at Akron, Ohio, by Clarence Dillon, of Dillon, Read & Co., New York; John Sherwin, Cleveland, and the Goodyear Company.

The bankers and their associates defend the company's refinancing plan of 1921. Basic details of the reorganization, as outlined in the stockholders' petition, are admitted, but the defendants assert that the steps taken were made necessary by conditions prevailing at that time. Mr. Dillon, whose banking firm assumed control of the company, insisted on the terms of the refinancing agreement, it is stated, for the protection of those who furnished the money to tide the corporation over financial difficulties which threatened to engulf it. Methods of handling stock and bond sales and prices were dictated by necessity, the defendants aver, and were for the best interests of stockholders.

Positive denial is made that the profits in excess of \$15,000,000 were acquired wrongfully by the controlling interests. The cross-petition asks that the petition of the stockholders for the removal of the bankers as trustees of the management stock, whereby they control the company, be dismissed.

Judge in Toledo Sets Dec. 28 for Hearing in Case.—

District Judge John M. Killits Dec. 20 took under advisement until Dec. 28 the allegation of prejudice filed to prevent him from sitting in a stockholders' suit to restrain F. A. Seiberling and his associates in the Goodyear company from acting as voting trustees of common stock. Judge Killits continued a temporary restraining order and announced a formal hearing for Dec. 28, when a motion to quash service on the defendants, on the ground that the court has no jurisdiction, also will be heard. Ruling on these points will be made by Judge Killits or by another judge in the event that the former holds he is disqualified.

In connection with the allegation of prejudice, affidavits were presented in court by John Sherwin, Chairman of the Board, and J. R. Nutt, President of the Union Trust Co. of Cleveland, the former denying that he knew the Judge and the latter explaining a loan which Judge Killits negotiated with the bank as "nothing more than any bank would give." This transaction was cited as a reason for prejudice.—V. 123, p. 3191.

Gotham Hosiery Co., Inc.—Grants Julius Keyser & Co. License to Manufacture Pointed Heel Hosiery.—

Announcement was made Dec. 17 that this company has granted to Julius Keyser & Co. a license to manufacture and sell stockings with a pointed heel. In conjunction with the above, it was also announced that the two companies, which have combined resources of upward of \$40,000, 000, would vigorously protect the Gotham-owned world patents covering stockings of the pointed heel type.

This announcement was made coincidentally with the actual transfer of the properties of Onyx Hosiery, Inc., to the Gotham Silk Hosiery Co., Inc. Payment for the Onyx properties has been made and with the transfer, Gotham acquired ownership of the famous "Pointex" patents.

Ten-Year 6% Sinking Fund Gold Debentures Listed.—

The New York Stock Exchange has authorized the listing of \$6,000,000 10-year 6% sinking fund gold debentures. The sale of the debentures was for the purpose of providing funds to be applied to the purchase of the assets and business (incl. good-will) of "Onyx" Hosiery Inc., and subsidiary companies (see V. 123, p. 2784).—V. 123, p. 3191, 2909.

Great Lakes Transit Co.—\$3 Common Div.—

The directors have declared a dividend of \$3 per share on the common stock (no par value), payable Jan. 1 to holders of record Dec. 20. The last distribution made on this issue was \$3 per share on Feb. 1 1926.—V. 122, p. 618.

Harriman Bldg. Corp.—Interest of American Ship & Commerce Corp. in Building.—

See that company above.—V. 123, p. 2909.

Hawaiian Agricultural Co., Honolulu.—Special Div.—

The company on Dec. 20 paid a special cash dividend of \$1 per share. (San Francisco "Chronicle.")—V. 112, p. 2310.

Hawaiian Pineapple Co., Ltd.—1% Extra Div., &c.—

A cablegram received from Honolulu says the directors have declared an extra dividend of 1% on the capital stock, payable Dec. 31. A year ago an extra dividend of 3% was paid.

The stockholders will vote in February on increasing the authorized capital stock from \$9,000,000 to \$10,000,000, par \$20. If this increase is approved, a 10% stock dividend will be payable Feb. 28 to holders of record Feb. 18. Dispatches state that it is the intention of the board to maintain the present cash dividend rate of 15 cents monthly.—V. 122, p. 1035.

High Street Apartments (High Street Properties, Inc.), Buffalo.—Bonds Offered.—Schoellkopf, Hutton & Pomeroy, Inc., Buffalo, are offering at prices to yield from 6% to 6 1/4%, according to maturity, \$275,000 1st mtge. 6% loan.

Dated Oct. 1 1926; due serially 1928-1941. Principal and int. (A. & O.) payable in U. S. gold coin at office of Marine Trust Company of Buffalo, trustee. Denom. \$1,000 and \$500 c*. Red. all or part in inverse order of maturity, on any int. date upon 30 days' notice at 105 and int. up to and incl. Oct. 1 1931, thereafter less 1/4 of 1% for each 6 months' period between date of redemption and final maturity date. Interest payable without deduction for normal Federal income tax not in excess of 4%.

High Street Properties, Inc., owns in fee property located on the southwest corner of High and Washington Sts., Buffalo, having a frontage of over 121 feet on High St. and 143 ft. on Washington St., the total area being 14,492 sq. ft. This location is very desirable for small and medium priced apartments as it is within a half mile of the principal business and shipping districts. The building, of 8 and 12 stories in height, is of brick and steel fireproof construction. The exterior of the first two stories is finished with an attractive magnesite stone facing. There are 80 apartments in the building, of one to three rooms each, the total number of rooms being 218.

This loan will be secured, in the opinion of counsel, by a first (closed) mortgage on the above described land and building. Total appraised value, \$428,864.

Based on present rentals and estimated expenses, Amen, Surdam & Co., accountants, have made the following estimate of earnings: Rentals after allowance for vacancies, \$63,969; operating expenses, taxes, insurance, &c., \$23,560; income available for interest charges, depreciation, &c., \$40,409. The above income is nearly 2 1/2 times the maximum annual interest requirements on this loan, amounting to \$16,500.

Hobart Manufacturing Co., Troy, O.—Stock Sold.—
Redmond & Co. and W. E. Hutton & Co. have sold at \$28 per share 67,140 shares common stock (no par value). Of this offering 11,250 shares of stock are being acquired from the company and the remainder from individuals.

Registrars, First National Bank, New York, and Fourth & Central Trust Co., Cincinnati. Transfer agents, Guaranty Trust Co., New York, and First National Bank of Cincinnati. Tax free in Ohio.

Capitalization	Authorized	Outstanding
7% cumulative first preferred stock	\$600,000	\$557,000
7% cumulative second preferred stock	500,000	348,800
Common stock (no par value)	200,000 shs.	197,550 shs.

Data from Letter of A. G. Stouder, President of the Company.

Company.—In successful operation for more than 30 years, developed the first electric coffee mill, later entering into the manufacture of electric meat chopping, mixing and food cutting machines. It is the largest manufacturer of such equipment and has over 300,000 machines in use. Hobart products are standard equipment in the principal chain grocery stores, markets, commercial kitchens, confectioneries, bakeries and other basic food industries.

The company has acquired recently the business and patents of the Crescent Washing Machine Co., New Rochelle, N. Y., manufacturers of dish washing and metal washing machines for commercial kitchens and industrial companies. The Crescent company serves the same general trade and occupies the same relative position in its field as that of the Hobart company. Branch offices or selling agencies are maintained in many of the larger cities of the United States and the company is represented through subsidiary companies and agencies in the principal foreign countries. The company's plant, located at Troy, O., is highly efficient and modern.

Dividends.—Company has paid cash dividends on its outstanding preferred and common stocks in every year for the past 20 years. It is expected that dividends will be inaugurated on the present common stock at the annual rate of \$2 per share.

Listing.—Application will be made to list this stock on the Cincinnati Stock Exchange and the New York Curb Market.

Earnings of Company and Its Proportion of Profits from Foreign Subsidiary Companies Available or Dividends.

Companies Available or Dividends:

[Incl. earnings of Crescent Washing Machines only for 1925 and 1926.]				
Net after Taxes. x Earned per Share.		Net after Taxes. x Earned per Share.		
1920---	\$491,154	\$2.17	1924---\$753,173	\$3.49
1921---	445,716	1.93	1925---939,357	4.43
1922---	676,744	3.10	1926 (2	
1923---	709,558	3.27	mos. est.) 870,000	4.08

x Of present common stock after present preferred dividends. Average earnings on the above basis for the past seven years were \$697.957, equal, after deducting present preferred dividends, to \$3 21 per share of common stock to be outstanding.

For the two-year period ended Dec. 31 1926, earnings on the same basis averaged \$904,678, equal to over \$4 25 per share of common stock after preferred dividends.

The above earnings give effect to all charges, including depreciation and Federal income taxes, but do not deduct royalties paid on Crescent patents now owned.

* Sanderson & Porter as of Nov. 1 1926 appraised the land, building and machinery of the company located at Troy, O., at a depreciated value of \$1,477,966, as compared with value of \$825,798 carried on the company's books.—V. 123, p. 3191.

Honomu Sugar Co.—Extra Dividend.—

The company on Dec. 15 paid an extra dividend of 80c. per share in addition to the regular monthly dividend of 15c. per share.—V. 120, p. 2155.

Housing & Realty Improvement Co. (Wohnhaus-Grundstücks-Verwertungs A. G. am Lehniner Platz), Berlin, Germany.—Bonds Sold.—J. & W. Seligman & Co., E. H. Rollins & Sons and the Foreign Trade Securities

Co., Ltd., New York, have sold at 98 and int., to yield about 7.19%, \$1,500,000 1st mtge. 20-year sinking fund 7% gold bonds.

Dated Nov. 15 1926, due Nov. 15 1946. Int. payable M. & N. Denom. \$1,000 and \$500 c*. Prin. and int. payable in N. Y. City at the office of J. & W. Seligman & Co., fiscal agents, in United States gold coin of the present standard of weight and fineness, without deduction for any German taxes, and payable in time of war as well as in time of peace, irrespective of the residence or nationality of the holder. Guaranty Trust Co. of New York, trustee; Dresdner Bank, Berlin, German trustee.

Sinking Fund.—Cumulative sinking fund beginning May 15 1927 sufficient to redeem the entire issue by maturity through semi-annual drawings at par and int. In lieu of sinking fund payments the company may deliver, at par, outstanding bonds of this issue. Not redeemable except for the sinking fund before Nov. 15 1929; redeemable on Nov. 15 1929 and any int. date thereafter to and incl. May 15 1931, at 110; thereafter to and incl. May 15 1934 at 103; thereafter to and incl. May 15 1936 at 102; thereafter to maturity at 100, in each case with accrued interest.

The following information has been taken from a letter of Dr. Bernhard Francke, Managing Director of the company, to the bankers:

Property.—Company was organized for the purpose of erecting and operating on an entire city block in Berlin 23 apartment houses containing one, two, three and four room apartments, greatly needed because of the housing shortage there. The land is located on Kurfurstendamm, which is the main avenue of traffic in the western section of the city, served by subways, surface cars and bus lines, and traversing the centre of the residential district. The site contains 363,000 sq. ft. with a frontage of 368 ft. on Kurfurstendamm, and is the only vacant block of land in this neighborhood. The buildings will be placed on it in the form of a hollow square, with stores, a cafe with ballroom, and a restaurant accommodating 1,500 people facing the avenue Kurfurstendamm, and with apartment houses having a total of 973 rooms on the other three sides. Facilities for sports and other recreations will be located within the block.

Security.—These bonds, in the opinion of counsel, will be secured, on the completion of this financing, by a closed first mortgage on the four parcels of land comprising the site, on the lease thereof and on the buildings to be erected thereon. The land is owned in fee by Felicia Lachmann-Mosse, owner and publisher of the "Berliner Tageblatt," one of Germany's leading newspapers and she has leased each parcel to a separate subsidiary of the borrower for a term expiring after the maturity of the bonds.

A mortgage will be executed by Felicia Lachmann-Mosse and by each of said subsidiaries and will be registered in gold marks under the German stable value mortgage law, on the two most important parcels and leases thereof for an amount equivalent to 10% in excess of the entire principal amount of the bonds and on the other two parcels and the leases thereof for smaller amounts. There will also be pledged pursuant to the trust agreement, as further security, the stock of each of these lessee subsidiary companies.

Valuation.—The insurance companies before agreeing to insure the payment of these bonds appraised the land at \$2,272,619. The cost of the buildings is estimated at \$1,904,762, making the total valuation of the land and buildings \$4,177,381. This loan represents only 36% of the total valuation of the land and buildings upon completion. There will be second mortgages held by the city of Berlin aggregating approximately \$430,000, running for 50 years, on the two largest parcels and on the leases thereof.

Insurance Companies' Obligation.—The payment of the interest, sinking fund and principal at maturity is insured, jointly and severally, by German insurance companies, among which are the Allianz Insurance Co., founded in 1890, whose resources alone exceed \$30, 00,000, and the Munchener Reinsurance Co., founded in 1880.

Earnings.—The net rental income based upon a conservative rental schedule and after making allowance for vacancies, maintenance and operating charges, including taxes, insurance, depreciation, &c., is estimated at \$320,000 per annum, or over three times the annual interest charges on this loan. Company's earnings, and the land and buildings, are not subject to any charges under the Dawes plan.

Purpose of Issue.—The proceeds from the sale of these bonds will, by agreement between the insurance companies and the borrower, be deposited with the Dresdner Bank, Berlin, and be disbursed for the construction and development of the properties and to the payment of the existing mortgages thereon.

[All conversions from German to United States currency have been made at the rate of 4.20 marks to the dollar.]

International Combustion Engineering Corp.—Listing.

The New York Stock Exchange has authorized the listing of 32,307 additional shares of capital stock without par value, on official notice of issuance and payment in full, with authority to add 2,650 shares on official notice of issuance in exchange for shares of the Schumaker-Santry Co., making the total amount applied for 681,529 shares of capital stock without par value. All of the stock is or will be when issued fully paid and non-assessable with no personal liability attaching to stockholders.

The 32,307 shares of stock was offered to stockholders of record Dec. 2 1926 for subscription at \$47 per share, on the basis of one share for each 20 shares held. Rights to subscribe expired Dec. 22.

Sir Harry McGowan, K.B.E., President and Deputy Chairman of Imperial Chemical Industries, Ltd., and Chairman and Managing Director of Nobel Industries, Ltd., has been elected a director. A committee on foreign business of the corporation has been formed, composed of George E. Leonard, President; George R. T. Taylor, Managing Director of International Combustion, Ltd., and Sir Harry McGowan. At a meeting held by the International Combustion, Ltd., Sir Harry McGowan, B. E. Todhunter and Lt.-Col. G. B. Pollitt were elected directors. The Coal Oil Extraction, Ltd., which is the affiliated company for handling low temperature distillation of coal throughout the British Empire, also held its meeting and the following were elected the new board of directors: George R. T. Taylor, Sir Harry McGowan, B. E. Todhunter, Lt.-Col. G. B. Pollitt, George E. Leonard, B. H. Binder and Samuel McEwen.

The Imperial Chemical Industries, Ltd., is the recently formed large combination in England, headed by Sir Alfred Mond and Sir Harry McGowan, and among the other important directors are Lord Reading, Lord Ashfield, Sir Josiah Stamp, H. J. Mitchell, B. E. Todhunter, Lt.-Col. G. P. Pollitt, J. B. Nicholson, G. C. Clayton, Sir Max Muspratt and Henry Mond. This is a combination of Brunner Mond & Co., Nobel Industries, Ltd., United Alkali and British Dye-Staffs Corp.

It is understood these new interests will take a very active part in the business affairs of International Combustion, Ltd., throughout the British Empire.—V. 123, p. 2785.

International Mart (Industrial Exchange Building Co.), Los Angeles.—Bonds Offered.—California Co., Alvin H. Frank & Co. and Drake, Riley & Thomas, Los Angeles, are offering at 100 and int. \$525,000 1st (closed) mtge. 6 1/2% 6 1/2% serial gold bonds.

Dated Nov. 1 1926; due annually commencing Nov. 1 1929. Denom. \$1,000 and \$500 c*. Prin. and int. (M. & N.) payable at Merchants National Trust & Savings Bank, Los Angeles, trustee. Normal Federal income tax not to exceed 2% paid by company. Callable on any int. date, all or part, on 60 days' notice at 104 if called for red. prior to Nov. 1 1931; thereafter but on or before Nov. 1 1936 at 103; thereafter at 101. Exempt from California personal property taxes. Application has been made to the Supt. of Banks to certify this issue as a legal investment for savings banks in California.

Building, &c.—The property mortgaged (freehold) is the northeast corner of Hill St. and Washington Boulevard, Los Angeles, having a frontage of 120 ft. on Hill St. by 150 ft. on Washington Boul. The average of several conservative appraisals of the land places a value of \$339,250 thereon. The building to be erected on this property is to be a Class A reinforced concrete height limit building with full basement. The building will occupy all of the above described property except the most southerly 20 feet. It is to be of loft type and has been specially designed for the most effective display of permanent exhibits of manufactured articles and other merchandise. This building is now being constructed at a cost, including carrying charges, of approximately \$706,190.

Earnings.—From the number of applications for space already received, the management expects, prior to the completion of the building, to lease the available floor space at most favorable terms. The rates asked compare favorably with the rentals secured in similar buildings in other cities.

The net earnings applicable to principal and interest requirements are estimated at over 8 times the maximum interest requirements and over 4 times the maximum principal and interest requirement.

Island Creek Coal Co.—To Buy in Preferred Stock.—

The directors have given authority to President T. B. Davis to purchase for retirement 10,000 shares of the (approximate) outstanding 50,000 shares of preferred stock. No set price was fixed but some years ago the stockholders voted permission to the management to buy in for the treasury account its preferred stock at any price up to \$105 a share. The preferred stock is non-callable and is entitled to \$120 a share in the event of dissolution or liquidation.—V. 123, p. 3192.

—V. 123, p. 2910, 2400.

Johns-Manville Inc.—To Reincorporate and Readjust Cap.

The stockholders will vote Dec. 28 on a proposed plan of reorganization. It is proposed that the present company sell all its assets to a new corporation to be formed in New York under the name of Johns-Manville Corp., to have an authorized capital of 100,000 shares of 7% cumulative preferred, stock of \$100 par value and 750,000 shares of no-par value common stock. Upon this transfer it is proposed that each stockholder, upon surrender of his stock in the old corporation, be entitled to receive from the new corporation for each share of Johns-Manville, Inc., 3-10ths of a share of 7% cumulative preferred stock and 3 shares of no-par value common stock. The company at present has only one class of stock.

H. E. Manville, President of the company, in announcing the reorganization explained that no change in the management of the company was contemplated. "Notice was sent to stockholders of Johns-Manville, Inc., on Dec. 17," his announcement read, "that a meeting would be held to pass upon a plan of reorganization. When that plan is adopted any holder of 10 shares of Johns-Manville, Inc., will receive in the stock of the new corporation which will take over its assets \$300 par value of new preferred and 30 shares of no-par common stock."

"Fractional shares of preferred stock will not be issued, but warrants will be issued which, when combined with other fractional warrants, will entitle the holder to three full shares of preferred stock. Arrangements have been made by which stockholders may sell fractional warrants at not less than \$30 for three-tenths of a share."

"The new preferred stock will provide for cumulative dividends at the rate of 7% a year, payable quarterly, and the stock will be redeemable at \$120 a share plus accrued and unpaid dividends."

Morgan Buys Stock in Johns-Manville.—

The New York "Times" Dec. 22 says: J. P. Morgan & Co. have acquired an important stock interest in the Johns-Manville Corp. The firm has purchased all the preferred stock which H. E. Manville, President of the company, will receive as a result of the stock split-up involved in the present reorganization of Johns-Manville, Inc. It is reported that the Morgan firm, through this acquisition, had invested close to \$7,500,000 in the business.

The admission of the Morgan banking house into partnership in the Johns-Manville enterprise has special significance because it represents a diffusion of ownership in a company which has long been a family gold mine and which has always been closely held by the families of its founders or their descendants.

Mr. Manville confirmed yesterday the fact that he had sold his preferred stock to Morgan & Co., but declined to reveal the amount involved. He explained that the proposed financing does not involve any change in the management. Mr. Manville controls the company by his ownership of a large majority of the voting stock and he will continue to be the guiding influence.—V. 123, p. 3044.

(Rudolph) Karstadt, Inc. (Rudolph Karstadt Aktien-gesellschaft), Hamburg, Germany.—Rights to Subscribe.—

The company, in an advertisement, says in substance:

Pursuant to corporate action duly taken at a meeting of the stockholders held on Dec. 20 (1) the capital stock of the company has been increased from 34 million reichsmarks par value of common stock to 51 million reichsmarks par value of common stock, (2) the 17 million reichsmarks par value of new shares have been taken over by a banking syndicate, and (3) the holders of the existing shares of common stock have been invited to participate in rights to subscribe for said 17 million reichsmarks par value of new shares. The new shares will participate in any dividend declared for the fiscal year beginning Feb. 1 1927.

The holder of each 200 reichsmarks par value of existing shares will be entitled to subscribe for 100 reichsmarks par value of new shares—at the price of 125% of the par value thereof plus the German Stock Exchange Turnover Tax (which is calculated, for bankers and brokers, at the rate of 0.0375 reichsmarks for each 100 reichsmarks or fraction thereof of the subscription price of the new shares, and for others, at the rate of 0.075 reichsmarks therefor). The subscription agents mentioned below have been authorized to accept, in payment of subscription prices, approved bankers' sight drafts on Berlin or Hamburg, payable to their order, and are prepared to sell subscribers the necessary exchange.

Application to exercise subscription rights must be made at any time from Dec. 24 1926 to Jan. 27 1927, both incl. at the office of any subscription agent of the company. The subscription agents in the United States are International Acceptance Bank, Inc., 52 Cedar St., N. Y. City, and American Exchange Irving Trust Co., 60 Broadway, N. Y. City.

In order to enable small shareholders holding less than 200 reichsmarks par value of existing shares to participate in rights to subscribe, certain large shareholders have declared themselves ready to sell to such small shareholders, existing shares (if available) of the par value of 40 reichsmarks per share, at the price of 125% of the par value thereof plus the Turnover Tax—in the ratio of one share of 40 reichsmarks par value for each 80 reichsmarks par value of shares held by such small shareholders. Thereupon, such large shareholders will become entitled to exercise the subscription rights with respect to the shares held by the small shareholders.

Scholle Brothers, 5 Nassau St., N. Y. City, will endeavor to fill orders for the purchase and sale of rights to subscribe.—V. 123, p. 2662.

(Julius) Kayser & Co.—Common Stock Placed on a \$4

Annual Dividend Basis.—The directors have declared a quarterly dividend of \$1 per share on the outstanding 115,700 shares of common stock, no par value, payable Feb. 1 to holders of record Jan. 17. From Nov. 2 1925 to Nov. 1 1926, incl., quarterly dividends of 75 cents per share were paid on this issue.

Granted License to Manufacture Pointed Heel Hosiery.—

See Gotham Hosiery Co., Inc., above.—V. 123, p. 837.

Kelley Island Lime & Transport Co.—Extra Dividend.—

The directors have declared an extra dividend of 2% in addition to the regular quarterly dividend of 2%, both payable Jan. 2 to holders of record Dec. 22. An extra distribution of like amount was made on Jan. 2 of this year.—V. 121, p. 3139.

Kelvinator Corp.—New Vice-President.—

C. W. Matheson has been elected Vice-President and Director of Kelvinator sales.—V. 122, p. 1463.

Klots Throwing Co. (& Subs.).—Consolidation &

Readjustment Plan.—A plan for the readjustment of the capitalization of the company has been prepared and is being submitted to the holders of the 7% prior preference stocks for their approval. President Marcus Frieder in a letter says:

The plan was submitted on Aug. 10 1926 to the holders of the 8% preferred stock. As the full assent of these 8% stockholders was essential to carry out the plan, it was decided that it would not be submitted to the holders of senior securities until the junior preferred issues had accorded it practically unanimous assent. It is gratifying that approximately 99% of the 8% preferred stock has been deposited.

The treatment accorded to the holders of both issues of prior preference 7% stock is such as should secure their unanimous assent. As soon as the plan is consummated it is the intention of the management to make application to list the new issues on the New York Stock Exchange. The committee named in the plan and the officers of the company believe it to be

for the best interests of the holders of series A and series B stock, and recommend the prompt assent of such holders.

Stock should be deposited with Bankers Trust Co., the depository, 16 Wall St., N. Y. City.

The plan (which will be given fully another week) provides for the consolidation of the parent company and its seven subsidiaries. Present security holders are to be treated as follows:

The holders of \$1,844,908 prior preference 7%, series A, stock of the present company will receive 110% of the face value in first preferred stock of the new company and the holders of \$3,058,873 prior preference 7%, series B, stock of the present company will receive 100% of the face value in first preferred stock of the new company, bearing dividends cumulative from Jan. 1 1927. The accumulated dividends to Jan. 1 1927 on prior preference, series B, stock will be paid in cash.

The holders of the preferred 8% stock and the sinking fund redemption 8% preferred stock of the present company will receive 150% of the face value of the stock in participating preferred stock of the new company, the 50% in addition to par being in lieu of accrued dividends to Jan. 1 1927.

Holders of the outstanding 10,000 shares of common stock of the present company will receive 200,000 shares of non-voting common stock and 100,000 shares of class A common stock of the new company, all without par value.—V. 120, p. 2950.

Lago Oil & Transport Corporation.—Time Extended.—

An extension of time until the close of business Dec. 31 1926, within which deposits of Lago stock will be accepted in exchange for class B stock of the Pan American Petroleum & Transport Co. on the basis of three shares of Lago stock for one share of Pan American class B stock has been announced by F. H. Wickett, President and Chairman of the Board of the Pan American company.

Mr. Wickett states that over 1,500,000 shares of the outstanding Lago stock have already been exchanged under the offer and that the Pan American company now owns over 3,500,000 shares of the total 4,000,000 shares of Lago stock outstanding. The Chase National Bank of the City of New York and Blair & Co., Inc., are depositories for the receipt of Lago stock in New York, and Blair & Co., London, Ltd., is the depository in London.—V. 123, p. 3045.

Lake Erie Bolt & Nut Co.—Initial Dividend.—

The directors have declared an initial quarterly dividend of 25 cents per share on the common stock, no par value, payable Dec. 31 to holders of record Dec. 21.—V. 122, p. 2956.

Lehigh Valley Coal Co.—Extra Dividend.—

The directors have declared an extra dividend of 25 cents per share in addition to the regular semi-annual dividend of \$1 25 per share, both payable Feb. 1 to holders of record Jan. 8. During the present year, the company paid a total of \$1.25 per share in dividends, while in 1925, a total of \$2 50 per share was paid.—V. 122, p. 3612.

Leonhard Tietz Aktien-Gesellschaft, Germany.—

Engraved Coupon Bonds Ready.—

Lehman Brothers announce to holders of interim receipts for the \$3,000, 000 20-year 7½% mtge. gold bonds that engraved coupon bonds of that issue with stock purchase warrants attached are now ready for delivery in exchange for the interim receipts at the Corn Exchange Bank, 13 William St., N. Y. C. (For offering, see V. 122, p. 620).—V. 123, p. 720.

Long Bell Lumber Co.—Notes Offered.—

Halsey, Stuart & Co., Inc., E. H. Rollins & Sons, Hallgarten & Co. and W. A. Harriman & Co., Inc., are offering at 98 and int., to yield about 6½%, \$3,250,000 convertible 5-year 6% collateral gold notes.

Dated Dec. 1 1926, due Dec. 1 1931. Int. payable J. & D. at offices of Halsey, Stuart & Co., in Chicago and New York, without deduction for Federal income taxes not in excess of 2%. Denom. \$1,000, \$500 and \$100. Red. all or part at any time upon 45 days' notice at following prices and int: prior to Dec. 1 1927 at 102; on and after Dec. 1 1927 to Dec. 1 1928 at 101½; on and after Dec. 1 1928 to Dec. 1 1929 at 101; on and after Dec. 1 1929 to Dec. 1 1930 at 100½; and on and subsequent to Dec. 1 1930 at 100. Company will reimburse the holders of these notes, if requested within 60 days after payment, for the Penn., Conn. and Calif. 4 mills and Maryland 4½ mills taxes, for the District of Columbia personal property taxes not exceeding 5 mills per dollar per annum, and for the Mass. income tax on the interest on these notes not exceeding 6% of such interest per annum.

Convertible.—Notes will be convertible at the option of the holder at any time until 15 days prior to maturity into the first mortgage 6% gold bonds, series A, of the Longview, Portland & Northern Ry. (issuance authorized by the U. S. C. Commission) except in event of redemption the conversion privilege must be exercised at least 15 days prior to date fixed in call for redemption. The difference between the conversion price and 100, will be paid by the company in cash to the holder at the time of conversion, accrued int. to be adjusted. For each note converted of a denom. of \$100 or multiple thereof, the holder will receive a like principal amount in pledged bonds at the following prices:

	Conversion Price.	Approx. Yield to Maturity (July 1 1945).
On & after Dec. 1 1926 to & incl. Nov. 30 1927 at	94½	6½%

On & after Dec. 1 1929 to & incl. Nov. 30 1930 at	96½	6½%
On & after Dec. 1 1930 to & incl. Nov. 15 1931 at	97½	6½%

Data From Letter of Chairman R. A. Long, Kansas City, Dec. 17.

Company.—The business was founded in 1875. Company is believed to be the largest lumber manufacturer and distributor in the world under a single ownership. The business is a complete industrial unit, comprising the ownership of raw material which it manufactures, wholesales and retails, the forest products distributed being widely diversified. The present financing completes the company's major financial program.

Security.—The notes will be a direct obligation of the company, and in addition will be specifically secured by pledge with the trustee of a like principal amount of 1st mtge. 6% gold bonds, series A, of its subsidiary, the Longview, Portland & Northern Ry. The Long Bell Lumber Co. owns the \$1,250,000 outstanding capital stock of the Railway company for which it has paid in cash at par.

Control.—Approximately 99% of the capital stock of the company is owned by the Long Bell Lumber Corp.

Consolidated Capitalization (Long Bell Lumber Corp. & Subs.) as at Oct. 31 1926.

	Authorized.	Outstanding.
Class A common stock (no par value)	750,000 shs.	593,921 shs.
Class B common stock (no par value)	550,000 shs.	542,569 shs.
Long Bell Lumber Co. 1st mtge. 6s	\$30,000,000	\$25,547,100
do Conv. 5-yr. 6% coll. gold notes (this issue)	(closed)	3,250,000
do Timber, land, plant purch. obligations, long term notes, &c.	(closed)	\$11,501,510

a Of the \$25,547,100 1st mtge. bonds to be outstanding in the hands of the public, \$9,327,100 are series A, due July 1 1942, \$8,220,000 are series B, due April 1 1943, and \$8,000,000 series C, due Aug. 1 1946. In addition there are \$611,200 series B treasury bonds pledged as collateral on timber purchase indebtedness, which indebtedness is included above. First mortgage bonds amounting to \$1,841,100 have been retired through the sinking fund. b Partly secured by liens, collateral, &c.

Purpose of Issue.—The proceeds of these notes will be used to reimburse the company for advances heretofore made to its subsidiary, the Longview, Portland & Northern Ry., in connection with its acquisition of right-of-way, completion of present line, and for other capital expenditures.

Railway Company.—Longview Portland & Northern Ry. is a Washington corporation owning and operating a railroad as a common carrier. The line extends from its connection with the three transcontinental trunk lines—Northern Pacific, Union Pacific and Great Northern, through the city of Longview, to Ryderwood, Wash. It affords the only practical

means of transporting the logs from the Long Bell Lumber Co.'s vast timber holdings centring at Rydewood to its mills and handling facilities at Longview. As an originating freight road the railroad enjoys on a large tonnage a favorable division of revenue with the lines mentioned. In addition to tapping one of the finest timber tracts of Douglas fir on the North Pacific Coast, the line opens up a rich agricultural territory and affords transportation facilities for the Pacific Northwest through the well equipped port of Longview, via the Columbia River and Pacific Ocean to the ports of the world.

The actual cost of building and equipping the railroad was over \$5,000,000
Consolidated Earnings of the Long Oell Lumber Co. (and Subsidiaries).

Mansfield Mining & Smelting Co.—Definitive Bonds.—

Brown Brothers & Co. announce that temporary receipts of the Mansfield Mining & Smelting Co. 15-year 7% sinking fund gold bonds may be exchanged for definitive certificates at the New York Trust Co. on Dec. 31. (See also V. 122, p. 2957.)—V. 123, p. 3045.

Marine Mortgage Co., Inc.—Notes Offered.—

Marine Bank & Trust Co., New Orleans, recently offered \$100,000 1st mtge. collateral trust 6% gold notes, series A 1926, at prices to yield from 5¼% to 6%, according to maturity.

Dated Nov. 1 1926; due serially, Nov. 1 1927-37 incl. Denom. \$1,000 and \$500c*. Principal and int. (M. & N.) payable at Marine Bank & Trust Co., New Orleans, La. Callable on any int. date upon 60 days' notice at 101 and int. Marine Bank & Trust Co., New Orleans, La., trustee.

These notes are the direct and unconditional obligation of the Marine Mortgage Co., Inc., and in addition are secured ratably and without preference by the assignment to the trustee of first mortgages on improved city real estate. Such mortgages will in no case exceed 60% of the appraised value of the property as determined by the company's appraisers, and the average amount of the mortgages pledged as security for this particular series of notes is considerably below that figure. The face value of the mortgage notes deposited with the trustee will at all times equal 100% of the outstanding collateral trust gold notes.

Marmon Motor Car Co.—To Increase Facilities.—

Greatly increased manufacturing facilities for the Little Marmon are to be put into effect immediately, announces President G. N. Williams. Remarkable trade interest, backed by a deluge of retail orders, caused the company's decision to increase the output of Marmon factories, according to Mr. Williams.

For its immediate needs the company has available the factory buildings formerly occupied by the milling machine business, recently sold to the Allis-Chalmers company. Removal of the equipment of the milling machinery plant to the home factory of the Allis-Chalmers company at

Milwaukee is almost completed, thus giving the Marmon Company sufficient factory space to greatly augment the capacity of Plant 3 where the Little Marmon is now being built.

Coincident with the announcement of the company's plans to increase its output comes word that shipments of the new straight eight began the week of Dec. 13.—V. 123, p. 3193.

May Department Stores Co.—Listing.—

The New York Stock Exchange has authorized the listing of \$26,000,000 common stock (par \$25) upon official notice of issuance in exchange for present outstanding common stock certificates of the par value of \$50 per share at the ratio of 2 for 1; with authority to add \$1,400,000 on official notice of issuance to employees and payment in full, and on or after April 5 1927 \$2,600,000, on official notice of issuance to stockholders and payment in full, making the total amount applied for \$30,000,000.

The directors passed a resolution on Nov. 4 1926 providing that (a) 1,040,000 shares of common stock, par \$25, shall be issued on or after Dec. 23 1926 to common stockholders of record in exchange for the shares of common stock held by them in the proportion of two shares of the new common stock for each share of the old common stock then held, and that the remainder of the authorized common stock, consisting of 160,000 shares, shall be set aside and remain unissued except under the following circumstances: (1) 104,000 shares thereof to be offered to the holders of common stock of record April 5 1927 for their subscription at \$55 per share, each holder of common stock of record on said date to be entitled to subscribe for an amount thereof equal to one-tenth of a share for each share of such new common stock then held. Subscription rights expire on April 26 1927.

(2) 56,000 shares thereof to be available in whole or in part for sale to such employees of the corporation or of any of its subsidiary or affiliated corporations, at such time or times, in such amounts, at such prices, but not less than \$55 a share, and under such terms as the board of directors shall determine.

The proceeds from the sale of the new common stock to stockholders and employees is to be used for redemption of the preferred stock, which is redeemable at \$125 per share and accrued dividend. Said preferred is callable April 1 1927. Any stock not subscribed for by stockholders has been underwritten.

Consolidated Income Statement 9 Months Ended Oct. 31 1926.

Net sales	\$71,453,745
Cost of goods sold, selling, oper. & general admin. expenses	65,644,703

Allowance for Federal taxes	770,471
Net income	\$4,936,725

—V. 123, p. 2786.

Middle States Oil Corp.—Status, &c.—

The stockholders' protective committee has issued a letter to stockholders, dated Dec. 18 1926, stating that very substantial progress has been made in the affairs of the company.

Among other things, the committee states that Government tax claims of over \$3,000,000 have been eliminated and that several of the subsidiary companies have been discharged from ancillary receiverships.

The letter also states that the receivers have taken active measures to maintain the production of oil and that recently they were offered a very substantial amount for a half interest in certain property which was heretofore considered of nominal value.

The letter further says that the receivers are now drilling 9 wells on this particular piece of property and that if any one of them comes in at the average rate of other new producing wells in that neighborhood, the entire present production of the Middle States Oil Corp. and its subsidiaries will be doubled.

The committee asks the stockholders not to be disturbed by the efforts of Robert Wilson Jackson, formerly a member of the committee, who has issued letters asking for proxies running to him personally.

The committee again requests that stockholders deposit their stock with Empire Trust Co., New York, depository for the committee, and asks stockholders not to assist Mr. Jackson or any one else in introducing themselves into the company's affairs for their personal interest.—V. 122, p. 2528.

Moon Motor Car Co.—To Erect New Building.—

The company announces that in anticipation of an unusually large volume of winter and spring business based upon the success of the Moon Six-Sixty line since its appearance in August and upon the sales record established by the Diana Eight during the past year, it has just begun the erection of a large building in St. Louis to be used as an annex to its present final test division. With the new facilities, a much larger number of dealers will be in position to take advantage of the big saving in freight by driving their cars from the factory.

The new building will be 150 feet long and 50 feet wide, having a floor area of approximately 7,000 square feet and will be of the latest Monitor type construction. It is a daylight plant, being well lighted and ventilated, approximately 50% of each wall being glass. The new building will be a duplicate in design and construction of the present final test division building.—V. 123, p. 3193.

Moore Drop Forging Co.—Annual Report.—

Years Ended Oct. 31—	1926.	1925.

Mount Royal Hotel Co., Ltd.—Plan of Readjustment.—

The stockholders on Dec. 20 approved a plan of readjustment which provides for:

(a) A change of the dividend rate of the cumulative preference shares from 8% to 6% per annum.

(b) Fixing the price at which preferred shares may be redeemed at 105 and dividends, instead of 110 and dividends.

(c) The creation and issue of scrip dividend certificates of an aggregate amount not exceeding \$1,706,425 (being on the basis of \$25 for each share o

outstanding preference stock, and each \$100 of the outstanding convertible debentures); carrying no interest and payable only out of the surplus earnings after meeting the requirements of the preference stock, such scrip dividend certificate to be paid at the rate of 5% of the amount thereof in each year, commencing in the year 1930, and to the extent that surplus earnings are available for this purpose, and if such surplus earnings in any year are insufficient to redeem such 5%, the deficit in any year shall be cumulative and shall be paid out of the first cumulative surplus earnings available thereafter. It being further provided that no dividends shall be paid on the common stock while there are any accrued arrears in respect of the annual distributions on the scrip dividend certificates.

(d) The payment and delivery to the holders of preference shares and convertible debentures of \$3 in cash (less any amount previously paid by way of preferred dividends) and of scrip dividend certificates of a face value of \$25 in respect of each preference share or \$100 of convertible debentures held by them, the whole as representing and replacing their rights to all arrears of dividends on the preference shares up to Jan. 1 1927.

(e) The delivery to the holders of preference shares and convertible debentures of one share of common stock in respect of each 10 shares of preference stock or \$1,000 of debentures held by them (such common shares to be made available to the company for this purpose by one or more holders thereof who have consented to do so). See also V. 123, p. 3046.

Payment of Part of Arrears Authorized.—The payment of \$3 per share as part of arrears of \$28 per share in dividends on the preferred stock has been declared payable Jan. 5 to holders of record Dec. 27. Regular dividends of \$1.50 quarterly on the preferred stock will be inaugurated April 1 1927. Compare V. 123, p. 3046.

Moynahan Properties Co., Indianapolis.—Pref. Stock Offered.—Fletcher American Co., Indianapolis, is offering at 100 and div. \$835,000 6½% cum. pref. tax exempt stock.

Dated Jan. 1 1927; due Jan. 1 1942. Exempt in Indiana from all State, county and municipal taxes (except inheritance and estate taxes) and the income exempt from normal Federal income tax. Red. on 30 days' notice at any div. date up to and incl. Jan. 1 1939 at 102, and thereafter to maturity at par and divs. Divs. payable Q.-J. An annual sinking fund, effective Jan. 1 1927, is calculated to retire, through purchase, or through redemption by lot, not less than 46% of the pref. stock prior to maturity. Fletcher American Co., Indianapolis, registrar and transfer agent.

Capitalization.—Authorized. Outstanding.
Mortgages to insurance companies (issued in 1924) \$996,000 \$953,160
Preferred stock (cumulative) 835,000 835,000
Common stock 420,000 420,000

Data from Letter of Thomas A. Moynahan, President of Company.

Company.—Incorp. in Indiana. Has been organized to own and operate 22 modern apartment house properties having a proven successful record of occupancy and profitable operation. These properties contain a total of 614 apartments, 4 store rooms, 1 neighborhood theatre room and 25 garages. The 22 properties are unusually well diversified as to location and type in 8 distinct sections of Indianapolis ranging northward from Washington St. Several of them are within easy walking distance of the business section of the city and comprise small apartments of a type for which demand is most stable. The properties are well built and well maintained and are designed for moderate rentals.

Present rentals range from \$18.50 to \$130 per month per apartment and average \$42 per month per apartment. At the present time only 8 apartments, comprising only 1.35% of the rental schedules of the 22 properties, are vacant as compared with a generally accepted 10% vacancy expectancy on apartment houses.

Security.—The properties being acquired were independently appraised as of Aug. 18 1924 as having a present net valuation of \$2,519,667. After deducting the mortgage indebtedness the present valuation of property, as given above, securing the \$835,000 of pref. stock, is, therefore, \$1,566,507.

Earnings.—Actual earnings of the combined properties, adjusted to give effect to taxes, insurance and administration expense, effective Jan. 1 1927, have been as follows for the calendar years ended Dec. 31:

	1924.	1925.
Gross rental income	\$312,753	\$295,573
Oper. exp., insur., local taxes, maintenance	127,318	124,213
Net earnings	\$185,435	\$171,360

(A. I.) Namm & Son, Brooklyn, N. Y.—Listing.

—V. 120, p. 1890.

National Fabric & Finishing Co.—Annual Report.

President Sidney Coolidge says in substance: During the last year the textile industry has had to contend with a constantly falling market. On Sept. 30 1926 we had a stock of merchandise of \$2,347,000 and advance sales of \$2,063,000. The shrinkage of our surplus for the fiscal year ending Sept. 30 was \$434,000, being accounted for as follows: Operating loss, including shrinkage of inventory, \$363,000. Payment of pref. dividends, \$80,000; profit from the sale of capital assets less the cost of new capital and capital losses, \$9,000. The two factors which caused the operating loss were the markdown of inventory amounting to \$137,000 and a loss in the newly established drapery department of about \$225,000.

We have taken our inventory at full depreciation to market, notwithstanding the fact that approximately 80% of this inventory was sold and most of this has since been shipped at a profit above cost values. For the year ending Sept. 30 we about broke even in August and in September made a profit of \$53,000 before inventory adjustments. The losses in the drapery department since Aug. 1 have been comparatively small.

Beginning the fiscal year Oct. 1 we have set aside as a reserve the \$137,000 depreciation taken on our inventories of last year. October profits, based on cost of goods, were \$44,000. If the profits had been based on the depreciated value of goods they would have amounted to about \$90,000.

The \$225,000 loss in the drapery department calls for an explanation. In developing this department we acquired the business of Elms & Sellen, an old established firm. While we paid nothing for the good-will of this business, we assumed heavy expenses for which we were committed for the year ending Dec. 30 1926. The volume of sales on this business has been disappointing, but is increasing. A drastic cut in expenses will be made Jan. 1.

We were very willing to sell our stock in the bleachery at Griffin, Ga., as the plant was filled with the work of the mills which owned it jointly with us, and was not adapted to the finishing of our own goods. We received \$300,000 for our \$255,000 of common stock and \$50,000 for our \$50,000 of preferred.

Net current assets are \$54,000 more than a year ago on account of the issue of new stock and the sale of the Southern plant.

Consolidated Balance Sheet Sept. 30 1926.

Assets.		Liabilities.	
Plant and equipment	\$1,869,633	Preferred stock	\$1,181,700
Cash	265,833	Common stock	2,451,000
Accounts receivable	2,285,468	Notes payable	1,806,500
Notes receivable	47,685	Accounts payable	534,994
Merchandise inventory	2,347,062	Accrued liabilities	69,357

Deferred charges	88,926	Total (each side)	\$6,917,654

a After deducting \$100,254 reserve. b After deducting \$1,135,564 depreciation.—V. 121, p. 3140.

New England Enameling Co., Inc.—Temporary Receivers
Judge Edwin C. Dickenson of the Connecticut Superior Court at Middletown, Conn., appointed Dec. 13 Melvyn Gordon Lowenstein, of New York, and Seth Hadfield of Hartford, as temporary receivers.

Newmont Mining Corp.—5% Stock Dividend.

The directors have declared a 5% stock dividend, in addition to the regular quarterly cash dividend of 60c. a share, both payable Jan. 17 to holders of record Dec. 31.—V. 122, p. 3221.

New York Title & Mtge. Co.—1% Extra Dividend—Quarterly Distribution Increased.

The directors have declared an extra dividend of 1% in addition to a quarterly dividend of 5%, both payable Jan. 3 to holders of record Dec. 23. In previous quarters 4% regular and 1% extra were distributed. The company also paid a 5% stock dividend in April last.—V. 123, p. 2787.

New York Trap Rock Corp.—Bonds Offered.—William R. Compton Co., E. H. Rollins & Sons and McBee, Jones & Co. are offering at 98½ and int., to yield about 6.125%, \$6,500,000 1st (closed) mtge. 6% sinking fund gold bonds.

Dated Dec. 1 1926; due Dec. 1 1946. Principal and int. (J. & D.) payable at Chemical National Bank, New York, trustee. Red. on any int. date all or part on 30 days' notice at 105 and int. for first 10 years, thereafter at 105 and int. less ½% for each year or part thereof from Dec. 1 1936 to maturity. Interest payable without deduction for normal Federal income taxes up to 2%. Denom. \$1,000 and \$500 c*. Penn., Conn., Calif. or Kansas personal property tax not in excess of 4 mills, Maryland securities tax not in excess of 4½ mills, Kentucky or Dist. of Col. personal property tax not in excess of 5 mills, Michigan maximum tax not in excess of 5 mills, Virginia personal property tax not in excess of 5½ mills and Mass. income tax not to exceed 6% per annum refundable.

Data from Letter of Wilson P. Foss, Chairman of the Board.

Corporation.—Organized in New York in 1918. Through predecessor companies has been in the business of producing crushed stone for over 30 years. Corporation is acquiring the physical properties of the Tompkins Cove Stone Co. and will own 5 large-scale operating quarries located on the Hudson River, equipped with dock facilities for utilizing water transportation. Four of these quarries also have facilities for railroad loading. The business of the New York Trap Rock Corp. is unusually simple of operation, the raw material being converted into finished product which is delivered and sold in an average of less than 36 hours, thus eliminating the uncertainties and dangers of large inventories.

The operating plants have been extensively developed for the economical production of crushed stone. A large part of the past earnings of the corporation have been invested in plant extension and improvements. As a result of these improvements, the operations are largely mechanical, every advantage being taken of labor-saving machinery wherever possible. The property of the corporation will embrace 1,873 acres of quarry lands containing superior deposits of trap rock, dolomite and limestone, sufficient to supply raw material for at least 100 years.

Security.—These bonds will be secured by a closed first mortgage on all its fixed assets and those being acquired, including quarry lands, buildings, machinery, barges, equipment, &c. The J. G. White Engineering Corp. values the 5 operating properties and barges at \$16,630,000, which is in excess of \$2,500 for each \$1,000 bond of this issue.

Earnings.—The consolidated net income for the past three years of the corporation and the properties and business being acquired available for interest, but before depreciation, depletion and Federal taxes, as certified by Haskins & Sells, have been as follows: 1924, \$1,470,216; 1925, \$1,581,708; 1926 (Nov. and Dec. est.), \$1,824,948.

The \$1,625,624 average annual earnings for the above period are in excess of 4.1 times maximum annual interest requirements of this issue and in excess of 2.5 times combined maximum annual interest and minimum fixed sinking fund charges on this issue. Earnings available for interest for the year 1927 are estimated in excess of \$2,000,000.

Purpose.—Proceeds from this issue of bonds and from \$1,250,000 of 7% sinking fund gold debentures will be used to purchase the physical assets of the Tompkins Cove Stone Co. and the crushed stone business of the Calvin Tompkins Co. (selling company for Tompkins Cove Stone Co.), to retire the present funded indebtedness of the corporation and for general corporate purposes.

Listing.—It is expected that application will be made to list this issue on the New York Stock Exchange.

Capitalization upon Completion of Present Financing.

First mortgage 6% sinking fund gold bonds	\$6,500,000
7% sinking fund gold debentures	1,250,000
Cumulative 7% preferred stock (no par value)	20,000 shs.
Common stock (no par value)	180,000 shs.

Sinking Fund.—Indenture will provide for a sinking fund of \$250,000 a year for the first 10 years and \$300,000 a year for the second 10 years, payable semi-annually beginning June 1 1927, such payments to be augmented by an amount equal to 10% of the cash dividends paid at any time on the common stock. This sinking fund shall be available for the purchase of bonds in the open market at prices below the call price or for call of bonds by lot. The bonds shall be subject to call upon 30 days' notice at 105 and int. during the first 10 years and at ½ of 1% less for each year of the succeeding ten years.

Nobel Industries, Ltd.—Consolidation.

A dispatch from London states that the stockholders of the chemical firm of Brunner, Mond & Co., the Nobel Industries, the United Alkali Co. and the British Dyestuffs Corp., all members of the £65,000,000 chemical merger recently announced, have been invited to exchange their holdings into stock of the merger. Overseas stockholders in these amalgamated concerns were notified the offer will remain open until Jan. 15. It is probable some latitude will be allowed beyond this date, the dispatch further states.

See also International Combustion Engineering Corp. above.—V. 118, p. 2448.

North American Car Corp.—Equip. Trusts Offered.

Freeman & Co., New York, are offering at prices to yield from 4.80% to 5.15%, according to maturity, \$900,000 5% equip. trust gold certificates, series G. Principal and dividends unconditionally guaranteed by the North American Car Corp. Issued under the Philadelphia plan.

Corporation agrees to reimburse to the holders of these certificates the Pennsylvania State tax not to exceed four mills annually. American Exchange Irving Trust Co., New York, trustee. Date Jan. 1 1927; payable annually in serial installments of \$90,000 each from Jan. 1 1929 to Jan. 1 1938, both inclusive. Denom. \$1,000c*. Red. on any div. date all or part at 101 and divs., in accordance with the terms of the lease and agreement. Both principal and divs. are to be paid without deduction of normal Federal income tax not in excess of 2% per annum. Certificates and div. warrants (J. & J.) payable at the office of the trustee.

These certificates are to be secured through assignment to the trustee of title to the following equipment: 100 new palace poultry cars (60,000

lbs. capacity), 100 new steel underframe 40-ft. refrigerator cars (80,000 lbs. capacity), 100 rebuilt steel underframe refrigerator cars (60,000 lbs. capacity), and 200 all-steel 8,000-gal. tank cars. The above equipment has a valuation, as recently g...praised by the American Appraisal Co in excess of \$1,200,000, or more than 1.5 % of the face amount of the certificates to be issued.

Corporation recently acquired by purchase the controlling interest in Palace Poultry Car Co. and is building the above-mentioned 100 new live poultry cars to take care of greatly increasing business.

North American Car Co. commenced business in 1908, and on Feb. 1 1926 all of the assets owned by it were acquired by the North American Car Corp. Its business consists primarily in the ownership, operation and leasing of tank cars, refrigerator cars, and live poultry cars to railroads, meat packers, refrigerator companies, poultry shippers and other shippers of all kinds of perishable and liquid freight. The corporation owns 1,968 tank cars, 1,168 refrigerator cars (including the 100 new cars now being built) and controls and operates 200 live poultry cars, including the 100 now being built. In addition the corporation owns well equipped car-building and repairing shops at Chicago, Coffeyville, Kan., and West Tulsa, Okla., where repairs are made on its own cars and general car repairing is done for railroads and private car owners. Corporation also has oil storage facilities in Chicago and West Tulsa with a capacity of 8,400,000 gallons.

The company has never had an unprofitable year from the time of its organization in 1908. The net earnings of this and predecessor companies, not including subsidiaries, for the six years ending Dec. 31 1925, available for fixed charges, depreciation and Federal taxes were: 1920, \$295,557; 1921, \$213,160; 1922, \$258,230; 1923, \$440,398; 1924, \$378,729; 1925, \$509,076, and for the nine months ending Sept. 30 1926, \$382,352.

To Offer \$1,000,000 10-Year 6% Notes.—

New financing of the corporation in the form of an issue of \$1,000,000 10-year 6% convertible gold notes is being arranged and public offering of the issue is expected to be made before Jan. 1, according to Coffin, Forman & Co., Inc., bankers for the company.—V. 123, p. 1390.

Northwestern Iron Co.—Bonds Called.—

All of the remaining outstanding general mtge. 7% serial gold bonds, dated Feb. 1 1919, have been called for payment Feb. 1 1927 at 105 and int. at the Union Trust Co., Cleveland, O., or at the Guaranty Trust Co., N. Y. City. This does not include those bonds which by their terms fall due on Feb. 1, which bonds will be paid at par.—V. 109, p. 178.

Novadel Process Corp.—Initial Common Dividend.—

The directors have declared an initial special dividend of 62½c. a share on the common stock for the 7½ months' period ending Dec. 31 next, or at the rate of \$1 annually. The directors also declared the regular quarterly dividend of 50c. a share on the preferred stock. Both dividends are payable Jan. 3 to holders of record Dec. 27. Compare V. 122, p. 3463, 3352.

Ohio Oil & Gas Co.—Smaller Dividend.—

The directors have declared a dividend of 25 cents per share, payable Jan. 15, to holders of record Jan. 1. On Oct. 15 last, a dividend of 35 cents per share was paid, while in July last the company paid a dividend of 25 cents per share.—V. 123, p. 1641.

Otis Co., Boston.—May Not Move South.—

The company at an adjourned meeting held Dec. 21 decided to postpone the proposed removal of some of its plants to the South and the liquidation of other New England properties.

The special committee appointed as a result of action at the recent meeting of the stockholders of the company presented, at an adjourned meeting on Dec. 20, recommendations looking to the continuance of the company's plants in New England. The plants under discussion are at Ware, Palmer and Bondsville, Mass., and at Greenville and New Ipswich, N. H. Previous recommendations had called for the discontinuance of the manufacture of such products as seemed likely to be unprofitable and for the acquisition of a Southern plant to take the place of Northern plants to be abandoned. The plants at Ware and in New Hampshire were specifically mentioned as the ones which the company would cease to operate.

The committee includes Henry K. Hyde (President of the Ware Trust Co.), J. F. Hill (of Lee, Higginson & Co.) and W. D. Schuier (of the Old Colony Trust Co.). See also V. 123, p. 3047.

Otis Elevator Co.—25% Stock Dividend.—The directors on Dec. 21 declared a 25% stock dividend on the outstanding \$17,092,900 common stock, par \$50, payable Feb. 1 to holders of record Jan. 5. Previous stock distributions are 50% in 1921 and 10% in 1924.

The regular quarterly cash dividend of 3% was also declared on the common, payable Jan. 15 to holders of record Dec. 31.

C. A. Sanford has been elected Treasurer, succeeding R. H. Pepper.—V. 123, p. 2005.

Owens Bottle Co.—Listing.—

The New York Stock Exchange has authorized the listing on and after Jan. 1 of not to exceed \$868,925 additional common stock (par \$25) on official notice of issuance as a stock dividend, making the total amount applied for \$19,067,200.—V. 123, p. 3194.

Packard Motor Car Co.—Earnings.—

Earnings Quarter Ended Nov. 30 1926.	
Sales	\$20,887,205
Gross profits	\$4,626,735
Selling, general expenses, &c.	887,624
Federal taxes	462,028
Balance	\$3,277,083
Profit from branches and subsidiaries	558,392
Net profit	\$3,835,475

—V. 123, p. 2386.

Pan American Petroleum & Transport Co.—Extends Offer to Lago Oil & Transport Corporation—Call.—

See that corporation above. Certain 10-year conv. 6% s. f. gold bonds, due Nov. 1 1934, aggregating \$570,900, have been called for payment Feb. 1 at 103 and int. at the Chase National Bank, 57 Broadway, N. Y. City. The bonds called may be converted at any time up to and incl. the 30th day prior to redemption, at the option of the holders, into class "B" common stock.—V. 123, p. 3047.

Parke, Davis & Co.—Special Dividend of \$1.50.—

The directors have declared a special dividend of \$1.50 per share in addition to the regular quarterly dividend of 50 cents per share, both payable Jan. 3 to holders of record Dec. 20.—V. 122, p. 3095.

Parker-Young Co. (& Subs.).—Earnings.—

The company reports net addition to surplus for the year ended Aug. 31 1926 of \$217,658 which with a surplus Aug. 31 1925 of \$1,633,169, makes a total of \$1,850,828. Dividends paid on the preferred stock for the year amounted to \$242,083, leaving a profit and loss surplus of \$1,608,745 as of Aug. 31 1926.—V. 121, p. 2887.

Patino Mines & Enterprises Consolidated (Inc.).—Stock Sold.—Lehman Brothers, New York, have sold at \$25 per share 200,000 shares capital stock.

Transfer agents, Anglo-South American Trust Co., New York, and Old Colony Trust Co., Boston. Registrars, Chase National Bank, New York, and First National Bank, Boston.

Capitalization. Authorized. Outstanding. Capital stock (par \$20). 2,500,000 shs. 1,380,316 shs. Senior Don Simon I. Patino, President of the company, in his letter to the bankers describing the properties and history of the company says: Organization and Property.—Company was organized on July 5 1924 in Delaware for the purpose of acquiring the Uncia and Llallagua groups of tin mines, located in Bolivia. In addition, the company has purchased the

Machacamarc-Uncia Ry., connecting its plant with the main line of the Antofagasta (Chile) & Bolivia Ry., 57 miles distant.

The total area of mining properties held by the corporation at Dec. 31 1925 consisted of 78 claims with titles duly perfected, with an extension of 4,591 acres, and 8 claims with an extension of 668 acres, the titles to which are in course of being perfected. The corporation also holds surface rights for mills, dams, &c., under expropriations, extending to 1,770 acres, exclusive of franchise and surface rights for the corporation's railroad.

The total fine tin extracted from the mines of the combined properties during the last 9 months of 1924 was 10,284 long tons, the 2 properties having been consolidated as of April 1 of that year. For the year 1925 the production amounted to 10,039 long tons. For the 10 months ending Oct. 31 1926 production as reported by the Treasurer of the company was 8,733 long tons.

Earnings.—Price, Waterhouse & Co. advise that the earnings of Patino Mines & Enterprises Consolidated (Inc.), before charging depreciation and depletion, as shown by the accounts audited in Bolivia by Price, Waterhouse, Fuller & Co., but charging additional Bolivian profits taxes paid, to the years to which they were applicable, were as follows:

Earnings as Above. Per Share.	
9 months ended Dec. 31 1924	\$5,309,277 \$3.84
Year ended Dec. 31 1925	7,016,222 5.08

These figures are based on the method of inventory valuation adopted by the company. The inventory of concentrates on hand at April 1 1924 was liquidated for account of the predecessor companies. The company has since followed the practice of valuing the inventory of concentrates on hand at the end of each fiscal period at the estimated net selling price. The amounts in dollars above have been calculated at the annual average exchange rates published by U. S. Government departments, viz., \$4.42 in 1924 and \$4.83 in 1925.

For the 10 months ended Oct. 31 1926 the company's books show earnings, before charging depreciation and depletion, but after deducting allowance for Bolivian profits tax, of \$5,271,885 (converted from sterling at the rate of \$4 86).

Engineers' Report.—A thorough and exhaustive examination of the properties was completed by Yeatman & Berry, Consulting Mining Engineers, New York, early in 1926. The examination, which consumed about 6 months' time, involved the taking and assaying of over 22,000 samples. The estimated visible ore, which included only "positive" and "probable" bodies, as given in their report, amounted to a total of 1,061,000 tons before sorting, having a total tin content of 50,289 long tons. The General Manager has reported to the company that there is every reason to believe that the fine tin contents of new ore reserves developed during 1926 will be equal to the total tonnage of fine tin extracted from the mines during 1926.

Distributions on Shares.—For the 9 months ended Dec. 31 1924 the company made distributions on the stock aggregating £690,157, or \$3,219,481, equal to \$2.33 per share of stock now outstanding. For the year ended Dec. 31 1925 the company made distributions aggregating £897,205, or \$4,355,469, equal to \$3.15 per share; and for the first 10 months of the current year distributions aggregating £621,142, or \$3,015,161, equal to \$2.18 per share, have been paid. Conversions from pounds sterling have been made at the rate prevailing on the day on which the distributions were paid. These payments have been referred to as distributions rather than as dividends, in view of the fact that, since this is a mining company, they must be regarded partly as a return of capital and partly as dividends out of profits on the capital invested, depending upon the life of the mines.

Balance Sheet Dec. 31 1925.

Balance Sheet Dec. 31, 1929.

(Converted from Sterling into U. S. currency at \$4 85 per £1.)

Pearsons-Taft Land Credit Co.—Bonds Called.—

Taft & Co. (successor to the above company) have called for redemption on Jan. 1 next \$60,000 of series "I" bonds. Office of Taft & Co. is at 105 So. La Salle St., Chicago, Ill.—V. 95, p. 540.

Phillips Petroleum Co.—Subsidiary Makes Contract.—

The Philtux Oil Co., a subsidiary, has contracted with the Humble Oil & Refining Co. for the sale of 10,000 barrels daily over a period which will run the contract into several million barrels, delivery to commence March 1 1927. The price will be the average posted by principal companies in the field. The amount of purchase will be subject to certain reservations in order to take care of contracts and obligations to other purchasers.

The Philtux Oil Co. is a purchaser of crude in the Texas Panhandle field where it has a large gathering system and it will build a trunk line to a new 10,000 barrel refinery which the Humble program calls for to be built near the field. The Philtux contract will provide approximately one third of the line's capacity. The Phillips Petroleum Co.'s production is now more than 30,000 barrels daily in that field. It is also announced that the Phillips Petroleum Co. will soon discontinue its storage program in that district.—V. 123, p. 2273, 2234.

Pines Winterfront Co.—Extra Dividends.—

The directors have declared extra dividends of \$1 a share on both the class A and B stocks in addition to the regular quarterly dividend of 50c. on these stocks, all payable Jan. 1 to holders of record Dec. 24.—V. 121, p. 210.

Pittsburgh Coal Co.—Changes in Personnel.—

J. D. A. Morrow, Vice-President in charge of sales, has been elected President, succeeding W. K. Field. L. E. Young has been elected Vice-President in charge of operations. J. B. L. Hornberger, Vice-President and Controller, has been elected a director and a member of the executive committee. All changes become effective Jan. 1 1927.—V. 123, p. 1887.

Platt Music Co., Los Angeles.—Debentures Offered.—

Alvin H. Frank & Co.; Hunter, Dulin & Co., and George H. Burr, Conrad & Broom, Inc., are offering at 100 and int. \$750,000 10-year 7% sinking fund gold debentures (with stock purchase warrants attached).

Dated Dec. 1 1926; due Dec. 1 1936. Int. payable Q.—M. in Los Angeles and San Francisco. Denom. \$1,000 and \$500*. Red., all or part, on any int. date upon 30 days' notice at 105 and int., if redeemed on or before Dec. 1 1931, thereafter at 105 and int. less ¼% during each succeeding year. Int. payable without deduction for normal Federal income tax not in excess of 2%. The California property tax up to four mills refunded. Citizens Trust & Savings Bank, Los Angeles, trustee.

Stock Purchase Warrants.—There will be attached to each \$1,000 debenture a purchase warrant, non-detachable until Dec. 1 1928, entitling its holder to purchase, on or before Dec. 1 1931, 10 shares of common stock of the company at \$40 per share; or after that date and until Dec. 1 1926, at \$50 per share. Each \$500 debenture will have a similar warrant for the purchase of five shares.

Data from Letter of B. Platt, President of the Company.

History.—The business of the company was originally established in 1905 with the opening of a small retail store in Los Angeles. Company has grown rapidly since that time until it has to-day over 30,000 accounts on its books and is one of the largest wholesale and retail distributors of a complete line of musical instruments in the West. Company's distribution of this merchandise is effected through the medium of a large main store at 620-622 South Broadway and six conveniently located branch stores, all in or adjacent to the City of Los Angeles.

Security.—These debentures will be the direct obligation of the company and will constitute its only funded indebtedness. Company will covenant that so long as any of these debentures are outstanding it (1) will maintain at all times net current assets, as defined in the trust agreement, in an amount of not less than 200% of the principal amount of the outstanding debentures; (2) will not place any mortgage on its properties or create any funded indebtedness (except borrowings in the ordinary course of

business maturing in less than one year and unsecured by pledge of assets): (3) will not hypothecate or pledge any of its current assets nor dispose of any of its receivables in such a way as to cause the creation of a contingent liability.

Earnings.—Company is one of the few companies which earned a profit throughout the period of deflation following the war; furthermore it has never failed to earn a profit during any of the 21 years of its existence. Company's net profits, after providing for depreciation, Federal taxes and interest charges, for the last five years, averaged \$190,883 per annum, or in excess of 3.6 times the maximum annual interest requirements of this issue. For the 12 months ending Dec. 1 1926 the company's net profits were \$220,350, or equal to 4.20 times the annual maximum interest requirements of this issue. These earnings were equivalent to \$5.51 per share on the common stock now outstanding, or 13.8% on a value of \$40 per share.

Sinking Fund.—A sinking fund, which will retire the total amount of this issue on or before maturity, will operate at the end of each six months, commencing June 1 1927 as follows: An annual amount equal to 25% of the annual net earnings of the company, or a minimum of \$50,000 per year for the first three years; \$75,000 per year for the next four years; and \$100,000 per year for the last three years. Debentures will be purchased for this sinking fund up to the prevailing call price, or if not thus obtainable, then by redemption, through call by lot, at the prevailing call price.

Purpose.—To fund temporary indebtedness and provide additional working capital made necessary by the rapid growth of the company's business.

Punta Alegre Sugar Co.—New Director.—

E. B. Parry has been elected a director, succeeding Ernest B. Dane.—V. 123, p. 2647

Pyrene Mfg. Co.—50% Stock Dividend.—The directors on Dec. 22 declared a 50% stock dividend on the outstanding 1,463,160 shares of capital stock, par \$10, payable Jan. 15 to holders of record Dec. 31.

The directors also declared a quarterly cash dividend of 2% payable Feb. 1 to holders of record Jan. 20. This will be equivalent to the rate of 12% per annum on the present outstanding stock on which quarterly disbursements of 2½% have been paid.—V. 122, p. 2811.

Rand Kardex Bureau, Inc.—Listing.—

The New York Stock Exchange has authorized the listing of \$2,759,000 5-year 5½% sinking fund gold notes with stock purchase warrants attached. Consolidated Income Account (Company and Subs.) from Date of Initial Balance Sheet (Sept. 30 1925) to the End of the First Fiscal Year (March 31 1926).

Balance, surplus.....	\$1,517,178

—V. 123, p. 3195.

Rand Mines, Ltd.—Interim Dividend of 50%.—

The Bankers Trust Co. has been advised of the declaration of an interim dividend of 50%, equivalent to 2s. 6d., per ordinary share. The dividend will amount to 6¼s. sterling per "American share" and will be paid in London on or about Feb. 11 1927. A distribution of like amount was made on these shares on or about Aug. 30 1926.—V. 123, p. 3048.

Ray Hercules Mines, Inc., Del.—Sale Opposed.—

Frank C. Armstrong, who as a stockholder of the Ray Consolidated Copper Co., engaged in an unsuccessful injunction suit with the officials of that company and directors and stockholders of the Nevada Consolidated Copper Co., to prevent a merger of those corporations, started a new injunction suit in the New York Supreme Court Dec. 13 over the proposed sale of the assets of the Ray Hercules Mines, Inc., to Charles Hayden, banker, one of the chief defendants in his previous suit.

Alleging that he owns about one-third of the bonds of the Ray Hercules company, now held by Ellis P. Earle, director of the Chatham-Phoenix National Bank & Trust Co. as security for a loan, Mr. Armstrong asks for a restraining order against Mr. Earle and J. Guthrie Hopkins as trustee of the property of Ray Hercules. He says he bought \$321,590 of bonds for \$200,338 cash, that the copper properties were sold in Arizona in 1924 in mortgage foreclosure proceedings, and that the defendants bought them in for the protection of all the bondholders for \$450,000. He asserts that the bondholders are being asked now to consent to the sale of the properties to Mr. Hayden or his representatives for \$150,000, and that he for one is opposed on the ground that the sum is inadequate.—V. 117, p. 901.

± 6% preferred stock of Noble Street Realty Co.—V. 123, p. 2913.

Richfield Oil Co. (Calif.)—Extra Dividend, &c.—

The directors have declared a dividend of 25 cents per share and an extra dividend of 15 cents per share, both payable Feb. 1 to holders of record Jan. 5.

President James A. Talbot made the following statement: "The expressed policy of the board of directors was to be as liberal in the payment of dividends as sound business principles would justify. In spite of the fact that in the fourth quarter of 1926 market prices of the company's refined products were far below normal, indicated net profits for that period are in excess of the present quarter's dividend disbursement. Recent advances in gasoline prices, together with marked increase in the company's production of crude, would indicate an excellent year ahead."

"Earnings of constituent companies that compose Richfield Oil Co. of California have been during the past year (estimating December) approximately 2½ times a full year's dividend at the rate just declared. The present crude oil production of the company is providing in excess of 55% of its refinery requirements and is constantly increasing through successful drilling operations and the acquisition of settled producing properties."

"Sales are very satisfactory, having been more than \$28,000,000 during the past 11 months, and will exceed \$31,000,000 for 1926, compared with \$19,271,000 for 1925 and \$12,984,000 during 1924."—V. 123, p. 3048.

Richmond Radiator Co.—Extra Dividend of 25 Cents.—

The directors have declared an extra dividend of 25c. per share in addition to the regular quarterly dividend of 75c. per share on the no par value preferred stock, both payable Jan. 15 to holders of record Dec. 31. The company on Dec. 15 also made an extra distribution of 25c. per share on the preferred stock.

The company for the year ending Dec. 31 1926, according to official estimates, will show net earnings of approximately \$600,000 after all charges and taxes. This estimate is based upon actual figures for the first 11 months of 1926. After allowing for preferred dividends amounting to \$153,560, the balance of approximately \$446,000 is the equivalent of about \$7 a share on the outstanding 63,000 shares of common stock. In 1925 the company reported net earnings of \$527,467, equal to \$6.09 a share on the common, after payment of \$3 a share on the preferred.

The company has no bonds, mortgages, notes or bank indebtedness and the program of plant improvement is about completed, a total of \$1,767,000 having been returned into the business out of earnings during the last four years. In view of this, the belief prevails that dividends will be inaugurated on the common stock in the near future.—V. 123, p. 2788.

Russ Building Co., San Francisco.—Bonds Offered.—

An issue of \$3,500,000 1st mtge. 6% sinking fund gold bonds, series A, are being offered at 98½ and int. to yield 6⅞% by E. H. Rollins & Sons and Blyth, Witter & Co., San Francisco.

Dated Feb. 1 1926; due Feb. 1 1951. Principal and int. (F. & A.) payable at Bank of California, N. A., San Francisco, trustee. Denom. \$500 and \$1,000c. Red. as a whole or in part by lot on any int. date upon 60 days' notice at par and int. and a premium of 4%. Int. payable without deduction for any normal or other Federal income tax not exceeding 2%. Company agrees to refund all State personal property and income taxes and the District of Columbia personal property tax not exceeding in any case five mills per annum.

Building, &c.—Company has acquired a 99-year lease (with option to purchase) of the property comprising over one-half a city block in the heart of the financial district of San Francisco, having a frontage of 275 ft. (one city block) on Montgomery St., 160 ft. 5 in. on Pine St., and 137 ft. 6 in. on Bush St. On this property the company is at present erecting an office building. Within two blocks of this site are located 11 of the principal banks of San Francisco, offices of many of the important investment banking and brokerage firms, and the San Francisco Stock and Bond Exchange. Adequate transportation service is provided by convenient street railway lines, while both Pine and Bush streets are main arteries of automobile traffic.

The new Russ Bldg. is to be a 30-story office structure, containing approximately 332,000 sq. ft. of rentable office space, and will include a garage having a capacity of about 400 cars, which will occupy the entire second floor and part of the mezzanine floor, first floor and basement. This garage, which will be one of the largest in San Francisco, is being included for the benefit of the tenants of the building.

The building will be a class A steel and reinforced concrete structure of the most modern type, equipped with high-speed self-leveling elevators. **Lease and Purchase Option.**—Company has leased the land for 99 years from the Russ Estate Co. at a rental of \$120,000 a year, and there is embodied in the lease an option whereby Russ Building Co. may purchase the fee for \$2,400,000 during the sixth to tenth years inclusive of the lease, after which the price increases at the rate of \$50,000 annually until the 20th year, when the price will be \$2,900,000 and after which the option to purchase will expire. These option prices are net to the Russ Estate Co. and Russ Building Co. will be required to pay whatever Federal income tax might be assessed against the Russ Estate Co. as a result of the purchase of the property.

Capitalization.—

	Authorized.	Outstanding.
1st mtge. sinking fund gold bonds.....	\$5,500,000	\$3,500,000
Pref. stock, 6% (cumul. from Feb. 1 1928)---	4,500,000	3,750,000
Common stock.....	4,500,000	3,750,000

The preferred and common stocks are at present represented by 6% certificates dated Feb. 1 1926 and exchangeable on Feb. 1 1928 for 100% in par value of preferred stock and 100% in par value of voting trust certificates for common stock. \$3,750,000 par value of these certificates have been responsibly underwritten and most of them have been purchased by investors at par and interest.

The common stock will be held in a voting trust until Feb. 1 1933 in order to insure the continuity of management. The present board of directors will be the voting trustees. See also V. 122, p. 1183.

San Jacinto Hotel Co., Houston, Tex.—Suits.—

The uncompleted San Jacinto Hotel at Houston has become the subject of litigation, two suits having been filed. C. R. Berry & Co., general contractors, filed suit in Judge Campbell's court for \$595,339, alleged due on contract and foreclosure of mechanics' lien. The San Jacinto Hotel Co., G. L. Miller & Co., Theo Development Co., 38 other parties and all bondholders are named as defendants.

Theo Development Co. filed suit against the same defendants in Judge Montelth's court. They claim they leased the property from Varner Co., which is not a party to either suit, for \$33,000 a year for 99 years and sub-leased to the hotel company at rental of \$46,000 for the first five years, \$47,000 for the second five, \$49,000 for the third five and \$52,000 for the remaining 84 years. They assert the hotel company refuses to cancel the lease and asks cancellation and \$50,000 damages.—V. 122, p. 1039.

San Jose (Calif.) Medico-Dental Building (Co.).—

Bonds Offered.—J. W. Drake Co., Los Angeles, are offering at 100 and int. \$300,000 1st (closed) mtge. sinking fund 6½% gold bonds.

Dated Nov. 1 1926; due Nov. 1 1946. Principal and int. (M. & N. 1) payable at any branch of the Pacific-Southwest Trust & Savings Bank, Los Angeles, trustee. Denom. \$1,000 and \$500 c. Red. on any int. date all or part on 30 days' notice at 101 and int. Interest payable without deduction for normal Federal income tax not to exceed 2%.

Company.—Owns in fee the property located at the northwest corner of Santa Clara St. and 6th St. in San Jose, Calif. This property has a frontage of 107½ ft. on Santa Clara St. and a depth of 228 ft. on 6th St. Upon this site the company is erecting an 11 story, class "A," steel frame building of modern type, especially designed for doctors and dentists. The building will contain approximately 400 rooms, an auditorium and 5 stores on the ground floor. A garage to accommodate 80 cars is provided for on the company's property at the rear of the building. Company is owned by 36 leading doctors and dentists of San Jose, and all of these doctors and dentists will occupy suits of offices in the new building. Any space not required by the owner tenants will be leased to other doctors and dentists, surgical houses, and county medical and dental societies. Based on existing lease contracts, the owners feel confident that the building will be almost 100% leased on completion, over 80% being already leased.

Security.—Secured by a first closed mortgage upon the land and building to be erected thereon. The land has been appraised by Cooper-Challen Realty Co., the Rucker Co., Tainter Realty Co., Johnson & Temple and W. R. Wilson, all leading realtors of San Jose, the lowest valuation being \$130,000 and the average \$132,646. The estimated cost of the building is \$412,500, including carrying charges, giving a total value of the property to be mortgaged of \$545,146.

Earnings.—It has been estimated that the annual net income upon completion of the building will be \$45,431, after allowing 10% for vacancies. This income is based on existing lease contracts, as the building is already over 80% leased. This net income is equivalent to approximately 2.33 times maximum annual interest charges on the bonds.

Santa Cruz Portland Cement Co.—Extra Dividend.—

The directors have declared an extra dividend of \$1 per share in addition to the regular quarterly dividend of \$1 per share, both payable Jan. 1 to holders of record Dec. 16.—V. 120, p. 1597.

Santee Timber Corp.—Listing.—

The Baltimore Stock Exchange has authorized the listing of \$500,000 1st mtge. 6½% sinking fund gold bonds, dated May 15 1926, due May 15 1931. Bonds were issued for the purpose of paying the indebtedness (including the collateral trust & mortgage 6½% serial gold bonds, called for payment Nov. 10 1926) of the company and other corporate purposes. Mercantile Trust & Deposit Co., Baltimore, trustee. Coupons are payable May 15 and Nov. 15 at the office of Townsend Scott & Son, Baltimore, Md., at which office the principal is also payable. These bonds are secured by a closed first mortgage on 240,000,000 ft. of standing hardwood timber, conservatively valued at \$1,060,000, located on 24,423 acres of land situated in Berkeley County, South Carolina. Company owns 9,510 acres of the mortgaged property in fee simple and the balance are timber rights, with ample time to cut and remove, most of the rights being for 36 years from Feb. 1926. There is also deposited with the trustee a total of \$127,000 Camp Manufacturing Co. 6½% purchase money mortgage notes maturing from Nov. 1 1926, to Nov. 1 1929. Both principal and interest of these notes may be applied by the trustee to the payment of interest on the Santee Timber Corp. 1st mtge. 6½% bonds.

Earnings—	1923.	1924.	1925.
Gross	\$82,125 83	\$50,164 14	\$42,442 67

Unamortized bond discount	Total (each side)

(Bernard) Schwartz Cigar Co.—To Recapitalize.—

The stockholders will vote Jan. 18 on authorizing an issue of 68,000 shares of non-voting preference "A" stock, no par value, and 68,000 shares of participating "B" voting stock, no par value, to be exchanged for the present 170,000 shares of class "A" and "B" common stock on the basis of two shares of preference "A" and two shares of participating "B" stock for each 5 shares of either class of stock now outstanding.—V. 123, p. 1259.

Schulze Baking Co.—Bonds Sold.—Spencer, Trask & Co. and H. M. Byllesby & Co., Inc. have sold at 99 and int. to yield about 6.10% \$2,300,000 1st mtge. 6% gold bonds.

Dated Sept. 1 1926; due Sept. 1 1945. Interest payable M. & S. at Continental & Commercial Trust & Savings Bank, Chicago, or at the Agency of the company in New York. Denom. \$1,000, \$500 and \$100 c*. Red. as a whole or in part by lot on any int. date on 30 days' notice at 105 and int.; all bonds so redeemed to be cancelled. Continental & Commercial Trust & Savings Bank, Chicago, and William P. Kopf, Chicago, trustees. Company agrees to pay interest without deduction for any Federal income tax not in excess of 2% and to refund to the holders of these bonds, if requested within 60 days after payment, the Penn. and Conn. taxes not in excess of 4 mills on the par value of the bonds annually and the Mass. income tax on the interest not exceeding 6% of such interest per annum.

Purpose of Issue.—The proceeds from the sale of these bonds will be used to retire the present outstanding funded debt, to reduce floating debt, to reimburse the company for expenditures made in connection with additions and improvements to property and to increase working capital.

Security.—In the opinion of counsel the bonds will be secured by a direct first mortgage upon all the fixed property, plant and equipment of the company.

Redemption Fund.—Company covenants to deposit with the trustee during March of each year, commencing 1930, cash and (or) first mortgage bonds at par in an amount equal to 15% of the earnings of the company (as defined in the indenture) for the last preceding fiscal year, such annual payment, however, to be not less than \$25,000 nor more than \$75,000. Cash so deposited shall be applied to the purchase of bonds at not exceeding 105 and int. or to their redemption at that price.

Preferred Stock Sold.—The same bankers have sold at \$37 50 per share 30,224 shares of no par value, convertible preference stock (participating).

Entitled to cumulative dividends of \$3 per share per annum after provision has been made for all dividends accrued upon the preferred stock (7% cumulative) and, after dividends of \$1 per share upon the common stock in any fiscal year, participates with the latter in additional dividends at a rate which will give the convertible preference stock per share twice the additional dividend received per share by the common until the convertible preference stock shall have received \$2 per share in any such fiscal year in addition to the \$3 cumulative dividend. Cumulative dividends payable Q-J. Entitled to payment at \$65 per share and accrued dividends in event of voluntary liquidation and \$40 per share and accrued dividends in event of involuntary liquidation after payment of the par amount of all outstanding preferred stock, together with accumulated dividends, but before any distribution is made upon common stock. Redeemable in whole or in part at any time upon 30 days' notice, at \$65 per share and divs. Each holder of convertible preference stock is entitled to one vote for each share of such stock outstanding in his name. Transfer Agents, Bankers Trust Co., New York and Continental & Commercial Trust & Savings Bank, Chicago. Registrars, The Bank of America, New York and Foreman Trust & Savings Bank, Chicago.

Convertible at the option of the holder at any time up to and including the day prior to any date specified for redemption, share for share, into common stock.

Data From Letter of Pres. R. L. Nafziger, Kansas City, Mo., Dec. 18.

Company.—Incorp. in 1893 in Illinois. Operates 12 baking plants located in Chicago, Peoria and Springfield, Ill.; Kansas City, Mo.; Cincinnati, O.; Omaha, Neb.; Detroit and Grand Rapids, Mich., and Des Moines, Ia. The plants are all equipped with improved baking machinery, making it possible to turn out a very high grade product in large quantity at a minimum cost. The Chicago market is the second largest in the United States, and with its present volume of business in the 4 baking plants located in that city, the company is probably the largest producer of bread in that market. The other plants are also ideally located in cities, which, because of their rapidly growing populations, offer exceptional opportunities for the bread and cake industry. Because of their geographical position, the plants form an effective operating group.

The trade names owned by the company are widely and favorably known. "Butter Nut Bread" is considered one of the best trade names for bread in the United States. Among the many other popular trade names owned by the company are "Butter Krust Bread" and "A-1 Bread."

Capitalization.—Authorized. Outstanding.
1st mtge. 6% gold bonds \$2,500,000 \$2,300,000
Preferred stock, 7% cumulative (par \$100) 20,000 shs. 14,216 shs.
Convertible preference stock (without par value) 50,000 shs. 31,178 shs.
Common stock (par \$5) 250,000 shs. 155,890 shs.

Earnings.—Arthur Young & Co. Accountants, certify that the net profits of the company applicable to interest charges, bond discount, depreciation and Federal taxes for the 3 years ended Jan. 2 1926 and for the 40 weeks' period ended Oct. 9 1926 were as presented in the following table. In preparing these figures an estimate by the President of savings in certain excess material costs during 1925 and 1926 amounting in the aggregate to \$180,000, considered by Arthur Young & Co. to be reasonable, has been included.

	1923.	1924.	1925.	Period to	Ann
Net profit	\$694,778	\$690,186	\$596,576	Oct. 9 '26.	Average.
Annual interest requirements of \$2,300,000 1st mtge. 6% gold bonds,				\$478,987	\$562,793

* The average net profits, as above, are equal to 4 7-10 times the annual interest requirements of the \$2,300,000 1st mtge. 6% gold bonds. The net profits of the current year to Oct. 9 are at the annual rate of approximately 4½ times such annual interest requirements.

Arthur Young & Co., certify that for the 3 years and 40 weeks ended Oct. 9 1926, the net profits applicable to dividends on the convertible preference stock and common stock, after deducting annual interest and bond discount charges of \$149,500, depreciation of \$214,546, Federal income taxes of \$20,744 and the annual dividend requirements of the pref. stock amounting to \$99,512 were at the average rate of \$168,490 per annum, or 1 4-5 times the annual requirement of \$93,534 for the \$3 cumulative dividend on the convertible preference stock.

Balance Sheet Oct. 9 1926.

Scovill Mfg. Co.—Dividend of 60 Cents on New Stock.—

The directors have declared a quarterly dividend of 60 cents per share on the new capital stock, par \$25.

Stock was recently changed from \$100 to \$25 par value and distributed to holders in the ratio of 5 new for one old. On the \$100 par shares the company had paid at the rate of \$12 a share for the last two years.—V. 123, p. 2666.

Seaconnet (Cotton) Mills.—To be Sold at Auction.—

The creditors' committee was authorized by a vote of the creditors on Dec. 13 to sell the mill property at auction sale, the date of the proposed sale being left to the discretion of the committee as was the question whether the property should be sold as a whole or upon the Speeder plan. The vote was taken following the announcement that the corporation owed \$600,000 in unsecured claims and \$200,000 in preferred claims, and that the city had bid in the real estate of the corporation for the city tax so 1924 and 1925; and that though two different options had been given parties who had signified a desire to purchase the property both options expired without a sale having been effected. The administration costs of the mill for the past two years amounted to \$66,052 and are now costing about \$175 per week.

A settlement of the affairs of the corporation was delayed, it was stated, by the time required in securing an adjustment of the Federal tax claim and in seeking an abatement of the city's tax claims.—("Journal of Commerce").—V. 123, p. 855.

Service Motors, Inc., Wabash, Ind.—New Control—Proposed Consolidation.—An official announcement says:

To further carry on the development of the relay axle equipped truck, E. W. Bassick and associates have acquired the capital stock of this corporation, whose plant has a floor space of approximately 250,000 sq. ft., giving a capacity of 10,000 to 12,000 trucks per year.

E. W. Bassick and W. R. Bassick, both of Bridgeport, Conn.; E. S. Evans, Detroit, and M. H. Furlaud, New York, have been engaged for several years in the development of a new type of final drive for motor trucks and busses which is known to the trade as the relay axle drive. E. W. Bassick and W. R. Bassick were formerly President and Vice-President of the Bassick Mfg. Co., manufacturers of the Alemite Lubricating System. E. S. Evans is a well-known manufacturer of automobile loading devices. M. H. Furlaud is a banker of New York and Paris.

For the past several years the relay axle has been manufactured by and in the plant of the Commerce Motor Truck Co. of Ypsilanti, Mich. It is planned to form a new corporation with headquarters at Wabash, amalgamating the two businesses. The officers and directors of the new corporation will be announced at an early date. G. L. Gilliam, President of Service Motors, Inc., will be an officer of the new corporation and have active charge of the operation of the business. W. R. Bassick, President of the Commerce Motor Truck Co., will be an officer and director and will be actively interested in the new business. M. A. Holmes, who for a number of years was sales manager of the Republic Truck Co., now sales manager of the Commerce Truck Co., will be in charge of sales.—V. 116, p. 1542.

Shaffer Oil & Refining Co.—New Gas Well.—

President John J. O'Brien announces that the company's new Tal. Jones No. 8 well in Seminole County, Okla., has been deepened to the Wilcox Sand, and at this depth has increased its production to approximately 2,000 bbls. daily. The company has also completed a 36,000,000 cu. ft. gas well three miles east of Drumright, Okla.—V. 123, p. 3195.

"Snia Viscosa" (Societa Nazionale Industria Applicazioni Viscosa), Turin, Italy.—Bonds Sold.—

London dispatches state that an issue of £1,400,000 7½% 1st mtge. bonds was successfully placed in London Dec. 16 at 93.—V. 123, p. 2532.

Southern Pipe Line Co.—Capital Distribution of \$10.—

In furtherance of its program of reducing the par value of its stock from \$100 to \$50, the company ordered a \$10 per share additional cash payment on Dec. 18 from its capital reduction account, payable on March 1 to holders of record on Feb. 10. The company paid \$40 a share on July 10. The Treasurer has been instructed to withhold all payments on old \$100 par certificates not yet exchanged into the new \$50 par stock. See also V. 122, p. 3615.

Splitdorf-Bethlehem Electrical Co.—New President.—

Walter Rautenstrauch has been elected President. E. H. Schwab is Chairman of the board. Mr. Rautenstrauch is resigning his position as President of the Fred F. French Co. on Jan. 1.—V. 122, p. 3095.

Sprague-Sells Corp.—Annual Report.—

Statement of Earnings Year Ended Sept. 30 1926.	
Net sales, \$1,582,257; cost of sales, \$1,048,390; gross income	\$533.86

(C. G.) Spring & Bumper Co.—5c. Extra Dividend.—

In addition to the regular quarterly dividend of 10c. per share on the common stock, an extra dividend of 5c. has been declared, payable Feb. 15 to holders of record Feb. 8. An extra cash dividend of like amount was paid on May 15, Aug. 16 and Nov. 15 last. The company on Feb. 15 next will also pay on the common stock a stock dividend of 3-10ths of a share for every 10 shares held. The latter distribution is the final installment of the 10% stock dividend declared May 4 1926 (see V. 122, p. 2813).—V. 123, p. 2666.

Standard Asphalt & Rubber Co.—Wins Suit.—

The U. S. Circuit Court of Appeals at Chicago has just affirmed the award of the U. S. District Court in the Southern District of Illinois allowing a judgment with interest to date amounting to a sum in excess of \$850,000 in favor of the Standard Asphalt & Rubber Co. against the Barber Asphalt Co., a subsidiary of the General Asphalt Co. This suit involved claims by the Standard Asphalt & Rubber Co. for infringement of the Culmer patent covering the so-called air blown asphalt. This suit has been bitterly fought through the courts over a period of about 14 years. The recovery is for profits and damages prior to the date of expiration of the patents.

Suits on these patents are still pending against the Texas Co., Standard Oil Co. (N. J.) and several other of the larger manufacturers of asphalt products. The Standard Asphalt & Rubber Co. was controlled by the

same interest that own the Universal Oil Products Co., licensors of the Dubbs cracking process, now in litigation. (New York "Journal of Commerce.")

Standard Oil Co. of New Jersey.—Debentures Ready.—J. P. Morgan & Co. announce that they are now prepared to deliver 20-year 5% gold debentures, dated Dec. 15 1926, due Dec. 15 1946. It is announced that F. H. Bedford will resign as Vice-President and director of the company on Dec. 31.—V. 123, p. 2913.

Standard Slag Co. (Ohio).—Acquires Int. in Bessemer Co. See Bessemer Limestone & Cement Co. above.—V. 120, p. 3201.

Stanley Co. of America.—New Theatre, &c.—Construction in Jersey City of the largest moving picture theatre in the State of New Jersey is announced by the Stanley-Fabian Co., the New Jersey subsidiary of Stanley Co. of America. Work on the theatre, which will cost \$2,500,000 and have a seating capacity of 5,000, will be started within two weeks. The Stanley-Fabian Co. now operates a total of more than 50 theatres in New Jersey.

John J. McGuirk has been elected President to succeed the late Jules E. Mastbaum. Mr. McGuirk has been Vice-President of the company since its formation in 1919. Mr. McGuirk has also been elected President of the company's various subsidiaries, the Stanley-Mark Strand Co., the Stanley-Crandall Co., the Stanley-Fabian Co. and the Stanley-Rowland-Clark Co., to succeed Mr. Mastbaum.

Clifford B. Hawley of Edward B. Smith & Co. has been elected a director of all the subsidiaries to succeed Mr. Mastbaum. Abe Salosky has been elected Vice-President of the Stanley Co. and Alfred W. Fleisher, partner of Mr. Mastbaum in the real estate firm of Mastbaum Bros. & Fleisher, has been added to the board of directors to fill the existing vacancy.—V. 123, p. 1772.

The last previous extra disbursement was \$1 a share made on July 15 last.—V. 123, p. 94.

Taft & Co.—New Name—Bonds Called.—

See Pearsons-Taft Land Credit Co. above.

Tide Water Associated Oil Co.—Seminole Field Output.—

This company, through the Tidal Osage Oil Co. which is controlled by Tide Water Oil, is producing 17,120 barrels of crude oil daily in the Seminole Pool in Oklahoma. This output equals over 13% or one-eighth of the entire current production from this new field. In round figures, the company has produced from its Seminole wells an aggregate of 800,000 barrels of crude oil, worth \$2,000,000.

In the area in Oklahoma which is known as the Seminole Field, the Tidal Osage Oil Co., has in all leases on 680 acres in 11 different tracts. Of this amount, 4 tracts, comprising a total of 200 acres, are now producing, and a 5th, comprising an additional 80 acres, has 7 wells drilling, nearly all of which will be brought in shortly. In addition, the company has a well drilling on each of 2 other tracts as the original tests on each of these tracts.

The daily current production of 17,120 barrels represents the flow of 10 wells, 7 of which are Wilcox and wells, and the remaining 3 are Huntum line wells which will be drilled on down to the Wilcox sand as soon as the Huntum line flush production drops off. It is drilling 20 other wells in the area and nearly all of them are nearing completion. The most recent one completed was its No. 1 Carter in the Wilcox Sand which made 2,400 barrels in the first 24 hours. This well struck oil at 4,119 feet. Different wells on the same lease are connected up with different pipe line companies so that it may be sure of having all of its oil taken. In addition, the company has provided for over half a million barrels of storage capacity for its Seminole oil.

The Associated Oil Co. announces the completion of its Tablock Bozeman No. 1 well in the South Liberty field, Texas. At 3,793 ft., the well was flowing at the rate of 1,900 bbls. daily, of 22 gravity oil.—V. 123, p. 2668.

Title Guarantee & Trust Co.—10% Extra Dividend.—

The trustees have declared an extra dividend of 10% on the capital stock in addition to a regular quarterly dividend of 4%. The quarterly dividend and one-half of the extra dividend are payable Jan. 3 to holders of record Dec. 22, and the remaining half of the extra is payable March 31 1927 to holders of record March 22 1927. In the current year the company paid four quarterly dividends of 4% and two extra dividends of 4% and two extra dividends of 5%.—V. 123, p. 1645.

Traders Fireproof Building Co., Los Angeles.—Bonds Offered.—Frick, Martin & Co., Los Angeles, are offering at 100 and int. \$165,000 1st mtge. leasehold 6½% serial gold bonds.

Dated Nov. 1 1926; due serially 1928-1946 incl. Interest payable M. & N. without deduction for Federal normal income tax up to 2% per annum. Denom. \$1,000 and \$500 c*. Red. on any int. date at 102½ and int. Pacific-Southwest Trust & Savings Bank, Los Angeles, trustee. Principal and interest payable at the office of the trustee. Exempt from personal property taxes in California.

Security.—Secured by a first closed mortgage on a valuable 99-year leasehold interest on the property designated as 645-647-649 South Spring St., Los Angeles, and on the Class A office and store building erected thereon, which was completed in April 1924 at a cost of \$195,896, exclusive of taxes, interest and insurance during construction. The lease was made in 1921 and terminates in 2020, the ground rental payable being \$1,250 per month, or \$15,000 per annum, for the entire term. The building and leasehold have been appraised for the Commissioner of Corporations of the State of California by J. W. Phelps as follows: Leasehold, \$99,440; building, \$178,000; total, \$277,440.

Company will continuously have on deposit with the trustee five months rent in advance. One-twelfth of the annual interest charge will be deposited monthly, and beginning May 1 1928 one-sixth of the next maturing principal payment will be deposited monthly with the trustee. Fire and earthquake insurance to the full insurable value is provided for in the trust indenture.

Travelers Insurance Co., Hartford, Conn.—Extra Div.

The company has declared an extra dividend of \$2 per share and the regular quarterly dividend of \$4 per share, both payable Dec. 31 to holders of record Dec. 20. Six months ago an extra distribution of \$4 per share was made, while in Dec. 1925 an extra of \$2 per share was paid.—V. 123, p. 217.

Union Tank Car Co.—Listing.—

The New York Stock Exchange has authorized the listing of \$25,000,000 capital stock (par \$100) on official notice of issuance in exchange for outstanding certificates for common stock with authority to add on and

after Dec. 28 \$6,146,800 capital stock on official notice of the issuance of a stock dividend, making the total amount applied for \$31,146,800. The \$12,000,000 preferred stock of the company (par \$100) was redeemed at \$115 per share on Dec. 1 1926.—V. 123, p. 3196.

United Cigar Stores Co. of America.—Listing.—

The New York Stock Exchange has authorized the listing on or after Dec. 30 of \$589,225 additional common stock (par \$25) on official notice of issuance as a stock dividend, making the total amount applied for \$47,729,338.

Vice-President.—

E. Francis Whelan has been elected a director and a Vice-President.—V. 123, p. 2534.

United Industrial Corp. (Vereinigte Industrie-Unternehmungen, A. G.), Germany.—Bonds Listed.—

There have been placed on the Boston Stock Exchange list \$6,000,000 6½% sinking fund gold debentures dated Nov. 1 1926 and due Nov. 1 1941. See offering in V. 123, p. 3052.

United Porto Rican Sugar Co.—Listing.—

The Baltimore Stock Exchange has authorized the listing of 101,624 shares of common stock and 4,028 shares of preferred stock (both without par value), with authority to add to the above amount of preferred stock, from time to time, 5,972 shares additional, upon official notice that they have been sold and issued. Compare V. 123, p. 2406, 3053.

United States Freight Co.—Status, &c.—

Harvey Fisk & Sons, New York, have issued a special circular giving a full analysis of the operations of this company and its subsidiaries, from which we take the following:

Organization and Business.—Through its completely owned operating subsidiaries, the company does the largest freight forwarding business in the United States. From a small beginning in 1915, confined largely to the New York-Chicago field, it has expanded its operations on a national basis. At the present time it operates 67 branch offices or freight stations located in 54 cities distributed throughout 23 States. These cities include every important railroad freight distributing centre in the country. The administration of this business requires a vast organization, at present numbering about 3,500 employees, under the direction of executives and freight traffic managers of long experience and expert ability. The current monthly volume is averaging 95,000 tons of package freight, requiring 5,000 freight cars, each containing 40 individual shipments totaling 38,000 pounds of merchandise.

Company confined its activities principally to the handling of less-than-car-load shipments for its customers. It purchases consolidated car-load space from the railroads at consolidated car-load freight rates and sells less-than-car-load space to its customers. Gross profits are derived from the difference earned between the consolidated car-load price paid the railroads and the higher rate paid by its customers for less-than-car-load space.

It is the business of the company not only to render an efficient service in loading, shipping and unloading, but also, if desired, to provide store door pickup at the point of origin and store door delivery at the point of destination. Shippers appreciate this service and it provides an additional revenue. Storage facilities are also furnished by the company at certain redistribution points and in any event delivery to warehouse for storage and redistribution at the point of destination may be arranged at the time of shipping.

The company also forwards freight by steamer, either to domestic or foreign ports. In the case of domestic waterway shipments, this method is usually used in connection with a through shipment to some inland point. Company owns a half interest in a corporation operating five steamships on the Great Lakes. These boats are engaged in the carrying of package freight and fully assembled automobiles between lake ports for motor car manufacturers.

As a further protection to shippers, the company covers its customers' freight with complete insurance against loss from all causes from the time of receipt at station or store door until delivered at destination.

Company is the sole owner of its following operating subsidiaries: Universal Car Loading & Distributing Co. of Delaware; the Trans-Continental Freight Co.; Universal Car Loading & Distributing Co. of Texas; the Universal Steamship Co., and owns a one-half interest in Universal Terminal Warehouse Co. of Texas.

Capitalization.—The authorized capital of the company consists of 100,000 shares of no par value voting common stock. As of Dec. 1 1926 there were outstanding 84,712 shares. Company also had outstanding as of Dec. 1 1926 \$648,000 serial 6% purchase money notes. These notes were issued in part payment for the Trans-Continental Freight Co. They mature \$6,000 each month up to June 1 1928 and \$9,000 per month from then until June 1 1933. In July 1925 the stockholders of the company subscribed to a sufficient amount of stock to furnish funds with which to retire a substantial part of the balance of these notes. Payments against these stock subscriptions are being made regularly in accordance with the subscription privilege and all subscriptions are payable in full before the maturity of the remaining outstanding notes. The stock issued in connection with such subscriptions is included in the outstanding amount above mentioned and is held by the company as security for the subscriptions.

Assets.—The consolidated balance sheet as of Sept. 30 1926 shows total current assets of \$2,433,174 available for total liabilities of \$1,138,414 (exclusive of the purchase money notes above mentioned) or net current working capital of \$1,294,759. The same balance sheet shows capital investment in subsidiary companies of \$2,117,350 and furniture, fixtures and equipment accounts of \$197,963.

Earnings.—For the fiscal year ending May 31 1926 the company had a gross operating profit of \$4,081,926, operating costs of \$3,580,479 resulting in a net operating profit of \$501,447 available for interest, taxes, depreciation and dividends. The net operating profits of the company's subsidiaries have shown substantial increases each year since incorporation or acquisition.

Calendar Year 1926—	1st Quar.	2nd Quar.	3rd Quar.	9 Months.
Gross op't. revenue.....	\$4,358,683	\$4,702,902	\$4,831,364	\$13,892,949
Gross fr't & cartage pd.....	3,357,172	3,663,576	3,763,028	10,783,777
Gross operating profit.....	1,001,511	1,039,326	1,068,335	3,109,172
Operating costs.....	852,602	885,660	883,217	2,621,480

Net operating profit... \$148,909 \$153,665 \$185,117 \$487,692

The nine months' figures before taxes are at the annual rate of \$650,257, or approximately \$7 65 per share. Similarly the results of the third quarter are at the annual rate of about \$8 75 per share on the common stock.

Dividends.—Dividends at the rate of \$5 per share per annum payable quarterly were inaugurated in Sept. 1925. The 6th quarterly dividend at that rate was declared to stockholders of record Nov. 30 and payable Dec. 10 1926.

Directors.—E. C. Stroh (Chairman and Treasurer) C. S. Eyttinge (President) F. L. Bateman (Executive V.-Pres.) Walter Bockstahler (V.-Pres.) R. F. Locke (V.-Pres.) W. L. Taylor (V.-Pres.) Ralph J. Leibenderfer (Sec. & Gen. Counsel) K. E. Long Herbert Bockstahler (Asst. Treas. & Asst. Sec.).

United States Steel Corp.—New Stock Listed.—

The New York Stock Exchange has admitted to trading the new common stock on a "when issued" basis.—V. 123, p. 3196.

Universal Chain Theatres Corp.—Acquires 11 Theatres.

The corporation has acquired a chain of 11 motion picture theatres in Seattle, Wash., formerly operated by the Pacific Theatres Co. These theatres add nearly 7,000 seats to the Universal chain. The acquisition of these theatres increases the total in Universal Theatres' chain to 261, with an aggregate seating capacity of excess of 215,000, of which 23, with a seating capacity of nearly 40,000, are under construction.

The corporation is already strongly represented in the Pacific Northwest, through the operation of 14 theatres in Portland, Ore., and vicinity, and of 2 theatres in Eugene, Ore. It is also carrying on an aggressive building campaign in addition to acquiring theatres already in operation. During the past few weeks 9 large new houses have been placed in operation, including theatres in Cleveland, O.; Lowell, Mass., and Springfield, Mo.,

and it is expected that 5 additional large houses will be opened before Jan. 1.—V. 123, p. 1889, 1126.

Utah Metal & Tunnel Co.—Capital Increase.—

The authorized capital stock has been increased from 1,000,000 shares (par \$1) to 1,250,000 shares (par \$1). These additional shares, if issued, will be to the Utah Delaware Mining Co. at par in the event that the Utah Delaware Mining Co. elects to exercise an option to purchase the same under an agreement dated Jan. 25 1926, providing for such option.—V. 122, p. 3225.

Venezuelan Holding Corp.—Stock Listed.—

There have been placed upon the Boston Stock Exchange list temporary certificates for 127,110 shares without par value (out of an authorized issue of 200,000 shares) common stock.

This corporation was organized in Delaware Jan. 6 1925. Its purpose was to acquire concessions on prospective oil lands in Venezuela. Of the outstanding shares, 42,280 shares were subscribed for at \$5 per share, 56,086 shares were subscribed for at \$4 50 per share and 28,744 shares were issued for property. Transfer agents, Atlantic National Bank, Boston, and Chemical National Bank, New York. Registrars, First National Bank, Boston, and Equitable Trust Co., New York.

Vitanola Talking Machine Co., Chicago.—Bonds Called.—

All of the outstanding 1st mtge. 6% real estate bonds, dated Aug. 1 1919 (Nos. 221 to 590, incl.) have been called for redemption Feb. 1 next at 103 and int. at the office of Greenebaum Sons Bank & Trust Co., trustee, Chicago. Bonds of earlier maturity numbered 1 to 220 have been paid at par and interest.

The property securing these bonds (South 52d Ave. near 19th St., Chicago) has recently been purchased by the Edison Electric Appliance Co.

(V.) Vivaudou, Inc.—Rights.—President T. J. McHugh (Dec. 18) says in substance:

As stated in my letter dated Dec. 8 1926, it is proposed to offer to stockholders an additional 12,500 shares of preferred stock and 12,500 shares of common stock in order to refund indebtedness incurred for capital expenditures in the purchase of certain assets of Melba Mfg. Co.

My previous letter inadvertently misstated the effective dates with reference to these subscription rights and I hereby beg to advise you that if favorable action is taken at the meeting of stockholders on Dec. 20 upon the proposed increase of capital the rights to subscribe will be issued to holders of common stock of record Dec. 30 1926 (not Dec. 29), and will expire on Jan. 17 1927 (not Jan. 14).

The rights will cover blocks each consisting of one share of preferred stock and one share of common stock and will be issued in the ratio of 3 1/2 such blocks for each 100 shares of common stock. The subscription price upon each block consisting of one share of preferred stock and one share of common stock will be \$125, plus accrued dividends on the preferred stock since the last dividend date. Subscriptions will only be accepted for blocks and not for preferred or common stock separately and no fractions of a share of stock will be issued pursuant to these rights, but fractional warrants may be combined upon subscriptions for full shares.

Subscriptions to the new stock should be mailed to the Equitable Trust Co. of New York, transfer agents.—See also V. 123, p. 3054.

Wabasso Cotton Co., Ltd.—Bonus of 50 Cents.—

The directors have declared a bonus of 50 cents per share in addition to the regular quarterly dividend of \$1 per share, both payable Jan. 2 to holders of record Dec. 15.—V. 123, p. 992.

Waltham Bleachery & Dye Works, Boston.—Offer.—

Treasurer Ronald T. Lyman, it is announced, recently received an offer from George M. Flint of 14 Beacon St., Boston, Mass., under which he offered to buy at \$29 37 1/2 per share all shares of this company offered to him on or before Dec. 10 1926, provided there are then offered to him not less than 3,001 shares. Under the offer payment is to be made not later than Dec. 31 1926, upon delivery of the certificates.

The treasurer and all the other directors indicated their intention to sell all their own shares on the above basis.

Treasurer Lyman, in a letter to the stockholders, indicated the reasons which led the directors to accept the offer as follows:

1. The business of bleaching, dyeing and finishing cotton goods has been most difficult for the past 4 years.
2. While in the 10 years prior to 1923 the company made very large earnings, it lost money in each of the years 1923, 1924 and 1925, a period of general textile depression, the total losses for those years (after deducting depreciation of \$40,000 a year) being in excess of \$238,000.
3. In the first 6 months of 1926 the loss (after deducting depreciation) was \$108,891 due, however, in part to some abnormal circumstances.
4. While the books have not been closed since July 3 1926, it is estimated that a substantial loss will be shown for the last 6 months of 1926.
5. The balance sheet of July 3 1926, shows current indebtedness of \$105,000 against current assets of \$112,009, the balance sheet being as follows:

Condensed Balance Sheet as of July 3 1926.

Assets—		Liabilities—	
Real estate & machinery.....	\$542,790	Capital stock.....	\$600,000
Cash.....	12,946	Notes payable.....	90,000
Accounts receivable.....	75,763	Reserve for taxes.....	15,000
Inventory.....	23,360		
Profit and loss.....	50,141	Total (each side).....	\$705,000

On the other hand it should be considered that—

6. At the present time the outlook is improved because changes have been made which should substantially reduce cost of operation and volume of incoming orders has since Sept. 1926, shown some improvement. On this account continued operation should be on substantially better basis and if sufficient business could be obtained to run full, there should be a profit.

7. The plant is carried on the balance sheet of July 3 1926, at a net figure after depreciation of \$542,790. Its value for local assessment last year was \$855,200. It is valued for insurance at a higher sum.

8. Since Jan. 1 1917, over \$528,000 has been spent on the plant.

During the recent months the directors have been giving careful consideration to the finances of the company. They reached the conclusion that the company would have to be liquidated unless additional capital could be obtained. They were convinced that additional capital of at least \$300,000 would be required to pay off existing indebtedness, to provide about \$75,000 for plant improvements necessary to further reduce costs and to provide about \$100,000 of working capital. The directors were also convinced that this new capital could be obtained only on terms which would drastically affect the position of the present stock.

It was reported on Dec. 21 that George M. Flint has completed the purchase of a majority of the stock of the above company. It is also stated that all of the former directors and officers have resigned and their places have been filled by representatives of the new interests. The immediate future of the company will be a period of trial. If after the period of trial it is found that reasonable profits cannot be made, the company will discontinue business and liquidate its assets.

(Charles) Warner Co.—Larger Dividend.—

The directors have declared a dividend of 75c. a share on the common stock, payable Jan. 12 to holders of record Dec. 31. In previous quarters disbursements of 50c. a share were made on this issue.

The directors also declared the regular quarterly dividend of \$1 75 a share on the preferred stock, payable Jan. 27 to holders of record Dec. 31.—V. 121, p. 3145.

Contingent Liabilities.—(1) Notes discounted, endorsed or guaranteed, \$33,150; (2) guarantee of contested income tax, maximum liability, \$100,000; total, \$133,150.

Note.—There are included in unsecured notes payable to banks, notes for \$1,000,000 to be paid from film rentals received from certain films and under specified contracts. The three year notes and certain of the notes payable may be secured under certain conditions.—V. 123, p. 1646.

Warren Bros. Co. (Boston).—Large Contract.—

The company has issued the following statement regarding the Cuban contract recently awarded to it: "The contract amounts to \$75,896,652 and is for the paving of the Central Highway, 750 miles long, from Guane, Pinar del Rio Province, to Santiago de Cuba, the entire length of the island. This constitutes the largest highway contract ever awarded and is probably also the largest public works contract of any kind which has ever been let in a single contract."—V. 123, p. 3054.

Washington Oil Co.—\$4 Dividend Paid.—

On Dec. 20, the company paid to holders of record Nov. 18 a dividend of \$4 per share on its capital stock, par \$25. This compares with \$1 50 per share paid on Sept. 20, and \$1 per share on June 21 last.—V. 123, p. 1517.

Wayagamack Pulp & Paper Co., Ltd.—Resumes Dividends on Common Stock—Annual Report.—

The directors have declared a quarterly dividend of 75c. per share on the new no par value common stock (for the 3 months ended Nov. 30), payable Jan. 3 to holders of record Dec. 21. The last dividend paid was 1% in June 1921 on the old common stock of \$100 par value. This old stock was recently exchanged for no par value stock on the basis of a new no par shares for each share of old common stock held.

Woolson Spice Co.—Extra Dividend of \$2.—

The directors have declared an extra dividend of \$2 per share in addition to the regular quarterly dividend of \$2 per share, on the common stock, both payable Jan. 3. An extra of \$3 per share was paid on the common stock a year ago.—V. 122, p. 227.

(The) Youngstown Sheet & Tube Co.—Listing.—

The New York Stock Exchange has authorized the listing of \$10,000,000 additional 20-year 6% debenture gold coupon bonds, due July 1 1943.—V. 123, p. 3196.

CURRENT NOTICES.

—W. C. Langley & Co., members of the New York Stock Exchange, 115 Broadway, New York, have issued an attractive illustrated booklet on the American Water Works & Electric Co., Inc., reviewing properties and earnings and containing maps in color which show the extent of the corporation's water and electric systems, transmission lines, proposed transmission lines and generating stations.

—George H. S. Soule of the firm of Soule & Co., investment bankers, First National Bank Building, Boston, Mass., together with Mrs. Soule and their daughter Frances, sailed last Saturday for a three weeks' trip to the West Indies aboard the *Reliance*. Prior to entering the investment banking business, Mr. Soule was for many years an assistant cashier of the National Shawmut Bank of Boston.

Reports and Documents.

PUBLISHED AS ADVERTISEMENTS

THE CUBAN-AMERICAN SUGAR COMPANY

ANNUAL REPORT—FOR THE FISCAL YEAR ENDED SEPTEMBER 30 1926.

December 14 1926.

To the Stockholders:

The Board of Directors submits the following report for the fiscal year ending September 30 1926:

Owing to the restrictive measures adopted by the Cuban Government on May 3 1926 our sugar production was considerably reduced and a large quantity of our cane available for grinding was not harvested. The Company produced during the year from its six estates 307,569 short tons (2,000 lbs.), equivalent to 1,922,310 bags (320 lbs. each), of raw sugar, as compared with 341,641 short tons, equivalent to 2,135,259 bags, for the previous year.

A comparison of the output of raw and refined sugar for the past two years appears in the following table:

	1925-1926.	1924-1925.
Cane Ground.....	2,594,481 Tons	3,032,885 Tons
Raw Sugar Produced:	(Bags 320 lbs.)	(Bags 320 lbs.)
Chaparra.....	512,881 Bags	595,942 Bags
Delicias.....	723,834 "	825,794 "
Tinguaro.....	239,634 "	257,111 "
Unidad.....	98,739 "	104,943 "
Mercedita.....	133,720 "	155,054 "
Constancia.....	213,502 "	196,415 "
Total.....	1,922,310 Bags	2,135,259 Bags
	or	or
	307,569 Tons	341,641 Tons

Refined Sugar Production:		
Cardenas Refinery, Cuba.....	60,184,897 lbs.	32,643,685 lbs.
Gramercy Refinery, La.....	234,271,103 lbs.	179,866,378 lbs.

The net profit of the Company for the fiscal year amounted to \$939,253 71. The usual provisions have been made for depreciation of buildings, machinery and equipment, sufficient reserves have been set aside for all doubtful Colonos accounts, for all United States and Cuban Income Taxes, and for the year's proportion of cost of cane plantings. Raw sugar on hand at September 30 has been taken at prices subsequently realized.

The capital outlay during the year was comparatively small, amounting to \$524,721 42, which includes extensions of railroads to cane areas previously planted, machinery purchased to strengthen important factory units, and the construction of additional molasses storage tanks, buildings, etc. Adequate expenditures were also made for repairs and replacements to plant and facilities, in accordance with the Company's policy of maintaining its factories and equipment at the highest standard of efficiency.

Regular quarterly dividends of \$1 75 per share were paid on the preferred stock, and on the common stock three dividends of 50c. and one dividend of 25c. per share were paid. It was decided at the August Meeting of the Board, on account of the continued unsatisfactory condition of the sugar business, to reduce the common stock dividend to 25c. per share.

The Company purchased during the year \$1,000 00 of the First Mortgage Collateral 8% Sinking Fund Gold Bonds due March 15 1931, making a total of \$185,000 of these bonds now in the Treasury.

The Company has no bank indebtedness, and its only current liabilities are those accruing in connection with the daily routine of its business.

The Consolidated Balance Sheet as of September 30 1926, together with the Profit and Loss and Surplus Accounts for the year ended that date, have been audited and certified to by the Company's Auditors, Messrs. Stagg, Mather & Co., and are appended hereto.

The Board wishes to express to the Officers and Employees its sincere appreciation of their loyal and efficient services rendered to the Company during the year.

Respectfully submitted,

By Order of the Board of Directors,

GEORGE E. KEISER, *President.*

CERTIFICATE OF ACCOUNTANTS.

December 13 1926.

To the President and Directors of

The Cuban-American Sugar Company:

We have examined the books and accounts of The Cuban-American Sugar Company and its Subsidiary Companies for the year ended September 30 1926 and hereby certify that the annexed Consolidated Balance Sheet has been correctly prepared therefrom.

Investments in other Companies are carried at conservative values. Refined Sugars on Hand September 30 1926 have been valued at cost, which was lower than market, the stock of Raw Sugar at the net prices subsequently realized and the stock of Molasses at the minimum net price to be received.

Subject to the foregoing and to the final determination of Federal Taxes, we certify that, in our opinion, the annexed

Consolidated Balance Sheet sets forth the true financial position of the Companies as at September 30 1926 and that the relative Profit and Loss and Surplus Accounts correctly show the results of the operations for the period.

STAGG, MATHER & CO.

THE CUBAN-AMERICAN SUGAR COMPANY. and its Subsidiary Companies.

THE FAJARDO SUGAR COMPANY OF PORTO RICO

ANNUAL REPORT TO STOCKHOLDERS FOR 1926.

To the Stockholders of The Fajardo Sugar Co. of Porto Rico:

The Board of Directors hereby begs to submit its eighth annual report of the Fajardo Sugar Company of Porto Rico.

The grinding season commenced January 8 1926 and ended June 12 1926, covering a period of 153 working days. Total cane ground amounted to 626,718 tons, and the factory output was 69,819 tons of sugar. Included in said figures is the output of the Loiza Sugar Company.

The Fajardo Sugar Company acquired during the fiscal year practically all of the outstanding capital stock of the Loiza Sugar Company. The Loiza Sugar Company is adjoining the western properties of the Fajardo Sugar Growers Association which is one of the associated companies. Since taking over these properties, the Company has started with conservative improvements both in the Factory and Field, and it is expected that the benefit of such acquisitions may be shown in the near future.

The following is a comparative statement showing the individual output of the Fajardo Sugar Company of Porto Rico and the Loiza Sugar Company.

Fajardo.

Total cane ground 426,189 tons.

Factory Output 47,656 tons of sugar or 307,460 bags of 310 lbs. each.

Loiza.

Total cane ground 200,529 tons.

Factory Output 22,163 tons of sugar or 177,310 bags of 250 lbs. each.

Attached will be found consolidated balance sheet and statement of profit and loss (including the Loiza Sugar Company) duly certified by Public Accountants.

For the Directors,

JAMES BLISS COOMBS, President.

THE FAJARDO SUGAR COMPANY OF PORTO RICO

and Associated Organizations

To the President and Directors of

The Fajardo Sugar Company of Porto Rico:

We have examined the books and accounts of The Fajardo Sugar Company of Porto Rico and its Associated Organizations for the year ended July 31 1926 (including Loiza Sugar

Company, of which practically the entire outstanding capital stock was acquired during the year by The Fajardo Sugar Company of Porto Rico), and find that the annexed Consolidated Balance Sheet and relative Consolidated Profit and Loss Account for the period have been correctly prepared therefrom.

The Miscellaneous Investment is stated at cost and consists of stock of a corporation not managed or controlled by your Companies. There is no published quotation and we have no information as to its market value.

The Capital Surplus is the difference between the book value of the capital stock of Loiza Sugar Company, which value was confirmed by your officials after careful scrutiny, and the price paid for the same by The Fajardo Sugar Company of Porto Rico.

Subject to such adjustments, if any, as may be made on final review of the Companies' Income Tax matters, we certify that, in our opinion, the annexed Consolidated Balance Sheet is properly drawn up so as to show the true financial position of the Companies at July 31 1926 and that the relative Consolidated Profit and Loss Account correctly shows the result of operations for the year.

COMMERCIAL EPITOME

(The introductory remarks formerly appearing here will now be found in an earlier part of the paper immediately following the editorial matter, in a department headed "INDICATIONS OF BUSINESS ACTIVITY.")

Friday Night, Dec. 24 1926.

COFFEE on the spot was dull with Santos 4s 20c. and Rio 7s 15½c. Cost and freight prices on the 20th inst. were as follows: Santos Bourbon, 2s, 19.60c.; 2s-3s at 19.20 to 20c.; 3-4s at 19 to 19¼c.; 3s-5s at 18 to 18½c.; 4-5s at 17¾ to 18.30c.; 5s at 17.55c.; 5-6s at 17.35c.; 7-8s at 16.85c.; part Bourbon or flat bean 2-3s at 17 to 18c.; 3-4s at 18.30 to 18¾c.; 3-5s at 18 to 18½c.; 4-5s at 17¾c.; 5s at 17.70c.; 6s at 17¾c. Santos peaberry 4s at 18¼ to 18.30c. and Rio 7s at 14.80 to 14.85c. On the 22d they were as follows: Prompt shipment from Santos Bourbon 2s were offered at 19.15c.; 2-3s at 19.20c. to 20¼c.; 3s at 18.30 to 19¼c.; 3½4s at 18¼c. to 18¾c.; 3-5s at 17.80 to 18¼c.; 4-5s at 17.65 to 18¾c.; 5s at 17.55c.; 6s at 17¼c.; part Bourbon or flat bean 2s at 20½c.; 2-3s at 19.20c.; 3-4s at 18.65 to 18¾c.; 3-5s at 17.90 to 18¼c.; 4-5s at 17.70 to 17.85c.; 6s at 17¾c.; Santos peaberry 3s at 18.30c.; 4s at 17.90c. to 18.20c.; 5s at 18c., and Victoria 7-8s at 14.20 to 14½c. No Rio offers. Fair to good Cucuta, 21½ to 21¾c. Washed Caracas fair, 25 to 25½c. Colombian Oceana, 21½ to 22c. Bucaramanga natural, 26 to 27c. Mandheling, 36½ to 39c. Genuine Java, 34 to 35c. Robusta, washed, 20 to 20¼c. Mocha, 29 to 30c. Harrar, 28 to 28½c.

Some 6,000 bags of Bourbon 4s for February sold later at 17½c. Cost and freights were generally somewhat lower on the 21st. Santos Bourbon 2s were here at 19.40c.; 2-3s at 19 to 20½c.; 3s at 19 to 19¼c.; 3-4s at 18.30 to 19¼c. 3-5s at 17.85 to 18.40c.; 4-5s at 17.40 to 18c.; 5s at 17.55c. 5-6s at 16.90c.; Bourbon separations 7-8s at 14¾c.; part Bourbon or flat bean 2s-3s at 20¼c.; 3s at 21½c.; 2-4s at 18 to 18.40c.; 3-5s at 17.90 to 18¼c.; 4-5s at 17.30 to 17.90c.; 5-6s at 17 to 17.55c.; 6s at 17¾c.; Santos peaberry 3-5s at 18 to 18.10c., and Rio 7s at 14.65 to 14.80c. The Brazilian coffee stock in the United States was 531,259 bags, against 706,010 bags a year ago. Santos had a stock of 934,000 bags, against 1,288,000 last year; Rio, 279,000, against 270,000. To-day trade was slow on the spot with No. 7 Rio 15c. and No. 4 Santos 19½c. Santos Bourbon 2-3s, 19½c.; 3s-5s, 18¼c. 5s-6s, 17¼c.; Victoria 7s-8s, 14¼c.

It is stated that mild coffees have recently been depressed and have lost some of the striking premiums over Santos coffee, as holders of spot stocks preferred to sell prior to new crop arrivals. But it is claimed that mild crops are nearly all smaller than usual and will be readily taken by a steadily expanding consumption. The higher grades of coffee are wanted. Some think the market is in a position to respond quickly to bullish events.

Futures were irregular with prices on the 20th inst. 5 points lower to 10 points higher, the latter on March. Trading in general was light. Reports from Santos at one time declared that the bill to stabilize milreis currency had been signed by the President of Brazil, and these reports were later confirmed. Prices of futures on the 22d inst. ended 4 points lower to 2 higher; sales, 32,000 bags. Brazilian cables were firmer; exchange was 6d. The steadiness of Exchange is expected to prove the sheet anchor of the market early in the new year. In the view of some no sharp changes are likely until the holiday season is over. In the face of dullness the market some contend shows noteworthy steadiness. It may be a hint of better things after the turn of the year. The President of Brazil has as stated signed the bill to stabilize exchange, giving the Government power to hold the rate at 5 59-64d. This may in time aid the market. Recent wide daily fluctuations undermined confidence. Futures became dull. Cables reported 7 steamers loading at Rio for Europe. While few offers of Rio are here, Europe evidently is paying higher than America. This may help the market later on notably in the summer months. Montevideo cabled: "Fighting between rebels and Brazilian Federal troops was reported in Picada de Piedras on the Brazilian frontier."

It is recalled that the differences recently narrowed materially as the liquidation of the spot position drew to its close. Why, it is asked, should active months sell 50 to 60 points under the previous month. The liquidation of July,

September and December contracts is remembered. The differences have been curious. Why May should be selling 50 to 60 points under March and July 50 points under May some declare is inexplicable. Less Rio will be available in May than there will be in March and so until new crop appears in the markets. Some are quietly summer months trusting to stabilized exchange to help. To-day futures closed 8 to 13 points higher with sales of 14,000 bags. December opened 12 points lower with 21 notices issued of which 14 Victoria. Other months for a time were down 1 to 5 points. Later came covering and a rally, part of which was lost, before the close. Final prices show a decline for the week of 34 points on December and 2 to 4 on other months.

Spot (unofficial) c. 15½	March	14.43a	July	13.50a

			13.93	13.01a

SUGAR.—Prompt Cuban raws were quiet early in the week at 5.02 to 5.08c. bid and asked, or 3 5-16 to 3¾c. c. & f. Some 30,000 tons are being or will be delivered out of store to refiners on old sales for December delivery. Producers were not pressing sugar on the market. According to one computation the arrivals at Cuban ports were 20,268 tons exports, 56,895 tons, and stock, 117,811 tons. Of the exports, 20,540 tons went to New York, 4,600 to Philadelphia, 13,090 to Baltimore, 3,252 to New Orleans, 3,375 to Savannah, 1,714 to Galveston, 9,590 to Canada, 646 to France and 81 to South America. On Dec. 19 1926 56 centrals were in operation, in contrast with none this year. The weather is reported favorable in Cuba. Guma-Mejer stated the arrivals at Cuban ports for the week at 2,051 tons; exports, 52,378 tons, and stock 122,612 tons. The exports were distributed as follows: North of Hatteras, 46,400 tons; Europe, 1,074; New Orleans, 1,971; Galveston, 1,714, and Canada, 1,219. The London stocks showed an increase of 975 tons for the week, bringing the total to 47,324 tons, against last week's total of 46,349 tons.

Receipts at United States Atlantic ports for the week were 49,512 tons, against 49,875 in the previous week, 66,600 last year and 13,722 two years ago. Meltings, 57,000 against 60,000 in the previous week, 57,000 last year and 22,000 two years ago. Stock 212,450 tons, against 219,938 in the previous week, 65,751 last year and 22,576 two years ago. As some put it, not much change is looked for until after Jan. 1, though it is possible that a few selling orders may cause a slight decline, but not major reaction is expected. Some look for prices to sell at new high levels after the turn of the year when renewed and noteworthy buying of actual sugar makes itself felt. On the 20th inst. Perus afloat nearby sold to the United Kingdom at 16s. c.i.f.; later quoted 16½c. Cubas and (or) Santo Domingos were offered at 16s. 3d. c.i.f. for December and 15s. 10½d. c.i.f. for February-March shipment. Refined was quiet at 6.10 to 6.40c.

Willet & Gray report old crop weekly figures as follows: Cuban exports, 52,378 tons, of which U. S. Atlantic ports received 46,400 tons, New Orleans 1,971 tons, Galveston 1,714 tons, Canada 1,219 tons and Europe 1,074 tons. Stock, 122,612 tons. Futures rose 2 to 3 points on the 20th inst. after an early decline on January liquidation. Later January and March were in demand and the tone strengthened. Europe seemed to be buying March and May. Firmer cables told. When the demand slackened a very slight reaction occurred, ending unchanged to 3 points higher for the day. Refined was 6.20 to 6.40c. and one refiner quoted 6.10c. New business was small but withdrawals large. On the 21st trade was slow at 3¾c. to 5.08c. Futures fell 1 to 2 points net; at one time they were 2 to 3 points lower. Cuba bought. Sales were 22,600 tons. Willett & Gray had a cable from F. O. Licht giving a revised estimate of the German beet crop, the new figures being 1,640,000 tons, or 35,000 tons less than his estimate of Nov. 30. Revised factory estimates were 1,027,000 tons for Czechoslovakia, or a decrease of 73,000 tons, and 1,628,000 tons for Germany, a decrease of 72,000 tons as compared with the last estimate. London cabled rumors of a sale of Cuban raws for February shipment to the United Kingdom at 15s. 9d. c. i. f. Futures on the 22d inst. ended 3 to 6 points net lower with sales of 32,000 tons. Pre-holiday liquidation coincident with rather weak cables were the outstanding features. New York has 923,253 bags in licensed warehouses, but Cuba holds comparatively little of the old crop. London was dull and weak. Trifling sales of Cubas for February-March shipment were made to the United Kingdom at 15s. 9d. c. i. f. The Elbe is about to be closed by ice. Shipments by water from Continental beet markets will therefore cease.

A cable stated that Czechoslovakian refiners have stopped forwarding sugars owing to cold weather and reduced stocks. Many of them are said to have only limited quantities for

sale during the rest of this season. Some argue that the recent advance of prices will not have any great influence on consumption. They do not forget the large visible stocks. The area to be planted will greatly depend on prices prevailing during the spring. Russian sales for export were not over 30,000 to 40,000 tons. Nevertheless, Russia may become a certain factor next year. The recent weakness in January was the subject of comment. It was partly due to the approach of first notice day, Dec. 27, and the desire of outside longs to transfer their holdings to distant deliveries. It is pointed out that the United States Department of Agriculture issued their December estimate of the United States beet sugar crop of 971,000 short tons, equivalent to 866,964 long tons. This compares with their November 1 estimate of 837,000 long tons. Other private estimates of the United States beet crop, however, range from 795,000 to 810,000 long tons. According to some private advices the latest estimate of the Louisiana cane crop amounts to 67,854 short tons, equivalent to 60,584 long tons. Production last year amounted to 124,447 long tons. The forecasted production for the present crop as given above represents the smallest production for Louisiana on record. To-day trading was dull. It was said that 10,000 bags of Cuba sold to the Gulf at about 3 11-32c. c.i.f. Store sugar was quoted at 5.02 to 5.05c. bid and asked; January delivery, 5.05 to 5.08c. Futures closed 1 point lower to 1 point higher with sales of 26,950 tons. Final prices on futures show an advance for the week of 1 to 3 points. Spot at the close was quoted unofficially at 3 5-16c. c. & f.

Spot (unofficial)	3 5-16	March	3.25a	July	3.37a
December	3.21a	May	3.30a	September	3.42a
January	3.18a				

LARD on the spot advanced with futures up and the demand fair; prime Western c.i.f. New York, 12.85 to 12.95c.; compound car lots in tierces, 10c.; refined Continent, 13 1/4c.; South America, 14 1/4c.; Brazil, 15 1/4c. To-day spot prices were firmer. Prime Western 13.05c.; refined Continent, 13 1/4c.; South America, 14 1/4c.; Brazil, 15 1/4c. Futures advanced 13 to 17 points on the 20th with May ribs up 45 points. Offerings were small. Corn was higher. Hogs advanced 15c. Total Western hog receipts were 130,800 against 173,300 last week and 150,500 last year. On the 22d inst. prices were unchanged to 5 points higher; ribs fell 10 points. The decline in grain held back lard. And hogs were not active; total receipts were about 100,000. Packers sold. Hogs on the 20th inst. at Chicago were mostly 10 to 15 points higher early but weakened later. The sales were at 11.40 to 11.80c.; top, 11.90c. Lard advanced on covering by shorts, influenced by light hog run in the West, some selling on the advance but no pressure. Local traders were trying for a moderate advance while offerings were light. On the 18th inst. prices had declined 5 to 8 points. Hogs were steady on continued light receipts, but cash trade was dull and the prospects point to sharp competition from cottonseed oil. Western receipts on Saturday were 37,000, against 39,000 a year ago. Total Western for the week was estimated at 594,000, against 676,000 a year ago. Future on the 23d inst. advanced 10 to 12 points. The increase in the air crop of less than 1% had plainy some effect. The Government report on the pig crop in 11 corn belt States shows an increase of about 4% in the fall pig crop of 1926 and an increase of less than 1% in the combined spring and fall crop of 1926. No indications appear of an increase in the spring crop of 1927 for these States and a probable decrease in hog packing in the report of the 23d inst. To-day futures closed 25 to 30 points higher, and cottonseed oil 10 to 12 higher. Shorts were covering in lard. Offerings were small. Hogs advanced 15 to 35 cents. The top was \$11 90. Western hog receipts were 40,000. Chicago expects 41,000 on Monday and 170,000 next week. Last prices show an advance for the week of 55 to 63 points.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
January delivery	11.92	12.07	12.15	12.15	12.25	12.55
March delivery	12.00	12.17	12.20	12.22	12.35	12.65
May delivery	12.12	12.25	12.30	12.35	12.47	12.80
July delivery	12.25	12.35	12.40	12.45	12.62	12.87

PORK steady; mess, \$36; family, \$40 to \$42; fat back pork, \$30 to \$32. Ribs, Chicago, cash, 14.25c., basis 40 to 60 lbs. average. Beef firm; mess, \$19 to \$21; packet, \$19 to \$21; family, \$21 to \$22; extra India mess, \$34 to \$35; No. 1 canned corned beef, \$3; No. 2, \$8 25; 6 lbs., \$18 50. Cut meats, dull; pickled hams, 10 to 20 lbs., 23 1/4 to 25c.; pickled bellies, 6 to 12 lbs., 21 1/2 to 22c.; bellies clear, dry salted, boxed, 18 to 20 lbs., 19c.; 14 to 16 lbs., 20c. Butter, lower grade to high scoring, 40 to 53c. Eggs, medium to extras, 35 to 56c. Cheese, 23 to 28c.

OILS.—Linseed has been rather quiet of late with 10.9c. quoted for raw oil in carlots, cooperage basis. This price, it is said, could be shaded, however, on a firm bid. There were intimations that business could be done at 10.4c. Flax seed has recently been easier. On the 21st inst. tank cars sold, it was reported, at 9.5c. and raw oil in carlots, cooperage basis, at 10.3c. Coconut, Ceylon, f.o.b. coast, tanks, 7 1/2c.; Manila, coast, tanks, 7 1/2c.; spot, tanks, 8 1/4c. China wood, New York, spot, bbls., 13 to 13 1/4c. Corn, crude, tanks, plant, low acid, 7c. Olive, Den., \$1 38 to \$1 40. Soya bean, nominal. Lard, prime, 15 1/2c.; extra strained, winter, New York, 14 1/2c. Cod, domestic, nominal; Newfoundland, 63 to 66c. Turpentine, 86 to 92 1/4c. Rosin,

\$12 15 to \$17 85. The Census Bureau report on the 18th caused a decline of 9 to 20 points on sales of 10,500 bbls. The indicated consumption for November was smaller than in October and November last year; also the visible supply was 400,000 bbls. larger than last year. November disappearance was 343,000 bbls., against 368,000 in October and 380,000 in November 1925. The visible supply of oil and seed was 1,840,000 bbls., against 1,352,000 in October and 1,423,000 last year. Austin, Texas, wired: "New records of production of cottonseed oil are being set this season by the mills of Texas, and an over-abundance of cottonseed meal and cake for the cattle and other purposes is assured. Practically all of the mills have purchased seed in much larger quantities than usual and most of them have made money. Cottonseed prices are at low levels, \$14 to \$18 a ton being paid, the lower price prevailing in most parts of West Texas. In some localities the price received for the seed does not pay for ginning the cotton and the farmer suffers a loss instead of any profit from this source."

Cottonseed oil sales to-day, including switches, 7,600 bbls. P. Crude S.E., nominal. Prices closed as follows:

Spot	8.00a8.50	February	8.30a8.36	May	8.50a8.54
December	8.10a8.50	March	8.37a8.39	June	8.55a8.65
January	8.15a8.25	April	8.45a8.55	July	8.68a

PETROLEUM.—Gasoline was firmer in the Gulf market owing to a better export demand. United States Motor was quoted at 11c.; 64-66 gravity 375 end point 13c. Locally United States motor was offered at 11 1/2c. A better jobbing demand was reported. Kerosene was firm at 10 1/2c. for water white in tank cars delivered to the trade and 9 1/2c. at the refineries. Prime white was 1c. under white. The Gulf market was steady at 8c. for prime white and 9 1/2c. for water white. Cased kerosene steady but quiet. Bunker oil \$1 75 refineries and \$1 81 1/2 f. a. s. New York harbor. Diesel oil \$2 40 at the refineries. The Gulf market for bunker oil was inactive; \$1 60 f. o. b. refineries. Of late bulk gasoline has been tending higher. Heavy buying was noticeable in the Gulf and Mid-Continent markets. Gulf refiners asked 11 to 11 1/4c. for U. S. Motor and 12 1/4 to 13c. for 64-66 gravity 375 end point in bulk. Local prices advanced to 11 1/4 to 12c. for U. S. Motor. An advance in kerosene prices is looked for shortly owing to small stocks. New York refined export prices: Gasoline, cases, cargo lots, U. S. Motor specifications, deodorized 27.90c.; bulk, refinery 12c.; Kerosene, cargo lots, cases 19.15c.; W.W. 150 degrees 20.65c.; Petroleum, refined, tanks, wagon to store 18c.; Kerosene, bulk, 45-46-150 W. W. delivered, N. Y. tank cars 10 1/2c.; Motor Gasoline, garages (steel bbls. 21c.; Up-State 21c.; New England 21c.; Single tank cars, delivered, New York 12 1/2c.; Naphtha V. M. P. deodorized in steel bbls. 21c.

RUBBER advanced 10 to 30 points net here on the 20th inst. with sales of 405 tons, against 482 1/2 on the 17th inst. London and Singapore were higher. May was the popular month here. Outside prices were stronger. Shipments from the Dutch East Indies show an increase over those of last year. For 10 months ending Oct. 31 they were 106,004 tons of estate, against 90,288 in the same time last year and 65,290 of native, against 65,856 last year; total, 171,294 tons, against 156,144 last year. This had no effect. The closing here on the 20th was as follows: December, 38.20c.; January, 38.20c.; March, 39.90c.; April, 39.20c.; May, 39.40c.; June, 39.60c.; July 39.80c., and October, 40.90c. Outside prices were; Spot and December, 38 1/2c.; January-March, 39c.; April-June 39 1/2c.; first latex crepe, 38 3/4c.; clean, thin, brown crepe; 35 1/2c.; light clean crepe, 36c.; specky brown crepe, 33 1/4c. No. 2 amber, 36 3/4c.; No. 3 amber, 36 1/4c.; No. 4 amber 35c. London on the 20th was rather active for a time, then ended quiet at 1/2c. rise; spot and December, 18 3/4d. to 18 3/4d.; January-March, 19 to 19 3/4d.; April-June, 19 1/2 to 19 3/4d.; July-September, 19 1/2 to 20 1/4d. Singapore advanced 1/4d. to 3/4d. on the 20th; spot and December 18 1/4d.; January, 18 3/4d.; April-June, 18 1/4d., ex-godown Singapore. On the 21st inst. New York was quiet and generally 10 points higher, though December was 20 points net higher here and 1/4d. higher in London. Here only 330 tons were sold at the Exchange. London will be closed four days from Friday to Monday both inclusive for the holidays. December here, 38.58c.; January, 38.20c.; February, 38.50c. On the 23d inst. New York advanced 1/2c. on London and Singapore firmness, with sales at the Exchange here of 555 tons. December closed then at 39c. January at 38.60c.; February at 38.90c.; March at 38.30c. Outside prices were stronger. Ribbed sheets, spot and December, 38 3/4 to 39c.; January-March, 39 1/4 to 39 1/2c.; April-June, 39 1/4 to 40c.; first latex crepe, 39 1/2c.; clean thin brown crepe, 35 1/4c.; light, clean crepe, 36 1/4c.; specky brown crepe, 33 1/2c.; No. 2 amber, 37c.; Para, Caucho Ball, Upper, 21 to 21 1/2c. London was as follows: Spot

and December, 18 $\frac{3}{4}$ to 19d.; January-March, 19 $\frac{1}{4}$ to 19 $\frac{3}{4}$ d. April-June, 19 $\frac{3}{4}$ to 19 $\frac{7}{8}$ d.; July-September, 20 $\frac{1}{8}$ to 20 $\frac{3}{8}$ d. To-day prices rose 40 to 50 points. London was closed. Trading here was not heavy. January ended at 38.80c.; February, 39.20c.; March, 39.50c.; May, 40.05c.

HIDES have been quiet although a somewhat better inquiry was reported for common dry hides. Orinocoas were quoted at 19 $\frac{1}{2}$ c. Antioquias, 23 $\frac{1}{2}$ c. Packer hides were quiet with native steers, 15c.; butt brands, 14c.; Colorado, 13 $\frac{1}{2}$ c.; bulls, native, 9 $\frac{1}{2}$ c. Savanillas were quoted at 20 $\frac{1}{2}$ to 21c. Of frigorifico hides recent sales were 75,000. Last trading was at \$36 50 or 16 $\frac{7}{8}$ c. c.&f.

OCEAN FREIGHTS have been fairly active with grain on the berth to the Continent at 16c. Later high rates were paid for grain tonnage but business was quiet.

CHARTERS included grain from New York to Antwerp or Rotterdam, 34,000 quarters, 3s. 3d., December; 32,000 quarters from Atlantic range to Rotterdam, 3s., January; 22,000 quarters West St. John to Casablanca, 21c., option West Italy, 20c., Jan. 3-20 canceling; from Vancouver to United Kingdom-Continent, 40s. 9d., option Columbia River or Puget Sound, 1s. 3d. extra, January; Vancouver to United Kingdom-Continent, 40s., January-February; Vancouver to United Kingdom-Continent, 41s. 3d., option Columbia River, 42s. 6d., December-January; 30,000 quarters West St. John to West Italy, including Islands, basis 28c., Dec. 30 canceling; 25,000 quarters Atlantic range to Hamburg, 17c., Dec. 31 canceling; Atlantic range to West Italy, 21c. one port, 22c. two, spot; Atlantic range to Lisbon, 3s. 10 $\frac{1}{2}$ d., prompt; sugar from Cuba to Marseilles, 28s., Jan. 10-20 canceling; Santo Domingo to United Kingdom-Continent, 21s. 6d., Jan. 20-Feb. 10 canceling; coal from Hampton Roads to West Italy, \$4 25 spot; Hampton Roads to Para, \$4 25 prompt; tankers, 4,058 net, clean, Gulf to north of Hatteras, 45c., December-early January; two steamers, Gulf to north of Hatteras, several trips, 44c., January; 1,418 net, 5 to 8 trips, Black Sea to Alexandria, 15s., January; Gulf to north of Hatteras, 44c.; 8,300 tons, clean, Batum or Novorossisk to United Kingdom-Continent, 38s. 6d., January; 5,000 tons, lubricating, Batum or Novorossisk to United Kingdom-Continent, 37s. 6d., January-February; 3,500 tons, lubricating, Constanza to La Pallice, 31s., January; 2,600 tons, lubricating, Batum to United Kingdom-Continent, 33s. 6d., two trips, February-March. Time charters: 997 net, round trip West Indies trade, \$2 25, prompt; 1,191 net, round trip West Indies trade, \$1 65, prompt; 1,460 net, round trip West Indies trade, \$1 40, continuation; 707 net, round trip West Indies trade, \$2 50, December; 1,107 net, round trip West Indies trade, \$2, December; oil cake, Philadelphia to Rotterdam, 24c., December; sulphur, Gulf to Tarragona, \$5 50, January; Gulf to Tarragona, \$4 75, February.

TOBACCO has been quiet as usual at this time of year and no revival of business is expected until after the holidays. Prices under the circumstances are largely nominal. Wisconsin binders, 20 to 22c.; Southern, 40 to 45c.; Southern, 25 to 35c.; New York State, seconds, 45c.; Ohio, Gebhardt binder, 22 to 24c.; Little Dutch, 21 to 22c.; Zimmer Spanish, 28c.; Havana, 1st Remedios, 85c.

COAL, as usual at this time, is quiet here. Chicago and Cincinnati reported a rather better demand for winter needs. Best low volatile lump and egg were quoted at \$4 50 and stove size at \$3 50. Run of mine ranged from \$2 75 to \$3 25. Bunker quotations were as follows: At New Orleans, \$6 90, t.i.b., best Sipsey; at Mobile, \$5 90; at Galveston, \$5 95; at Charleston, f.o.b., \$5 25; at Barbados, 55s. On Nov. 18 about 100s. was the bunker price in the Azores. Despite the ending of the British coal strike, the American output keeps up to a degree that excites comment. West Virginia production for the year is put at 140,000,000 tons. For the week ending Dec. 4 it was 3,489,000 tons, or half a million tons more than last year during the hard coal strike and 33 1-3% larger than in the Dec. 6 week of 1924. Much the same is true of the bituminous coal industry of Pennsylvania. In the week ending Dec. 4 Pennsylvania mined 3,796,000 tons of soft coal or 500,000 tons more than a year ago and nearly 1,000,000 more than two years ago. In other words, the momentum imparted by the British strike seemingly continued automatically. Latterly the soft coal production has fallen off, however.

COPPER has been quiet and easier. Sales were reported by smaller interests at as low as 13.55c. On the 21st inst. the price averaged 13.57 $\frac{1}{2}$ c. delivered to Connecticut Valley. Some producers, it is said, have not made sales thus far this week. The official price of Copper Exporters, Inc., was 13.95c. c. i. f. Hamburg. Production of blister copper by smelters of the world is rapidly increasing. For November a new high record for the industry was established when 148,45 tons were produced. Standard in London on the 21st inst. declined 2s. 6d. to £57 for spot and £57 15s. for futures; electrolytic unchanged at £64 5s. for spot and £64 15s. for futures. On the 22d inst. London standard fell 7s. 6d. to £56 12s. 6d. and futures dropped 5s. to £57 10s.; electrolytic unchanged. Latterly sales have been made at 13 $\frac{1}{2}$ c. delivered. London standard advanced 12s. 6d. on the 23rd inst. to £56 15s.; futures, £57 10s.; electrolytic, £64 5s. spot and £64 15s. futures.

TIN has been quiet and lower. The price dropped to the lowest level seen for several months. Straits tin sold at 67 $\frac{1}{2}$ c. on the 22nd inst. and March at 66 $\frac{7}{8}$ c. A sale of 99% tin was reported at 65 $\frac{3}{4}$ c. Spot standard in London on the 21st inst. dropped £1 12s. 6d. to £307 and futures fell £1 15s. to £298; spot Straits dropped 12s. 6d. to £314; on the 22d inst. prices there declined £1 15s. to £3 5s.; spot standard, £303 15s.; futures, £295 5s.; spot Straits, £310 15s.; Eastern c.i.f. London dropped £7 to £309. Latterly the tone has been weak. Spot and December, 67 $\frac{1}{4}$ c.; January, 67 $\frac{1}{8}$ to 67 $\frac{1}{4}$ c.; February, 66 $\frac{3}{4}$ c. London dropped £1 to £302 15s.; futures rose 5s. on the 23d inst. to £296 10s. for standard; Straits off £1 to £309 15s. Eastern c.i.f. London up £1 10s. to £304 10s.

LEAD dull. The leading producer quoted at one time 7.80c. New York and in the East St. Louis district 7.67 $\frac{1}{2}$ c.

was asked. Stocks in the hands of producers are small. Lead ore was unchanged at \$100. Spot lead in London on the 21st inst. was unchanged at £29 3s. 9d.; futures advanced 1s. 3d. to £29 11s. 3d.; on the 22d inst. prices there again declined, i. e., 1s. 3d. to £29 2s. 6d. for spot and £29 10s. for futures on sales of 200 tons of futures. Later St. Louis was 7.65c., a decline of 2 $\frac{1}{2}$ points. Some sales were made, it is understood, at 7.57 $\frac{1}{2}$ c. Trade was quiet. On the 23d inst. London, spot, £29 2s. 6d.; futures off 1s. 3d. to £29 8s. 9d.

ZINC has been in small demand. Not much change in prices was reported. In fact the range has been between 7 to 7.05c. for two or three weeks past. High-grade zinc sold at 9 to 9 $\frac{1}{4}$ c. delivered to New York. Brass special commands a premium of 7 $\frac{1}{2}$ to 10 points over prime Western.

London on the 21st inst. advanced 1s. 3d. to £32 17s. 6d. for both spot and futures; on the 22d inst. spot rose 5s. to £33 2s. 6d. and futures unchanged at £32 17s. 6d. Sales this week are said to have been made at under 7c. The usual quotation has been 7.02 $\frac{1}{2}$ c. On the 23d inst. London spot dropped 2s. 6d. to £33; futures off to £32 16s. 3d.

STEEL has been as a rule quiet, though a fair trade has been reported at Pittsburgh, January shipping instructions came with it on plain wire and mixed carloads of wire products. Purchases of freight cars have given a little life to the market. But the tendency of operations is to slacken as usual towards the end of the year. Not a few mills are said to be running now at only 60% and some Easter plate mills at 50%. Tin plate mills are operating at 95 to 100%. Less time will be taken, too, as a rule for inventories this year. Only the regular holidays it is said will be observed by most mills. Youngstown reports a demand for plates from the Southwest for storage tanks. It is not very large but it helps. Also from electric and crane concerns have some inquiries. But taking the finished steel trade as a whole new business shows the usual falling off at this time. Car steel, it is declared, promises well however for 1927. Automobile companies show rather more life.

PIG IRON has been in the main quiet even if now and then some increase in the inquiry has been reported here. New England says that Buffalo iron is available at as low as \$18. This contrasts strikingly with the nominal quotation there as high as \$19. Eastern Pennsylvania is quoted at \$22 to \$22 50. The talk here is that New York State furnaces outside of Buffalo are booking iron at \$20 50 per ton and upward, depending on competition, however, that may be reconciled with the reported situation at Buffalo. Eastern Pennsylvania iron has been offered to New England, it is said, at \$22 furnace. That is nothing striking. It harmonizes with a quotation of \$22 50 for some other territory. A bid of \$18 50 valley furnace was made, it is said, for 12,000 tons of iron. Its acceptance would mean a decline of 50c. In Pittsburgh trade has been slow. Only small lots have been sold and the nominal quotation of \$20 current for about 60 days has given way, it is stated, to \$19. That is now frankly quoted generally. Birmingham is still quoting \$20 for No. 2 foundry, and is hopeful of a revival of business in iron very shortly. It is said that surplus stocks in the South are small. Importations of foreign iron at Philadelphia for the week ended Dec. 15 were 3,165 tons, including 1,000 tons of German iron and 2,165 tons of Dutch. The British iron output is at a new low level.

WOOL has met with a rather better demand for some medium grades. In Boston territory wools sold the most readily but in Ohio 48s-50s there has been a small business. The territory 40-50s brought 77 to 82c. scoured basis. Ohio 48-50s sold at 45c. in the grease for choice. Other offerings were at 44c. Both territory and Ohio 56s quality wool had slightly better inquiry at one time but it was usually less than for 48-50s. Mohair was firm with a moderate call. The rail and water shipments of wool from Boston from Jan. 1 1926 to Dec. 16, incl., were 192,067,000 lbs., against 169,553,300 lbs. for the same period last year. The receipts from Jan. 1 1926 to Dec. 16, inclusive, were 329,804,367 lbs., against 297,974,700 lbs. for the same period last year.

Ohio and Pennsylvania fleeces, delaine unwashed, 45 to 46c.; $\frac{1}{2}$ blood combing, 45 to 46c.; $\frac{3}{4}$ blood combing, 45c.; $\frac{1}{2}$ blood combing, 44c.; fine unwashed, 38 to 39c. Michigan and New York fleeces, delaine unwashed, 43 to 44c.; $\frac{1}{2}$ blood combing, 43 to 44c.; $\frac{3}{4}$ blood combing, 45c.; $\frac{1}{2}$ blood combing, 44c.; fine unwashed, 36 to 37c. Wisconsin, Missouri and average New England, $\frac{1}{2}$ blood, 40 to 41c.; $\frac{3}{4}$ blood, 42 to 43c.; $\frac{1}{2}$ blood, 41 to 42c.; Scoured basis: Texas, fine, 12 months (selected), \$1 05 to \$1 08; fine, 8 months, 90 to 92c.; California Northern, \$1 to \$1 05; Middle County, 92 to 95c.; Southern, 72 to 75c.; Oregon, Northern, \$1 03 to \$1 05.

At Adelaide, Australia, on Dec. 17 offerings 32,400 bales and 93% sold. Attendance large. Demand good. Selection fair. Much of the top-making wools affected by burr. Compared with the sales of Oct. 29, supers, good to average, unchanged; inferior and faulty sorts lower and good pieces and combing lambs firm. Topmaking sorts, 64s., clean scoured Adelaide brought 33d., the top price on greasy was 23d. Dunedin, N. Z., on Dec. 20 offerings 16,000 bales; sales, 15,700 bales. Demand good. Close firm. Prices were as follows: Super merinos, 20 to 31 $\frac{1}{4}$ d.; average, 18d. to 19 $\frac{3}{4}$ d.; crossbreds, 56-58s., 17d. to 21 $\frac{1}{4}$ d.; 50-56s., 16 $\frac{1}{2}$ d. to 19 $\frac{3}{4}$ d.; 48-50s., 14d. to 18d.; 46-48s., 13 $\frac{1}{2}$ d. to 16d.; 44-46s., 11 $\frac{1}{2}$ d. to 14d.; 40-44s., 10d. to 13d., and 36-40s., 10d. to 12d. In Liverpool on Dec. 22 offerings about 2,900 bales of River Plate; sales, 2,000 bales. Condition very good and remarkably free from burr. Montevideo cross-

breeds were wanted; prices 5% above the last rates. Buenos Aires irregular; it was longer and coarser generally. Prices up to the recent London level.

COTTON.

Friday Night, Dec. 24 1926.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 339,577 bales, against 400,731 bales last week and 451,084 bales the previous week, making the total receipts since the 1st of August 1926, 8,233,504 bales, against 6,305,468 bales for the same period of 1925, showing an increase since Aug. 1 1926 of 1,928,036 bales.

Receipts at—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.	Total.
Galveston	16,227	15,434	30,908	13,551	15,097	11,541	102,758

* Houston statistics are no longer compiled on an interior basis, but only on a port basis. We are changing accordingly.

The exports for the week ending this evening reach a total of 261,010 bales, of which 64,062 were to Great Britain, 29,292 to France, 63,368 to Germany, 29,185 to Italy, to Russia, 49,608 to Japan and China, and 25,495 to other destinations. In the corresponding week last year total exports were 120,709 bales. For the season to date aggregate exports have been 5,132,528 bales, against 4,362,992 bales in the same period of the previous season. Below are the exports for the week:

Week Ended Dec. 24 1926. Exports from—	Exported to—						
	Great Britain.	France.	Germany.	Italy.	Russia.	Japan & China.	Other.
Galveston	8,398	14,359	—	9,213	—	15,625	3,986

NOTE.—Exports to Canada.—It has never been our practice to include in the above tables reports of cotton shipments to Canada, the reason being that virtually all the cotton destined to the Dominion comes overland and it is impossible to get returns concerning the same from week to week, while reports from the customs districts on the Canadian border are always very slow in coming to hand. In view, however, of the numerous inquiries we are receiving regarding the matter, we will say that for the month of November the exports to the Dominion the present season have been 33,415 bales. In the corresponding month of the preceding season the exports were 32,498 bales. For the four months ended Nov. 30 1925 there were 84,361 bales exported as against 80,302 bales for the corresponding four months of 1925.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named:

Dec. 24 at—	On Shipboard, Not Cleared for—					Leaving Stock.
	Great Britain.	France.	Germany.	Other Foreign.	Coastwise.	
Galveston	15,200	11,700	14,800	50,000	11,000	102,700
New Orleans	15,439	10,283	12,292	19,869	2,804	60,687

* Estimated.

Speculation in cotton for future delivery has been on a fair scale and in the main at higher prices owing to cold, wet weather, lessened ginning, covering of shorts and mill buying. A sharp turn in December also had its effect. It ran up to a premium over January of 65 points. That was hardly expected. For at times December looked harmless. It did not turn out so to the belated shorts and the mills, which for some reason had delayed to call their cotton. Also heavy rains prevailed at times in parts of the Central and Western belts. It has been cold over much of the cotton region. It continued to be in many sections to the end of the week. The weekly report was not favorable. It corroborated earlier statements that the picking and ginning had been delayed. For that matter the retarding of the ginning was strikingly manifest in the report of Dec. 20. In fact that was one of the influential factors of the week. It put the ginning total up to Dec. 13 at 15,542,249 bales, against 14,831,846 up to the same time last year and 12,792,294 in 1924. The total was perhaps 250,000 bales smaller than many had expected. The ginning from Dec. 1 to 13 was only 895,880 bales. That was roughly 700,000 bales smaller than in each of the two previous periods. It was also some 70,000 bales smaller than in the same period last year. That made no small impression. It was new evidence of the difficulty of picking and ginning in recent weather conditions. The total up to Dec. 13, it will be seen, was only 710,400 bales larger than up to the same date last year. Yet the crop has been estimated as 2,500,000 to 3,000,000 bales larger than the last one. The ginning news caused many to look askance at some of the recent big crop estimates, not excepting that by the Government on the 8th inst. of 18,618,000 bales, against 16,104,000 last year. Meantime a good deal of cotton is exposed in the fields west of the Mississippi River. On one day Little Rock, Ark., had rain of nearly six inches, and Texas, Louisiana and Tennessee two to three inches, with smaller and undesirable rains elsewhere in the belt. It is taken as a foregone conclusion that such weather is lowering the grade, if not beating out more or less cotton. Under the circumstances spot markets have advanced. The basis on both the low and the high grades is said to have risen notably in Texas. Daily spot sales which recently fell for a time below the total for the corresponding days last year have latterly run above such totals, as they have done for the most part for a couple of months past. Exports are mounting rapidly. It is insisted that America will benefit greatly by the recent disposition in Asia and Europe to take American cotton on a very considerable scale.

instead of India. It is still claimed that the American is cheaper than the East Indian and also superior to it. On Thursday the importations of cotton in Liverpool were 44,000 bales, all of which was American, and while futures rather lagged there that day spot cotton advanced 38 American points.

Cairo, Egypt, advices said that Egyptian Government announced its intention to purchase all January contracts for Sakellaridis cotton at 23.50 per cantar and all December and February contracts Achmouni at 15.50 per cantar, and in each case the Government will ask delivery.

On the other hand, the recent advance of about 100 points has weeded out considerable of the short interest. The technical position is not as strong as it was a week ago, even if it be true that there is still a short account by no means of negligible size. The crop, of course, however, is much the largest ever grown. With better weather ginning will make a better showing. There is no large speculation here. The outside public is more interested in other things. Lately there has been some falling off in the demand for spot cotton as usual at this time of the year. Liverpool has had no very stimulating effect on New York. The January notices, which will be due on Dec. 27, it is said, are likely to be large. The certificated stock here is something over 97,000 bales. How much of it will be tendered nobody knows, or at any rate very few. In previous months, when the tenders were large, they were promptly stopped. The notices may also be rather large in New Orleans. The certificated stock there is about 56,000 bales. Cotton goods have latterly been quiet, aside from colored cottons, which are said to have sold more freely. Some textile reports from Connecticut and New Hampshire have been favorable. But Worth Street has been slow, even if some large interests have been buying certain goods ahead to some extent. Fall River has been quiet. Charlotte, N. C., reports that there will be a general closing down of Southern mills beginning to-night for ten days, ostensibly for the purpose of taking inventories. Manchester much of the time has been quiet, although the inquiry is said to have been larger. The trouble is the bids are not always satisfactory.

To-day prices advanced slightly, with the cables rather firmer and the weather more or less threatening. Shorts preferred to cover before the holidays. Mills called a little cotton. Offerings were not large. Hedge selling was very light. In fact, there was no pressure on the market. At one time there was some selling of January. That was apparently from a fear of large notices on Monday. One rumor is that the issue will be nearly or quite 100,000 bales. Nobody knows. Weekly statistics made no impression. Final prices show a decline on December for the week of 25 points, while other deliveries ended at a net rise of 12 to 24 points. Spot cotton closed at 12.95c., an advance for the week of 40 points.

The following averages of the differences between grades, as figured from the Dec. 23 quotations of the ten markets designated by the Secretary of Agriculture, are the differences from middling established for deliveries in the New York market on Dec. 31:

Middling fair.....	1.34 on	*Middling "yellow" stained.....	3.48 off

Continental imports for past week have been 218,000 bales. The above figures for 1926 show an increase over last week of 291,326 bales, a gain of 1,485,249 over 1925, an increase of 2,541,917 bales over 1924, and an increase of 3,789,250 bales over 1923.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Aug. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding periods of the previous year, is set out in detail below:

Towns.	Movement to Dec. 24 1926.				Movement to Dec. 24 1925.			
	Receipts.		Shipments.	Stocks Dec. 24.	Receipts.		Shipments.	Stocks Dec. 24.

* Houston statistics are no longer compiled on an interior basis, but only on a port basis. We are changing accordingly.

The above total shows that the interior stocks have increased during the week 6,361 bales and are to-night 438,577 bales less than at the same time last year. The receipts at all the towns have been 124,367 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE AUG. 1.

Dec. 24— Shipped—	1926		1925	
	Week.	Since Aug. 1.	Week.	Since Aug. 1.
Via St. Louis	17,545	308,259	23,412	394,755
Via Mounds, &c.	12,720	184,020	10,642	170,602
Via Rock Island	1,294	9,802	2,237	20,637
Via Louisville	2,846	28,941	1,881	35,683
Via Virginia points	6,338	127,391	5,764	105,115
Via other routes, &c.	18,099	262,583	5,800	238,179
Total gross overland	58,842	920,996	49,736	964,971
Deduct Shipments—				
Overland to N. Y., Boston, &c.	3,411	63,136	11,228	58,234
Between interior towns	674	11,090	612	11,339
Inland, &c., from South	30,022	363,035	16,492	231,289

CENSUS REPORT ON COTTONSEED OIL PRODUCTION DURING NOVEMBER.—Persons interested in this report will find it in our department headed "Indications of Business Activity," on earlier pages.

ACTIVITY IN THE COTTON SPINNING INDUSTRY FOR NOVEMBER.—Persons interested in this report will find it in our department headed "Indications of Business Activity" on earlier pages.

COTTON GINNING REPORT.—The Bureau of the Census on Dec. 20 issued the following report indicating the number of bales of cotton ginned in each of the cotton-growing States in the present season up to Dec. 13, in comparison with corresponding figures for the preceding seasons. This report shows that for the present season 15,542,249 bales of cotton have been ginned, comparing with 14,831,846 bales last year and only 12,792,294 bales two years ago.

REPORT ON COTTON GINNING.

Number of bales of cotton ginned from the growth of 1926 prior to Dec. 13 1926 and comparative statistics to the corresponding date in 1925 and 1924.

State.	Running Bales (Counting round as half bales and excluding linters.)		
	1926.	1925.	1924.
Alabama	1,415,000	1,336,609	989,859
Arizona	82,564	82,411	86,379
Arkansas	1,322,064	1,348,947	1,016,773
California	97,914	83,240	62,157
Florida	32,828	39,866	19,631
Georgia	1,366,900	1,180,922	1,011,560
Louisiana	771,790	867,254	482,873
Mississippi	1,647,321	1,708,109	1,100,144
Missouri	179,211	227,252	140,491
New Mexico	53,040	57,529	45,053
North Carolina	1,081,710	1,084,653	761,695
Oklahoma	1,292,348	1,516,943	1,373,466
South Carolina	902,655	909,793	798,400
Tennessee	386,434	452,178	317,921
Texas	4,858,287	3,870,959	4,570,368
Virginia	41,879	48,342	27,059
All other	10,314	16,839	8,465
Total United States	15,542,249	14,831,846	12,792,294

The statistics in this report include 557,729 round bales for 1926; 306,616 for 1925, and 293,918 for 1924.

The statistics for 1926 in this report are subject to slight corrections when checked against the individual returns of the ginners being transmitted by mail. The corrected statistics of the quantity of cotton ginned this season prior to Dec. 1 are 14,646,369 bales.

Consumption, Stocks, Imports and Exports—United States.

Cotton consumed during the month of November 1926 amounted to 583,950 bales. Cotton on hand in consuming establishments on Nov. 30 was 1,497,844 bales, and in public storage and at compresses 6,517,565 bales. The number of active consuming cotton spindles for the month was 32,586,770. The total imports for the month of November 1926 were 41,441 bales and the exports of domestic cotton, including linters, were 1,486,224 bales.

World Statistics.

The estimated world's production of commercial cotton, exclusive of linters, grown in 1925, as compiled from information secured through the domestic and foreign staff of the Department of Commerce is 26,504,000 bales of 478 pounds lint, while the consumption of cotton (exclusive of linters in the United States) for the year ending July 31 1926, was approximately 23,720,000 bales of 478 pounds lint. The total number of spinning cotton spindles, both active and idle, is about 164,000,000.

WEATHER REPORT BY TELEGRAPH.—Reports to us by telegraph this evening indicate that, due to the cold, wet weather in the northern sections of the cotton belt, very little progress has been made the present week in gathering the cotton still remaining to be picked.

The above statement shows: (1) That the total receipts from the plantations since Aug. 1 1926 are 9,026,138 bales; in 1925 were 8,125,404 bales, and in 1924 were 7,248,077 bales. (2) That although the receipts at the outports the past week were 339,577 bales, the actual movement from plantations was 345,938 bales, stocks at interior towns having increased 6,361 bales during the week. Last year receipts from the plantations for the week were 299,671 bales and for 1924 they were 251,964 bales.

WORLD SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Aug. 1 for the last two seasons, from all sources from which statistics are obtainable, also the takings or amounts gone out of sight for the like period.

Cotton Takings, Week and Season.	1926.		1925.	
	Week.	Season.	Week.	Season.
Visible supply Dec. 17	8,102,710	3,646,413	6,709,211	2,342,887
Visible surplus Aug. 1	475,673	12,166,754	421,075	11,113,182
American in sight Dec. 24	104,000	495,000	98,000	779,000
Bombay receipts Dec. 23	13,000	134,000	13,000	194,000
Other India shipm'ts Dec. 23	51,000	865,400	62,000	925,200
Alexandria receipts Dec. 22	15,000	387,000	20,000	428,000
Other supply to Dec. 22 b. *	8,761,383	17,694,567	7,323,286	15,782,269
Deduct—				
Visible supply Dec. 24	8,394,036	8,394,036	6,908,787	6,918,787
Total takings to Dec. 24 a.	367,347	9,300,531	414,499	8,873,482
Of which American	273,347	7,276,131	282,501	6,735,284
Of which other	94,000	2,024,400	132,000	2,138,200

* Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c. a This total embraces since Aug. 1 the total estimated consumption by Southern mills—2,046,000 bales in 1926 and 1,740,000 bales in 1925—takings not being available—and the aggregate amounts taken by Northern and foreign spinners, 7,254,531 bales in 1926 and 7,133,482 bales in 1925, of which 5,230,131 bales and 4,995,282 bales American. b Estimated.

INDIA COTTON MOVEMENT FROM ALL PORTS.

December 23. Receipts at—	1926.		1925.		1924.	
	Week.	Since Aug. 1.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
Bombay	104,000	495,000	98,000	779,000	79,000	497,000
# ports from—	For the Week.			Since August 1.		
	Great Britain.	Continent.	Japan & China.	Great Britain.	Continent.	Japan & China.
Bombay—						
1926	15,000	23,000	38,000	1,000	105,000	239,000
1925	10,000	50,000	60,000	12,000	156,000	284,000
1924	4,000	45,000	49,000	16,000	77,000	351,000
Other India—						
1926	2,000	11,000	13,000	10,000	124,000	134,000
1925	3,000	10,000	13,000	41,000	153,000	194,000
1924	4,000	5,000	9,000	12,000	86,000	98,000
Total all—						
1926	2,000	28,000	51,000	11,000	229,000	239,000
1925	3,000	20,000	73,000	53,000	309,000	284,000
1924	4,000	9,000	58,000	28,000	163,000	351,000

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 6,000 bales. Exports from all India ports record a decrease of 22,000 bales during the week, and since Aug. 1 show a decrease of 167,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—We now receive weekly a cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, December 22.	1926.	1925.	1924.
Receipts (cantars)—			
This week	260,000	310,000	310,000
Since Aug. 1.	4,313,319	4,632,279	5,291,237

Export (bales)—	This Week.		This Week.		This Week.	
	Since Aug. 1.	Since Aug. 1.	Since Aug. 1.	Since Aug. 1.	Since Aug. 1.	Since Aug. 1.
To Liverpool	10,000	101,917	6,500	92,997	7,000	111,237
To Manchester, &c.	77,600	77,600	79,417	79,417	11,500	130,109
To Continent and India	10,000	151,892	17,000	157,353	13,000	180,449
To America	1,000	53,028	2,000	59,133	10,000	63,983
Total exports	21,000	384,517	25,500	388,900	41,500	485,778

Note.—A cantar is 99 lbs. Egyptian bales weigh about 750 pounds. This statement shows that the receipts for the week ending Dec. 22 were 260,000 cantars and the foreign shipments 21,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market in both yarns and cloths is quiet. Merchants are buying very sparingly. We give prices to-day below and leave those for previous weeks of this and last year for comparison.

Week ended	1926.				1925.

BREADSTUFFS

Friday Night, Dec. 24 1926.

Flour has been in only moderate demand at best, nor is anything better expected during the brief remainder of the present year. Buyers in very many cases are supplied for the immediate future. They show no desire to stock up further at this time. Reports from some of the mills show a falling off in business. The grinding is mostly, it appears, on old orders on which shipping directions have been received. Very many buyers look for lower prices. They think American wheat quotations are too high as compared with those of other countries, and that the American sooner or later will decline under foreign competition in the wheat trade of the world in the markets of Europe.

Wheat advanced with the Government crop estimate 7,000,000 bushels smaller instead of somewhat larger, as had been expected. Also, world shipments last week were small. There was a decrease in the amount of wheat on passage to Great Britain. It was said that Southern Hemisphere competition had been largely discounted. In any case it will not be sharply operative, it is assumed, for a month and a half or two months. Moreover, American cash prices were braced by the superior quality of the United States crop this season. The United States visible supply decreased last week 426,000 bushels, in contrast with an increase in the same week last year of 1,688,000 bushels. The total is now 65,766,000 bushels, against 47,159,000 a year ago. Liverpool advanced ½ to ½d. on the 20th; Buenos Aires rose 1c. But export business was small, only 250,000 bushels. Australian indications point to a total yield of over 155,000,000 bushels, against a final last year of 115,000,000 bushels, with the exports 68,000,000 bushels. The crop surplus this season in Australia, it is suggested, will be fully 100,000,000 bushels. World's shipments amounted to 12,225,000 bushels. The total on passage was 37,192,000 bushels.

The Government report made the final estimates on the winter wheat 626,929,000 bushels, against a preliminary figure of 626,412,000 and a final last year of 395,610,000 bushels; spring wheat 205,376,000, against 213,336,000 the preliminary figure and 270,875,000 the final crop last year; all wheat 832,205,000 bushels, against 839,818,000 preliminary and 666,485,000 the final last year.

Shorts covered freely on the 21st inst. December shorts bought. Export sales were only 200,000 bushels on the stiff advance. The Canadian visible supply increased for the week 8,197,000 bushels, but Bradstreet's world total fell off 3,882,000 bushels. Northwestern cash markets were rising,

cash premiums advanced and rye shot upward 4 to 4½c. on German advices and a keener demand. European cables continued to tell of a large shortage in the potato crop. Recent estimates placed the production around 7,200,000 bushels less than that of last year. It has not caused any increase in the buying of wheat, particularly in the North American market. Some believe the situation is developing a decided undertone of strength that suggests higher prices.

Receipts of wheat at Minneapolis so far on this crop amount to 48,320,000 bushels, against 65,183,000 bushels for the same time last year. Receipts of oats were 11,988,000, against 24,333,000 a year ago. One Northwestern house wired that the above figures show plainly that the crop, especially wheat and oats, was correctly termed a short one. While there are undoubtedly other sources of supply for wheat the oats situation indicated that present stocks in terminals may justly be termed our stock in trade for the year. This interest feels that should a good demand for this grain continue the price could be advanced easily. Minneapolis wired: "There is some buying of our May wheat against sales of Chicago July at 9c. premium for Minneapolis."

The acreage sown this fall to winter wheat is 41,807,000 acres, or 5% more than the revised estimate of 39,799,000 acres sown in the fall of 1925, the Department of Agriculture estimates in its report. The revised estimate of the sowings in the fall of 1924 was 38,848,000 acres. Winter damage for 10 years past has caused an average abandonment of 1.9 to 28.9 in different years. Estimated wheat production of 36 countries for 1926 amounts to 3,322,000,000 bushels, against 3,353,000,000 last year, a decrease of about 2% for the same countries as compared with last year's production. The estimate of world wheat acreage, excluding Russia, is 231,000,000 acres, a decrease of 11% under last year, and the United States at 57,600,000 acres and Canada 22,800,000 acres. Fall sowings in Europe, the Department states, have been made under favorable conditions in most countries, especially in Northern and Central Europe. On the 23d inst. prices declined somewhat on December liquidation. Liverpool was off ½ to ¾c. Buenos Aires advanced ½c. Rains were reported in Argentina.

To-day prices closed unchanged to ¾c. lower here, ¾c. lower to ½c. higher in Chicago, ¼c. lower to ½c. higher in Minneapolis and unchanged to ½c. higher in Winnipeg. In other words, no marked net changes occurred. It was a holiday affair. Argentine prices were somewhat lower, although showers were reported. Argentine exports were small; those from Australia increased to 2,064,000 bushels. North American exports reached the large aggregate of 13,400,000 bushels. World shipments for the week are estimated at 16,900,000 bushels. Export sales were 200,000 to 300,000 bushels, including 50,000 from the Gulf. The world's stock is estimated in the West at 300,000,000 bushels, against 257,000,000 last year. Some wheat was said to have been worked from St. Louis to Chicago yesterday. Flour was quiet. The wheat market showed good staying power. That excited comment. Final prices show an advance for the week of ¼ to 1½c.

Indian corn advanced, despite an increase in the United States visible supply last week of 1,044,000 bushels. In the same week last year the increase was 3,527,000 bushels. The total now is 30,350,000 bushels, against 11,449,000 a year ago. The United States Government crop statement was not considered bullish, but it had little effect for a time. But on the 22d inst. came a drop of 1½c., with wheat down and the weather better. It looked like colder conditions presaging larger receipts. It is mostly a weather market. The corn crop was figured in the Government report as 2,645,000,000 bushels, against 2,693,963,000 bushels last month and a final last year of 2,905,053,000. On the 21st inst. prices advanced sharply. The rise was 1½ to 2c. in response to an advance in wheat and rye. The small increase in the Government pig output report had some effect; on the 23d inst. prices fell ½ to ¾c. The increase was less than 1%. The Indiana report said that about three-quarters of the crop was reported gathered. Corn in the field was badly down, but cold weather prevented deterioration and there were less complaints of molding in crop.

To-day prices closed unchanged to ¾c. lower in a small market. It was an evening-up affair before the holidays.

Unsettled weather prevented any marked decline. Cash prices were steady, although trade was small. Final prices show a decline of 1¼ on December, while May and July are ¼c. higher.

Oats advanced at times. On the 20th the rise was ½c., though the Government report was found to be rather bearish. But some were disposed to buy oats on declines. Shorts were not at all aggressive. The United States visible supply decreased last week 663,000 bushels, against an increase in the same week last year of 296,000 bushels. The total is now only 45,013,000 bushels, against 61,051,000 a year ago. No. 2 and No. 3 white oats are 3 to 4¼c. higher than a year ago. A new high price for the season was reached on the 20th. The market has friends. On the 22d inst. prices fell, however, ¼ to ¾c. in sympathy with lower prices for other grain. The final crop of oats in the Government report is 1,253,739,000 bushels; barley 191,182,000,000 bushels. On the 21st inst. July touched a new high for the season. Some had been disappointed by the Government report, but the upward swing of other grain pulled oats with it. Later prices fell ¼ to ¾c., partly in sympathy with a decline in corn.

To-day prices closed ¾c. lower to ¼c. higher in an evening-up market. There was no marked decline in any month. The weather was too unsettled. Cash prices were steady. The market lacked striking features. Final prices show a decline of ¼ to ¼c. for the week. The New York Produce Exchange will start trading in oats futures on Jan. 3.

Rye advanced 4c. early in the week on bullish German news, and with wheat up 1½ to 3¼c. and shorts covering. The United States visible supply is 12,738,000 bushels, against 12,027,000 a year ago. The Government report made the final estimate of the crop at 40,024,000 bushels. The Department of Agriculture states that the rye crop of Europe is about 15% below last year. The area sown to rye this fall is 3,579,000 acres, which is 1.9% more than the revised estimate of 3,513,000 acres in the fall of 1925. The condition of rye on Dec. 1 was 86.3, against 83.8 last year and the ten-year average of 88. After the turn of the year some expect the bullish factors in rye to assert themselves and give this grain independent strength. On the 21st inst. rye bulked big in the grain markets. For once it took first place. Wheat borrowed strength from it. Cash prices were strong. Export business was rumored. German news was a factor. It seemed to promise a foreign market for American rye. The demand was better. That was clear. Prices fell on the 23d inst. ¼ to ¾c., partly on the weakness in other grain.

Berlin writes: "The belief is gaining ground that our rye crop is smaller than was generally estimated. In 1925 8,000,000 tons or more were harvested, while this year's crop appears not more than 6,000,000 tons. The official estimate makes the crop 7,000,000 tons, but no confirmatory figures are yet available. We may add that this year's crop weighs only 70 kilos, whereas the normal weight is 70 to 73. In view of the relatively high rye prices, and as farm field work is now completed, it would be reasonable to expect rye to come to the market, but this is not the case and offerings from the country are practically nothing. It is evident that import requirements will be relatively early this year, and can only be satisfied from America. France, which has heretofore bought German rye, will also be compelled to supply her future needs with American rye. There is no doubt in our mind that rye prices in Chicago must advance when the true situation in Europe is recognized, even if wheat prices should decline because of larger quantities of wheat available to importers. Poland has no rye surplus, and to the contrary, may be compelled to cover her own requirements through imports, and the same is true of Australia and Czechoslovakia."

To-day prices showed no marked fluctuations. They wound up unchanged to ¼c. higher. December showed the most strength. Offerings were not large. There was no export business, but the feeling does not seem to be pessimistic on that score. Final prices show a rise for the week of 3 to 5c., the latter on December.

AGRICULTURAL DEPARTMENT'S REPORT ON THE 1925 PRODUCTION AND VALUE OF GRAIN AND OTHER FARM PRODUCTS.—The Department of Agriculture at Washington issued on Dec. 21 its report on the production and farm value as of Dec. 1 of grain and other important farm crops of the United States for the season of 1926. This report will be found in an earlier part of our paper under the heading "Indications of Business Activity."

AGRICULTURAL DEPARTMENT'S REPORT ON WINTER GROWING WHEAT AND RYE.—The Crop Reporting Board of the United States Department of Agriculture made public on Dec. 21 its forecasts and estimates of winter wheat and rye from reports and data furnished by crop correspondents, field statisticians, and co-operating State Boards (or Departments) of Agriculture and Extensions as follows:

An area of 41,807,000 acres of winter wheat sown this fall is estimated by the Crop Reporting Board of the United States Department of Agriculture, based upon reports and data furnished by crop correspondents, field statisticians and co-operating State Boards (or Departments) of Agriculture and Extension Departments. This sown area is 5% more than the revised estimate of 39,799,000 acres sown in the fall of 1925. The sowings in the fall of 1924 were 39,848,000 acres (revised). Winter damage during the past ten years has caused an average abandonment of 12.8% of the acreage sown to winter wheat. The abandonment has ranged from 1.9% to 28.9% in different years during that period.

Condition of winter wheat on Dec. 1 1926 was 81.8%, against 82.6 and 81.0 on Dec. 1 1925 and 1924, respectively, and a ten-year average of 84.4%.

RYE.—Area for grain this fall is 3,579,000 acres, which is 1.9% more than the revised estimate of 3,513,000 acres in the fall of 1925. (See footnotes "a" and "b" below).

Condition of rye on Dec. 1 1926 was 86.3% against 83.8 and 87.3 on Dec. 1 1925 and 1924, respectively, and a ten-year average of 88.0%.

Details, by States, follow:

A. E. Anderson.

AGRICULTURAL DEPARTMENT'S COMMENTS ON DEC. 1 REPORT.—The Crop Reporting Board of the United States Department of Agriculture in giving out its forecasts and estimates on Dec. 21 of the winter wheat and rye crops of the United States, as of Dec. 1, made the following comments:

The Department estimates that the area sown this fall to winter wheat is 41,807,000 acres, or 5% more than the revised estimate of 39,799,000 acres sown in the fall of 1925. The revised estimate of the sowings in the fall of 1924 was 38,848,000 acres. In August farmers expressed an intention to increase the plantings this fall by 14.4%. The percentage of the area that has been abandoned during the last ten years averages 12.8%, with individual years ranging from 1.9 to 28.9%.

Farmers in some of the States were prevented from sowing to winter wheat as many acres as were intended by rains, by drought, and in one State by scarcity of seed and inability to buy it. On the other hand, the low prices for cotton have caused the conversion of some cotton acreage into winter wheat acreage. For nearly all of the States increased, or unchanged, acreage is estimated, decrease being confined in New Jersey, Pennsylvania, Ohio, Michigan, Wisconsin, Maryland and West Virginia.

Sowing was delayed in some of the States by rains or drought, or by cotton picking, so that some of the sowings were so late that the wheat plants entered the winter poorly prepared to stand its rigors. For the country as a whole, the winter wheat crop entered the winter on Dec. 1, with a condition of 81.8% of normal, against 82.6%, and 81% for Dec. 1 1925 and 1924, respectively, and a ten-year average of 84.4%. Comparison indicates that the condition of the crop is somewhat under average.

Rye sowings for grain have been made on 3,579,000 acres, or 1.9% more than the revised estimate of 3,513,000 acres in the fall of 1925. The plant of this crop is more hardy than the plant of winter wheat, and the condition of the rye crop on Dec. 1 was 86.3%, comparing with 83.8 and 87.3% on Dec. 1 1925 and 1924, respectively, and a ten-year average condition of 88%.

FOREIGN CROP PROSPECTS.—The latest available information pertaining to cereal crops of foreign countries as reported by the Foreign Service of the Bureau of Agricultural Economics and made public on Dec. 21, as being of interest to producers of grain crops in the U. S. follows:

WORLD WHEAT CROP.—Estimates of wheat production as reported to date for 36 countries, including a rough preliminary report of 156 million from Australia, amount to 3,322 million bushels, as compared with 3,253 million bushels in the same countries last year, an increase of about 2%. Australia's crop last year was 113,443,000 bushels. The first official Argentine estimate made last week was 215 million bushels, compared with 191,140,000 last year. No estimate of Russian production is yet available. It is of interest to note, however, that the total amount of grain procured by the government in Russia to Dec. 1st was somewhat larger than the amount procured last year at the same date and it is expected that total procuring for the season will be above last year. Shipments of wheat and flour in the season, Aug. 1 to Dec. 9, through the Bosphorus, as reported by the Department of Commerce, amounted to the equivalent of 17.8 million bushels of wheat, as compared with 12 million bushels in the same period last year. The most important countries remaining to be heard from are Chile and Uruguay. Production in China is important, of course, but no reliable estimate of the crop in that country is to be expected. Since the European wheat crop excluding Russia is nearly 11% below last year, the rye crop 15% below and the potato crop 20% less than last year. European demand should be greater than in the last season.

FALL SOWING CONDITIONS.—Fall sowings in Europe have been made under favorable conditions in most countries especially in Northern and Central Europe. Winter grain crops in Germany were well above average condition on Dec. 1 with winter wheat and barley the same as last year but winter rye not so good. Crop conditions in Poland on Dec. 1 were considerably above average and better than at the same date last year. Fall sown cereals in Hungary were making good progress about the end of November and a full area is believed to have been sown there as well as in Spain. Bulgaria was in need of rain during November so that germination was poor but crops sown earlier in the season were in good condition. Rains in the beginning of December may have improved the situation. Fall seeding was delayed in France and there was some fear that the area sown would not be as large as last year. A favorable outlook is reported from North Africa although there was a lack of rain in Algeria and Morocco early in the season.

WHEAT ACREAGE.—Below is a table showing the average of wheat acreages for the period 1909-13 and acreage for individual years 1921-26 giving an estimated world total excluding Russia and China, estimated European total excluding Russia and estimates for the principal producing countries.

WHEAT: ACREAGE, AVERAGE 1909-13, INDIVIDUAL YEARS 1921-1926.

WEATHER BULLETIN FOR THE WEEK ENDED DEC. 21.—The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ended Dec. 21, follows:

At the beginning of the week there was a continuation of the cold wave over central sections, with the temperature below normal generally over most of the country. The departures of temperatures ranged from 20 degrees to 38 degrees below normal in the central valleys and Great Plains, and subzero temperatures continued from southern Kansas northward, with two stations reporting temperatures below -20 degrees. The "high" moved eastward on Thursday and brought much colder weather to the Southern States, the Pacific coast meanwhile showing a reaction to warmer. Over central Pacific sections there was a marked change to warmer weather on the 17th, but temperatures over the remainder of the country continued below normal, although east of the Rocky Mountains the severity of the cold wave had considerably moderated in most portions.

On the 18th a high pressure area of large extent covered the East, with much colder weather over the Northeastern States, but western sections showed a rather substantial reaction to warmer weather. It continued cold in eastern portions until Monday, when a general warming up occurred due to the presence of rather shallow, but extensive, area of low pressure. In the meantime, temperatures in the West continued generally above normal, but toward the last of the week it became colder over the Southwest and central Pacific areas.

The week, as a whole, was cold in practically all sections of the country, as shown by Chart I. The average temperature was above normal in parts of the Florida Peninsula, and locally in the Southwest and the Pacific coast area, but elsewhere the weekly means were subnormal, and decidedly so in nearly all sections east of the Rocky Mountains. In the Eastern States and from the central valleys northward and northwestward, the temperatures averaged from about 6 degrees to as much as 15 degrees below normal. Freezing extended to the central Gulf coast and overspread the more western districts, except the extreme Southwest and central Pacific

coast localities, but the line of subzero temperatures did not extend materially farther south than during the preceding week. The lowest reported for the period from a first-order station was 24 degrees below zero at Duluth, Minn., on the 15th.

Precipitation during the week was light in most sections of the country especially over the northern half, as shown on Chart II. Moderate falls occurred in most of the South, with locally excessive amounts in eastern Arkansas and western Tennessee at the close of the week. In immediate Gulf districts, except in the lower Rio Grande Valley, rainfall was light, while very little occurred in the far Southwest and the Northwestern States. Fairly heavy falls were reported in northern Pacific sections. There was more than the usual amount of sunshine in nearly all parts of the country.

While the unseasonably cold weather during the first part of the week was unpleasant for outside work, the frozen ground in the interior valley States made conditions for gathering corn much more favorable than had previously prevailed when fields were wet and muddy. The low temperatures, however, were rather hard on winter wheat, in the absence of snow protection, but apparently no material harm has resulted. In the Central-East the ground was also bare during the cold wave, but in the Northeast and the more northern States, grass and grain fields were well protected.

In the Southeast there was some small damage by freezing to winter truck crops, but this was not extensive, and the growth of cereals was checked; in general, the week was mostly favorable in the more southern States. In Florida, moisture is still needed on some uplands, and the warm weather in the southern portion was unfavorable for hardy truck crops and citrus fruit. The weather was generally favorable for butchering. In the Northwestern States a continuation of cold weather and high winds the first half of the week was unfavorable for livestock, and heavy feeding was necessary in many places, but the last half was milder and favorable. In the northwestern Cotton Belt but little field work could be accomplished because of unfavorable weather, but dry conditions in the far Southwest were helpful, and the cooler weather favored hardy truck.

SMALL GRAINS.—The hard freeze, following the previous soft condition of the soil in the eastern half of the Wheat Belt, was rather unfavorable for winter cereals, but apparently no extensive harm has resulted. In the western half of the belt, wheat is generally dormant and, notwithstanding the absence of snow cover, no material harm from the cold was reported. In the more northern States east of the Great Plains, including the Northeast, grass and grain fields were well protected by snow during the cold spell. In the Southeast, growth of wheat and oats was checked, but these crops are mostly in satisfactory condition, although rain is needed locally. Most of the Rocky Mountain wheat districts and far Northwestern States had sufficient snow cover to protect grain, though in places much ground was bare because of drifting.

CORN AND COTTON.—Frozen ground in the interior valleys, where wet fields had previously been unfavorable for operations, facilitated the gathering of corn and this work made better advance. It was too cold, and there was too much snow, however, for good progress in parts of the upper Mississippi Valley, particularly in northern Iowa. In the central Great Plains, cribbing has been practically completed.

Very little progress was possible in gathering the remaining unpicked cotton in the northern sections of the belt because of cold, disagreeable weather the first part of the week and heavy rains in the northwestern districts the latter part. In Oklahoma, field operations were mostly suspended and but little cotton was picked during the week, with much still out in central and western portions. There was some gathered in Arkansas. In Texas, considerable picking was done during the week, and the drier weather in the far Southwest was more favorable.

The Weather Bureau also furnishes the following resume of the conditions in the different States:

Virginia.—Richmond: Temperatures much below normal until close of week, then warmer; rainfall light. Unfavorable for farm work. Light snow covered some districts in west and beneficial for winter grains, but warmer at close of week removed snow.

North Carolina.—Raleigh: Generally fair but mostly too cold for field or outdoor work; favorable for killing hogs. Some damage to truck by hard freeze to coast on Sunday. Small grains apparently in good condition. Still considerable cotton remaining in fields.

South Carolina.—Columbia: Cold, raw week culminated in hard freezes on 19-20th and checked development of winter cereals and truck, with slight damage to lettuce on coast. Wheat, oat and rye seeding practically finished. Cotton picking in northwest still very slow. Hog killing progressing.

Georgia.—Atlanta: Weather cold until close of week with soil wet in many sections, but rain needed for cereals in southwest. Very little farm work accomplished except killing hogs. Growth of cereals checked but they remain in good condition. Recently planted alfalfa looking well.

Florida.—Jacksonville: Unseasonably cold weather in north and west, but mild in central and south; showers in all divisions but insufficient on uplands. Truck planting continued. Celery, lettuce and cabbage good progress, but too warm for hardy truck. Land prepared for melons and tobacco. Oats good growth. Strawberries good to excellent. Citrus fruits good but warm weather unfavorable. Favorable weather in Everglades and trucking advanced.

Alabama.—Montgomery: Moderate rains first and last days; remainder fair; unseasonably cold first half but unseasonably warm at close. Farm work good progress in coast section; little accomplished elsewhere. Early planted oats mostly doing well. Pastures surviving recent freezes mostly poor to fair condition. Truck crops doing well in coast region and some other scattered sections; otherwise mostly poor and scarce. Satsuma orange season practically ended.

Mississippi.—Vicksburg: Unseasonably cold Tuesday to Saturday, with freezing to coast Thursday; precipitation generally light, except heavy in northwest on Monday night. Truck and seasonal farm work fair progress. Pastures poor.

Louisiana.—New Orleans: First half cold, with freezing nearly to coast, but no damage; temperatures above normal at end of week; rainfall mostly light. Excellent for cane harvest, which is nearing completion. Much winter truck growing nicely. Some plowing, but little other farm work outside cane and truck regions.

Texas.—Houston: Cold wave 14th to 16th gave hard freeze, except in coastal section and lower Rio Grande Valley, but little damage account cloudy weather. Light to generous rains, except along upper coast at close of week. Considerable cotton picked in north. Condition of wheat, oats, pastures, and truck good, although growth slow account cold. Citrus and truck shipments continued large.

Oklahoma.—Oklahoma City: Farm operations mostly suspended account severe cold at beginning and rain at close of week. Only small amount of cotton picked and much still in fields in central and west. Wheat dormant, but good condition. Pastures fair.

Arkansas.—Little Rock: Low temperatures first of week and heavy to excessive rains latter portion unfavorable for farm work. Considerable plowing. Some cotton picked, but considerable still unpicked in north-eastern and eastern counties. Favorable for wheat, rye, and fruit, but some oats frozen.

Tennessee.—Nashville: Cold weather most of the week considerably checked growth of late-sown grains, but did not interfere with earlier-sown; warmer, with heavy last of week, improved conditions. Clover checked, but still in excellent shape; pastures short, but livestock in condition.

Kentucky.—Louisville: Temperatures low and ground hard frozen until rain, with thaw at close. Easier for moving corn and fodder out of fields; otherwise slow progress in corn gathering. Dry, cold weather hindered tobacco stripping. Freezes beginning to lift wheat.

THE DRY GOODS TRADE

Friday Night, Dec. 24 1926.

With the exception of cottons and a few other lines, textile markets continued seasonably quiet during the past week. Reports from retail channels, however, still indicated prospects of record sales. That retail stocks are low is evidenced by the complaints voiced among consumers that it has been difficult to procure wanted items. However, in some instances this was due to the last-minute crowds rushing to make purchases. Stores are now planning their January clearance sales, and some buying for this account

was reported. They plan to operate these sales on a larger scale than heretofore in an effort to make up some of the early season losses and prevent a reaction following the present tremendous wave of consumer holiday buying. Piece goods, particularly in silks, will probably be freely offered. In regard to these, prices have continued to decline, and some offers of the staple have been at such levels that mills have hesitated to buy at this time. Advance buying of the finished article has failed to develop as expected, and has been far from satisfactory. This was particularly true of the styled fabrics. Nevertheless, factors have continued more or less optimistic in regard to the future and look for a revival of buying after the first of the year. Further openings of printed silks during the week showed a noticeable trend toward the smaller patterns. The outlook for this class of goods is considered better than in connection with some others. One of the important developments of the week occurred in the cotton goods division, where a nationally known lawyer, railroad executive and commercial diplomat was appointed as the head of the Cotton Textile Institute. The Institute now represents 425 mills and approximately 21,000,000 spindles, and this total is expected to increase shortly. Committees are now studying the various important divisions of the industry preparatory to making important announcements.

DOMESTIC COTTON GOODS.—While this is normally a quiet period of the year throughout the markets for domestic cotton goods, business the past week has been quite satisfactory. Of course there were some dull spots, especially on a few of the finished lines, though as a general rule, prices displayed a steadier undertone and buyers continued to place fair-sized orders, particularly those calling for future delivery. It has been noted recently that confidence in the present price basis has been steadily growing, and this was held responsible for the maintenance of good business despite the holiday season. Reports from the larger houses indicated that a number of big wholesale buyers had been operating on various lines calling for deliveries as far ahead as March. Currently, the best business was claimed to have been transacted on colored cottons and sales on several days of last week were reported to have exceeded any previous day during the whole of 1926. This was considered encouraging, as it demonstrated the confidence selling agents have in the future of staple cottons. As to denims, it was reported that quite a substantial volume of orders had been placed on the new price basis named last week for deliveries running into April. On the other hand, as to the less favorable items, reports concerning wash goods were quite irregular. While some houses reported the volume of their business running ahead of last year, others claimed that orders have failed to equal expectations. Likewise some of the heavier brown goods have been rather slow. For instance, to date the expectations of a larger use of cottons for bag purposes has exceeded actual business. Thus far no new prices have been named on either napped goods or flannels. Owing to the fact that these two are the last of the important fabrics to be repriced, considerable interest is centered in their opening. However, it is questionable whether the new levels will be announced before the turn of the year. Print cloths, 28-inch, 64 x 64's construction, are quoted at 5½c., and 27-inch, 64 x 60's, at 4½c. Gray goods in the 39-inch, 68 x 72's construction, are quoted at 7½c., and 39-inch, 80 x 80's, at 9½c.

WOOLEN GOODS.—While woolen and worsted markets continued quiet, factors considered the conditions as temporary and expect an active business to develop after the first of the year. It was noted that confidence was quite general concerning a healthy spring trade. Currently, there has been but little new business developing in either the men's or women's wear divisions. However, in the men's wear section, some retailers were placing filling-in orders in preparation for the clearance sales to be held next month. These are expected to be successful owing to the tendency among consumers to await these events and carry the goods over into the next season. In the primary divisions, mills are planning to ship the first of their summer goods the first few weeks of 1927. Although orders for this class of goods thus far have been rather conservative, a good business is expected to develop shortly.

FOREIGN DRY GOODS.—While some sections of the linen markets have been somewhat less active, others continued to enjoy a good demand and merchants maintained an optimistic attitude as to prospects for a larger distribution during the coming year. In the meantime the current situation has been featured by the broadening demand for dress linens. Manufacturers have been anticipating their needs quite far in advance and it is expected that retail stores will enjoy large sales of these items the coming season. It was stated that while interest has centered in the better grades, the cheaper fabrics have been by no means neglected. In regard to handkerchiefs, the retail demand has been unusually large and wholesalers claimed that re-orders have been coming forward at a highly satisfactory rate. The demand has been led by goods for gift purposes, especially boxed and novelty goods. Burlaps were somewhat firmer owing to better buying both in domestic and primary markets. Light weights are quoted at 6.45-6.50c., and heavies at 9.75c.

State and City Department

Our State and Municipal Compendium.

A new number of our "State and City Compendium," revised to date, appears to-day, and all readers of the paper who are subscribers should receive a copy of it. As previously announced, this Supplement is now printed in two parts, Part One, containing the New England, the Middle and the Middle Western States, having been issued last June, while Part Two, embracing the rest of the country, appears to-day. The change is due to the fact that with the growth and multiplication of the municipalities of the United States the demand for additional space has become too heavy to satisfy within the limits of a single number.

NEWS ITEMS

Bulgaria (Kingdom of).—\$4,500,000 Loan Offered Here.—On Dec. 23 Speyer & Co. of New York, and associates, offered and sold \$4,500,000 7% 40-year secured sinking fund gold bonds of the Kingdom of Bulgaria at 92 and accrued interest to yield about 7.65%. Dated Jan. 1 1927. Coupon bonds in denominations of \$1,000 and \$500. Due Jan. 1 1967. Not subject to call before Jan. 1 1939, except for sinking fund. Principal and interest (J. & J.) payable in New York City at the office of Speyer & Co., or of J. Henry Schroder Banking Corp., fiscal agents, in United States gold coin of the present standard of weight and fineness, without deduction for any Bulgarian taxes, present or future. These \$4,500,000 bonds and £2,400,000 sterling bonds constitute the total amount of the loan. £1,750,000 of the sterling bonds have been taken in London by the Ottoman Bank, J. Henry Schroder & Co., and Stern Bros., and the remaining £650,000 sterling bonds in Holland, Italy and Switzerland.

Further information regarding this loan may be found in our "Department of Current Events and Discussions" on a preceding page.

Department of Cundinamarca (Republic of Colombia).—\$3,000,000 Bonds Floated in United States.—A group of bankers headed by Hallgarten & Co. of New York disposed of \$3,000,000 7% 20-year secured sinking fund gold bonds of the Department of Cundinamarca (Republic of Colombia) at 94.75 and interest, to yield over 7.50%. Date Dec. 1 1926. Coupon bonds in denominations of \$1,000 and \$500, registerable as to principal only. Due Dec. 1 1946. Redeemable as a whole or in part through the sinking fund. Principal and interest (J. & D.) payable in United States gold coin at the office of either of the fiscal agents, Kissel, Kinnicutt & Co. or Hallgarten & Co., New York, free from all Colombian taxes, national, departmental or municipal, present or future.

Further information regarding this loan may be found in our "Department of Current Events & Discussions" on a preceding page:

Mississippi County Drainage District No. 17 (P. O. Blytheville), Ark.—Bondholders Sue to Enforce Raising of Tax Levy on All Lands in District.—We quote the following from the Memphis "Appeal" of Dec. 16:

The Commissioners of Drainage District 17 have received notice from the U. S. District Court in Little Rock of mandamus proceedings having been served upon them by the Guardian Trust Co. of Cleveland, Ohio, representing the bondholders of the district, which hearing will be held in Little Rock Saturday.

The mandamus suit is filed to enforce the raising of the tax levy on all lands and town lots in said district, which comprise the greater portion of the Chickasawba District of Mississippi County, from 7½ to 9%. The bonded indebtedness of the district is near the \$5,000,000 mark on assessed benefits.

Leon Smith, of the firm of Harrison, Smith & Taylor, will represent the Commissioners and district in the case at Little Rock, as will other prominent attorneys representing large land owners in the district, such as the Chicago Mill & Lumber Co., the Three States Lumber Co. and others. It is also likely that the railroads within the district will be represented by legal representatives to resist the suit.

The Commissioners and taxpayers have resisted the continued suggestion on the part of the bondholders of the attempt to increase the assessment at this time, pending the installation of the huge pumping plant, recently contracted for to drain 15,000 acres of land in Big Lake, believing with these lands off the tax books because of non-drainage and consequently their abandonment by the owners, causing the district to lose this amount of taxes, hopeful that if the tax might be stayed until this land can be drained and sold or re-entered by former owners, the taxes obtained therefrom would suffice for the payment of the bonds. Under this plea by the Commissioners and attorneys it is hopeful that Judge Trieber will refuse the prayer of the bondholders pending the installation of the pumping system and sale of the land.

Panama (Republic of).—\$2,200,000 External Bonds Floated.—Kissel, Kinnicutt & Co. and Bauer, Pond & Vivian, Inc., both of New York, offered and sold Dec. 20 \$2,200,000 6½% 30-year external secured sinking fund gold bonds of the Republic of Panama at 103 and interest, to yield at the minimum redemption price about 6.30%. Date Dec. 1 1926. Coupon bonds in denominations of \$1,000 and \$500, registerable as to principal only. Due Dec. 1 1956. Redeemable in whole or in part either at the option of the Republic or through the operation of the sinking fund, on any interest date prior to maturity, on not less than 60 days' notice, at 103 on or before Dec. 1 1936, at 102 thereafter and on or before Dec. 1 1946, and at 101 thereafter. Principal and interest (J. & D.) payable in New York City in United States gold coin of the present standard of weight and fineness without deduction for any Panama national or local taxes present or future. The National City Bank of New York is fiscal agent of the loan.

Further information regarding this loan may be found in our "Department of Current Events & Discussions" on a preceding page.

NEW LOANS

\$120,000

Borough of Tuckerton, New Jersey

5% SCHOOL BONDS

Sealed proposals will be received by the Board of Education of the School District of the Borough of Tuckerton in the County of Ocean, New Jersey, at the Schoolhouse, Tuckerton, N. J., until SEVEN-THIRTY O'CLOCK IN THE EVENING OF JANUARY 3, 1927, for the purchase of not exceeding One Hundred Twenty Thousand Dollars (\$120,000.00) in school bonds of the said school district, being two hundred forty bonds of the denomination of five hundred dollars, being numbered one to two hundred and forty. Said bonds are to be issued so that six bonds of the denomination of Five Hundred Dollars each will be payable on the thirty-first day of December of each year from 1927 to and including 1966. Said bonds will be issued and dated as of January 1, 1927, and will bear interest at the rate of five per centum per annum, payable semi-annually on June 30 and December 31 in each year from the date of issue. Both interest and principal of said bonds will be paid in lawful money of the United States of America at the Tuckerton Bank, Tuckerton, N. J. The bonds will be registered. The amount necessary to be raised by said issue of bonds is One Hundred and Twenty Thousand Dollars (\$120,000.00). Unless all bids are rejected said Bonds will be sold to the bidder or bidders complying with the terms of sale and offering to pay not less than the amount of bonds authorized, commencing the first maturity, or if two or more bidders offer to take the same amount of bonds, then to the bidders offering to pay therefor the highest additional price. No more bonds will be sold than will produce the amount necessary to be raised and an additional sum of less than Five Hundred Dollars (\$500.00). The right is reserved to reject all bids and any bids not complying with the provisions hereof to be rejected. That all bidders be required to deposit a certified check payable to the Board of Education of the Borough of Tuckerton for two per centum of the amount of bonds bid for, drawn upon an Incorporated Bank or Trust Company. Checks of unsuccessful bidders to be returned upon the award of bonds. No interest to be paid upon the checks of successful bidder or bidders and such check or checks to be retained to be applied in part payment for the bonds and to secure the Board of Education against any loss resulting from the failure of the bidder to comply with the terms of his bid.

Proceedings relating to this issue have been approved by the Attorney-General of the State of New Jersey, and if any other legal opinion is required as to the validity of the issue it must be supplied by the bidder. Bonds to be furnished by the bidder.

Proposals should be addressed to Howard J. Smith, District Clerk, Tuckerton, N. J., and enclosed in a sealed envelope marked on the outside "Proposal for School Bonds, \$120,000.00."

HOWARD J. SMITH,

District Clerk.

Tuckerton, N. J.,

NEW LOANS

\$15,000.00

Borough of Tuckerton, New Jersey

5% SCHOOL BONDS

Sealed proposals will be received by the Board of Education of the School District of the Borough of Tuckerton in the County of Ocean, New Jersey, at the Schoolhouse, Tuckerton, N. J., until SEVEN-THIRTY O'CLOCK IN THE EVENING OF JANUARY 3, 1927, for the purchase of not exceeding Fifteen Thousand Dollars (\$15,000.00) in school bonds of the said school district, being thirty bonds of the denomination of Five Hundred Dollars, being numbered A-1 to A-30. Said bonds are to be issued so that one bond of the denomination of Five Hundred Dollars will be payable on the thirty-first day of December of each year from 1927 to and including 1956. Said bonds will be issued and dated as of January 1, 1927, and will bear interest at the rate of five per centum per annum, payable semi-annually on June 30 and December 31 in each year from the date of issue. Both interest and principal of said bonds will be paid in lawful money of the United States of America at the Tuckerton Bank, Tuckerton, N. J. The bonds will be registered. The amount necessary to be raised by said issue of bonds is Fifteen Thousand Dollars (\$15,000.00). Unless all bids are rejected said bonds will be sold to the bidder or bidders complying with the terms of sale and offering to pay not less than the amount of bonds authorized, commencing with the first maturity, or if two or more bidders offer to take the same amount of bonds, then to the bidders offering to pay therefor the highest additional price. No more bonds will be sold than will produce the amount necessary to be raised and an additional sum of less than Five Hundred Dollars (\$500.00). The right is reserved to reject all bids and any bids not complying with the provisions hereof to be rejected. That all bidders be required to deposit a certified check payable to the Board of Education of the Borough of Tuckerton for two per centum of the amount of bonds bid for drawn upon an Incorporated Bank or Trust Company. Checks of unsuccessful bidders to be returned upon the award of bonds. No interest to be paid upon the checks of successful bidder or bidders and such check or checks to be retained to be applied in part payment for the bonds and to secure the Board of Education against any loss resulting from the failure of the bidder to comply with the terms of his bid.

Proceedings relating to this issue have been approved by the Attorney-General of the State of New Jersey, and if any other legal opinion is required as to the validity of the issue it must be supplied by the bidder. Bonds to be furnished by the purchaser.

Proposals should be addressed to Howard J. Smith, District Clerk, Tuckerton, N. J., and enclosed in a sealed envelope marked on the outside "Proposal for School Bonds, \$15,000.00."

COMMERCIAL & FINANCIAL CHRONICLE

Copyrighted in 1926, according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

Vol. 123.

NEW YORK, DECEMBER 25 1926.

No. 3209.

STATE AND MUNICIPAL COMPENDIUM

The State and Municipal Compendium, issued semi-annually on the last Saturday of June and December, is furnished *without extra charge* to every annual subscriber of the Commercial & Financial Chronicle.

The Railway and Industrial Compendium, issued semi-annually in May and November, is also furnished *without extra charge* to every annual Chronicle subscriber.

The Public Utility Compendium, issued twice a year, in April and October, is also furnished *without extra charge* to every annual subscriber of the Chronicle.

The Railway Earnings Section, issued monthly, containing the sworn returns of earnings and expenses filed each month with the Inter-State Commerce Commission, is likewise furnished *without extra charge* to every annual Chronicle subscriber.

The Bank and Quotation Section, issued monthly, is also furnished *without extra charge* to every annual subscriber of the Chronicle.

The Bankers' Convention Section, issued yearly, giving the detailed proceedings of the annual convention of the American Bankers Association, is likewise furnished *without extra charge* to Chronicle subscribers.

Terms for the Chronicle, including the six supplements above named, are Ten Dollars per annum within Continental United States except Alaska; Eleven Dollars and Fifty Cents to Canada; Thirteen Dollars and Fifty Cents to other foreign countries and also to United States Territories and Possessions; these amounts in all cases including postage.

File covers for the Chronicle are sold at \$1.00 each; postage, 15 cents additional. File covers for Supplements can be had at same price.

CHICAGO OFFICE.—208 South La Salle Street.

LONDON OFFICE.—Edwards & Smith, 1 Drapers' Gardens, E. C.

WILLIAM B. DANA COMPANY, Publishers,
Front, Pine and Depeyster Streets, New York.

DATE OF ISSUE OF THIS PUBLICATION.

As explained in previous numbers, this periodical, owing to the great pressure for space, is now issued in two parts. The first part, comprising the New England and the Middle and Central States (the latter embracing Ohio, Indiana, Illinois and Michigan) appears in June. The second part, comprising the rest of the country, is published towards the close of the year, and appears to-day.

The change has been forced upon us by the constant addition to the number of municipal bond issues and the inability to compress the information concerning the same within the limits of a single number. Not only are the older and more important civic corporate bodies uninterruptedly putting out further bonded obligations, but many of the minor places, previously free from debt, have also entered the ranks of borrowing communities and are constantly creating new issues. Besides this, in the newer sections of the country, where expansion and development are such noteworthy characteristics of affairs, new civil divisions are all the time springing up. The result is that the demands for additional space have outgrown our ability to provide for them in a single number, leaving no alternative but to issue the Supplement in two parts and to assign a portion of the country to each part.

ABBREVIATIONS USED IN DESIGNATING WHETHER BONDS ARE COUPON OR REGISTERED.

"r" means fully registered bonds (no coupons).

"c" means coupon bonds without privilege of registration.

"c*" means coupon bonds, but may be registered as to principal.

"r*" means "registered" and "coupon" interchangeable.

United States Debt and the Congressional Acts Authorizing It.

In 1917 the United States, after a long period of debt retirement, entered upon a new era in its debt history. In the prosecution of the war against the Imperial German Government, new obligations were issued on a scale of unparalleled magnitude. By the Act of April 4 1917 authority was conferred upon the Secretary of the Treasury to issue \$5,000,000,000 long-term non-taxable bonds at not to exceed 3½% interest (\$3,000,000,000 of this being for the purpose of establishing credits in the United States for the foreign Governments enlisted in the war against Germany), and \$2,000,000,000 certificates of indebtedness, the latter running for periods not exceeding one year. By the further Act of Sept. 24 1917, authority was conferred to issue \$7,538,945,460 convertible 4% bonds to take up ultimately the \$3,000,000,000 3½% issue authorized to cover loans to the Allies, and to provide for new Allied credits of \$4,000,000,000, the remaining \$538,945,460 to be used for converting certain outstanding bonds, including the Danish West Indies, Alaskan Railway, Panama Canal and naval construction issues. The bill also provided for the issuance of \$2,000,000,000 each of one-year Treasury certificates of indebtedness and five-year war savings certificates. The interest rate on the certificates the Secretary of the Treasury was left to fix. By the further Act of April 4 1918, amending the Act of Sept. 24 1917, authority was conferred to issue \$12,000,000,000 of bonds at not exceeding 4¼% interest, the 12 billion dollars, however, to include the bonds issued under the Second Liberty Loan, and \$3,638,945,460 being in lieu of corresponding amounts of unissued bonds authorized by previous Acts. Under the same Act the limit upon the amount of certificates of indebtedness that might be outstanding at any one time was raised from \$4,000,000,000 to \$8,000,000,000, and it was further raised to \$10,000,000,000 under the Act of March 3 1919. By the further Act of July 9 1918, amending previous Liberty bond enactments, the limit of the bond issue was raised to \$20,000,000,000 at not exceeding 4¼%, but including bonds theretofore issued, and increasing from \$5,500,000,000 to \$7,000,000,000 the additional loans or credits that might be extended to the Allies, making \$10,000,000,000 altogether that could be loaned to the Allies. By the further Act of March 3 1919 (Victory Liberty Loan Act) amending previous Liberty Loan Acts and the War Finance Corporation Act, the Secretary of the Treasury was authorized to borrow an aggregate not exceeding \$7,000,000,000 at such rate or rates of interest as he might prescribe, issuing therefor notes payable in not less than one year nor more than five years. By the Liberty Bond Exemption Bill of Sept. 24 1918, the total of War Savings Certificates that might be issued was raised from \$2,000,000,000 to \$4,000,000,000.

The indebtedness of the Government mounted rapidly as bonds authorized by these enactments were issued, the total indebtedness rising from a pre-war figure of about one billion to \$26,596,701,648.01, the peak reached Aug. 31 1919. Since that date there has been in progress a gradual reduction in the debt. As of Nov. 30 1926, the gross indebtedness amounted to \$19,389,019,300.37, a decrease of \$7,207,682,347.64 since Aug. 31 1919.

The following is a brief review of the more important financing done by the Government since the beginning of the war with Germany:

In June 1917 \$2,000,000,000 of 3½% bonds were offered under the Act of April 24 1917. The subscriptions amounted to \$3,036,226,850, but only \$1,989,455,550 were issued. In October 1917 an offering of \$3,000,000,000 4s under the Act of Sept. 24 1917 was made. Subscriptions reached an aggregate of \$4,617,532,300. In accordance with previous announcement, one-half of the over-subscription was accepted, making the total of bonds put out under this offer \$3,807,865,000. In April 1918 \$3,000,000,000 of 4¼% non-convertible bonds (Third Liberty Loan) were offered under the Act of April 4 1918. The subscriptions amounted to \$4,175,650,050, all of which were accepted. In Sept.-Oct. 1918 \$6,000,000,000 of 4¼% non-convertible bonds (Fourth Liberty Loan) were offered under the Act of July 9 1918. The subscriptions amounted to \$6,964,581,100, all of which were accepted. In April-May 1919, \$4,500,000,000 of convertible gold notes were issued in two series, the one bearing interest at 3¾%, the other at 4¾%. The subscriptions amounted to \$5,249,908,300, but

only \$4,495,373,000 was accepted. Secretary of the Treasury Mellon on Feb. 8 1922 called for redemption on June 15 1922 all of the Victory Notes of the 3¼% series, and on July 26 1922 he called for redemption on Dec. 15 1922, Series A to F, of the 4¼% Victory Notes, aggregating about \$702,938,100. The remaining Victory Loan Notes matured on May 20 1923, and were then paid off. In October 1922 an offering of \$500,000,000 4¼% 30-year (optional after 25 years) TREASURY BONDS, issued under authority of the Act of Sept. 24 1917, as amended, was made for refunding purposes. Subscriptions amounted to no less than \$1,651,912,800, of which \$763,962,300 were accepted. On Dec. 3 1924 another offering of long-term bonds was made under authority of the Act of Sept. 24 1917 as amended, consisting of 4% 30-year (optional after 20 years) Treasury bonds to amount of \$200,000,000 or thereabouts, for subscriptions in cash and additional bonds to the extent that 4¼% Treasury notes or 4% Treasury certificates of indebtedness maturing March 15 1925, and Third Liberty Loan 4¼% bonds might be tendered in payment. While the cash subscriptions were closed Dec. 4, books for the exchange subscriptions did not close until Dec. 20. Cash subscriptions amounted to \$1,460,530,550, of which \$224,513,500 were allotted. Exchange subscriptions, which were allotted in full, amounted to \$532,230,000. On March 5 1925 a further offering was made. The financing on that date took the form of a combined offering of \$450,000,000 or thereabouts of 4% Treasury bonds and of 3% Treasury certificates. The bonds were of the same series as those offered on Dec. 3 1924. Subscriptions for the bonds totaled \$382,326,400, of which \$290,154,700 were allotted. Allotments on the certificates may be found under the caption "Certificates of Indebtedness" below. In March 1926 another long term issue of bonds was floated by the Treasury Department. The offering was for \$500,000,000 or thereabouts for which could be tendered in part payment Treasury notes, series A 1926, maturing March 15 1926. Total subscriptions for the issue amounted to \$647,243,900, of which \$494,898,100 were accepted. The bonds bear only 3¼% interest, the lowest rate borne by long term bonds since the issuance of the First Liberty Loan 3¼% bonds in June 1917. TREASURY NOTES running from three to four years and CERTIFICATES OF INDEBTEDNESS running for six months and a year, have also been issued from time to time. Reference to these will be found under a separate heading. Treasury savings certificates were entirely withdrawn from sale at the close of business July 15 1924 after their sale had been suspended earlier in the year in many West and Middle Western States to permit use of the funds to aid in agricultural relief. On Jan. 1 1925 the United States Treasury redeemed as per announcement the War Savings Certificates (stamps) and Treasury Savings Certificates, Series of 1920, maturing on that date. On Jan. 1 1926 the War Savings Certificates (stamps) and Treasury Savings Certificates, series of 1921, were all paid off.

It was made known on Dec. 14 1925 that the Treasury Department's offer, made on Nov. 26 1925, to buy in about \$50,000,000 of Third Liberty Loan 4¼% bonds for the account of the cumulative sinking fund at prices not to exceed 101½ had met with offerings for sale of \$176,000,000. The Treasury accepted all proposals for sale at prices not exceeding 101½. Such proposals aggregated about \$66,450,000 face amount. On March 1 1926, under the same plan as adopted in Nov. 1925, another offer to buy in about \$100,000,000 more of these bonds was made. This proposal expired at the close of business on March 10. All proposals for sale at prices at not exceeding 101 10-32 were accepted, such proposals aggregating about \$121,750,000 face amount. All tenders for sale at prices over the above price were rejected. (See "Chronicle" of March 6, page 1244, and also issue of March 20 1926, page 1550.)

The Treasury Department redeemed on Feb. 2 1925 the remaining \$118,489,900 bonds of the old 4% loan of 1925.

Note.—The Act authorizing the First Liberty Loan was given in the "Chronicle" of April 28, page 1649, with further particulars in the issue of May 12 1917, page 1849, and the text of the Treasury circular in the issue of May 19, page 1959; and of the Second Loan the full text of the bill as it became a law in the "Chronicle" of Sept. 29 1917, page 1252, and the text of the Treasury circular in the issue of Oct. 6, page 1355. The Act authorizing the Third Liberty Loan was presented in the "Chronicle" of April 6 1918, page 1404, and the text of the Treasury circular in the issue of April 13, page 1517. The Act authorizing the Fourth Liberty Loan appeared in the "Chronicle" of July 13 1918, page 131, the Treasury circular in the issue of Oct. 5, page 1328, and the text of the Liberty Bond Exemption Bill on Oct. 5, page 1327. The Act authorizing the Fifth (Victory) Liberty Loan was given in the "Chronicle" of March 8 1919, page 919, and the text of the Treasury Circular in the issue of April 26 1919, page 1670. Certificates of indebtedness have been issued from time to time under the Act of April 24 1917 and the amendatory Acts of Sept. 24 1917, April 4 1918, July 9 1918 and March 3 1919, always for short periods. The offering of 25-30-year long-term Treasury bonds made in October 1922 was given in the issue of Oct. 14 1922, page 1684; details of subscriptions and allotments in the issue of Nov. 18, page 2219. The offering of the 20-30-year Treasury bonds made in December, 1924, was reported in the "Chronicle" of Dec. 6 1924, page 2594; Dec. 13, page 2717; Dec. 20, page 2829, and Dec. 27, page 2959. The offering of the additional 20-30-year (opt.) Treasury bonds was reported in the "Chronicle" of March 7 1925, page 1156, and March 14 1925, page 1264. The offering of 3¼% 20-30-year Treasury bonds in March 1926 was reported in the "Chronicle" of March 13 1926, page 1401 and March 20 1926, page 1550.

In the following we present a detailed statement of the debt of the United States as made up by the Treasurer at the close of business on Nov. 30 1926, this being based on the daily Treasury statements, and, therefore, subject to revision in a minor way.

INTEREST-BEARING DEBT OUTSTANDING NOV. 30 1926

Title of Loan.	Authorizing Act.	Rate.	When Redeemable or Payable.	Interest Payable.	Amount Issued.	Amount Retired.	Amount Outstanding.

Treasurer (1st Monday Jan. 1927)..... Solomon Levitan
Attorney-General (1st Mon. Jan. 1927)..... Herman Ekern

LEGISLATURE meets biennially in odd years on the second Wednesday in January, and there is no limit to length of sessions.

HISTORY OF DEBT.—A brief summary of the early history of the Wisconsin debt will be found in the "State and City Supplement" for April 1895. The bonded debt of the State, created for war purposes in 1861-63, has all been paid or else converted into certificates of indebtedness, which are held by the various trust funds. The amounts due the several funds in July 1 1926 were as follows:

Certificates of indebtedness, School Fund.....	\$1,163,700
Normal School Fund.....	600,000
Total.....	\$1,763,700

ASSESSED VALUATION.—The total assessed valuation of the State as determined by the State Tax Commission, and the tax rate for State purposes, have been as follows for the years named below:

Year.	Real Estate.	Personal Property.	Total Valuation.	Rate (per M)	Taxes Raised.
1926.....	4,699,507,754	895,331,444	5,594,839,198	---	---
1925.....	4,478,477,195	871,985,847	5,350,463,042	---	---
1924.....	4,077,203,167	873,259,950	4,950,463,117	1.0017	14,959,284
1923.....	3,983,228,987	863,536,623	4,846,765,610	1.0775	6,222,526
1922.....	3,819,758,112	844,647,339	4,664,407,451	1.3099	6,110,089
1921.....	3,670,090,188	924,649,774	4,594,739,962	1.6777	7,801,451
1920.....	3,565,811,448	1,004,887,082	4,570,698,530	1.7012	7,775,371
1919.....	3,178,663,175	889,605,359	4,068,268,534	3.9023	15,875,865
1918.....	3,045,683,229	800,500,515	3,846,183,744	1.3227	5,087,447
1917.....	2,929,281,764	678,188,678	3,607,470,442	1.3300	4,797,946
1916.....	2,819,280,345	607,516,875	3,426,797,220	1.3300	4,579,758
1915.....	2,702,982,005	596,749,403	3,299,731,408	1.342	4,430,736
1914.....	2,592,983,150	580,006,004	3,172,989,154	1.6616	5,272,363
1913.....	2,308,301,611	533,328,806	2,841,630,416	0.9032	2,566,711

1895.....	482,799,128	120,674,398	603,473,526	2.2746	1,372,713
1890.....	464,782,237	128,108,482	592,890,719	1.5040	891,660
1879.....	344,788,721	94,183,030	438,971,751	1.5081	662,059

*The large increase in values for 1901 and since that date is due to the formation of a new State Board of Assessment by Chapter 237, Laws of 1901, which has construed the existing law to be a command to assess at full value, whereas former boards did not so construe the Act.

† Includes soldier bonus levy. a \$1,115,000 of this amount was remitted of this amount \$1,500,000 was remitted.

[The 1915 Legislature passed an Act (Chapter 407, Laws 1915) providing for the re-assessment of railroad companies so as to include certain docks and elevators omitted from prior valuations and for the distribution of the taxes collected from such docks and elevators to the cities, towns and villages in which they are located.]

DEBT LIMITATION.—The constitutional provision of Wisconsin restricting debt-making are very rigorous, plain and comprehensive. Since the amendment adopted in 1874, debts of cities, &c., as well as the State, are definitely limited by that instrument. We give the provisions first which relate to the State and, after, those which have reference to cities, &c.

(1) STATE INDEBTEDNESS is confined within very close bounds. The sections which cover the subject are Sections 3, 4, 6, 7, 9 and 10 of Article 8. Section 10 was amended by the voters on Nov. 4 1924 and further provides that the State may appropriate money (not exceeding in any one year 2-10 of 1 mill of State's assessment of taxable property) for the purpose of acquiring, preserving and developing the forests of the State. We give them in full below.

SECTION 3. Credit of State, for what not given. The credit of the State shall never be given or loaned in aid of any individual, association or corporation.

SECTION 4. Contracting Debts. The State shall never contract any public debt, except in the cases and manner herein provided.

SECTION 6. Limitation on Public Debt. For the purpose of defraying extraordinary expenditures, the State may contract public debts (but such

debts shall never in the aggregate exceed \$100,000). Every such debt shall be authorized by law, for some purpose or purposes to be distinctly specified therein; and a vote of a majority of all the members elected to each House to be taken by yeas and nays, shall be necessary to the passage of such law and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt, and the principal within five years from the passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation shall not be repealed, nor the taxes be postponed or diminished, until the principal and interest of such debt shall have been wholly paid.

SECTION 7. State may borrow money, when. The Legislature may also borrow money to repel invasion, suppress insurrection or defend the State in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was authorized or to the repayment of the debt thereby created.

SECTION 9. Evidences of debt. No scrip, certificate, or other evidence of State debt whatsoever, shall be issued except for such debts as are authorized by the sixth and seventh sections of this article.

SECTION 10, as amended in 1924, reads:

Internal improvements. The State shall never contract any debt for works of internal improvement, or be a party in carrying on such works; but whenever grants of land or other property shall have been made to the State, especially dedicated by the grant to particular works of internal improvement, the State may carry on such particular works, and shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion. Provided that the State may appropriate money in the treasury or to be thereafter raised by taxation for the construction or improvement of public highways. Provided, that the State may appropriate moneys for the purpose of acquiring, preserving and developing the forests of the State; but there shall not be appropriated under the authority of this section in any one year an amount to exceed two-tenths of one mill of the taxable property of the State as determined by the last preceding State assessment."

(2) CITIES, counties, towns, villages, &c., were unrestricted except by legislative enactment until 1874, when an amendment, adding Section 3 to Article XI of the Constitution, was adopted, regulating the creation of debt by municipalities. Since that amendment was adopted 5% on the value of the taxable property has been the extreme amount of debt permissible for any municipality. Not only is that the case, but, as will be seen, the municipality is required before, or at the time when it incurs any indebtedness, to make provision for (or according to decisions of the State Supreme Court) levying an annual tax sufficient to pay the interest and also sufficient to pay the principal within twenty years from the time of contracting the debt. The voters in Nov. 1912 adopted an amendment to Section 3 of Article XI of the Constitution, extending the time to fifty years within which cities or counties having a population of 150,000, or over, shall pay debts incurred for the acquisition of land. Section 3 was again amended by the voters on Nov. 4 1924. Under the amendment adopted cities and villages, by following the methods of determination which may be prescribed by the Legislature, will have all powers of determining their local affairs and government not prohibited by the Constitution or by "such enactments of the Legislature of State-wide concern as shall with uniformity affect every city or every village." The section referred to now reads as follows, the matter added in 1924 being placed in italics:

Section 3, Article XI.—It shall be the duty of the Legislature, and they are hereby empowered, to provide for the organization of cities and incorporated villages, and to restrict their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, so as to prevent abuses in assessments and taxation, and in contracting debts by such municipal corporations.

Cities and villages organized pursuant to State laws * * * are hereby empowered to determine their local affairs and government, subject only to this Constitution and to such enactments of the Legislature of State-wide concern as shall with uniformity affect every city or every village. The method of such determination shall be prescribed by the Legislature. * * *

No county, city, town, village, school district or other municipal corporation shall be allowed to become indebted in any manner or for any purpose to any amount, including existing indebtedness, in the aggregate exceeding 5% on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness. Any county, city, town, village, school district, or other municipal corporation incurring any indebtedness as aforesaid shall, before or at the time of doing so, provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same; except that when such indebtedness is incurred in the acquisition of lands by cities, or by counties having a population of one hundred and fifty thousand or over, for public, municipal purposes or for the permanent improvement thereof, the city or county incurring the same shall, before or at the time of so doing, provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within a period not exceeding fifty years from the time of contracting the same.

The Legislature has from time to time passed laws providing for the issuance of bonds for various specified purposes, but these laws are too numerous to be given here. Such authority is of course subject to the foregoing provisions of the constitution.

At its 1917 session the Legislature passed an Act (Chapter 18, approved March 20) relative to the validity of bonds issued by cities for any purpose,

and providing that: "If the electors of any city, prior to the passage of this Act, shall have voted in favor of issuing bonds for any purpose or purposes and the vote on such bonds shall be invalid by reason of the failure or neglect of the city to print on the ballot by which the proposition of issuing said bonds was submitted to the electors a statement of the amount of bonds theretofore issued by such city for said purpose or purposes and then outstanding as required by Section 943e of the statutes, the Common Council of such city may, notwithstanding such failure or neglect, authorize the issuance of said bonds and when issued, they shall be valid, legal and binding, and of the same force and effect as though said Section 943e of the statutes had been fully complied with." V. 104, p. 1308.

BONDS OF MUNICIPALITIES—WHETHER TAXABLE OR NOT.—By Chapter 516 of the Laws of Wisconsin for 1911, bonds issued by Wisconsin municipalities were made exempt from taxation within the State, V. 93, p. 607. Under date of April 7 1919, however, we were informed in a letter from John H. Leenhouts, Assessor of Incomes, that "under the Wisconsin law all intangible securities were exempt from local assessment as personal property, but in lieu of this exemption the income from such securities is taxable to the recipient. The only bonds or securities which are exempt under our law to-day are the issues of the Federal Government, such as Liberty Loan bonds, and bonds issued under the Federal Farm Loan Act." V. 108, p. 1533.

Bonds of the State of Wisconsin are taxable. Secs. 1034 and 1038, Wisconsin Statutes, 1919.

SAVINGS BANK INVESTMENTS, &c.—DEPOSITS—HOW INVESTED.—The provisions regulating the investments of deposits of any mutual savings bank are contained in Section 2024, paragraphs 68, 69 and 138, of the Banking Law of Wisconsin, revision of 1915.

Paragraph 68 was amended in 1917 so as to permit investment in bonds issued by the Federal Land Bank in the Federal Land Bank District of which Wisconsin is a part. The three sections referred to were given in full in the State and Municipal Compendium for December 26 1925, page 8.

POPULATION OF Wisconsin has been as follows:

1920	2,632,067	1890	1,693,330	1860	775,881
1910	2,333,860	1880	1,315,497	1850	305,391
1900	2,069,042	1870	1,054,670	1840	30,945

1860				36,753,408	

Note.—Total taxes levied, including those collected by municipalities as well as the State, for 1922 were \$114,032,640.99; for 1921, \$114,541,635.09; for 1920, \$115,391,095.69; for 1919, \$96,938,405.04; for 1918, \$72,209,940.32. The tax rate given in the table above, however, is for State purposes alone.

x The State Legislature in 1911 passed an Act (Chapter 285), making money and credits exempt from general taxation, but providing that such property shall be taxed annually at the rate of three mills per dollar. We do not include in the above the valuation of money and credits since the enactment of this law. The valuation of money and credits since 1910 has been as follows: 1910, \$115,676,126; 1911, \$134,826,568; 1912, \$156,252,274; 1913, \$197,625,914; 1914, \$197,625,914; 1915, \$213,078,632; 1916, \$223,858,138; 1917, \$285,662,756; 1918, \$330,270,597; 1919, \$359,112,619; 1920, \$443,092,869; 1921, \$445,745,839; 1922, \$400,960,331.

DEBT LIMITATION.—Minnesota has sought to protect the State from excessive debt issues through restrictions in its Constitution, but the amendments of 1920 and 1922, referred to below, have greatly modified these restrictions. The Constitution fixes the limit of debt at \$250,000 "for the purpose of defraying extraordinary expenditures"; and an amendment, ratified in 1879, extended this power to \$250,000 additional "for erecting and completing buildings for the insane, a deaf, dumb and blind asylum and State prison." On Nov. 2 1920 the voters approved an amendment which added Article 16, providing for the creation of a State highway system and authorizing the issuance of \$10,000,000 bonds per year for that purpose, to a grand aggregate of \$75,000,000. Then in November 1922 the voters ratified another amendment to Article 9. This changed Section 10 so as to allow the State to organize a rural credit system and to incur indebtedness in unlimited amount to carry the amendment into effect. Under authority of this amendment the State Legislature in 1923 enacted a law organizing a rural credit system and authorizing the issuance of \$40,000,000 bonds. This amount was increased to \$70,000,000 under amendment to the law made by the 1925 Legislature (Chapter 270, Laws of 1925). With regard to the debt of municipalities, there is but one section in the Constitution which relates to that subject, and that has reference to making railroad debt. On Nov. 4 1924 an amendment adding Article 17A to the Constitution which empowers the State and its political subdivisions to undertake the prevention and abatement of forest fires and to incur debts and pledge the public credit in so doing was ratified. It is given further below.

FIRST, as to State indebtedness, Article 9, Sections 5, 6, 7, 8, 10 and 14, and Article 16 follow:

SECTION 5. (State Debt Limited—How Contracted).—For the purpose of defraying extraordinary expenditures, the State may contract public debt but such debts shall never, in the aggregate, exceed two hundred and fifty thousand dollars; every such debt shall be authorized by law for some single object, to be distinctly specified therein, and no such law shall take effect until it shall have been passed by the vote of two-thirds of the members of each branch of the Legislature, to be recorded by the yeas and nays on the journals of each House respectively; and every such law shall levy a tax annually sufficient to pay the annual interest of such debt, and also a tax sufficient to pay the principal of such debt within ten years from the final passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation and taxes shall not be repealed, postponed or diminished, until the principal and interest of such debt shall have been wholly paid. The State shall never contract any debts for works of internal improvements, or be a party in carrying on such works, except in cases where grants of land or other property shall have been made to the State, especially dedicated by the grant to specific purposes, and in such case the State shall devote thereto the avails of such grants, and may pledge or appropriate the revenue derived from such works in aid of their completion.

SECTION 6 (Issue of Bonds for Created Debt).—All debts authorized by the preceding section shall be contracted by loan on State bonds of amounts not less than five hundred dollars each on interest, payable within ten years after the final passage of the law authorizing such debt; and such bonds shall not be sold by the State under par. A correct registry of all such bonds shall be kept by the Treasurer, in numerical order, so as always to exhibit the number and amount unpaid and to whom severally made payable.

SECTION 7 (Limitation as to When Debt May Be Contracted).—The State shall never contract any public debt, unless in time of war, to repel invasion or suppress insurrection, except in the cases and in the manner provided in the fifth and sixth sections of this article.

SECTION 8 (Disposition of Funds Received for Bonds).—The money arising from any loan made, or debt or liability contracted, shall be applied to the object specified in the Act authorizing such debt or liability, or to the repayment of such debt or liability, and to no other purpose whatever.

SECTION 10.—Credit of the State Prohibited but Rural Credits to an Unlimited Extent May Be Granted.—The credit of the State shall never be given or loaned in aid of any individual, association or corporation except as hereinafter provided. Nor shall there by any further issue of bonds denominated "Minnesota State Railroad Bonds," under what purports to be an amendment to Section 10 of Article 9 of the Constitution, adopted April 15 1858, which is hereby expunged from the Constitution, saving, excepting and reserving to the State, nevertheless, all rights, remedies and forfeitures accruing under said amendment. Provided, however, that for the purpose of developing the agricultural resources of the State, the State may establish and maintain a system of rural credits and thereby loan money and extend credit to the people of the State upon real estate security in such manner and upon such terms and conditions as may be prescribed by law, and to issue and negotiate bonds to provide money to be so loaned. The limit of indebtedness contained in Section 5 of this article shall not apply to the provisions of this section, and the purposes for which the credit of the State or the aforesaid municipal subdivisions thereof may be given or loaned as herein provided are declared to be public purposes.

SECTION 14.—(Public Debt for State Buildings).—For the purpose of erecting and completing buildings for a hospital for the insane, a deaf, dumb and blind asylum, and State prison, the Legislature may by law increase the public debt of the State to an amount not exceeding two hundred and fifty thousand dollars, in addition to the public debt already heretofore authorized by the constitution; and for that purpose may provide by law for issuing and negotiating the bonds of the State, and appropriate the money only for the purpose aforesaid; which bonds shall be payable

in not less than ten nor more than thirty years from the date of the same, at the option of the State.

We reprint below part of Section 1 and Section 4 of Article 16, which was adopted at the 1920 general election:

ARTICLE 16, SECTION 1.—Provision for the Establishment of a Trunk Highway System.—There is hereby created and established a trunk highway system which shall be located, constructed, reconstructed, improved and forever maintained as public highways, by the State of Minnesota. The said highways shall extend as nearly as may be along the following described routes, the more specific and definite location of which shall be fixed and determined by such boards, officers or tribunals, and in such manner, as shall be prescribed by law, but in fixing such specific and definite routes, there shall not be any deviation from the starting points or terminals set forth in this bill, nor shall there be any deviation in fixing such routes from the various villages and cities named herein, through which such routes are to pass.

SECTION 4.—Ten Million Dollars Bonds Annually for Highway Purposes May Be Issued.—The Legislature may provide by law for the issue and sale of the bonds of the State in such amount as may be necessary to carry out the provisions of Section 1 of this article, provided, however, that the amount of bonds which may be issued in any one calendar year shall not exceed, in the aggregate, ten million dollars, par value, and provided, further, the total amount of such bonds issued and unpaid shall not at any time exceed seventy-five million dollars, par value. The proceeds of the sale of such bonds shall be paid into the treasury of the State and credited to the trunk highway fund. Any bonds so issued and sold shall be for a term not exceeding twenty (20) years. They shall not be sold for less than par and accrued interest and shall not bear interest at a greater rate than five per cent per annum. In case the trunk highway sinking fund shall not be adequate to meet the payment of the principal and interest of the bonds authorized by the Legislature as hereinbefore provided, the Legislature may provide by law for the taxation of all taxable property of the State in an amount sufficient to meet the deficiency, or it may, in its discretion, appropriate to such sinking fund moneys in the State treasury not otherwise appropriated.

Section 5 repeals all provisions of the Constitution inconsistent with Article 16.

SECOND, as to city, county or other municipality, the only restriction on the debt-making power in the constitution is the following, found in article 9, section 15:

ART. 9, SEC. 15.—(Municipal Debts in Aid of Railroads).—The Legislature shall not authorize any county, township, city or other municipal corporation to issue bonds, or to become indebted in any manner, to aid in the construction or equipment of any or all railroads to any amount that shall exceed five per centum of the value of the taxable property within such county, township, city, or other municipal corporation, the amount of such taxable property to be ascertained and determined by the last assessment of said property made, for the purpose of State and county taxation, previous to the incurring of such indebtedness.

The foregoing was adopted as an amendment in 1879. Before its adoption the section read so as to authorize municipal corporations to issue bonds in aid of railroads to ten per cent of valuation. Hence the amendment consisted in simply changing the word *ten* and making it *five*.

This is all the constitution contains with reference to the debts of municipalities.

ARTICLE 17A.—(State and Political Subdivisions May Incur Debts for Prevention and Abatement of Forest Fires.)—

SECTION 1.—The State and (or) any of its political subdivisions, if and whenever authorized by the Legislature, may contract debts and pledge the public credit for and engage in any work reasonably tending to prevent or abate forest fires, including the compulsory clearing and improvement of wild lands (whether belonging to the public or privately owned) and the assessment against such land of the value of all benefits so conferred and the payment of damages so sustained in excess of such benefits.

Section 2. Any and all provisions of the Constitution of the State of Minnesota inconsistent with the provisions of this article are hereby repealed, so far, but only so far, as the same prohibit or limit the power of the Legislature to enact laws authorizing or permitting the doing of the things hereinbefore authorized.

Legislative Provisions.—The Legislature, however, has made some general provisions governing bond issues which are contained in Sections 1851, 1862, 1903, 1906, 1907 and 1932 of the General Statutes, 1913.

Section 1851 provides that "no city of the first class shall hereafter incur or be subject to a net indebtedness in excess of 5% of its assessed value, nor shall any other municipal corporation except school districts become so indebted beyond 10% of such value." It is provided also "that if the net indebtedness of any municipality, at the time when the Revised Laws take effect, shall exceed the limit herein fixed, or if any village thereafter organized as a city under a home rule charter shall be subject to such excess when so organized, either may issue and sell new bonds sufficient in amount to refund all or any part of such existing indebtedness, but the same shall not thereby be increased."

Section 1862 relating to independent school districts situated wholly or in part within any city having a population of more than 50,000, states that "no such school district shall have power to issue bonds or any evidences of indebtedness running more than two years, whenever the aggregate of the outstanding bonds and evidences of indebtedness of such district equals or exceeds 3% of the assessed value of all taxable property within such school district."

There is no legislation regarding the indebtedness of smaller school districts, but a recent decision of the State Supreme Court regarding the issuance of bonds by such districts furnishes a guide. The Supreme Court, in a decision May 18 1923, held that there was no legislative limit placed upon the indebtedness of smaller districts, and therefore such districts could incur unlimited debt without violating any law. The Court at the same time overruled a contention that the debt of such districts was automatically limited by a limit of 8 mills placed upon the tax that may be levied in any one year for the purchase of sites and erection of buildings, holding that this was not meant to limit the tax that might be levied for bonds and interest. See V. 116, p. 2418.

Section 1903 refers to cities having a population of 20,000 or less and provides that bonds may be issued for such purposes as permanent improvement, bridge, shipping terminal, water and light, city hospital, school and general fund, but stipulates that "none of such bonds above described shall be issued whereby the aggregate bonded indebtedness of the city, excluding any funds, bonds or balances held in a sinking fund, shall be made to exceed 10% of the assessed valuation of the taxable property within the city, provided, however, for the purpose of determining the limitation bonds issued for the purpose of acquiring, constructing, improving, operating or purchasing water power or lighting plants shall not be included."

No bonds authorized by this Act shall be issued by any city, until the issuance thereof shall have been first authorized by a three-fifths vote of the legal voters of the city voting upon the question, and the question of the issuance of such bonds shall be submitted to the electors of the city proposing to issue the same at a general or special election.

Cities having more than 10,000 and not more than 20,000 inhabitants, in addition to all the powers previously possessed by such cities, are authorized by Section 1906 to issue bonds for local improvements not exceeding \$25,000, and according to Section 1907 "the bonds authorized by Section 1 of this Act (Section 1906) or any portion thereof, may be issued and sold by any such city notwithstanding any limitation contained in the charter of such city or in any law of this State, prescribing or fixing any limit upon the bonded indebtedness of such city, but the full faith and credit of any such city shall at all times be pledged for the payment of any bonds issued under this Act and for the current interest thereon, and the city council and common council of such city shall each year include in the tax levy for such city a sufficient amount to provide for the payment of such interest and for the accumulation of a sinking fund for the redemption of such bonds at their maturity."

Section 1932 provides that villages in Minnesota having a floating indebtedness may issue bonds for the purpose of refunding the same; but no such bonds shall be issued, or sold which, with bonds already issued shall exceed 15% of the assessed valuation of real estate of said village.

There has been a mass of other legislation enacted of more or less special application. We have not space here to notice it further than to say that as a rule, bonds for water and light purposes, and possibly for other self supporting enterprises, are not subject to the limitations placed upon indebtedness, and that under Chapter 299, Laws of 1923, no bonds may be sold below par, unless specific provision is made in the law authorizing their issuance that a sale may be effected at less than par.

SOLDIERS' BONUS CERTIFICATES.—The Legislature passed an Act in 1919 creating a Soldiers' Bonus Board and authorizing the "Board to issue certificates of indebtedness in the aggregate amount not to exceed

\$20,000,000 at not less than par and not more than 5% interest. The State Supreme Court on Dec. 19 1919 sustained the decision of the Hennepin County District Court, which on Nov. 5 1919 held that the Soldiers' Bonus Law was valid. (See "Chronicle" Dec. 27 1919, page 2456.) Owing to the inability of the "Board" to sell all of the certificates at par the 1921 Legislature passed an Act permitting the sale of the remainder (\$4,538,000) below their face value. Another Act passed in 1921 provided an additional million of bonus certificates.

COUNTY DITCH BONDS, THEIR SECURITY AND METHOD OF ISSUANCE.—For illustration of method of issuing ditch bonds and the security back of them, see "Chronicle" of Oct. 30 1916, page 1490.

DRAINAGE BONDS DIRECT OBLIGATIONS OF COUNTY.—The State Supreme Court holds that drainage bonds issued under Sec. 18, Chapter 230, of the general laws of 1905 as amended, are direct and general obligations of the county issuing the same. V. 94, p. 365.

SUPREME COURT RULING AFFECTING SCHOOL BONDS.—The State Supreme Court on Dec. 28 1917 ruled that bond issues for the erection of new school buildings must be initiated with the passage of resolutions by boards of education under Minnesota laws, otherwise a vote of a school district to that end is ineffective. V. 106, p. 205.

MORTGAGE TAX LAW.—The Legislature of 1907 enacted a law which became effective April 30 1907, imposing a tax of 50 cents upon each hundred dollars of the principal debt, secured by any mortgage of real property located within the State, recorded or registered on or after April 30 1907. The text of this law was given on page 1194 of the "Chronicle" of May 18 1907. This law, as amended, provides for a tax of 25 cents on each hundred dollars of a mortgage running for not more than 5 years and 60 days and 15 cents on a hundred dollars of a mortgage running for more than 5 years and 60 days. The law now reads as follows:

"Sec. 2302. A tax of 15 cents is hereby imposed upon each hundred dollars, or fraction thereof, of the principal debt or obligation which is, or in any contingency may be, secured by any mortgage of real property situate within the State executed and delivered after the passage and approval hereof and recorded or registered hereafter; provided that any such mortgage heretofore executed and delivered shall not be recorded or registered without payment of the tax originally stipulated in section 2 hereof as originally enacted; provided further, that if any such mortgage shall describe any real estate situate outside of this State, such tax shall be imposed upon such proportion of the whole debt secured thereby as the value of the real estate therein described situate in this State bears to the value of the whole of the real estate described therein, as such value shall be determined by the State Auditor upon application of the mortgagee; and provided further, that if the maturity of any portion of said debt secured by the said mortgage, as therein stipulated, shall be fixed at a date more than five years and sixty days after the date of said mortgage, then and in that case the tax to be paid on such portion shall be at the rate of 25 cents on each hundred dollars or fraction thereof."

TAXATION OF MUNICIPAL BONDS, MONEY AND CREDITS.—Under authority of Chapter 242, Laws of 1911 (Section 1971, General Statutes, 1913), bonds thereafter issued by the State of Minnesota and its political subdivisions, are exempt from taxation. See V. 92, p. 1263. The law reads: "That bonds and certificates of indebtedness hereafter issued by the State of Minnesota, or by any county, city or village of said State, or any township, or any common or independent school district of said State, or any governmental board of said State, or any county, city or village thereof, shall hereafter be exempt from taxation, provided that nothing herein contained shall be construed as exempting such bonds from the payment of a tax thereon, as provided for by Chapter 288, Laws of 1905 (Secs. 2271 to 2298, Gen. Stat., 1913), when any of such bonds constitute in whole or in part any inheritance or bequest, taken or received by any person or persons or corporation."

In 1923 the Legislature passed a law (Chapter 102) amendatory to Section 2316, Gen. Stat. of 1913, which levies a tax of 3 mills on a dollar of certain money and credits. Under this statute, bonds issued by States other than Minnesota and by municipalities located outside Minnesota are taxable at the rate of 3 mills on the dollar. This section now reads:

2316. As used in this section the word "money" means gold and silver coin, treasury notes, bank notes and other forms of currency in common use; and the word "credits" means and includes every claim and demand for money or other valuable thing, and every annuity or sum of money receivable at stated periods, due or to become due, and all claims and demands secured by deed or mortgage due or to become due, and all shares of stock in corporations the property of which is not assessed or taxed in this State.

As hereinbefore defined, money and credits are hereby exempt from taxation other than that imposed by this Act and shall hereafter be subject to an annual tax of 3 mills on each dollar of the fair cash value thereof. But nothing in this Act shall apply to money or credits belonging to incorporated banks located within this State, nor to any indebtedness on which taxes have been properly and fully paid under the provisions of Sections 2301-2309, General Statutes of Minnesota 1913 [mortgage tax law referred to above—Editor], nor to moneyed capital in the hands of individual citizens of this State coming into competition with the business of national banks; provided, that bonds, notes or other evidences of indebtedness in the hands of individual citizens not employed or engaged in the banking or investment business and representing merely personal investments not made in competition with such business, shall not be deemed moneyed capital within the meaning of this section.

SAVINGS BANK INVESTMENTS.—The law relating to the investment of savings banks funds in the State of Minnesota is contained in Section 6393 of the General Statutes of 1913. This section was amended in 1917 so as to provide that investments may be made in Federal Farm Loan bonds and in 1919 so as to allow of the purchase of bankers' acceptances. The law was further amended by Chapter 421, Laws of 1923. Section 6393 now reads:

Section 6393. The trustees of any savings bank shall invest the moneys deposited therein only as follows:

1. In the bonds or other interest-bearing obligations of the United States, or in securities for the payment of which and interest thereon the faith of the Government is pledged.

2. In the bonds of any State which has not defaulted in the payment of any bonded debt within 10 years prior to the making of such investment.

3. In the bonds of any county, city, town, village, school, drainage or other district created pursuant to law for public purposes in Minnesota, or in any warrant, order, or interest-bearing obligation issued by this State, or by any city, county board, town or county therein, provided that the net indebtedness of any such municipality or district, as net indebtedness is defined by Revised Laws of 1905, Section 777 (1848), and its amendments, shall not exceed 10% of its assessed valuation, or in the bonds of any county, city, town, village, school, drainage or other district created pursuant to law for public purposes, in Iowa, Wisconsin and North and South Dakota, or in the bonds of any city, county, town, village, school district, drainage or other district created pursuant to law for public purposes, in the United States, containing at least 3,500 inhabitants; provided that the total bonded indebtedness of any such municipality or district shall not exceed 10% of its assessed valuation.

4. In notes or bonds secured by mortgages or trust deeds on unencumbered real estate in Minnesota, Wisconsin, Iowa, North Dakota, South Dakota and Montana, worth when improved at least twice and when unimproved at least three times the amount loaned thereon. But not more than 70% of the whole amount of the moneys of the bank shall be so loaned and such investment shall be made only on report of a committee directed to investigate the same and report its value, according to the judgment of its members, and its report shall be preserved among the bank's records.

5. In notes secured by such bonds or mortgages, as the bank under this section is authorized to invest in, but no such bond or mortgage shall be taken as collateral security for more than its par value, nor shall the aggregate amount of securities taken be less than the full amount loaned thereon and no such loan shall be made for a longer time than one year, nor to a greater amount to any one person than 3% of the total deposits of the bank. No such bank shall loan in the aggregate, on the security specified in this paragraph, more than 1/4 of its deposits.

6. In the bonds of any railroad company, or the successor of any railroad company, which has received a land grant from the Government and whose bonds are secured by first lien upon its railroad.

7. In the bonds of any other railroad company, which are secured by first lien upon a railroad within the United States, or in the mortgage bonds of any such company, of an issue to retire all prior mortgage indebtedness thereof, or in the bonds of any railroad company in the United States which are guaranteed or assumed by another railroad company within the United States; provided, that the railroad company, except one whose bonds are so guaranteed or assumed, either issuing, guaranteeing, or

assuming any of such bonds, has not within five years prior to such investment failed in the payment of a dividend upon its entire capital stock outstanding of not less than 4% per annum each fiscal year, and has not within such time defaulted in the payment of any part of the principal or interest of any debt incurred by it and secured by trust deed or mortgage upon its road or any part thereof, or in the payment of any part of the principal or interest of any bonds guaranteed or assumed by it. But no such bank shall loan upon or invest in railroad bonds to an amount exceeding in the aggregate 20% of its deposits, nor exceeding 5% of its deposits in the bonds issued, guaranteed or assumed by any one railroad company.

8. In farm loan bonds issued by the Federal Land Bank in the Federal Land Bank District of which the State of Minnesota is a part, or by a branch of said Federal Land Bank, or by a Joint Stock Land Bank in said district, in accordance with the provisions of an Act of Congress of the United States of July 17 1916, known and designated as "The Federal Farm Loan Act," and Acts amendatory thereto.

9. In bankers' acceptances of the kind and character following:

a. Bankers' acceptances of the kind and maturities made eligible by law for rediscount with or purchase by Federal Reserve banks, providing the same are accepted or endorsed by a bank, or a trust company incorporated under the laws of this State; or by any bank or trust company in the United States which is a member of the Federal Reserve System.

b. Not more than 20% of the assets of any savings bank shall be invested in such acceptances. Not more than 7% of the aggregate amount credited to the depositors of any savings bank shall be invested in the acceptances of or deposited with a trust and banking company or with a national bank of which a trustee of such savings bank is a director.

10. In equipment obligations or equipment trust certificates: Provided that such obligations or certificates mature not later than 15 years from their date and are issued or guaranteed by a corporation to which a loan or loans for the construction, acquisition, purchase or lease of equipment have been made or approved by the Inter-State Commerce Commission, under authority conferred by Act of Congress of the U. S. of America or are secured by or on evidence of a prior or preferred lien upon interest in, or of reservation of title to, the equipment in respect of which they have been sold, or by an assignment of or prior interest in the rent or purchase notes given for the hiring or purchase of such equipment, and provided, further, that the total amount of principal of such issue of equipment obligations or trust certificates shall not exceed 60% of the cost or purchase price of the equipment in respect of which they were issued. The remaining 40% of said cost or purchase price having been paid by or for the account of the railroad or constructing, requiring, purchasing or leasing said equipment, or by funds loaned or advanced for the purpose by the Government of the U. S. or one of its agencies or instrumentalities and subordinated in the event of default, in respect of the lien or interest thereof upon or in such equipment or rent or purchase notes, to the lien or interest of said prior preferred equipment obligations or equipment trust certificates.

The term "authorized securities" whenever used in the Revised Law shall be understood as referring to the securities specified in this section.

At least half of the whole amount deposited shall be invested:

First—In the bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is pledged for the payment of the interest and principal.

Second—In the bonds of any State in the Union, provided that such State has not within ten (10) years previous to making such investment by such corporation defaulted in the payment of any part of the principal or interest on any debts authorized by any Legislature of such State to be contracted, and of the State of Minnesota, issued since 1860.

Third—In the bonds of any city, county, town, village or school district in the States of Minnesota, Wisconsin, Iowa, North Dakota, South Dakota, Montana, Illinois, Indiana, Ohio or Michigan, or in any warrants or interest-bearing obligations issued by the said States or counties in said States, or city or county board, town, village or school district within the county in which such banks shall be situated, or in the bonds of any city, county, town, village or school district of the United States, which city, county, town, village or school district had at least five thousand (5,000) inhabitants as determined by the State or United States Census taken next preceding the issue of bonds tendered; provided, that the bonded indebtedness of any such city, county, town, village or school district so tendering bonds shall not exceed ten per centum upon the assessed valuation of such city, county, town, village or school district at the time of the issue of the bonds tendered.

Fourth—In notes secured by mortgage on unencumbered real estate situate in the States of Minnesota, Wisconsin, Iowa, Montana, North Dakota or South Dakota, and worth at least twice the amount loaned thereon, but in case the loan is on unimproved or unproductive real estate the amount loaned thereon shall not be more than thirty (30) per cent of its actual value, and no investment in any bond and mortgage shall be made by any savings bank except upon the report of a committee charged with the duty of investigating the same, and who shall certify to the value of the premises mortgaged, or to be mortgaged, according to their best judgment, and such report shall be filed and preserved among the records of the institution.

Fifth—The remaining one-half (1/2) may be invested in said bonds or loaned on the aforesaid securities or upon approved personal or collateral security or in the bonds of any railroad company as hereinafter provided, or used to buy and sell exchange.

Sixth—In the bonds of any railroad company, or the successor of any railroad company, which has received a land grant from the Government of the United States, and which are secured by first lien upon its railroad.

Seventh—In the bonds of any other railroad company, which are secured by first lien upon a railroad within the United States, or in the mortgage bonds of any such railroad company of an issue to retire all prior mortgage indebtedness of such railroad company; or in the bonds of any railroad company within the United States, which are guaranteed or assumed by another railroad company, within the United States; provided that the railroad company (except a railroad company whose bonds are guaranteed or assumed as aforesaid) either issuing, guaranteeing or assuming any of said bonds has not within five years prior to the time of making such investment by said bank failed in the payment of a dividend, upon its entire capital stock outstanding, of not less than four (4) per cent per annum each fiscal year during said five-year period; and has not within five years prior to the time of making such investment by said bank defaulted in the payment of any part of the principal or interest of any debt incurred by it and secured by mortgage or trust deed upon its railroad, or any part thereof, or in the payment of any part of the principal or interest of any bonds guaranteed or assumed by it; and provided further, that no savings bank shall ever loan upon or invest in railroad bonds to exceed in the aggregate twenty (20) per cent of its deposits, nor shall such savings bank ever loan upon or invest in the bonds issued or guaranteed or assumed by any one railroad company to exceed in the aggregate five (5) per cent of its deposits.
